Mrs. Alice Sherwood, widow of the late W. [illegible] Sherwood, a resident of the Mannville district for the past 43 years passed away at her home on Saturday Feb. 8th. She was 75 years of age. Funeral services were held on Wednesday afternoon Feb. 12 at St. Saviour's church. A complete obituary will appear in next week's issue of the Standard.

MILITARY NOTES

All personnel of "A" Company of The Loyal Edmonton Regiment (R) proceeding on Exercise HUSKY, Wainwright, please get in touch with Sgt. Langell at the armouries before Saturday Feb. 16th.

Personnel not attending Exercise HUSKY will parade as usual. Belts, anklets and winter meltons will be worn.

National Boy Scout and Girl Guide Week Feb. 16 - 23

The week of Feb. 16-23 has been designated as National Boy Scout and Girl Guide week across Canada. Although this movement has only recently been re-organized in Vermilion it has become a strong one. At the present time only the Scouts and Cubs are functioning but it is hoped to have the Girl Guides and Brownies organized in the near future.

One cannot emphasize too strongly the good work with the growing generation that the Scout movement does. It is something that deserves the support and consideration of every citizen and not just the parents of the youngsters concerned.

Both the Cubmaster and Scoutmaster are in need of as much assistance as possible and anyone who would like to help in the work is urged to get in touch with the local committee.

Man Who Refused To Lower Union Jack Is Honored

OTTAWA. The man who refused to lower the Union Jack at Singapore has been awarded the Order of the British Empire. Defence Headquarters announced.

He is Lt.-Col. Arthur Robert Stewart of Vancouver commander of the first party to reach Singapore in September 1945. In its precise official language of understatement the citation said this:

"He was most forceful in his dealing with the Japanese and secured immediately the main vital needs of prisoners of war and internees. He refused to lower it (the Union Jack) despite very strong representations by the Japanese High Command.

"Innumerable expressions of gratitude have been received from prisoners and internees themselves for Lt.-Col. Stewart's work."

Col. Stewart was credited with doing "invaluable work" in looking after the interests of prisoners-of-war interned by the Japanese. He was in complete control of the city from Sept. 1 to Sept. 5, when British [illegible] landed.

Born in China and a police officer in Vancouver before the war, he enlisted as a private with the Irish Fusiliers in 1940. Promoted to regimental sergeant-major, he was commissioned while overseas and later was attached to the British Army for special work in Southeast Asia. Lt.-Col. Stewart was discharged from the Army last August.

ANTLER-SHEDDING TIME

Our zoologists tell us that moose and deer shed their antlers during a period extending from December to March the older animals losing them first. Surprisingly few antlers are found lying about the woods since rodents such as squirrels, mice and porcupines gnaw away at them. Antler is one of the hardest types of bone too.

New York City has 619 miles of subways, of which 315 miles are actually underground.

The average size for east coast salmon is 10 to 15 pounds. 2711

[illegible]

MADISON, Wis. State Senator Clifford W. Krueger has more trouble than anybody.

The 425-pound legislator couldn't fit into a regular chair in the Senate Chamber, so the state Junior Chamber of Commerce arranged for an oversized model.

It came but Krueger can't use it. The 3½ foot width is too wide to permit it to fit between the chairs of seatmates.

[illegible]

Pointing out that not even milk is a perfect, self-sufficient food, nutritionists urge inclusion of all the nutritional factors in diet, by combining such edibles as milk, fruit, vegetables, cereals, bread, meat or fish, so that a meal will provide all the essentials to maintenance of health.

CLASSES DOMESTIC WORK AS SKILLED

VANCOUVER. — No longer can women who visit homes to assist in daily work be regarded as unskilled labor, is the belief of Eleanor S. Morley, supervisor of the women's division of the National Employment Service.

"These people must be classed as household workers," she said. "They are as highly skilled."

The stigma attached to household workers was one reason there was such a shortage of them, she said. Before the war they received as little as five dollars monthly with room and board. Now they are getting 50 cents an hour and more.

"Would-be-employers must learn to accept their household help on the same basis as their business employees," she said. "We have a substantial waiting list of employers, but unless conditions change, the help situation this summer will be in even shorter supply than now."

AVOIDING COLDS

Here's the way National Health authorities suggest one may avoid respiratory infections most common during cold weather: eat regularly, having well-balanced meals; sleep in well-ventilated rooms, clean out impurities of the air-passages by deep breathing, and stay away from obvious cases of sore throat and head colds.

CHICAGO YOUTH GETS NEW FACE

GRAND RAPIDS, Mich.—David Rage, 16-year-old Chicago boy who admitted attempting to extort money to finance a facial operation to eliminate "ape-like" features, was released from a hospital here, his doctor expressing complete satisfaction with the surgery.

The operation was performed Jan. 15 by Dr. Ferris Smith, internationally known plastic surgeon.

David left Grand Rapids in company with relatives, Dr. Smith said.

David has seen his face in the mirror every day since the operation during changes of dressings, Dr. Smith explained, and has frequently expressed "delight" over the results.

He added that the structure of bones and muscles originally had given the boy "a perpetual scowl of a particularly ferocious nature."

FERTILIZER CONSUMPTION

Fertilizer consumption in the United States in 1946 was more than double that used in any prewar year, according to an article in the American [illegible] Magazine. It is estimated that fertilizer used in the U.S. during 1946 amounts to 200 pounds for every man, woman and child in the country. This compares to an estimated Canadian fertilizer consumption equal to approximately 100 pounds per capita, reports C-I-L Agricultural News.

To Feel Right — Eat Right!

GOVERNOR BACKS MILITANT MOOSE

WASHINGTON.—Governor Ernest Gruening of Alaska came forth as a defender of Alaska's militant moose even if they do.

Attack trains.

Cause derailments.

Lope along ahead of the engines and make a farce of railroad schedules.

Gruening rejected a request by Col. John P. Johnson, manager of the Alaska Railroad, that moose who make pests of themselves be reduced to mooseburgers.

"The delay is not sufficiently serious to warrant killing these noble animals whose presence on the railroad, while an occasional handicap to speedy transportation, is more than a compensating feature as an attraction to tourists in the summer time," Gruening said in a reproving telegram.

Johnson, obviously not at all delighted by antics of the wayward beasts, complained that on Jan. 10 alone they caused 14 schedule delays and one derailment.

The Kiwi is the emblem bird of New Zealand.

Farmers WILL BENEFIT

The Alberta Motor Association believes that farmers are vitally interested in the improvement of our Roads and Highways. Good roads enable farmers to market their products in the easiest and most economical manner, especially in the case of perishable products.

Improved highways are vital to the trucker if he is to deliver your products to market economically, regularly and in the best condition possible. It costs from one to eight cents a mile more to travel on dirt roads than on paved or gravel highways.

Improved highways also enable the farmer to do his shopping and other business much more economically and pleasantly. They are a great boon to the farmer's wife and family.

The recently announced $9,500,000 program of the Alberta Government for 1947, if carried out and repeated over a period of years, should have a marked influence in improving the motor transportation in all parts of the Province and be of particular benefit to all rural citizens, especially farmers.

Mature Boars Available

Farmers often dispense with the use of a boar just when he is proving his value by siring superior quality market pigs. A reason commonly given is that he is too big and too heavy. The use of a breeding crate can prolong the period of service, and with the present shortage of boars some thought should be given to retaining these good mature boars for at least another year.

Plans for construction of a practical breeding crate are available from the Live Stock Branch of the Alberta Department of Agriculture, and from District Agriculturists. Not only in times of shortages are these mature boars valuable. Any farmer with a good boar that he desires to regain would be well advised to discuss the matter with his D.A. before disposing of the animal.

Sixteen Years Ago To-day

Interesting Items Gleaned from the Files of The Vermilion Standard
16 YEARS AGO TODAY — 1931

Feb. 12, 1931

W. B. Elford was elected president of the Canadian Legion Post 11 and Harold Reid secretary-treasurer.

Mr and Mrs. O. V. Lind are visiting Vermilion after spending some time on a trip to England, France, Spain and Portugal.

Thirty-two Years Ago Today

Feb. 16, 1915

In the estimates brought down in the Dominion house on Monday night there is an appropriation of $20,000 for a public building at Vermilion. This applies to the new post office for which the site was purchased recently.

For the first time in many years Vermilion curlers are not represented in the Edmonton bonspiel in which sixty rinks are participating this week.

More than $200 was cleared at a patriotic concert and turned over to the Belgium Relief fund.

Up Barley Price Rather Than Bonus Acreage Is Urged

ACREAGE BONUS PLAN CLAIMED TO BE INADEQUATE

Fourteen reasons favoring increased barley price rather than an acreage bonus in order to obtain the greater barley acreage needed to meet Canada's requirements are set forth in a letter forwarded by Cecil Lamont, President of the North-West Line Elevators Association, to Prime Minister King, and just released.

The Dominion Minister of Agriculture recently announced that he would recommend to the Government that it pay a bonus of $5 an acre to induce farmers to increase barley acreage from the 6,720,000 acres sown in 1946 to 8,000,000 acres this year. He further indicated that the acreage bonus would replace the equalization fee of 15 cents paid to farmers on barley marketed.

The letter to the Prime Minister takes the stand that "the world situation calls for maximum possible production of wheat in 1947 and the best means of securing the increased barley acreage proposed is to increase the price paid to farmers rather than to bonus acreage." It further states that "The program appears to us as being designed to meet commitments for bulk sales of bacon and pork products to the British market, without giving due consideration to the best interests of the prairie farmer."

Based on the ten year average prairie production of 24 bushels per acre the acreage bonus would bring the farmer an additional price for barley of 20 and four-fifths cents per bushel. Removal of the equalization fee would mean the net price increase to the farmer would be only 5 and four-fifths cents per bushel. The Line Elevator Companies point out that this is "wholly inadequate" in view of the fact that Canadian barley growers are receiving from 45 cents to $1 per bushel less than export values. If the Government persists in adopting the acreage bonus plan it is urged to continue payment of the 15 cent equalization fee and in addition provide adequate premiums for malting barley.

"If the Government made an error in judgment in determining the price at which forward sales of bacon and pork products should be made it is unreasonable that it should continue to expect the Western farmer to assume financial loss and accept agricultural policies with further loss predicated upon the basis of these sales. If the Government has a firm commitment for the export of bacon to the British Isles then the proper way of meeting that commitment is to directly bonus hog production out of the Dominion Treasury, or, if possible, renegotiate the contracts so that Britain will be paying an adequate price based on present day production costs, the letter says.

—C. H. "Punch" Dickins O.B.E., D.F.C., famous northland flyer and a pioneer in the transatlantic bomber ferry during the late war who has been appointed assistant managing director of De Havilland Aircraft of Canada Ltd. at Toronto.

ETHELWYN

In spite of the extremely cold weather 15 hardy men and women attended the annual school meeting last Saturday. Mr. MacGillivray was elected trustee for another term. A request was again made that the school be repaired, but will such a request be granted? The school is so cold that the teacher would be quite justified in refusing to hold school in it. Children coming cold to school remain cold all day. One interesting fact discussed was the installation of teeter-totters for the playgrounds. A benefit will be held to raise some funds and the men will do the work in the spring. It was suggested that the women and children come also and have a regular old-fashioned bee with lunch served. Donations will probably be asked also to help out the project. Watch for details later. A whist drive is planned with proceeds for the purchase of cocoa provided at school.

Well folks, you can warm up the car and go to town again as Jack Grant plowed out the road.

A lot of complaint is heard these days about the rural mail service. We who are served by Mr Gratton have much to be thankful for. We could almost set our clocks by his arrival at the mail boxes. Bad weather or bad roads Mr Gratton always comes through. Is there anything we, the people can do to help these underpaid mail carriers get a boost in salary? They surely earn more than they receive.

More power to a subscriber from King Edward — here is hoping that your letter brings good results and stirs up that dormant community spirit.

Am I the man I want the world to see?

Comments on EVERYBODY'S BUSINESS

"Do you know," Harry asked me, "what 4,000,000 workers look like?" "No, but I read somewhere that four million dinner pails would reach from Winnipeg to Calgary."

"That helps to visualize the number," said Harry, "but the interesting thing about the four million workers I am talking about, is that they all carry life insurance whether they carry dinner pails or wherever they eat. They are people like our neighbours who live in the houses we can see from here. There are two farm families, then a garageman, a salesman and his daughter who is a stenographer, three factory people, two teachers, an accountant, a banker, a merchant and a contractor."

Life Insurance in Canada is big business because it is the total of the policies of millions of providers who make progress in safety.

Life Insurance is a business built for everybody, a great enterprise which protects the future of more than four million policyholders and their loved ones. Life Insurance offers a systematic and easy way to save. Consult an authorized agent about a plan best suited to your requirements.

MORRISON NEWS

The neighborhood was shocked to learn of the death of an old friend and neighbor, Mrs. Sherwood. Sympathy is extended to the family. It's just over a year ago her husband passed away.

The weather is a little milder and roads are getting passable again.

The ladies held their meeting at Mrs. Laurence Gould's on Wednesday. It was decided to send Mrs. Gunn a Valentine's box consisting of chocolate bars, cookies and good old Scotch shortbread made by Mrs. Gillies — should be good Ruby.

Mr. and Mrs. Dowser, Lila and Kenny were dinner guests at the writer's home on Sunday. All were disappointed in not seeing much of Mrs. Millward and Donald. The weather was certainly on bad behaviour.

We are glad to hear that our old friend Mrs. Evans is doing so nicely.

Things are rather quiet these days, consequently not much news.

Laurence, Chrissie and Lloyd Gould were supper guests at the home of Mr. and Mrs. Gillies' Saturday night. Betty came home from Kitscoty on Friday night with Dr. Sweet. Andrew Meretic came home also, this was the first time Andrew has been home since Christmas.

The writer hears that Mrs. Repp has returned home from her holiday spent in the east. Did you throw your hat in first Mrs. Repp? Come down and pay us a visit.

A jolly sleigh ride is being planned for Valentine's day. Yours truly is to take the team and pick up all the club members. They will all go to Mrs. Payne's to a Valentine tea. Here's hoping the weather stays nice. Hope to see Mrs. Strang at the tea.

U. Y. P. S.

United Church Young Peoples met at the home of Rev. and Mrs. Reikie Sunday, Feb. 24. The meeting was opened by a prayer given by Rev. Reikie. Immediately following the prayer the meeting was taken over by the program committee.

Miss Marion Johansson and Miss Irene Johre acted as leaders for several amusing contests. Rev. Reikie then rendered two piano numbers. While lunch was being served every one relaxed and listened to a splendid collection of recordings of classical music.

We would like to commend the respective committees on the manner in which our evening was conducted. Also we would like to express our thanks to Rev. and Mrs. Reikie for the hospitality shown us on Sunday evening.

The executive were more than pleased to welcome so many new members. Our sincere hope is that this attendance will continue.

The next meeting will be held in the church parlors on Sunday Feb. 16. It will be conducted in an educational manner. The executive will hold their business meeting at that time also. If anyone has any new ideas we wish they would bring them forth at this meeting. It is only through this means that the executive can plan meeting which will be pleasing to all. Full co-operation is required of the members as well as that of the executive.

TO OPEN BOY SCOUT WEEK

Their Excellencies, the Governor-General and Viscountess Alexander will officially open Boy Scout Girl Guide week on Feb. 16th when they will broadcast a special message over the Trans-Canada Network of the CBC at 6 .. p.m., E.S.T. His Excellency is Chief Scout for Canada and Viscountess Alexander is Honorary President of the Canadian Council Girl Guides Association.

OUR COMPLETE SHORT STORY—

A LOVELY DAY FOR LAURA

By G. PATRICIA WARBURTON

THE sun shone brightly through the window making intricate patterns on the carpet, and the soft breeze casually ruffled the drapes.

It was very quiet in the room, but outside the birds were singing sweetly and the scent of flowers was poignant. It was one of those rare, unforgettable days of the early summer when Nature seemed to have bewitched herself with the beauty spread so lavishly everywhere, and now lay breathless and inanate.

Douglas Marlowe turned from the window to look at his wife, thinking, "How young she looks."

Her long, dark lashes curled up from her white skin, and there was a faint sprinkling of freckles across her nose.

He remembered the first time he had watched her as she lay sleeping. After awhile she had opened her eyes, smiled slowly and sleepily at him, and murmured, "Hello, you", then twined her fingers around his.

His heart had contracted at this gesture, and he felt a quick surge of tenderness and protectiveness, and bending down, had buried his face in her hair, whispering huskily, "Darling, darling, I love you."

Their three-week honeymoon had been heaven, but even now, after three years, Laura seemed somehow to make every day exciting and happy.

She was interested in everything and everybody. Children, animals, her precious garden, on which she spent so much time and energy, the gifts he brought her especially the amusing ones, like the parrot that talked, or mostly swore and which they had finally sold back to the pet shop. She was absorbed with everything that came her way.

She had been twenty-three when he married her, and he had thought sadly that as she got older and settled down, she would probably lose this gay and charming manner, and once he had said, "Don't ever change, Laura." Now, at twenty-six, she was still the same, perhaps a little more mature. Even the loss of their first child which they had both wanted so much had not embittered or hardened her. She had been quiet and sad, and a little lost, for a time, but gradually her laughter and quick good-nature had come back.

She enjoyed the same things he did, liked the same sports, and they got on wonderfully together.

Not that they hadn't ever had a quarrel. He remembered one in particular. He had driven two prospective customers out into the country to show them some property. On the way back, the car had broken down. They were miles from anywhere, and when he finally got it running again, his one thought had been to get home as quickly as possible and he hadn't stopped to phone Laura. It was almost three o'clock when he arrived home, and she was waiting for him, tense and worried.

She was relieved and thankful to see him unhurt, but hours of waiting had sharpened her tongue and she made several very pointed and sarcastic remarks. Then she had cried a little and he had comforted her, and they had kissed and made up. It was funny how quickly a woman's mood could change, he thought.

He glanced again at Laura, but she still had not stirred.

Then he looked outside for a minute, thinking again what a beautiful day it was.

This was the kind of a day Laura liked. She would wake up soon.

She loved to bask in the hot sun with as little on as possible, and was forever calling him to rub her back with sun tan oil. Not that he minded the job, for her back was soft and smooth, and he loved the pleasant sensation of that satin skin against his palm.

"Doug, that's enough," she would cry, and he would say, "Just a little more on this shoulder."

"But you've already done it twice," she would protest half-heartedly.

He would rub for another two or three minutes, then give her a final pat, and half the bottle of oil would be gone. After a while, it became a ritual that both enjoyed.

Christmas was another ritual. Laura loved Christmas and looked forward with anticipation to all the bustle, last-minute shopping and gay festivities, and threw herself with intense concentration into feverish preparations. Two or three days before Christmas they trimmed the tree.

Christmas Eve, all the presents were spread under the tree in a galaxy of colour and fancy wrappings and next morning they had a wonderful time unscrambling them all. Relatives and friends' presents were put back under the tree, and their own were put on one side to be taken back to bed to be opened.

They always bought each other one good present, one funny present, and two or three small ones.

Laura usually spent the rest of the morning rushing back and forth answering the doorbell, welcoming visitors, distributing presents and dispensing cheer in the way of shortbread, fruit cake and other delicacies while he was busy mixing his own special Christmas punch.

In the afternoon, they visited some of their friends, and later had dinner with Laura's family.

He sighed wearily. How different it would be next Christmas.

It seemed to be getting warmer outside. The scent of flowers grew heavy in the room. Douglas thought how Laura would hate to miss even a minute of such a perfect day, and wished again that she would waken and smile a greeting at him.

Suddenly, from the room overhead the thin, fretful cry of a new baby startled him and he was aware that he had been day-dreaming and lost in memories for a long time. He was also conscious of the low murmur of voices.

Again the baby whimpered, and still Laura did not stir.

He was vainly trying to gather his wandering thoughts when a tall man with a kind face quietly entered the room and spoke to him.

Then he remembered. Laura was not going to wake—not ever—only the small daughter, whimpering in the nursery, remained - and the lovely, lovely day.

Will Loan Priceless Stamp Collection

The King will loan a portion of the priceless Royal stamp collection for the centenary international philatelic exhibition in New York next May, it was disclosed.

Two of the most valuable stamps in the collection are the famous pair of Mauritius penny orange red and two penny blue. The latter, the only perfect specimen in the world, is valued at £10,000 ($40,000).

Northern Trapper Bothered By Mosquitoes

THE PAS, Man. It may be the coldest winter northern Manitoba has experienced in 10 years but Alex Jones, bachelor trapper of the Falls Island district [illegible] miles east of The Pas, is complaining about mosquitoes.

Not only that but he arrives [illegible] and [illegible] by flipping back [illegible] several sizeable lumps.

Mosquitoes, he explains, not only that but I kill four or five every day in my cabin. They come through the floor. I figure if they can stand the winter, they will probably be pretty tough by the time [illegible]

Jones believes they breed in the muskeg under the cabin and the warmth of the stove makes them think summer is here. Once they find it's cold they try to keep warm by flying around. They're easy to kill right now. Oh I don't mind them but the trouble is when they bite they itch. When I tell [illegible] heard when I [illegible] [illegible] it's just mosquitoes in winter.

SELECTED

RECIPES

SOFT CRUMB COFFEE CAKE
2 cups sifted flour
4 teaspoons baking powder
1½ teaspoons salt
¾ cup sugar
⅓ cup shortening
2 eggs, well beaten
1 [illegible] cups milk

Crumble or Honey Nut Topping. [illegible] flour [illegible] measure, add baking powder and salt and sugar, and sift together [illegible] cut in shortening [illegible] mixture [illegible] like coarse meal.

Combine eggs and milk, add to flour mixture and mix only enough to dampen flour. Spread in a greased 10x10x2 inch pan. Sprinkle with topping. Bake in moderate oven (350 deg. F.) 35 to 40 minutes.

Crumble Topping—Mix 4 tablespoons sugar and 1 teaspoon [illegible] Add to 1 cup soft bread crumbs [illegible] with 4 tablespoons melted butter. Add 4 tablespoons chopped [illegible] sprinkle over coffee cake before baking.

Honey Nut Topping—[illegible]

NOT A QUITTER

Frank P. Grant of Wichita, Kas. [illegible] was [illegible] recently at the age of [illegible] He was only persuaded to retire in 1936 from his job as a scissors grinder after he was struck by a train and severely injured.

Used to Wake Up with a Headache
Now Fresh and Lively Every Morning
Here is a man who woke up most mornings with a dull headache. What a dismal way to start the day! But Kruschen transformed his life according to his letter:
"I used to wake up in the mornings with a dull headache. A year ago, I started taking Kruschen Salts regularly. Today, I wake up fresh and lively and can do my day's work without undue exertion. I find Kruschen Salts a great help, and have not been so healthy for a long time. I [illegible] recommend Kruschen for any [illegible] suffering from [illegible] and constipation. I'll never be without Kruschen as long as I live."—E.P.
Dull headaches such as this man suffered from can often be traced to a disordered stomach and to constipation because of waste material which remains in the system. A small dose of Kruschen taken regularly in the morning promptly [illegible] And that is how Kruschen acts to relieve such headaches.
Try Kruschen for relief of morning headaches and sluggish feelings. 39c and 75c at all drug stores.

Post-War Peaks Seen In U.S. Steel Output

CLEVELAND. Steel production has increased to the highest level attained since the war and is headed toward new post-war peaks, the Magazine Steel said recently.

Prospects are that a balancing of supply and demand is still some months off, the magazine predicted an excess of requirements of flat rolled products, including plates, beyond the second quarter of 1947. Some leaders anticipate that a satisfactory balance in most grades of sheets and strip will not be reached until next year. The supply of alloys is adequate.

GREAT SHORTAGE

Canada has a shortage of 4,000 doctors, 6,000 dentists, innumerable nurses and $170,000,000 worth of hospitals and equipment according to Mr. George Hoadley of Toronto president and general manager of the Health Study Bureau. Canada's Weekly.

TREATING POPLAR POSTS

Untreated poplar posts rot off in 3 to 4 years but posts treated with preservatives last 20 years or so.

Many treatments are used for preserving and increasing the life of fence posts. Perhaps the cheapest and the most effective is the use of ordinary blue stone. Get a circular describing the method from your D.A.

GOITRE IN CALVES

One of our district farmers took home on Saturday a pound of Potassium Iodide for the prevention of goitre in calves. This farmer claims that some years ago he lost some calves at birth from goitre. Apparently soil and drinking water on his farm lack iodine. This farmer and in fact every farmer in this district should protect himself from loss of young calves and lambs from goitre and pigs from hairlessness by giving some Potassium Iodide in the feed. Get a circular on this subject from your D. A.

SCARCITY OF SUPPLIES

This is the last call for farmers to order certain commodities now short on the market. To avoid disappointment see Ernie Schurman for package bees. See your elevator agent for ordering Registered seed. Also see him for seed barley and oats. Roy Jory is taking orders for forage crop seed under the government assisted plan.

WIRE WORM CONTROL

Many farms in this area are infested with wire worms and yet few of these farmers realize that this pest is reducing their crop yield by 20 per cent and maybe more. Owing to the difficulty of controlling this insect no one method can be expected to give relief but rather a combination of practices are recommended for reducing the wire worm population in a field. Circulars on wire worm control are available from your D.A.

FARM STEAD PLANNING

One of our leading Alberta Nurseries says —it's not a home until it's planted—. People living in towns as well as the country can get a good deal of satisfaction as well as profit from surrounding their homes with tree and shrubs. Spruce, Ash, Elm, Mountain Ash, Lodge Pole Pine, Northwest Poplar and some others are hardy in this district. A new publication on "Farm Stead Planning" is just out and available from your D.A.

COMPANION CROPS

The term nurse crop has been commonly used for the grain crop grown along with a newly seeded forage crop. Now the Western Society of Agronomy is recommending the name "Companion Crop". From my observations in this district I would think that "strangle crop" would be a better term. Many failures to get a good stand of grass or alfalfa can be blamed on the competition of the "nurse crop".

Distinctive Alberta Food Dish Wanted

CONTEST SPONSORED BY GOVT. TRAVEL BUREAU

Farm women are being urged by the Dominion Government Travel Bureau to concoct a dish which will be distinctly Albertan and which will send tourists who visit this province back to their own home towns raving about the good food they got while on holidays in this fair province.

"Boston has its baked beans, Mexico its chili con carne and even Winnipeg has Winnipeg goldeyes, so we, here in Alberta, where world-champion food products are produced, should have a dish for which we can become as famous internationally," said Dan E. C. Campbell, director of the Travel Bureau.

"Tourists like our beef steaks and I can't think of a better meat dish to give them, but they can get good steaks in other places so we want ours to be much better than others and served with a distinctive sauce or cooked in some special way which will make it famous for deliciousness all over the world," Mr. Campbell added.

Conditions of the contest and entry blanks for it may be obtained from the local Treasury Branch or by writing direct to the Alberta Government Travel Bureau, Legislative Bldg. Edmonton.

CARD OF THANKS

I take this means of thanking the electors of Vermilion for the support accorded me at the polls on Monday and can assure everyone that nothing will remain undone on my part to give Vermilion the progressive type of legislation to ensure its continued growth and development.

K. G. URQUHART.

CARD OF THANKS

I wish to express my deep appreciation of the confidence reposed in me as a member of the Vermilion centre school district board as evidenced at the polls on Monday, and can promise the same painstaking care and attention to school matters as in the past.

D. TAYLOR.

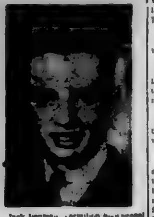
WINS MEDAL



Jack Isenman, Vermilion high school student, who was recently presented with the Governor-General's medal awarded to the student in each school division obtaining the highest marks in the grade 9 examinations written last June.

Jack was formerly a student at the Telegraph Creek school in the Landonville district and is now taking grade X here.

WEDDING BELLS

CHAPMAN—PAULSON

A quiet wedding was solemnized at the United church manse Vermilion on Sunday evening February 2nd when Marjorie Gertrude Paulson, daughter of Mr Carl Paulson of Kingman, Alberta, became the bride of Thomas William (Bill) Chapman, son of Mr and Mrs. Matt Chapman of Vermilion, Alberta.

The bride wore a gold wool jersey afternoon dress with hat to match, and accessories were in brown. She carried a bouquet of pink carnations. The bridesmaid, Miss Maxine Wiebe, wore a brown afternoon dress with sequin trimmings and hat to match. Her bouquet was of white carnations.

The best man was Mr Roger Rowe of Vermilion.

Following the ceremony a reception was held at the home of the groom at the Vermilion school of agriculture. Twenty five guests were in attendance including the bride's father, Mr Carl Paulson of Kingman and Miss Clara Paulson of Delburne, Alberta, sister of the bride.

The happy young couple will reside in Vermilion where the bridegroom is employed at Craig's Department store.

Mrs. Melvin Hill, Mrs W. [illegible], Mrs Hudson Scott, Mrs S. H. Carroll, Mrs Sinclair Reikie and Mrs. H. P. Long attended the W.M.S. Presbyterial at Lamont Feb. 7th.

VALENTINE TEA

Mrs. Hay's group of the United church will hold a Valentine Tea at the home of Mrs. George [illegible] on Friday Feb. 14th from 3 to 6 p.m. 13-6c

WHIST AND DANCE

E. CORLEY
THE
Quality Jeweller

PAUL—Born to Mr. and Mrs. R. C. Paul (nee Kathleen Margaret Hall, of Vermilion), at the University hospital, Feb. 3, a son Richard William, 7 lbs. 12 ozs., a brother for Gary.

Mrs. F. J. Richardson was a city visitor the forepart of this week.

W. L. Roeburk, secretary of the Islay hospital district was in Edmonton on business from Monday to Wednesday of this week.

Jim Watt of the Hardisty branch of the Bank of Commerce, spent the week end in town at the family home.

Tom Hobbis at New Westminster sends along some newspapers from the coast containing pictures of the havoc wrought by recent storms, and showing that perhaps coastal weather isn't just everything that it's said to be. Tom also regretted to say that Mrs. Hobbis was in indifferent health and was at that time a patient in the hospital. He also adds that while he had done little engraving this year, a year ago during the winter he hand-engraved $200 sterling silver bracelets for a large wholesale firm in Vancouver.

CARD OF THANKS

Angus and Nellie MacDonald would like to take this means of thanking their neighbors and friends, especially Mr George Martin, and the kind people of Vermilion, for their ready sympathy and generous help following the fire which destroyed the home and all their household goods.

CARD OF THANKS

Mrs. Joy and family wish to thank kind neighbors and friends for their help and sympathy during their recent bereavement, special thanks to Dr. Sweet, to Matron and nurses of Islay hospital, and to Rev. Richards and Mrs. Braithwaite.

CARD OF THANKS

We wish to extend our sincere thanks to the people of Vermilion and district, the Red Cross, Canadian Legion, Happy Gang Sewing Circle, Mr. and Mrs. E. W. Hart and Mr. and Mrs. J. H. Hart for their kind and thoughtful donations to us in our hour of need.

Mr. and Mrs. C. K. Nelson, and family

IN MEMORIAM

In fond and ever loving memory of Eileen

"We see but dimly through the
mists and vapours
Amid these earthly damps,
What seem to us but sad funeral
tapers
May be heaven's distant lamps.
There is no Death! What seems
so is transition;
This life of mortal breath
Is but a suburb of the life elysian,
Whose portal we call Death.
—Dad, Mom and family

Always try to kill two birds with one stone and you're likely to miss both.

An Agency For Peace

THE PHRASE "ONE WORLD" has been used [illegible] taken [illegible] United Nations Educational, Scientific and Cultural Organization which has [illegible] as its objective to make the peoples of the world [illegible] one world. It is possible that this organization [illegible] are represented may have a far reaching effect on the future outlook of many thousands of people for it plans to work through departments of education, teachers, and adult education leaders to [illegible] understanding [illegible] nations.

* * * * *

To Break Down Many Barriers

The organization known more briefly as U.N.E.S.C.O. hopes to develop a world-wide program in [illegible] education and to fight illiteracy. It also plans to study the possibilities of establishing [illegible] breaking down barriers in other fields associated with the exchange of information and ideas. Mr. Herman Voaden, one of the Canadian representatives to the recent meeting of U.N.E.S.C.O., pointed out in an interview at the conclusion of the gathering, that it must be remembered that the organization does not wish to interfere with the [illegible] of any country [illegible] greater understanding and friendship.

* * * * *

A Hopeful Sign For The Future

Prime Minister Attlee once said that war is made in the minds of men. Few people need to be reminded of the powerful part played by distorted ideas in the building up of the Nazi regime in Germany. It is a hopeful sign for the future peace of the world that the importance of education in breaking down prejudice and misunderstanding has been recognized and that practical steps are being taken to use it as a means of preventing future wars. One very commendable and practical undertaking [illegible] to raise $100,000,000 [illegible] to rebuild schools and provide educational equipment in the war-devastated countries. It is probable that immediate results of the plans made at the recent meeting held by U.N.E.S.C.O. will be felt here and in other lands and it is to be hoped that its undertakings will meet with the interest and support which they deserve.

PREDICTS CAR OUTPUT TO INCREASE

TORONTO.—Prospective buyers of new cars are going to get a 20 per cent. better break in 1947 than they received in strike-torn 1946, according to W. A. Wecker, president of General Motors of Canada Ltd., who predicted that the Canadian auto industry would produce between 150,000 and 170,000 cars and trucks this year. Last year production totalled [illegible] units.

Mr. Wecker spoke at the annual dinner held by his company for the press at the Royal York Hotel. The [illegible] was presided over by E. J. Umphrey, director of sales for GM.

"[illegible] production is about 100,000 cars and trucks, which will relieve the pressure to some degree," the president said. "It will mean that the public won't have to wait so long to get their orders filled."

Mr. Wecker stressed that these [illegible] figures were conditional on there being no major work stoppages. He believed that by mid-summer of this year the supply picture would be much improved. In normal times if there is less than three days supply of any parts on hand, the plant is considered to be out of them, Mr. Wecker said. Today the factory is running on an hour-to-hour basis on the 9,000 individual items that go into manufacture of cars and trucks. The company had sent its own trucks into the United States to speed up delivery of critical parts.

"We are desperately doing everything possible to fill our production gaps," Mr. Wecker told his audience. He pointed out that though 1946 was a disappointing year in many respects, because of strikes and numerous shortages, more cars were turned out in that year than in the last prewar year of 1939.

"After the first quarter of 1947 it is not too much to expect a gradual rise in production volume," the president said.

FUNNY and OTHERWISE

It was the young usher's first big wedding and he had to evict an old lady from the reserved seats. Nervously he tapped her on the shoulder and then said with a rush, "Mardon me, Padam. You're occupewing the wrong pie. May I sew you to another sheet?"

* * * *

Juggins: "How do you get on with the boss, old man?"

Juggins: "He's about the meanest man I know."

Joggins: "How's that?"

Juggins: "He's had the legs sawn off the wheelbarrows so that I can't sit down and rest."

* * * *

The banker's daughter threw her arms around the neck of the bridegroom-to-be.

"Oh, dear," she exclaimed, "dad's going to give us a cheque for a present."

"Excellent!" exclaimed the happy young man. "Then we'll have the wedding at noon instead of 2 o'clock."

"Why dear?"

"The banks close at 3!"

* * * *

The train was a cross-country affair that stopped at all stations and frequently several times in between. Toward the end of a very long journey the conductor came around.

"Look here, sir," he said to one of the passengers as he examined his tickets, "that boy is too big to travel half-fare."

"Is he really?" replied the passenger quietly. "Well, he was small enough when we started."

* * * *

Bill was busy at his desk when a friend sneaked in.

Friend (groaning): I don't know what to do with this rheumatic pain.

Bill (absently): I didn't know you suffered from rheumatism.

Friend (sighing): What else can you do with it?

* * * *

A professor of physiology was describing the organs of sense, etc., and finally asked for a summary of his lecture. The star of the class arose and said:

"Well, Prof., as I see it, I see with my eye organ, I hear with my ear organ, I smell with my nose organ, I eat with my mouth organ, and I feel with my hand organ."

* * * *

"I can't sleep," wailed a voice in his ear as the doctor got out of bed to answer the telephone at [illegible] morning.

"Hold the wire," said the doctor sweetly, "and I'll sing you a lullaby."

Palm oil is used in the production of steel plates. 2711

U.B.C. BEAUTY QUEEN GETS CROWN KISS—Lovely Pat Drope, chosen queen of the University of British Columbia Mardi Gras, is given a congratulatory kiss by Eric W. Hamber, chancellor of the university and former B.C. lieutenant-governor during the crowning ceremony.

Soviet Weathermen Coming To Canada To Exchange Data

TORONTO.—Dr. C. G. Rossby, professor of meteorology at the University of Chicago, told the Royal Canadian Institute here that Russia is sending a group of experts to Canada and the United States to confer with meteorologists of the two countries, while a group from the U.S. is going to Russia.

He said that as far as meteorology was concerned, Russia co-operated "cordially and completely" in the exchange of weather information.

Canada has six weather stations in [illegible] square miles and should have 15 more, he said. Despite "certain districts of Russia" the fact remained that Russia sends more weather information to Canada than the Dominion's weathermen send to Russia.

Since weather recognizes no borders, Dr. Rossby said he hopes that some day there will be a world weather organization financed internationally.

Meteorologists throughout the world, regardless of politics and policies, are on a "first name" basis and are interested only in meteorology, he added.

HONEST ANYWAY

Whenever we read about some man saying, in answer to a reporter's question, that he attributes his success to his wife, we think of the refreshing answer once made by a man who had the courage not to be modest. "To what do I attribute my success? Why, to my ability, of course."

POULTRY PURCHASE

OTTAWA.—The British ministry of food has agreed to purchase up to 10,000,000 pounds of dressed Canadian poultry before March 31 and the special products board has increased its buying price to one-half cent under the wholesale ceiling, the agriculture department announced recently.

To Feel Right — Eat Right!

PREDICTS SUCCESS IN CANCER RESEARCH

NEW YORK. — The problem of cancer will be whipped within five years, Elmer Bobst said in accepting the chairmanship of the American Cancer Society's drive to raise $12,000,000 for a concentrated attack on the disease.

Bobst is not a medical man, but he is a recognized authority on cancer. He said he based his opinion that cancer would be solved in five years on the knowledge he had gained in his years in the pharmaceutical business.

Bobst also disclosed that the society already has made research grants, totalling about $3,500,000, to 101 universities and medical schools, and that eventually every phase of cancer would come under the program.

At least 1,000 topflight scientists are now working in the research laboratories and more will join the battle as the accelerated program moves forward, he said.

"I believe that within five years we will know all about cancer," he said.

Bobst indicated that numerous new leads and discoveries had been made in the research laboratories and that some of these might be made public soon.

Confusion Exists In Cleveland's Chinatown

CLEVELAND — Confusion, not Confucius, has been reigning in Chinatown here. This city's Chinese population couldn't agree on when to celebrate Chinese New Year.

Some figured it would fall in late February. One man held out for Jan. 22, and the rest have been giving their abacuses a work-out trying to decide for themselves.

The dispute is because an airmail shipment of Chinese calendars was overdue.

According to the Chinese calendar, 1946 ended Dec. 21, which is Dec. 2 by the Gregorian calendar.

"Chinese Decembers have only 30 days," said Wong Chin, a Chinatown resident. "Some years have 13 months. Some have 12 months. I think New Year's is the 29th or 29th of February. Maybe by then I'll have it figured out."

But that's just Wing's opinion. His neighbor, Ed. Dea, believes every third Chinese year has 13 months.

"No extra month," he said. "No wonder they're confused."

And why so much fuss over Chinese New Year's? William Young explained: "It is important because everybody's birthday in China falls on New Year's day. Chinese babies are one year old when they're born. Then they become two years old on the first New Year's even if they were born a few minutes before the old year goes out. Also debts are paid on New Year's."

"Next February has almost 60 days," Young added darkly. "Makes figuring very hard."

Howard Chin of the Hip Sing Leg Tong pointed to his newly arrived Chinese calendar and said New Year's comes January 22. It also says good day for planting the crops."

New Zealand's first railway was opened in 1863.

WIEBE'S BAKERY

S. Hinton Elected Chairman Vegreville School Div'n Board

TEACHERS' COMMITTEE ASKS SALARY INCREASE

The main item of business at the January meeting of the trustees of Vegreville School Division was the opening of negotiations with the Salary Negotiating committee of the Vegreville Teachers' Association. The teachers' committee was composed of Messrs. P. C. Thompson, J. H. Murray, H. L. Pahyk and M. Tomyn.

The first request of the teachers was for a bonus of $200 per teacher above the present schedule for term ending June 30, 1947. This would cost the Division $18,000 in the first six months of this year. The Board refused this request, taking the stand that the present schedule was negotiated only last year and has been in effect only from September 1st, 1946. The Board felt justified in asking the teachers to abide by their agreement for the present term.

The next demand of the teachers was for a new schedule to be effective from Sept. 1, 1947. The new schedule presented is based on a $1,500 minimum with $1,200 in increments for experience, plus further credits for Intermediate and High school positions, supervision and degrees. The present schedule is based on $1,100 minimum with $500 in increments for experience, plus other credits in various positions.

Due to the shortage of teachers, the Board at present has a staff of only 60 certificated teachers, which costs the Division $90,600 per year; an average salary of $1510. The present salary range is from $1100 for a beginning teacher to $2000 for high school principal.

To bring into effect the schedule as demanded by the teachers would require approximately $140,0000, raising the average to $2220 and giving a range from $1500 to $4500.

In view of the large increases asked, the Board set the matter over to a later date when the Salary Negotiating committee will again meet with the Board.

The personnel of the Board is the same as last year. Mr. S. Hinton of Mannville, was elected chairman for 1947, with Mr. L. S. Cole as vice-chairman.

Minutes of the previous meeting and reports of the Treasurer and the Superintendent were heard and adopted.

Resignations made it necessary for six new appointments most of them only on a temporary basis.

Patriquin and Co. of Edmonton, chartered accountants, were appointed as auditors for 1947.

Board members will attend the zone meeting of the A.S.T.A. at Viking on Feb. 15th.

Correspondence and accounts were dealt with and the Board adjourned to meet again on Feb. 27 at 10 a.m.

—Vegreville Observer

RIVERTON

The district was deeply grieved by the sudden passing of a fine man and neighbor, Mr. Silas Joy. Deepest sympathy is extended to Mrs. Joy and her family in this time of sorrow.

Mrs. Skinner is in Vegreville visiting with her daughter, Elsie.

Mrs. Durain is in the University hospital. A speedy recovery is wished her. Christina is keeping the home fires burning. She has accepted a job in the Marwayne Co-op and will go to work when her mother comes home.

Tom Applegate has purchased a new Chev truck.

Mrs. F. Baker, formerly of Vermilion, went to Edmonton to attend Donald Baker's wedding.

It was a pitiful sight to see the wind and snow come to fill up the good snow plowed road up after Mr. B. Timanson spent the whole night before breaking them out.

The Girls' club is putting on a box social and balloon dance in the school on Valentine's. Let's see a good crowd, and give this new club a real boost.

We hope Mr. and Mrs. Spicer are still enjoying their stay out in Vancouver.

Well folks, enough has been said about the weather and all we can do is grin and bear it.

CANADIAN ROOSTERS TO SOUTH AFRICA

Blood lines of South Africa's White Leghorns are to be improved with the introduction of a Canadian strain. One dozen pedigreed cockerels left recently via Canadian National Express for Saint John, en route to the largest hatchery in [illegible]. It will take five weeks for the birds to reach their destination. To ensure prime condition, the shipper packed four different [illegible] with the birds. Cod liver oil is part of their diet. The South African importer, Miss I. Halford of Queque, ships chicks by air throughout the Union.

The rural child, like your own, has only one childhood. Are we giving him a fair chance educationally?

Wildmere Winks

Peggy Graham returned home on Tuesday Feb. 4th from the hospital feeling very well after her operation.

Jimmie Wallington received the sad news Tuesday evening Feb. 4th that his mother had passed away at Nelson, B.C. She leaves to mourn her passing two daughters Mrs. [illegible] of Nelson and Mrs. Summers [illegible], Alta., and two sons Jim of Vermilion and Tom of Tofield. Two daughters and one son pre-deceased her, the son giving his life in world war I.

Wildmere W.I. met at the home of Mrs. J. Bathe on Wednesday afternoon last with eight of the nine members and two visitors present. Roll call was answered by exchange Valentines. Mrs. Garnett gave a talk on immigration which was very interesting. Mrs. Wilson and Mrs. Steele very heartily thanked the W.I. for the gift of fruit given them while sick. A baby's layette was planned for the work this month but white flannelette is nearly impossible to get. The mystery box called "Johnny Jump Up" for which a small donation is given by the members and others was won by Johnny Bathe. Next meeting will be at the home of Mrs. [illegible] on March [illegible] Mrs. Wilson. Roll [illegible] very tasty lunch [illegible].

Bert Friesell of [illegible] was operated on for appendicitis at the Vermilion hospital on Thursday last. [illegible] with [illegible] for a while.

Mrs. Wm. Garnett Jr. of Rosewood returned home on Saturday after spending some time in the hospital. [illegible] during the severe [illegible].

The [illegible] has been [illegible] the [illegible] play.

Naomi Freeman who has been visiting friends in Triangle and Tolland the past three months spent a few days at Mrs. Bob Martin's, Wildmere, and Mrs. Garnett's in Rosewood. She left for her home north of Lashburn on Friday.

A small crowd gathered on Sunday [illegible] Roy Osterberg of Wildmere. A good time chatting and visiting was enjoyed until the small hours of the morning.

Miss Larson, supervisor at our school has given up her job. Mrs. Wilson is carrying on [illegible] or teacher can be found.

Funniest thing heard: Our young nephew on seeing some pussy willows in a picture, shouted "Oh, here's some woolly pullys!"

Congrats to Mr. and Mrs. Bob Melton of Vermilion on the birth of a [illegible] Feb. 1st.

AUDITOR'S CERTIFICATE

We have audited the Books and Records of the Islay Municipal Hospital No. 4 for the year December 31st, 1946 and have compared the said accounts with their relative vouchers and certify that in our opinion the foregoing financial statements are properly drawn up so as to exhibit a true and correct view of the financial affairs of the Hospital District according to the best of our information, and the explanations given to us and as shown by the records.

DATED at Edmonton this 29th day of January, 1947

(Signed): Winspear, Hamilton, Anderson & Company,
Chartered Accountants, Auditors.

35 FARMERS IN ALBERTA AWARDS

Thirty-five Alberta farmers won $3,306 of the prize money in the $25,000 National Barley contest sponsored by the Brewing and Malting Industries of Canada.

The provincial championship for growing Alberta's best sample of malting barley in 1946 went to Geo. W. Johnson, Red Deer, who was awarded $400, 2nd Ted Canavant of Legal; 3rd Louis St. Arnaud, Vimy, 4th, Ray Nismeda, Bonnie.

All four provincial winners are contenders in the inter-provincial contest which carries prizes of $1,000, $500, $300 and $200. These will be awarded at the Manitoba Winter Fair in Brandon the week of March 31st.

For purpose of the contest Alberta was divided into four regions and in each region there were 10 cash prizes starting with $100 for first and graduated down to $40 for 10th place. In Region two only five prizes were given because the number of entries was insufficient to justify ten.

Regional winners in the area contiguous to Vermilion were:

Region 3—Joe Mulak, Washatenau; Peter Melnyk, Warspite; Joe Bielak, Warspite; E. A. Bullis, Elk Point; Elmer F. Carefoot, Washatenau.

KEEP CALM . . .

The well, and well-poised, person has all emotions under control, is calm and not easily disturbed. So says the Department of National Health and Welfare. chronic crossness and irritability is a sure sign of poor health, and the person who persistently "flies off the handle" should see the family doctor. While admitting that everyone has off-days the health authorities declare that no one should be grouchy all the time.

Dominion To Broaden Rules Of Immigration

OTTAWA.—A broadening of the Canadian immigration regulations to permit the entry into the Dominion of four new classes of immigrants was announced to the commons by Resources Minister Glen, the minister responsible for immigration.

He rose during the throne speech debate to disclose the passage Jan. 30 of an order-in-council allowing entry of these new classes:

1. The widowed daughter or sister (with or without unmarried children under 18 years of age) of a legal resident of Canada who is in a position to receive and care for such relatives.

2. An agriculturist entering Canada to farm when destined to a father, father-in-law, son, son-in-law, brother, brother-in-law, uncle or nephew engaged in agriculture as his principal occupation who is in a position to receive such immigrant and establish him on a farm.

3. A farm laborer entering Canada to engage in assured farm employment.

4. A person experienced in mining, lumbering or logging entering Canada to engage in assured employment in any one of such industries.

Mr. Glen also announced amendment to the regulations to allow the admission of orphaned nephews and nieces under 18 years of age who are related to Canadians. Previously, only orphaned nephews and nieces under 16 were admissible.

He estimated that the changes would result in a "considerably larger" number of immigrants coming to [illegible].

Of the question of a general postwar immigration policy, Mr. Glen indicated the department and the cabinet still had this under study.

He made his announcement of the broadened regulations while replying to charges made by Alistair Stewart (C.C.F.-Winnipeg North) that the regulations contained discriminations against Jews and Ukrainians and Poles. Mr. Glen said this was not so.

When Mr. Glen made his announcement Mr. Stewart asked if the amendments applied also to Jews, Ukrainians and Poles.

The minister replied that it would apply to such persons if they fulfilled the requirements.

He said that because of the still-unsettled conditions in various parts of Europe, and existing frontier controls, it was not yet possible for immigrants from some countries to proceed to embarkation centres for immigration and medical examination as in pre-war years.

RESTRICTIONS CONTROLLING CIVIL SERVANTS REMOVED

OTTAWA. Lifting of wartime restrictions on reclassification of civil service positions was announced in a letter from Finance Minister Abbott to deputy ministers.

The letter announced removal of freezing controls on civil servants salaries. It is understood the move opens the way for reclassification of a number of civil service jobs along the line of the Gordon royal commission on administrative classifications in the public service.

Leading livestock state in the United States is Texas.

SWEDEN'S ROYAL FAMILY BROKEN — Prince Gustaf Adolf died with 21 others in the crash of the Royal Dutch Airliner at Copenhagen. Four generations in the male line of the Bernadotte family are seen here in recent portrait. King Gustaf holds great-grandson Prince Carl Gustaf, centre, who is second in line to the throne. Prince Gustaf Adolf, left. Crown Prince [illegible].

More Research Needed For Dairy Industry

More research directed to greater efficiency and less drudgery on the dairy farm is needed in western Canada, Prof. V. E. Graham of the dairying department, University of Saskatchewan said at the 38th annual convention of the Saskatchewan Dairy association in Hotel Saskatchewan.

Without research he said, the dairying industry will languish. Any research undertaken must be directed towards greater efficiency in manufacturing and a greater utilization of the use of milk, all the milk including skim milk, not just the [illegible].

Because of the volume of production per plant is so important to efficiency in manufacturing it follows that some improvement in this respect will result from more efficient production on the farm and a greater concentration of production in those districts which are adapted to dairying, Prof. Graham said.

Yet efficient manufacturing only starts with efficient production. Efficiency also requires a high degree of technical skill and this is gradually being applied largely through the efforts of agricultural colleges he said.

More cow testing associations were required, Prof. Graham said. Farmers should be more careful in the selection of their animals he said explaining that when the position of a firm or individual is required a [illegible] is consulted or a credit rating used. "You get this information in black and white and depend on it. When you want to buy a cow you should also be able to secure a certified record of her production. If you are engaged in dairying to make money, the production of the animal you buy is of prime importance," Prof. Graham said.

He was of the opinion that a herd of about 15 cows was necessary to justify the installation of modern equipment.

Dairying in the west had had a remarkable expansion, he said, showing how Manitoba in 1906 to 1915 produced 2,100,000 pounds and in 1936-45 28,200,000. Saskatchewan [illegible] the same period rose from 1,100,000 to 31,000,000 pounds and Alberta 2,[illegible]000 to 32,000,000.

According to the 1941 census the west had 31 per cent. of Canada's population yet it produced 28.9 per cent. of the country's milk. Saskatchewan is supposed to be a [illegible] province yet in 1941 with 7.8 per cent. of population it produced 10.1 per cent. of the country's milk.

CREAMERY BUTTER STOCKS INCREASED

OTTAWA. Canada's domestic butter outlook is about 3,500,000 pounds brighter than the dark days of a year ago when the weekly individual ration fell to four ounces. It's all time low.

The bureau of statistics reported that stocks of creamery butter in nine principal cities totalled 17,433,730 pounds on Feb. 1, compared with 13,952,164 Feb. 1, 1946. Stocks on Jan. 1 totalled 23,501,605.

Actually however, the main reason for Canadian elation concerning butter was still the 8,000,000 to 10,000,000 pounds Canada has been promised from New Zealand. Shipments of New Zealand butter are expected to reach Canada shortly.

STYLES ARE CHANGING

NEW YORK. Brides of 1947 may wear their palladium or gold wedding rings in their ears, as well as on the third finger, left hand, reports O. M. Reem, jewelry designer. "For sentimental reasons", brides are buying three wedding rings, and converting two of them into earrings that match their wedding bands Reem said.

BURMESE AGREEMENT ANNOUNCED—Independence agreement for Burma was signed in London with two Burmese leaders dissenting following midnight consultation of delegates with Prime Minister Attlee, left, seen with Sir Stafford Cripps and U Aung San from Burma.

Canada's Stand

Explains Peace Treaty Request

OTTAWA.—Canada does not want to see a few countries "dominating" the peace, Prime Minister Mackenzie King told the commons in an explanation of the dominion's request for a voice in the German peace treaty.

Declaring the whole country was back of the government's move for greater participation in the treaty-making the prime minister said Canada wanted nothing for itself and was trying only to render a service to the cause of world peace.

While this country was making its all-out war effort, Mr. King said, the government had had in mind a hand in the peacemaking. Now, it felt that effort had justified its demand for a seat at the treaty table.

"We were fighting to prevent two countries from dominating the world," he declared. "Now, we do not want to see any one, two, three, four countries dominate the world peace."

FAR EAST EVENTS HAVE POWERFUL INFLUENCE HERE

—SAYS AMBASSADOR

TORONTO. Mr. Justice T. C. Davis, newly appointed Canadian ambassador to China, said events are "in the making" in the Far East which will have a powerful influence on the lives of the Canadian people.

Addressing a Canadian club luncheon, the ambassador said: "The ferment of India, the difficulties in The Netherlands East Indies, the movement for greater freedom in Burma and in Malaya, the developments in China, the changes being made in Japan, have created conditions like a seething cauldron and no one is quite certain as to what may emerge from the pot."

The western world could influence these developments for good or evil and should have the insight to appreciate the impulse of eastern peoples to progress.

In Australia, where Mr. Justice Davis acted as Canadian ambassador from 1942 to 1946, he found people without "a very warm feeling towards Canada and Canadians."

"They felt that in their hour of greatest need Canada, the nearest great sister dominion, should have come to their aid. I had to explain that for two years before Pearl Harbor Canada had been committed to all-out aid to Britain in the European sector of the war.

"As time went on Australia realized the position and concurred in the course we pursued and were in fact very proud of Canada's contribution to the war."

Extension Of Emergency Powers Sought

OTTAWA.—Extension of about [illegible] of the government's emergency powers including controls on prices, supplies and rentals will be sought for a limited time from parliament, Prime Minister King said in the Commons.

At the same time Mr. King announced the government will propose an amendment to old age pensions legislation to provide "something in addition" to the present act, $25 at 70. But he did not indicate whether this referred to reported lowering of the age limit and increased payments, declaring he could not say now what would be included in addition.

Further government legislation the prime minister said will include a bill amending the industrial disputes investigation act that will be the new national labor code and one dealing with veterans preference in the civil service.

Mr. King gave a summary of the government's legislative plans with respect to controls and emergency legislation after M. J. Coldwell, CCF leader, asked for an early disclosure to the house of what measures were proposed upon the March 31 expiry of the National Emergency Transitional Powers act.

On the labor relations legislation A. L. Smith (P.C.-Calgary West) wanted to know if members could get copies of the measure to set up the new labor code.

The bill already has been distributed to manufacturers organizations and labor organizations, he said. Would it not be possible for members [illegible] to show the same [illegible].

Labor Minister Mitchell was [illegible] the [illegible] [illegible]

Stanley Knowles (CCF-Winnipeg North Centre) asked whether there [illegible]

Snow Storms Interfering With Grain Deliveries

WINNIPEG. Snow-blocked highways in many parts of western Canada [illegible] interfered seriously with deliveries of grain from prairie farms grain men said here, but the paramount problem affecting the Dominion's export commitments remained one of movement to Atlantic and Pacific ports.

While the visible supply of Canadian wheat as of Jan. 31 was more than 134,700,000 bushels only about [illegible] bushels were in a exportable position, the majority of this at Canadian and United States Atlantic ports. Nearly 77,000,000 bushels were [illegible] country elevators.

Exports so far this crop year [illegible] bushels compared with [illegible] for the same period last year [illegible] quite a [illegible] commitments [illegible] What the [illegible] from here on to [illegible] will tell the tale.

Although the western [illegible] of the [illegible] compared to [illegible] of about [illegible] because of snowbound highways and railway feeder lines grain men said [illegible]

If storms block both feeder and transcontinental lines for a considerable period of time or if farmers are unable to deliver wheat to local elevators then a serious situation could develop but both possibilities are discounted.

FRANCE TO TRY HIM FOR "HARMFUL" ACTS—On charges of committing acts "harmful to the external security of the state," ex-Premier Camille Chautemps will be tried in absentia by the French high court of justice according to a Paris report. He is shown here in Los Angeles recently.

LOCAL I. O. D. E. ELECT OFFICERS

ACTIVE YEAR REPORTED

The Frog Lake Chapter I.O.D.E. met at the home of Mrs. J. Pettinger on Tuesday evening and elected officers for the ensuing year as follows:

Hon. Regent—Mrs. F. Davies
Regent—Mrs. R. C. Miller
1st Vice-Regent—Mrs. A. G. Sinclair
2nd Vice-Regent—Mrs. C. P. Lapery
Secretary—Mrs. H. Meyers
Treasurer—Mrs. A. V. Smith
Convener, Post War Committee — Mrs J. Dougan
Convener Child's Welfare—Mrs. N. Petch
Councillors — Mrs. A. L. Wayne, Mrs W. Krause, Mrs Lloyd Dowdell
Echoes Secretary—Mrs. J. Pettinger
Standard Bearer—Mrs. L. Mayhew
Education and Empire Study Sec.—Mrs Barbara Hill.

Four new members were elected at the February meeting.

Mrs. H. Meyers, delegate to Canadian Cancer society was reported as being in attendance at the meeting in Calgary.

Resume of Frog Lake Chapter I.O.D.E. activities for 1946 shows 12 meetings held during the year with an average attendance of 13.6 with total membership of 24.

Substantial donations were made to the following funds: Coronation Bursary, Marshall; National Endowment, Maternity; Second War Memorial, Empire Work in India; Canadianization; Flag; Sailors and Mine-Sweepers, Administration. The Chapter sponsored the local Cancer Drive for the Canadian Cancer Society.

Eight war brides were entertained and presented with gifts; Tag day was remembered; 5 Xmas hampers were sent to local aged people; 4 pictures of their Majesties, the King and Queen were framed and presented to district schools; Sewing for the local hospital was carried on extensively; 175 articles were shipped overseas to relieve distress.

A library of 1164 volumes was open to the public once a week. 74 new volumes were added during the year. 160 books and magazines were donated to the local hospital.

HEALTHY VOICES . . .

Even the human voice plays its part in creating health, says an authority in the Department of National Health and Welfare, Ottawa. It works this way—voices influence others: if a person has a pleasing voice, that improves the personality and acceptability to be socially acceptable brings happiness, and happiness, in turn, brings health. Monotonous, shrill and high pitched voices as well as slurred and mumbled words, lessen chances for happiness.

"PICKINGS - by Pick"

While glancing over 32 year ago notes an item therein sort of struck a humorous note, that being the fact of $20,000 having been set aside by the Dominion parliament to erect a post office building in Vermilion. By now this money should have a fair amount of interest tagged on to it—but anyway, the fact remains that we are struggling along with a makeshift building that never was built to be a post office and never can be converted into a proper one.

Orchids to "Citizen" for bringing up a situation that should have been dealt with months ago: dogs about the streets. The owners of the canines at least should be responsible enough to keep their "Mutts" under home for at least a few hours a day. In some large centres it is illegal for any dog to roam the streets unless on a leash. The situation in a small town hardly calls for such measures but in this case any measure would certainly be appreciated by the town citizens generally and the mothers of small children in particular.

Last year Alberta had a surplus of ten million dollars and a deficit of a thousand teachers.

Reeve J. A. Currie Addresses The Vermilion Board of Trade

Stresses Harmonious Relations of Council Members

The regular weekly meeting of the Vermilion Board of Trade was held at George's Lower deck on Wednesday Feb. 12 with President-elect Geo. [illegible] and visitors present. Mr. Billie Pilkie introduced Mr. W. C. Guy and the President introduced Mr. J. A. Currie, Reeve of M.D. Vermilion River No 71, who in turn introduced the other members of the Council who were present, being Mr. O. H. Quist, deputy reeve and Messrs. Elmer Clay, John Leighton, T. Holsheim, and Mr. Tom Wilson, secretary.

After the reading of the minutes and business arising therefrom, Mr Currie spoke briefly on the work of the Municipal District to date, outlining what had been done so far, despite great difficulties due to lack of machinery and labor, in building up market roads; Mr. Currie stated that the Council expected in the coming year to make considerably more progress with market road construction, and other public works, and generally to make good progress with the municipal work. The Reeve also stressed the fact that, contrary to a belief that apparently has been prevalent in the District, the members of the Council have at all times enjoyed harmonious personal relations and that there was every reason to expect that this would continue, particularly since the main issue on which the members of Council had been divided now appeared to have been settled.

Mr. Quist as deputy reeve also spoke briefly stating that he could add very little to what had been said by the Reeve, but endorsed his [illegible].

Mr. Fred Brimacombe made a short progress report regarding the work of the Living War Memorial committee and stated that a public meeting would be held shortly at which all citizens would have an opportunity to make suggestions and to decide on the action to be taken.

Mr. E. H. Buckingham, District Agriculturist then gave a very interesting and pithy talk on a number of improvements and refinements in municipal affairs which he felt would contribute to making Vermilion a better place to live in. It is hoped that a more detailed report of Mr. Buckingham's recommendations can be published later.

The meeting then closed with the singing of the National Anthem.

Annual Meeting of Vermilion Presbyterial

W.M.S. Auxiliaries and affiliated groups of the Vermilion Presbyterial were represented at the annual meeting in Lamont on Feb. 7th. The President Mrs. K. C. McLeod of Mannville conducted the meetings in her usual capable and gracious manner.

Encouraging reports were given by secretaries of departments. Visits to homes and hospitals numbered 1486, with Lamont auxiliary in the lead. Mrs. Cook, the Literature secretary reported 844 books read and Lloydminster the best read organization. Books to the value of $43 were sold during the year. The treasurer reported $1280 sent to the Provincial Treasurer for the advancement of W.M.S. work.

At noon a bountiful repast was served by the Lamont ladies. The guests were welcomed by Miss L. Duke, President of Lamont Auxiliary. Mrs. Archer brought greetings from the W.A. and Rev. Kirk from Presbytery.

The business of the afternoon was interspersed by several pleasing solos and duets. A resolution was presented to the meeting and unanimously passed protesting the action of the C.B.C. in allowing wine and beer companies to sponsor programs over their network of radio stations.

Officers were installed by Mr. Kirk and after a refreshing lunch and social hour the delegates dispersed to meet in Mannville in 1948.

New Photo Studio To Open Shortly

Vermilion is shortly to have a new photo studio, Mr. Wally Guy carrying an announcement to that effect in the advertising columns of the Standard this week. A building is now being renovated into a modern studio. Mr. and Mrs. Guy have already taken up residence in the east end of town and photo assignments are already being accepted. See the advertisement for particulars.

Tragedy Strikes Home of Former Vermilion Lady

Two Sons of Mrs. Philip Coe Lose Lives in Fire

Two sons of Mr. and Mrs. Philip Coe were burned to death Saturday night when fire destroyed their home at Vernon, B.C. Mrs. Coe is the former Connie Maskell, daughter of Mr. and Mrs. Gordon Maskell of Vermilion. Mrs. Maskell left immediately to join her daughter.

The victims of the fire were five-year-old Philip Coe, and six-year-old brother Douglas.

Police reported that a 16-year-old boy left in charge of the children had gone to a hockey game, leaving the children alone. Mr. Coe was working when the tragedy occurred.

Miss Evelyn Jory, daughter of Mr. and Mrs. W. R. Jory, received her nurse's cap at the Lamont hospital on Saturday.

Willingdon Wins Hockey Tournament

Nine Teams Compete

Willingdon won the hockey tournament held by the Vermilion Amateur Athletic association on Tuesday, in which 9 teams competed. Second prize went to Clandonald.

In the first round Willingdon defeated Minburn; Paradise Valley eliminated Innisfree; V.S.A. defeated Dewberry; Clandonald won from Mannville. As Willingdon was in the extra series they went on to trim Derwent to reach the semi-finals.

In the second round Willingdon defeated Paradise Valley; Clandonald defeated the V.S.A., in the final game Willingdon won from Clandonald by a 4-1 score.

The tourney was not a financial success as there was a small deficit of some $20, gate receipts running around the $150 mark. However the visiting teams all seemed to enjoy the day's play.

A nice gesture of the V.A.A.A. was a donation of $20 to George Kitching of Paradise Valley who lost a tooth or two when hit by a flying puck. The donation was to help pay for the dental work required.

The thanks of the association are due to the many who co-operated to help make the tournament a success, with special mention of the referees, and those who acted as score keepers, timekeepers, goalkeepers and announcers. The effort was well worth while and will be repeated next year.

Mrs. Ellen Joule Passes Away

Mrs. Ellen Joule, Vermilion's oldest resident, passed away on Friday, February 14th at the hospital. She was nearing her 91st birthday and had made her home in Vermilion with her granddaughter, Mrs. Lorne Puckett for the past several years.

Two weeks prior to her death Mrs. Joule fell and suffered a broken hip. Death was due to shock from the accident.

Funeral services were held at St. Saviour's Anglican church on Monday afternoon Feb. 16th and interment was made in the Vermilion cemetery. The Ven. W. Leversedge, D.D. officiated. Moyer Bros. were in charge of arrangements.

St. Saviour's Parishioners Hold Annual Meeting

The parishioners of St. Saviour's Anglican church held their annual meeting on Monday of last week and received some very encouraging reports indeed as to the work of the church for the past year. Besides being able to build a new rectory the sum of $1550 was collected in the Anglican Advance Appeal for missionary work.

Officers elected were as follows:
People's Warden—Allen Maxwell
Vicar's Warden—E.H. Buckingham
Members of Vestry—G.R.F. Coop, L. Puckett, H. B. Evans, E. Sewstum, Ashley Cooper, Thos. Watts, A. M. Watt, C. N. Brennan, Cecil King, Ross Taylor. Delegates to synod were the two wardens and Mr. Cecil King.

Stage Plays Will Be Presented in Vermilion

By Travelling Company — First Time For Many Years

The Everyman Theatre, a Western Canadian Repertory Company, will present two plays in Vermilion, at the School of Agriculture auditorium, Monday evening, March 3rd at 8:30 p.m. This group of dramatic artists under the capable managership of Sidney Risk (formerly an Albertan) comes from Vancouver and is touring both large and small towns in the West, bringing to these places an opportunity to see good stage plays, well presented. Presentation of a good stage play by a stock company is something that towns in the West do not frequently have, and so this opportunity should be welcomed by many. The company will present two plays here: "The Marriage Proposal" by Anton Chekov; and "The Last Cave Man" by Elsie Park Gowan. An announcement regarding seats and prices will be seen elsewhere in this paper.

Dog Derby Here Next Wednesday

Sponsored by Louis McCulloch and Melvin Hill

The McCulloch-Hill Dog Derby will be run again this year and is to be held Wednesday next, Feb. 26th at 4:30 p.m.

The race is limited to boys 14 years and under and no less than 14 prizes are being offered. Full details are contained in the display advertisement elsewhere in this issue.

Entries close at 6 p.m. Feb. 25th and should be handed in at Hill's hardware store.

W. L. Robinson Buys Eastern Stock

While in the east attending the annual meeting of the Shorthorn Breeders Association W. L. Robinson purchased two pure bred heifers. These animals will arrive shortly at Vermilion from Ontario.

One of these heifers comes from the well known herd of A. C. McDermott of Goodwood, Ont. Both the sire and dam were imported from A.J. Marshall of Scotland. This is the same breeder who owned and exhibited the famous bull Bridgebank Paymaster three times champion at the Royal Show in England.

The other heifer was bought at the Guelph Auction sale earlier this month. She is also a Scotch Shorthorn of good breeding.

Mr. Robinson is one of the Alberta directors of the Shorthorn Association and represented this province at the annual meeting held in Toronto.

U.Y.P.S. Sleigh Ride

U.Y.P.S. are sponsoring a sleigh ride on Wednesday Feb. 26th. An invitation is extended to all young people of Vermilion 16 years of age and up. A small fee will be [illegible]. Anyone wishing to go please be [illegible] the United church by [illegible] sleigh leaves at 8.00

New Councillors And Mayor Are Sworn In

COMMITTEES ARE APPOINTED FOR YEAR 1947

A special meeting of the town council was held Monday Feb. 17th with Mayor Morrison and Crs. Bushell, Dawson, Kehoe, Stephens present.

Delegation: Mr. A. Manyluk interviewed Council re 1941 account for fire loss and 1942 account for sidewalk labor.

The following motions carried:

That request of W. B. Mix re electric welding in residential area be not granted.

That retiring Councillors R. W. Bushell and G. A. Park be offered a sincere vote of thanks for their services on the Council during their terms of office.

The meeting then adjourned and the newly elected Mayor and Councillors, J.W.G. Morrison, T. A. Stack and K. G. Urquhart, were duly sworn to office.

The new Council proceeded with the appointment of the various committees for 1947 and the following motion was unanimously passed:

That the following committees for 1947 be approved:
Finance—Stephens, Dawson.
Utilities and Airport—Hnake, Stack.
Public Works & Parks — Kehoe, Urquhart.
Arena, Fire and Police—Urquhart, Dawson.
Health & Sanitation—Stack, Kehoe.
Board of Health—Mayor, M.H.O., Hnake, Stephens, Urquhart.

Instructions to Secretary:

Advise E. Duchesneau that site of proposed welding shop was tabled until next meeting. Write Dominion Construction Co. re water and sewer installations on private property; Return account rendered by Mr. A. Manyluk and advise that matter was settled by resolution of Council on July 24th, 1944.

Meeting adjourned.

Sportsmen and Farmers, Attention!

Movie in Full Color to be Shown Here Free — All Farmers Invited

Attention all sportsmen and farmers — Mr. [illegible] of Ducks Unlimited will be in Vermilion on March 5th and will show the colored moving picture "The Big Duck Factory". He will also address the gathering on the work of his organization.

The Vermilion Branch of the Fish and Game League extend a warm invitation to everyone interested to attend. For time and place of meeting watch next week's Standard.

Vermilion Has "Most Beautiful Baby" Contest

SPONSORED BY PHOTO STUDIO

A large display announcement elsewhere in this issue of the Standard informs the public that the New Photo Studio, located at the rear of the Vermilion hotel is sponsoring a Most Beautiful Baby Contest. Twenty valuable prizes are being presented to the various winners. The contest closes March 31st and full particulars are contained in the advertisement.

Vermilion Tigers Win Three Straight

ELIMINATE LLOYDMINSTER

Vermilion Tigers closed the league schedule by trimming Lloydminster on Vermilion ice last Thursday night by a score of 7-2. The Tigers then went on to win the semi-final round against the same team in two straight games in the best of three series. The first game played here Saturday night resulted in a 9-2 win for the Tigers. They then proceeded to Lloydminster Monday night and turned in a 5-0 shut-out.

The Tigers have iced their strongest line-up of the season in the last two games and everything seems set for a great final series with Vegreville Rangers for the league championship and Craig cup.

Vermilion Reaches League Finals

HOCKEY PLAY-OFF DATES ARE ANNOUNCED

By virtue of eliminating Lloydminster in the semi-final round in two straight games, Vermilion Tigers reached the final of the Eastern Alberta hockey league and now meet the league leaders the Vegreville Rangers for the championship and Craig cup. The final series is a best three of five game affair and will be played as follows:

Vegreville at Vermilion Thursday Feb. 20th
Vermilion at Vegreville Saturday Feb. 22nd.
Vermilion at Vegreville Tuesday, Feb. 25th
Vegreville at Vermilion Thursday, Feb. 27th:
Vermilion at Vegreville Saturday, [illegible]

The series can be completed in three, four or may go to the full five [illegible].

Pep Moon of Edmonton has been engaged to referee the series.

Special Meetings at Salvation Army Hall

Special meetings will be held in the Salvation Army hall from Feb. 24th to 28th, commencing at 8 p.m. each evening. The Rev. Thibideau of Lloydminster will be in charge. On Wednesday night a moving sound film will be shown. All are invited to attend these meetings and to hear the message.

OBITUARY

MRS. ALICE SHERWOOD

The funeral of Mrs. Alice Sherwood was held at St. Saviours Anglican church Wednesday afternoon Feb. 12 1947. Mrs. Sherwood passed away at her home on Saturday Feb. 8th.

The deceased was born in England in the year 18[illegible], coming to Canada in 1906 settling in the Morrison district. Mrs. Sherwood was the wife of the late William Sherwood who predeceased her by one year. She leaves to mourn her loss two daughters, Mrs. Giles and Mrs. Cummings, and one son Thomas Sherwood, 11 grandchildren and 5 great-grandchildren. She will also be greatly missed by a very wide circle of friends.

Interment took place in the Vermilion cemetery. The Ven. W. Leversedge D.D. officiated.

The pall-bearers were Messrs. Thos Watts, W. P. Pilkie, Barney Powell, Charles Burt, B. Gould and A. E. Ronaghan.

Beautiful floral tributes were received from:

Lil and family, Daisy, Ruby and Pat, Tom, Isobel and family; Mrs Fowler, Jessie and boys; Mr. and Mrs I. J Carey, Morrison Community club; Mr and Mrs. Geo. Cupston and Mr. and Mrs. James Cavil; Mr and Mrs. D. H. Swanson and family; Mr and Mrs. John Miller and family, Mrs. Rollins and the Watts family, Mr and Mrs. A. Pinchbeck and Mrs. Pinchbeck Sr; Mr. and Mrs. W. P. Pilkie, Billie and Bert; The Payne's; Bowtell Busy Bees; Beth Witherbe, Grannie Gould, Rosie and Fred; Mrs. Punter and Hattie; Jim, Nellie and family, Vermilion Old Timers Assoc.; Mr. and Mrs. Hugh Evans, Jessie and Gib, Mr. and Mrs. Bowman and family, Rubens and family; Stephens Ltd and staff; Mr. and Mrs. Bert Gould; Mr and Mrs. E. Jones; Mrs. P Dixon; Mr. and Mrs. A. Hildreth and family, Bob and Clayton; Daddy Woodruff and Sym; Mr. and Mrs. Vic Dodelly; Mr. and Mrs. John Arnold, Mr and Mrs. A. M. West and Mr. and Mrs. Elmore Stewart, Mr. and Mrs. W Walker and William; Marg. Bob and Jean; Arthur and Nora Ronaghan and family, J. R. Thompson and family, and Mr. and Mrs. W. Fooks; Mr and Mrs. Harry Perkins; Manager and staff Co-op store; Mrs. Brown and family, Mr. and Mrs. E. M. Hodgson and children, Edmonton; Jack Coward Jack Jr and family.

Mayor Bros. were in charge of the arrangements.

CARD OF THANKS

The loved ones of Granny Sherwood would like to extend their most sincere thanks to friends for the help and sympathy received during their recent bereavement and for the beautiful floral tributes.

CARD OF THANKS

We wish to extend our sincere thanks for the acts of kindness and beautiful floral tributes received during our recent bereavement, with special thanks to Mrs. C. English and Mrs A. Cameron.

Tom Sherwood and family
Mrs. Cummings and family

CARD OF THANKS

I wish to thank all those who supported me at the polls on Monday, Feb. 10th and will do my best in the interests of education to merit the confidence reposed in me.

Mrs Begley White.

CARD OF THANKS

I wish to take this opportunity to thank the electors generally for the support accorded me at the polls on Monday Feb 10. I will do my best during the next three years to justify the confidence placed in me by doing all in my power to give Vermilion sound but progressive type of civic legislation.

Thomas A. Stack

Theirs is the Future

Canada's 100,000 Boy Scouts, with 65,000 Canadian Girl Guides, are this week celebrating Boy Scout-Girl Guide week. As Chief Scout for Canada, the Governor-General Viscount Alexander, officially opened the week with a radio broadcast. Viscountess Alexander, Hon. President of the Canadian Council, Girl Guides Assoc., spoke on the same broadcast, as did Maj.-Gen. D. C. Spry, C.B.E., D.S.O., Chief Executive Commissioner of the Boy Scouts of Canada. Slogan of Scout-Guide week in Canada this year is: "Theirs is the Future".

Prize lists of ladies work and hall exhibits for the Vermilion Fair are now available at the office of the secretary-manager, S. C. Hockhert, or sent by mail on request.

Mild Weather Forecast

This area is in for a nice mild week end according to weather forecasts. A variety of temperatures have been experienced during the past week with the high of 37.8 on Saturday Feb. 15 and a low of 23.4 below on Tuesday Feb. 18.

Bowtell Bulletin

Since writing our last bulletin the family was saddened by the loss of their mother and grandmother, Mrs. Sherwood who passed peacefully away in her sleep.

Not being present at the last Busy Bee meeting the writer is unable to give a full report but hope to do so in the next bulletin. The next meeting will be held at the home of Mrs. Harrison, lunch by Mrs. Harrison and Mrs. Rapp.

Mrs. Cummings spent four days at the home of her brother Tom Sherwood during which time she attended the funeral of her mother.

Harry Perkins has had the operation on his foot and is now having a deep skin graft done.

The writer heard over the radio that her brother, Mr. B. Fowler, won a Hudson Bay blanket Saturday.

Mr. and Mrs. E. Williams expect to move to the former Kerslake farm in the near future.

It certainly has been a cold winter folks and at time of writing this news it is 20 below — but spring is just around the corner.

What we would like to know—What is a 'baby sitter'? Our old friend Barney was minding several babies in their buggies Saturday and on being asked what he was doing said that he was being a baby sitter. We still have our doubts Barney.

DESIRABLE OFFICE SPACE FOR RENT—Light, heat included. Central location. F. J. RICHARDSON. 61-3c

OUR COMPLETE SHORT STORY—

COMMENCEMENT

By EL[illegible]INE FRANCIS

THIRTEEN of the seniors at Miss Folton's boarding school were excited and happy this graduation day. The fourteenth, Betsy Van Nord was miserable. In a few minutes she would be revealed as anything but "the select young lady" Miss Folton's turned out. Just wait until Marly, Louise, and all her other friends saw her parents. Why did they have to come and ruin everything? After practically ignoring her for four years, why couldn't they have stayed on the West Coast?

"Daddy and I could not bear to miss our little girl's big day, so we are dropping our contract at the Club Chichi," mother had written in her big, sprawling hand, "and will arrive by bus, train, or carrier pigeon." Phooie!

"The darling dopes," Aunt Jean sighed when Betsy read it over the telephone. "But what's a job when you've given up everything."

Betsy interpreted this in her own light. Her parents were irresponsible. She had thought so for quite awhile, ever since they shipped her east to Mrs Trilling, Dad's elder sister. "It's for your sake darling," Dad said, "the hot spots where mom and I work, are no place for a twelve year old beauty. Remember, we'll miss you." Double phooie! They were just ducking their duties.

The first heartbreak over, Betsy learned to love Aunt Jean, her New York apartment, and finally Miss Folton's. It was such an exclusive school—scholastically high, too—that Betsy could never have held up her head without a touch of showmanship in her blood. At least that is how she felt. For the other girls, daughters of wealthy professional men, were so similar in appearance, speech and background. The important thing, Betsy determined, was to be exactly like them. By adroit questioning and later on vacation visits she learned much about their families. Regarding her own she said little, and that little, highly imaginary. Her parents, she admitted if pressed, were engaged in social work on the coast. Which was one way of describing the rough and tumble comedy team of North and North. She was glad they used an assumed name for their act, and gladder that Aunt Jean, her sponsor, was white-haired and patrician. Sure, she would not have been accepted if Miss Folton knew her parents. They were so different in every way from the trim mothers, the tailored fathers Betsy met. Mom with her wild henna hair that looked so beautiful in the spotlight, so outre in the daylight. Dad with his startling jackets and booming voice. By eastern standards they were loud, exuberant—awful. If only something would prevent their arrival. Once exposed as different how could she ever face her friends again? She could imagine the raised eyebrows, the tittered comments, the

Slowly she descended the winding stairs and even more slowly entered the reception room filled with beaming relatives of the graduates. She said hello to those she knew and would have missed her parents entirely if it were not for Aunt Jean. They were so neat and subdued that momentarily her heart filled with relief. It sank again when she reached them. Mother's flaming hair was too set in its unnatural sausage curls, her dress too severe. And father's morning suit was too stiff, even his gardenia looked sharp. Was it the cheapness of their clothes that made them seem like caricatures of the others?

"Darling," her mother cried and though she did not fling her round, full arms about Betsy and press her to her [illegible] the [illegible] of her voice gave that affect. "My dearest," her father said, "you're beautiful," and his words boomed around the room. Betsy winced. She kissed them almost [illegible] and then felt frantically for Aunt Jean. Here was someone worthy of display.

Mother's lips quivered as though she had been slapped but Betsy edged them into a corner and started talking. [illegible] Various friends [illegible] was [illegible] over to them [illegible] group, but Betsy did not move. Nor when Marly with her parents in tow, paused to speak to Aunt Jean did she make [illegible] her friends [illegible] at her [illegible] whispering about her, and she [illegible] desperately the exercises [illegible] Chapter [illegible] replaced [illegible] her parents [illegible] she thought bitterly [illegible] graduates [illegible]

It's diff[illegible] which has [illegible] what Betsy [illegible] the room. [illegible] got a lady [illegible]

[illegible]

Betsy smiled at [illegible] action. Yet Marly was right [illegible] lucky. What was the matter [illegible] parents the [illegible] Being different [illegible] growing up. Meeting the [illegible] she watched the audience [illegible] family and then smiled [illegible] their eyes.

ST. VICTOR AN OASIS ON PRAIRIES

ST. VICTOR, Sask.—This hamlet of about 80 residents, 10 miles from the nearest railroad or highway, is an oasis in the dry wheatlands of south central Saskatchewan.

Two dams, built with the assistance of the Prairie Farm Rehabilitation Administration, provide a stream deep enough for swimming as well as water for orchards of plums, cherries and apples. Raspberries and strawberries also thrive here.

But the most incongruous feature of St Victor is that almost half the population is made up of men and women in their twenties. They work for a funeral benefit insurance society which does all its business by mail.

The site is a green acre in the hot summer months with swimming and fishing close at hand back of the dams. If night club entertainment is preferred there is Glasgow, Montana, a few miles away across the border.

Leader of the tiny community is J. F. Lalonde, head of the insurance society, who came from Quebec in 1916.

His brother Eugene, was the original postmaster and still holds the post.

The Lalonde home is something of a "Shangri-la" in this farming district. A tennis court and fish pond make it even more fantastic for a prairie home. There are maples, elms, poplars on the grounds.

Lalonde's 50-foot beach was formed when he put in his own dam which utilizes waters of nearby springs.

More Health-Giving

Nutritional Value Of Milk Retained Longer In Colored Bottles

Now it's painted milk bottles. Toronto's Banting laboratories suggests that if a red or green bottle were used instead of the traditional clear-glass container, the milk would retain its nutritional value longer.

Experiments with riboflavin—better known as vitamin B2—led to the painted bottle idea. Nutritional and food investigations by R.C.A.F. doctors and the Toronto Hospital for Sick Children established the fact that the riboflavin essential to good health could best be obtained through milk and dairy products. Also established was the fact that milk exposed to sunlight loses its riboflavin fairly rapidly.

The Banting laboratories idea, then, was not prompted by any desire to bring milk bottles into line with the current trend toward more colorful surroundings. Rather it sprang from investigation indicating that milk in colored bottles would tend to be a more health-giving drink.

Hospital Board Holds Regular Meeting

The regular monthly meeting of the Vermilion Municipal hospital board was held on Saturday, Feb. 8. Those present were Vice-Chairman Mr. J. C. Tucker and Messrs. Alexander, Mactab Master, McClellan and Parker.

The minutes of the previous meeting were adopted as read.

Cash statement for January was presented as follows:

Fwd. from December	$6,885.33
Plus Jan. Receipts	807.50
	$7,692.83
Less Jan. Disbursements	2,937.30
	$4,755.53

Cash statement for January was adopted as read.

The following accounts were passed for payment:

Leo Klachtasky $19.00, Ash Temple 15.00, Western Supply 13.95; Alta Govt Tels. 11.82; Fisher & Burpee 130.61 Ingram & Bell 1,954.07; Abbott Labs. 17.44, Shuttleworth 11.88; Stevens Co. 9.00, Imperial Oil 2.81, Woods Ltd. 178.35, Ferranti Elec. 6.15, Alta. Nat. Drug 46.90; Hudson Bay Co. 8.45; Bauer & Black 282.63, Moyer Bros. 32.00; Town of Vermilion 128.61, C.N.R. 8.72, Stanley Brock 86.41, Long's Drug 21.18; Co-op store 274.71, Craig's 152.88; Greer agencies 7.00, Revelstoke Co. 1.50; Nelson-Hill 7.15 Northern Hdwe. 60.77; Hospital Forms 110.95; Franco Public Service 33.10, Joe's Delivery 5.00; Meyer's 68.40 salaries 1,985.00 Total $5,927.10.

The secretary was instructed to write Dr. Anderson, Royal Alex. hospital Edmonton, for information on arrangements for isolation patients with their hospital.

The Supt. reported as follows:

Hospital days 968; Patients admitted 135; Patients Discharged 130; Births 14; Deaths 1; Operations, major 12 minor 29.

Meeting adjourned.

WOODVALE

The cold weather and bad roads made it impossible to get any news items to Vermilion, so everything is rather out-dated.

However, we will start with very belated but most sincere good wishes for many more years in health and happiness to Mr. O. H. Webber and Mrs. C. Freidland, who both celebrated their birthdays during the severe cold spells. Mr. Webber reached the ripe old age of 80, spending the day quietly as usual near the stove in an easy chair reading. Mrs. Freidland is 76 now and still as active as ever, though she is just a wee bit more stiff in the joints than in the earlier days, but it is hardly noticeable to others. One of her grandsons Walter Dibrou got married on January 29th at Cherry Grove to Miss Doris Felts and we wish the young couple the very best for their future life together.

Chester and Jean Rankin have travelled to B.C. and the States where they will visit their many friends and relatives. They plan to stay away for a month and have missed so far the worst of our cold weather.

Mrs. Hulda Potter is leaving our community again to work in Edmonton and thinks she might stay there for good. She will be missed greatly here if that is so. We hope she'll return often for a visit to her son and parents.

Herman Wolters is hauling supplies for the Tulland store as Mr. Webber's truck is still broken down.

Samuel Freeman returned to his home near Lloydminster after a two months stay at the home of Mr. and Mrs. H. Wolters.

Spring cannot be far away as the young lambs have started to arrive at the Van Wagoningen farm.

The children decorated the school and had plenty of fun at their Valentine party.

Notice to Creditors and Claimants

IN THE ESTATE OF WILLIAM WRIGHT, LATE OF THE POST OFFICE OF MANNVILLE, IN THE PROVINCE OF ALBERTA, FARMER, DECEASED.

Large Graduating Classes At Schools of Agriculture

CLOSING EXERCISES APRIL 9th

The large numbers in this year's graduating classes at the two Provincial schools of agriculture at Olds and Vermilion constitute a record for these schools. S. H. Gandier, Superintendent of Schools, reports that during the first week of April 246 senior students will write the final exams. Of this number 168 are students in Agriculture and the remaining 78 are girls in the Home Economics courses.

The number of graduates from each school will be almost equal, the senior classes at Olds totalling 126 and at Vermilion 120. Diplomas will be presented at the closing exercises to be held on April 9th.

The dormitories at both Olds and Vermilion are filled to capacity this winter with approximately 200 students in residence at each school. Included in this term's student body are about 60 ex-service men, the majority of whom intend to engage in farming on their own places.

Many applications that could not be accepted last fall were placed on the waiting list for the next school term opening in October. New applications are now being received in increasing numbers at both schools, indicating that the classes will again be filled long in advance of opening date. Though the minimum age for entrance was raised from 16 to 17 years a year ago, this has not materially reduced the large number of applicants.

Dates of two annual school functions of interest to the public have not yet been announced. These are the Little Royal Live Stock Show and the students 'Achievement Day. These exhibitions will be held toward the end of March. A cordial invitation is always extended to parents and the general public to visit the schools on these days when much of the work accomplished in the practical courses is on display. Watch for announcement dates.

Questions . . . Answers

THE RED CROSS

Is Red Cross organized for Disaster Relief?

Yes. Red Cross has personnel, mobile hospitals, blood banks and supplies ready at all times to meet disaster anywhere in Canada.

Does Red Cross assist many crippled children?

Yes. Over 25,000 have been assisted by members of the Canadian Junior Red Cross as a part of their extensive service program. Junior Red Cross, with an enrolment of nearly 900,000, is the largest youth organization in Canada, inspiring its members to better health, good citizenship and world friendship.

Is the Red Cross a voluntary organization?

Yes. More than 96% of the Red Cross services are made possible by the work of volunteers. Without them the Society could not function.

The Scarcity of Education

The man in the street has no difficulty in understanding why there is a scarcity of bacon, beef, cement and lumber, but an explanation of the scarcity of education today in Alberta is not such an easy matter.

Six years of war depleted enormously the farm stock of Europe, so meat and animal products throughout the world are in very great demand. Millions of homes were destroyed by war, and millions more remained unbuilt during the war, so building materials are hard to get.

But the educational crisis in Alberta is quite different from this. There are as many school buildings as there ever were. There are more well-educated people who could be teachers than there ever were. There is more money in circulation and fewer things to spend it on than ever before in peace time. The set up should be perfect for "Plenty of education for everybody". And yet, more than 15,000 of our children are condemned to mail-box education, and some thousands more get none at all.

This looks like a man-made crisis in education which a wise administration could clean up if it really believed that good schools and good teachers should be the first call upon the resources of the province.

ETHELWYN

The extremely cold weather has let up at last. The men immediately began plowing out the roads and people are now getting around again seeing how their neighbors weathered the two weeks of snow, wind and cold.

The whist drive in aid of the cocoa fund netted $6.50 in financial returns as well as being a very pleasant evening for all who attended. It was pleasing to see some new players in attendance. Prizes were won by the following: Ladies 1, Mrs. Attfield, Mrs. Grinski, consolation Billie McDonald, playing as a lady; Gents 1 E. Attfield, 2 J. MacGillivery, consolation S. Attfield.

Another whist drive will be held on March 1st proceeds for playground equipment. A Valentine dance was held last Friday.

The writer was sorry to hear over the radio of the passing of an old friend in the person of Mrs. Wm. Sherwood. The writer and husband will never forget the kindness of Mr. and Mrs. Sherwood one night several years ago when caught in a blizzard coming from Vermilion. Sincere sympathy is extended to the sorrowing family.

According to the last Standard only two ladies attended the ratepayers meeting held in Vermilion also that a lady made history by being the first of her sex ever elected to a public office in the town. What's the trouble, are the women not interested in public affairs or are the men just plain old fashioned and think that woman's place is in the home?

The above may be the cause of the following condition. I think every one is proud of the progress Vermilion has made in the past. It is a credit to the town that so many retired farmers move to Vermilion rather than to [illegible] However there is little if any accommodation for elderly people who [illegible] to build their own homes. VETERANS'
Business and Professional
LOANS
Up to $3,000

A NEW Dominion Government Act provides that war veterans, resident in Canada and entitled to War Service Grants, may borrow up to $3,000, on long terms, at reasonable interest rates, for business and professional purposes, as follows:

The purchase of a business or of an interest in a business.

The purchase or repair of instruments, tools, machinery or other equipment to be used in a profession, trade or business.

The construction, repair or alteration of a building used or to be used in carrying on a profession, trade or business.

This Bank is authorized to make these Veterans' Loans, and our Managers will be glad to give helpful advice and assistance to all entitled to such loans.

Veterans may freely consult our Managers — many of them veterans themselves — as to how they can conveniently borrow for business and professional purposes.

"GREEN ACRES"

THE GOOD EARTH

We all agree that continued cropping must reduce soil fertility but do we generally recognize that after several years the root fibre has disappeared from the soil. It is this decaying vegetable matter which holds moisture and when it is gone a soil dries out within a few days after a heavy rain. There are two ways to add fibre to a soil, first by growing [illegible] and second by applying barnyard manure. Both methods will pay big dividends.

HEIFER CALVES

Several pure bred breeders of Hereford and Shorthorn cattle are offering some heifer calves for sale. Anyone interested can get information at the D.A. office.

[illegible]

Everyone keeping bees should immediately apply to the Provincial Apiarist, Edmonton, for a permit to buy sugar. Only 5 pounds is allowed but with some honey and pollen saved in combs from last year the bees are given a good start. Application forms are available from your D.A.

COYOTE HUNTERS WANTED

Under a new policy the Provincial Government will hire local hunters for killing coyotes. Anyone interested can apply direct to the Livestock Commissioner Dept. of Agriculture, Edmonton.

CIRCULAR ON FOODS

A supply of the new circulars entitled "Foods for the Family" has arrived at the D.A. office. There are 15 pages of condensed information on Cooking Hints and Stretching Food Dollars. Get your copy today.

MARGINAL FARMING

By any standard it is measured, wheat farming is [illegible]. Crop production in this district is too big a gamble unless plenty of livestock is kept on the farms to distribute the risk. If a wheat farmer is barely getting by now at present prices his position will be precarious when prices drop.

E. H. Buckingham, D.A.

To Mr. and Mrs. James Cavil on the 61st anniversary of their wedding, February 16, 1947 —

On your wedding day the gifts they brought,
Were useful things that required thought,
That, as you used them, a day or a year
Kept the kindly giver ever near.
Anniversary gifts, as each came by,
Were from paper to silver to signify,
Right on along the years soon rolled
Till the anniversary gift was gold.
Time sped then swift as night and day,
How the precious years can fleet away.
Then the next great milestone in a life
Together shared by a man and wife,
Was the Diamond one so few attain,
One more big link in a long, long chain.
Whilst the loved ones plied you with gifts galore,
Some One handed you one gift more,
It wasn't wrapped in a package bright
Or set to surprise you, just out of sight.
It was softly whispered in your ear—
"I give you the Gift of Another Year."
So today, as that year joins the rest,
May we hope The One who knows what's best,
Whilst nice surprises be in store
Gives just the same as He gave before

MORRISON NEWS

We all enjoyed ourselves over the week end, we took the Happy Gang's advice. The weather was nice, some did a little visiting. A lovely time was enjoyed at the home of Mrs. Playne on Valentine's Day. A delicious lunch was served and everyone was full of smiles.

Mr. and Mrs. Keith Inman, "Joan and Keith" were home for the week end. Laurence and Christie were supper guests at the writer's home on Saturday night. After supper the Gillies family arrived and games were played until the wee sma' hours. Betty and Gordon Purser were out to the Gould home Sunday then all journeyed to Laurence's to spend the evening. The Gillies family, Bill and Lou, were supper guests at Christie's.

Christie Clark and Lloyd Gould went to Islay for the Valentine dance Friday last.

The Duprait children, Lloyd and Fred Gould were supper guests at Christie Gould's on Wednesday night.

Spring will soon be here again to cheer up everyone

Wildmere Winks

Our deepest sympathy is extended to Mr. T. Sherwood and his sisters Mrs. Cummings and Mrs. Giles, on the loss of their dear mother who passed away a short time ago. Another old timer gone on to reap her reward for helping to make this earth of ours a better world.

While in town on Monday we noticed that the manager of the Co-op store was making alterations to obtain more space for display purposes.

Our road to town is still in grand shape after being opened by Earl Gosko and his partner with the bulldozer. They surely pushed it wide open and in some places the snow piles reach nearly to the tops of the telephone poles.

We were sorry to hear that Mrs. Cruthers who went out to visit her son Russell and family at Burnaby, B.C., had the misfortune to fall and break her arm which has been very painful. She has it out of the sling now but it still is very stiff. We all wish her better luck during the rest of her visit at the coast.

Anyone finding a parcel containing two skirts size 12 years, mislaid in town on Monday please send to the owner Mrs. J. Wallington R.R. 2, Vermilion who will pay the postage or they could leave them at Stephens store. Such kindness would be very greatly appreciated.

Jimmie is sawing wood today, not much time to write news with hungry [illegible].

At the A.F.U. meeting on the 13th a whist drive was held with enough to fill 7 tables. The winners were Mrs. Dave Hughes first and Mrs. Roy Gibson consolation. Men's first was won by Frank Gibson and consolation Lloyd Howard. A swell lunch followed the whist. Everyone hopes that there will be more of such evenings as it was truly enjoyed by all those present.

CANADIAN AGRICULTURE SAFE

Canadian agriculture is in a sound position today, with no danger of another collapse such as that which followed World War 1. Gordon L. [illegible] of The Financial Post, reports from Winnipeg where he attended the annual convention of the Canadian Federation of Agriculture. Delegates voiced hope that through continued controls farm prices might be held in some way near present levels.

After the show on Saturday evening attend the dance at the Elks hall. An enjoyable hour or two for only 25c.

Plan Better Rural Housing For Prairies

SASKATOON — A recommendation that a co-ordinating committee be appointed to investigate all matters allied with improvement in rural housing, community centres and similar buildings was passed at a meeting attended by rural housing representatives from the prairie provinces. It was sponsored by the Central Mortgage and Housing corporation.

The suggested committee would contain representatives of the governments of the three provinces, their universities, the federal department of Agriculture, National Research council, and Central Mortgage and Housing corporation. The latter will pass on the recommendation to the provincial ministers concerned.

It was suggested that duties of the committee would be to investigate architectural designs for improvement in farm homes, use of water and sewage disposal systems, improved heating systems, and generally consider the design and structure of buildings that could be used as community centres or for recreation purposes. The committee would also determine where special research would be conducted leading to the objective outlined, taking into account the people best qualified to do the work and facilities available for it.

The two representatives of Central Mortgage and Housing corporation at the meeting were T. B. Pickersgill, supervisor of the farm loans division, and S. A. Gitterman, Ottawa. Also present were six representatives of the Manitoba Rural Housing committee, Alberta government and University of Saskatchewan, the experimental station at Swift Current, Sask., and E. E. Eisenhauer, deputy minister of Reconstruction and Rehabilitation in Saskatchewan.

Five Million Pounds Butter For Canada

OTTAWA. — Five million pounds of butter will be shipped to Canada from New Zealand to augment this country's butter supply and of that total approximately 1,500,000 pounds has already reached Halifax, Rt. Hon. James G. Gardiner, minister of agriculture, disclosed in an exclusive interview here with the Regina Leader-Post.

"The butter from New Zealand will enable Canada to get through the ensuing year without reducing the present butter ration of six ounces per person per week," Mr. Gardiner said.

Last year when Canadian butter stocks dwindled and production fell off the ration had to be cut to four ounces in March. It was not raised to six ounces until June 1.

"We can get 12,000,000 pounds of butter from New Zealand and Australia this year if we need it to maintain our present ration. But, providing there is no sudden drop in our own butter production, compared with previous years, I believe 5,000,000 pounds will be all that we require.

"The butter from New Zealand was originally scheduled to go to the United Kingdom. Its diversion to Canada will not mean any reduction in the British ration of spreading fats. The rations for spreading fat in Canada are not higher than in Great Britain and New Zealand. However, in the United Kingdom the ration is made up of a combination of butter plus oleomargarine.

"The shipping of butter from New Zealand to Canada will make it possible for the authorities in this country to maintain [illegible] of spreading fats as in effect in the United Kingdom," said Mr. Gardiner.

Canadians consume large quantities of butter and a small quantity of vegetable oils. In the United Kingdom their consumption of butter is relatively low but they are heavy consumers of vegetable oils. Oleomargarine today for the most part is manufactured out of vegetable oils unlike the First Great War when it was made out of animal fats.

Saskatchewan Could Produce More Wheat

SASKATOON. — Wheat production in at least one-third of Saskatchewan, Canada's greatest wheat growing province, could be increased 20 per cent by use of fertilizers, Dr. H. [illegible], head of the soils department of the University of Saskatchewan told the northern Saskatchewan branch of the Agricultural Institute of Canada.

This alone would push off the day when the soil's fertility would be exhausted and production drop off.

Advances in mechanical methods of farming, increased control of diseases and pests and improved crop techniques were other reasons for believing crop production in Canada would be maintained at its present level for some time to come. 2712

TRAVEL, VIA SNOWSHOES—Making rounds on snowshoes, Dr. W. A. Thomson is seen in snowbound Regina. Besides the cold, as low as 22 below zero, Regina folk have had to buck 45-mile-per-hour gale.

NEW AMENDMENTS TO LABOR CODE

OTTAWA. - Provincial jurisdiction over "war industries" will be restored March 31 under an order-in-council tabled in the commons by Labor [illegible].

The order, passed Jan. 30, also will have the effect of consolidating into P.C. 1003—the federal labor relations bill—all machinery for the investigation and conciliation of industrial disputes.

Apart from the section returning powers to the provinces, the order comes into effect Feb. 15.

The new amendments are regarded as of a transitional nature, to bridge the gap between now and the time - later in this session - when the government brings in its proposed new [illegible].

DOG RACING CANCELLED

LONDON. — Dog racing in Britain was cancelled by the government recently owing to the drastic electricity cuts, it was announced at a ministry of fuel and power conference.

BRITAIN TO GET BRITISH COLUMBIA'S CHOICE LUMBER

VANCOUVER.—Great Britain will buy 40 per cent. of British Columbia's lumber production in 1947 at a record high price under contracts now being concluded here by Sir Archibald Harris, British timber controller.

For paying the high prices it is understood Britain will get increased selectivity in B.C. lumber—the choice of the best produced.

Holland and France are also to get B.C. lumber and some will be shipped to the United States. It is expected lumber earmarked for Canadian domestic use will be held to 35 per cent. of the cut.

EMERGENCY CHURCHES

BERLIN. — Twenty-one prefabricated emergency churches have been received from Switzerland to replace [illegible] damaged in Germany during the war, the American military government said.

Storm Hardships

Country Centres Holding Well

REGINA. — Lack of fuel and feed in most rural centres, many of which have had but one train in a month has reached a precarious state. Food also is low but no cases of actual distress have been reported.

Farmers expect to see a considerable loss in livestock due to the lack of feed. Many cattle weak from the lack of proper feed were unable to withstand the cold weather and perished. Due to the tieups in transportation farmers were unable to ship them to the stock yards when the feed shortage became apparent.

Country people hope for warm weather or their domestic supply of fuel will be exhausted in a short time.

Conservation measures are being taken by dealers who have fuel but many have been without for several days.

In some places dealers are without fuel and residents are unable to replenish their supply of wood from the bluffs because of the depth of the snow. There, baby foods and milk were in short supply.

Farmers were expecting to take a loss in livestock. One farmer found two of his horses dead and said there would be many more.

Some residents are maintaining their supply of groceries by sleighing them in from distant places.

Estimated loss of cattle at Manketa, Sask., due to lack of feed was 18 head. Feed situation there was extremely acute.

Riverhurst, Sask., was relieved when an air ambulance plane brought food. Medical supplies were low and it was believed an attempt might be made to bring in fuel oil by tractor train.

LEGISLATION FOR DEBT REFUNDING

OTTAWA. — Legislation ratifying plans for refunding part of the treasury bills of indebtedness of Manitoba, Saskatchewan, Alberta and British Columbia will be submitted to parliament this session, it was disclosed in a return tabled for P. E. Gagnon (Ind.-Chicoutimi).

The treasury bills represent loans made to the provinces for relief and other purposes during the great depression.

HEADS JEWELLERS—J. Dunn [illegible] of Toronto was elected president of the Canadian Jewellers association at the 29th annual convention in Quebec city.

B.C. PENSIONERS GET BOOST

VICTORIA, B.C. — Old age pensioners in British Columbia will receive a $5 a month cost of living bonus retroactive to Jan. 1 this year, a joint announcement by Premier John Hart, Finance Minister Herbert Anscomb and Provincial Secretary George S. Pearson said.

The bonus, second to be granted by the province, will bring the monthly old age pension allowance to $35. Of this amount B.C. will pay $16.25 and the federal government $18.75.

Premier Hart said the bonus was being given for a temporary period pending revision of the old age pension arrangements by the Dominion government.

The premier said that while in Ottawa last November he was assured by Prime Minister King that the moment a sufficient number of provinces had signed agreements he would call a conference to discuss the question of implementing the social security measures and public investment program submitted to the Dominion-provincial conference in August 1945.

"It now is my intention to press for a convening of that conference and I have every hope that more generous treatment will be accorded those in receipt of old age pensions," Mr. Hart said.

The new bonus will cost the province [illegible] annually. Total amount now paid out in pensions to B.C.'s 18,000 pensioners is $[illegible] annually of which the Dominion's share is $3,761,000.

To Continue Collaboration With U.S.

OTTAWA. - Prime Minister Mackenzie King announced in the commons a [illegible] peacetime continuation of defence collaboration with the United States and emphatically denied that Canada's southern neighbor had asked for military bases in the Canadian north.

Simultaneous statements in Ottawa and Washington said the two countries had made an informal working arrangement to [illegible] the wartime co-operation through exchange of personnel and observers, reciprocal "availability" of facilities, gradual application of common designs and standards in arms, equipment, training and organization.

Both in the statement and [illegible] Mr. King maintained that the two would support and strengthen the United Nations and held that it was a contribution to the stability of the world. It permits [illegible] procedure within the British Commonwealth and in no way [illegible] with or replaced them.

Mr. King [illegible] recalled 1938 [illegible] with himself and the late President Roosevelt that the defence of one country meant defence of the other and indicated that those statements were being molded into tangible [illegible].

It was, he said, as a result of deliberations of the seven-year old joint permanent defence board, its Canadian head is Gen. A. G. L. McNaughton, that the two countries had decided to collaborate in the interests of efficiency and economy and "to the extent authorized by law" on the basis of these five principles:

1. Interchange of selected individuals so as to increase the familiarity of each country's defence establishment with that of the other country.

2. General co-operation and exchange of observers in connection with exercises and with the development and tests of material of common interest.

3. Encouragement of common designs and standards in arms, equipment, organization, methods of training and new developments. As certain United Kingdom standards have long been in use in Canada no radical change is contemplated or practicable and the application of this principle will be gradual.

4. Mutual and reciprocal availability of military, naval and air facilities in each country, this principle to be applied as may be agreed in specific instances. Reciprocally each country will continue to provide, with a minimum of formality, for the transit through its territory and its territorial waters of military aircraft and public vessels of the other country.

5. As an underlying principle all co-operative arrangements will be without impairment of the control of either country over all activities in its territory.

Income Tax Reductions Held Likely For 1947

OTTAWA. — Taxpayers can expect additional cuts off their income taxes for the calendar year, 1947, likely ranging from about 15 per cent off the lower [illegible] per cent off the upper brackets, according to reports here from usually reliable but unofficial sources.

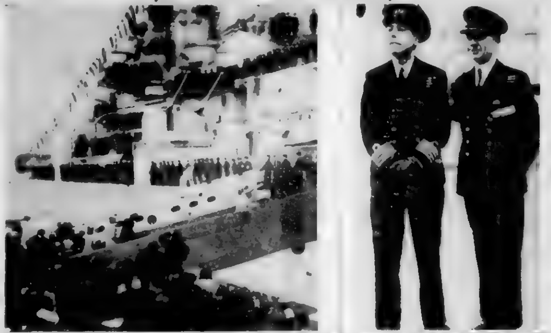
Such a graduated scale of income tax cuts would bring the total reductions for 1947, [illegible] those made January 1 last, to an approximate average reduction over the whole 1947 income tax range of between 25 and 30 per cent.

The reduction, however, it is understood would [illegible] the tax loss [illegible] eliminating about [illegible] taxpayers [illegible] from the [illegible] by reason of increased [illegible] exemptions.

The cuts will be made possible by [illegible] that the government will [illegible] March 31 with [illegible]

[illegible] make all old age pensions payable without a means test. Apparently, the [illegible] has met with much [illegible] tax [illegible]. The government [illegible] has also decided [illegible] double taxation of dividends received from [illegible] which have already been taxed as corporation profits. The corporation profits tax may be slightly increased and taxes on subsequent dividends paid from these profits abolished.

Royal Tour To South Africa Under Way



Being piped aboard Vanguard, their home for the 17-day voyage to South Africa, [illegible] Commander [illegible] the Vanguard [illegible] Capt. W. G. Agnew [illegible] King and Queen can be seen nearest ship, followed by Queen Mary, [illegible] Elizabeth [illegible] Margaret Rose. Crewmen line decks.

NET INCOME OF CANADA IS LOWER

OTTAWA. — Canada's net national income declined to $9,212,000,000 in [illegible] $9,547,000,000 the previous year despite increases of $217,000,000 in civilian salaries and wages, the bureau of statistics reported.

Salaries, wages and supplementary labor income rose to $5,112,000,000, the highest since the survey was started in 1926, compared with $4,[illegible] in 1945. Investment income totalled $1,774,000,000 against $1,916,000,000 and net income of individual enterprise, agriculture and other was $2,000,000,000 in 1946 against $1,074,000,000 the previous year.

The report said the moderate decline in money totals actually was larger in real terms because of a 4.0 per cent. increase in the index of wholesale prices and 3.4 per cent. in the cost of living index.

A single whale may be valued commercially at from $500 to $10,000.

Personal plane Queen Elizabeth will use in South Africa [illegible] as it was examined by newspapermen. Four such planes will [illegible] South Africa [illegible] tour plans necessitate air travel.

AUDITOR'S CERTIFICATE

I have audited the Books and Records of the Vermilion Municipal Hospital No. 2 for the year December 31st 1946 and have compared the said accounts with their relative vouchers and certify that in my opinion the foregoing financial statements are properly drawn up so as to exhibit a true and correct view of the financial affairs of the Hospital District according to the best of my information and the explanations given to me and as shown by the records.

DATED at Vermilion this 29th day of January, 1947.

(Signed) : D. A. BRIMACOMBE, AUDITOR.

ORDER SEED EARLY

Each year in this column I write this same little message. I only repeat it because I know from letters received that this annual reminder does seem to help a number of farmers. The message is this. "Order your supplies of Registered and Certified seed as quickly as possible."

For the last three years supplies have been short. Many farmers who ordered their seed late in the season were seriously disappointed, and so handicapped in their farming operations because the seed growers' supplies of good seed were exhausted. There are always unexpected hazards with good seed. At the last moment, even when seed has been promised to be delivered, the stocks may not finally pass government inspection, perhaps because of low germination, or because of a slight trace of weed seeds or other grains that cannot be removed by cleaning; often then it is too late to se[illegible] The remedy, then, is [illegible] early; and then, if anything happens, there is still a chance to purchase other supplies. I do not believe there is any investment a farmer can make that will bring him more profitable returns than the purchase of a few bushels of the best Registered or Certified seed sown each year on a few acres of new breaking or clean summerfallow.

A.M.A. Watches Plan For Car Insurance

Proposal by the provincial government to introduce a certain form of compulsory car insurance in Alberta is being taken up by the Alberta Motor Association.

Arrangements have been made for C. H. Grant, K.C. of Edmonton counsel for the A.M.A. to make a submission to the province concerning such legislation.

Meantime, Mr. Grant is making a study of the results of compulsory car insurance elsewhere in order to assemble a comp[illegible] submission on the subject. It [illegible] understood that the provincial authorities are seeking complete information concerning experiences of this system elsewhere before deciding to adopt it in some form in Alberta.

There have been suggestions that the Alberta plan should be patterned along the lines of schemes adopted in Manitoba and Saskatchewan. Then there are some who contend that Alberta has a financial responsibility law at the present time and that this gives considerable protection to those involved in motor accidents.

The A.M.A. is urging that the whole situation be reviewed by the provincial authorities and that careful consideration be given before any decision is reached.

DERWENT PLANS HOCKEY TOURNAMENT

TO BE HELD THURSDAY FEB. 27

The Derwent Dodgers Hockey club held their annual meeting on Feb. 13 with a good turnout. Geo. McConnell chairman, opened the meeting and asked that the minutes of last year be read, which were approved as read. The minutes showed a surplus of $38.40 which was held over from last year's proceeds for a banquet which will be held later in the season.

It was moved by His Worship Mayor Christensen and seconded by Bill Napora, the same executive and slate of officers for 1946 be placed back in office for the 1946-47 season. Carried. Moved by Geo. McConnell and seconded by His Worship, that we hold a hockey tournament, date set for Thursday, Feb. 27. Carried. Moved by G. McConnell and seconded by Marshall Cherniawsky that Mike Kluts be placed on the dance committee, as Chuck Strong is now working in Lloydminster. Carried.

It was decided that teams be invited from villages and hamlets only. The entry fee to be $5 and must be in the hands of the committee Monday Feb. 24th. It was decided tickets to be made in two colors, one for players and the other color for patrons. The tickets are to be stamped to avoid other tickets being substituted other than those sold. Price for day tickets 50 cents and 25 cents for children under 14 years. 100 player tickets, 300 spectator tickets and 50 large posters are being ordered.

Harry Borowsky was appointed as chairman of the grounds committee with the following to assist, Clarence Algot, Marshall Cherniawsky, Albert Willmer, John Woywitka, with duties of taking care of the ice and snow, selling tickets, appointing of referees, goal judges, time keepers, running the draws, etc.

It was further decided to close the day with a bang-up dance. Peter Pilshka was appointed chairman of the dance committee with Matt Charchan and Mike Kluts assisting. They would arrange the selling of advance tickets and will engage the orchestra. Admission is to be $1 per couple or 50 cents per person. Dance tickets will be ready for sale by Wednesday Feb. 19.

Meals will be served at all hours at the hotel.

The meeting adjourned on a motion by Peter Nester and Bill Napora.

Mail Box Education

Somebody has come out with a new expression "Mailbox Education" in place of the old term "correspondence education", to describe how we teach about 10% of Alberta's children. That seems to be a very healthy sign. The term correspondence education had something pompous and phony about it, as if you could make something out of nothing if you gave it a big enough name.

Actually, each of these 15,671 mailbox students we read about gets a letter once a week from his teacher up in Edmonton. Once a week—that's all. Just think how helpful, encouraging and inspiring a teacher can be to a child she sees all day for five days a week: and then think how little of that influence she can exert by writing to him once a week. He doesn't even know what she looks like.

Away with this mailbox education! Let's find out how to get good teachers. Let's find enough money to keep them when we have got them. And any honest citizen understands that there is enough money in Alberta to educate our children properly. Between 1936 and 1946 the circulation of Canadian coin increased from a total of 33 million to a total of 75 million during the same period our average daily note circulation rose from 169 million to 961 million. Bank clearings show similar prosperity. We have the money. It is the duty of the people and the government of Alberta to see that education does not starve for want of money.

To every mile of the 30,551 miles of main line, siding and yard tracks in the Canadian National Railways in Canada there are 2,856 ties, or a total of 87,249,461.

Good Roads MEAN MILLIONS To Alberta
The tourist trade is estimated to have brought nine and a half million dollars to Alberta in 1946, about one and a half times the Provincial expenditure on roads ($6,605,950 est.) for the year.
This tourist income can be multiplied as soon as we provide the kind of all-weather highway system that makes tourist travel easy and pleasant. And we need such roads for our own use and in the interests of our own progress.
The Alberta Government is to be commended on its recently announced outline of a $9,500,000 highway program for 1947. If this program is carried out and repeated over a period of years, we will have roads worthy of Alberta and worth a great deal more than they cost to us.

The British minesweeping flotilla which has been based at Cork, Eire, since last March while clearing south coast minefields, has gone back to its home port in Britain.

CHANNEL TUNNEL AGAIN

A scheme for a Channel Tunnel between England and France mooted at regular intervals before the war is to be revived and an all-party committee of British members of Parliament is being formed to study the question in the light of new engineering devices and political and economic trends. The tunnel would be 30 miles long and would cost about $120,000,000.

A frog found in Ecuador when sitting with limbs drawn close to the side is smaller than a queen bee.

Passenger Tired Of Waiting Drives Tram

PHILADELPHIA.—Motorman Milton Shaw pulled his trolley to a halt recently and dropped into a [illegible] room for a snack.

Two persons boarded the trolley, then another. The latter fidgetted in his seat, suddenly jumped up, ran to the controls and started the car.

[illegible] shouted Shaw as he [illegible] food and gave chase.

Shaw [illegible] Then the [illegible] controls [illegible] a passenger who [illegible] Samuel [illegible]

The driver, who said he was George Quigley, 31, was arrested on charges of malicious mischief and operating [illegible] the [illegible] consent.

SASKATCHEWAN GETS TEXAS ARMADILLO—The National Park in Saskatchewan is going to be host to one of this continent's few living prehistoric creatures. It is an armadillo from Texas; the sharp-nosed, hard shelled animal was adopted by Frank T. Clarke of Regina. Clarke, who was in Texas for the North American wildlife conference, took a liking to the ugly wild creature and said it would be a major attraction in the park.

GIFTS FOR BRITAIN'S KING AND QUEEN

Gifts of diamonds cut as brilliants and a gold tea service to be presented by the South African Government to the Royal Family during their tour of South Africa were described in an official announcement at Capetown.

The King will receive a small number of diamonds cut as brilliants and suitable for mounting in a Garter Star. The gift will be presented in a small gold box.

The Queen will receive an engraved gold tea service consisting of a small teapot, sugar basin and cream jug.

SHAW WAS OUTWITTED BY WOMEN'S SOCIETY

In New York the Women's Action Committee for Lasting Peace wrote to George Bernard Shaw in London saying they were raising money by auctioning some autographed books, and would he please autograph some?

Shaw replied that he would not. He thought the cause of the United Nations was "too big for your little Women's Action Committee." He scoffed at some length.

The women went ahead with the auction and sold one of the popular American autographed books for $70. They sold Shaw's grouchy letter for $170.—New York Herald Tribune.

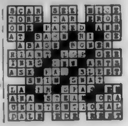
Answer To Last Week's Puzzle



PROTECTION FROM WHOOPING COUGH

The Kitchener Record says a life insurance survey brought out the surprising fact that whooping cough kills more children every year than poliomyelitis and scarlet fever combined. That should be food for thought for parents who have more or less accepted whooping cough as a necessary evil for which little can be done. It is pointed out that many unnecessary deaths occur annually because parents do not take elementary precautions to prevent exposure of children to this dangerous affliction.

A little routine care can sometimes pay big dividends in such a situation.

Children should be given the protection of the whooping cough serum at an early age. Although the serum doesn't provide sure immunity, it virtually guarantees a mild case if the child happens to get the disease.

HAVING TOUGH TIME

According to the Vancouver Province cupid is having an increasingly difficult time in selling marriage to young couples and making them keep up their payments. Divorce courts are grinding out decrees at record speed while the high cost of living is postponing countless matrimonial ventures. In 1946 Vancouver set a record with 1,226 divorces and in B.C., the total of broken marriages increased nearly 70 per cent. over the previous year.

The mid-day meal is as important as a substantial breakfast, and helps make for best returns in work and enjoyment.

Over Billion Dollars of
GREAT-WEST LIFE PROTECTION

TO OUR POLICYHOLDERS . . .
This one billion dollars represents the total sum which 315,000 policyholders have provided through this Company for the protection of their families and themselves. It brings them peace of mind and financial security. Every phase of their Company's operations made notable progress in 1946.

TO OUR ORGANIZATION . . .
It is a measure of our trusteeship and of the service we are privileged to render throughout Canada and the United States. New protection of 173 million dollars, completed during 1946, reflects the ability and enterprise of our Field organization and the confidence they so well merit.

TO THE PUBLIC . . .
This co-operative achievement of policyholders and their Company constitutes a great trust, faithfully administered in the public interest. It provides stability and strength to the nation's economy.
The organization and services of this Company stand ready to serve you—now and in the future.

1946 HIGHLIGHTS

Insurance and Annuities in Force	$1,087,000,000
New Business Placed	173,000,000

Don Graham Comments on EVERYBODY'S BUSINESS

"What happens to my money when I save it?" I asked myself when writing a cheque for a Life Insurance premium. I knew that my money was safe, that the terms of my policy would be met in full, but I wondered where my money would be invested and how it would be put to work.

Then I realized that this district is full of improvements and projects financed by Life Insurance funds which are secured by bonds and other good guarantees. Schools, homes, highways, harbours, elevators, electric plants, and dozens of other utilities and enterprises, are made possible by Life Insurance investments.

My Life Insurance money does double duty, it protects my earnings and creates employment. It finances the safest forms of progress.

. . . .

Life Insurance is a business built for everybody, a great enterprise which protects the future of more than four million policyholders and their beneficiaries. Life Insurance offers a systematic and easy way to save. Consult an authorized agent about a plan best suited to your requirements.

Story Has Swung To Full Circle

The story has swung to the full circle and closed. Seven years ago the Aquitania sailed from the ancient port of Halifax with the first Canadian troops aimed at the heart of Hitler's expanding Empire and now the Aquitania has returned to Halifax with the last Canadian contingent coming home. The job is done. Hitler lies dead, his forces shattered and mankind, freed at last from the bonds of nightmare, slowly, painfully and with much heart searching, sets to work to build a new world out of the wreckage of the old.

The first Canadian division sailed from Halifax in December, 1939, in 5 steamers, including the Aquitania. Since those days 7 years ago when some 15,000 men were carried into Halifax on 22 Canadian National troop trains, more than 1,200,000 on the way to war or homeward bound were transported by the C.N.R. on 3,000 special trains.

This is only part of the C.N.R. war story. As in the first World War the heaviest transportation load of materials as well as men was shouldered by the National System, not only because it is the largest railway in the Americas but because it is the only railway with a direct all-land all-Canadian route to the Atlantic seaboard, a fact of strategic significance.

It was through Halifax that the troops and war materials poured. From Halifax the C.N. carried many distinguished passengers. Halifax and the C.N.R. made history together. At one end of the story is the special train which left the port in Sept. 1939 with the survivors of the torpedoed Athenia, at the other end the special bearing the European delegation to the United Nations conference at San Francisco in April 1945.

During 20 years 6,000 C.N.R. apprentices have grown into full-fledged railway tradesmen and many of them became officers of the Canadian National Railways mechanical department.

When sparks fly at the breakfast table it doesn't fire you for your job.

Canadian Girl Wins World's Figure Skating Championship

SKATING STAR

Barbara Ann Scott, Canadian and North American women's figure skating champion, boarded a T.C.A. plane for Great Britain last week on her way to Switzerland and Sweden in quest of the European and world titles. The petite Ottawa girl was voted Canada's outstanding woman athlete last year by sportswriters. She is also a keen amateur pilot.

Since the above picture was taken Miss Scott skated to victory in the world's figure skating championships at Stockholm on Saturday night Feb. 15th and became Canada's first queen of the ice.

Clandonald Wins At Derwent 3 to 0

DERWENT.—The Derwent Dodgers failed to break into the scoring column Sunday, Feb. 16 when the Clandonald hockey club played a return fixture at the local ice palace and skated off with a 3-0 score. The game was very close all the way and in justice to the Derwent squad they did not deserve the shut out administered.

Goals were all scored in the third frame and it would appear the Derwent nets were faulty as they were not made solid to the ice and pucks could easily slip under and be counted as goals. The penalty boxes were conspicuous by their absence and one dressing room is not sufficient for two hockey clubs to rest in between the periods. However, these features will be remedied in the next few days as the present rink is new this year and work has not been fully completed.

There was a large crowd in attendance despite a cold north wind which was blowing. Clarence Algot did a good job as referee and was called upon to mete out three minor penalties, one to Derwent Albert Willmer and to Clandonald Specht and Rigelhof. Both aggregations will take part in the Vermilion tournament Feb 15. The following week Feb. 27 Derwent will hold their annual tournament which proved such a success last year.

Goal getters for Clandonald were R. Strome, O. Strome and Rigelhof.

Lineups

CLANDONALD: Etherington, Rigelhof, Goldsmith, Cusack, Roberts, Specht, O. Strome, R. Strome, McCambridge, G. Brodbin, Osinchuk, M. Brodbin.

DERWENT: Curly McPhee, B. Pezushko, P. Master, Isaac, R. McPhee, [illegible] Hicks, H. Hicks, J. McPhee, M. Pezushko, A. Willmer, R. Lench, M. Willmer, [illegible]

Agricultural Short Course in Edmonton

February 25, 26 and 27 are the dates of the Agricultural Short Course at the Masonic Temple, Edmonton, sponsored by the Edmonton Chamber of Commerce and the Alberta Department of Agriculture. Representative speakers will discuss matters of agricultural interest including farm implements, soils, forage crop seed production, live stock, income tax, market demand and freight rates.

On the second day of the course, Feb. 26, a special homemakers' session has been arranged, starting at [illegible] p.m. talks on New Textiles, [illegible] Uses of Frozen Foods and [illegible] ture and the Home will be given by Miss Margaret Fraser, Miss [illegible] donald and Dr. R. J. Hilton. [illegible] ladies are invited to join the [illegible] the morning session and to attend the luncheon meeting at noon in the Macdonald hotel. Guest speaker at the luncheon will be J. E. Brown [illegible] with an address on What the [illegible] tational Federation of Agricultural Producers Means to Alberta Farmers.

Programs of the short course may be obtained from the secretary, Edmonton Chamber of Commerce, or from R. J. Whitbread, District Agriculturist, 10128-100th A street.

LIVING COSTS GOING UP

Cost of living in Canada is likely to rise sharply and consistently in the next six or twelve months. The Financial Post reports from Ottawa predicting a fairly extensive "housecleaning" in price control before July. Butter, coal and bread are mentioned as commodities from which price ceilings are likely to be removed.

A Challenge To Agriculture

FOR SOME YEARS NOW Canadian farmers have worked to supply a market which has taken all and more than they could produce. Granaries and elevators have been emptied and supplies of meat and dairy products have often [illegible] the demand for them. All this was a great change from the years when large quantities of wheat were held over from season to season and farmers were [illegible] reduced [illegible] cut down acreage in order to avoid serious over-production. No one wishes these conditions to return, but there are many who wonder what will happen to the market for [illegible]

* * * * * *

Answer Given Many Times The answer to this question has been given many times by agricultural experts and nutritionalists both here and abroad. Even in what we consider to be normal times, these experts tell us that a great part of the world's population exists on a diet which is far below the minimum requirements for good health. If people everywhere were adequately fed, standards of health would be higher and this might go far to help in the solution of many of the problems of the present day, for there is no doubt that lack of food is an important cause of political unrest.

* * *

Real Need For Wider Markets Higher nutrition standards throughout the world would mean a steady demand for Canadian farm products and it has frequently been pointed out that Canada has a real interest in developing [illegible] It is not a simple [illegible] from other lands which brings up the far reaching question of increasing buying power in other countries. Dean Grant MacEwan of the University of Manitoba, speaking on this subject before a gathering in Winnipeg recently, said that if we can stimulate world-wide interest [illegible] surplus of farm products. "The fact is," he declared, "there [illegible] in the world to feed all the people properly." He added: "The markets are there. The challenge to us is to transform them [illegible] into real markets. And it is going to take a lot of [illegible]." This is a question to which we should be giving much thought and attention at this time.

Here's A Way To Get A House

ADELAIDE, Australia. — A man in Adelaide advertised for a house and got one. His advertisement read:

"I am a beast. I only work when I have to and I don't like gardening.

"If you must know, I beat my wife.

"I have a youngster [illegible] draw [illegible] pictures on your walls. [illegible]

"I put up with them because I love them. I'll go on living with them.

"The question is 'where?' Your guess is as good as mine, but I'm [illegible]"

[illegible] house [illegible] ring [illegible]

Next morning a man rang the number given and said: "Who are you anyway?"

[illegible] the information, the caller rang off with "I was curious to know if you were [illegible]."

Five minutes later another [illegible] and offered a caravan at the [illegible]. The offer was declined.

[illegible] after a third rang and said "I like your sense of humour. [illegible] a house to offer but I [illegible] style and I'll do my best to [illegible]."

The fourth caller offered a new [illegible] house for a "man with [illegible]."

PROPERLY PUNISHED

The Ottawa Journal says: "Most [illegible] a truck driver warned by a passenger of a [illegible] said: 'Watch me give him a good fright.' The truck struck the bicycle, killed the rider and the driver now has three years in the penitentiary to think about it all. It is a fine place for smart alecks of that sort."

LARGE WAGONS

In the time of the emperor Kublai Khan, Mongolians had wagons so large that it required 22 oxen to pull them, and the space between the wheels measured 20 feet. 2713

Canadians Survive Fiery Train Wreck

Coach Al Murray, former N.H.L. player and mentor for Galt's Ontario hockey team, suffered burned hands in the wreck at Fresno, Calif., of the blazing train on which his San Francisco Shamrocks hockey team was travelling.

Among the puckchasers who escaped injury in the Fresno train wreck was Syd Lovelace of New Toronto, seen here. He telegraphed relatives to say he was unhurt. He played for Marlboro juniors of Toronto last season.

People Must Use Intelligence

Science now promises to take the toil out of weed eradication. It has come up with a spray that will kill the noxious growths but will not harm vegetables. It sounds like Utopia for gardeners.

It is well to note however that the announcement is made with some reservations. The new spray must be used carefully according to directions. Like many of the remedies developed for human ills, careless handling can lead to disaster. All the great discoveries of science will not bring us to an age in which we are relieved of the responsibility for using our God-given intelligence. Thought will always be necessary, and for that we should be thankful. [illegible]

GEMS OF THOUGHT

ALLEGIANCE

Man's primary allegiance is to his vision of truth, and he is under obligation to affirm it. — Jane Addams.

I know that the Lord is always on the side of the right. But it is my constant anxiety and prayer that I and this nation should be on the Lord's side. — Abraham Lincoln.

The government of divine Love derives its omnipotence from the love it creates in the heart of man; for love is allegiance, and there is no loyalty apart from love. — Mary Baker Eddy.

In the observance of the laws of God and in the promise of the Gospel of Jesus Christ there is the best guaranty of peace upon earth and the only hope of eternal life. — Benjamin Harrison.

We look to Thee; Thy truth is still the Light
Which guides the nations groping on their way,
Stumbling and falling in disastrous night,
Yet hoping ever for the perfect day.
— Theodore Parker.

CANADA'S COAL RESERVE ENOUGH FOR 27 CENTURIES

OTTAWA.—The royal commission on coal sharply reduced estimates of Canada's coal reserves, but soothed the dismayed with the announcement that there should be enough for everybody for the next 27 centuries.

The report said Canada possesses about 98,000,000,000 tons of mineable coal or about 49,000,000,000 tons which is recoverable.

The estimate, compiled by Dr. B. R. MacKay of the federal mines department, was based on current level of production.

His total worked out at less than 10 per cent. of the only previous nation-wide estimate, one of 1,360,535,000,000 tons made in 1913 which could not be considered an accurate estimate from the standpoint of practical mining.

FUNNY And OTHERWISE

When the prisoner in the dock was asked if he had anything to say before sentence was passed on him, he replied:

"I'm sorry I took the money, my lord; but you know the old saying that the more a man has the more he wants."

The judge nodded understandingly.

"Well," he said, "you are getting twelve months. How much more do you want?"

* * * *

"Mabel says she's wildly in love with her new car."

"Just another case of a man being displaced by machinery."

* * * *

The rejected suitor was making his final plea.

"What," he asked, "has this fellow got that I haven't?"

And the girl answered: "Me".

* * * *

For two long hours the members of the [illegible] had been discussing a new means of communication with a neighboring village. Every time a suggestion was made one member or another would find some fault with it.

At last the chairman arose.

"Gentlemen," he said, "this quibbling is getting us nowhere. Now I suggest that we put our heads together and build a concrete road."

* * * *

A stranded English actor went into a sordid eating house in New York for a cheap meal. He was horrified to recognize his waiter as a colleague who had played with [illegible]

"Great Scott!" he gasped. "You —a waiter in this place!"

"Yes," replied the other in dignified scorn, "but I don't eat here."

* * * *

Called before the orderly officer, the private was being "put through it."

"What's that you say?" snapped the officer sternly. "You break a bottle of beer over the corporal's head and then have the—the audacity to stand there and say it was an accident?"

"Yes, sir, that's right, sir," replied the private; "I didn't mean to break it."

* * * *

The landlady was showing the college student his room.

"As a whole, this room is quite nice, don't you think?" she said.

"I suppose so," he agreed. "But as a room it's not so good."

* * * *

The hunter burst into camp and seeing the guide splitting wood, excitedly asks, "Are Harry, John and Albert here?"

"Yip," said the guide, "they're all in the cabin."

"Fine," said the hunter, "then I shot a deer."

BLONDE BRITISH STAR HAS FRECKLE WORRY — Glynis Johns, slight and blonde British movie star, arrived in New York on the Queen Elizabeth. "I do hope I won't freckle up over here," the bride of a recently "demobbed" British actor and mother of an 18-months-old son, worried.

AMERICAN WOLVES COMING INTO CANADA

TORONTO.—American wolves are migrating to Canada in such large numbers that the Ontario government is studying various wolf-control plans to protect sheep in the [illegible]

Dr. W. J. K. Harkness of the Ontario department of lands and forests, said the wolves are entering Canada along the Sarnia-Windsor border zone.

The unwelcome immigrants are brush wolves whose numbers have multiplied during the last five or six years.

Harkness did not give any reasons for the migration.

When your little one catches cold—

Tonight . . . do what most mothers do to relieve miseries of children's colds: Simply rub warming Vicks VapoRub on throat, chest and back at bedtime. Results are so good because VapoRub's special relief-bringing action starts right away and keeps on working for hours during the night *while the child sleeps*. Often by morning most misery of the cold is relieved. Remember, Mother . . . when your children catch cold . . . be sure you get time-tested Vicks VapoRub.

RECORD FLIGHT BETWEEN BRITAIN-NEW ZEALAND

LONDON.—A British piloted four-engine York plane, which left London recently, created a record for a public transport machine, covering the route to New Zealand in 59 hours, it was learned.

The plane, flown by Air Marshal D. C. T. Bennett, who commanded the R.A.F. Pathfinder Force during the war, was chartered by a Greek shipping company to carry seamen to New Zealand to man a ship there.

Lieut. and Mrs. Bert Mead and son Richard who have been in England since last May, returned to Canada last week and Mrs. Mead and Richard arrived in Vermilion on Saturday and are now visiting the former's parents Mr. and Mrs. F. J. Richardson. Lieut. Mead stopped at Ottawa where he will spend the next five weeks.

Mrs. H. O. Baker is renewing old acquaintances in town, the guest of Mrs. H. N. Stephens.

Mrs. Harvey Bennett of Tofield and formerly of Mannville is a guest this week at the home of Mr. and Mrs. A. M. Watt. Mrs. Bennett's son Richard is attending the school of agriculture this term.

Mrs. Nina Wiebe received a note of congratulation from Mrs. C. L. Whitby of Victoria following Mrs. Wiebe's election to the school board. Mrs. Whitby is the only other lady in the history of Vermilion to run for an office on a municipal body. Mrs. Whitby is still intensely interested in Vermilion and its activities.

Mr. and Mrs. L. Ames were Edmonton visitors for a few days during the past week. Loyal is on vacation at the present time.

Ronney Bodarka of Derwent was in Vermilion on Wednesday on his way to Edmonton to take delivery of a new ton truck. He will drive it home Saturday.

Mrs. Wm. McWhinney and two children Sandra and Roland went to Saskatoon on Sunday where they are visiting the former's parents.

The W.M.S. of the United church held a very successful Valentine's tea on Feb. 12th both socially and financially and wish to thank Mrs. S. C. Heckbert and all the helpers.

Ambler Bros., local John Deere machinery agents, were hosts to several hundred farmers Wed., Feb. 5th, when they showed free movies at the Columbia theatre. The program was highly enjoyed, containing much of value as well as amusement.

It is rather interesting to note that Barbara Ann Scott of Ottawa, the new world's champion figure skater, is a cousin of Miss Margaret Scott of [illegible].

BORN—To Mr. and Mrs. C. Hamilton at the Mannville hospital on Sunday Feb. 16, a son (still-born).

BUNS — BUNS — BUNS

Mrs. H. Meyers W.A. group of the United church are baking buns every Saturday. Phone 96 on Friday for your order. It is delivered free. Special orders filled. 41-3c

ISLAY

Births at the Islay Municipal hospital —

Dowman—To Mr. and Mrs. Desmond Dowman, Islay, on Wednesday Jan. 22nd, a daughter.

Johnson—To Mr. and Mrs. Charles Johnson, Vanesti, on Friday Jan. 24 a son.

Terrance—To Mr. and Mrs. Dalton Terrance, Islay, on Sunday Jan. 26 a daughter.

DEWBERRY

The district was saddened by the death in the Islay hospital Monday night of Mrs. Albert Isert Sr., a pioneer lady of the district.

Seventeen rinks participated in the mixed bonspiel held last week. W. Parker was the skip of the winner of the Grand Challenge and the Joe Braithwaite rink took the Professional event.

Dewberry and Marwayne Juniors played to a 3 all tie over the week end.

IN MEMORIAM

In loving memory of our dear son and brother

Douglas

—who passed away Feb. 17, 1936.
"They say time heals all sorrows
And helps us to forget
But time so far has only proved
How much we miss you yet.
God give us strength to take it
And courage to bear the blow
But what it meant to lose you
No one will ever know.
—Ever remembered by Mother, Dad, Alick and Maisie.

Fast efficient service in quiet clean surroundings. Patronize the Harris Barber shop, two experienced barbers in attendance. Miss Hoffmeier in charge of Beauty parlor. 1tatf

Present Northern Hardware Trophy

At the conclusion of the final game of the all day hockey tournament here Tuesday, Manager Thos. Watts presented the Northern Hardware challenge trophy to the captain of the Willingdon team. Mr. Watts congratulated the winners on their very fine showing, who played four games during the day and only had three goals scored against them.

THORNCLIFFE

Dance at Thorncliffe school Friday Feb. 28th. Everybody welcome. 41-2c

SIGNS of SPRING

ROBINS HERE ALREADY SAYS DANNY

Young Danny Shaughnessy called the Standard on Wednesday to say that he had spotted two robins in his back yard that morning. Well, that's cheering news, and if Danny knows his robins, then Spring can't be too far away.

$1,000.00 in Prizes For Best Distinctive Recipe

Inquiries about the $1,000 recipe contest are flooding the Alberta Travel Bureau in the Legislative Buildings at Edmonton. Entry forms which contain all the answers may be obtained from the local Treasury Branch or from any district agriculturist. They may also be obtained by writing any radio station but time is an element in the contest and, usually time taken in handling the heavy mail, may be saved by getting the forms from the Treasury Branch or the D.A. in person. Time is important because, in case of ties, the first recipe received gets the preference.

Each entrant may enter as many recipes as desired but each recipe must be on a separate entry form. This means: one entry, one form; six entries, six forms.

Entries must be postmarked before midnight April 30, 1947, and mailed to Alberta Travel Bureau, Legislative Building, Edmonton—not to the Treasury Branch or D.A.

The prizes are: 1st, gold medal and $500; 2nd, silver medal and $200; 3rd, bronze medal and $100, and 12 consolation prizes of $10 and ribbon.

'MEN with a MISSION'

A general invitation to farmers of the community and of nearby towns to view "Men with a Mission", a motion picture in full color, has just been issued by Guy W. Tory, Minneapolis-Moline dealer of Vermilion.

The picture will be shown Feb. 24 at 2 p.m. in the Elks hall, Vermilion. The program arranged for this occasion by the local farm implement dealer will also include door prizes.

The picture tells the story of a boy and a girl who at first seem dissatisfied with their life on a farm and do not appreciate the highly interesting role farmers are playing today in producing the essential needs of humanity and of industry. Its a series of amusing incidents they are convinced in the end that modern farmers are men with a mission that challenges the imagination.

The picture also depicts the part [illegible] modern farm machinery are playing in expanding production and in meeting demands by the world for food and by industry for raw materials produced on farms. Scenes for this picture [illegible] in color and [illegible] States.

Dance in Bowtell school Friday Feb. 28th. Admission 50c and 25c. Good music.

Creighton W. I.

The Creighton W.I. February meeting was held at the home of Mrs. R. Hanning on Feb. 12th. 11 members were present and Mrs. G. Bennett presided. The annual report was read and approved. The minutes of the previous meeting were read and passed. There was a lengthy discussion on the rest room in Mannville. The present educational system was discussed.

Plans were made to serve lunch at the sale of Mr. Lage Benfield which will take place around the end of February or beginning of March. Membership fees were then received. A very dainty lunch was served by the hostess. Meeting then adjourned.

Hilda Cross Rink Big Winner At Vegreville 'Spiel

Just to keep the records straight the following is a corrected version of the prizes won by the Vermilion rinks participating in the Vegreville ladies' bonspiel two weeks ago. The winners are taken from the report in the Vegreville Observer of last week.

The rink of Mrs. Hilda Cross, skip, Mrs. J. D. Adam, Mrs. N. K. Beuil, and Mrs. M. Simonsen were the big winners, taking the Professional Shield event with its prizes of 4 coffee makers. The same rink won third in the Citizens competition for which they were rewarded with four pairs of Nylon stockings.

The rink comprised of Mrs. Lila Beresford, skip, Mrs. Geo Caron, Mrs. W. J. Bell and Mrs. K. E. Rowe won fourth in the Grand Challenge. The prizes were four decanters.

In the Professional Shield Mrs. C. P. Lipsey, skip, Mrs. E. Corley, Mrs. E. M. Stewart and Mrs. Gordon Ross won fourth, four cook books.

Students Stage A Colorful Parade

PUBLICIZE ICE CARNIVAL

A splash of youthful vigor and enthusiasm designed to publicize the ice carnival being held on Feb. 21st to gain support for the V.S.A. and V.H.S. candidates for Carnival Queen, took the form of a parade through downtown section of Vermilion last Saturday afternoon. The weatherman was in a particularly co-operative mood, providing lovely spring-like weather, and the streets were crowded with people from town and country.

The V.S.A. parade included several floats decorated in the school colors and crowded with college students. They featured a regal throne in a valentine setting for Miss Oma Marler, their queen candidate, supported by four glamorous attendants in beautiful gowns, Peggy Semple, Eileen Moen, Evelyn Wood and Velma Asponse. The school orchestra, including the popular Henry Eyben at the piano, and Angus McMillan and Wilmer McElhinney with their violins supplied the music and all joined in singing and cheering. A four-horse team of flashy Clydesdales decorated and driven by Bob Langale and a clown act by Frank Pratt, Joyce McLay an Paul Bouchard on (and off) another Clydesdale attracted special attention.

Not to be out-done by their college rivals the High school students organized a parade in support of their Queen candidate and joined in the fun. Headed by a perky span of Shetland ponies followed closely by a brother clown and drummer act, Harold and Richard Bushell, the V.H.S. students enthroned their candidate Grace Isley in a cutter, while cheer leader Louise Baddock kept things very much alive with yells and songs.

All in all it was a very worthwhile effort and added much anticipation for the Carnival itself and to the life of the town on Saturday afternoon.

Mahaffey Wins the Vermilion School of Agriculture Bonspiel

Last Saturday was Bonspiel Day for school of agriculture students. Regular Saturday morning classes were cancelled for the occasion and twenty rinks began the knock-out competition at 9 o'clock. During the afternoon time off was taken by the curlers to join in the parade supporting Oma Marler, the V.S.A. candidate for Queen of the Vermilion Ice Carnival, and then, after a quick change, the Clowns, the Queen candidate, her attendants and others resumed the [illegible].

The semi-finals were played in the evening with rinks skipped by Clarence Mahaffey and Irwin Rose winning play-off berths. A final game played on Sunday afternoon was a thriller from the beginning and when the last rock settled into place the Mahaffey rink was declared the 1947 champion.

A [illegible] spiel in which members of the staff plied their skill gave the honors to B. C. Pullen's rink which was ever one-skipped by J. L. Keene. In a special challenge game the student rink took the staff into camp by a 7-1 score. Clarence Mahaffey, who hails from Kitscoty, had on his rink Fred Bennett, Bruce MacMillan and Eldon [illegible].

Many of the 90 students who participated in the bonspiel had never seen a curling game before and they highly appreciated the opportunity provided by the Vermilion Curling club and its members who loaned the use of their rocks and brooms.

What about that label date.

STAGETTE NOTES

The Stagettes gathered in the club room for the regular Tuesday night meeting. Most members were present and the business session was brief.

Muriel—we hope to see you next meeting, we missed you.

Dorothy presented Helen (now Mrs. R. McKitrick) with a lovely silver cream, sugar and tray set, belated wedding gift from her sister Stagettes. Helen most sincerely responded. — Speaking of weddings—we have another diamond in our midst, but won't mention any names, it's contagious!

Mr. E. C. Miller was our guest speaker for the evening. He gave a most interesting talk on education and progress made during the past ten years.

Girls we do needlework next week so bring along your sewing baskets. A stitch in time saves nine. See you all then.

Winter Carnival Proves Gala Event

Grace Isley Crowned As Queen

ATTENDANCE OVER 1100

Vermilion's ice carnival, one of the highlights of the winter season, held on Friday evening last under the auspices of the Vermilion high and public schools, again scored an outstanding success. The big carnival attracted more than 1100 people to the arena, and the program, greatly facilitated by having judges for each one of the many costume classes, was run off in fast time with few draggy [illegible].

The great moment was the crowning of Grace Isley, Vermilion high school candidate as Queen of the Carnival, and the royal procession, comprised of Queen Grace, two princesses Oma Marler of the V.S.A. and Elaine Swakniuk, attendants Glenys Martin and Frances O'Donnell, train bearers Alma Fry and Donna McCauley, page boys Douglas Brower and Daniel Shaughnessy, made an impressive appearance and received a great ovation. His Worship Mayor Morrison officiated at the crowning.

The fancy skating of two Vermilion young people, Miss Lois Beresford and Harold Bushell and the solo act by Miss Beresford, were excellent performances and greatly appreciated by the spectators.

The costumes were numerous, a total of 100 being in fancy dress for the event, and a complete list of winners appears in this issue. The whole story is not told by merely notating the winners, every costume on the ice, prize winner or otherwise, was necessary to the success of the gala event! To mention the merits of one costume would lead on to another, and another. There were dozens which deserved special praise although not among the prize winners.

Once again the Standard feels that the teachers of the Vermilion schools are to be highly commended for undertaking and carrying out so successfully this ambitious event. There are scores of details to attend to which require time, patience, organization and thought. Proceeds are used for playground and school athletic equipment, so that every child in town benefits from the holding of the enjoyable event.

COSTUME PRIZE WINNERS

Pre-school girls—1, Brenda Bell; 2, Dorothy Jean Stewart; 3, Betty Spencer.

Pre-school boys—Walter Fleming; Robert Good; Richard Bushell.

Grade 1 girls—Karen Barwick; Barbara Ann MacKenzie; Marjorie Watt.

Two Stage Plays In Vermilion March 3

BY CANADIAN REPERTORY COMPANY

When the Everyman Theatre comes to the Agricultural College hall in Vermilion on Monday March 3rd it will present along with the new Canadian play, "The Last Caveman," a merry curtain raiser in the form of Anton Chekov's "The Marriage Proposal".

This presents a radical contrast to "The Last Caveman". This stylized interpretation of Slavic temperament with a rhythmic pattern of rise and fall feeling, varying from violent temperamental outbursts, to passionate self pity, lends a strong continental flavor to the Everyman repertory.

The date for the Everyman Theatre production, remember — Monday March 3rd; the place, Agricultural college hall; curtain time, 8:15. Tickets on sale at Craig's store Feb. 28th, March 1 and 3 from 2-5 p.m.

Former Dewberry Resident Dies In Edmonton

Resident of the Dewberry district for many years, until his retirement some years ago, Carl Lemp, 9613-106A avenue, died at his residence in Edmonton Friday. He was 76 years old.

Mr. Lemp was born in Rosenthal, Russia, and came with his wife and family to Canada in 1904, settling in the Dewberry district where he farmed for about 30 years. The family then moved to Edmonton where they have since resided.

Mr. and Mrs. Lemp celebrated their golden wedding anniversary four years ago last May.

He is survived by his wife, two sons, Solomon and Philip, Dewberry, Alta.; five daughters, Mrs. W. C. Hunter, Edmonton, Mrs. W. Cunningham and Mrs. Craig Gilbert, Seattle, Wash.; Mrs. Rose Isert, Edmonton, and Mrs. A. P. Darnell, Winnipeg; 16 grandchildren and five great grandchildren.

A funeral service was held Monday at 3:30 p.m. from the St. Peter's Lutheran church, with the Rev. A. J. Mueller officiating.

Burial took place in Beechmount cemetery. Howard and McBride funeral directors, were in charge of arrangements.

RED CROSS 1947 BUDGET
For Peace Work in Canada

National Blood Transfusion service $1,037,500; Outpost Hospital service [illegible]; Aid to Veterans (including Lodges) $1,550,183; Other services—Jr Red Cross, Nutrition, First Aid, Swimming Instruction, Disaster Relief, etc. $1,122,060. Specialist on Senior Soils Will Address Vermilion Meeting

Outstanding Agriculture Program at Board of Trade March 12th

BUY YOUR TICKETS EARLY

The agricultural committee of the Board of Trade have arranged a program of great interest to farmers for Wednesday, March 12th. The guest speaker will be W. E. Bowser, senior soils specialist in Alberta for the Dominion Government, who will speak on "Cropping for Profit and Permanency".

The program consists of luncheon at 12:30 noon followed by the address. All those wishing to attend are required to obtain tickets from E. H. Buckingham or F. J. Richardson not later than Thursday March 6th at 6 p.m. in order that catering arrangements can be made. The gathering is at George's Lower Deck and accommodation can be provided for 90. Procure or reserve your ticket with one of the above gentlemen immediately.

Mr. W. E. "Earl" Bowser is a former Vermilion man, the son of Mr. and Mrs. L. D. Bowser of the Morrison district. He attended public and high school here, took his university training at the Alberta Varsity, and went on to achieve an eminent place among Canadian agriculturists. His visit is anticipated with considerable pleasure. 12-3

Many Community Projects Mentioned By Speaker

AT BOARD OF TRADE MEETING

Mr. E. H. Buckingham gave an interesting talk at the Board of Trade meeting Wednesday on community projects. Altogether a total of 35 activities were mentioned. Most of these projects have not as yet been attempted in Vermilion although some have been started but need considerable more push to make them successful.

Here are some of the projects mentioned: Stampede, Model T races, Boys' Fair, Handicrafts Fair, Horse Races, Old Timers' Picnics, Health Unit, Brass and Pipe Bands, Swimming Pool, Riding club, Safety Driving Campaign, Radio Racket Control, Tree Planting Campaign, Local Museum, Milk Pasteurization, Fashion Show, Beauty Contest, Cemetery Improvement, Farm Improvement Competitions, Save the Soil Campaign, Child Delinquency, Swimming and Water Safety Campaign, Ski Club, Vocational High School, Immunization Campaign, Fire Prevention Campaign, New Public Building, Court House, Post Office Building, Armory, Legion Hall, Library Building.

It was pointed out by Mr. Buckingham that nearly everyone is interested in at least one activity of benefit to the community. If every citizen would associate himself with one or more projects, the combined efforts would achieve great improvements to our town and in many ways make Vermilion a more pleasant place in which to live.

53 RINKS AT ANNUAL BONSPIEL

9 Sheets of Ice Provided

Fifty-three rinks are battling it out on 9 sheets of ice in Vermilion's annual bonspiel, a full story of which will appear in next week's Standard. The number of rinks constitutes a record as well as the number of sheets of ice being used. There are 31 visiting quartets and 22 local rinks.

Five sheets of ice were marked out at the arena by dint of much labor on the part of a few of the curlers and this has made a real event out of Vermilion's bonspiel. Great care was taken in the flooding and good true curling ice resulted. The curlers responsible and the bonspiel executive are to be congratulated on this move. Watch for full results in next week's Standard.

Mr. and Mrs. C.A. Dixon Farewelled

TO LIVE AT HYTHE, ALBERTA

About fifty friends gathered at the Alliance chapel on Wednesday evening for a farewell to Mr. and Mrs. Colin Dixon and family who leave to take up residence at Hythe, Alberta, where they are taking over a departmental store.

After a song and Bible quiz, lunch was served by the ladies. The presentation of a family Bible on behalf of the congregation and the Young People's society was made by the Pastor. He thanked the Dixons for their loyal support in the work of the church and for their help in each department.

Mr. Dixon in responding thanked the people for their kindness and invited any who could to visit them at Hythe. He requested that those present autograph the new Bible. The prayers of the people here will go with the Dixons in their new endeavor.

On Sunday evening following the service the young people of Alliance Mission met at the home of Mr. and Mrs. W. B. Mix where a farewell gathering was held in honor of the Misses Betty Lou and Aileen Dixon and Bob Dixon. These young people will be very much missed in town, school and church activities and their departure is generally regretted.

Sportsmen, Attention!

Mr. Ira Prue of Ducks Unlimited will show the colored moving picture "The Big Duck Factory" at the Elks hall Wednesday evening March 5th commencing at 8 p.m. Everyone is invited to attend. The showing is being held under the auspices of the Vermilion Branch of the Fish and Game league.

Young People's Society Alliance Chapel

The Young People's society of the Alliance chapel have a get-together every Wednesday night at 8 o'clock in the chapel. An interesting program has been arranged with spiritual help and real enjoyment for everybody and especially the young people.

Rev. Phillipps will be bringing a series of unusual messages during March. The topic for Ma[illegible]

Play Night at the V. S. A. March 7th

The annual Play Night at the Vermilion school of agriculture will be held Friday evening March 7th. The program will consist of [illegible] one-act plays including a variety of types and settings to assure a good evening's entertainment in amateur dramatics.

Curtain time is set for 8:15 p.m. and the public is invited to attend.

Eastern Alberta Hockey Play-Off

The third game in the final series for the Craig cup which was to have been played at Vegreville Tuesday evening was cancelled as Vermilion was five men short due to illness and injuries and could not ice a team. It is hoped that arrangements can be made to have the balance of the series run off next week with the first game at Vegreville on Monday night and if it goes to five games the last two will be played Wednesday and Friday of the same week. The Wednesday game will be played in Vermilion if such is necessary.

On Tuesday when the Vermilion Tigers were due to go to Vegreville Debbie Watt was in hospital and is out of hockey for the season. Art Wiebe was forbidden to leave his bed by the Doctor. Stan Waldenberger and Stan Manyluk both have injured knees and Doug Brimacombe was suffering from an attack of the flu. Just how many of the players will be in shape even by Monday is not yet known.

Local Military Men Visit Wainwright Camp

VERMILION MEN IN TRAINING

Capt. W. H. Scott and Capt. E. H. Buckingham, chairman and secretary respectively of the Vermilion Reserve Force committee visited the Wainwright camp on Sunday.

They were accompanied by Lieut. R. Allen, one of the officers of A Company of The Loyal Edmonton Regiment.

While at Wainwright officers were privileged to witness part of Operation Husky which is conducted with troops on attack and defence over the snow covered ground.

There are now 12 Vermilion soldiers at Wainwright Camp under Lieut. L. Donnelly and Sgt. Moses Hunter. Reports would indicate that they are all having a grand experience in training under winter conditions.

TEACHERS WORTH MORE . . .

Higher salaries for Canadian teachers would pay rich dividends in improving educational levels through [illegible] other public citizens interviewed by the Financial Post agree. The majority favor equalized standards and some system by which wealthier sections of the country would help provide better equipment and instruction for less favored areas.

There's nothing like being at the end of the rope to get you back on the line.

THE RED CROSS

CARRIES ON

Our men and women back from the world battlefields often tell how the Red Cross was there to aid and comfort them—oftentimes to save their lives. Now the Red Cross asks those who extended such solid support during the war years, to help keep the Red Cross strong in peace.

Today there are thousands of sick and disabled veterans who need the continued help and friendship of the Red Cross. Isolated frontier communities need Outpost Hospitals and nursing service—their only medical aid. Crippled children's hospitals must be maintained and expanded. Men, women and children across Canada need the Blood Transfusion Service the Red Cross has started to supply.

Will you continue to lend your help to sick and suffering humanity? The Red Cross work is your work.

W. R. Cornish M.L.A. Speaker at Derwent

ADDRESSES BANQUET MEETING OF BOARD OF TRADE

DERWENT.—W. R. Cornish, M.L.A., was the guest speaker at the annual banquet of the Derwent Board of Trade held in the Derwent hotel on Friday evening, Feb. 21. There [illegible]

Following a truly excellent chicken dinner, served with all the trills, the President of the Board, Marshal Cherniawsky opened the meeting, stating its purpose and asked the secretary Wm. Lober to read the minutes of the last annual meeting, said minutes being adopted as read.

Mr. Cherniawsky then introduced the member for the Vermilion constituency and asked him to address the gathering. Mr. Cornish responded very willingly and during the course of his talk dwelt on many subjects of vital interest to the area. These included the road, Two Hills east to Lloydminster also that of Vermilion to Elk Point. Mr Cornish was satisfied that these two roads would be completed in the five-year program and he would do all in his power to see the work carried out. He outlined the hospital situation and was under the impression that increased grants would be given the hospital boards. He also stated that old age pensioners would receive free medical assistance, as would the blind. Mr. Cornish agreed that Derwent should have a treasury branch, but shortage of material and necessary help was a big factor. He dwelt on the expectation of a veterinary locating in Derwent as one was surely required and he would do his utmost to induce a Derwent student who was graduating as a veterinary this year, to locate at Derwent.

Mr Frank Polusny had spoken with some force regarding the necessity of a veterinary at Derwent and was satisfied with the reply of the M.L.A.

Mr Cornish closed his address by saying that he was very pleased to be at Derwent and intended to again visit the town following the session of the legislature. He expressed his willingness to assist the board of trade and hoped they would communicate with him whenever his assistance was required.

FOR HUMANITY'S SAKE

In 82 years Red Cross has grown into one of the most powerful single factors for human good throughout the world.

Its work must go on—in peace as in war—for the sake of all mankind.

Your Canadian Red Cross has planned a great peacetime service for the saving of human lives and for the health and happiness of our whole Canadian people. Give Generously!

A considerable amount of news material including school division meeting minutes, local school board minutes, Islay, Wildmere and Chatsworth news, board of trade report, Dog Derby winners, and numerous smaller items, have been held until next week due to a combination of lack of space plus time for setting. This news will all appear next week.

The Standard has been requested by Mrs. Gordon Maskell to state that the lad who was left in charge of the two young children of Mr. and Mrs. Philip Coe of Vernon, B.C., the night of the tragic fire in that town, was 14 years of age, and not 10 years, as was stated in news reports.

Fixing the fault is better than fixing the blame. It's more fun too.

The Canadian Constitution places responsibility for education squarely [illegible]

Parcels for People in the United Kingdom

The National Office of the Canadian Red Cross Society advises that parcels sent to the United Kingdom as gifts are not exempt from duty or purchase tax.

The Canadian post office will accept parcels up to 20 pounds. Parcels up to 22 pounds may be sent freight (which is cheaper but slower). Parcels over 22 pounds require an import license.

Food gifts are duty free except for tea, on which the duty is 2 pence per [illegible] and [illegible] articles containing sugar, on which the duty ranges between 2¼d to 1½d per pound. There is no purchase tax on items of food.

Worn clothing and infants' clothing of pure wool or cotton is admitted free of duty and purchase tax.

Practically all other articles are liable to duty or purchase tax or both. No exemption is granted in this respect of wedding, Xmas or other gifts.

All parcels must be marked as gifts [illegible] bear a Declaration of Contents label, which can be obtained from post offices.

"On the Sunny Side of the Street"

Be Careful

The fire hazard is always prevalent in the farm home and particularly in the winter time. When a person is in a hurry there is temptation to use coal oil and even gasoline in lighting fires in the kitchen stove or the coal heater. This practice is very dangerous and has resulted in the burning down of many farm homes, the causing of painful injuries and even of death. Neither coal oil or gasoline should ever be used in lighting fires. The use of gasoline or other volatile fluids for cleaning clothes should be accompanied by every possible precaution. A little care in this respect may prevent tragedies.

Blaming others is the real spirit of the people.

No Immediate Returns On Wheat Boost

WINNIPEG.—The 20-cent a bushel increase in the price of domestic wheat announced by Trade Minister MacKinnon will not result in western farmers going on an immediate spending splurge.

Grain officials here said that the price boost did not alter the present arrangement whereby farmers were guaranteed $1.35 a bushel up to July 31, 1950.

It did mean that the money reserve in the $1.35 five-year pool, which protected the government against loss on the guarantee, would be substantially increased. The farmer, through wheat participation certificates, would receive the 20-cent differential between the previous $1.35 a bushel for domestic sales and the newly-announced $1.55 in 1950.

While the increased price did not mean that farmers' incomes would immediately rise it did give them the promise of approximately $10,875,000 added money through the sale of domestic wheat still to be delivered to the wheat board during the balance of the present crop year.

Approximately half of the wheat board's estimate of 72,500,000 bushels for the current crop year has already been delivered, with the price increase announced not being retroactive to cover those deliveries.

Prof R. C. Findlay, comptroller for the wheat board, said the increase applied to wheat sold in Canada for feed as well as for domestic consumption.

Western farmers, hailing the increase, estimated it would result next year in increased farm earnings approximating $27,000,000.

Housewives meanwhile, expressed satisfaction with the clause in the price increase announcement which indicated no increase in the [illegible] of bread would result. Present bread levels would be retained through an increased government subsidy.

Canada Is Still Holding Enemy Property

OTTAWA.—State Secretary Gibson told the commons that assets held by the custodian of enemy property once totalled more than $1,000,000,000, but now had dropped to $350,000,000 as a result of settlement [illegible]

He made the statement after opposition members made repeated requests that a report on the activities of the custodian be made available to parliament. Col. Gibson offered to consider the requests but said there were probably some phases of the activities those dealing with individuals should not be made public.

He also agreed to find out whether any enemy patents have been leased to Canadian firms by the custodian and what disposition will be made of royalties and shares accruing to Canadian individuals and firms from holdings in enemy countries.

Col. Gibson spoke before the commons adopted a resolution to a bill that would continue some of the wartime powers of the custodian. The bill itself was given first reading and then debate was begun on second reading to a measure that would extend some of the wartime regulations under the patent act.

At the night sitting, second reading was given to a bill amending the patent act and extending some of the wartime controls on patents. The bill was referred to the banking and commerce committee.

Also referred to the banking and commerce committee was a bill extending some of the wartime import and export controls to control the movement of goods in short supply both in and out of Canada.

Debate was begun on a resolution that would extend the powers the Canadian wheat board now exercised under order-in-council so that the Dominion might fulfill the four-year wheat contract with Britain.

At the house opening, Reconstruction Minister Howe said the government would confer with municipalities in an effort to have them take over operation of community centres now federally operated in wartime housing centres.

Col. Gibson said it [illegible] essential that enemy countries should not know what assets remained in Canada belonging to nationals of a foreign country or what assets of enemy countries were owned by Canadian citizens and held in this country.

"The same situation does not prevail today but we do need these regulations in order to control enemy property that is in Canada and also to enable us to continue investigations that have been going on since the war ended to locate enemy property that may have been skilfully hidden or which was under the control of the enemy or their agents in Canada," he said.

U.S. COMMANDER PASSES—Admiral Marc A. Mitscher, 60, commander of the U.S. Atlantic fleet, died at Norfolk Naval hospital, Virginia, of coronary thrombosis. One of the navy's foremost advocates of air power, Mitscher was commander of the carrier Hornet, the famed Shangri-La from which U.S. planes took off on April 18, 1942, to make the first historic bombing raid on Tokyo. Later he commanded task force 58 during operations against the Marshall islands, Truk, Tinian and Saipan, when the navy began sweeping the Japanese out of the [illegible] naval operations for air in 1945.

FOOD SHIPMENTS GO TO ROMANIA

WASHINGTON.—President Truman has acted to supply huge shipments of American food to Romania's northern province of Moldavia where 500,000 are reported starving. The president laid down the condition that the food not be used for political purposes.

He diverted 7,000 tons of food now en route to the United States army overseas to be diverted to Constanta, Romanian port, and asked the American Red Cross to supervise its distribution by the Romanian Red Cross "without charge and guarantees against discrimination on political, racial, religious or social grounds."

Ninety per cent. of all home fires are preventable.

Britain To Import Labor For Employment In Coal Mines

—To Use Displaced Persons

LONDON.—Prime Minister Attlee said that displaced persons in the British occupation zones of [illegible] and Austria would be classified for possible employment in Britain's coal mines and other industries short of [illegible]

The prime minister declared:

"The minister of labor is proceeding to set up an organization in the British zones of Germany and Austria for classification and selection of displaced persons against the opportunity of employment in Britain."

Several London newspapers reported that thousands of displaced persons would be brought from the continent to work in the mines to relieve Britain's fuel crisis.

The prospect developed that meagre coal rations for British homes—now limited to an average of 100 pounds weekly—might fall even lower next month because of the efforts to reopen factories.

The prime minister's announcement followed a cabinet meeting at which the coal crisis and national manpower shortage were discussed.

The first week of widespread factory shutdowns and electricity cuts for five hours daily resulted in a saving of 392,750 tons of coal.

A spokesman for the ministry of fuel and power said household fuel stocks were down to a two-week supply in the London area and a one-week supply in northern England and Scotland. He said it was "possible" that allocations of 800 pounds for March and April would not be fully met.

CLOTHING PRICES WILL BE HIGHER

OTTAWA.—Canadians are going to be paying substantially more for their clothing as a result of withdrawal last month of the government's subsidy on woollens, worsteds, yarns and tops and lowering of the subsidy on cotton.

The prices board said the new prices will be on shipments made by manufacturers on or before Feb 18 and apply specifically to men's and boys' fine woollen clothing, woollen work clothing and sportswear, and women's, misses' and juniors' coats [illegible]

Although unofficial estimates placed the retail increases as high as 25 per cent., board officials indicated it was impossible to make an accurate forecast. The increases would vary with the cotton, woollen or rayon content of each garment.

No price increases will be allowed on made-to-measure clothes ordered on or before Feb. 17.

LOOT RECOVERED

FRANKFURT, Germany.—A two-zone search for precious metal and gems hidden by the Nazi government has netted diamonds, gold, silver and platinum, valued at $7,300,020, it was learned. The discovery of a master list in Berlin led to the search for the valuables, looted from occupied countries.

Cones of the sugar pine may grow to lengths of 21 inches.

RAISING FUNDS FOR ARAB CAUSE

JERUSALEM.—Dr. Izzat Tannous, general secretary of the new Palestine Arab "national treasury" (Beit ul Mal) launching a national drive to raise £220,000 ($880,000) "for the coming sacred struggle," said recently:

"We are now at war — a war in which no quarter will be asked and none will be given.

"It will be a battle of life and death and woe to the vanquished."

Fifty per cent. of the total raised will go towards preventing Arab lands being bought by Jews. The other 50 per cent. will be used for "political" purposes of the coming "struggle".

Long-Lost Cousins Meet In Seattle

SEATTLE.—Never dreaming of finding long-lost cousins and boyhood playmates, Arthur Heagy, 61, Constance, Sask., on a honeymoon trip here with his bride flipped the pages of the city directory to see if there were any Heagys. He found the name of Wesley H. Heagy, a cousin he attended school with 43 years ago back in Twin Brook, S.D., and later two of Wesley's brothers, Floyd and Lloyd. They all had a family dinner.

REFUSED TO SIGN AGREEMENT

U. Saw, former Burma premier and a delegate to the Anglo-Burmese conference in London, refused to sign the agreement and declared that U. Aung San, leader of the delegation, signed unwillingly. He said Premier Attlee showed "considerable impatience".

MAKES NO PROMISE ON RENT CEILINGS

MONTREAL.—Finance Minister Abbott told a delegation from the West-End Consumers league here he would do all in his power to have rent control maintained beyond its expiry date next month but that he could not promise rent ceilings will not be raised.

"As a minister of Canada I must be fair to all classes of Canadians, fair to landlords as well as to all other classes," the minister told the 10-member delegation headed by Mrs. Mary Taylor.

Mr. Abbott said he hoped that all parties in the commons will support the federal government in extending the war emergency powers for the maintenance of rent control.

The delegation asked Mr. Abbott for assurances that the government will undertake a genuine housing program to provide low rental homes for the low income bracket group and that he will refuse to sanction any rent increases this year.

THIEVES BUSY AGAIN

LONDON.—Thieves netted a total haul of jewels valued at £20,000 ($80,000) in two new burglaries raising fears in Scotland Yard that Britain's "cat thieves" were striking again under cover of the blackout imposed because of the fuel shortage.

Seventeen new lifeboats are on order for the National Lifeboat Institution of Great Britain.

British Columbia May Sanction Compulsory Vote

VICTORIA.—British Columbia may become the first Canadian province to have compulsory voting and registration for provincial elections.

A special committee appointed a year ago to revise the Elections act recommended to the legislature establishment of a compulsory system. A fine of not more than $10 would be imposed on persons failing to register and provision is made for a registration card to be issued to each registered voter.

Another major change recommended would extend the franchise to [illegible] Orientals including East Indians and Chinese of Canadian birth [illegible] and citizenship to Indians not [illegible] reserves who served in the armed forces and to Doukhobors who served in the war or were rejected for military service.

At the same time the committee suggested [illegible] persons with adequate knowledge of English or French language be [illegible] to vote.

The [illegible] compulsory voting were made following study of the Australian system, the only Dominion with such legislation. In the last general election in Australia 96.7 per cent of eligible voters cast their ballots.

The committee [illegible] chairmanship of R. H. Carson, coalition member for Kamloops [illegible] that

A system of perpetual registration be instituted and that all residents of the province who are 21 years of age or over be required to register within 30 days of the proclamation of the new act. Persons failing to register should be subject to a penalty not exceeding $10 unless they have a valid reason for default. Persons coming to the province should be required to register within six months.

The planned registration card would show the person's name, address, occupation and electoral district. Each card would bear a number and persons not eligible to vote would be able to secure a residents card of a distinctive colour.

A new voters list would be prepared, and all eligible would be required to apply on an application form which would bear their personal signature.

A central registry of voters would be established and all returning officers would hold permanent jobs and be paid a salary.

Soviet Russia Submits Atomic Control Plans

LAKE SUCCESS, N.Y.—Soviet Russia submitted to the United Nations security council 12 proposals intended to carry out its plan for separate international conventions to outlaw atomic weapons and to put atomic control under the security council.

Andrei A. Gromyko, Soviet delegate to the security council and to the atomic commission, demanded that the powers agree now on a convention outlawing the use of atomic energy for warlike purposes.

As the next step he proposed that an effective system of control be established by separate convention which must be administered within the framework of the security council.

This would leave the veto right in the council undisturbed and would run against the solid United States position that no veto must apply anywhere on atomic matters.

The [illegible] proposed would establish an international control commission which would carry out the day-to-day duties involved [illegible] international control inspection and [illegible] organs under the commission would make decisions by majority votes and the veto power would not apply to them. Their work, however, would be subject to review by the security council.

Many home fires start in waste paper baskets when ash trays are carelessly dumped.

"Greater Syria" Plan Of British, Arabs Reported To Believe

Desert intrigue in the Middle East to create a "Greater Syria", which would guarantee Britain's superiority in the strategic oil area, is reported from Cairo. King Ibn Saud watches children of oil-field officials at a reception.

Arab circles report the British plan is to have King Abdullah of Transjordan, seen here, at the head of "Greater Syria".

Improved relations between Turkey whose president Ismet Inonu, is shown, and the Arab states is said part of plan.

Transjordan, Syria, Lebanon and part of Palestine would be included in extended British sphere, Arabs report, as they tell of manoeuvrings. Guardians of the Transjordan desert, these Bedouins are members of the famed Camel corps. 2712

Vermilion River M.D. Council Held Four-Day Meeting

The following is a summary of the minutes of the meeting of the council of Vermilion River M.D. No. 71 held in the municipal office, Legion Hall, Vermilion, Wednesday Feb. 12 to Saturday Feb. 15th inclusive.

Reeve J. A. Currie was in the chair and Crs. G. E. Clay, R. Tessman, J. Leighton, O. H. Quist and T. Bolsheim were present.

Minutes of January meeting and the financial statement for January were accepted.

Accounts as presented were paid.

Moved by Cr Clay that Le Tourneau scraper be turned in on $2000 guarantee on new Garwood scraper. Cd.

Moved by Cr. Clay that Council adjourn to reconvene at 9 o'clock a.m. Thursday.

Moved by Cr Clay that J. H. Ford be tendered $50 in full settlement of balance claimed on account of gravelling, Borradaile road. Cd. Crs. Quist and Tessman opposed.

Concerning Herd By-law north of Saskatchewan river—Moved 3rd and final reading Cr. Bolsheim. Cd.

Concerning Discounts on current taxes: Moved 1st reading Cr. Leighton; 2nd Cr. Quist; 3rd Cr. Tessman. Cd.

Moved by Cr Leighton that Agricultural Services Board be formed as provided by Agricultural Services Act. Cd.

Crs. Quist and Leighton were declared elected members of Agricultural Services Board.

Moved by Cr. Currie that Henry Haan and Fred Braithwaite be appointed members of Agricultural Services Board. Cd.

The following by-laws concerning land sales carried: N.W. and S.E. ¼ section 10-52-6-4th; W½ 26-50-6-4th; Lots 7 and 8, Blk. 2, Islay.

Numerous leases of land sales were approved.

Moved by Cr. Leighton that Council adjourn. Reconvened at 9 o'clock a.m. Friday.

A petition was read from ratepayers in Div. 2, protesting against the snowplowing of main road from Kitscoty, south. Petition acknowledged and placed on file.

A number of additional land leases were approved.

Moved by Cr. Leighton that Crs. Currie, Clay and Quist be appointed a committee in connection with certain oil and gas leases. Cd.

Moved by Cr. Currie that Home cafe at Marwayne be paid $125 in full settlement on all claims on building formerly used as an office. Cd.

That petition from ratepayers with respect to road north of Vermilion be referred to Public Works committee. Cd.

Moved by Cr. Leighton that R. Edwards be paid for land taken for a gravel pit from N.W. 1-53-3-4th, amounting to 7.55 acres at $20 per acre. Cd.

Moved by Cr. Quist that Cr. Clay investigate the possibilities of having a Municipal map prepared. Cd.

Moved by Cr. Leighton that E. Hoarty be recommended for license to operate blacksmith shop, service station and general store on N.W. 1-48-5-4th. Cd.

Moved by Cr. Bolsheim that claim be made to Alberta Wheat Pool for elevator reserves standing in name of E. A. Hybenette estate on account of relief supplied the above deceased person. Cd.

Moved by Cr. Bolsheim that A. C. Neilson be appointed poundkeeper with pound located on N.E. 6-53-1-4th, notices to be posted at Leighton P.O. at the pound and in Alberta Gazette. Carried.

Moved by Cr. Quist that Paul Antemaryk be appointed poundkeeper with pound located on S.E. 10-53-3-4th notices to be posted at Marwayne, at the pound and in Alberta Gazette. Carried.

Moved by Cr. Currie that residents of Paradise Valley hamlet be requested to organize a voluntary fire brigade and appoint their own fire chief and crew. Cd.

Moved by Cr. Quist that we advertise for two road foremen for season 1947. Road outfits consisting of 2 Caterpillar tractors and allied equipment. When replying state experience and salary expected. Cd.

The following visitors were interviewed: Mr. D. W. Ritchie, District Engineer; Mr. W. J. Casterton; Mr. Good, re road north of Vermilion, Mr. Earl Geake, snow plow operator, Mr. A. Watt, Canadian Bank of Commerce; Mr. Tindall of the A.F.U. re Municipal Convention.

Council adjourned to re-convene on Thursday March 13th.

Following resolution was omitted from the January minutes:

Moved by Cr. Quist that:

Whereas the moving of the Municipal office to Vermilion has made it necessary to open a banking account there, and

Whereas the Bank of Toronto has had two branches serving the northern part of our M.D. and holding municipal accounts since 1927; thereby being of great service to these ratepayers,

Therefore, be it resolved that a portion of the banking business of Vermilion River Municipality be retained in the Marwayne branch of the Bank of Toronto. Cd. Cr. Clay opposed.

Bank Loans — Moved by Reeve Currie that loans owing to the Bank of Toronto, Marwayne, be reduced to $30,000, and that bonds over the amount necessary to secure above loan be placed in Canadian Bank of Commerce, Vermilion. Cd.

Outstanding Loans — Moved by Cr Bolsheim that the Reeve and Sec'y be authorized to issue a cheque in the amount of $45,000 in favor of the Bank of Toronto, Marwayne, in payment of outstanding loans of like amount. Cd.

Loans from Bank—Resolved by Cr Clay that we borrow from the Bank of Commerce, Vermilion, such amounts as are necessary from time to time, up to the amount of $200,000 according to the terms of the borrowing resolution which is hereby approved. Cd.

Hypothecate Bonds—Moved by Cr Leighton that Reeve and Secretary be authorized to hypothecate bonds in the necessary amounts as collateral for loans with the Canadian Bank of Commerce, Vermilion, according to the terms as approved at this meeting. Cd.

Canadian Challenger On Maiden Voyage

HALIFAX. — The Canadian Challenger, of Canadian National Steamships, sailed from here recently on her maiden voyage in the Canada-British West Indies trade. The diesel-[illegible] cargo ship is commanded by Capt. F. C. Smith of LaHavre, N.S.

The Challenger, and her sister ships Canadian Cruiser and Canadian Con- British West Indies trade. The diesel-engined ships of Canadian construction. They will ply between Canadian, Bermudan, British West Indies and British Guiana ports.

After the show on Saturday evening attend the dance at the Elks hall. An enjoyable hour or two for only 50c

Quiz... FOR CANADIANS
Every Canadian today is asking himself this question:
"How much more will it cost me to live tomorrow?"
The answer depends on us... Living costs should not increase...
IF—we all keep on resisting the temptation to try to get more than our fair share of available goods.
IF—we continue to restrict our purchases to what we really need.
IF—we keep on producing as much as we can at as low a price as we can.
IF—we continue to support to the full our Government's wise measures of control.
IF—we continue to walk the middle road, the road of moderation in all things—in our thinking, in our actions and in our pleasures.
IF—as The House of Seagram has always suggested, we continue to think of tomorrow and practise moderation today!
Men who Think of Tomorrow Practise Moderation Today!

OUR COMPLETE SHORT STORY—

THE VILLAGE STORE

By CHARLES F. CLARKSON

MORTIMER JONES had successfully run a general store for over twenty years, and thought himself fully able to look after any situation. But he had no immediate reply when Tommy said, "Dad, what can we do? Mother's gone and asked Alice down for the weekend."

"You've got to understand," Tommy went on. "Alice is a city girl. It's not because we run a store; she knows about that. But she's used to smart, stylish shops. She's arriving tomorrow, and what will she think of this place?"

It meant a lot to Tommy to have Alice Payne get a good impression of his family. He'd known her ever since he'd been at college—two years now. When he came home for the summer and told his mother all about her, he'd never dreamed she'd write and ask Alice to come and see them.

Tommy took a long look around the store. He had to admit his father knew the business—it was by far the largest store in the county. Mortimer Jones had made a good living from it was even considered wealthy by his neighbors. But it certainly wasn't "smart" or "stylish". And, he thought, the worst of it was, they lived right up stairs, with a stairway coming down from the back hall into the store. Alice would never understand.

Tommy's eyes snapped. "Dad, why do we have to live upstairs? When you bought that old Reeder house the mansion, they used to call it I thought we'd move in there. Instead, you rent it and stay on here."

Mortimer looked shrewdly at his son. Tommy was different from his older brother, Frank, who was a born storekeeper like his father. That's why he'd gone away to university to learn to be an engineer.

"Maybe you're right, son," he observed mildly. "Guess I am kind of old fashioned. Matter of fact, those city people who took the Reeder place told me they won't be back this summer. If your mother's agreeable we'll move in."

Saturday morning Tommy took the family car over to the station to meet Alice. He'd had a hard time to persuade his mother to move. "It's too big and fancy for me," she'd protested, "and goodness knows what Della will say about the extra work. She'll probably leave." But he'd finally convinced her.

When Alice was comfortably seated in the car, he drove along the river road, letting her get a good view of the expanse of water and the rolling hills beyond. He turned in at the stone gateway of the Reeder place, down the winding drive his father had always seen that the grounds were well kept up and stopped the car in front of the empty house.

"This is our new house," he announced casually. "We're moving in next week."

Alice looked dismayed. "Why Tommy, I—I didn't know. I thought your father ran a store."

"Sure he does, but that doesn't mean we can't have a nice house. Of course," he added lamely, "that is well, you might as well know. We'll be moving out in a few days, but right now we're living up over the store. I hope you won't mind staying there."

"Of course not, Tommy," Alice protested. "I'll love it. I know I shall." Tommy regarded her doubtfully.

Actually, Alice seemed to fit right into the Jones household. She was just that kind of a girl. She helped Mrs. Jones set the table, and after the meal insisted on going down to the store and being shown all around. Tommy wished she hadn't arrived on Saturday. That was the worst day in the store. His father and Frank and the two clerks were in their shirt sleeves, running all over the place, trying to satisfy the crowd of customers. Of course, Tommy always helped too, during the holidays, but he'd been excused tonight.

He was showing Alice the new cash register when his father approached, frowning.

"Tommy, I promised Ab Snodgrass he'd get that order of middlings tonight, but Ferg's gone off with the big truck and forgotten them. Would you take them out in the panel delivery? It's only a few miles, and Alice could go along for company."

"Sure I'll go, Dad," he replied quickly, "but of course Alice can't ride in the truck. I won't be long," he explained, turning to her. "Would you mind? You can talk to mother, upstairs." Alice opened her mouth to protest, thought better of it, turned and went up the stairs.

Actually, it was quite a while before Tommy got back, after manipulating eight miles of rutted dirt road and handling the heavy bags of feed. He was tip-toeing into his bedroom to clean up a bit, when his mother called.

"Oh, Tommy! Come here a minute, will you? Tommy, I've changed my mind. We're not moving to the Reeder place."

"Oh, mother! You can't do that! I've so planned on it."

"No," she replied firmly. "I wouldn't like it there. And Alice agrees with me. She said it would be a shame to give up a nice home like this to go live in that big place."

"She said that? By the way, where is Alice?"

"Oh, she's downstairs helping at the candy counter. Your father's awfully rushed tonight."

"Mother! She's not!" Tommy felt the blood creeping up his neck. "Surely father couldn't—wouldn't ask her to work in the store?"

"No one asked her," Mrs. Jones replied calmly. "She saw how things were and asked if she could help. Said she hadn't been as happy in years. Seems her father used to run a fruit store in the city. When he died, she and her mother were left fairly well off and closed up the store. But she's always missed it. She always worked around the store after school."

"Gee, Mother, I—I don't know what to say. Guess I've been an awful fool trying to impress Alice with that big house."

"Oh, she liked the place well enough. But she knew I'd never be happy there. I'm going to tell your father not to rent it again. After you graduate you're going to want a summer home, if you can find someone to share it with," she added with a twinkle.

Tommy's eyes were shining as he kissed his mother. "Thanks, Mom," he whispered. "I'm going downstairs."

MANY CANADIANS DIE FROM LACK OF PROPER FOOD

TORONTO.—More Canadians die in a single year from lack of proper food than from infantile paralysis, a report in the Canadian Medical Association journal stated recently.

Dominion statistics for 1944, the last year available for medical study, show that 42 persons died in Canada of rickets, pellagra, beri-beri and scurvy, each of which is a nutritional deficiency disease. The 42 deaths compared with 38 deaths during that year from poliomyelitis.

SAYS CANADA MUCH BETTER THAN CHINA

SAULT STE. MARIE.—Lee King, 65-year-old Chinese laundryman, who has returned here from six years in the Kwantung province of China during Japanese occupation, said: "I am happy to be back in Canada" where he said his countrymen live like kings compared to the plight of their fel- [illegible]

CLEAN SEED MEANS PROFIT TO FARMERS

All seeds require thorough cleaning and grading to remove weed seeds and offal, as well as light and shrunken kernels. Both experience and experiments have demonstrated the fact that the largest yield per acre may be expected from the use of large, sound, plump seed rather than from seed which has been poorly cleaned and graded.

In many places in Canada there are well-equipped seed cleaning plants available to farmers, but it may so happen that these seed cleaning establishments may not be conveniently near some of the farmers whose only alternative is to clean their own seed. The farm-sized fanning mill, however, can do a good job if carefully operated. Improper cleaning of seed is due in most cases to lack of proper sieves or screens, or to improper adaptation of the mill. Some of the weed seeds are difficult to separate, but most of them can be removed if proper sieves are used and time is taken to determine the proper combination of size and slope of sieve, shake, air blast and rate at which the seed passes over the sieves.

The labour of cleaning and handling seed on the farm may be reduced considerably where the facilities permit the elevation of the seed from the cleaner to an overhead bin. From this bin, the seed may be spouted back to the fanning mill for a second cleaning. It is necessary to run seed through a farm fanning mill at least twice, and sometimes three times. If seed is to be cleaned a third time, it may be elevated to a second overhead bin which is within spouting distance of the fanning mill on the floor below.

Fashions

KIDDIES COLDS yield quickly to a brisk rub with BUCKLEY'S WHITE RUB

SNATCH-DIVING OWL ATTACKS LUMBERJACKS—When deep snow cut off its food supply, an owl with a 54-inch wingspread took to dive-snatching at any likely-looking prospective tidbits. But this owl made the mistake of attacking lumberjacks at Lake Maggie, near Lisotte, in Quebec's Lake St. John-Laverval country. The owl made off with six lumberjacks caps and was coming in for another when an exasperated woodsman grabbed an axe and felled him with a healthy swing.

SELECTED

RECIPES

LAZY DAISY CAKE

2 eggs
1 teaspoon vanilla
1 cup sugar
1 cup sifted cake flour
1 teaspoon baking powder
¼ teaspoon salt
½ cup milk
2 tablespoons butter

Beat eggs with vanilla until thick and creamy. Gradually add sugar. Sift together flour, baking powder and salt; add to beaten eggs. Heat milk and butter to boiling point and add. Spread batter in greased pan. Sprinkle topping over batter. Bake in moderate oven (350 deg. F.) 30-40 minutes. Yield: 1 cake (8x8x2 inches).

Topping

1½ cups oven-popped rice cereal
2 tablespoons brown sugar
1 tablespoon melted butter

Crush oven-popped rice cereal into fine crumbs.

Mix lightly with sugar and butter.

GASPE PENINSULA PIE

(Individual)

2 cups flaked cooked fish or canned salmon
1 cup diced celery
1 cup (undiluted) evaporated milk
¼ tablespoon finely minced onion
½ teaspoon salt
½ teaspoon paprika
¼ teaspoon pepper
½ cup corn flakes

Combine salmon, celery, milk, onion and seasonings and pour into greased individual casseroles. Sprinkle corn flakes on top, dot with butter and bake in moderately hot oven (400 deg. F.) 20 to 30 minutes or until brown. Yield: 6 servings.

No Count Of Imported Canaries In Canada

Trade and Commerce Minister J. A. MacKinnon doesn't know how many singing canary birds were imported into Canada during the past year. He said so in the House of Commons in an answer to a question by F. E. Lennard (PC—Wentworth).

Mr. Lennard had asked the minister how many canaries were imported into the Dominion last year, what countries they were imported from and how many [illegible]. Mr. MacKinnon admitted he had no idea. Canaries are [illegible].

To Feel Right [illegible]

Had Wrong Idea

First Tea Introduced in England Was Not Prepared Properly

When tea was first introduced in England, a lot of people disliked it intensely. The reason, says H. R. F. in Empire Digest was, that though they had heard it praised they had no idea how it should be prepared. Having bought some of the leaves they boiled them for about twenty minutes, strained off the juice, and tried to eat them with salt, pepper and butter. In many parts of England people still talk, though as a rule humorously, of "making a dish of tea."

WOULD USE SUB FOR EXPLORATION

Dr. Harald U. Sverdrup, director of the Scripps Institute of Oceanography, University of California, wants to be the first man to cross the Arctic Ocean from Norway to Canada by submarine, for a long distance undersea [illegible].

Dr. Sverdrup who was in charge of scientific work with Amundsen's expedition into the Arctic in 1917 to 1925 and with Sir Hubert Wilkins' expedition in 1931, told the Royal Institute that he thought Russia was far ahead of Canada in developing its far north.

He said a submarine was the only way to explore the Far North. A surface craft in the Arctic has its route determined by drift of the ice. A submarine could pick its own route, dodging underneath the surface when ice is in the way. A submarine trip of four to six weeks in the summer would net as much information as it would take a surface ship years to gather.

FASHIONS CHANGING

Every new collection of fashions in Britain seem to underline the fact that the line of women's suits is changing radically. Jackets are getting longer, sometimes three-quarter length. In fact there is a return to the more formal line of 1910. But there is an interesting corollary to this. It means that hats must change if this [illegible] popular, that [illegible] much more feminine, that high-heeled shoes must be worn.

Education Discussed At Meeting of the Wildmere A. F. U.

ASK LARGER PROVINCIAL GRANT

A card party was held in conjunction with the regular A.F.U. meeting on Feb. 12 in Wildmere. A very nice crowd of local people turned out for the evening. The meeting was held first and during the business a very important subject was brought up, namely, the deplorable state of the educational structure in Alberta.

This is something every taxpayer of Alberta and every parent in Alberta, should take notice. We need only look around us and see any number of schools closed or children taking lessons by mail. Do you think the average child can get an education this way good enough to compete with pupils under instruction by a trained teacher? We all know how much an education counts for in this age when almost any responsible position requires a high school education. Certainly this method of education won't inspire the children to go on and receive higher educations. Where are the trained doctors, dentists, lawyers, teachers and preachers going to come from in the future years? Do we have to import these from other parts of Canada? We know the children of the rural areas of Alberta are as clever as those of any other part of Canada.

It will be noted that in 1945 the Government of Alberta paid just over 21% of total expenditures towards education, in some centers as low as 5%. Why shouldn't this province with a surplus of $10,000,000 for the current year bear at least 50 per cent of the cost of elementary and secondary education costs when other provinces of Canada can do the same? B. C. bears 55%, Manitoba 50% and Ontario 50%.

Perhaps if the Government did this teachers could be paid a salary comparable to other professions and thus encourage students of today to consider teaching as a worthwhile life's work. It would also partially relieve the tax payers today of the heavy burden towards the cost of education.

Think it over parents and property owners. Study it closely and perhaps you will think the same as many other parents in this province that our children deserve an education better than was received 20 years ago, not a poorer one which is what is happening to them today. Listen to the radio for talks given by the Educational Council. Many facts may be obtained as to the state of affairs in regard to the educational structure by listening to these talks.

Pontiac features include new front end styling and other overall appearance changes.

"GREEN ACRES"

UNUSUAL SWINE RECORD

Morton Tovell has achieved a record in raising pigs that will stand some shooting at. Mr. Tovell has 2 sows that farrowed Jan. 22 and 23, 1946, and raised 28 pigs; farrowed August 16 and 18 1946 and raised 35 pigs; and now they have farrowed on Feb. 14 and 17 with 37 pigs. This makes 110 pigs in less than 13 months from 2 sows.

It is sows like these which make money for a farmer. Besides having well bred stock Mr. Tovell gives his pigs all the supplimentary requirements besides grain which include salt, potassium iodide, iron capsules protein and mineral supplements.

SCHOOL OF AGRICULTURE

May I remind people in this district that many late applications for attending the school of agriculture had to be refused last fall. Now is the time for applications to be submitted to the principal, Mr. Bentley, if one wishes to be sure of getting accepted as a student next October.

SEED GRASS EARLY

It is not generally understood that the best time to seed grass and Alfalfa is early in the spring. Just as soon as the seed drill can be drawn down the field has proved to result in the best catches of grass seed. Seed right into last year's stubble. The less cultivation and the harder the ground is better the grass seems to grow. Weeds can be clipped with the mower along in July when they are seen to be taking needed moisture from the young grass seedlings.

VERMILION BEE MEETING

Last week the Vermilion Beekeepers re-organized again for another year. Alf Pinchbeck was elected as President and Ernie Schurman was re-elected Secretary. Mr. Pinchbeck asks for members' co-operation in the matter of doing business only on Saturdays. So will beekeepers please make a point of doing bee-business on Saturdays.

WARBLE FLY CONTROL

Mr. J. L. Eaglesham, supervisor of pest control for the provincial government, states that the wide awake cattleman knows that if he does not treat his cattle for warble control it will cost him plenty of money in loss of flesh and loss of milk. All that is needed is to apply a warble fly wash when the lumps appear on the backs of your cattle and there will be no flies chasing your cattle next summer.

SMUTTY WHEAT

One of the elevator agents in Vermilion reported to me that he had shipped a car of smutty wheat which cost the farmer a cut in price of ten cents on account of the smut.

If seed wheat is properly treated with Ceresan or Leytosan there will not be any smutty wheat. Everyone should treat seed of wheat oats and barley every year as a safeguard against smut infection.

E. H. Buckingham, D.A.

Tigers Lose First Play-Off Game

SCORE 8 GOALS TO 4

Playing without the services of their ace forward Bob Wall, ill with influenza, and of their husky rear guard Stan Waldenberger, the Vermilion Tigers went down to an 8-4 defeat on their home ice Thursday night at the hands of the fast travelling Vegreville Rangers. Stan Waldenberger was suffering from an injured knee, hurt in the last game with Lloydminster.

The game was the first of the best three of five series to decide the league championship and winner of the Craig hockey trophy.

It was a game in which the goals and there was a peculiar variety of them, came in bunches. The Rangers ran in 4 goals in the last 10 minutes of the first period, even though the play was evenly divided. In the second the Tigers cut the lead in half on goals by Williams and Steen. This revived the hopes of the local fans. However, goals came thick and fast in the third, all kinds, [illegible] and fluky. Vegreville added four to their total and the Tigers two to theirs on goals by Doug Brimacombe and Ray Spencer. The final count reading 8-4.

Pete Moon of Edmonton was in charge of the game.

Line-ups

VEGREVILLE—Bradshaw, O. Hantiuk, Berezan, Posich, J. Hantiuk, A. Klein, Charuk, G. Dowhaniuk, W. Dowhaniuk, H. Klein, Henderson, Easton, Flirauk.

VERMILION—Martin, Wiebe, Mo[illegible]nab, Manshot, Williams, Brimacombe, Spencer, Donald, Grafton, Reese.

SUMMARY—1st period — Vegreville, Charuk (A. Klein), Posich (A. Klein), Hantiuk (A. Klein), Charuk (O. Hantiuk).

2nd period: Vermilion, W[illegible] (Wiebe), Spencer (Donald).

3rd period: Veg. A. Klein, [illegible], Charuk (O. Hantiuk), W. Dowhaniuk (G. Dowhaniuk), O. Dowhaniuk; Vermilion, Doug Brimacombe, Ray Spencer.

Ethelwyn Writer Approves Living War Memorial

The writer was [illegible] the last issue of the Standard that the people of Vermilion and district are planning a living war memorial [illegible] the heroes of World War [illegible]. The ideas suggested seemed very much worthwhile. What could be more suitable [illegible] their lives [illegible] [illegible] have [illegible] we have [illegible] a swimming pool [illegible] is still the [illegible] note that the farmers have been in [illegible] to get to town due to road conditions. Many dollars from farm organizations and individual farmers will be gladly donated to this cause.

A Need For Planning

THERE HAS BEEN NO grave unemployment problem in Canada since 1939, on the contrary, there have been acute labor shortages in many industries. It was feared for a time that when the armed forces were demobilized there might be a period of serious unemployment, but this has not been the case and reports indicate that the demand for labor has remained at a high level. There are few Canadians, however, who do not recall the difficult times which were experienced here in the nineteen thirties, and few who do not wonder whether such times may come again. Unfortunately it is not always possible for a country to control the underlying causes of a depression but experience has shown that it is possible to avoid much of the hardship and distress which results from unemployment by careful planning for the future.

• • • • •

Planned Public Works Project

One obvious way in which [illegible] employment could be provided during a major depression would be through the planning of large public works projects [illegible] the provinces and the Dominion government. Such a program would be in the nature of a public investment and would necessitate the spending of large amounts of public money. This subject has been [illegible] by the Dominion government and plans for possible projects have been [illegible]. The plans have to do with the conservation and development of natural resources which are not being developed by other agencies and with projects in the Northwest territories, the Yukon, Indian reservations and other areas which come under the control of the Dominion government. The [illegible] would include the development of natural resources, [illegible] and [illegible] drainage [illegible].

• • • •

Would Require Many Workers

Such a program would require a large number of workers including engineers, scientists and unskilled laborers. It is estimated that public funds amounting to 700 million dollars would be needed to finance public works projects [illegible] and accumulated unemployment [illegible] sweep over the country through a major depression. The raising of such a sum brings up the controversial subject of taxation and of Dominion-provincial agreements on that question. However, it is encouraging to know that thought has been given to the matter and it is to be hoped that in the event of another depression some plan will be in readiness to prevent the [illegible] and waste which arises from prolonged and widespread unemployment.

SWEETER TASTIER White Bread

RECIPE

Put 1 c. lukewarm water in bread bowl, add 1 envelope Royal Fast Rising Dry Yeast and 1 tsp. sugar; stir; let stand 10 min. Scald 2 c. milk, add 5 tbs. sugar; add 5 tsp. salt; cool to lukewarm. Add to yeast with 1 c. water; add 6 c. sifted flour; beat well. Add 5 tbs. melted shortening and 6 c. more sifted flour, or enough to make easily handled dough. Knead dough quickly and lightly until smooth and elastic. Place dough in greased bowl, cover; set in warm place, free from draft. Let rise until doubled in bulk. Punch dough down in bowl; let rise again until about ¾ as high as first rise. When light, divide into 4 equal portions; shape into balls. Cover with cloth; let rest 10 to 15 min. Shape into loaves, place in greased bread pans. Cover; let rise until doubled in bulk, about 1 hour. Bake in 425° F. oven for 15 min., then reduce heat to 375° F. Finish baking about 30 min. longer.

Personal Flag Of Princess Elizabeth

Princess Elizabeth took with her to South Africa her own flag. This is Elizabeth's personal flag granted to her by the King [illegible] designed for her. Few people recognize it yet as it has seldom been flown in public.

The first time it appeared was [illegible] the battleship H.M.S. Vanguard in 1947. This is the ship in which the royal party travelled.

The princess' standard has as distinctive touches a small St. George's cross with a Tudor rose on a white ground in the centre.

MEMORIAL TO POET

The York Sunbury Historical Society [illegible] to have a stone erected as a memorial to Sir Charles G. D. Roberts, distinguished Canadian poet, who died last [illegible].

EXAMPLE

Let your light so shine before men that they may see your good works and glorify your Father which is in heaven. —Matthew 5:16

Religion means [illegible] the practice of virtues [illegible]. —Professor [illegible]

Example is a lesson that all men can read. —Gilbert West

Much more good is done and profitable is doctrine by example than by rule. —Spenser

If you would convince a man that he does wrong, do right. Men will believe what they see. Let them see. —Thoreau

What [illegible] Jesus loved and to know that your example more than words makes [illegible]. —Mary Baker Eddy

NAME AGRICULTURAL ADVISER TO U.K. HIGH COMMISSIONER

Mr. J. A. Young, who has been appointed Assistant Agricultural Adviser [illegible] to the United Kingdom High Commissioner [illegible] Ottawa to take up his duties. His office will be [illegible] Mr. Young [illegible].

Mr. Young, who is the son of a farmer in County Tyrone, Northern Ireland, was educated at Dungannon Royal School and Queen's University, Belfast, where he obtained the degree B.Sc. Agr. with distinction. After leaving the University he was appointed to the inspectorial staff of the Ministry of Agriculture for Northern Ireland and latterly has been mainly engaged on [illegible] agricultural education work.

Is it true that it cost $100 to have your family tree looked up?"

Well not exactly. $5 to have it looked up and $95 to have it hushed up." 2713

FILM STAR, PRODUCER TO INTONE "I DOS"—Screen Actress Bonita Granville is seen with her fiance, Jack D. Wrather, Texas oil man and film producer, after they obtained their marriage license in Los Angeles. They said they would be married shortly.

FUNNY And OTHERWISE

The colored private, a passenger on the ship going across the ocean, became very seasick, and was being kidded by one of his buddies.

Buddy—Yo'-all is just a landlubber.

Negro Private—Dat's right. Dey ain't no argument dere. Ah's a landlubber and I'se jes' findin' out how much Ah loves it.

• • •

When he returned home after being "detained at the office" hubby received a very frosty welcome.

"Why this sudden change, darling?" he said in bewilderment. "Only this morning you said you loved every hair on my head."

"Perhaps I did!" snapped the lady. "But that doesn't include every hair on your shoulder."

• • • •

The angler had just landed a fish when the inquisitive woman chanced to be passing.

"Oh," she exclaimed, "that poor little fish!"

The angler replied: "Well, madam, if he'd kept his mouth shut he would not have got into trouble."

• • • •

There was an earthquake in a South American town which badly scared the inhabitants.

An English family who lived there sent their little son to stay with an uncle in another district for safety's sake.

Two days later the parents received the following telegram:

"Am returning your boy. Send the earthquake."

• • • •

"And does your husband," asked the Irish matron, "still kiss yo mornings when he leaves the home?"

"He does, indeed," replied the bride. "If he didn't he'd be in no condition to go to work."

• • • •

The prospective son-in-law had just given little Willie, brother of his sweetheart, a sack of candy.

"Don't you think my beau is a good fellow?" asked the big sister.

"Huh! He's better than that!" [illegible]

"How do you mean?"

"Well, I heard Mama tell Papa that he's better than nobody."

• • • •

Once again the sergeant was going over his instructions to a rather timid recruit taking his first turn of duty as a sentry.

"I understand this?" he snapped. "If anything moves, you shoot."

"Yes, sergeant," replied the recruit, adding firmly for once; "and if anything shoots, I move!"

• • • •

"Have you seen a giraffe about here, lad?" asked the circus manager. "It's just escaped from the circus."

"No, sir," replied the boy. "I've seen no giraffe, but I saw a long-necked [illegible] the [illegible] back [illegible]."

• • • •

When the crowded bus stopped, a stout, middle-aged man descended the stairs, carrying a small girl. Placing her carefully on the kerb, he climbed up and brought down a smaller boy.

Again he made the journey, and this time carried down an even younger child.

"I assume," said a passenger, waiting in the impatient queue, "you must have a nest up there?"

• • • •

After writing a prescription the physician told him that the druggist would probably charge him 60 cents for filling it. Then the patient asked the physician to lend him the money. The physician carefully scratched out a part of the prescription and handed it back, [illegible] 10 cents remarking: "You can have that filled for a dime. What I scratched out was for your nerves."

To Feel Right — Eat Right!

MONEY TURNING UP THROUGH BLIZZARD

DE FOREST, Wis.—Mrs. Clement Wolfe doesn't believe in fairies but almost everywhere she looks—under a pillow, behind a mirror, beneath a vase—she finds money.

Dollar bills have turned up in cupboards, little stacks of silver on shelves, and half dollars tucked away everywhere imaginable. In the one week Mrs. Wolfe found between $60 and $70 and she still is finding more. She blames it all on the more than 80 unexpected guests who spent from two to three days with her in a recent blizzard. They came by the carloads and finally by the busloads as their vehicles became snowbound.

When the guests finally were rescued they tried to pay their hostess but she would have none of it.

"But I guess some of them didn't listen," sighed Mrs. Wolfe as she lifted a dish and found a couple more dollars hidden away.

Helpful Diet For New Mother

1. A quart of milk a day should be taken either as a drink or in cooking. Not more than a quart should be taken.

2. Vegetables raw or cooked should be eaten two or three times daily. Fresh vegetables of every kind should be taken especially the leafy dark-green type.

3. Fruit, in particular grapefruit or oranges should be eaten daily. Fresh fruit is best, but if too expensive, dried or canned fruit may be substituted.

4. One egg, at least, should be eaten every day.

5. At least a quart of water should be taken every day. Tea or coffee is allowable in moderation but should not replace milk.

6. Cod-liver oil is excellent under the doctor's orders.

7. Laxative foods. Green leafy vegetables, fruit, especially figs and prunes, all help to regulate the bowels. While whole grain bread and cereal may also help as well as a glass of water taken first thing in the morning.

Fresh Roasted Peanuts!

Carloads and carloads of peanuts are now rolling into Canada from Virginia in the Southern United States and everyone is enjoying the thrill of having these marvelous fresh-roasted Virginia peanuts for a real family treat.

As we enjoy them we think of the friendliness of our good neighbors to the South and especially when they come from the far South where friendliness is mixed so much with the way of life.

Before the war peanuts came in from Northern China and the Virginia jumbo peanut was scarcely known in Canada because the Chinese nut was sold at so much lower prices that it pretty much captured the market but now that the Chinese nuts are not available and Canada is permitted to bring in again the real genuine Virginia jumbo peanuts there is a very great treat in store for our people.

Peanuts are especially nutritious for children and they will be seen in many of the lunch boxes of children going to school and many an after-school lunch will be supplied by this very nutritious food.

The point is that Canada has been starved for good peanuts owing to war conditions and now that those big jumbo Virginias are available fresh roasted everybody will want some, in the shell, or salted. Grocers, candy stores, drug stores throughout the country are being rapidly supplied. Buy and take some Virginia jumbo peanuts home today!

The long billed curlew has a beak [illegible] inches long.

SHE'S BEAUTY QUEEN OF SUDBURY CARNIVAL — Crowned queen of Sudbury's winter carnival was pretty Germaine Tessier, seen here. A gala program of varied events, including sports and beauty contests, featured the colorful event. [illegible]

Attempt To Reach Lost World Fails

The first recorded journey into the weird "lost world" of Central Arnhem, Northern Australia, proved fruitless for Patrol Officer Sydney Kyle who was forced to turn back by lack of water in his search for a mystery tribe which natives say are bound never to show themselves to white men.

The party reached what Kyle described as a "strange new land"—a treeless, waterless escarpment of rugged rock stretching endlessly into the distance.

They did not see a living thing under the merciless sun.

Kyle saw what appeared to be man-made carved faces of rock towering 200 feet, which he believes may be a ruined ancient city.

He plans to return during the wet season.

MUZZLED NAGGERS

Women in the 17th century often were tried for nagging and, if convicted, were led through the streets wearing iron muzzles over their heads with mouthpieces that formed a gag.

NEW PATROL BOMBER FOR U.S. NAVY

WASHINGTON—The United States Navy recently opened the door on its newest heavy patrol bomber, the Martin XP4M-1, which packs a dazzling burst of speed in a pair of extra jet engines and a cruising range of more than 3,000 miles.

It is a four-engined craft which resembles a huge twin-engine plane because the jets are mounted directly behind two of the largest 3,000 horsepower conventional engines now in existence.

Capable of cruising at more than 200 miles an hour, the bomber can boost its top speed to "well over 350 miles per hour" with a flick of the jet power, the Navy said.

The new sky giant is equipped with tricycle landing gear, has a wing spread of 114 feet and is "very heavily armed". It was termed "one of the most completely electronically equipped aircraft ever made." It carries a normal crew of eight.

SUGGESTED SERVICE FOR TRAVELLERS

The "properly-equipped" railroad station should fairly jangle with nickel-in-the-slot gimmicks, and others that consume larger coins, exhibitors at the Coin Machines Industries, Inc., convention in Chicago [illegible].

A traveller, among other things, should be able to get his shaving needs, a press for his necktie, a shine for his shoes (a nickel each), his railroad ticket, a toothbrush, a book, a horoscope, two flavors of ice cream, popcorn, and an electrically-heated hot dog (no mustard)—all by means of coin machines.

SON IS AHEAD

When David A. Young, 52, returned to Lansing for his third term as a member of the Michigan House of Representatives, he took along his 12-year-old son Robert, and got him a job as House messenger. The State of Michigan handed out first pay cheques to both. Robert's weekly salary as messenger being $45.50. Mr. Young's salary as lawmaker: $21.

The equatorial diameter of the earth is only 26 miles greater than the polar diameter.

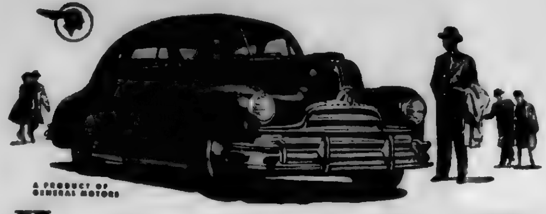
1947 PONTIAC
A fine car made finer



A PRODUCT OF GENERAL MOTORS

Here's our picture for '47!

We are proud to present for 1947, the finest car Pontiac has ever produced.

In the new 1947 Pontiac, now in production, all of Pontiac's traditional quality, dependability, stamina, trouble-free operation, ease of handling and downright goodness have been retained. These are the qualities that have made more than a million friends of more than a million Pontiac owners.

Added for 1947 are appearance changes to enhance Pontiac's beauty; mechanical refinements to uphold Pontiac's known reputation for dependable, trouble-free performance.

For 1947, Pontiac again offers four outstanding series — the thrifty *Fleetleader* and *Fleetleader Special* lines, proud leaders in the low-priced field — and the *Torpedo and Streamliner* . . . long, luxurious, both of them built to house a smooth-running Six, or an economical Eight.

Millions have learned to expect an outstanding value from Pontiac . . . and the 1947 Pontiac fulfils their expectations. The 1947 Pontiac is a *fine car made finer.*

Available Funds Going For Relief of War Sufferers

RED CROSS CAMPAIGN OPENS MARCH 3rd

Many persons across Canada are under the misapprehension that Canadian Red Cross funds raised during the war are available for peacetime uses, Lewis A. Winter, O.B.E., honorary treasurer of the society said today.

"This money cannot be used for a peacetime program in Canada," Mr. Winter declared. "In 1945 and 1946 the Society spent over $17,000,000 for relief in Britain, Europe and Asia. There is approximately $6,000,000 remaining from war revenue which must be used for purposes arising out of or connected with the war under the terms of the War Charities Act. Expenditures for these purposes are continuing but the allotments for this year towards further meeting the great distress due to the war have yet to be made.

"We in Canada may be thankful that we are able to continue the great humanitarian work of overseas relief with available funds. Instead of seeking more money for this purpose we are able to go to the Canadian people with plans for extension of our peacetime work for the benefit of Canadians.

Scores of thousands of war sufferers have blessed Canadians and a great many owe their lives to Canadian generosity. We believe scores of thousands of Canadians will have reason to bless the peacetime program of the Red Cross.

It is for the purpose of carrying on this peacetime work that the Canadian Red Cross Society is asking for $5,000,000 in the national appeal opening March 3.

Farm Radio Program

Every Monday, Wednesday and Friday at 8.15 p.m. the Alberta Farm and Home Forum is heard from stations CKUA Edmonton, and [illegible] Calgary. Sponsored by the Faculty of Agriculture, University of Alberta and the Alberta Department of Agriculture, this program brings to the country listeners talks and discussions from members of the University staff, representatives of the [illegible] Department of Agriculture [illegible] interested in the progress of all agricultural industry.

A monthly schedule of these broadcasts is included in the CKUA Broadcast Guide, which can be obtained free of charge on application to [illegible] CKUA Edmonton.

National Boy Scout Week

Hon. N. E. Tanner, Mrs. S. H. Gandier Are Interviewed

Six thousand Boy Scouts and [illegible] Girl Guides in Alberta is not enough says Hon. N. E. Tanner, Provincial Commissioner of Boy Scouts and Minister of Lands and Mines in the Provincial Government.

Interviewed in Edmonton, together with Mrs. S. H. Gandier, Provincial Commissioner for Girl Guides, Mr. Tanner stated that there were [illegible] members of the Boy Scout movement and [illegible] members of the Girl Guides in Alberta.

Mrs. Gandier expressed satisfaction [illegible] the character training being given to the young boys and girls in the province. She said "This will make them worthwhile citizens of this great province as well as giving them an outlet for their [illegible] youthful enthusiasm. The slogan taken for this year's Scout Guide week is 'The [illegible] the Future' [illegible] for them [illegible] the world without [illegible] of the youth today."

Mr. Tanner appealed to the [illegible] of the Province to support these movements. "While we [illegible] great progress we [illegible] enough of our youth. Every boy and girl should have the opportunity and be encouraged to join the Scouts and Guides. We need more men and women to take an active interest in the young people. Nothing [illegible] than to work with boys [illegible] enthusiasm for [illegible] and is stimulating in itself. [illegible] they will have the [illegible] of seeing their boys and girls grow up to become worthwhile members of the community," he stated.

Retiring Members Attend Last Meeting of Islay Hospital Board

The regular monthly meeting of the Islay Municipal Hospital board was held in the hospital on Feb. 8. Present were Mr. W. G. Urquhart, chairman, and board members Wood and Waterfield.

The minutes and financial statement of the previous month adopted as read on motion Mr. Waterfield. Cd.

Moved by Mr. Wood that a car load of coal be ordered for delivery March 1st. Cd.

Moved by Mr. Wood that Auditor's report be adopted as submitted and that the Secretary's account in the amount of $19 be accepted for attending audit. Cd.

Moved by Mr. Wood that Secretary's bond premium be paid $12 [illegible]

Moved by Mr. Waterfield that $10 fee be paid Nurse Placement bureau. Carried.

Moved by Mr. Wood that A. J. Andersen and Mrs. E. Durnin be accepted as referred patients. Cd.

The Secretary was instructed to procure supply of alcohol and whisky from A.L.C. Board. Cd.

Moved by Mr. Waterfield that the current year's estimates be submitted to the Board of Public Utilities Commissioners on the basis of a $12,000 requisition and a transfer of $1,400 from surplus, $2,000 of which is to be used for the completion of the nurse's residence. Cd.

Moved by Mr. Wood that Matron's report be adopted. Cd.

Moved by Mr. Waterfield that the accounts and salaries as approved be paid. Cd.

The Board expressed their regret at the retirement of two popular members of the Board. Appreciation of Mr. Portsmith's loyalty and constructive co-operation was expressed. Mr. Urquhart has completed 12 years on the Board, being Chairman since Dec. 6th 1941. During these 12 years he never missed attending a Board meeting. The Board expressed whole-hearted appreciation of his able leadership during the trying years of the war, and the many benefits accruing to the Hospital District as the result of his untiring devotion to duty, and his wide knowledge and experience in public affairs.

The matron reported—In hospital 1; admitted 24; discharged 15. Remaining 10; births 3; deaths 1; operations major 2; X-rays 14; guest days 189. Receipts $466.46.

Adjournment to meet 2 p.m. in the hospital March 8th.

Salaries, staff 665.76; [illegible] bers 20.00.

J. T. Fyfe $10.90. Light and Power $8.96; Royal Alex hosp. $2.80; Ingram and Bell 23.11; Disp. Withdrawals	1,929.[illegible]
Bank Jan. 31st	$2,051.[illegible]
O/S Cheques	$12.01
Ledger Balance	$1,241.[illegible]
Invested	$3,000.[illegible]

Make Sure of Your Seed Supplies

To produce the feed necessary for increased hog production 500,000 more acres of barley are needed in Alberta in 1947. This objective can be achieved only by making sure of seed supplies. Eastern Canada and other outside markets are waiting to buy thousands of bushels of both feed and seed barley, and as soon as shipping facilities are available, Alberta's supplies will decrease rapidly.

Barley that can be cleaned to seed grade is still available on many Alberta farms, and farmers are urged by the Alberta Department of Agriculture to arrange for their supplies early. Increased hog production depends on adequate feed and the best way to assure plentiful supplies of feed is to increase acreage. Grow 25% more barley this year.

Ah-h-h! I Can Breathe Again!

If your nose sometimes fills up with stuffy transient congestion—put a few drops of Va-tro-nol in each nostril. It quickly reduces congestion and makes breathing easier in a hurry . . . gives grand relief from sniffy, sneezy, stuffy distress of head colds. Follow directions in the package.

VICKS VA-TRO-NOL

GARDEN NOTES

◆ ◆ ◆

Planning Will Help

It is good business and a lot of fun too to plan the garden well ahead of the time when one can actually get outside and dig. Especially where space is limited a little preliminary work with pencil, paper and a good Canadian garden seed catalogue will result in far more satisfaction. Certain plants require more room than others, some want full sun, some grow early and some cannot be planted until all danger of frost is passed. Then in the flowers there are such points as colouring and time of blooming. All these have a bearing, are noted in the seed catalogue. They should be remembered in planning so that little things won't be crowded behind big things so that there won't be long lapses without flowers or fresh vegetables once production starts.

Give Them Room

Seeds and shrubs as they come from the nursery are such little things that it is hard to realize just what will happen when full growth has been developed. The beginner almost invariably plants far too close together. Certain things like the small annual flowers and vegetables like lettuce, beets or carrots take up little room. An inch or three inches between, and rows about a foot apart are all that are necessary. But there are other things that will need much more room. Tall types of flowers like cosmos or zinnias for instance need a foot or two each way. In the vegetable line, corn, potatoes, vine tomatoes, melons, cucumbers and such require plenty of room. [illegible] there will be the space for the garden [illegible].

With shrubs, ornamentals, trees and [illegible] space is even more important because these keep on growing year after year. The average shade tree will grow 25 to 60 feet high and for proper full development will need from 30 to 60 feet each way at maturity. Shrubs that have a mature height of ten feet need at least five feet between.

Growing Your Own Plants

Rather than purchasing started plants in many sections of Canada this may be impossible or inconvenient anyway, many gardeners start their own in hotbeds or shallow window boxes. The former are merely glass-protected outdoor beds where additional heat is provided by an underlying bed of fresh horse manure or hot water pipes or [illegible]. The window boxes are [illegible] a couple of inches deep, placed in a bright window. The soil used should be fine and loose, preferably a mixture of sand and leaf mould. Seeds are planted in March and in rows about an inch apart. When the plants develop their second set of leaves they are transplanted to larger and cooler quarters and a few weeks later they are set outside. Ventilate and keep soil moist.

COUPONS ACCEPTED

Agriculture Minister Gardiner said in the commons the government still is accepting any ration coupons which Canadians wish to turn in as a step in providing more food for the hungry peoples of Europe. 2713

BRIEFLY TOLD

The first Nova Scotia fisheries exhibition since the outbreak of the war will be held at Lunenburg next Sept. 15-19.

For sending [illegible] meal without official permission, four Lincolnshire farmers were fined a total of £1 200 ($4 [illegible]).

Thieves who broke into a London warehouse stole [illegible] army greatcoats — all stamped with [illegible].

It was announced in the British House of Commons that 212 persons were killed and 426 wounded in Palestine violence in 1946.

The American Federation of Labor Executive Council has gone on record as being unalterably opposed to military conscription of any kind.

Generalissimo Stalin has refused the French Military Medal—highest French military decoration — the French Foreign Office announced.

A London bus driver Horace Pike, working in his spare time with a hand saw, trowel and hammer, built a house he has named "Pike's Peak" at a cost of £550 ($2,200).

Operations to refloat the French-captured liner Liberte, formerly the German luxury ship Europa which sank during a storm last year, will begin March 1, the French press [illegible] said.

Girl Overcomes Serious Handicaps

LOS ANGELES — Clover Kerr, 29, [illegible] after she lost both legs and her right arm in a traffic accident here in 1937. But the difficult handicaps seemed only a challenge for she learned to walk, ride horseback, dance and write, and now she is to become a bride.

The attractive Miss Kerr, whose cheerful attitude through a difficult decade has been an inspiration to her friends, will walk to the altar to become the wife of Clark Robert Taylor of Roseburg, Ore., at the First Presbyterian Church there.

After the accident she was in critical condition for weeks, but her friends say she never lost her smile and her determination to return to a normal way of life.

She learned to walk on artificial legs, learned to write with her left hand and played piano compositions designed for the left hand alone.

In the 16th century women's rings were often worn suspended from a chain.

KINSMAN OF VICTORIA WAITS GERMAN TRIAL — Great-grandson of Queen Victoria, Prince Philip von Hessen, awaiting a German denazification trial is shown as he eats in his basement quarters at the German civil internment camp in Darmstadt. The prince is a son-in-law of Italy's ex-King Victor Emmanuel.

Says Potato Vitamins Wasted By Canadians

TORONTO. Every year in Canada there is more vitamin C thrown down the sink than the amount contained in all the citrus fruits we import, Dr. L. B. Pett, chief of the Nutrition division, Department of National Health and Welfare, said in an address to the annual meeting of the Ontario Crop Improvement Association.

Dr. Pett blamed much of this waste on the way potatoes are cooked. He said this important food is usually cooked too long, in too much water or at too high a temperature, with the result as much as half the minerals and vitamins are lost.

According to the Encyclopedia Britannica, there are three times as many women who live to be 100 than men.

Health LEAGUE of CANADA presents TOPICS of VITAL INTEREST

DANGERS OF BACTERIA IN YOUR DAILY FOOD

Food is generally a good culture medium for microbes which find therein an easy and rapid way of [illegible] which are responsible for [illegible] diseases, states Montreal's Dept. of Health.

Experience shows that some kinds of food products constitute for microbes the most favorable medium, for instance, jellied meats, pork, pastries with custard or cream (eclairs, cream-puffs, mille-feuilles, etc.). It is essential that these foods be eaten only when they are strictly fresh, otherwise bacteria are already present and this results in more or less serious cases of poisoning.

One must beware of foodstuffs which have been exposed to dust or manipulated by the public. One must remember that some food products can be soiled by germ carriers, insects or animals. Consequently, prudence is a good rule and needless to say that it is absolutely necessary to keep food in ice-house or refrigerators, the interior temperature of which must be 50 deg. Fah. or less, especially cooked meats, jellied meats, cream and fresh milk products.

FUTURE WAR COULD LAST SEVERAL YEARS

WASHINGTON. — Maj. Alexander P. De Seversky noted airplane inventor, believes any future war would last several years, regardless of the atomic bomb.

He said the bomb did not change the basic strategy of warfare. That, he said, can't be changed "only when we develop some form of death rays."

The beaver is the largest member of the rodent family.

LADY PASSENGER WAS ANXIOUS TO HELP

Irvin S. Cobb once told of a nice old lady, enjoying her first ride in a taxicab. Going through heavy traffic, the old lady grew more and more nervous as the driver kept removing his hand from the steering wheel, putting it outside the car. Finally, the old lady could stand it no longer. Leaning far forward, she tapped the driver on the shoulder. "Young man", she said sternly, "you just tend to your driving. I'll tell you when it starts to rain."

TOLSTOI MUSEUM

A new Tolstoi museum has been opened in the former stationmaster's house in the little town 112 miles southeast of Moscow where the famous author spent his last days and died. The bed in which Tolstoi died and all the furnishings of the house as they were in 1910 have been preserved intact.

JUST POSSIBLE

"What a boy you are for asking questions," said the father. "I'd like to know what would have happened if I'd asked as many questions when I was a boy." "Perhaps," suggested the young aspirant, "you'd have been able to answer some of mine."

Local News of Interest

Friends here will be very interested to learn that a son was born to Mr. and Mrs. Keith Gerrick (nee Jean McLeod) on Feb. 24th at Christ Church, New Zealand. Mrs. Gerrick's address is 30 Bowen Street, Upper Riccarton, Christ Church, New Zealand.

Mr. and Mrs. Louis McCulloch returned last week from a month spent on a motor trip to the southern States during which time they visited in Tulsa, Oklahoma City, Dallas and Houston Texas, New Orleans Louisiana, and from there to Kansas City and then to Chicago and back home. Over 7000 miles were driven in the States on a mixture of business and pleasure. They were accompanied on part of the trip by Paul Bowton. The weather was 80 in the shade in New Orleans and just in contrast the travellers were caught in one of the famous North Dakota blizzards in that state, being held up on their way home.

Mrs. John Arnold returned home on Sunday from spending two months visiting her old home in the State of Mississippi which she left 27 years ago this May 11. She had a very enjoyable time seeing her mother, sisters and brothers and on the way home she visited her grandmother at Chicago. Mrs. Arnold says that in spite of the fact that it was often as warm as 90 above while she was there and that garden stuff such as onions etc. was up and being [illegible] she still preferred the Alberta climate, the variety offered here and the clear air being far superior to the damp heat and stuffiness of the [illegible] atmosphere.

Alex Stone is driving a smart looking new Pontiac purchased from the local agents Rowe and Spencer.

Charlie Coulter returned Monday from five weeks spent at visiting in Vancouver, Victoria, Seattle and other coastal points. He saw lots of friends and reports a very enjoyable time.

Herman Persson who advertised some machinery in the Standard a short time ago has now inserted another little advert telling everyone that the machinery has been sold and further trips to his farm and letters are useless. Herman says that if all the people who called to buy the seed drill and harrow cart had been there at the same time he could have held a good auction sale. The machines went to a buyer all the way from Elk Point.

Vermilion Motors delivered a snappy looking 1947 Chevrolet to Gordon Larson last week end.

Dr. W. H. Scott was a week end visitor to Edmonton.

Supt. R. C. Miller is carrying out the annual inspection of town schools this week.

John J. Hope who has spent the past six weeks visiting here and the at the coast, is now in Victoria where he expects to spend the rest of the winter months.

Mrs. Gordon Maskell returned home this week from Vernon, B.C., where she has spent the past two weeks. She was accompanied by her daughter Mrs. Philip Coe who will spend a short time here.

Carleton, Hughes, Claysmore

Carleton, Hughes, Claysmore Red Cross will meet at the home of Mrs. Melvin Hill Thursday March 6th at 2.30 p.m. Quilting will be done. Everyone welcome.

"Holly" Becomes Capt. on Okanagan

Alberta friends of O. R. Hollingsworth successful oil operator in the Vermilion field, where he sold out his interests a short time ago, will be interested in the following clipping from Vernon News:

"One of the most luxurious pleasure craft to sail on Okanagan Lake is the 26-ft. 'Heather Bell' now receiving its finishing touches at Okanagan Landing. Its white hull, natural cedar cabins and red decks will become a familiar sight this spring as O. R. Hollingsworth, the owner, cruises the valley.

Mr. Hollingsworth came to Vernon from Bellingham, Wash. about a year ago. He had spent some time at Vermilion, Alberta in connection with his oil enterprises. At present he is not actively engaged in business but has local financial interests. He loves the Okanagan because it provides a fine environment for his hunting and fishing enthusiasm. Western Oil Exam

Carnival Queen

—MISS GRACE ISLEY, Vermilion high school student who was crowned Queen of the Carnival last Friday night at the arena. Over 1300 votes were cast in the Carnival Queen contest.

The costume committee wishes to thank all of those who so kindly acted as judges at the carnival, or who helped in any other way. The help and co-operation received is very much appreciated.

Mr. Ronnie Barwick and daughter Karen went to Edmonton Thursday morning where they will spend a day at the Edmonton winter carnival.

FALLOW — Born to Mr. and Mrs. Maurice A. Fallow at the Vermilion Municipal hospital on February 24th, a daughter.

A farewell party was held Saturday evening last week for Mr. and Mrs. Mason Dixon who left Sunday to make their home at Fort William Ont. About twenty friends gathered and a presentation was made to the departing couple by Dr. A. B. King on behalf of those present.

CARD OF THANKS

I would like to take this opportunity of thanking one and all who helped me achieve the honor of being Vermilion's Ice Carnival Queen.

Grace Isley

Mr. and Mrs. Henry Dorey wish to thank their neighbors and friends for the kindness and help extended to them during their recent bereavement and for the beautiful floral tributes. Special thanks to the doctors and nurses of the Elk Point hospital.

CARD OF THANKS

I wish to take this opportunity to thank Dr. Bradford and staff for the kindness shown me during my recent illness in the hospital. Also friends and neighbors for the flowers, fruit and cards.

Mrs. H. Schoonmaker

IN MEMORIAM

In loving memory of a dear mother and grandma

Mrs. Catherine MacKay

who passed away March 7th, 1944

As we loved you so we miss you
In our memory you are near
Loved, remembered, longed for always
Bringing many a silent tear
—Ever remembered by her family, Helen, Clarence, Catherine and Stewart.

RIVERTON

Mr. and Mrs. Jack Hansen have gone on a trip to Edmonton.

A speedy recovery is wished to John Parr who is a patient in the city hospital.

Raymond Haskell spent a few days in Vermilion this week.

The Fun and Frolic club had a good turn out to their Valentine dance. They cleared $46. Everyone seemed to have a good time.

The last Ladies aid was held in the Riverton school and had attendance of 15 members.

Mrs. D. Tompson (nee Lilly Hasskell) gave birth to a daughter, Dorothea Louise on Feb. 5th.

BUNS — BUNS — BUNS

Mrs. H. Meyers W.A. group of the United church are baking buns every Saturday. Phone 96 on Friday for your order. It is delivered free. Special orders filled. 41-3x

Knox United Manse Is Scene of Pretty Wedding Feb. 15

HARTMAN—THERO

A quiet wedding was solemnized in Knox United manse, Edmonton, when Evelyn Rose Thero, eldest daughter of Mr. and Mrs. L. A. Thero of Vermilion became the bride of Signa. Chester Robert Hartman, R.C.S.C., eldest son of Mrs. and the late Mr. Hartman of Beaverlodge, Alberta, at 2:30 in the afternoon of February 15. The Rev. Elgin Turnbal officiated.

The bride was attired in a floor-length gown of blue sheer with a head piece of blue flowers and three-quarter length veil. She wore a corsage of red roses and fern.

The bride's sister attended the bride and also wore a floor-length gown of blue sheer with a matching flower in her hair. She wore a corsage of pink carnations.

L.Cpl. Jim Dawson, R.C.A.P.C., was the best man.

The grooms' mother was present in a light blue wool jersey dress and also the groom's former teacher who was attired in a light green dressmaker suit.

After the signing of the register the wedding party left for the Sigeris' studio where photos were taken. The wedding supper was held in the Royal George banquet room.

The bride's going away costume was a brown tailored suit with matching accessories. They spent a short honeymoon at the bride's parents after which the newly married couple took up residence in Edmonton where the groom is stationed with the R.C.A.S.C.

Two Vermilion Rinks Set Back at Wildmere

Much Ingenuity Evident in Country Curling Rink

Two rinks of Vermilion curlers motored to the rural curling rink at Wildmere Wednesday afternoon last week, and both came out on the small end of the score. Skipper Lloyd McFadden with Billie McLaughlin, Mac Simonsen and Glen Good lost out on the 12th end to Skip Billie Smith, John Bathe, Bob Martin and Frank Gibson in the first game.

Russell Carroll skipped the second game and had Reg Spencer throwing third rocks, Carman Long and Gordon Ross. The opposing rink was composed of Skip Adam Smith, Bob Martin, Cliff Cruthers and Otto Wisner.

The local curlers report an excellent sheet of ice, the rink is electrically lighted and quite comfortable. Considerable ingenuity has been displayed in bringing the rink to its present fine condition. When the Wildmere boys first started curling wooden rocks were used but two years ago the regular granites were obtained.

The Vermilion curlers were royally treated. The road wasn't open all the way to the rink and cars were left at Jimmie Wallington's who kept them warmed up while the curling was in progress.

Some people go around looking exclusive and feeling excluded.

Stagette Notes

On Feb. 25th the Stagettes held their regular meeting in the club room. After reading of the minutes the sleigh-riding party was discussed, and that, by the way, takes place next week girls. Come in your outdoor sports togs, all aboard—you're going for a ride. 8.30 sharp!

Honorary member, Maryffh Weiss (now Mrs. A. Gun), dropped in to see us. We also had Muriel Smith back with us, surely you won't have the mumps again.

Girls, last week was educational meet and for the special benefit of our Sister Stagettes and Honorary members who were absent we wish to publish a poem which Mr. H. C. Miller read before we adjourned. It is called "The Ways"—

"To every man there openeth
A Way, and Ways, and a Way
And the High Soul climbs the High
Way,
And the Low Soul gropes the Low,
And in between, on the misty flats,
The rest drift to and fro.
But to every man there openeth
A high Way and a Low
And every man decideth
The Way his soul shall go."

New Achievement at Annual Bonspiel

NINE SHEETS OF ICE USED — 53 RINKS COMPETE — COMPLETED IN FOUR DAYS

New achievements were reached in Vermilion curling circles last week when the annual bonspiel attracted a record number of 53 entries. Five extra sheets of ice were flooded in the arena, and the five competitions were completely wound up in four full days of very enjoyable curling on the nine sheets. Great care was taken with the flooding at the arena and perfect curling ice resulted.

The Standard does not know just exactly who was responsible for the mammoth amount of work done in preparing the arena rink for curling in the short time available, but all those who helped are deserving of the highest commendation and the sincere thanks of the curling fraternity as well. The extra sheets of very good ice lifted the Vermilion bonspiel right to the top ranks and it is hoped that the arena will again be available at bonspiel time next year.

THE WINNERS

Percy Moffatt repeated his Grand Challenge win of last year with practically the same rink. Darrell Currah 3rd, Mark Norton 2nd, Vic Tillett lead. It will be remembered that the Moffatt rink went through the spiel a year ago without suffering a single loss thus taking both the primaries. This year he ran up nine wins with one loss, the latter suffered at the hands of Ivan Inman of Islay, in the eights of the Vermilion hotel.

Winner of the other primary event, the Vermilion hotel, was Skip Gordon Park, Carman Long 3rd, George Grafton 2nd, Jack Hessam lead. This rink also won the grand aggregate winning ten games and losing one. They lost their lone game at the hands of the Elmore Stewart rink in the 8's of the Challenge event.

GRAND CHALLENGE

1, H. P. Moffatt, Darrell Currah, Mark Norton, Vic Tillett, Vermilion.

2, O. W. Danbrook, D. Evans, C. Gevier, Gordon Inglis, Kitscoty.

3, E. M. Stewart, Ashley Cooper, Jim Parr, Don Wilson, Vermilion.

4, W. Sargeant, R. Bedard, Bob Bennett, C. Ewing, Mannville.

VERMILION HOTEL

1, Gordon Park, Carman Long, Geo. Grafton, Vic Tillett, Vermilion.

2, H. A. Koch, S. Glaum, Geo. Reynolds, A. Rattray, Wainwright.

3, Ivan Inman, Bill Shaw, Jack Bristow, Keith Inman, Islay.

4, Neil McKinnon, Hec. Whitson, R. Whitson, Roy Hay, Mannville.

(53 rinks competed in the two above primary events.)

TELFORD MEMORIAL (Secondary to the Grand Challenge)

1, Archie Little, Archie Jeffries, Charlie Brinton, H. Eckmeyer, Vegreville.

2, L. Manz, Eric Thorne, Fred Proudfoot, Ross Leitch, Mannville.

3, A. Gerhart, Bert Williams, Wally Antrim, Lee Kreller, Mannville.

4, Reg Spencer, Jack Beresford, Don Logan, Alex Manyluk, Vermilion.

(26 rinks eligible in above.)

PILKIE TROPHY (Secondary to Vermilion Hotel)

1, Ted Langridge, D. Campbell, A. Cantrill, N. Warren, Vegreville.

2, Harold Whitson, R. Jones, Jim Bennett, C. Rose, Mannville.

3, A.C.T. Edmonton.

4, Max Hanasyk, J. H. Polinka, H. Lewin, J. Woywitka, Derwent.

(26 rinks eligible in above.)

BRUNSWICK HOTEL (Consolation, 24 rinks competed)

1, Fred Braithwaite, Neil Jones, Al Redman, Don Braithwaite, Dewberry.

2, Jim Adam, Reg Mitchell, Jack Reid, Bill Fooks, Vermilion.

3, Curtis Martin, Newt Coover, Lloyd Harris, Keith Pulleyblank, Vermilion.

4, Ed Corley, Loyal Amos, Ken Corson, Fred Firth, Vermilion.

The finals of the bonspiel were all played Thursday afternoon and evening before large galleries, indeed the games attracted a very large number of spectators throughout the entire bonspiel.

It is noteworthy that no rink won more than one prize and that the prizes were very well divided among the towns represented at the spiel. Of the 20 sets of prizes 5 went to Mannville, 2 to Vegreville, 1 to Edmonton, 1 to Islay, 1 to Wainwright, 1 to Derwent, 7 stayed home, 1 to Kitscoty and 1 to Dewberry.

The banquet held on Tuesday evening was attended by 210 curlers. A sumptuous meal was served by the Anglican W.A. and a very good time was enjoyed.

By virtue of completely renovating their rink this year and the providing of nine sheets of ice to lift the bonspiel out of the ordinary run of bonspiels, the curling club has completed a year of accomplishments and the president, secretary, building and the various bonspiel committees are to be congratulated on their attainments.

MIDGETS WIN 5-2 AT ARENA

Vermilion Midgets trimmed the Lloydminster Midgets 5 goals to 2 at the local arena Wednesday evening.

St. Patrick's Dance Monday March 17th

The Britannia Rebekah lodge have planned a real St. Patrick's night dance for the evening of Monday March 17th. A program in keeping with the day is being planned and a novel and interesting evening is in prospect for all attending. Dancing is from 9 to 2 a.m. and admission is 50c each. The Oriole orchestra will be in attendance. 43-1

College to Present Plays; Public Invited

On Friday March 7th at 8:15 p.m. students of the agricultural college will present three one-act plays. Offered first will be "The Maestro", a comedy directed by Miss Margaret Lang. The action takes place in the Fairhaven Academy of Music. Jake Meredith, director of the academy, has his mind on music and his heart in a refrigerator — the Northland Queen. In the cast are Ken MacDonald, Gudrun Eldavik, Walter McNary, Betty Young, Wilmer McElhinney and Betty McMillan. The second play "Still Stands the House", is a drama of life in the hard years on an Alberta farm. Directed by Mr. Cameron Hay the cast includes Richard Anderson, Christina Golightly, Edith Sayer and Earl Francis. "Mummies Rummies and Dummies" is a fantastic farce in which Joe Masson, Bob Langdale, Eldon Holt, Albert Ryben, Elder Danielson, Fred Bennett, Ruby McCluskey, Hans Mavar, John Newman and Noel Garnett portray characters as widely different as Julius Caesar and the Princess Pavlorah. Directed by Mr. N. N. Bentley this fanciful afterpiece will conclude the evening's performance. To those living in Vermilion and district who enjoy amateur plays, a cordial invitation is extended.

Dominion Agriculturist To Address Board of Trade, March 12

W. M. Bowner, senior soils specialist in Alberta for the Dominion Government, will address the board of trade on Wednesday next, March 12. His subject will be "Cropping for Profit and Permanency".

The program consists of luncheon at 12:10 noon, followed by the address. All those wishing to attend are required to obtain tickets at 60c each from E. H. Buckingham or F. J. Richardson.

Amateur Program For Vermilion

An Amateur Program will be held during Easter week in the Masonic hall under the auspices of the Altar Society Group No. 2. Date will be announced later. All entries must be handed in to K. Martin on or before March 22nd. Cash prizes for classes of 14 years and under and 15 years and over. Be sure and get your entry in early. Everybody welcome. 47x

Vermilion Midgets Win Tournament At Lloydminster

WIN THREE GAMES

On Saturday March 1st the Vermilion Midget hockey team, sponsored by the Canadian Legion, journeyed to Lloydminster and competed in the annual Midget hockey tournament staged there coming home with first honors.

The Vermilion boys won three games, defeating Lloydminster, Maidstone and Marwayne in turn, quite an achievement. The players taking part were Laboucane, Stephens Macnab, Chessick, Link, H. Swanson, Wilkinson, Fisk, Dwyer, D. Swanson, Ford, J. Swanson, Toner, Williams.

The Vermilion boys took an early lead in each game their goals being the result of smooth passing plays which featured the games throughout. Results by games were:

Vermilion	5	Lloydminster	1
Vermilion	5	Maidstone	1
Vermilion	6	Marwayne	2

After the final game, the Lloydminster Board of Trade cup was presented to the Vermilion team and was received by Andy Laboucane on behalf of his team mates.

The Midget hockey tournament at Lloydminster is an annual affair and is sponsored by the Lloydminster Board of Trade. A midget hockey player is one who has not reached his 16th birthday on or before Nov. 1st, 1946.

Jean Corley Farewelled By Friends

To Take Nurses Training Course

Miss Jean Corley was feted at a farewell party at her home by a number of friends prior to her departure for the Royal Alexandra hospital, Edmonton, where she will commence nurse-in-training duties. Miss Audrey Walden presented Jean with a gift on behalf of those present.

Attending the gathering were the Misses Mary Chessick, Margaret Amos, Josephine McLaughlin, Phyllis Lipsey and Georgie Macnab. Miss Dorothy McDuffy and Miss Bobbie Richardson were unable to attend.

Red Cross Drive Opened Monday

VERMILION & DISTRICT CANVASS NOW UNDER WAY

Meet Challenge of Home Problems,

Monday saw the opening of an appeal across Canada for $5,000,000 for the Canadian Red Cross Society peacetime work in the Dominion. Arthur L. Bishop, Chairman of the Society's National Executive Committee stated:

"The people of Canada did a magnificent job in supporting the wartime work of the Red Cross and we confidently expect them to rally to the cause of our peacetime program.

This is a vital campaign, as it will set the scale of Red Cross work for years to come. We all realize that peace is more important than war and the peacetime work of the Canadian Red Cross will be of more lasting value to the people than were our war activities.

Before the war the Canadian Red Cross was engaged on a program of developing home services. When hostilities came, the Society put its major effort into war work. Its peacetime activities were continued but the expansion plans were deferred.

The time has now arrived to [illegible] the great organization and the ripened experience of the Canadian Red Cross into peacetime humanitarian undertakings at home here in Canada.

As in war so in peace the Red Cross must carry on. By our [illegible] in peacetime we will be able to make a great contribution to a better Canada.

[illegible] I am fully confident [illegible] time problem [illegible] with service [illegible] therefore [illegible] their hearts [illegible] savings to the [illegible] the funds to carry [illegible]

Air Cadet Programme Provides Many Opportunities

EXPERIENCED VERMILION MEN VOLUNTEER AS INSTRUCTORS

In the next issue the Standard intends to carry a story dealing quite fully with the program of the Royal Canadian Air Cadets as provided in Vermilion. The various courses given will be notated, together with news of the summer camp, flying scholarships and other awards available to each and every Cadet. A new year's work will be started immediately, and prospective cadets wishing to avail themselves of the many opportunities, should hand their applications in to Mr. F. H. Walker or Mr. Jack Ridington at once.

Between now and June 12 the Vermilion Squadron plan to cover the first year allottment of the following subjects: First Aid; Armament; Leadership and Morale; Photography; Aero Engines; Meteorology; Navigation; Drill; Physical Training; Signals. The following Vermilion men have volunteered their services as instructors: Constable F. Steininger and Constable L. Clevette; Mr. Stan Calvert; Rev. B. S. Reikie; Mr. Wally Guy; Dr. Allen Larose; Mr. L. H. Puckett and members of his staff; Mr. Charles Heckbert. Enriched as these men are with past experience they will prove a valuable addition to the Vermilion Air Cadet unit. Much equipment is already here and additional equipment soon on the way includes either a Harvard or a Cornell aircraft complete.

Watch for complete Air Cadet story in next week's Standard. In the meantime boys not yet in the Cadet Squadron should see Mr. Walker or Mr. Ridington.

Vegreville Wins League Championship

Vegreville Rangers defeated Vermilion Tigers 6-2 at the western town Monday night and by so doing won the league championship and [illegible] cup in three straight games. Vermilion were the champions last year when they defeated Vegreville in the final series.

The game Monday night was a good one the score being 1 all at the end of the first, 2 all at the end of the second, the Rangers pulling away in the final period. Goal getters for the Tigers were Doug Brimacombe from Reiger and Williams, Stan Walden, [illegible] assisted, Les Williams from Waldenberger. The Vegreville sharpshooters were Charuk 3, Henderson, Klein 2, Ponich.

A. M. West was in attendance and presented the cup to the Vegreville team at the same time extending well merited congratulations.

Lineups

VERMILION — Martin, Waldenberger, Manyluk, Macnab, Wiebe, Williams, Reiger, Brimacombe, Grafton, Spencer, Donald.

Annual Meeting of Athletic Association

FRIDAY MARCH 14th

The annual meeting of the Vermilion Amateur Athletic association will be held in the armories at 8 p.m. on Friday March 14th. Everyone interested in athletics is invited to attend.

Business will include the election of officers for the ensuing year, hearing of various reports re sports day, park etc. and consideration of the financial statement.

War Memorial Meeting on Thursday, March 20

The committee for the Vermilion War Memorial has called another public meeting to be held in the Elks hall on Thursday March 20th.

All clubs and organizations interested are asked to send their official representatives to express their ideas for them. As it has been impossible to contact these organizations individually it is hoped they will accept this as proper notice.

As stated previously some ideas have been put forth, viz., swimming pool, rest room and library, and scholarships and we would like any other thoughts on the subect to be brought up at this next meeting.

Once again we invite as many farm people as possible to attend the meeting if the roads are passable. It is impossible to delay the formation of a working organization any longer to raise the necessary funds.

War Memorial Committee.

Golfers, Attention

The first annual meeting of the Vermilion Golf Club Ltd., will be held in the armories Wednesday March 12 at 8.15 p.m. All shareholders take note and be present. All those interested in golf are urged to attend.

This is an important meeting for the future of golf in Vermilion and the attendance and support of an active meeting is needed to lay the plans for the 1947 playing season.

STAGETTE NOTES

The Stagettes gathered Tuesday night, this time not for the regular meeting in the club room but at a sleigh-riding party. From all reports a good time was enjoyed even though the temperature must have been well below zero. But then a star-studded canopy, and moon, even though it was probably frozen, made amends for the temperature.

We understand a social call was paid to a silent city then went out so far it almost took the pleasure out of coming back. "And were we glad to get back!" A royal welcome awaited the girls at Beth's (Mrs. F. Walsh's) with hot coffee, hot dogs and mustard, and was it good! And were they appreciated.

We are sorry to have to report one casualty. The last time we saw her she had a 25c piece on her chin—No not her head—her chin. Be thankful to your nurse, sister, she knows best and will fix it up for you on Tuesday. See you all next week.

[illegible]

Many Mirages Seen In Woodvale District

All the news we could gather this week comes from outside of Woodvale! During the clear cold days of the past week mirages have been seen on several occasions. The Watson school children saw elevators and some other buildings clearly etched in the air to the south-west and presumed it was Wainwright. It gave them quite a thrill when they recognized a second mirage as the house on the farm of Mr. Dick Portsmith, several miles south of the school. Mr. and Mrs. G. Walters saw the hills north of their place clearly outlined in the sky. It seems one can see these mirages in any direction, as long as you look at the right moment! Somehow we never happened to do that ourselves yet.

The Tolland U.F.A. will hold a meeting on Saturday afternoon at the Canton school to discuss the buying of seed barley needed in the community.

Mrs. Cecil King spent a few days with her daughter Joy in Edmonton, taking in the ice carnival there.

"GREEN ACRES"

POLISH VETERANS

All of the Polish veterans placed in this district last fall are doing well. Another boat load is coming over from Italy shortly. Anyone needing farm help can apply for one of these men through your D.A. Contracts are for one year or more and the minimum monthly wage is $45.

$1000 RECIPE CONTEST

The Provincial Government travel bureau is offering $1000 and medals for winners in a recipe contest. Application forms are available at your D.A. office. Some of the good cooks in this district ought to make some money out of this competition.

LOCAL HATCHERY PLANT

On Friday your D.A. visited the Lyon's Egg Hatchery on the east side of town. Mr Lyons has a modern incubator of 6000 egg capacity, but he is having the utmost difficulty in buying R.O.P. or R.O.P. sired hatching eggs. The home flock of about 300 R.O.P. White Leghorns is not big enough to keep the big incubator going.

COMMERCIAL vs. FARM

There is no doubt that it pays to give the young baby chicks every chance of life and health. The old methods of feeding chicks result in too much loss. Laying mash, brooder mashes which starters and developing mashes each have the proper requirements in protein, mineral and vitamins. The concentrate can be bought and mixed with your own chopped grain.

ALFALFA HAY AND PASTURE

No one raising stock can afford to be without alfalfa hay. Besides being rich in protein, minerals and vitamins there seems to be something in it that acts as a tonic and keeps the [illegible]

Out of twelve boys at the Calf club meetings at Mannville last week ten of them said they grew alfalfa at home. This means that people in this district are getting alfalfa conscious. Seed orders are taken at your D.A. Office.

2-4-D WEED KILLER

This amazing weed killer was only discovered in 1943. There is still a lot to be learned about its use and effect on weeds and weedy crops. Experience indicates that it is very effective in killing weeds including dandelions in lawns without harming the grass. This means that it is selective in action as it kills broad leafed plants without doing much harm to the grass family. Hence, it has no effect on wild oats and it is still doubtful if it is of much use on Canada and Sow Thistle.

E. H. Buckingham, D.A.

Vermilion, Alberta, March 6, 1947.

THE NEED IS GREAT —

On March 3rd, the Canadian Red Cross Society began its first major National Appeal for funds since the end of the war with an objective of $5,000,000 for 1947. This represents the minimum amount required to finance a peacetime program in Canada true to the objects of the Red Cross charter — "in time of peace or war to carry on and assist in work for the improvement of health, the prevention of disease, and the mitigation of suffering."

LOCAL NEWS

Old timers heard from this week include Mr. and Mrs. Bob Bechatt and son Larry of Chilliwack, B.C. They claim that there will soon be more old timers of Vermilion around Chilliwack than in Vermilion as among those recently seen were Vern Minard and wife, Clarence Minard, wife and family, Mr. and Mrs. W. E. McCrae, Mr. and Mrs. Jim Currey, [illegible], Curtis Wilson and family, Mrs. Larsen and family. Mr. and Mrs. Peter Miller have left there for awhile but will soon be back, while Norman Tucker is in the neighborhood but had not been round to call on the Bechatt family at time of writing. They end their interesting letter with regards to all old friends in Vermilion. Mr. and Mrs. Bechatt's address is simply Chilliwack, B.C.

Mrs. Neil Koren of Rosyvia was recently bereaved by the accidental death of her father Mr. John F. Meyers night watchman at the Brule Lumber Co. near Jasper. Mr. Meyers was working under a platform piled with lumber when it collapsed and he was crushed and killed instantly.

David Grew who once taught school in the Vermilion district, has written a book entitled "The Wild Dog of Edmonton" which [illegible] published by Reynal and Hitchcock, Publishers of New York. It is a book for children with the high level bridge in Edmonton providing much of the background for the exciting tale about the friendship of a boy and a dog.

Bender Tablets are effective. 3 weeks' supply $1; 12 weeks $5, at Leake's [illegible] store. 6

FOR SALE—GAS STOVE, KITCHEN Set, chest of drawers, bed, spring, mattress. Apply J. C. NUGENT, Vermilion. 42

MORRISON NEWS

The days are getting longer and the snow is getting deeper, roads are very heavy and everyone is waiting for spring to come.

Many are taking advantage of the nice warm sunshine to move around and visit the neighbors. Mrs. Sawyer, Lila and Kenny, Mr. and Mrs. Lawrence Gould, Mr. and Mrs. Bert Gould all drove over to see Mr. and Mrs. Bothwell on Wednesday and a very happy afternoon was spent. Mrs. E. McFadyen and Mrs. Harley were visitors at the same home.

The A.P.C. dance was held Friday night, the crowd was small but a really good time was enjoyed. Albert Duprait enjoyed himself immensely as he had a new toy that kept the girls jumping, some screaming, yes and some were really frightened — bring it along to the next dance Albert, keep the crowd going.

The writer and husband enjoyed supper with the McFadyen family on Sunday. Mr. and Mrs. Keith Inman were down over the week end. Betty Gillies was home from Kitscoty to attend the dance. Lawrence, Chrissie and Fred Gould were supper guests at the home of Mr. and Mrs. Jim Gould on Wednesday.

The writer enjoyed a nice letter received from Mrs. Fraser. It is pleasing to hear that Mrs. Evans will soon be home from the hospital.

The ladies meeting will be held at the home of Mrs. Broughan on Wednesday and it is hoped every member will attend.

Mr Millar has purchased a new station wagon to convey the Morrison children to the Islay school. Hope he picks up the ladies some day and takes us all for a nice ride.

OUR COMPLETE SHORT STORY—

Please Don't Tell My Daddy

By MATTHEW F. CHRISTOPHER

THE only way to do anything is to go ahead and do it, my daddy used to say. And my daddy is a wonderful guy, Miss Evans. He's the best daddy in the world, and I know. That's the reason I'm writing this letter to you—because of my daddy. I'm writing to you because I don't want to hurt him. And I know you can help me, if you want to.

You will, won't you, Miss Evans?

I'm ashamed to admit a nasty thing, but I know I've been a trouble maker in school. Daddy doesn't know it, though. At least, he never let on he does. I could kick myself a million times, but it won't do any good now. It would be like crying over spilled milk.

You've given me a good scolding many a time, but I remember the last one mostly, because it was only yesterday, just before arithmetic class.

I had forgotten to do my arithmetic lesson. I was glancing through the problems and seen that if I started on them now I wouldn't get three problems solved before class would begin. So I slipped a note to Mary Jane behind me, asking her if she'd let me take her copy. Mary Jane is the smartest girl in the class, and we're pretty good friends, so she let me take it.

All the time, we made sure you weren't looking. You were sitting at your desk, and I guess you were pretty much absorbed in correcting some papers, because you didn't bother to look up.

I started copying her work, and believe me, Miss Evans, I really felt guilty doing it. I felt like a traitor. I was sure I could have done the problems myself if I had the time, because arithmetic is one of my easiest subjects.

But I copied the assignment anyway, and when I started to slip the papers back to Mary Jane, that's when you looked up. Your eyes met mine first thing, then moved to the papers in my hand.

I didn't know what to do with myself, then, I was so scared. 'Shamed, too, I suppose. I didn't know whether to drop the papers on Mary Jane's desk, or whether to put them back on mine. I guess you know how I felt.

Well, you know what I did, because you told me to do it.

"Dickie," you said, "please bring those papers here to me." I hesitated a second. I felt everybody's eyes on me and I must've gotten awful red, because that's how my face felt. I got up slowly and walked up and handed the papers to you.

You looked at the first page and you said, "So you're copying Mary Jane's arithmetic assignment. Is that the kind of work you make a habit of doing, Dickie?"

"Oh, no, sir," I said. I know I should have said "No, ma'am," but I didn't think of it then. "I've never copied anybody's work before," I said. And that's the truth. I explained everything to you and I thought you were going to get very mad at me. But you didn't. I said please not to punish Mary Jane because it was all my fault, and you said:

"All right. But you must learn never to copy someone else's work, Dickie. I'm sorry, but you are going to stay in school tonight, and do your arithmetic lesson."

You knew what that meant as well as I did. It meant that I would miss my bus—and we live three miles from school. That's a long walk when it's winter and snowing.

I admit I got sore, but I went back to my desk as if it was nothing. When the bell rang for the end of the school day everybody left, but you and me. I started working on my lesson, and I never looked up at you once. I was mad clean through.

I was hardly through with my second problem when you said "Dickie?"

I looked up. "Dickie," you said, and you were smiling a little, "get your work together and take it home with you. You're leaving."

My heart started to pound in my chest. "You mean it?" I asked.

"I mean it," you said, and you were still smiling. "You better hurry, if you want to catch the bus."

Well, I hurried, and I caught the bus despite the deep snow. I never said anything to the kids, but all the way home I thought of how swell you were, and 'shamed I should be to do things that make you sore.

I never told daddy about that, either. I almost told him a couple of times while he was helping me on my model plane after supper, but I didn't. Finally, he said:

"It's your bed-time, son. You want to get up fresh and ready for school, don't you?" And I said "Sure, daddy," and went to my room.

I guess I was half asleep when I heard voices downstairs. It got me wide awake. I crawled quietly out of bed and put my ear close to the floor to listen. And that was when I heard you saying to daddy:

"I'm sure that Dickie and I can get along swell together, Dick. I have a feeling that he likes me, and I like him. I like him very much. Matter of fact, probably as much as I love his father."

You laughed then and daddy said "I thought I'd better not tell him about us right away, but I suppose now it'll be all right. I'm sure you'll be a wonderful mother to him, Ann, and he a good son to you. He's a good boy. But who should know better than you? You're his teacher. You're with him more than I am."

You see?

Please don't tell my daddy, will you, Miss Evans?

A BIT CONFUSING

No wonder primitive peoples find it difficult to understand our civilization when they see a world cheering Sir Malcolm Campbell for breaking automobile speed records, and then fining him for driving at 35 miles per hour says the Windsor Star.

The ruby is the birthstone for July.

GIRLS! WOMEN! TRY THIS IF YOU'RE NERVOUS, CRANKY, TIRED-OUT

On 'CERTAIN DAYS' of The Month!

Do female functional monthly disturbances make you feel nervous, fidgety, cranky, so tired and "dragged out"—at such times? Then try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. This fine medicine is very effective for this purpose! For over 70 years thousands of girls and women have reported benefit. Just see if you too, don't report excellent results! Worth trying.

Lydia E. Pinkham's VEGETABLE COMPOUND

Rheumatic Pains

The twinges of rheumatic pains are quickly relieved by the use of Paradol. One tablet a dose at two hour periods, stops the pain. Continued use helps to relieve cause of pain. Paradol does not disappoint.

Handbag size 12 tablets, 25cts. Economy size 60 tablets, $1.00.

Dr. Chase's Paradol

SECRET ADMIRER OF GRETA GARBO LEAVES HER MONEY

ALLEGAN, Mich.—A British-born recluse with a secret admiration for Greta Garbo has left his entire estate valued at $20,000 to the Swedish film actress.

Author of the will was Edgar H. Donne, 70, whose death at his squalid one-room farm shack near here last October went unnoticed for several days.

Donne stipulated that his land, securities, jewelry, cash and other property be given to "Greta Lovisa Gustafson, screen actress known as Greta Garbo, to her and no other."

Hopefully, the will added that "if Greta Garbo becomes my wife then it goes to Greta Lovisa Donne."

Whether Donne, who never married, ever met Miss Garbo is not known.

Papers he left also disclosed that he once sent a letter to the actress, which was returned and stamped "refused".

His holdings include small pieces of property in upper Michigan and Canada.

Years ago Mrs. Luna does not know just when—Donne bought some new clothes and set out for Hollywood. He returned a short time later and never discussed the trip to neighbors, who said they saw him infrequently.

State Public Administrator Archie C. Fraser said the state was investigating to learn whether Donne was of sound mind, but added that "on the face of it, the will appears to be all right."

Sounds All Right On The Surface

An unnamed genius has figured that if match sticks were shortened one-quarter of an inch 390 car loads of lumber would be saved in a year.

Probably he is not in position to order the change, therefore it is not necessary to beware of him. But we must always beware of his kind, those who tell the part of the story that favors their proposition but say nothing of the difficulties that would attend its adoption, or imposition.

The match problem is merely typical, a minor pattern of the effects of regulation. That such a change would bring many burned fingers and accompanying unfortunate remarks is not important. But that it would require changes in all the machines that make the matches and in those that make the boxes in which they are packed is important. Cleveland Plain Dealer.

GARDEN NOTES

◆ ◆ ◆

Lawn Work Early

One of the very first on-the-lot jobs in the spring is lawn work, especially the patching and general cleaning up of established lawns. One can start this job almost as soon as the last snow is gone. Grass seed make its best growth in cool weather. For patching and new lawns [illegible] perts advise getting a good grade of lawn grass, which will be a mixture of various sorts of grasses designed to make growth quickly and stay green year after year. For patching the bare spots should be thoroughly stirred with a rake, then [illegible] rather heavily. Covering with [illegible] or wire will protect from the [illegible]

Fairly early in the spring is the best time to apply [illegible] fertilizer which should be spread according to directions and preferably before a rain, which will wash [illegible] and prevent burning. Too often the average lawn is regarded as some permanent fixture which should take care of itself. As a result it soon shows wear and tear [illegible] may produce more [illegible] and their weeds [illegible] Good lawns are fed regularly with fertilizer, are rolled each spring when the ground is wet.

Improving The Soil

Ideal garden [illegible] on the light [illegible] mixture of [illegible] and rotted vegetable material. That [illegible] rather [illegible] under natural [illegible] soil can be gradually changed into something [illegible] general [illegible] manure or [illegible] rotted [illegible] Cultivation [illegible] after a year or two. A table tops [illegible] should be dug [illegible] load or two of [illegible]

Commercial fertilizer should be used carefully according to directions. During the war some [illegible] [illegible]

Vegetable Plans

[illegible] be simple [illegible] things [illegible] apart [illegible] by hand [illegible] little larger and grow more slowly. Minimum space [illegible] 15 inches and taller [illegible] larger beans. Peas can be planted in double rows about a foot [illegible] twice that much space [illegible] double row. Tomatoes require [illegible] 18 inches when staked and about four feet if not staked [illegible] at least 30 inches apart [illegible] potatoes. Melons, cucumbers and small table squash do best in hills about 30 inches square and eventually about 3 to 12 plants to a hill. Space between hills should be at least 18 inches to allow for spreading and cultivation.

"ICEBERG THAWS OUT" — Wet and nearly frozen, "Iceberg" was towed recently from the breakwater along the lakefront at Toronto. [illegible] Inspector Robert Johnson suggests the dog was trying to prove his traces of husky blood by getting out on such a cold perch. The dog was turned over to the Toronto Humane society to thaw out.

Health LEAGUE of CANADA presents TOPICS of VITAL INTEREST

MORE ABOUT COLDS!

Since the vast majority of people "catch" at least one cold every year the interest in the subject never dies. Health News has been delving into the subject again and after perusing information supplied by Cleveland's Division of Health, Toronto's Department of Public Health, and the Metropolitan Life Insurance Company we give you the following conclusions.

The common cold is an inflammation of the mucous membrane which lines the nose and throat. The primary cause is a living disease agent called a virus which is too small to be seen under a microscope. Then after 24-28 hours, a secondary invader becomes apparent. This invader is made up of a variety of bacteria.

Chilling, wet feet, drafts, damp clothing, exposure to bad weather and violations of sound diet [illegible] other hygienic rules [illegible] lower the body's resistance [illegible] [illegible]

Colds are [illegible] [illegible]

Colds Are Catching

[illegible]

Take Precautions

Here are a few precautions you can take [illegible]

4. Wash hands often, especially before eating. When caring for patients who have colds sterilize their [illegible]

If You Catch A Cold

[illegible]

2. Rest in bed [illegible] with plenty of liquids [illegible] throat discharges.

5. Do not return to work too soon.

6. Consult a physician immediately [illegible]

An added [illegible] ing a cold [illegible] of a child is that measles, whooping cough, scarlet fever and diphtheria often start off as apparently simple colds. 27161

"SALADA" TEA

WANTED— A Depression

The following clipping appeared in a recent issue of the Milwaukee Journal, Milwaukee, Wis.

In the column devoted to letters from readers one of them takes his pen in hand and writes:

I am longing for another depression so we can get caught up on the things we need again. When our former depression was at its worst we had meat on the table every day, flour was 85c for a 100-pound sack. We had so much pork that we ate until we started to get fat and then buried the surplus in the ground. A woman could buy a dress that would cover her knees for 95c and a young fellow could dress up like Van Johnson for about $13.50. If we didn't like the house we were living in, we rented another at $10 or $15 a month.

"The Relief was handing out oranges and grapefruit and clothing and what have you. The garbage men thought they had the best job in town [illegible] the mixers would [illegible] if John L. Lewis told them [illegible]

Yes, we have bigger pay checks than ever before. We have more money in the bank than ever before. We pay more taxes than ever before and get less. We get paid more for doing less. We spend more and get less. We know more and use the knowledge less.

"During the depression there wasn't work enough for everybody but those who did work produced enough for everybody. Now everybody has a job but we can't buy what we need because it isn't produced.

That's why I'm longing for another depression so that we can get caught up on the things we need.

SUITABLE MEAL

The jury had been locked up for hours. One of the jurors had refused to agree to the view of the others. At last the officer of the court was instructed to provide refreshment.

"Shall I order 12 dinners?" he said.

Incident to the progress of change.

Make it 11 dinners and a bale of hay," rejoined the weary foreman to the foreman.

SACRED BOOKS

Books are considered sacred by certain tribes of central Tibet. These people regard books as the source of all knowledge and go so far as to worship them.

COLLEEN SEEKS MOVIE CAREER — On her way to Hollywood for a screen test, Maria Kennedy, 22, of Shannon, Irish Dawn Beauty of 1946, a title won by Maureen O'Hara in 1937, takes a telephone call on arrival at New York. A native of County Clare, she was a typist before winning the beauty contest.

Rearing the average child in the average family until it is 18 costs its parents approximately $7,200.

A Message to
CITY AND TOWN EXECUTIVES

Larger cities and towns are discovering that parking is developing into a serious problem. In many places, parking on main streets and highways obstructs traffic, discourages shopping, and increases the hazard to both motorists and pedestrians.

Our study of this problem indicates that the solution lies in providing OFF-STREET PARKING accommodation — convenient for citizens and attractive to visitors.

We respectfully suggest that municipal councils and other public bodies give consideration to solving this problem in the interests of their communities. The A.M.A. will be glad to furnish all information it has available on this subject.

Comments on
EVERYBODY'S BUSINESS

"Isn't it good to see how well young Henry is getting along," I said to his uncle. "Yes, it is a great satisfaction. He served as his father did and now, since he came back, he has taken hold and I believe he is making more progress than any young fellow in town. He is a lot like his father was, full of ambition, with a knack of sizing things up and profiting from the experience of others.

"I've been glad, too, to see that in him. He has half a dozen of the best men in town interested in him. He gets their good advice. He was wise when he consulted a trained man and took out the life insurance he needs. It's the foundation of his future.

The officials of life insurance companies are like the men who advise Henry. They are leaders who know how to invest wisely in progress."

Life insurance is a business built for [illegible]

Thirty-two Years Ago Today

Interesting News Gleaned from the Files of the Vermilion Standard
32 YEARS AGO TODAY — 1915

March 5, 1915

A section of land west of town owned by Mr. Pomfrey of Simcoe, Ont., will likely be settled on by his two sons this spring as arrangements are being made for a considerable amount of breaking.

The active steps taken to have an elevator erected here for handling of the season's crop by the Alberta Farmers' Co-operative Co. is meeting with great success.

A U.F.A. local was organized at Eltham with R. Bradshaw, president; M. Haversley, vice-president; N. McHardy sec.-treas., and Mr. Meaders and Mr. McAfee directors.

Sixteen Years Ago Today

March 5, 1931

Six inches of snow fell Tuesday and Wednesday and proved a welcome relief after the heavy dust storms of the past few days. Lack of snow this winter and the high winds has noticeably dried up the soil. The town snow plow was used for the first time this winter.

Mrs. James W. Hay was elected as Provincial Grand Treasurer at the L.O.B.A. convention at Calgary, for the third successive year.

The Vermilion Juveniles held the Edmonton Canadians, for two successive years Alberta Juvenile champions, to a close 1-0 victory at the Vermilion arena. Jack Mackenzie was coach of the local juveniles and on the line-up were Henry Powell, Gilbert Brimacombe, Stan Waldenberger, Jack English, Ken Carson, Jim White, Fred Brimacombe, [illegible] Munce and Adrian Fallow.

Bowtell Bulletin

The Busy Bee meeting was held at the home of Mrs. Morrison and was attended by 12 members. Mrs. N. McClellan was made an honorary member. A load of dry wood is to be purchased and this will be used at the school on dance nights. Mrs. Morrison won the draw.

Mr. Millar is certainly driving a [illegible].

Mrs. E. Riedale and Dianne were visitors at the home of Mrs. D. Riedale, Borradaile, Monday.

Mrs. Perkins and family were Wednesday afternoon visitors at the Repp home.

Robert Repp expects to leave soon for Calgary where he will spend a two weeks' holiday. On the return journey he will drive a car back for Mr. Gow.

WORK TO LIVE

Pointing to the almost unanimous confession of those who have retired as proof that a life without anything to do is not a happy one, the health authorities urge Canadians to keep busy, to keep alive. It's all tied up with the need for an aim in life — even if that aim is simply the payment of a few bills, or achievement of a cherished ambition. The doctors urge the younger people to think of that aspect of the working day when they dream about the time when they will be able to give up the grind and settle back in idleness. It isn't fun, they say, to have nothing to do.

The sick and wounded in Military or D.V.A. hospitals are visited regularly by the Red Cross and comforts provided. Christmas concerts are organized and gifts distributed. This service must continue as long as there are patients in such hospitals.

BIG-CAR QUALITY AT LOW COST

now made even bigger-looking, even better-looking even more beautiful and desirable in every way

Chevrolet dealers are displaying the newest creation of Canada's largest producer of automobiles — the new Chevrolet for 1947 — offering you an even greater measure of BIG-CAR QUALITY AT LOW COST!

See it and you will agree that it's the *biggest-looking*, and *best-looking* Chevrolet ever built. It's more *beautiful* in every way, both inside and out. It's designed to *out-style, out-value and out-drive* all other cars in its price range. And above all, it reveals that sterling Big-Car quality — in every phase and feature, in every part and pound of material — which buyers agree is exclusive to Chevrolet in its price range.

Training For 40,000 Men Of Reserve Forces

OTTAWA. — Defence Minister Claxton announced that the training program for reserve forces of the three Canadian services would involve 40,000 men this year.

The new, single Royal Canadian Naval Reserve, with a strength of 1,900 officers and men, would recruit and train 4,200, including university training divisions. The reserve army would train its current strength of 30,000 and add training for 5,000 tradesmen. The air force auxiliary would organize 10 of an authorized 15 squadrons with a proposed strength of 2,000.

The minister said the amount provided for reserve force training in the forthcoming estimates would exceed the 1939 total by more than [illegible].

Training would be adequate to meet the needs of the majority of units. The program, further "will be flexible enough so that as far as possible training will be in line with the capacity of different units to make full use of that training."

Full-time administrative and technical officers from the active forces would be attached to reserve units. Complete sets of clothing, including boots, and the most modern equipment available would be provided.

SUGAR RATION IS NOT CHANGED YET

OTTAWA.—The prices board is keeping alert to the possibility of making more sugar available to rationed consumers when and if extra supplies become available, a spokesman said.

However, no immediate increase in the ration is planned on the basis of a Washington announcement that Canada will receive approximately 86 or 87 pounds of sugar per capita in 1947 compared with 73 pounds last year, by allocation under the international emergency food council.

"We will have to wait until we get it," the official said. The 1947 crop still was being produced and there was no guarantee that estimated supplies would match the actual output.

This Horse Did Not Show Horse-Sense

EVESHAM, England. — A [illegible] pally-owned horse with an appetite for picnic lunches and a strong dislike for picnickers finally ran afoul of the law for kicking a fisherman while reaching for a sandwich.

Richard Delaney, the fisherman, collected $149.20 damages from the mayor and town of Evesham, Worcestershire, after testifying that his scalp was split open when he tried to rescue his lunch basket from the nag.

Several witnesses testified to the horse's bad record where sandwiches were concerned. J. Stephens of Evesham said he had seen the horse raid picnic parties several times and eat their sandwiches.

Once he saw the horse stick his nose into a fisherman's basket and, finding no sandwiches, push the man into the river.

In granting damages Judge T. W. Langman blamed the horse's "fierce disposition" and not the shortage of sandwiches.

WINS WORLD SKATING CHAMPIONSHIP—Canada's first queen of the ice, Barbara Ann Scott of Ottawa (above), whirled gracefully to victory in the world championship skating meet in Stockholm, Sweden. Entered against 21 of the world's best skaters, critics say Barbara Ann is as good as Sonja Henie in her prime.

QUEEN ELIZABETH CLIPS AN OSTRICH

LEROUX, South Africa.—The British royal party visited an ostrich farm where Queen Elizabeth clipped a few pounds of feathers.

"I knew she was good at clipping but I didn't know she knew about ostriches," King George quipped.

Princess Elizabeth and Princess Margaret stood in the background and laughingly watched their parents clip a 15-months-old bird held in the regular clipping rack on the farm.

Princess Margaret had telegraphed the farm that she wanted to see an ostrich chick and she and Princess Elizabeth inspected 10 of them.

Queen Elizabeth changed hats for the visit—discarding one with an ostrich plume.

TRAWLERS DEFY UNION ORDERS

VANCOUVER.—Thirty owners and crew members of other trawlers here defied orders of the A.F.L. United Fisherman's union to halt fishing until fishing companies accepted a 1947 higher price contract.

The dissident group announced a meeting would be held to organize an independent union.

William Rigby, secretary of the A.F.L. union, plans to meet a committee from the group. It was reported companies refused to accept the agreement because it contained a closed shop clause.

Plans To Ensure Farmers Of A Wheat Market

OTTAWA. — The government plans to ensure western farmers of a market for 310,000,000 bushels of wheat in each of the three crop years between now and 1950, Trade Minister MacKinnon told the commons as he concluded a lengthy debate on the administration's wheat policies.

This, he said, was behind the government's guarantee to the farmers that their deliveries during those three years would not be less than 14 bushels an authorized acre.

However, since this minimum provision had been misunderstood by [illegible], Mr. MacKinnon added, he proposed to have it deleted from the bill. This would not alter the intent of the government to ensure such marketings.

The 310,000,000-bushel annual market would take care of an annual wheat production of approximately 400,000,000 bushels of wheat up to the end of the third crop year ending July 31, 1950. This year's production was 420,000,000 bushels.

Mr. MacKinnon, speaking on second reading of a bill to continue the Canadian wheat board as the sole buying and selling agency of Canadian wheat crops up to 1950, was the second minister to speak in defence of the government's wheat [illegible] and the board's methods of operation.

Earlier Agriculture Minister Gardiner answered Progressive Conservative criticism of the Anglo-Canadian wheat agreement and said he thought western farmers generally were well satisfied with government marketing of their wheat.

He also disclosed that Denmark, Holland, Belgium, Norway and France had expressed interest in negotiating agreements similar to the contract with Britain but said that up to now none had made proposals along the lines of that treaty.

Mr. MacKinnon, [illegible] the eight selling [illegible], that the government through [illegible] had gone a long way toward bringing the producer [illegible] substantial measure of security.

He said he wished to deny that the government, through the [illegible], was seeking to give the Canadian wheat board power to handle the marketing of [illegible] grains as well as wheat.

Touching on the [illegible] participation [illegible] farmers share in the profits of wheat board operations, Mr. MacKinnon said the board planned to begin payment of certificates on the 1944 crop this summer. Payment on 1945 certificates still was being [illegible] was complicated by the fact many farmers were slow in making application.

WILL BE CONSIDERED

OTTAWA. — Trade Minister MacKinnon said in the commons he was "quite sure" consideration [illegible] be given to increasing the price of eggs to offset a recent jump in the price of wheat used to feed poultry.

NEW MILITARY CHIEF ARRIVES IN HOLY LAND—Pictured following his arrival at Kalendia Airport, Jerusalem, to take over his duties as commanding general of the Palestine forces, Lieut. General G. H. A. MacMillan (left) is greeted by Brigadier General Cochran. MacMillan succeeds Lieut. Gen. Sir Evelyn Barker as military chief of the troubled Holy Land.

Immigration Figures Show Sharp Increase

OTTAWA—Bolstered by arrival of an estimated 50,000 war brides and children, immigrants to Canada last year numbered 71,719 persons representing nearly every major race and nation in the world.

As government officials continued to consider a policy based on further relaxation of regulations the resources department released figures [illegible] ing the 1946 immigration was more than three times the 22,722 persons admitted in 1945.

With increased quotas already set for certain categories of dependents and for persons entering specific trades or professions, Canadians could look to a continuing heavy stream of new arrivals in 1947.

Largest single place of origin last year was the United Kingdom with 51,[illegible] and smallest were Moravia and Japan with one each.

Highlighting lists of immigrants from the United States [illegible] year compared with 6,319 in [illegible]—was the rapidly increasing number of Canadians returning home after living south of the border.

Nearly half Canada's immigrants gave Ontario as their destination. The provincial totals:

Nova Scotia 4,604, New Brunswick 3,465, Prince Edward Island, 566, Quebec 9,712, Ontario 29,604, Manitoba 4,615, Saskatchewan 4,711, Alberta 5,773, British Columbia 8,61[illegible], Yukon 20, Northwest Territories [illegible], not given 4.

By sexes—and here the war brides showed their numbers—there were 9,934 adult males, 40,818 adult females and 20,967 children under 18.

EMPRESS AT OPERA — Empress Fawzia of Iran, [illegible] King Farouk of Egypt, [illegible] The [illegible] of [illegible] at the [illegible] Opera House. Her [illegible] with her [illegible].

There [illegible] throughout the world.

RESIGNS—Lord Wavell, who recently resigned as viceroy of India has been succeeded by Lord Louis Mountbatten. The appointment of Lord Mountbatten was announced at the same time as the intention of Britain to quit India in June of next year.

Eire Faces Her Gravest Crisis

—More Rationing

DUBLIN. — Eire, which emerged almost unscathed from war, now is facing an unprecedented crisis.

Bread—unrationed during the war—has been cut to six ounces weekly. Butter is down to the late British ration level of two ounces weekly. Sugar has been reduced to half a pound a week.

Fuel supplies are so reduced that in Dublin thousands of citizens are without fire and gas, electricity companies are urging the most stringent economy, and industry is facing its [illegible].

Of all the trials that have come to Eire the fuel predicament is the most serious. In pre-war days both homes and industry depended on British coal. When war slashed imports to a bare minimum required to maintain essential industries the country turned to the bogs and throughout the war Eire subsisted uneconomically and uncomfortably on turf.

Last year's turf cutting season was a disappointment and the amount of turf [illegible] state-controlled [illegible] dumps was lower than previously. The Arctic weather which halted British coal distribution and led to a ban on export coal also killed the last hopes of Eire turf supplies being sufficient to meet demands until the new [illegible] season begins in the summer.

A GOOD TRY

HELENA, Mont. — [illegible]

United States Expects Drop In Food Prices

WASHINGTON — The United States agriculture department [illegible] of $1-a-pound pork chops with an assertion that housewives won't stand for it.

Skyrocketing hog prices in the United States merely reflect a seasonal decline in marketable animals, said Charles L. Harlan, department livestock price specialist.

And he told a reporter he expects consumer resistance which means housewives [illegible]

[illegible]

DATE FOR SCHOOL CLOSING DELAYED

OTTAWA. — Closing of the pre-matriculation courses for veterans in the Prince Albert, Sask., vocational training school will be delayed from March 31 to April 15, Labor Minister Mitchell said in the commons.

Mr. Mitchell was replying to questions asked earlier in the session by John Diefenbaker (P.C., Lake Centre) and Walter Tucker (Lib., Rosthern).

The minister said all of the pre-matriculation students except 14 would have finished their courses by March 31 and it would be expensive to keep the courses going for this number. However the discontinuance date would be delayed to April 15, by which time only those requiring some months of training would have to be removed to the Saskatoon school.

There was housing accommodation for the pupils who would be transferred, Mr. Mitchell said.

Russia Endorses U.S. Trusteeship Over Jap-Mandated Islands

WASHINGTON. — State Secretary Marshall said Russia has advised the United States that the Soviet government feels an American trusteeship over the Japanese mandated islands in the Pacific would be "entirely fair."

Marshall told a press conference that Soviet note said Russia took into account that the islands were won chiefly by American armed forces which bore incomparably greater sacrifices than others in the Pacific theatre.

GRAND HOTEL OPERATES BY CANDLELIGHT — The power shut-off, necessitated by Britain's fuel shortage and [illegible] a [illegible] was endured during the war. The head porter [illegible] the register [illegible] British industries through lack of power has thrown [illegible].

Derwent Hockey Tourney Postponed

WILL BE HELD MARCH 10th

The Derwent Hockey tournament which was to have been held on Feb. [illegible] was postponed until March [illegible] due to bad weather and only a few hockey club entries. Everything was in readiness and all committees had arrangements well in hand, all the hockey clubs were contacted with the exception of Willingdon, who had left before word reached them of the postponement. This club made the long trip to Derwent and obliged by playing the local club in the afternoon.

This game proved a very exciting one to those who braved the elements. Willingdon on their smooth passing plays proved too much for the Dodgers and came out on the long end of an 8-3 score. The manager of the Dodgers, Geo. McConnell refereed to the satisfaction of all concerned.

The first period proved the undoing of the locals as they faced the second period with a score of 5-1 against them. Goal scorers for Willingdon [illegible] were N. Thachuk with [illegible] and singles went to Jack and Ed Fukiwitz, for the Dodgers J. McPhee scored on a pass from Hubert and Blair Hicks.

The second period tightened up, the visitors scoring one by Shandro while the locals were held to a goose egg. In the third both teams scored twice, for Willingdon Shandro and Ed Zukiwski and for Derwent Blair Hicks from Hubert Hicks and J. McPhee, and Russell Lesick from Mike Derushko and Albert Willmer.

Willingdon has a fast, smooth skating club and can hold their own in almost any company. They have withdrawn from the Derwent Hockey tournament which is to be held Monday March 10th. It is to be hoped that all villages and hamlets will submit their entry as soon as possible.

The local bonspiel is underway at Derwent and many good games have been run off. The draws have narrowed down and the money stage is close at hand for those who have survived the different events.

Three Derwent rinks journeyed to the Vermilion bonspiel and came home quite satisfied and speaking very highly of the good sportsmanship and good time they had while at Vermilion. Skips participating were His Worship Mayor Victor Christensen, Max J Hanasyk and Geo. C. McConnell. Although George was unable to attend on account of sickness his rink was skipped by Clarence Algot. The Hanasyk rink reached the semi-finals in one competition before accepting defeat. All the boys report a fine time and they hope to return again. A large number of supporters made the trip to Vermilion to see their favorites curl also to see Billy Pase, Dominion champion 1946, in action but to their disappointment Sedgewick rink was not in attendance at the spiel. Information had it that he would be there, as he was there last year. This would have been a fine chance to have seen the celebrated curler in action and thoughts of seeing him thrilled a great many from these parts.

Do not forget the big hockey tournament in Derwent Monday, March 10th. Big dance in the evening and lots of fun for young and old. Get your entries in immediately. Help boost your club by your attendance and see some fine hockey. Good ice and a big bag full of friendship.

DIET FADS

The fad of slimming isn't as prevalent as it was a generation ago, but Canadian doctors claim too many people still think themselves qualified to decide what they should not eat. Such people are actually endangering their health, by dieting, say the experts. This of course, does not apply to the person following a doctor's instructions as to diet. Normal people need only normal meals, say the experts, and unless the doctor has given instructions to the contrary, Canadians should eat all the wholesome foods.

Vermilion School Div'n News

The regular February meeting of the Divisional board of the Vermilion School Division was held at the Divisional office Feb. 19 and 20 with all trustees present excepting Mr. MacFarlane, who is ill. Mr. E. C. Miller, Divisional superintendent was present.

Zone Meeting A.S.T.A. Branch No. 2: Messrs. Thompson and Brown reported on general meeting held at Viking on Feb. 12. Meeting endorsed action of educational council in demand for increased grants for education and passed resolution approving $1200 minimum for teachers salaries with total increments not to exceed $300. Each Divisional Board is required to send one delegate to attend convention in Edmonton on March 11 so that action may be taken to press claim for increased grants.

Superintendent's Reports: Appointment of Mr. Alf Lampitt, Vermilion Centre, S.D.; Mrs. Irene Wilson at Preston school replacing Miss Astrid Larson; Miss Emily Knor at Wildwood school replacing Miss Marianne Purves, were approved. Resignation of Mrs. Gladys Nichols, Ganton, effective April 3rd was accepted.

Local Annual Meetings: As many reports of meetings held were not available it was decided to table study of minutes until next meeting.

Vermilion Centre S.D.: Messrs. C. Long and D. Taylor attended meeting to discuss accommodation available at Vermilion. Future enrolment suggests additional space will be required.

Clandonald S.D.: Messrs. Currie, Lacusta and White together with Mr. I. Nelson, Allandale S.D., attended the meeting with request for new school building at Clandonald, present accomodation in hall being unsuitable.

Dewbery S.D.: Board approved extra curricular instruction available in [illegible]

Ellsworth S.D.: Tenders received for sale of old school building were considered and building was not sold as bids were considered too low.

Islay S.D.: Secretary was instructed to advertise sale of old school building at Islay, applications to be received prior to March 21st.

Paradise Valley S.D.: Letter from local board approved retaining of the present name for school district to conform with name of hamlet, post office and station. Divisional Board approved action. Request for coal shed to be granted as soon as coal shed at Winona S.D. may be moved.

Budget for 1947. Messrs. J. Leighton and C. Stewart represented the councils of M.D. Vermilion River and M.D. Minburn when budget was being presented.

BUDGET HIGHLIGHTS

Estimated Revenue—	
Requisitions	$229,010.18
Special Levies (Hamlets)	4,592.00
By Agreement	
Vermilion Centre	13,[illegible]
Vermil Rural Area	[illegible]
Kitscoty	1,000.00
Debenture Issue	40,000.00
Grants	32,[illegible]
Estimated Expenditures—	
Administration	$ [illegible]
Instruction	191,[illegible]
Plant Operation	42,120.00
Health Services	[illegible]
Transportation	26,66[illegible]
Dormitory	3,691.64
Debentures	6,6[illegible]
Capital Expenditures	
(a) out of Revenue	10,906.61
Truck	1,537.01
(b) out of Proceeds from Debentures	40,000.00

Resolutions were passed required by Debenture By-law and Hamlet levies.

Kitscoty New Building: Secretary was advised to refer Hayward Lbr. Co. to architect, Mr. P. Campbell-Hope before requesting permission for substitution of materials.

Mr. C. E. Thompson was appointed as delegate to attend general meeting of A.S.T.A. in Edmonton March 11.

Grounds and Fencing: The Board approved purchase of 500 tamarac posts from R. Watt, F.O.B. Vermilion and 1000 from Imperial Lbr. Co. F.O.B. Heinsburg.

Next meeting Friday, March 21st.

With a record of having made 3,426,100 garments during the war, the women of Alberta are still sewing and knitting garments for shipment to devastated countries. This job is not yet over as the Red Cross is still receiving appeals for supplies.

IN MEMORIAM

In memory of
Thomas Giles
—who passed away March [illegible]

"They say time heals all sorrows
And helps us to forget
But time so far has only proved
How much we miss you yet
God give us strength to take
And courage to bear the blow
But what it meant to lose you
No one will ever know."

—Lovingly remembered and sadly missed by wife and family.

IN MEMORIAM

In loving memory of our Dad
Thomas Fowler
who died March 6th [illegible]

"Not dead to us who loved him
Not lost but gone before
He lives with us in memory
And will forever more."

—Ever remembered by wife and children.

Chatsworth Chatter

(Crowded out last week)

Sorry we haven't had much news lately, what with bad weather and bad road conditions folks have been staying pretty much at home.

The municipal snowplow opened the road from the west, past the school, on Monday 17, then south to Baker's corner, leaving 1½ miles of the main road to town closed as this is in the Vermilion River M.D. Orie Hutchinson went down on Friday 21st and cleared out that part of the road but was forced to open it on the side as it was too difficult to move from the road.

Frank Farkash also had his road cleared out by Orie Hutchinson on Friday 21st.

A good deal of drifting took place on Saturday during the afternoon but most roads are still open.

The annual school meeting which was called Jan. 25th resulted in an attendance of only three or four and no business was carried on. It is planned to call another one in the near future.

Mr. and Mrs. Bob Cameron of Indian Lake, have a baby daughter born Feb. 12th. She is to be named Judith Vivian.

Miss Deulah Anderson, is working at post office in town.

Frank Farkash has bought the barn and a building for a garage off the old Herb Eckford farm. As the house has also been sold and moved the district has lost another landmark of pioneer days.

We are sorry to hear that Mrs. Cummings who returned to Edmonton on Feb. 16th suffered a fall on the following day and [illegible] broken leg. She is now confined to the Royal Alex hospital in Edmonton.

School closed [illegible] to close this week [illegible] of the teacher Miss Mc[illegible]

FOR DAIRY PLANTS

[illegible] to transparent milk pipes made of plastic for use in dairy plants, we now learn that there is a shatter-proof glass milk bucket coming up. The bucket has a groove around the shoulder into which a heavy rubber ring is fitted while a metal ring shields the base against shock.

NEW GLASS PANES BEND LIGHT RAYS

A new building in St. Louis is to have glass panes that will bend the rays of the sun to the ceiling and prevent light glares.

If this can be made to work on a building, why couldn't the same principle be applied to windshields on automobiles and do away with the sun glare that too frequently blinds the drivers?

Probably it could also be applied to diverting the rays of full beam headlights from the eyes of the oncoming driver. At least the possibilities seem to be there.—Kitchener Record.

Snakes crawl on the ends of their ribs. 2714

WHAT'S A FARMER?—MECHANIC, BOTANIST, CHEMIST AND A WEATHER EXPERT

(By John Moore in 'The Fair Field')

As I stood beside the auctioneer—one of my uncle's partners—during his slow progress down the line of implements, I realised for the first time the extraordinary complexity of the farmers' job. There was the binder and the threshing machine, each needing the frequent services of a mechanic to keep it in running order. There were the implements of haymaking, the mower, the tedder, the horserake, the haysweep, the implements of sowing and cultivation—drills of different sorts, scuffles, ploughs, horse-hoes, harrows and so on; and there were all the various tools which a man's hands must learn to use—which Mr. Jeffs' hands during the long years had learned to use—such as spades, forks, hoes, pitchforks, hayrakes, scythes, short curved bill for ditching and hedging, saws, hatchets, and so on.

The good farmer must be handy with all these, he must possess the ancient knowledge of the ploughman and the new craftsmanship of the mechanic for he will have to keep in order his petrol engines, gas engines, tractors and trucks. He must be a bit of a carpenter, a bit of a wheelwright, a bit of a blacksmith. He must know the old secrets of the dairy, and the modern practice of chemical manuring. In a single morning he may be called upon to repair a gate, to clear a blocked drain, to cold-shoe a horse, to mend a pair of reins, to graft a young apple tree, and to clean the truck's carburetor.

But besides this considerable technology, he must possess a kind of wisdom which is [illegible] more profound and much more difficult to acquire. He must know about land and about the use of [illegible] how to match his stock to the pasture and his crops to the soil. This is something which cannot be described in terms of technology. It is true that he must be in a sense a botanist, a chemist, and a biologist, a good meteorologist, knowledgeable in genetics, and perhaps a horticulturist and a forester as well.

But it is much more than that; it is much more than technique. There is strategy mixed up in it. His farm is the battlefield, upon which he deploys his crops and stock against his foes, which are sometimes visible, such as pests and blights and weather, and sometimes invisible such as economic blizzards and falling markets.

Unless he is a bad farmer, or a sort of farm-cum-dealer, his problem is hardly ever a short-term problem; it is not a matter of tactics. For he must look forward into the future, the next season and the season after that; and he must look back and seek wisdom out of the past. Always it is a strategist's battle, and the battle never ends.

Successful Xmas Seal Campaign

OVER OBJECTIVE

Eric Connelly, president of the Alberta Tuberculosis Association announced last week that the 1946-47 [illegible] a total of $104,500, a 27 per cent increase over last year, and 4½ per cent over the objective for this year.

Mr. Connelly expressed the Association's gratitude to the people of Alberta for their wonderful response, and to all the newspapers and radio stations for their generous assistance in publicizing the campaign.

Figures for the Dominion Seal sale are not yet available, but Mr. Connelly estimated that the final total for all Canada would be close to a million dollars.

ISLAY

(Crowded out last week)

Ink has been frozen for awhile!

Last week end was the Carnival in Vermilion and many from here went to town and spent the week end—Mrs. Hilda Lell, Janet and Sandra, Mrs. Fortin and daughter, Carol Mitchell, Bruce and Kenneth McLennan, Vonne Hutchinson, Mr. Bothwell and Alex McFadyen.

Bill Belton has had an operation for appendicitis. We notice Mrs. Belton and two boys in town, along with Mr. Joe Belton. What we wonder is, who hitched up the horses? Did you, Joe?

Mr. A. Anderson is home again after some days in the hospital.

Mrs. McEachern went as far as Edmonton with Mary on her return to [illegible]

George Purves has returned from Vancouver—George doesn't like the B.C. winter.

Marion Purves has gone in training at the Royal Alex hospital in Edmonton and Mrs. Wm. Purves has gone to visit her brother at the coast and will stop at Kelowna to see Sheila.

Jack Harley is at Great Slave Lake working in a planing mill.

Mrs. John Young is quite well again. She has been out visiting a little. She called and had dinner at the Andersons. One afternoon at Mrs. Martin's and another day with Mrs. Bell—and again at Stone's. She sends greetings to Mrs. Hagen at Clandonald. Better come down Mrs. Hagen.

When in town drop in to Mac's cafe — it's the grandest coffee and most delicious chocolate wheat drops for an afternoon snack.

Something over $61 was sent in to the Canadian Aid to China fund.

Save for the Red Cross this month as their campaign is now in full swing.

Drop in any Sunday at 3 p.m. to hear the Rev. George Driver in the United church. [illegible] come again after being once.

Mr. and Mrs. Tom Macdonnell are in Edmonton this week.

Sure we know who has two kittens called Frankie and Alex—don't you Jerry Maire?

We notice the Morrison pupils are riding to school to Islay in right smart style in a new Willys station wagon.

Gord. Purves has become an expert dog trainer. You should see Lassie come home—with Betty. It really is a fine dog.

The Red Cross loans wheel chairs, crutches, braces, hospital beds and also supply surgical dressings to those in need.

Wildmere Winks

(Crowded out last week)

Billie Whitlock of Hindville had his appendix removed at the [illegible] hospital not long ago. He is doing very well. His brother Guy lives in our district.

In a recent letter from Mrs. [illegible] who is in England she says the stores over there have lots of things in them but people have not the points to buy them, which makes it rather hard on nerves when people are hungry and cold. She said [illegible] nuts were selling at 25c each and other nuts at $2 a pound at Xmas time. She expects to get back to Canada sometime in April. She'll be very pleased to set foot on Canadian soil again.

Two rinks composed of local [illegible] are comprised of Skip Billie Smith, [illegible] Wilson, J. Bathe and Frank [illegible], Skip Adam Smith, Cliff [illegible], Robert Martin and Otto Weisenberger are attending the bonspiel in Vermilion this week. Good luck boys.

We noticed Mr. Katz making alterations to the inside of his store too; they must be all expecting more [illegible]

On Sunday Mr. and Mrs. Johnny Wilhite and Marlene accompanied by Mr. Whitlock Sr. all of town visited with Mr. and Mrs. Guy Whitlock and family of Wildmere. In the evening Guy and family visited a while at the writer's home.

Abe Friesell of Battleview has to go to Edmonton this week to see a medical specialist. Best of luck M. Friesell.

We wish to take this opportunity of thanking the lady who picked up our parcel by mistake and returned it to Stephens. We truly did appreciate her kindness more than words can express.

Feed for stock is getting scarce in most districts. Some haul wheat straw for miles. Here's hoping old man winter takes his departure early next month.

FARM FOR SALE

TENDERS marked [illegible] addressed to the Clerk of the Supreme Court, Court House, Calgary, Alberta, will be received up to 11 o'clock in the forenoon of Saturday, 22nd of March, 1947 for the purchase of the following land:

South ½ of 19-51-8-W 4th M.

DATED at the City of Calgary, in the Province of Alberta, this [illegible] day of February, A.D. 1947.

[illegible] Chairman

Acting Clerk of the Supreme Court

APPROVED:

[illegible]

In Lonely Outposts

Your RED CROSS help is needed!

In frontier districts of Canada the nearest hospital or doctor may be a hundred miles or more away. Over twenty years ago the Red Cross began establishing outpost hospitals and nursing stations in these remote regions. Today a whole chain of Outpost Hospitals can be found in the frontier districts of the Dominion. They bring medical science within reach of these isolated communities. Hundreds of thousands of patients have been treated in these tiny hospitals, including thousands of confinement cases. These hospitals also serve as health centres for their communities, carrying on medical inspection in the schools and organizing clinics for the children. Your help is needed to maintain and expand this vital work. Stand behind the Red Cross, and help bring medical aid to your fellow-Canadians pioneering on Canada's frontiers. Give NOW . . . give generously.

The Far North

THE ARCTIC REGIONS OF CANADA are not generally regarded as habitable except for the Eskimos and the few traders and Mounted policemen whose work takes them there. Arctic exploration which has been done has been [illegible] ships on the [illegible] waters or by airplanes flying over the land. Increased interest however is now being shown in our Far North, which is known to be rich in furs, fish, [illegible] metals, oil and coal. It is [illegible] probable that there may be rich deposits of minerals there such as have been found in the region of Great Bear Lake. It is apparent that the development of these natural resources would be of great benefit to the country and there is growing interest in the possibility of opening up that part of the country.

* * * * * *

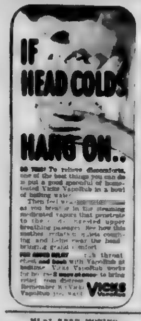
Recommend That Study Be Made

Dr. O. M. Solandt, director general of Canada's three armed services is of the opinion that "a thorough knowledge of the Arctic and its problems is essential to the regional defence of North America and to the peaceful development of the Canadian North. This he believes could only be accomplished by a long-term, well-planned program of research and development which would include mapping, charting and studies of the geology, mineralogy, plants and animals of the region." Dr. A. L. Washburn, the director of the Arctic Institute of North America, is of the same opinion as Dr. Solandt and he also believes that the time has come for a program of detailed research in the Far North the results of which would benefit not only those who might wish to live there some day but the continent as a whole.

* * * * * *

Canada Is Far Behind Russia

Both Dr. Solandt and Dr. Washburn have pointed out that Canada is far behind Russia in development of her Arctic regions. In Russia an organization similar to the Arctic Institute of North America has for some years sought to study problems connected with the areas of that country which border on the Arctic. A great deal has been accomplished there both through research and through practical efforts. There is no reason why such progress could not be made here. The most colorful chapters of Canadian history tell of the pushing back of frontiers and of the opening up of region after region by far sighted and courageous men and women. It is possible that we may someday see the frontiers of the Canadian North pushed back in the same way. Although modern warfare has made it necessary to look upon it as a necessary outpost of defense for the North American Continent, it is to be sincerely hoped that the great store of natural resources there may be developed for peaceful purposes and that they may add to the prosperity of the entire country.



IF HEAD COLDS HANG ON..

DO THIS! To relieve discomforts, one of the best things you can do is put a good spoonful of home-tested Vicks VapoRub in a bowl of boiling water. Then feel welcome relief come as you breathe in the steaming medicated vapors that penetrate to the cold-congested upper breathing passages. See how this soothes irritation, quiets coughing and helps clear the head, bringing grand comfort.

FOR ADDED RELIEF rub throat, chest and back with VapoRub at bedtime. Vicks VapoRub works for hours 2 ways at once to bring relief from distress. Remember this ... Vicks VapoRub you want.

VICKS VAPORUB

SELECTED RECIPES

EVERYDAY SPONGE CAKE
(2 eggs)

- 1 cup sifted Swans Down cake flour
- 1 teaspoon baking powder
- ¼ teaspoon salt
- 2 eggs
- 1 cup sugar
- 1 tablespoons butter
- 6 tablespoons hot milk
- 1 teaspoon lemon juice
- 1 teaspoon vanilla

Sift flour once, measure, add baking powder and salt, and sift together three times. Beat eggs until very thick and light. Add sugar gradually, beating constantly. Quickly fold in half of flour, then fold in remaining flour. Melt butter in hot milk, add to batter, mixing quickly [illegible] and well blended. Add lemon juice and vanilla. Turn at once into [illegible] pan which has been greased lightly, lined with waxed paper to within ½ inch of edge and again greased lightly. Bake in moderate oven (350 deg. F.) 30 minutes or until done. Sprinkle top of cake with powdered sugar.

The cake may be baked in two 8-inch layer pans which have been greased lightly, lined with waxed paper to within ½ inch of edge and again greased lightly. Bake in moderate oven (350 deg. F.) 20 to 25 minutes. Or double recipe for 13x9x2-inch pan prepared in same way and bake in moderate oven (350 deg. F.) [illegible] minutes.

MUST KEEP MOVING

[illegible]

IDEA IS OLD

Five hundred years before the birth of Christ, Greek doctors began to teach healthy living and some of the wealthy people gave almost their entire time to diet, exercise and [illegible] care of their bodies.

HOW YOU CAN GET QUICK RELIEF FROM SORE, PAINFUL PILES

[illegible]

ALBERTA WANTS NATIONAL DISH
—OFFERS PRIZES

EDMONTON—Launching a tourist publicity campaign, the Alberta Government is offering more than $800 in prizes for a contest to find the province a "national dish" — one to become as famous as the haggis of Scotland and the roast beef of England. First prize is $300, second $200, third $100 and there are 12 prizes of $10 each.

It is suggested that the principal ingredient of the dish should be meat. It should be served with Alberta-grown vegetables, and should be sold profitably at $1 per plate.

FUNNY And OTHERWISE

"What is the plural of hippopotamus?" asked the teacher.

There was no answer from the class.

"You try, Tommy," suggested the teacher.

Tommy stood up.

"H-i-p-p-i——. Oh well, who'd want more than one anyway?" he demanded.

* * * *

Repairman — Good morning, madam. I'm from the gas company. I understand there's something in the house that won't work.

Woman—Yes, he's upstairs.

* * * *

Patient: "Doctor, I feel in a very run-down condition."

Doctor: "How far do you wish to run down?"

Patient: "Well, I was thinking of Florida."

* * * *

Housewife—Oh, I know you! You're one of the tramps I gave a pie to last Spring!

Tramp—That's right, ma'am. There was three of us. I'm the sole survivor.

* * * *

The teacher had asked the class to write an essay on "Our Dog." Young Jimmy was the first to finish. His effort was read: "Our Dog. We haven't got one."

* * * *

Teacher: "Correct this sentence, 'Girls is naturally better looking than boys.'"

Pupil: "Girls is artificially better looking than boys."

* * * *

"Harold, can you name all four seasons?" asked the teacher.

"I only know three, Miss Cramp," he answered.

"Well, then, name the three, Harold."

"Pepper, salt and vinegar."

* * * *

Lawyer — "Here's my bill. Please pay me $100 and $125 a week thereafter for ten weeks."

Client—"Sounds like buying an automobile."

Lawyer—"I am."

* * * *

The teacher wrote on the blackboard: "I ain't had no fun all summer." Then she asked a youngster in the front row: "Harry, what should I do to correct that?"

"Mebbe—Get a boy friend?" he suggested helpfully.

* * * *

"Are you going to the bridge club this afternoon?"

"No, it's my turn to stay away and be talked about."

* * * *

Teacher: "Johnny, will you please give three collective nouns?"

Johnny: "Flypaper, wastebasket, vacuum cleaner."

How to Combat RHEUMATIC PAIN

Rheumatic pains may often be caused by excess uric acid, a blood impurity that should be extracted by the kidneys. If kidneys fail, and excess uric acid remains, it may cause severe discomfort and pain. Treat rheumatic pains by keeping your kidneys in good condition. Get and use Dodd's Kidney Pills. Dodd's help your kidneys get rid of trouble-making poisons and excess acids—help you feel better. See what Dodd's can do for you. 127

GEMS OF THOUGHT

HOSPITALITY

Hospitality consists in a little fire, a little food, and an immense quiet.
—Emerson

If a man be gracious to strangers, it shows that he is a citizen of the world, and his heart is no island cut off from other islands, but a continent that joins them. —Bacon

He who is afraid of being too generous has lost the power of being magnanimous. The best man or woman is the most unselfish. —Mary Baker Eddy

In good company you need not [illegible] the master of the feast. The man who sits in the lowest place, and who is always industrious in helping every one is certainly the man. —David Hume [illegible]

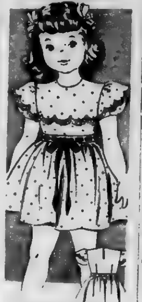
Fashions



4719—SIZES 2-10

By ANNE ADAMS

Fairy Tale Frock

Right out of a story book—a dainty little dirndl frock. Pattern 4719 lace edges scalloped sleeve seams to match yoke seam, creating a bertha effect. Beading at waist.

This pattern, easy to use, simple to sew, is tested for fit. Includes complete illustrated instructions.

Pattern 4719 comes in sizes 2, 4, 6, 8, 10. Size 6 takes 1⅞ yards 35-inch fabric.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg, Man.

Silver Wedding Gift A Reminder

The Manchester Guardian says the Parliamentary Labor party's silver wedding gift to Mr. and Mrs. Attlee of an eighteenth-century Dutch silver porringer was chosen no doubt, without any thought of Charles II or foreign alliances, but it may remind the Prime Minister of both. For Charles is said to have offered a reward to anyone who could find a rhyme for "porringer", and the prize was claimed for lines suggested by the betrothal of the King's niece to William of Orange:

The Duke of York a daughter had
He gave the Prince of Orange her;
So now your Majesty will see
I've found a rhyme to porringer.

NELSON, B.C., TO CELEBRATE JUBILEE

NELSON, B.C.—Hundreds of visitors will gather in Nelson Aug. 4 to help citizens celebrate Nelson's golden jubilee as an incorporated city.

A colorful week of merrymaking will feature oldtime customs and fashions of the gay 90's. Beards, sideburns and handlebar moustaches will sprout on Nelson males.

Entertainment will include shows and bands, torchlight processions, street dances, fireworks, ice shows, rock-drilling and log-sawing contest, bannock-baking matches and a full program of sports. There will be a showboat, too.

Nelson's history from typical mining camp days of the late 90's to its present status of prosperity and influence will be portrayed.

Outlook Gloomy For Supplies Of Men's Shirts

TORONTO.—A gloomy picture on the outlook for supplies of men's shirts was given by manufacturers answering questions for more than 300 Toronto men's wear retailers at a clothing fair here.

One manufacturer said the shirt supply can't expect much improvement for at least six months because of lack of labor and materials. Another said he did not think the public would stand for increased prices when the government lifts present subsidies on clothing.

James Camerin, president of the Ontario Retail Men's Wear Association, criticized manufacturers "for not accepting the fact that we have been educating the public to do without for the past six years, and now they want something to buy." 2714

SITUATION CHANGED

Mistress—"Why don't you build a fire?"

Maid — "Because there ain't no coal."

Mistress—"Why didn't you let me know before?"

Maid—"Because we had some before."

TORONTO MAN PAYS HIGH PRICE FOR BULL

SULPHUR, Okla.—The top price of $25,000 for a bull at the eighth annual Hereford cattle sale was paid by E. B. Shawver, Wichita, Kas.

The 50 animals offered at the auction brought a total of $125,105.

Second highest price was $23,000 paid for a bull by George Rodenz, Toronto.

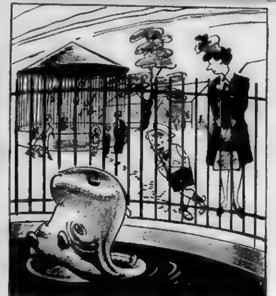
BELIEF OF FRANKLIN

Benjamin Franklin believed electricity was a fluid, that positively charged matter contained an excess of the fluid, while negatively charged matter was lacking in it.

FOR BRONCHIAL COUGHS

YOU CAN'T BEAT

BUCKLEY'S MIXTURE



"Chee! Just think of all the delicious Grape-Nuts Flakes I could eat if I had a mouth like that!"

"I could sail into a scowful of those malty-rich, sweet-as-a-nut Post's Grape-Nuts Flakes!

"And boy! How I'd pack in the nourishment! All those carbohydrates for energy; proteins for muscle; phosphorus for teeth and bones; iron for the blood; and other food essentials.

"They'd have to cut an acre of wheat and malted barley to get enough of those golden grains for a couple of mouthfuls of Post's Grape-Nuts Flakes.

"And they'd have to pack 'em loose in box cars instead of those big economy size packages."

"Come, come, Wilbur. You're making me hungry. Let's go home."

Local News of Interest

Miss Margaret Stephens arrived home Monday after spending a very enjoyable five weeks visiting her sister and brother-in-law, Mr. and Mrs. Bert Bowman and three children at Placentia, California. The trip both going and return was made by plane from Edmonton. She boarded the plane at Los Angeles at 2:10 a.m. March 2nd and arrived in Edmonton at 7:10 p.m., one hour behind the regular schedule. Five weeks of ideal summer weather was enjoyed, the temperature ranging from 80 to 87 above. One of the highlights of the trip was a day spent at the world famous Santa Anita race tracks.

H. L. Dean and his sister Mrs. Petch returned home last week end after spending the past couple of months visiting at Windsor, Detroit and Toronto. On the way home stops were made at Chicago and Winnipeg.

Mr. and Mrs. R. L. Burns of the Claysmore district returned home the latter part of February after an extensive trip through eastern Canada, United States and B.C. While in Toronto they by chance met Fred Claire formerly a well known farmer here and Fred sends greetings to all of his old friends in Vermilion. Many former district people were visited in B.C. and all are thriving in that climate. Mr. and Mrs. Burns were away three months.

Miss Grace Bury has returned home from spending three weeks visiting in Edmonton. While in the city she attended the Anglican W.A. convention as a delegate from the Vermilion W.A., and visited at the homes of Mr. and Mrs. C. D. Brown and Mr. and Mrs. John Taylor.

Reg Mitchell of Vermilion was elected a director of the Alberta Insurance Agents association at a recent convention of that body held in Calgary.

Little Miss Marion Smith, daughter of Mr. and Mrs. Jack Smith, observed her 8th birthday with a jolly party on Monday March 5th when a number of her young friends helped to celebrate the occasion.

Mrs. B. Moses and Miss Maybelle Knutson spent an enjoyable week end in Edmonton attending the ice carnival. They also visited Harry Perkins who is a patient in the Col. Mewburne hospital and saw Nurse McHardy who nurses there.

Edmund Corson of Edmonton spent the week end in Vermilion visiting his parents Mr. and Mrs. E. Corson.

Mrs. Hugh Rose who has spent the past few months visiting her daughter at Victoria has returned home.

A very interesting reunion took place at the home of Mr. and Mrs. Walter Fish over the week end when they had as their guest Billie Koos whose home is at Stratford, Ont., but who is now attached to the R.C.A.F. at Edmonton. Billie and Jim were members of the same bomber crew overseas and completed their entire operational tours together, never missing a trip, Bill as upper air gunner and Jim as pilot. Needless to say the incidents recounted were numerous and exciting.

MORRISON

Dance at Morrison school on Friday March 21. Proceeds in aid of the Red Cross. Good music. Admission 50c. Everybody welcome. 43-2

The Altar Society, Group 4 will hold a sale of home cooking at McLaughlin's Self Serve from 3 to 5 p.m. Saturday March 15th. 43-1

A party was held at the home of Mr. and Mrs. Frank Syben Wednesday evening Feb. 19th in honor of their eldest daughter Dorothy who is entering the Royal Alexandra hospital school of nursing. About fifty guests spent a very enjoyable time at singing and games. Following a delightful lunch Mrs. Lloyd Everett on behalf of the guests, presented Dorothy with a lovely string of pearls as a token of esteem and wished her every success in her chosen profession.

Matt Majury, son of Mr. and Mrs. A. C. Majury, left this week for the D.V.A. school at Red Deer where he will learn something of the printing trade. For the past few months Matt has been working in the newspaper and job printing plant at Chauvin.

Mr. and Mrs. Arthur K. Butler are now the proud parents of a son, born Feb. 11 in Edmonton, weight 7 lbs. 15 ounces. They have named the little fellow Bruce Arthur. Art says that he intends teaching the new arrival to curl as soon as he is 10 years old.

Mr. and Mrs. Mrs. G. F. Stonehouse and son Jimmy spent the month of February on vacation at the coast and renewed acquaintance with quite a number of former people from the Clandonald and Vermilion districts now resident there.

CARD OF THANKS

Walter and Isola Peters and family wish to thank all their friends, neighbors and relatives for the lovely chest of silver and personal gifts presented to them prior to their departure to Athabasca.

Mr. and Mrs. Earl Nelson and family wish to thank their friends, neighbors and relatives for the chest of silver and water glass set presented to them at a farewell party. Earl has already left but Mrs. Nelson will remain here until the school term ends in June.

United Church W.A. Group Meetings

The W.A. groups of United church will meet on Tuesday March 11th at 3 p.m. as follows: Mrs. Good's group at Mrs. Dougan's; Mrs. Hay's group at Mrs. Carl Heckbert's; Mrs. Miller's group at Mrs. Douglas Maxwell's; Mrs. Myers group at Mrs. J. K. Swanson's.

Fast efficient service in quiet clean surroundings. Patronize the Harris Barber shop, two experienced barbers in attendance. Miss Hofbauer in charge of beauty parlor. 38xtf

FOOD IN THE OPEN
In many parts of the world no great attention is paid to keeping food clean and sanitary. It is often sold in open-air markets like the bazaar in a Turkish town pictured in Fig. 1, wide open to insects, dust and the handling of all sorts of customers. Fig. 2 is another Eastern scene showing the loaves for sale in the street. Severe food shortages still exist in many lands. Canada's export of grain, though its huge national elevators (Fig. 3), helps to relieve hunger throughout the world.

Greenlawn Old Timer Passes On

An esteemed old timer of the Greenlawn district, William Gray, passed away suddenly at his home on February 23rd, 1947. He had lived in the district since the year 1906.

Mr. Gray was born in Aberdeen, Scotland in 1880, the second oldest of a family of five boys and four girls. After leaving school he worked on the railroad until 1904 when he came to Canada, living in Manitoba. Here he worked as a farm hand until 1906 when he moved further west and settled on a homestead in the Greenlawn district. Here he lived until [illegible].

Surviving members of the family are his father George Gray of Greenlawn, four sisters, Mrs. George Christie of Mayerthorpe, Alberta and three sisters in Australia; three brothers, Frank and Jim of Greenlawn and one brother in Scotland. He was predeceased by his mother in 1937 and by a brother George in 1926.

Funeral services were held from the Greenlawn hall on Feb. 27th, the Rev. Mr. Richards of Marwayne conducting the service. The pall-bearers were A. R. Wood, W. B. Jones, J. A. [illegible], A. H. Stone, James McGillivee, Chris Christensen.

Floral tributes were received from Frank May and Family; Christie family, Fred and Elsie; Greenlawn Old Timers, Bob, Josephine and family.

CARD OF THANKS

The family of the late William Gray wish to take this opportunity to express their heartfelt thanks to the many friends and neighbors who so kindly offered to assist at this time.

OBITUARY

ROBERT McPHEE

Robert McPhee, aged 58 years, passed away suddenly on February 13. He had lived in the Vermilion district since 1929 operating a sheep ranch south of Borradaile. He served through the first great war.

Funeral services were held at the United church on Wednesday, Feb. 19th and interment took place in the Soldiers' plot in the Vermilion cemetery. The Rev. E. S. Reikie officiated. The deceased man had no relatives in this country.

Moyers were in charge of funeral arrangements.

Former Mannville Man Dies in Edmonton

On March 3, Mr. Harry Roydon Chrysler of 12224-61 St., formerly of Mannville, Alberta, passed away in the city at the age of 46 years. Besides his loving wife he is survived by one son, Jim and two daughters, Betty and June, all at home. His father and mother, Mr. and Mrs. John Chrysler of Edmonton, three brothers, Wallace of Mannville, Cory of Edmonton, Carl of Duncan, B.C., two sisters, Mrs. G. Bartlett of Edmonton, Mrs. R. I. Pearcere of Dewberry, Alberta.

Closing Functions Approach For School of Agriculture

OPEN DANCE FRIDAY, MARCH 14

The staff and students at the school of agriculture are engaging in a busy program of activities for the last month of the regular school term which closes on April 9th. In addition to special attention to the regular class room work of the courses, plans are being made for major events of interest to the general public.

Continuing a practice of former years the people of Vermilion and district are invited to attend a dance in the college gymnasium on Friday, March 14th. Because of the large enrollment it has not been possible to entertain the general public at the regular student dances and it is expected that a large number of those who enjoy an evening's dancing will attend.

The date for "Gymnasium Night" has been set for Saturday March 22. Featured attractions will include a demonstration by the Physical Training classes which have been under the direction of Mrs. Elaine Howlett.

An event that has always attracted widespread interest is the "Little Royal" at which students display many phases of their classroom activities. The floor space in the former drill hall provides ideal facilities for exhibiting livestock and displaying projects constructed in the Farm Mechanics classes. A new feature that will undoubtedly attract considerable interest this year is a display of farm buildings constructed by the students. The date for this event is April 2nd and plans are being made to accommodate a large attendance.

Examinations will commence March 21st and the Closing Exercises will be held April 9th at which the largest class in the history of the school will be granted diplomas.

A REMINDER!

Don't forget the War Memorial meeting in the Elks hall at 8 p.m. on Thursday March 20th. Everyone is invited to attend.

Ask Extension Of North Boundary Under P.F.R. Act

AID REQUESTED BY FARMERS— BOARD TAKES ACTION

As a result of several requests from [illegible] living to the north of Vermilion and outside of the area eligible to receive assistance under the Prairie Farm Rehabilitation Act, the following resolution was made by E. H. Buckingham at a recent meeting of the Vermilion Board of Trade and was passed. Copies of the resolution have been forwarded to the various officials named:

"Whereas the present Northern boundary of the Prairie Farm Rehabilitation Act in this district is the South line of Township 50,

And whereas on the East side of the fourth meridian the area extends to the North Saskatchewan river,

And whereas many farmers living north of this boundary are asking for assistance under the act,

And whereas there does not appear to be any good reason for restricting the services under the act to the present area,

Be it therefore resolved that application be made by this Board of Trade to the Superintendent of Water Development P.F.R.A. Regina, Sask. for consideration in the matter of extending the Northern boundaries of the P.F.R.A. area to the North Saskatchewan River in Ranges 1 to 9 West of the fourth meridian."

The policy in question is of great value to farmers in providing water for stock at a very low cost. When the water is required for domestic purposes a filter can be installed for purifying the water.

The program of dugout construction is recommended by Mr. Buckingham, District Agriculturist, as worthy of consideration by practically every farmer in the district who raises livestock. Once constructed the dugouts are of use and service for many years.

All that is required is an area on the farm where 25 acres of land will drain to one point. There are few farms in the district where ideal conditions are not present for the construction of a dugout.

The P.F.R.A. refunds to the farmer up to $125 for each dugout constructed and in cases where dams are necessary or advisable the maximum assistance is $[illegible].

Application for assistance must be made on the official forms and inspection must be made both before and after the work is done by inspecting engineers of the department.

Complete information regarding the whole matter can be obtained from our district agriculturist Mr. E. H. Buckingham.

Warble Fly Control

King Edward A.F.U. Moves to Fight Pest

At the regular monthly meeting of the A.F.U. King Edward Local No. 469, held on March 4th, a committee of three was formed to promote the eradication of the warble fly. Each member of the committee will canvass his immediate neighbors and ask their co-operation in the treating of their cattle for warble fly control. One hundred percent co-operation is hoped.

The following were elected as the committee: Mr. O. Imo, Mr. A. Becroft, Mr. R. MacMillan.

Chairman of the King Edward A.F.U. local is Mr. R. R. Taylor, secretary A. F. Moor.

Canadian Legion Plan To Build

At the regular monthly meeting of Post 11 Canadian Legion held in the armories Monday evening March 10, a motion by A. M. West that "Immediate action be taken by the building committee to proceed with projected addition to the Memorial hall" met with unanimous approval of the members present. It is proposed to excavate the basement for the addition and if funds are not available for the erection of the building the [illegible] will be cemented in and covered by rough flooring and a water shed.

Plans had been made for the holding of a stampede this year and use of the agricultural grounds had been granted by the Society subject to sewer lines which cross the grounds being filled in. Because of the uncertain conditions in regard to these lines it was decided to shelve the stampede for this year but every effort is to be made next year in making the Legion stampede a successful event.

Plans are being made for a monster picnic to be held in June.

Annual Meeting of Athletic Association

FRIDAY MARCH 14th

The annual meeting of the Vermilion Amateur Athletic association will be held in the armories at 8 p.m. on Friday March 14th. Everyone interested in athletics is invited to attend.

HOCKEY — Midget hockey game [illegible] 8:30 — Vermilion vs. an outside team being arranged at press time.

BOARD OF TRADE URGES NEW POST OFFICE BUILDING

Thirty-nine members and visitors attended the Board of Trade luncheon meeting Wednesday of last week. George S. Maxwell, the president, was in the chair. A. M. West introduced M. Burgess who has purchased the former Wm. Chase studio here. Carman Long introduced Mr. Du Pre of Ducks Unlimited. Both gentlemen gave short talks. Notices of several meetings including those of the Living War Memorial, Golf club and V.A.A.A. were given.

A detailed resolution drawn up by a special committee of Ashley Cooper and J. D. Adam, giving numerous reasons as to why Vermilion should have a new post office, built for that specific purpose, was moved by Mr. Cooper and seconded by A. E. Kaiser, passing unanimously. Copies of the resolution are being forwarded to the proper departments and officials.

Geo. Webb Rink Wins Challenge at Innisfree Bonspiel

The lone Vermilion rink at Innisfree bonspiel last week, skipped by George Webb, came home with the Grand Challenge. The rink was composed of Skip George Webb, Darrell Currah third, Lyle Webb second and Jack Hossam lead. In the semi-final they met the Ab Brower rink, going on to defeat the Macnab rink of Lavoy who won the Challenge the previous year.

President Outlines Activities Local Fish and Game Branch

The following is an outline of the activities, aims and objectives of the Vermilion Branch of the Alberta Fish and Game league as outlined by the President Mr. Claude N. Brennan, for the past year.

"This week marks the end of another very successful year for the Vermilion Fish and Game league. Very often we as members of this organization are asked what are the objectives of the league and what we do for this community.

We are a branch of a provincial wide organization dedicated to the conservation of the wild life of our province. This includes, besides our game and fish, our forests, lakes and streams, as all wild life is dependent upon these resources for their existence.

We of the Vermilion Branch devote our efforts to the control of predators, the releasing of pheasants and also take measures to insure the safety of our waterfowl and fur bearing animals.

In the past year we accounted for 6,754 crows and magpies and although we agree there are still lots left, it must be admitted that the number destroyed has saved many hundreds of our smaller song birds.

We released 75 pheasants at the Grizzly Bear ranch and have reason to believe that some have survived.

We were also instrumental in having a serious waterfront hazard in the Borradaile district cleaned up. This was in the form of a large slough in to which large quantities of residue oil were being dumped and wherein many ducks and other waterfowl were being lost.

Recommendations were also made to the Game Branch of the Provincial Government to have Kenilworth lake declared a game preserve to prohibit the [illegible] of ducks and geese by unscrupulous men.

Among resolutions forwarded to the convention of our provincial organization was one which asked that commercial fishing in Long Lake be stopped and that it be re-stocked with sporting fish.

These and many other phases of conservation were dealt with in 1946 and we anticipate an even better year [illegible] 1947. However we need the support of every man, woman and child [illegible] this Vermilion district. We are not working only for our own sport but to the end that our children and our children's children will be able to enjoy the [illegible] which nature has so generously bestowed on us.

Don't delay, get your membership today and help us to help wildlife. Memberships may be obtained from Carman Long, Rex Spencer, Russell Carroll or Alf Pinchbeck.

Remember 'Today's Waste is Tomorrow's Want'."

Vermilion Branch Red Cross To Purchase Ambulance

FOR SERVICE IN THE TOWN AND DISTRICT

As a result of widespread support given the Red Cross drives in this district in the past, with the hope that the funds collected in the current drive will exceed all previous figures the Vermilion Branch of the Red Cross have been given permission to use a portion of the funds collected to purchase an ambulance. This ambulance would be stationed in Vermilion and available for errands of mercy anywhere in the area.

Permission to purchase the ambulance was granted as a result of representations of Mr. W. P. Pilkie [illegible] his recent trip to Calgary. Mr. Pilkie has managed the Red Cross campaigns for funds here for the past seven years with excellent results. The machine purchased may be a reconditioned one from War Assets or it may be a new ambulance.

The ambulance when purchased shall remain the property of the Vermilion Red Cross branch and there shall be a small committee appointed to take charge of the ambulance.

The need of an ambulance has been very apparent here on many occasions and it is hoped that town and country people will rally round, increase their donations to the current Red Cross campaign and so help to bring this added service to the district.

Vermilion and District Red Cross Drive

Canvassing in some districts is being held up by bad roads making travel difficult and in three areas the canvasser is ill in hospital. Individuals can help materially by handing in their donations sometime when in town and should notify the canvasser in their district if this is done so save him a trip.

The following canvassers in town have the official receipt books, valid for income tax exemption, and will be only too glad to accept your donation: F. J. Richardson, Ashley Cooper, Carman Long, A. M. West, S. C. Heckbert, Geo. Maxwell, Lloyd McFadden, L. Ames, E. M. Stewart, Wes Waldenberger, Melvin Hill. All of these men are located right down town in offices or stores. Your campaign manager W. P. Pilkie is at the theatre. No matter to whom your donation is paid it is credited to the canvasser of your own area.

Mannville Club Elects Warrilow President

On Friday 14th members of the Mannville Calf club re-elected Philip Warrilow of Minburn as president. The vice-president is Herbert Gilbert and the secretary Bruce Bennett.

The Mannville club is in its 5th year of operation and each year shows and sells calves at the Vermilion fair. There are 22 boys and girls feeding calves this year.

Bad roads kept some members away from the meeting, but this was not the case for Herb and Tom Gilbert. These two boys rode in 14 miles on horse back to attend their club meeting. Such loyalty to their club certainly should not go by without mention.

District Agriculturist E. H. Buckingham gave the members a talk on finishing calves. He also discussed training and fitting the calves for the show.

Chester Gamble is leader of the club. The other members of the executive are J. Beyden, R. Todd, J. Bennett, H. J. Warrilow and Mr. Hubbell.

Reserve Force Committee Announces Military Dance

The local Reserve Force committee under the chairmanship of Capt. W. H. [illegible], has announced that a military dance will be held in Vermilion during the third week in April.

This dance will be a good will gesture to the officers and men of A Company of The Loyal Edmonton Regiment in acknowledgment of their long hours of training in military drill and weapons.

The Vermilion legion [illegible] hoped that [illegible] as to make the dance [illegible] the most successful ever to be held in the district.

Application is being made to the [illegible] Western Command that all [illegible] be permitted to wear [illegible] to get the old uniform [illegible] turns up in profusion [illegible] the reason why.

The Minister of Agriculture [illegible] for holding [illegible] the school of agriculture [illegible] are all facilities for [illegible] of this magnitude.

Further announcements will be [illegible] by the committee [illegible] Buckingham [illegible] sale of tickets.

Red Cross Meeting, Vermilion Branch

There will be a meeting of the Vermilion and district branch of the Canadian Red Cross society on Monday, March 17th at 8 p.m. in the town hall. A good attendance is requested.

Vermilion Calf Club Holds Spring Meeting

JIM ARMSTRONG IS ELECTED PRESIDENT

There was a turn out of 12 boys and girls for the spring meeting of the Vermilion Beef Calf Feeding club. There are now 22 members of this club which is under the supervision of District Agriculturist E. H. Buckingham and Club leader W. L. Robinson. The senior executive consists of Alex Morrison, Brent Macnab, Wilf Petvin and Mike Sebek.

The principal item of business was election of officers. The club chose Jim Armstrong as president, John Ilchuk as vice-president and Alex Schochopies as the secretary.

Mr. Buckingham gave a talk on the club program and finishing calves for the show which probably will be held at the time of the Vermilion fair.

Educational Squeeze

As we read about the 15,000 children in this province who are not getting proper schooling we wonder how many of them are Veterans' children. All through the war we talked about the New Order, the Brave New World and Post-War Reconstruction, assuming that we could provide freedom and equality of opportunity in a greater measure than ever before. And now—17 months after the big bang at Hiroshima which ended the war—our veterans in the rural areas see their children and their little sisters and brothers cheated by circumstances out of their first right in a civilized community—an education.

It surely doesn't have to be that way. This teacher-shortage has not crept up on us in the dark. We saw its beginning years ago but we did not act. It looks as if the Alberta child was in the middle of a squeeze between the young people who won't go teaching, the local Boards which don't want to raise the mill-rate any higher, and the Provincial Government which throws in an extra half-million in school grants and says — "That's all". It is in fact a deadlock; and the deadlock must be broken because the child is the victim. He has only one childhood and it is being wasted.

Interesting Power Plant Statistics For Year 1946

TOTAL SHUTDOWN 29½ MINS.

Some interesting figures regarding power plant operation were given by Supt. Jack Wiebe at the annual meeting of the ratepayers. The Standard made due note of these and finally worked down to them through a maze of notes on this and that. The statistics are of considerable interest, and follow:

Total output 1946 ...	704080 K.W.H.
Total output 1945 ...	552289 K.W.H.
Increase	151791 K.W.H.

Highest daily output 1946 on Dec. 19th — 2972 K.W.H.; New meters added in 1946 — 64; Total meters on line end of 1946 — 596; 5 electric welders on line for a total of 67½ h.p. Shut down due to mechanical failure during 1946 — 15½ minutes; Shut down due to boiler failure during 1946 — 14 minutes; Total shutdown during 1946 — 29½ minutes; Pole line extension during year 2,246 feet; Steam line extension 300 feet; Radiation added in 1946, 1,012 feet (equals $554.20); Steam heat customers 1946—65; in 1944 — 46.

A comparison of electrical demand increase in the town can also be gained from the output for the months of January:

January, 1947	73 393 K.W.H.
January, 1946	67 309 K.W.H.
Increase	11,084 K.W.H.

(an increase of nearly 17%.)

The Weather

Below temperature readings have been registered every night during March, some as cold as 36 below. The days without exception have been bright and clear. Daily readings for the month to date are:

Day	High	Low
Saturday, March 1	7.2	-15.5
Sunday, March 2	2.2	-27
Monday, March 3	5.6	-22
Tuesday, March 4	4.8	-21
Wednesday, March 5	2.8	-26
Thursday, March 6	1	-31
Friday, March 7	1.4	-30
Saturday, March 8	5	-22.5
Sunday, March 9	12.4	-13
Monday, March 10	15.4	-1.4
Tuesday, March 11	16.1	-2.8
Wednesday, March 12	17.5	-22.2
Thursday, March 13	21	-5.1

Our snow fall started last September with .04 inches; Oct. 2.6; Nov. 7.5; Dec. 6.8; Jan. 9.5; Feb. 5.5 and March to date 1.8. Total 34.2 inches.

The forecast is for a continuance of the mild weather of Thursday when thawing temperatures are expected during the afternoon.

—Statistics by courtesy of the Dept. of Transport Radio Range Station, Vermilion.

Islay Bonspiel Prize To Vermilion Rink

As far as the Standard can find out the Curtis Martin rink was the only Vermilion quartet to get into the prize winning class at the Islay bonspiel last week. Curtis won 4th in the Challenge. He was supported by Eddie McLaughlin, Lloyd Harris and Lorne Puckett. 29 rinks competed and a good time is reported.

Local Midgets Trim Lloydminster Team

On Wednesday night March 5th the local Midget hockey team sponsored by the Canadian Legion, handed the Lloydminster Midgets a 5-2 drubbing. Play was close until the end of the second period with the score reading 2-2, however during the final period the locals went to work to outplay and outscore the visitors 3-0. Play featured close checking, although there were several good scoring chances by both clubs.

A. Lampitt newly appointed inter-mediate teacher coaches and manages the Midget team.

See Newsprint Shortage Continuing

Most pulp and paper observers are agreed that newsprint will remain in short supply well into 1947, perhaps beyond. There is less agreement over the outlook for wood pulp, observes The Financial Post.

Canadian pulp and paper mills with 6½ million tons of rated woodpulp capacity of which 1.7 million tons are distributed in the open market, have a lively defiant and acute interest in the answer to this question.

Check that date on your label now!

THE STANDARD
VERMILION - - ALBERTA
ESTABLISHED 19[illegible]
Published Every Thursday Afternoon
At the Office, Main St.
S. & P. COOPER — PUBLISHERS

Vermilion, Alberta, March 13, 1947

EASY MONEY

It's warble time again — and time for action. Action last year brought to 30,000 Alberta farmers a gain of $5 per head on 600,000 cattle. To 60,000 others, inaction meant loss. The season is short, the prize attractive, and now is the time for every cattle owner to ensure his share of the profits.

The warble or heel fly is Alberta's most expensive cattle pest, and the easiest to control. At this time of year simple treatment is all that is needed. Once the larva has hatched from the egg and entered the host, nothing can stop its 8-month migration through the animal's system. Not until it arrives under the skin of the back and bores its breathing hole can we attack it. There is nothing we can do to stop the inflammation, irritation, discomfort and unthrift which attend the grub's painful course. These effects of last summer's infestation have by now cost the owner approximately $5 per head in reduced production, damaged hide and feed wastage.

Thirty thousand Alberta stockmen avoided all this. It cost them about 5 cents per head—a small expenditure in return for such a handsome dividend. These men highly recommend warble fly control, not only as good business, but as a humane act towards their cattle. Treatment is cheap, easy and completely effective — and it's WARBLE TIME NOW!

Would some power the giftie gie us to see ourselves—as we ought to be.

LEARN BY DOING

Approval is expressed by public health authorities of the system in vogue in some Canadian schools for teaching by the aid of compositions, essays or posters. It is pointed out that pupils who have to produce written or pictorial descriptions must, of necessity, learn something of the subjects they are to depict. When the subject is health and health preservation, the doctors believe that the youngsters will learn much which will stand them in good stead in later years.

HOCKEY — Midget hockey game Saturday March 15th at 2:30 — Vermilion vs. an outside team being arranged at press time.

RECORD SNOWFALL

Over 100 inches of snow fell in the Lethbridge district during the present winter. This is the greatest snowfall ever recorded in that district.

Wildmere Winks

The community extend heartfelt sympathy to Mrs. Riley of Vermilion, formerly of Wildmere, who has been bereaved by the death of a niece, sister and step-mother all within a week. It is nice that Mrs. Riley made a trip to eastern Canada and saw all of them last summer. Her sister Mrs. Cook who passed away visited Wildmere several years ago and made many friends in our district.

Congrats to Mr. and Mrs. Nelo and Mr. and Mrs. T. Thompson on the birth of sons; Also to Mr. and Mrs. Chas Waldengerger, Mr. and Mrs. G. Hetherington, Mr. and Mrs. D. Sweeney, Mr. and Mrs. R. Williams and Mr. and Mrs. M. Fallow on the birth of a baby girl each.

At our March meeting last Wednesday of the W.W.I. held at the home of Mrs. Frank Gibson, Rosswood, all the members and six visitors attended. A very enjoyable meeting was held, with roll being answered by amusing school incidents and many varied stories were told causing much laughter. Mrs. Wilson gave the topic on Education, and a very interesting talk it was, especially at the present time when Alberta's education seems to be slipping to a lower standard and something will have to be done about it. The mystery box, Johnny Jumps Up, was won by Mrs. H. Sybon. The next meeting will be at the home of Mrs. Garnett Sr. Mrs. Gibson will give the topic "Agriculture", roll call to be exchange of garden seeds. Mrs. Bathe has the social part. We were very pleased to have Mrs. H. Sybon rejoin our group and also to get two more members in the persons of Mrs. Roy Dibben and Mrs. Wm. Garnett, Jr. We now have 12 members in our W. I. Mrs. Nelo and Mrs. Ford of Vermilion W.I. attended the meeting and we were pleased to have them. Mrs. Geo. Dibben was a visitor too. After the meeting everyone got busy and quilted a quilt before going home. The top of which was donated to us by Mrs. Ford of town. Mrs. Gibson and helpers served a very tasty lunch to the group of willing workers.

The curling is almost over at our local rink. Wm. Smith's rink came out in first place and Cliff Crothers' was second. At present they are holding a little bonspiel and will finish up on Thursday evening. Then on Saturday evening the season will be wound up with a banquet for the curlers and their wives.

Winter still hangs on in spite of many wishing it would break, due to the feed problem.

The road maintainer with snow plow attached came out over our road again last Thursday cleaning out the odd drifts. The M.D. are getting two new outfits we are told, one to be stationed in town. We surely hope Mr. Geake will be allotted one of them as he deserves it for the good work he does. If as much dirt was moved in the summer as snow in the winter we'd soon have a splendid road to town.

Mr. R. Whitlock of Vermilion visited his son Guy and family of Wildmere on Monday.

St. Patrick's Dance Monday March 17th

The Britannia Rebekah lodge have planned a real St. Patrick's night dance for the evening of Monday March 17th. A program in keeping with the day is being planned and a novel and interesting evening is in prospect for all attending. Dancing is from 9 to 2 a.m. and admission is 50c each. The Oriole orchestra will be in attendance. 46-6

New Weather Stations To Be Established

In Arctic Circle

OTTAWA—Canada will establish nine new weather stations in the Arctic Circle to improve her domestic and international weather forecasting services, Reconstruction Minister Howe announced in the commons.

The stations will be established within the next three years and will be operated for at least five years to enable a complete study of their value in forecasting weather.

While Canada will be responsible for establishing the stations and supplying the officers in charge, the United States, because of her direct interest in the results, had agreed to supply technical officers and assist in the establishment and operation of the weather outposts.

Mr. Howe observed that Russia, affected similarly to Canada by Arctic sources of weather, maintained a large number of weather stations "on the other side of the North Pole." Canada already exchanged a large amount of weather information with Russia and the new Canadian stations would benefit this interchange.

Most northerly station in the new chain will be located in the vicinity of Eureka Sound, on the northwestern side of Ellesmere Island, some 600 miles from the North Pole. The main station will be at Winter Harbor on Melville Island, at approximately 75 degrees north latitude, 110 west longitude. Location of other stations was "a matter for further study."

"It is anticipated that the establishment of Arctic weather stations will provide our meteorologists with accurate information which will be of inestimable value to our national economy, and particularly to enterprises in many fields," Mr. Howe said. "From an economic point of view, long-range weather forecasting would result in savings far in excess of the monetary costs in establishing and maintaining these stations. Their establishment would also determine the feasibility of air routes across the polar regions."

Repair Costs Of Veteran Houses Paid By Ottawa

OTTAWA.—Veterans Minister MacKenzie, answering opposition charges of faulty construction in veterans homes said in the commons that the government will pay for a 100 per cent. repair job on 2 600 housing units built on small holdings under provisions of the Veterans Land act.

Mr MacKenzie saying that the repair work would cost between $500,000 and $700 000 stated that many of the defects were due to "faulty workmanship and the use of faulty materials. All the conditions were remediable and with few exceptions, at a very small cost." It was hoped the work would be completed within a few months.

Speaking during continued throne speech debate Mr MacKenzie rejected a Progressive Conservative party suggestion that a royal commission be established to investigate the building of homes for veterans.

The only feature with which a royal commission could deal "in my judgment would be the question of cost in capital cost," said Mr MacKenzie. "If we were to ask a royal commission to examine the physical condition of these houses it would [illegible] delaying their completion [illegible] delaying the furnishing of the [illegible] which these settlers are [illegible]."

[illegible] speakers in [illegible] included Hazen Argue [illegible].

Mr Argue sought to discuss the [illegible] before the board of [illegible] commissions for a 30 per [illegible] railway freight [illegible] Deputy Speaker Ross Mac-[illegible] that the matter was [illegible].

[illegible] requests as [illegible] contractors should not be [illegible] cost of repairs Mr MacKenzie said that the question [illegible] was being [illegible] definite that the [illegible] back on the veterans.

[illegible] said he was dealing [illegible] 2 600 homes on small holdings.

The veterans department now had in the field a committee that was investigating sample houses in small holdings projects. This committee was recommending the repairs which should be made.

The houses had been built at a time when there was an absolute housing emergency at a time of great difficulty. 2 600 houses had been provided on small holdings. The contracting firms used had been of the highest reputation and were all financially sound.

VON PAPEN SENTENCED — One-time ace diplomat of Germany, Franz von Papen, seen here under U.S. guard, has been sentenced to eight years in a labor camp and barred from public office for life by a German denazification court. Four months ago the 66-year-old Nazi was acquitted of major war criminal charges by the Nuremberg international tribunal.

INTERESTING DISCOVERY

CANTERBURY, England. — Remains of a Roman house, believed to belong to the mid-second century, have been discovered beneath the coachyard of the blitzed Rose hotel.

World cotton production for 1945-46 is estimated at 21,650,000 bales.

PROPOSE POSTAGE INCREASE

WASHINGTON. The United States post office department proposed to double the rates on penny post cards and generally increase rates on all mail except first class letters.

Approximately 1,500,000 Indians still reside in Brazil.

TRAFALGAR HOUSE MAY BECOME NATIONAL MEMORIAL — [illegible] heirs of Lord Horatio Nelson by Britain likely will result in the sal[illegible] Trafalgar [illegible] Wilt-shire, and it may become a national memorial. The 100-room [illegible] in 1805. Telescope which Lord Nelson clapped to his blind eye at the battle of Trafalgar [illegible] admiral's uniforms, may be presented to the nation when the [illegible]

In North Britain Winter, In South Spring

A new blizzard in north of England coal producing areas [illegible] up collieries and transportation as London basked in sunshine. Fuel crisis [illegible] shifts [illegible] 7,000,000 go on night [illegible] remains acute but factories in the Midlands are reopening. New [illegible]

ATOMIC WAR COULD DESTROY WORLD'S FOOD

TOKYO.—An atomic war could result in the destruction of the world's food supply, an agricultural expert at Gen. Douglas MacArthur's headquarters warned.

A foodless world could result from plant sterility caused by the effects of atomic bomb explosions, W. M. Myers declared.

He reported recently that abnormalities have been discovered in plant life in the atomic explosion areas of Japan.

Future generations of plants as well as current plant life can suffer from atom war, he said.

Myers, from State college in Pennsylvania, is a research specialist of the agriculture division of Allied headquarters natural resources section.

"If a gigantic world-scale atomic war came along, there is danger that plant life would suffer from radioactive dust particles that would be thrown into the air," he said.

"Not only would existing crops be wiped out if radioactivity of the particles was sufficiently intense but succeeding crops would be affected."

Help! Help!

VANCOUVER. More than one city resident objects to visits from mothers-in-law.

One Vancouver man who desired immunity from such visits placed an advertisement in a local paper which said:

"Help! Help! Mother-in-law arriving. Unless I find her a place to live she will move in with us. Anything will do: apartment or house, large or small, furnished or unfurnished. It's a house for her or a dog-house for me."

Sympathetic readers flooded him with offers to take the burden off his hands.

A mother-in-law who saw the advertisement said wrathfully: "The ad should be banned from the newspapers. It's the most [illegible] thing I ever heard of."

A half million species of insects have been catalogued by mankind.

OFF ON EUROPEAN TOUR

Harold Stassen, former governor of Minnesota and a presidential prospect, waves from the steps of a [illegible] jet at a New York airport. Stassen plans to visit 17 countries [illegible] Russia, to observe economic [illegible] tions, meet leaders [illegible] and to add to his background of foreign affairs. Stassen emphasized that he will travel as a private citizen and not as leader of the Republican party. During his visit to Russia Stassen said he hopes to obtain an interview with Generalissimo Stalin.

CANNOT USE SLIT TRENCH IN ARCTIC

CHURCHILL, Man. With the possible exception of the slit trench most of Canada's weapons of the Second Great War appear to have made efficient debuts under the [illegible] of sub-zero conditions.

Although officials of the joint services winter experimental base say it is too early to report fully, their statements seem to indicate that such arms as the 25-pounder field gun, wireless sets, the Bren-gun and rifle are capable of northern operations with some minor technical alterations in some cases. None of them has fallen down completely in [illegible] conducted by soldiers.

[illegible] as far as the frozen [illegible] is concerned, however, the slit trench appears to be out. Sanctuary [illegible] many a Canadian soldier, its few feet of length and width would probably cost a lot of money up here.

American engineers have been using the shaped charge, which helped blow apart Normandy beach concrete defences as well as other wartime explosive [illegible] to blow holes in [illegible]. Their experience is that [illegible].

[illegible]

BUTTER SITUATION SAID IMPROVED

OTTAWA. The butter situation [illegible]

[illegible] March 1 amounted to 11,2[illegible] compared with [illegible] Feb. 1 stocks were [illegible] pounds.

[illegible] stocks March 1 were [illegible] compared with 14[illegible] and 14,225,418 March 1, 1946.

Funds Provided To Facilitate Housing Needs

OTTAWA.—Funds to facilitate housing—both emergency and normal—are provided in the estimates tabled in the commons.

The new federal expedient of moving houses from one locality to another to meet emergency conditions is forecast in the estimates for the reconstruction department and an estimate of $700,000 for the purpose is provided.

No explanation of how the plan would work is given in the list of proposed disbursements. It was recalled, however, that some municipalities have [illegible] work of the same [illegible] with [illegible] the last couple of years. [illegible] surplus housing [illegible] purchased, knocked [illegible] up again.

[illegible]

Another spur to housing of the [illegible] appeared in the estimates [illegible] to provide [illegible] bonuses to [illegible] producers [illegible] materials.

It was the first time the size of the [illegible] available for this purpose had [illegible] Minister Howe recently said [illegible] this type of bonus would be paid only as a last resort. So far [illegible] has been [illegible].

[illegible] that the operations of Wartime Housing Ltd. will be continued in 1947-48 at a substantial, though somewhat reduced, volume was given in the estimates. The wartime housing estimate for the coming fiscal year is $27,000,000, compared with $42,000,000 in the current year.

Also [illegible] reduction [illegible] the house [illegible] for which the present year's $500,000 estimate has been sliced in half.

Large Sums To Be Spent On West Projects

Farm Rehabilitation

OTTAWA — An increase of $1,125,000 for special work such as prairie farm rehabilitation and [illegible] and assistance to [illegible] industries was the [illegible] in 1947-48 estimates [illegible] Dominion department of agriculture tabled in the commons.

The department's estimates for 1947-48 totalled $23,2[illegible]947 an increase of $2,349,155 over the $20,[illegible] voted for the 1946-47 fiscal year. The rest of the increase—$1,224,1[illegible]—is spread through the various services of the department [illegible] of $[illegible] the [illegible] service.

[illegible] $20,147,820 was provided for the agriculture department under the [illegible] Rehabilitation and [illegible] to do with [illegible] boards [illegible] of the wartime functions of the [illegible] the agricultural supplies board.

[illegible] $1,500,000 [illegible] St. Mary river [illegible] project in southern Alberta [illegible]

[illegible] $[illegible] for farm rehabilitation [illegible] works [illegible] storage [illegible] provinces.

[illegible] $[illegible]630 was [illegible] $240,000 [illegible] of $297,-[illegible]

[illegible]

ENDED IN FAILURE

BUENOS AIRES. Negotiations for an Argentine-Russian commercial treaty, deadlocked for the last six months ended in outright failure, well informed diplomatic circles said.

Argentina is the second largest South American country in both area and population. 2715

OUR COMPLETE SHORT STORY—

MR. PRECISION

• • •

By DOUGLAS R. WESTON

ONCE Sam Perwell had loved his wife but now he regarded her with loathing. She had long since lost her ashblond beauty and sylphlike figure; her white hair was always untidy and her patrician features had thickened and coarsened. Once she had had a waist he could almost encircle with one arm; today she tipped the scales at well over two hundred pounds and looked like a flour sack tied in the middle.

On the other hand, Sam, although edging toward sixty, looked no more than forty-five and, what was more to the point, still felt young. His capacity for enjoying life was still large and if Mathilda couldn't enjoy it with him there were others who could. Particularly Veronica. Unfortunately Mathilda controlled the purse strings, a fact which Sam now decided to correct.

It was all very simple. The best murders are, in fact, the simplicity of it all rather astonished Sam and later, as he sat in his office reviewing the morning's work, he pondered that he hadn't gone about disposing of Mathilda years ago.

As usual he left the apartment at eight o'clock, calling goodbye to Mathilda, who still sat at the breakfast table, reading the morning paper. She reminded him, in the hearing of Hilton who lived across the hall, that they were going to her brother's that evening for bridge.

The two men chatted inconsequentially as they walked down the stairs and up the street. Hilton, who sold insurance, mentioned the epidemic of burglaries in the district of late and Sam agreed that something should be done about it. At the corner, Hilton dashed across the street to catch an approaching streetcar and Sam turned east, nodding to Joe How the laundryman, who was talking to the corner grocer.

At the next corner Sam turned down the street and slipped along the alley to the apartment service entrance and cautiously made his way up the stairs. He let himself softly into the kitchen. Through the doorway he could see Mathilda in the dining room fumbling through her purse. She never heard her husband sneak up on her nor knew anything more after he struck her with a length of lead pipe. She crumpled to the floor in a sprawling heap with a little surprised grunt. Sam waited long enough to ascertain she was dead and to extract her wallet from her purse.

He had to take a taxi to get to the office for his usual time of eight-thirty, taking the precaution to get out a block or so from the office. Milly Drill, the switchboard operator, was talking to the office manager who looked at his watch as Sam entered.

"I can set my watch by you," grinned the manager. "Precisely eight-thirty." Sam smiled, shaking the rain from his hat. His insistence on doing everything precisely on the dot was something of a joke around the office.

"Did you walk over?" asked Milly. [illegible] "Every day, rain or shine, winter and summer."

"It must be murderous in modern weather," commented Milly. Sam said one became accustomed to such inconveniences, but privately he wished Milly had used some other adjective.

In his office he relaxed. The janitor would find Mathilda when he went up to repair the leaky faucet in the [illegible] he. Perwell had expressly called him about the previous night. He would call the police and the police—Sam chuckled. He had no fear of the police. Everything was perfect.

The police came seeking Perwell just as he was preparing to go out for lunch. There were two of them, tall husky young men with pleasant features. One introduced himself as Johnny Beauchamp of the Homicide squad and the other was Evan Dhu C[illegible] name was vaguely familiar but whom Sam couldn't place.

"Homicide squad?" echoed Sam.

"Yes." Beauchamp nodded, his face grave. "Someone entered your apartment this morning and assaulted your wife."

Sam gripped the desk and swayed, hoping the distress on his face was convincing. "How—how is she?" he faltered.

"Dead," said Carter bluntly. It was as they were on their way to the apartment in the police car that Sam realized that Evan Dhu Carter was not with them. "He isn't officially connected with us," explained Beauchamp, "although he has worked with us several times. He just happened to be in my office when the call came through."

The police were courteous and efficient. Their efficiency almost panicked Sam. Mathilda was lying on the studio couch, covered with a plaid blanket. Other policemen stood watchfully around. Beauchamp wanted to know if anything was missing and Sam looked through her purse and in bureau drawers.

"Her wallet's missing," he reported. "I don't know how much money she had."

They wanted to know what time he had left and he told them remembering that Hilton across the hall could corroborate his statement. They asked him if he had any ideas and he pointed out bitterly that the district of late had had a number of burglaries; only the preceding week a neighbor who had been walking home late had been pulled into an alley and the rings pulled forcibly from her fingers. Beauchamp nodded and muttered that the force was still understaffed.

After they were through questioning he packed a small bag and went to his brother's to stay for a few days. The police were such simpletons!

Mathilda was buried and the police had apparently dropped the case after a coroner's jury had returned a verdict of death at the hands of person or persons unknown. Sam disposed of the furniture, sublet the apartment and moved into his brother's. Everybody was so sympathetic.

Then one evening Beauchamp and Evan Dhu Carter called. Sam was in the living room reading and he looked up in surprise as they entered. Beauchamp leaned against the bookcase while Carter slumped [illegible] chair facing Sam. Sam felt [illegible] Beauchamp was regarding [illegible] thoughtfully and Carter had [illegible] satisfied expression of [illegible] caught a mouse.

"Mr. Perwell," said Beauchamp slowly, "what time did you say you left the apartment the day your wife was murdered?"

"Eight o'clock," replied Sam promptly. "I always left at eight o'clock."

"Yeah," drawled Carter, "and got to the office at precisely eight-thirty. You're a very [illegible] Mr. Perwell."

"Being precise is [illegible]" he snapped. "N[illegible] [illegible] But murder is [illegible]

Perwell gaped. [illegible] stuttered.

Carter nodded. "Yeah. W[illegible] [illegible] investigating. [illegible] they call you Mr. Prec[illegible] [illegible]

[illegible]

AULD ACQUAINTANCE NOT FORGOTTEN—A Labrador retriever dog, Gyn, arrived in Toronto, Ont., from Aberdeen Scotland, to live with her 20-year-old war bride owner, Mrs. Eileen Bodrug and meet the Bodrugs son, Ronald, five months old. Mrs. Bodrug, seen here with Ronald and Gyn, came to Toronto from Scotland with her husband, formerly in the R.C.A.F.

SAUNDERS WHEAT NEW VARIETY

WINNIPEG — A new wheat variety known as Saunders, described as highly resistant to stem rust, loose smut and bunt or covered smut, has been recommended for licensing by the joint agricultural committee of the National Research Council.

The committee, in session here, said the variety had been developed by J. G. C. Carl Fraser of Ottawa and was a cross between Thatcher and 447, the latter a Brandon Man., developed strain from the discarded Hope and Reward varieties.

Saunders wheat was said to be the equal of Thatcher in yield and superior to Red Bobs, grown in the Peace River Northern Alberta and Northwestern Saskatchewan fields. It was two or three days earlier in ripening than either of the other two varieties and was also said to be equal to the best wheat in baking qualities.

GARDEN NOTES

◆ ◆ ◆

Not Too Formal

An informal layout of flower gardens, lawn and shrubbery about the home almost always gives the best results. Straight rows, straight paths and everything just so is a matter for professionals and large estates. With the average lot in town or country there are too many straight lines in any case like driveways, foundation walls and fences. The main idea in gardening is to break these and soften them. To do this shrubbery is planted in irregular clumps around but not too close to the house, with biggest groupings at the corners and around the front porch. Variety may be added by the [illegible]

Will They Grow in Canada?

Many beautiful flowers and shrubs that will grow well in the Southern States or in the mild climate of England [illegible]

Grow 'em Fast!

Any vegetable taken right out of the garden at the door will be tastier than those out of car or stores, but [illegible]

Gave Idea For Telephone Booth

An unidentified [illegible] who complained about the [illegible] of telephone inventor Alexander Graham Bell opened the way for the [illegible] telephone booth.

At a luncheon commemorating the 100th anniversary of Bell's birth, Gordon S. Wallace recounted the incident as he heard it years ago from Bell's assistant Thomas A. Watson.

He told me that the landlady of a rooming house where Bell was experimenting threatened to dispossess both of them if they didn't stop their yelling.

"So [illegible] the sound Watson stripped [illegible] bedclothes, draperies [illegible] and wrapped himself in them.

"And that's how the telephone booth was born."

MILLIONS OF PRINTS

There are more than [illegible] prints in the fingerprint files of the U.S. Bureau of Investigation of the United States. This is said to be the most complete collection in the world.

LOANS
Up to $3,000

A NEW Dominion Government Act provides that war veterans, resident in Canada and entitled to War Service Grants, may borrow up to $3,000, on long terms, at reasonable interest rates, for business and professional purposes, as follows.

The purchase of a business or of an interest in a business.

The purchase or repair of instruments, tools, machinery or other equipment to be used in a profession, trade or business.

The construction, repair or alteration of a building used or to be used in carrying on a profession, trade or business.

This Bank is authorized to make these Veterans' Loans, and our Managers will be glad to give helpful advice and assistance to all entitled to such loans.

Veterans may freely consult our Managers — many of them veterans themselves — as to how they can conveniently borrow for business and professional purposes.

Demonstration School May Revolutionize Nursing Education

[illegible], President of the Canadian Nurses' Association, is pleased to announce that the Canadian Nurses' Association has decided to sponsor a new venture in the field of nursing education. The proposed plan calls for the organization of a hospital school of nursing on an independent basis which means that both financial and administrative independence will be assured for the school (though it will retain a very close association with the hospital). It is hoped that this new freedom and control will make it possible to give a thorough education and training in nursing in less than the usual period of 3 calendar years, even with a possible reduction to a period of 2 years or not much more. In return for the assured educational value of the course, and further assured controls, the student will be expected to make some payment in the nature of tuition fees.

The immediate formation of this "Demonstration School" has been made possible through the granting of financial aid by the Canadian Red Cross Society. The Canadian Nurses' Association is deeply grateful for this generous support which follows the fine tradition of Canadian Red Cross in its long record of relationships with various professional groups. It is hoped that in the course of time, hospitals and patients throughout the whole country will benefit from this very practical effort to remove some of the weaknesses in hospital nursing that are resulting from the confusion between the responsibilities of the nursing service of our hospitals and the responsibilities of nursing schools which must always be associated so closely with the hospitals.

Appreciation

[illegible] Calgary, Alta.

Mr. S. R. P. Cooper,
Vermilion Standard.
Dear Mr. Cooper:

At the conclusion of the most successful Christmas Seal campaign in our history I feel that I should let you know at once how very grateful we are for the assistance we received from you and your organization.

Our $100,000 objective was realized, with a few dollars to spare. We have come a long way since the winter of 1942-43, when only $23,000 was raised in the whole province. It heartens and stimulates us to work harder and harder to defeat tuberculosis, when we know that the people of the province are so solidly behind us. [illegible] made up the $100,000 total.

Please accept our sincere thanks.

Faithfully yours,
Eric Connelly, President.

Radiograms

THE FIRST QUARTER

CJCA's first quarter century of operation will soon be water under the bridge. In a matter of weeks CJCA will be celebrating the memorable event 25 years ago which brought radio to northern Alberta. On May 1, 1922 the late D. M. Duggan, then mayor of Edmonton, officially opened CJCA with a message which incidentally was heard in High River and Calgary.

Three days later the McDougall church choir sang over the air. A week later the Edmonton Rotary club meeting was broadcast. Capt. Grover, "The Farmer" joined the staff three years later and the still famous Kiddies' Program became a reality a [illegible] later.

To McGavin's Ltd. goes the distinction of being the first time buyers on CJCA.

The Eveready Hour was the first "network" program carried by CJCA. This was Oct. 3, 1929.

With this commercial radio was established and the medium of radio became more than a mere plaything — a mere source of entertainment and amusement.

From that point onward, radio, and CJCA as part of it have marched forward with tremendous strides.

Today, only 25 years later, radio is a major publicity medium, with limitless possibilities. What lies ahead nobody knows, but the immediate future offers frequency modulation followed by facsimile, followed by television.

Meantime CJCA's plans call for celebrating jointly the 25th anniversary and the increase in power to 5000 watts, both scheduled for the latter part of April.

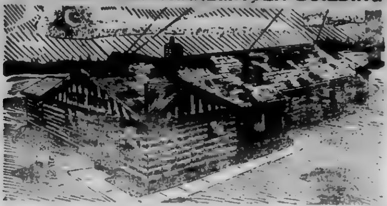
CFRN'S NEW TRANSMITTER BUILDING



Above is pictured an architect's drawing of the transmitter building which will house CFRN's new 5,000 watt transmitting equipment. It is located 3½ miles west of Edmonton's city limits, on the Jasper Highway near Spruce Grove. The building will be finished in keeping with CFRN's [illegible] Indian theme, but inside will contain radio's most intricate and modern equipment. At extreme upper right is shown the base of the new steel transmitting tower which is now sending out Northern Alberta's most powerful radio signal.

WOODVALE

The Red Cross meetings of the Canton-Watson auxiliary have been very well attended this winter. The one on the 26th of February at the home of Mrs. B. Lyseng made somewhat of a record at that with 16 ladies present. The quilt was large and it took all afternoon to finish it. It will go to Holland to a family in need of such a warm covering. Two thank you letters from England for two quilts received there were read by the secretary and one from Mrs. Machell for the Xmas shower. Several finished articles were turned in and all the new work on hand given out. Enough printed material was donated that afternoon to make at least two quilt tops and part of a third. The collection brought in $2.95 and it was decided to have the next meeting on March 19th at the home of Mrs. A. Lyseng. The hostess served a delicious lunch and that was the end of another very pleasant afternoon.

Ideas worth dying for are what makes life worth living.

Claysmore Clippings

Lee Kreller is having Art McBride of Vermilion do some brush cutting on his farm.

The Wheat Pool held a meeting at the school Wednesday evening Feb. 26 when several moving pictures were shown and a talk given on Wheat Pool topics. Mr. Geo. Bennett of Mannville and Mr. Norman Stewart of Vermilion were the speakers. There was a small attendance but those present certainly enjoyed the evening.

Congratulations to Mr. and Mrs. Ray Williams on the birth of a daughter.

Mr. and Mrs. P. Krushinsky are driving a new half ton Chev truck.

Mr. and Mrs. W. Antrim were recent visitors to Edmonton.

Mr. and Mrs. C. Cortsman who have been at Claysmore for the past ten years have now moved to Edmonton. Mr. Cortsman has retired from the railroad as he has been 25 years with the C.N.R. They will be greatly missed in the community.

Miss Horrocks spent a recent week end with Miss Jackie Antrim.

Mr. and Mrs. V. Eaton accompanied by Mrs. Dale Williams attended the winter carnival in Edmonton.

L. C. Burnett is visiting his sister and family Mr. and Mrs. G. Guinel at Onoway, Alta.

Joe Vert of Vermilion has been helping H. Williamson do some brush cutting.

Eyes Right!

Importance of good lighting for close work is stressed by the specialists, who declare that care of the eyes is one of the prime health needs of our generation. With reading, writing, draughting and other modern techniques, the eyes are under constant strain. Those who suffer even brief and apparently minor eye afflictions are urged to consult their family doctors about such ailments. What is bothering the eyes may be readily remedied, but serious trouble can result if these early warnings are neglected.

Growing Appreciation Of Good Music Evident

ALBERTA GOVERNMENT SETS UP CULTURAL DEVELOPMENT BRANCH

EDMONTON—There is a growing appreciation of good music in the province at the present time, according to R. MacDonald, Co-Ordinator of Cultural Activities for the Alberta Government, who has returned from a brief tour through Central Alberta.

Mr. MacDonald made the tour on the invitation of the University of Alberta Mixed Chorus with whom he visited Calgary and Banff. Under the directorship of Gordon F. Clark, Calgary, [illegible] year medical student at the university, the choir appeared in two concerts at Knox church in Calgary sponsored by the Optimist Club and gave one concert in the Banff [illegible] auditorium under auspices of [illegible]. Each concert was presented before a full house and received a warm ovation, Mr. MacDonald said. During its two years of existence the choir has appeared twice publicly in Edmonton and it is to be hoped that appearances in other centres may be made possible.

"The programs presented by the choir were of high order, including selections familiar to all. The [illegible] was an indication of the [illegible] [illegible] others of what can be done [illegible] are combined," Mr. MacDonald [illegible].

In an effort to [illegible] pared under the [illegible] Keymes [illegible] the University [illegible] will be [illegible] to [illegible] berta Music [illegible] of other [illegible] endeavored [illegible] receive [illegible] to make the survey a complete success.

Mr. MacDonald whose branch of government was [illegible] 1946, following passage of the Cultural Development Act, [illegible] that his department now represented a medium of promoting [illegible] objectively.

Mr. MacDonald said that there is plenty of talent in our province both cultivated and uncultivated but our cultural life as a whole [illegible]. It need not remain that way with the [illegible] of the people [illegible] the Cultural Activities Branch [illegible].

Since 1922 nearly 5,000 crippled children have been given treatment in one Junior Red Cross Crippled Children's hospital. A new hospital will be erected to give greater facilities for restoring health and strength to these little deformed bodies. Will you help to give a crippled child a chance to run and play [illegible] happy useful life?

Now-5,000 Watts Of Power!

BETTER LISTENING THAN EVER BEFORE

Wherever You Are

[illegible] FOR

The nation's biggest network shows are yours to enjoy over CFRN. Everything from comedy to drama, from Fred Allen to Roy Rogers comes to you when you dial 1260! Entertainment PLUS from over 20 top network shows each week!

CFRN devotes much of its time in the interests of Northern Alberta. In the war years for instance, over 150-thousand dollars of time was donated to various causes—and a good proportion of this was for organizations outside Edmonton.

Eight newscasts a day keep you up to the minute on world, local, and district news. CFRN's completely independent news department maintains its own staff of reporters to keep Northern Alberta fully informed about important events.

CFRN has long been known as Edmonton's "Sports Station." Three times a day, Gordie Williamson covers all matters of sport interest. Your town and district can get sports coverage, simply by writing the details to CFRN!

. . . and these TOP TOWN & COUNTRY FEATURES

With a jump from one-thousand watts, to the new power of five-thousand watts, CFRN is in a better position than ever to bring you the features you want to hear "The Farm Service Broadcast," "Report From Parliament Hill," daily farm produce prices, coverage of all agricultural meetings and events, programmes designed for your interest and entertainment—all of these form a large part of CFRN's schedule. The new 5,000 watts is dedicated to the service not only of Edmonton, but of all Northern Alberta!

Northern Alberta's Most Powerful Station!

The World of Wheat

By H. G. L. STRANGE
Director, Research Department,
Searle Grain Co., Ltd.

SEED TREATMENT

The time has come around when farmers should begin to think about the treatment of the seed they intend to sow. Based on my own personal experience, the results of hundreds of many experiments I have seen and on advice given by [illegible] authorities, I do not hesitate to recommend strongly to farmers to treat their wheat, oats and barley with Mercury dust, either [illegible] or Leytosan. I strongly recommend the use of these dusts even though a farmer may think his seed is not affected with stinking smut or bunt, because these Mercurial Dusts not only guard against stinking smut or bunt but in addition reduce losses from seed rot and seedling blights and some bacterial and fungous diseases, so tending to improve the strength of the plant, so tending to ensure a higher yield.

It is best to use a Kemp Dust Treater, but there are other simple devices for treating seed which can be used, all of which are described on the packages in which the dust is sold. These Dusts can be purchased from any hardware store.

A farmer should be careful to pro[illegible] mouth from the mercurial dust; how to do this is described on the package.

MOUTHS WATER when the fragrance of Maxwell House fills the air. This wonderful blend of coffees is *Radiant Roasted* to develop to the full all its extra goodness.

Islay Municipal Hospital Rates

Ratepayers	$1.00 per day
Contract Holders	$1.00 per day
Non-Ratepayers	$3.50 per day

RATES ARE ALL INCLUSIVE — NO CHARGES FOR EXTRAS

Non-ratepayers may qualify for the $1.00 per day rate by purchasing from the Matron or Secretary before March 31st, a Hospitalization Contract at the flat rate of $8.00 per family.

ONLY RESIDENT RATEPAYERS of the Hospital District requiring hospital services involving equipment not available at the ISLAY HOSPITAL may qualify to receive treatment at $1.00 per day in any of the four larger Edmonton Hospitals. All applicants accepted must be recommended by DR. A. H. SWEET and must secure an Application Form from the Secretary or Matron.

The Board's responsibility to provide Hospital care for anyone shall be limited to the availability of bed space and of qualified Nurses.

Lydia E. Pinkham's VEGETABLE COMPOUND

PREDICTS CANADA TO BE EMPIRE HUB

LONDON.—Fifty years hence Canada will be the strategic centre of the British Empire, C. R. Fay, formerly professor of the economics department at the University of Toronto wrote in a letter from Cambridge, England, printed as a Sunday Times editorial.

Canada, he said, by reasons of her immense resources of minerals and the power and quality of her people will, with a much smaller population than the United States, nevertheless equal the United States in internal wealth and striking power.

Fay continued:

"It is true that Canada cannot allow herself to be attached militarily or diplomatically to England. England therefore must gradually work to a position in which she is attached to Canada.

"Canada will not welcome the implications of this. She herself would like to continue as a middle power, intermediate and mediative, but ultimately her policy must conform to the realities of power, however unwelcome the accommodation may be."

Fay also referred to the disastrous policy of placating Russia and the United States by surrendering the [illegible] overseas Empire.

FUNNY And OTHERWISE

"What made you decide to put off your wedding by two days?"

"Well, you see, I reckoned it so that my silver wedding would come on a Saturday and I always play golf on Saturdays."

The landlady showed her new lodgers into their room, and hovered about anxiously while they looked around.

"Now I do want to be a good landlady," she exclaimed, "so if there's anything you want that I haven't got, do let me know, and I'll show you how to do without it."

The after-dinner speaker [illegible] talked for fifteen minutes.

"After partaking of such a [illegible] I feel [illegible] I would [illegible]"

From the far end of the table came an order to a waiter: "Give him a sandwich."

"That pretty girl seems to be having a good time."

"Yes, yes—her fiance, a young medical officer in India, is coming home to marry her next month."

"Well, she certainly seems to have solved the problem of what to do till the doctor comes."

Minister: "I made seven hearts happy today."

Parishioner: "How was that?"

Minister: "Married three couples."

Parishioner: "That only makes six hearts."

Minister: "Well, you don't think I did it for nothing?"

Employer (interviewing applicant for job): "Know anything about electricity?"

"Yessir."

"What's an armature?"

"A chap who boxes for nothin'."

"I can't understand why I didn't get that job," said Betty.

"Well, what did the manager ask you?" inquired her friend.

"He asked if my punctuation was good."

"And what did you say?"

"I said I'd never been late for work in my life."

Major: "Your reports should be written in such a manner that even the most ignorant can understand them."

Corporal: "And what is it, sir, that you don't understand?"

[illegible]

Little Winnie, seeing the vicar approaching, and remembering the text he had given her at Sunday school: "Oh Mummy . . . Here's the gentleman who gave me that advertisement about Heaven."

NOT GOING ANYWHERE

CAMBRIDGE, O. [illegible]

The [illegible]

Master Chessboard

Pondering a move, Frank Lilley, 12, is seen at a meeting of the newly formed Junior Chess league of Toronto, Ont. Membership has reached 300 and is growing.

One of the keen players of the youthful chess group is Jane Applegath, 14, seen here. I. A. Horowitz, outstanding U.S. chess player, played 30 simultaneous games with the youngsters.

Chess tournaments, in which 20 Toronto schools are represented, is now in progress. Joanne Huggens, 10, is another of the young students of the pastime, learning the complicated plays.

GEMS OF THOUGHT

CHOOSING

The strongest principle of growth lies in human choice.—George Eliot.

The measure of choosing well is whether a man likes and finds good in what he has chosen.—Lamb.

Choose always the way that seems the best, however rough it may be; custom will soon render it easy and agreeable.—Pythagoras.

The objects we pursue and the spirit we manifest reveal our standpoint and show what we are winning.—Mary Baker Eddy.

Men must be decided on what they will not do, and then they are able to act with vigor in what they ought to do.—Mencius.

A determinate purpose in life and a steady adhesion to it through all disadvantages are indispensable conditions of success.—W. M. Punshon.

FRENCH PLANE HAS HARROWING 400-MILE FLIGHT OVER ATLANTIC

—IMPORTANT CARGO JETTISONED

PARIS.— Eleven passengers and six crew members of an Air France plane landed safe in Casablanca recently after a harrowing 400-mile flight over the Atlantic Ocean in a crippled airliner.

The trouble developed after the four-engined Constellation left the Azores on the last leg of a New York-Paris flight. The plane flashed an SOS after fire burned out one right motor.

Trouble later developed in the second right motor, and the plane began to lose altitude. The cargo, including 40,000 copies of recently-signed satellite peace treaties printed in the United States, was jettisoned.

The plane began to rise again, and ventured away from the vicinity of two freighters which volunteered to stand by in case the craft went down in the Atlantic. When the plane arrived over the Casablanca airport the undercarriage failed to work properly, and the ship circled several times before landing, according to information reaching the air line in Lisbon.

The actual landing, however, was described as "normal", and none aboard suffered any physical harm. Passengers were to be transferred to another plane for the flight to Paris.

The crew of the stricken plane radioed that one of the right motors caught fire and burned out completely. It said the other right motor then began to fail. Lisbon said the second motor stopped.

In Paris, however, a representative of Lockheed Aircraft, builders of the Constellation, said three motors were working when the plane landed at Casablanca, and that none was burned out.

Farmer Cuts Off Hand To Save Life

CAIRO, Ill.—A farm woman recently related how her husband cut off his hand at the wrist with a pocket knife to avert being pulled bodily into a corn picker that caught his hand.

George E. Kirk, 50, his wife said, amputated his hand alone in a field on their farm. Mrs. Kirk said her husband amputated the hand by cutting around the wrist joint, unhitched the tractor from the picker, hooked it to a wagon and drove 1½ miles to his home. He told his wife to drive him to hospital and finally collapsed almost within sight of the hospital.

Briton In Nazi Army Spied Out German Secrets

BOURNE END, Bucks.—Lt.-Col. Alexander Patterson Scotland might have served as the original for a Baroness Orczy type thriller.

The 58-year-old British Intelligence officer served in the German Army during the war and at one time knew almost the entire disposition of the Nazi armed forces.

Scotland's colorful story came to light in Venice when he testified at the war crimes trial of Field Marshal Albert Kesselring, former German commander in Italy.

But some inkling of his story came from his grey-haired, blue-eyed wife who told what she knew at her small cottage here.

Mrs. Scotland said that few people at Bourne End had ever suspected her husband's double life. They knew there was something "fishy" about the way he was called for and returned home in a military car and the way he disappeared without notice for [illegible]

Vermilion Member Tells of Happenings in the Legislature

— BY —

W. R. Cornish, M.L.A.

Hon. W. A. Fallow, in taking part in the debate on the Speech from the Throne, reported that over 4,500 miles of main highways had been maintained last year, and also nearly 5,500 miles of district highways. Last year over 1,300 miles of municipal roads were constructed, and nearly 1,200 miles gravelled, which the Government assisted with municipal grants.

Three hundred and seventy one miles of main highways were constructed last year, and 581 miles of main highways were surfaced with gravel. Nearly 100 miles of road were given the base-course treatment.

More than 60 steel bridges were repaired or built, and over 250 timber bridges. Ten steel bridges are presently under construction, four of which are on the Grimshaw highway.

Revenue in this Department for 1946 from Vehicle and Highway Traffic Act, Fuel Oil Tax Act, and Highway Traffic Board, was close to [illegible]

In replying to criticism by the C.C.F., the Hon. Mr. Fallow gave the following information from the public accounts of the Province of Saskatchewan.

Last year, by an educational tax they collected more than $5,500,000; by public revenue tax (which is similar to our past Social Service tax) they collected $2,154,000; and by the collection of direct relief extending back from 1930, they collected nearly $5,000,000 more. This money collected on direct relief included medical services, feed grain, fodder, and grasshopper and gopher extermination. All of these same debts in Alberta have been cancelled by the Alberta Social Credit government, while in Saskatchewan they have forced collection of these debts from the farmers, many of these debts dating back for 16 years. Saskatchewan paid less for education than was collected by the Educational Tax, and so took nothing from the rest of their provincial revenue for educational assistance.

"One out of every eight Alberta citizens was X-rayed for T.B. last year," reported Dr. W. W. Cross, when taking part in the Debate on the Speech from the Throne. "The death rate from this disease had been reduced 35% since the present government took office.

"Last year more than 11,000 patients were checked in the two cancer clinics. Approximately one-half of this number did not have the [illegible]

"Fourteen buildings have been purchased from the Red Deer Army camp, which will be used to enlarge the facilities at the Red Deer Training school.

"When six more municipal hospitals are established in this province, we will have sufficient hospital beds for all our citizens," said the Minister.

Bowtell Bulletin

Due to measles in the district the Busy Bee meeting has been cancelled for March. The next one will be held in April.

Mr. De Leuw and Margaret, Mrs. Penton and Noreen McGinnis were [illegible]

The Busy Bee club members wish to thank Mrs. Fry for her donation of $2.

We are sorry to learn that Mrs. Dow is a patient in the Vermilion hospital at time of writing.

A very good time was enjoyed at the last dance. Harry Simanchuk was M.C.

Clifford Shepherd returned home last week.

Mr. McFarland has sold his farm but we are pleased to say that they are going to live in Vermilion. Mr. Dibbon bought the farm.

Mike Warren is helping at the Perkins farm now that Mr. and Mrs. Williams have moved to their own farm.

Miss B. Coutts spent last week end visiting her cousin Miss I. Sherwood.

Miss I. Risdale spent the week end visiting her brother and family, Mr. E. Risdale in Islay.

Neal Harrison and the School children are victims of the measles at [illegible]

Leslie Sherwood spent Sunday night at the Millar home.

Mr. and Mrs. Knutson and Harold were recent supper guests at the home of Mr. and Mrs. T. Sherwood.

Mrs. Perkins and two children were Sunday visitors at the Robinson home.

Quite a number of the young people enjoyed a toboggan party at Millar's. Mrs. Millar certainly gave them a real start with lunch and ice cream on Sunday.

The Dougan family were Sunday visitors at the Rochfort home.

The Aim of the Alberta Educational Council

In view of recent criticism in the legislature of the purpose of the Alberta Educational Council, it would be well to repeat that this organization has risen in response to a province-wide belief that education and particularly education in rural schools is becoming progressively inefficient through a shortage of well trained teachers. The Council has no political purpose. It is [illegible] of course for any group or organization to urge vigorously change and reform in any social institution [illegible] are responsible for its [illegible] feeling that they themselves [illegible] under attack. [illegible] the constitution of the Alberta Educational Council will [illegible] of the purely educational [illegible] [illegible] voting population [illegible] have been [illegible] of informing the public [illegible] present situation in rural [illegible] of rallying citizens [illegible] support this much [illegible] the methods [illegible] this province.

Health Habits

Don't expect the children [illegible] up to like health [illegible] offer them [illegible] tender years [illegible] by a national health [illegible] reminds parents that habits [illegible] in childhood [illegible] lasting.

Step right up and meet a Sweetheart
1947

STEP up now, good people, and meet the fashion master of the new season.

Here's Buick for 1947—style-wise, performance-wise, quality-wise and value-wise the sweetest "buy" your dollars are going to find anywhere this year.

Eye well that sparkling new grille—behind it you'll be plainly marked as strictly up to 1947 in your travel standards.

Take in the tapering grace of long, sweep-through fenders—there's the hallmark of a style pattern sure to bring you notice and approval wherever you may go.

Note the reach of the bonnet—long, deep, broad-chested—there's a lifetime of thrills in such bountiful supply of Buick Fireball straight-eight power.

Spot the solid footing of a carriage big as you deserve—the breadth of beam that spells room aplenty—the ready-to-go poise of four coil-sprung wheels ready to level the roughest roads into boulevard smoothness.

And in particular, mark down this:

Not one smart model but nine will present this fresh front to the world this season. [illegible]rs in three series, three wheelbases and three price ranges give you a triple-barrelled chance to know Buick size, Buick beauty, Buick ability when you travel.

Choose from two versions of the garage-handy SPECIAL — four of the light-footed SUPER — three of the great-hearted ROADMASTER series.

In each you'll find a rich abundance of the things that make Buick Canada's most wanted automobile—engines that seem to stay forever young, the matchless buoyancy of BuiCoil springing, the spaciousness of great room, the feathery handling of controls that are always "obediently yours."

Curling Club To Hold Dance on March 25th

The Vermilion Curling club are planning something a little extra in the way of dances for Tuesday March 25th in the Elks hall and tickets for the event are now being sold. The ticket also gives you a chance on a valuable door prize.

The proceeds of the dance will go into the building fund and will help pay for the very many and fine improvements made to the curling rink this past year. 44-5

Comments on EVERYBODY'S BUSINESS

In Canada, we think rightly that we have one of the best democracies, but few of us ever stop to check how the vital things of life are protected and made secure for us.

A thoughtful friend, who does as much good as anyone I know, said to me: "Don, do you realize what it means to you and to me, and to millions of other Canadians, that we can take it for granted that Life Insurance is safe? There are 4,000,000 Canadian owners of Life Insurance and the number is growing every day."

The sound reputation of the Life Insurance companies in Canada means that you can pick your plan, your kind of policies and your company, — no wonder millions of Canadians invest with complete confidence.

• • • •

Life Insurance is a business built for everybody, a great enterprise which protects the future of more than four million policyholders and their loved ones. Life Insurance offers a systematic and easy way to save. Consult an authorized agent about a plan best suited to your requirements. 1B-47

BIG DAYS AT THE SCHOOLS OF AGRICULTURE

ACHIEVEMENT DAY AT VERMILION WEDNESDAY, APRIL 2nd

The schools of agriculture at Vermilion and Olds will shortly hold their Little Royal and Achievement days. A cordial invitation is extended to the public to attend these annual exhibitions.

At Olds the Little Royal has been arranged for Saturday, March 22, and Achievement day one week later, on March 29th. At Vermilion both the Little Royal and Achievement day will take place on Wednesday, April 2nd. All events are scheduled for the afternoons of the days mentioned.

The Little Royal is a livestock show in which the fitting and training of animals for exhibition is demonstrated by the students. There will be various classes in horses, dairy cattle, beef cattle, sheep and swine. The Achievement day is the occasion towards the close of the term when shop and class work of all kinds accomplished through the school term is placed on competitive exhibition. This show includes projects in woodworking, metal work, seed exhibits, home nursing, sewing, knitting, weaving and other handicrafts. Achievement day at Olds commences with a fashion parade. At Vermilion the fashion parade will be held as a feature of the closing exercises on April 9th.

Parents of students are especially invited, but these events also offer an opportunity to the general public to visit the agricultural schools and inspect much of the work done during the term. Everyone interested is invited to attend these displays at the schools of agriculture.

Dressing Service For Cancer Patients

The Cancer Dressing Service inaugurated late in January by the Alberta Branch, Canadian Cancer Society, reports that at the end of February, 35 patients were being supplied with dressings. These patients are from widely scattered districts of the Province — cases being handled at Hondonvale, Bonnyville, Edmonton, Leduc, Coronation, Olds, Hanna, Calgary, Medicine Hat, Lethbridge and Cardston. It is expected that the number of requests for dressings will increase steadily.

Cancer patients who wish to avail themselves of this free service should make application to Cancer Dressing Service, 511-8th Ave., West, Calgary. The basic information required in making application is: size of dressing, daily requirements and whether they should be sterilized or not.

Letters have been sent to Doctors throughout the province informing them of this free service so that they may pass the information on to the patients.

Chatsworth Chatter

Roads have remained open so far throughout March. Our weather certainly has not been March-like, but rather January temperatures have been the order of most nights and some days.

A crowd of 50 people attended the moving pictures at the school on Feb. 28th. Educational movies, including a special reel in cooking for the ladies and an appealing comic for the kiddies were enjoyed by all. Mr. Geo. Bennett of Mannville gave the meeting a talk on 4-H Food Club activities and Mr. Stewart addressed the school age children with a short explanation of co-operatives and the manner in which the co-ops function. Lunch was served at the close of the evening.

Mr. Hector Lovell and Mr. E. East are patients in the Vermilion hospital. We all hope they will soon be up and around again.

Miss Millburn is staying with Mrs. East while Mr. East is in the hospital.

A good many cases of flu have been making the rounds lately.

Mrs. Mattie Smith and Hattie of [illegible] were visitors to Mr. and Mrs. R. [illegible] from Feb. 28 to March 2nd.

Miss [illegible] spent last week end at her parents home in Lloydminster.

June Thompson spent the week end of March 1st at home.

Mrs. W. J. Peake, Jimmie, [illegible] and Ruby Lyn spent last week end at Mr. and Mrs. Jim Thompson's.

Alice Thompson celebrated her 12th birthday on Sunday with a tobogganing party followed by a birthday supper. There were 11 children in attendance and they report a very enjoyable afternoon.

Charlie Parkash has invested in a saxaphone and is making rapid progress in his music making.

Howard Ferguson spent last week end visiting his father.

Little crippled children will romp and play again

because of your Red Cross help

WITHOUT the help of the Red Cross, many little children, whose parents cannot afford medical and surgical treatment, would have to go through life with crippled arms, feet, or other deformities. With the help of the Red Cross, scores of little ones will romp and play again and grow up as healthy, normal men and women.

In some localities the Red Cross maintains its own hospitals for crippled children. In other localities it supports the splendid work being done by modern children's hospitals. This work must be continued, and expanded. It is directed by the Junior Red Cross. Will you help restore these little crippled ones to normal health and strength?

W. P. PILKIE, CAMPAIGN MANAGER, PHONE 121

CANADIAN ✚ RED CROSS

The week of many causes and — Give

BLOOD IS LIFE . . .

One of the major factors contributing to the causes of death in the Dominion is the lack of adequate transfusion facilities in our hospitals to cope with accidents and other illnesses.

To meet the needs of Canadian hospitals, the Red Cross is establishing, as part of its peacetime program, a completely free Blood Transfusion Service. This new activity will eventually make it possible for every hospital in Canada, and the patients they serve, to obtain a constant supply of whole blood and plasma free of charge.

Those who will remember the part played by blood plasma and blood products in saving lives during the war will realize the importance of this peacetime service. Every day there are instances of civilians, mothers in childbirth, victims of fire and those suffering through accident, illness and disease, needing blood to save their lives. The majority of Canadian hospitals find difficulty in providing sufficient blood to meet emergencies.

This is an important Red Cross service and a costly one with results measured in terms of lives saved. More than one-fifth of the $5,000,000 budget required by the Society in 1947 will be used to ensure the availability of life-saving whole blood and plasma through hospitals to all Canadians from coast to coast.

Your support is needed . . . Now!

$4,000,000 Highway Paving Program, '47

Hard surfacing of Alberta highways this year will mean an expenditure of $4,000,000, according to estimates tabled in the legislature when the 1947-48 budget was brought down.

The vote includes $8,500,000 for main highways, which means many improvements in different parts of the province. The total vote of $13,000,000 for public works includes large appropriations for municipal, district and secondary highways, bridges and ferries.

Officials of the Alberta Motor Association welcomed the announcement of the government's greatly expanded road program.

This organization has urged for many years that all monies collected by the province in motor licenses and gasoline tax should be specifically spent on highway construction and maintenance. It appears from the budget that this year the program means that the province plans to exceed motor revenues by its increased outlays on public works, mostly roads.

One of the big projects for the 1947 program will be the hard surfacing of the highway leading from Coutts on the U.S. border, to Lethbridge. This alone will cost $1,000,000.

Main projects also include work on the Trans-Canada highway and the Jasper highway in addition to work on the Peace River highway.

Bright Sayings of Children

"You say you're getting so strong you never have to take back anything you say?"

"Righto! And you won't have to eat your own words, either, if you eat lots of . . . WIEBE'S BREAD."

WIEBES BAKERY

Dewberry Curlers Have Banner Season

Dewberry curlers generally have enjoyed a very successful season and this well known Dewberry quartet have won prizes at many of the bonspiels held in Alberta. The rink, standing, left to right is Neil Jones, playing third; Alfred Redman, 2nd; and left to right, sitting, Sam Free Braithwaite; Len Braithwaite, lead. Prizes won during the current season by the Braithwaite rink include— First in the Gas Company event at Lacombe bonspiel, second in the Price Abattoirs event at Edmonton; First in the Brunswick hotel competition at Vermilion; first in the Merchants event at Islay and second in the Grand challenge. They played 50 games in the four bonspiels.

"GREEN ACRES"

WARBLE FLY LOSSES

It is only during the past 3 or 4 years that we have begun to realize the serious losses caused by warble or heel flies. There is no doubt that the losses amount to $5 to $10 per animal from less milk and beef being produced. The treatment is cheap and easy to apply. Warble fly powder is available at your drug store. Instructions are on the package. It should be put on now.

CALF CLUB MEETINGS

Last week your District Agriculturist attended seven junior calf club meetings. There are 170 boys and girls in my district and 125 attended the meetings. The clubs are located at Vermilion, Mannville, Dewberry, Marwayne, Kitscoty, Rivercourse and Paradise Valley. Kitscoty is the strongest club with a total of 3? members.

PAINT-UP RECOMMENDED

A news item states that women in the U.S. use enough lipstick annually to paint 60,000 barns. No one contends that it is wasted and there is still enough paint left for the barns.

There is no investment that a farmer can make which pays greater dividends than paint for his farm buildings. There are a good many houses, barns and granaries in this district which could stand a little painting when the weather gets warmer.

FARM LABOUR OUTLOOK

It would appear that farm labour will be plentiful this year. No doubt some men will be available when the lumber camps break up, but generally farmers will have to find seasonable help locally. This means that a farmer needing a man for the summer would be wise to get one now. Your D.A. [illegible] apply to National [illegible] employment service for farm help. Orders should go in immediately.

NOT A LABOUR OFFICE

It is part of my service to the farming community to list people asking for work on farms and to try to obtain help for farmers. I have nothing whatever to do with jobs for truck drivers, etc. Neither am I connected with employment insurance, income tax reports, the wheat acreage bonus, etc. It would save my time and yours if you come to me about agricultural matters only.

FEREXATE TABLETS

Anaemia in young pigs is caused by lack of iron and it causes [illegible] losses every year. The use of reduced iron or [illegible] tablets will prevent any loss from this disease. Both can be bought from your druggist. [illegible]

[illegible]

600 Attend Plays Presented by the Everyman Theatre

BRING TRUE DRAMA TO SMALLER COMMUNITIES

The two plays presented at the agricultural college had on Monday [illegible] by the Everyman [illegible] group provided excellent [illegible] [illegible] for this company to exhibit [illegible] [illegible] company is to be congratulated not only on this score but on their courage and fortitude in facing the hard work, the strenuous life of travel, the uncertainty of remuneration, [illegible] sacrifices they must make in order to bring the true drama to the smaller communities in the West. The appreciation of Vermilion people to this form of art was evident in the fact that over 600 people attended the performances.

The first play, The Marriage Proposal, by Anton Chekov presented the difficulties of a setting [illegible] temperament which were strange not only to the actors but also to the audience. But despite this difficulty the portrayal of the excitable extravagant temperament demanded [illegible] the play was most satisfactory [illegible] convincing. The plot followed the progress of a marriage proposal which was sidetracked at least [illegible] and almost completely forgotten [illegible] the heat of tempestuous arguments over relatively trivial details. [illegible] actors succeeded in bringing [illegible] [illegible]

The second play presented [illegible] social problem [illegible] The author of this play [illegible] believes that [illegible] purpose of a play [illegible] entertain the audience but to [illegible] attention to a social condition [illegible] correction or action. The [illegible] condition which was almost noticeably brought to the attention of the audience in this play was [illegible] apathy of most of the members of society to world conditions and economic and political troubles which can only be satisfactorily remedied by the attention and efforts of every peace loving serious minded citizen.

However a play must also be entertaining and interesting [illegible] [illegible] [illegible]

BIG LEAGUE BALL PLAYERS TO EARN LARGE SUMS OF MONEY THIS YEAR

NEW YORK - Bobby Feller the golden boy of baseball's second golden era—even as Babe Ruth was the salaried colossus of the first—heads a total of 26 big league players who will earn from $30,000 to $80,000 plus in 1947, survey shows.

When brilliant Bobby signed a Cleveland contract which will bring him from $80,000 to $100,000 for his work on the hill this year, he became the first player with a chance to better the 80 grand a year New York Yankees paid the Babe back in '30 and '31.

Although the matter of payment is incidental it should be pointed out that the home run king got his dough in straight salary while Bob is to be paid part of his in bonuses based on home attendance. Approximately $55,000 of his money will be in straight salary.

Although Hank Greenberg's salary has never been disclosed by Pittsburgh officials, it has been learned from an authoritative source that it calls for a flat $75,000 contract with no bonus arrangements, as previously reported. Others who will receive more than $50,000 in 1947 include Ted Williams, who will be paid $65,000 by Boston Red Sox, and Hal Newhouser, who will draw $60,000 from Detroit Tigers.

Honors for being the highest salaried club go to the American League champion Boston Red Sox, who, according to General Manager Eddie Collins, will shell out close to a half million dollars this year. Besides Williams, Dave Ferriss, Tex Hughson, Rudy York, Bobby Doerr, Dom DiMaggio and Johnny Pesky are reported to be in the $30,000 class.

Health LEAGUE of CANADA presents TOPICS of VITAL INTEREST

PERNICIOUS ANAEMIA

[illegible]

marked lack of acid in the stomach. In about 90 per cent. of far advanced cases there is loss of sensation and other disturbances in the limbs, indicating injury to the spinal cord.

The diagnosis of pernicious anaemia depends on the condition of the blood and the character of the stomach secretion. In all cases there is a lowering of the hydrochloric acid to a marked degree. Nervous symptoms and sore tongue aid in confirming the diagnosis, as do the evidences of changes in the spinal cord.

Discovery of the value of liver in blood regeneration has robbed the disease of its terrors. Extracts of liver given hypodermically, work wonders. Also sufferers should eat about half a pound of pork, beef or calves liver daily.

SCIENTIFIC WONDER

The Ottawa Citizen says a new fireproof mattress is on the market especially designed for people who smoke in bed. It is claimed by the makers that the smoker can burn himself to a crisp without the slightest trace of injury to the mattress. One never knows what wonders science will achieve next.

GEISHA GIRLS CALLED TO SAVE CHERRY TREES

TOKYO—Ten geisha girls have been called to nearby Kumagaya to save the city's cherry trees, which, branch by branch, have been disappearing into rock stoves of shivering citizens.

The geishas will sing and dance near the Chichibu charcoal district, attempting to persuade producers to deliver more fuel.

The first issue of the first Russian paper, Vedomosti, published under supervision of Peter the Great appeared on Jan. 13, 1703.

The Newest Way To Grow Grass

The Boston Post says: The appearance at the housewives show here of a device to grow grass with almost no effort will undoubtedly interest many a home owner. The device consists of strips of papers containing seed and fertilizer imbedded within the strips. These strips are stretched on the ground, covered with a little soil and soaked with water. The paper dissolves into the earth taking the seed and fertilizer with it and, it is claimed, grass appears in four or five days. A method of easy grass growing has been sought for centuries. If this one works, then the gardener's millenium is at hand.

The noise of thunder is caused when air heated by a lightning flash begins to cool and contract and other air rushes in to fill the space.

Local News of Interest

While the Standard is not in possession of the details, the farm home of Mr. and Mrs. W. Dixon located northwest of Rusylvia was destroyed by fire last Thursday and all contents, clothing, etc. lost. Besides the parents the family consists of a baby, a boy 7, and girls of 14, 16 and 18 years at home. Neighbors are rallying to their aid and a subscription list is being circulated. Anyone wishing to make a donation may send same to Mrs. W. A. Dixon at Clandonald.

In the recent account of the installation of Officers of Queen Esther Chapter, No. 22, O.E.S., the name of Sister West, P.M., as installing Organist, should have been in the list of installing officers.

Mrs. L. H. Bussard left this week for St. Paul, Minn., where she will spend a month visiting her husband who is attending University of Minnesota there.

Mrs. G. P. Stephens was a recent visitor in Edmonton, the guest of Miss Miriam Cash.

Mr. and Mrs. D. H. Swanson returned last Friday from a trip to Calgary, Edmonton and Athabasca. At Calgary they visited their son Morley and family and at Athabasca were the guests of their son Beryl and family.

Mr. and Mrs. Rene Bouke spent Sunday and Monday in Edmonton and Mrs. Bouke is spending the remainder of the week visiting at the home of her mother at Fort Saskatchewan.

Mr. and Mrs. J. M. Stewart visited in Edmonton for several days last week.

Percy McKane was a visitor in Vermilion this week for the first time since his severe accident in Edmonton. Percy spent some two months in a cast as a result of suffering a double fracture of the pelvis. Other injuries were dislocation of his neck and a bad cut on his face. The injuries were sustained when the car in which he was a passenger was struck by a street car on an Edmonton street.

The personnel of the Gordon Park rink which won the Vermilion Hotel competition at the local bonspiel should have read Gordon Park, Carmen Long, George Grafton and Jack Hossam. The rink appeared correctly in the general write up of the spiel but the lead got misplaced in the list of winners.

Stagette Notes

Tuesday March 11th the Stagettes held their regular business meeting in the Upper Deck. The meeting opened with the singing of the club song, followed with the minutes.

We really haven't any news for you this week. A number of girls are sick—we are wishing you well girls, you have our sympathy. We dare say the bonspiel kept some of us away. Best of luck to those who curled. We hope to have all members back on schedule by next week—until then 'bye.

IN MEMORIAM

In loving memory of our dear husband and father

James Wallace Rankin

—who passed away March 16th, 1945

Dear husband you are not forgotten
Though on earth you are no more
Still in memory you are with us
As you always were before
They say time heals all sorrows
And strengthens us to bear the blow
But what it has meant to lose you
No one will ever know

—Ever remembered by wife and family and brothers and sisters

NEW BOOKS FOR I.O.D.E. LIBRARY

At the regular monthly meeting of the I.O.D.E. on March 6th plans were made to hold a tea and superfluity sale in the Elks hall on April 17th.

Four new members, namely, Mrs. J. Cross, Miss A. Keith, Mrs. D. Moyer and Mrs. B. Scott were welcomed into the Chapter.

Mrs. E. C. Miller will attend the I.O.D.E. convention in Calgary on April 9th to 10th as official delegate.

A new cupboard has been purchased for the library and the following books added.

Mortgage on Life;
Miracle of the Bells;
Pageant of the Years,
Pride's Fancy;
The Silent Speaker;
The Hollow,
Remembered Death;
Return to Jalna;
The Desert of Wheat,
Jane of Lantern Hill;
Anne of Windy Poplars;
White Dress,
Our Own Kind;
Marriage of Josephine;
[illegible]

Capt. Hustler To Address Meetings at Salvation Army

A special series of meetings will be addressed at the Salvation Army hall by Capt. Hustler. The meetings will be held from March 19 to 23 and will be featured by old fashioned Gospel preaching. Everyone is cordially invited to attend.

Ducks Unlimited Show Interesting Nature Picture

ARRANGED BY VERMILION FISH AND GAME BRANCH

On Wednesday evening, March 5th, the Vermilion Branch of the Alberta Fish and Game league were hosts to something over 100 sportsmen and nature [illegible]. Mr. [illegible] Du Pre, regional representative of Ducks Unlimited, Winnipeg, was the speaker for the evening. In a short address he outlined the objectives of his organization and the methods used in assisting nature in the conservation of the migratory waterfowl of North America. He then showed the colored film "The Big Marsh Lives Again", a picture dealing with the reclamation of several thousand acres of useless farm land in Manitoba into a nesting paradise for ducks and geese. This was greatly enjoyed by all those present and anyone who missed seeing this picture missed a real treat. Following this a reel [illegible] Calgary Stampede was shown which gave the audience a lot of laughs and thrills.

In the afternoon Mr. Du Pre showed the film to a joint meeting of the public and high schools in the Columbia theatre, and on Thursday morning to the students at the agricultural college.

$64.00 Raised for The Red Cross at Bridview School

The sum of $64 was raised at the Bridview school on March 7th for the Red Cross. The money was the proceeds of an auction sale and ice cream sale.

Auctioneer George W. Dodsworth did a very good job selling articles donated by the people of the district. The pupils of the school helped considerably by making quite a number of articles also.

Many thanks are extended to Mr. and Mrs. Bill Hancock and to Mr. and Mrs. [illegible] Midgely for donating the ice cream. Many thanks also to Lillis Brown, Howard Beck and Robert Barnett for their wonderful bids.

Everyone had a very enjoyable evening at the dance and the thanks of everyone are due to D. Evans, J. McIntyre, V. [illegible] and R. Barnett for supplying music for the evening.

St. Patrick's Dance Monday March 17th

The Britannia Rebekah lodge have planned a real St. Patrick's night dance for the evening of Monday March 17th. A program in keeping with the day is being planned and a mixed and interesting evening is in prospect for all attending. Dancing is from 9 to 2 a.m. and admission is [illegible] each. The [illegible] orchestra will be in attendance. 45-1

After the show on Saturday evening attend the dance at the Elks hall. An enjoyable hour or two for only [illegible]

Mr. and Mrs. Harry Scott Honored on Silver Wedding

Mr. and Mrs. Harry Scott were guests of honor at a surprise party at their home Sunday night when 20 friends called on them to offer congratulations on the 25th anniversary of their wedding. The enjoyable event was arranged by Mr. and Mrs. Scott's daughters, Miss Jessie and Miss Glenda.

To many people the wedding of this couple is quite fresh in their memories. It was solemnized at the St. Saviour's Anglican church on March 8th, 1922. The bride, then Miss Stovold, had come from England accompanying Mr. and Mrs. John Watts home after they had spent a visit in their home land. The groom took up residence here following the first great war.

104 Attend Board of Trade Noon Luncheon Meeting

INTERESTING ADDRESS BY AGRICULTURIST

One of the finest Wednesday noon luncheon meetings of the Board of Trade was that held March 12th at which W. E. Bowser, a former Vermilion district boy and now senior specialist in soil work in Alberta for the Dominion Department of Agriculture, was guest speaker. The meeting was attended by 104 men of the town and district and attracted from such distant points as Paradise Valley, McLaughlin, Rivercourse, Marwayne, Dewberry, Kitscoty, Wainwright, Islay and Mannville.

George S. Maxwell presided at the meeting and extended a warm welcome to those present, mentioning a few farmers from more distant points including J. A. Currey, McLaughlin; Elmer Clay, Paradise Valley; O. H. Quist, Marwayne; Henry Haan, Rivercourse; Fred Braithwaite, Dewberry; John Leighton, Kitscoty; Mr. Robbins and Mr. Madden, Wainwright.

District Agriculturist E. H. Buckingham introduced the guest speaker W. E. Bowser and his father Mr. L. Bowser of the Morrison district. Mr. Buckingham in his brief remarks stated that it gave him the greatest of pleasure to introduce Mr. Bowser, a former Vermilion man who had achieved such an eminent position in his chosen vocation of agriculture.

Mr. Bowser in his opening remarks spoke of his school days in Vermilion and recalled some of the favorite haunts of those days, such as the swimming pool and the dam in the river. Going on with his topic "Cropping for Profit and Permanency" Mr. Bowser stated that at all times he tried to maintain a balance between the theoretical and the practical. The era when people planned to live here a short while, make their fortune and go elsewhere has passed. We now build up permanent homes and therefore we must see to it that the soil does not deteriorate, and it is a fact that the land of western Canada is not as rich as it once was. The speaker cited several examples of grain yields to prove this point. The loss in soil fibre during the last 20 years has been from 20 to 25% and something must be done to replace this fibre. The richest part of our soil is the top 6 or 8 inches and this is continually being lessened by wind, water and cropping. However by the use of commercial fertilizer in adding to the elements in shortest supply there is no reason why the fertility cannot be kept in the soil indefinitely.

In summing up the speaker stressed these factors as essential in maintaining soil fertility. The use of windbreaks; trash covers; strip and contour farming; less summerfallow and more grass — plus a price structure that recognizes the above operations as essential to farming.

Mr. Bowser, who has actually conducted soil surveys over the whole of western Canada, gave instances of soil erosion by wind and water in this immediate neighborhood; dealt also with the doubtful value of summerfallow, and stated that at least one-third of every farm should be in grass.

The talk throughout was matter of fact and given in a very interesting manner. It should be stated here that Mr. Bowser is the co-author of a book of the same title, "Cropping for Profit and Permanency". This volume is one of the text books of the Alberta schools of agriculture. It could no doubt be procured through the local book store.

Reeve J. A. Currey of Vermilion River M.D., in moving a vote of thanks to Mr. Bowser, stated that the matter of maintaining soil fertility and prevention of erosion were the most important problems facing this entire area and could not be emphasized too greatly. Brenton Macnab seconded the motion of thanks.

It was generally conceded that this was one of the most interesting and certainly the most largely attended of the Board of Trade luncheon meetings. These meetings are held every Wednesday at 12.10 noon at George's Lower Deck. All farmers, business men, and visitors are cordially invited to attend.

D. Currah Rink Wins Primary in Mixed Bonspiel

DR. KING TAKES SECONDARY

A well run and snappy mixed bonspiel was run off from Monday evening to Friday last week with 20 rinks competing. Some of the rinks were comprised of two men and two ladies, and others with three men and a lady who played third.

Darrel Currah skip, with Chrissie [illegible] 3rd, Jack Hessom 2nd and Jack Marlleet lead, won the primary event. Second place went to the Katz rink of Skip Gordon Park, Jean Caron 3rd, Little F. Katz 2nd, Evelyn Kreiler lead.

In the secondary event the Dr. King rink with Mrs. M. N. Bowling 3rd, Bob Holt 2nd and Bob Rowe lead brought home the bacon. Percy Cooper subbed for Dr. King in the semi-final and final games. Second place went to Skip Jack Ridington, Kae Part 3rd, Vic Tibbett 2nd and Patsy Cross lead.

"Youth for Christ" Meeting

A special Youth for Christ meeting will be held in the Masonic hall on Friday evening March 28th at 8 o'clock. Rev. and Mrs. J. D. Carlson, directors of the Sunrise Gospel Hour, Calgary, will be in attendance and will be accompanied by talented singers.

"Gym Night" At College Features Variety Program

Celebrating the conclusion of an active program of physical training and indoor sports during the past winter, the Gym committee at the school of agriculture is planning a program of contests and displays in the college gymnasium for Saturday evening, March 22. The play-off game for the boys' house league basketball trophy will be the featured contest. Other matches include student championship games in badminton and table tennis.

Demonstrations to be presented by the P.T. classes include fundamental and apparatus exercises, tumbling and pyramid building. These classes which have been under the capable direction of Mrs. Elaine Howlett will feature several tap and folk dancing displays. Definitely on the lighter side will be the basketball match between the V.S.A. girls' team and a team of staff members. The program commences at 7:30 p.m. Residents of Vermilion and district are cordially invited to attend.

New Golf Club Elects Officers

ANNUAL MEETING HELD

At a golf meeting held in the armories March 12th the following officers were elected for the current year:

President—G. F. Stephens
Vice-President — President of the Ladies' Club
Secretary-Treas.—G. S. Magee
Team Captain—Art Wiebe (Chairman of Tournament committee)
Chairman Membership Com.—B. Pilkie.
Chairman Entertainment Com.—R. Berwick
Chairman Grounds Com.—H. Anderson

The chairmen of the various committees were asked to choose their own helpers.

It was suggested that the Secretary write various other golf clubs to determine average fees charged and the usual cost of laying out a course.

The club is proud of the fact that it now has 110 shareholders subscribing a total of 167 shares. It has title to a fine quarter section of land and arrangements are being made to have Mr. Gordon Brinsworth of Jasper lay out the course.

Funds are still needed to continue the work and a spring drive for shareholders will be made. [illegible]

There will be another general meeting [illegible]

BAN ON HIGHWAYS

The spring ban of heavy trucks and buses is now in effect on all main and secondary highways in the province.

M. D. Service Board Holds First Meeting

O. H. QUIST ELECTED CHAIRMAN

O. H. Quist of Marwayne was elected chairman of the Agricultural Service Board of Vermilion Valley Municipality at the board's first meeting on March 12th. The other members of the board are John Leighton, Kitscoty, Fred Braithwaite, Dewberry, Henry Haan, Rivercourse and E. H. Buckingham, Vermilion. The secretary is Thos. Wilson. District Agriculturist E. H. Buckingham explained the purpose and objects of the board and the co-operation given by the Provincial government.

Programs of benefit to the ratepayers will be entered into from time to time. The principal concern of the board this year will centre around weed control and rehabilitation of debilitated lands within the M.D.

The board has recommended to the council that a full time field supervisor be employed. Applications are to be received up to April 1st and employment to commence as soon after that date as possible.

Representatives of this newly constituted board will attend a conference next week called by the Provincial government. Programs for the season will be announced immediately following this conference.

FIREMEN ENJOY ANNUAL BANQUET

Members of the Vermilion fire brigade took time out Tuesday night to play a little and hold their annual banquet at George's Lower Deck. This banquet is a well deserved gesture to the boys of the brigade as everything else in connection with their duties is work, either in fighting fires in all sorts of weather and under all conditions, or in checking over and keeping their fire engines and equipment in first class order. The members of the brigade had as their guests Mayor Morrison and Councillors Stephens, Dasko, Kehoe, Stack and Urquhart, also former Councillor R. W. Enshell, town secretary Jack Part, Constable F. Steininger, Jack King, Melvin Hill and Ashley Cooper.

R. B. Spencer proved an able toastmaster and seated at the head of the table was Fire Chief Tom Conboy. The impromptu speakers kept their remarks for the most part to lighter vein but all of the guests paid tribute to the work of the Vermilion fire brigade.

It was an evening at which good fellowship prevailed and the host George Chaplow served a most delicious [illegible]

TRIPLET BOYS 7 YEARS OLD

[illegible]

"GREEN ACRES"

AT CALGARY BULL SALE

District pure bred cattle breeders have shipped around 20 bulls to the Calgary bull sale. The contributors are W. L. Robinson (Shorthorns), Bill Cross (Aberdeen Angus), [illegible] Cross (Herefords), Mike [illegible] (Herefords), Homer Campbell (Herefords), Simonet Bros. (Herefords).

These bulls are well bred and show condition. They ought to give a good account of themselves and we can expect to hear more about them before the week is out.

WARBLE OR HEEL FLIES

Farmers—Did you treat your cattle for Warble flies. It is not yet too late. The scientists have done their part by providing a cheap cure for Warble flies. It is up to us from there on. Get a package of warble fly wash at your drug store. It only costs 2 or 3 cents per animal.

ALBERTA POULTRY CATALOG

Your D.A. has a few copies of the 1947 Alberta Poultry Federation catalog for distribution. There are some good articles in this issue that will be of interest and profit to everyone raising poultry whether for eggs or market.

SEED BARLEY AND OATS

Many farmers are enquiring about their orders for seed barley. The Field Crops Commissioner is arranging for cars to come forward but on account of roads embargo on cars and the price situation great difficulty is being experienced in getting the barley.

It is our information that all the first orders will be taken care of, but the supply could run out before everyone is satisfied.

CKUA FARM FORUM

Every Monday, Wednesday and Friday at [illegible] [illegible] broadcasts [illegible]. These discussions [illegible] prepared by experts along their particular line of work. They aim to make them [illegible] so that the information [illegible]. This week [illegible] Englesham will discuss "Bugs" on Friday March 21. Then next week on Monday B. T. Stephenson talks on "Water Systems on the Farm" and on Wednesday A. Ward discusses "Fertilizers [illegible] and Lawns". On Friday March 28th Dr. A. W. Henry talks on the "Weed Problem". No one should miss this broadcast.

HORTICULTURAL SOCIETY

The date of the flower show has been set for August 21st. We need more exhibitors. Some of those people who said they had just as good at home can have their chance next August. Why not get a few good gladioli, dahlia, rose bushes, begonias etc. Also everyone can grow from seed sweet peas, marigolds, cosmos, etc. or buy a few plants of petunias, phlox [illegible] etc. Now is the time to plan for the flowers and vegetable show.

E. H. Buckingham, D.A.

Town Council Makes Estimates and Sets Mill Rate for 1947

NEW DISCOUNT DATES ARE SET; PRICES OF LOTS INCREASED

A special meeting of the Town Council was held Thursday, March 13 with Mayor Morrison, Councillors [illegible] Urquhart present.

The meeting was called for the completion of 1947 estimates and the setting of the 1947 mill rate.

By-law No. 247 [illegible] the transfer of Lot [illegible] reading and forwarted to the Minister of Municipal Affairs for his approval.

By-law No. 247 [illegible] passed unanimously.

[illegible] school mill rate 23. Municipal [illegible] hospital 20 [illegible]

By-law 247 relating to [illegible] discount dates and penalty date was given three readings and finally passed unanimously.

Details: Discount 5% if paid in full by June 15th, 1947. Discount 3% if paid in full by Oct. 15th, 1947; No discount on [illegible] after [illegible] lots sold at $100 each and business lots [illegible] $200 each was carried.

Change Is Made In Store Hours

Commencing Saturday, April [illegible] store hours in Vermilion will be as follows for Saturday:

Open at 9 a.m. closed at 9.30.

[illegible]

Store hours on other days remain unchanged. This change will bring the Saturday hours to meet the requirements of the Hours of Work Act.

Charles C. Smith Dies at Victoria

Charlie C. Smith, well known former Vermilion resident, passed away in Victoria on Monday March 17th, according to word received here. No further details were available at press time.

W. E. CROSS ELECTED

W. E. Cross of Vermilion was elected a director of the Alberta Aberdeen-Angus association at the annual meeting of that body held at Calgary Monday night. Mr. Cross was in attendance at the meeting.

Rebekah Lodge To Hold Annual Church Parade

In honor of the founder of the order, Shuler Colfax, members of the Britannia Rebekah lodge will hold their annual church parade on Sunday evening March 23, when they will attend the evening service at St. Saviour's Anglican church at 7:30 o'clock. Everyone is invited to attend.

Jim Carey of Islay returned last week from a trip to California.

Military Dance Set For April 15th

At a meeting of the local Reserve Force committee it was decided to hold the military dance on Tuesday, April 15th.

The Minister of Agriculture, Hon. D. B. MacMillan, has authorized the use of the school of agriculture for this function.

The chairman of the entertainment committee Fred Brimacombe has most of the arrangements in hand. The committee consists of Capt. [illegible] Brimacombe, O.C. of "A" Company Loyal Edmonton Regiment, A. E. Kaiser, H. Streatman, Mayor Morrison, Capt. E. H. Buckingham and Capt. W. H. Scott, chairman of the Vermilion Reserve Force committee.

Tickets are being printed and will be available next week at places to be announced.

Leo W. Liddiatt Dies at Nanaimo

A well known former Vermilion man, Leo W. Liddiatt, 23, died at the [illegible] Mr. and Mrs. Ar[illegible] March [illegible]

Leaving Vermilion eleven years ago [illegible] Edmonton.

DVA Administrator Tells of Red Cross Work for Veterans

GENEROUS RESPONSE TO CURRENT APPEAL ASKED

WINNIPEG — Tribute to the help given to veterans by the people of Canada through their support of the Canadian Red Cross, was paid by [illegible] Deputy Minister of Veterans Affairs. While Mr. [illegible] of these activities has been principally in Manitoba, the Red Cross carries on extensive work for veterans in all provinces. In the campaign for 1947 funds $[illegible] out of the $[illegible] sought is for work in behalf of veterans.

"In war and still in war the Canadian Red Cross labor unceasingly to alleviate human suffering and distress and to bring into the lives of the unfortunate renewed health, courage and faith. This is a noble selfless task and worthy of our whole-hearted and generous support", said Mr. [illegible]

Joins R.C.M.P.

IRMA — Lloyd Johnston, son of Mr. and Mrs. H. Johnston of the Albert district, passed his final exams in Edmonton last week and was accepted by the R.C.M.P. He left last Saturday for Regina, and Rockcliffe, Ont., where he will spend the next 6 months training.

ISLAY

Jim Carey is home again after spending the winter in the hot south. All January and February Jim says the temperature was 80 to 85.

Mr. and Mrs. Einar Anderson are home too. They also spent the winter in California and were in Mexico. Einar saw Louis Newcombe and was in his barber shop.

Mr. Tom White will be back any day. He has been at the coast.

Harry Young and Charlie Burt went to Drumheller where Charlie purchased the Bill McCrae automobile. They report Bill quite well and Mrs. McRae pining for Islay. "That's one up for Islay!" So do Mrs. Eberley and Mrs. Stan Anderson like Islay and would like to be back too. Also we hear and on good authority, Jim McInnis likes Islay and is talking about coming back. And that isn't all — the Hanna family who have been in Ontario a year are coming back, also Faye McLennan will be back anytime. Faye has been in Halifax for more than a year now.

We notice Jack Harley in town. He has been at Lesser Slave Lake.

(continued next week)

The Chechor Transport has commenced a free weekly pick-up of beer bottles providing the number is 10 dozen or over. Regulation cartons not necessary, 20c per dozen is paid regardless. Phone Chechor Transport. Watch next week's Standard for official announcement. 45

Heavy Agenda At Council Meeting

An adjourned regular meeting of the town council was held Monday, March 10, with Mayor Morrison, Crs. Banks, Dawson, Kehoe, Stephens, Stack and Urquhart present.

Mr. J. Wiebe attended the meeting re proposed increase in steam heat rates of 3c per sq. ft. of radiation, effective Sept. 1947.

Mr. C. Cox interviewed Council re salary increase.

Mr. W. B. Mix attended re temporary permit for welding shop in Blk. 8. Mr. Wiebe advised Council it was not possible to extend power line at the present time to this location.

Mr. P. Wilkinson requested Council to adhere to the Sanitary By-law re hauling tankage only after the hour of 10 pm.

Correspondence: Vermilion hospital, 1947 requisition $3,134.33; Vermilion School Division, 1947 requisition $32,506.20; Vermilion Board of Trade re Post Office building; The Treasury Branch re 1947 banking resolution; C. C. F. re Old Age Pensions; J.W.G. Morrison re By-laws and Town Act amendments; Canadian Utilities re power plant meeting on Wednesday March 19 at 8:30 p.m.; Fire Dept. annual banquet invitation; Fire Dept. re 1947 requisition; District Court re A. Manyluk account; Dept. Municipal Affairs re Repeal of Social Service Tax; Secretary re sale Lot 24, Blk. 38 to Jas. Swanson; R. C. M. P. Report; Petition from machine shop operators; Petition for sidewalk west side of Blk 11; J. Hardie Ford re lot purchase; Searle Grain Co. re business tax appeal; W. J. McLaughlin re metal building for warehouse.

The following motions carried:

That the resolution as submitted by the Vermilion Board of Trade re new Post Office building be approved and forwarded to Ottawa.

That 200 feet of fire hose, 12 coats and 12 pairs of hip boots be purchased.

That the Secretary be instructed to investigate the cost of procuring a suitable siren and also cost of changing the front doors of the fire hall.

That Dr. Bradford be appointed M. H. O. for year ending Feb. 29, 1948.

That S. Conboy's salary be raised to $1?? per month effective March 1 1947.

That Lot 9, Blk. 36, be sold to W. D. Williams on conditional sale agreement.

That building permit for frame addition 14ft. x 16ft. on Lot 28, Blk. 5 be granted to H. Jahre.

That the usual banking resolution authorizing the Mayor and Sec'y to sign all orders, transfer vouchers or cheques for 1947 at the Treasury Br., Vermilion, be hereby passed.

That Town and E.L. & P. accounts be passed and ordered paid, same having been certified by the Finance committees.

Instructions to Secretary —

Advise Canadian Utilities that the Council will meet their representatives on Wednesday, March 19 at 8.30 p.m. in the Council chambers.

Advise residents of Blk. 11 that the Public Works committee will investigate sidewalk requirements at a later date.

Advise J. Hardie Ford that Council cannot approve of lot sale in Blk. 1 or Blk. 14 for bulk oil station.

Refer W. J. McLaughlin request for metal warehouse at rear of store to Fire Chief T. Conboy.

Grant building permit to G. Bentrem.

Write War Assets Corp. re fire siren.

Write all water and sewer contractors re date of delivery of materials.

Council adjourned to meet on Thursday March 13th for final consideration of 1947 estimates.

Zone Credit Union Chapter To Organize

INCLUDES VERMILION

At a Credit Union meeting in Wainwright on Friday evening, March 7th, Credit Unions from Vermilion, Chauvin and Wainwright were represented. About 25 were in attendance.

Zone F is one of 1? zones in Alberta and so far the Credit Union Zone F is represented by Credit Unions at Clandonald, Marwayne, Blackfoot, Vermilion, Mannville, Edgerton, Wainwright, Chauvin, Provost and Hughenden. These credit unions will meet together in an organization called a "Chapter" to make effective an interchange of information and suggestions relative to the common good of credit unions. A Chapter will further the organization of additional credit unions.

A provisional committee was set up to make preparations for an organizational meeting of a Zone F Credit Union Chapter to be held in Wainwright on June 18th, Wednesday, at 2:00 p.m. Further details will be announced later.

The Provisional Committee elected by the meeting was:

Mr. [illegible] [illegible], Wainwright, [illegible]; Mr. E. [illegible] of Vermilion, [illegible]; [illegible] [illegible], [illegible] Chauvin, Provisional Secretary-Treasurer.

REAL THAW . . .

A real spring thaw set in last week end and as far as the town is concerned there is water, water everywhere. The public works committee of the town council employed a large number of men on Sunday to open up the drainage ditches and the water seems to be running away without causing anyone too much inconvenience.

LLOYDMINSTER MILL RATE JUMPS 7 MILLS

The rate at Lloydminster jumped 7 mills this year to a total of 40 mills. The school requisition was an increase of $7,000 over that of 1946.

WOODVALE

On March 4th Gordon Trevethick received the sad news of the death of his father in Ontario. Mr. Trevethick Sr. visited in this community several years ago when both his sons were living in the Tolland district.

We wish to extend our late, but nevertheless hearty congratulations to Mr and Mrs. Dave Sweeney on the birth of their little daughter.

The Teasdale triplets celebrated their second birthday on March 9th. They have grown into sturdy little chaps, lively and full of fun. We wish them many happy returns of the day.

Chester and Joan Rankin returned home after a month vacation spent at the coast visiting friends and relatives. They were accompanied by their sister Mrs. H. Pierman. While in B.C. Chester bought an old Ford car, travelled a good 700 miles in it and sold it for $10 less than he paid for it, before going home. The three of them did a lot of pleasant sight seeing that way and got to many more places than they would have by bus and train.

Seven subscribers attended the telephone meeting at the home of the secretary-treasurer Roger Watt, on March 12th. It is nice to know that Mr. and Mrs. C. Friedland will have their phone re-installed soon.

Bob Goodney sold his Caterpillar and brushbreaker again to someone near Edmonton.

Roger Watt is making a new body for his truck and will soon be all set for spring hauling.

Keith King has returned from B.C. where he has worked in the woods the past two months.

Joan Green had a party at the school after four in honor of her 13th birthday on March 16. A very happy and enjoyable time was had by all. Too bad the Smith children were not at school on this occasion.

CHURCHES ON UPGRADE

Interest in church activities in Canada definitely increased during and since the war, in the opinion of the great majority of clergymen and other informed observers questioned by The Financial Post. Some draw a distinction between the phrase "church activities" and individual religious faith.

What about that Label date?

Win out over others and they're still your enemies. Win them over and they become friends.

FLOUR IS BIG EXPORT

Wheat flour now ranks high among the products exported by Canada to other countries, being exceeded in value during the past year only by newsprint paper and wheat.

Boys and Girls!
Please be Careful

BREAKING INSULATORS IS A VERY SERIOUS OFFENCE OFTEN RESULTING IN DEATH.

Broken insulators also cause frequent disruptions of electric service to hospitals, homes, businesses and street lights.

I do not believe that anyone, adult or child, wishes intentionally to cause death or damage property.

Lifting Ceiling Price On Gas And Distillate

OTTAWA.—The prices board announced that effective April 1 the price ceiling on gasoline and tractor distillates will be removed and the Dominion excise tax of three cents a gallon on gasoline will be cancelled, thus returning to the provinces another field of taxation taken by the federal government during the war.

In its announcement the board said the "price adjustments which may follow price decontrol of gasoline and tractor distillates will vary in different parts of Canada and will depend on the extent to which the cancellation of the Dominion excise tax will be offset by a new provincial tax in the various provinces or through increased laid-down costs to the refiners on imported crude oil."

Already Ontario and British Columbia have announced their intention to increase their own gasoline taxes by the amount of the cancelled federal levy and Saskatchewan will boost its tax by two cents. It is believed other provinces may take similar action.

The Ontario action, announced in the provincial budget brought down at Queen's Park, will increase that province's tax from eight to 11 cents a gallon but will mean no increase to the motorist since it only replaces the Dominion levy being dropped. Likewise, there will be no increase to the motorist in British Columbia when that province increases its tax from seven to 10 cents.

The prices board said cancelling of the Dominion excise tax on gasoline, imposed as a wartime tax in 1941, was in accordance with an announcement by Finance Minister Abbott last December that it would be dropped April 1.

The board pointed out that at that time subsidies which were being paid on the importation of crude oil by refiners in the prairie provinces were cancelled but the price ceiling on gasoline and tractor distillate was ordered maintained until the subsidized stocks of crude oil were used up.

The board said that the using up of these subsidized stocks will "pretty well coincide with the April 1 date when the Dominion excise tax is cancelled so that the board is giving notice now that the price ceiling will be removed on that same date."

By doing so, it is not expected that adjustments on inventory stocks will be required.

STUDYING NEW AIR MAIL PLANS

OTTAWA — Postmaster-General Bertrand said in the commons the post office department is studying the question of sending all first-class mail between distant points in Canada by air mail. He indicated also that consideration was being given to the possibility of reducing air mail rates.

Not Appreciated

MASHPEE, Mass. — Chief White Horse, leader of the Wampanoag tribe for 17 years, has resigned because his efforts "are not appreciated."

The chief, otherwise known as Clinton M. Hayes, announced that he was "washed up and through with my fellow tribesmen. They don't appreciate me and have given me no co-operation for years."

"I'm finished and packing away my feathers and stowing in mothballs," he added.

Putting too many clothes in a washing machine reduces efficiency and prevents water from circulating freely.

1947 KINGS OF CURLING

Slender, soft spoken Jimmy Welsh, a worthy successor to the great curling masters of Manitoba, stood on the centre ice sheet of St. Andrews Curling Club at Saint John, N.B., and received the Macdonald's Brier Tankard, emblematic of the Dominion curling championship which Welsh and his Winnipeg Deer Lodge rink won without a defeat in the four-day curling event. Welsh and his rink, from right to left: Jimmy skip, brother Alex Welsh third, Jock Reid, second, and Harry Monk, lead.

Australia In Need Of Larger Population

CANBERRA.—Australia is becoming more and more conscious of the need to fill up the country's empty spaces or wait for the day that over-crowded Asiatic neighbors ask why they should not be admitted to undeveloped areas here.

Australia today is estimated to have 7,500,000 people on her continent of 3,000,000 square miles. The bulk of the population is in an eastern coastal belt, but through the whole country average density of population is only 2.5 persons per square mile. This compares with 3.2 per square mile in Canada.

The figure is in sharp contrast with Asia's average density of population of 155 persons per square mile and that of Australia's nearest neighbors, the Indonesians, who average 90 per square mile, with 820 Indonesians per square mile in Java.

The situation of Australia as the only white nation in her part of the world and with her wealth of living space compared with that of her northwestern neighbors may become the most important factor in Australian foreign policy.

Dr. H. V. Evatt, Australian external affairs minister, touched the immigration law in a recent foreign policy review before parliament, describing it as an "economic" measure and suggesting "clear and frank understanding" of it.

Immigration Minister Arthur Calwell, who has charge of Australia's plans to bring in 35,000 white immigrants in 1947 and 70,000 a year subsequently, told an Australia Day gathering that unless the population is increased by immigration and improved birth-rate Asiatic peoples would be able to "take over" the country within two generations.

U.S. PRESIDENT VISITS MEXICO — U.S. President Harry Truman stands (left) beside President Miguel Aleman of Mexico in the automobile they rode through Mexico City, where Mr. Truman promised Mexico that he will stand by the "Good Neighbor" policy and the doctrine of non-intervention. In his speech of welcome to the distinguished visitor, President Aleman said that "no rivalry" holds the U.S. and Mexico apart.

Brier Tankard Record Listed

Here is the complete list of winners of the Macdonald's Brier Tankard, emblematic of the Canadian curling championship, since the dominion-wide competition was first played in 1927:

1927 Murray MacNeill, Halifax Curling club, Halifax.
1928 Gordon Hudson, Strathcona club, Winnipeg.
1929 Gordon Hudson, Strathcona, Winnipeg.
1930 Howard Wood, Granite club, Winnipeg.
1931 Robert G. Gourley, Strathcona, Winnipeg.
1932 James Congalton, Granite, Winnipeg.
1933 Cliff R. Manahan, Royal Club, Edmonton.
1934 Leo Johnson, Strathcona, Winnipeg.
1935 Gordon Campbell, Thistle club, Hamilton, Ont.
1936 J. K. Watson, Strathcona, Winnipeg.
1937 Cliff R. Manahan, Edmonton.
1938 Albert Gowanlock, Glenboro, Man.
1939 Herbert C. Hall, Granite club, Kitchener, Ont.
1940 Howard Wood, Granite, Winnipeg.
1941 Howard Palmer, Calgary.
1942 J. K. Watson, Strathcona, Winnipeg.
1943-44-45 Competition suspended on account of war.
1946 Billy Rose, Sedgwick, Alta.
1947 Jimmy Welsh, Deer Lodge, Winnipeg.

AUSTRALIA APPOINTS NEW GOVERNOR

CANBERRA — William John McKell, former Labor premier of New South Wales and second Australian-born governor-general ever to be appointed, was sworn in at a 13-minute ceremony in the federal senate chamber here.

McKell, successor to the Duke of Gloucester, took the oath of office before a gathering of foreign diplomatic representatives and distinguished Australians including the 76 members of the parliamentary Labor party and 17 of 42 opposition members of the house of representatives and senate.

Though Liberal leader R. G. Menzies and country party leader Arthur Fadden attended the ceremony, the Sydney Sun reported the swearing-in under the headline:

Opposition boycotts McKell ceremony — many empty seats.

McKell, former boilermaker and son of a butcher, was appointed to his post despite wide protests against naming an active political figure as the king's representative.

The appointment, which received the king's approval, was on the recommendation of the commonwealth government.

MASTER OF THE KING'S MUSIC TO TOUR CANADA

Edgar Stanley Roper, C.V.O., M.V.O., F.R.C.O., master of the King's Music and organist, composer and choirmaster of His Majesty's Chapel Royal, will arrive in Canada shortly on a three months tour of the Dominion, according to C.N.R. officials. He will be accompanied by Cornelius Fisher of the Guildhall School of Music and Michael Head, leading English song composer.

They will attend the musical festivals at Toronto, Ottawa, Stratford, Sudbury, Winnipeg, Saskatoon, Regina, Edmonton, Vernon and Vancouver. At the latter point they will act as judges of the British Columbia event. 2716

Floods Causing Traffic Tie-Up In Britain

LONDON. — Floods, caused by a great thaw and rain, stopped trains, diverted road traffic and has put hundreds of acres of land under water in Britain.

Reports from the upper reaches of the Thames showed there was imminent danger of the second serious flood within four months. The river rose another foot. The air ministry said the thaw would continue.

No more pleasant than the 200-mile wide belt of rain which lashed the isles from south to north, was the news that butchers' meat supplies would be cut and that full-scale rationing of domestic fuel during the summer was a concrete possibility.

The reduction of meat to butchers will not mean a cut in the individual ration, worth about 27 cents a week, but less extras for the housewife to eke out her menus.

The present practice is to allow butchers about a 10 per cent margin to provide for difficulty of cutting out the exact ration for each customer and to allow meat for sausages and pressed meats. For the time being this margin will be cut in half, the government said.

Commenting on the statement by Sir Stafford Cripps, president of the board of trade, in the house of commons on potential fuel rationing, J. R. W. Alexander, general manager of the British gas [illegible], told the [illegible] that [illegible] gas should not be [illegible] unless the government was satisfied that restrictions of gas usage would not save enough coal.

In the [illegible] Sir Stafford [illegible] of not only of rationing but of the necessity for [illegible] staggering of industrial working hours to ease the electricity [illegible] [illegible] [illegible] stations and [illegible] [illegible] [illegible] cuts June 1.

Staggering [illegible] [illegible] [illegible] ready are being worked out.

New Idea

MENLO PARK, Calif. — [illegible] Yates showed up in the eighth grade at Central school with a cigar box.

He opened it and passed out all-day suckers explaining:

"I'm a brother."

TROWBRIDGE, England. — When two little girls were trapped in the window of a blazing apartment house four unknown sailors formed a human chain on the ladder and passed them down to safety.

Dominions Seek Representation At The Big Four Conference

—German Peace Settlement

MOSCOW.—During the Big Four conference here, the Dominions will stress their case hard for adequate representation for middle and small powers in preparation of the German peace settlement, it was learned.

While a direct approach cannot be made to the council of foreign ministers itself, diplomatic representatives of Canada, Australia and New Zealand will urge in private talks and informal meetings with the conference delegates that the 18 other states which fought in Europe be given an opportunity to share in the actual work of the settlement. South Africa has no [illegible] [illegible] here.

It was learned authoritatively in London earlier that Foreign Secretary Bevin plans to see Prime Minister Stalin personally to urge a change of Russian policy so that the Dominions can take a fuller share in the treaty drafting.

The focal point of the Dominions' argument will be the contention that the middle and small powers should be on the committees which likely will be set up by the Big Four to continue to work along with the deputies on Germany after the Moscow conference ends.

The plan for a committee structure was advanced in London by the United States and would provide for political, economic, territorial and military committees with various subcommittees.

AMPUTEES PLACED IN EMPLOYMENT

OTTAWA.—A total of 1,480 amputees of the Second Great War have been successfully placed in employment, including nine out of 11 double arm amputees, according to Walter Tucker, parliamentary assistant to the minister of veterans affairs.

The veterans' affairs department has provided through its prosthetic service an artificial limb service unexcelled by any other country. The service is provided at no cost to the disabled veteran through 12 centres located in the principal cities of Canada from Halifax to Victoria, said Mr. Tucker.

Approximately 3,300 veterans of the First Great War and 2,000 of the Second Great War have been fitted.

The department has full rights to the metal leg as supplied by the contractors to the British ministry of pensions, the largest metal leg manufacturers in the world. Close contact is kept with development in Great Britain, the United States and by Canada's own research committee.

"Brother's Keeper"

VANCOUVER. — An older and wiser brother who was his brother's keeper brought a happy ending to a holdup committed recently.

Robbed of $15 and a wristwatch by two young armed youths, Fred Bedenoas was standing on a street corner consoling himself over the loss of his possessions. A man approached him and quickly thrust three five-dollar bills and a watch into his hand.

"I heard about the trouble you had this afternoon," he said. "My brother and another guy held you up."

UNITED STATES FIRM TO OPEN STORES IN CANADA

VANCOUVER. — Sears-Roebuck and Co., one of the world's largest merchandising firms, recently incorporated in Canada with a charter for opening stores or offices in the Dominion, will open its first Canadian branch office in Vancouver, company officials in Seattle said.

WANTS ENGLAND TO JOIN UNION — Suggestion that England, Wales, Scotland and Ireland join the United States was made by Sen. Richard B. Russell, seen here, of Georgia. He said the absorption of what was once the mother country of the U.S. was "the only solution."

CHURCHILL INVITED TO WASKESIU

SASKATOON. — Winston Churchill has been invited to address the annual meeting of the Retail Merchants' Association of Canada at Waskesiu, Sask., June 16-17, a spokesman for the association said.

Mr. Churchill will be in North America during June and is expected to address the Chemical Institute of Canada convention June 9-11 at Banff, Alta.

TAXES TO STAY

WASHINGTON — President Truman signed legislation extending the wartime excise tax rates. The legislation continues indefinitely the high wartime levels on such items as liquor, furs, jewelery and cosmetics and for transportation and telephone services.

Y.M.C.A. DELEGATE

EDMONTON. — Les D. Wedman, Edmonton newspaperman (Journal) will be one of six Canadian Y.M.C.A. delegates to the world youth conference in Oslo, Norway, and will represent Alberta and British Columbia, it was announced.

DOG DERBY SETS NEW RECORD—New record, said to be the longest time ever taken in the Honey Harbor, Ont., three-mile dog race, was set by [illegible] seen with his team as he receives the Musher trophy from B. F. Lavalley. The three-mile event signifies the Canadian championship for two-dog teams and veteran drivers reported the heaviest going of any year. The Honey Harbor event has become the classic of Canadian dog derbies and is sponsored by the Sleigh Dog association of that community.

$25,000.00 in CASH PRIZES plus 120 MALTING BARLEY SEED AWARDS OF 10 BUSHELS EACH

Another wonderful opportunity to win BIG CASH PRIZES, achieve outstanding recognition and become famous as a Champion Grower of Malting Barley. It's your chance to help Canada lead the world in growing malting barley. Every farmer in the recognized malting barley areas of Canada can enter and compete for these Cash Prizes and Seed Awards. Start planning now to plant malting barley this year. Secure seed early and be ready to enter the

SECOND ANNUAL

National Barley Contest

SPONSORED BY THE BREWING AND MALTING INDUSTRIES OF CANADA

For Farmers of Canada's Barley-Growing Areas

WESTERN CANADA DIVISION

Open to all farmers in the malting barley areas of Manitoba, Saskatchewan, Alberta and the Peace River block in British Columbia.

TOTAL CASH PRIZES - $18,750.00

Plus 120 awards of 10-Bus. Reg'd Seed (sensational new Montcalm Barley)

FIRST PRIZE - $1,000.00

Second Prize - $500.00

3rd Prize - $300 4th Prize - $200

Above Are Interprovincial Prizes

ADDITIONAL CASH AWARDS:

12 Provincial Prizes 120 Regional Prizes AND 120 10-Bus. Seed Awards

[illegible]

CANADA NEEDS MORE IMPROVED BARLEY

By encouraging the growing of improved quality seed and malting barley the brewing and malting industries of Canada through this contest are contributing to the meeting of Canada's domestic needs and assuring successful re-entry of the Dominion in world barley markets. Because Malting Barley is used in a wide range of products for home, farm, industry—in foods, drugs and general articles—it is playing an ever-increasing part in the industrial and economic life of Canada.

1946 COMPETITORS PLEASE NOTE:

Full list of 1946 National Barley Contest winners will be published following the awarding of inter-provincial prizes at Manitoba Winter Fair, Brandon, Manitoba, Mar. 31st.

ISLAY

The Islay bonspiel is over—a grand time was had. Many of the visitors were heard commenting on how they enjoyed it, and the good ice. One curler especially said he would be sure to come back next year.

Pies made by the women of the surrounding locality brought some $32 for the Red Cross. We didn't serve lunch in the rink this year as Islay now has a restaurant for which we are very happy.

A dance was held March 17th in the hall preceded by a short concert.

March 28th the Jr Red Cross is sponsoring an Amateur night. Come along with your talent and help the Juniors.

Talk about pupils riding to school in style—well, just ask Betty Gillies what style she travels in—by mule team, no less. Yes sir, Mr. O. Fenton has a team and he and Mr. Gillies were in to town to meet Betty to take her home. No one else can boast that style of locomotion.

Mr A. Anderson is out again and we are glad to see him at his usual post in the Sunday school.

Last Sunday Rev. Driver brought with him Mr Seward Jr. who gave us an account of the Bible School conducted for a week at Lamont. A very interesting week must have been spent for his account was quite enlightening. Mrs. Charles Robertson also attended for a day.

A grand new car was brought home by Paddy McGuigan last week. It stands in Vic Torrance's yard and many there be who gaze at it.

Mr and Mrs. Dave Buchanan were noticed in town Tuesday. Both are looking quite well now.

Mrs. John McFadyen is spending the winter with her son Edmund. She is hale and hearty and quite enjoying the winter.

Quilt making is going on at Mrs. Bothwell's, Mrs. Doris McFadyen giving a helping hand.

Mr. Chris Hamilton has finally obtained a house in Mannville and the family will move there sometime in April.

Legion Midgets Trim Mannville by 7 to Nil

The Vermilion Midgets, which team is sponsored by the local Post of the Canadian Legion and coached by Alf Lampitt of the teaching staff, trimmed the visiting Mannville Midgets 7-0 in an energetically played game at the arena Saturday night. Only a handful of fans were on hand to see what might well be the last game of the season.

The visitors held the local aggregation down to one goal in the first period scored by Brent Macnab. In the middle canto however the Stan Manyluk-managed youngsters ran in 3 goals, one each from the sticks of Ronnie Dwyer, Alec Link and Eddie Chesnick. In the third period Wilkinson, Dwyer and Mac Fisk scored to run the total up to seven.

Stan Waldenberger refereed.

Lineups

MANNVILLE—Wadsworth, Gamble, Rose, Hay, Ewing, Kozbek, Hogan, Laurenceson, Jones.

VERMILION — Andy Labounce, Brent Macnab, Eddie Chesnick, Billie Williams, Ronnie Dwyer, Dick Swanson, Hugh Swanson, Alex Link, Mac Fisk and Jim Wilkinson.

DANCING every Saturday night at the Elite hall, only 25c. [illegible]

Thirty-two Years Ago Today

Interesting Items Gleaned from the Files of the Vermilion Standard

32 YEARS AGO TODAY — 1915

March 17, 1915

A disastrous fire which had its origin in the explosion of a parlor lamp, consumed the farm residence and contents of J. B. Sanborn, 3 miles east of town Monday evening.

The curling season was wound up by a big banquet attended by all the club members.

Sixteen Years Ago Today

March 19, 1931

The annual bonspiel was wound up last Friday night when Jack Morrison won the Grand Challenge and the Dr. Hennig rink of Mannville the Brunswick and Vermilion.

Curling continues — a mixed bonspiel being in full swing this week.

The Little Theatre club scored a smashing triumph with their presentation "Barbarossa of Barberry" at the Columbia theatre. The cast included Fred Olson, Matt Brimacombe, Jack Markle, Mrs. Pullybank, Wm. Glanvill, Cliff Gates, Jack Holder, Tom Watts, Mrs. Lillian Pinchbeck. Gilbert Brimacombe was pianist.

OUR COMPLETE SHORT STORY—

"TO A MAN'S HEART"

By LILA LENNON

Ellen Craig's mood was indigo. There was, however, no hint of it in her voice as she brought her broadcast to a smooth finish. Today, though, it was just a little difficult to tell thousands of women that the best way to a man's heart was still, and always would be, through his stomach.

To this end, she charmingly extolled the newest yummy desserts and gave out those clever, but practical recipes for delectable foods.

The reason for Ellen's mood involved tall red-headed Tim Blair and a cherished dream of long standing. It was funny how the same old dream kept popping up. Same [illegible] same scene. And always Tim whispering tenderly.

"Ellen," I adore you. Will you marry me?"

And today, just before broadcast time, that dream had exploded like a gaily colored soap bubble. All because Tim had asked her to marry him.. but how!

The scene haunted her, as well as the disturbing thought that perhaps Tim was mainly interested in food . . after all. Ellen recalled Tim's proposal, and her clear brown eyes sparkled angrily.

Johnny O'Neil, Tim and Ellen had been standing in the hall...Johnny had laid his hand on Tim's shoulder.

"Now here's a gal you should marry, Tim." He glanced at Ellen mischievously, and continued gaily. "She's beautiful . she's clever. . and how she can cook! All those wonderful things she talks about every day.. just think, Tim, all this . . and good food too!"

And Tim had turned to Ellen. His eyes were very intent, but his tone was light.

"A good idea. This bachelor existence is hard on the digestion. How about it, Ellen, will you marry me?"

Ellen swallowed hard.

"Of course I'll marry you, Tim." She added sweetly, "but, you'll probably get arsenic for breakfast!"

Johnny thought it was wonderful. He shouted with laughter. When he had gone, his laughter still echoed tauntingly in Ellen's ears. It had all been so casual... her beautiful moment, shattered beyond repair...

She turned to Tim. It was almost broadcast time, and she had a horror of letting him see the tears she could feel stinging her eyelids.

"Good joke, wasn't it?" she asked lightly.

Tim took her arm. "It wasn't a joke," he said gravely. "I meant it, Ellen. Will you marry me?"

Ellen looked up. What she saw in his eyes made her heart do a double flip-flop. Stubbornly, she kept her tone light.

"Really, Tim, I think you should sample my cooking before you decide. Won't you come up tonight, for a snack?"

Tim looked startled, but Ellen rushed on.

"There's the red light...I have to dash ..see you at seven."

It was almost seven, and Ellen grimly surveyed the contents on the stove. This was going to be a snack to end all snacks! She stirred the saucepans viciously. Suddenly the sharp peal of the doorbell disturbed her gloomy contemplation.

Ellen cast a last [illegible] in the full length mirror. She was, if nothing else, a portrait of a blushing bride-to-be.

Tim kissed her, thoroughly, and still swaying a little, Ellen led him to the table quickly.

"Sit down, darling, things are all ready to go on the table."

He protested. "I didn't want you to go to a lot of work!"

"No trouble at all," Ellen assured him blithely, and set two plates at the table.

Tim stared in astonishment. The ham was sliced in thick chunky pieces that fairly screamed "canned". A well known variety of beans wandered lamely across the surface of the plate, and a few stalks of asparagus completed the picture.

Ellen set a plate of leaden looking biscuits before him.

"It isn't much of a snack, darling," she apologized sweetly. "But, I was delayed, and this was all I could manage."

Tim swallowed manfully. His voice had a tinny sound, even to his own ears: "This is fine!"

"Have a biscuit, Tim?" Ellen asked.

"Darling", she fibbed bravely. "I'm not really much of a cook.. those wonderful recipes I talked about everyday...I.. well, I just talk about them." Suddenly, her eyes filled with tears and her voice wobbled uncertainly.

Tim stood up. "Come here!" he commanded.

Ellen went meekly, straight into his arms.

"Don't cry, baby", Tim said soothingly. "We'll . . we'll learn together . ."

Ellen sobbed convincingly. "But. . I can't darn socks, either..."

"Who cares about socks?" Tim demanded. "When the holes get too big, throw 'em out!"

Ellen looked up searchingly. Tim's eyes were very blue, and tender. He tightened his arms, and said softly,

"Darling, it's you I adore . .and you I want. Don't you know that?"

"Yes", Ellen whispered happily. "Yes, I know . . now!" and she hoped she would never have to mess up another meal, even to find the way to a man's heart.

BACKACHE

The Plague of Outdoor Men

The outdoor man, whether he be farmer, truck driver, or railway operator, is often subject to backache. This may be the result of exposure to cold and dampness or the result of strain from the jolting and bumping of the vehicle he rides.

To many people, women as well as men, it would be great to be free of backache—one of the most common and annoying of ailments. And here is how you may be relieved of backache and other symptoms of poisons in the blood.

The treatment suggested is Dr. Chase's Kidney Liver Pills. By reason of their stimulating action on both the liver and kidneys, you have two chances to one of getting relief from your backache by using Dr. Chase's Pills. The torpid liver is aroused to action, the kidneys are stimulated and consequently these organs help to purify the blood of the poisonous impurities which bring pains and aches and tired feelings.

Keep regular and keep well by using Dr Chase's Kidney Liver Pills. 35cts a box.

Dr. Chase's [illegible] Pills

MAY AID GANG PROBE—More than 30,000 people lined Vancouver streets in silent tribute as the funeral cortege passed bearing the bodies of Police officers G. O. Ledingham, 40, and Charles Boyes, 30, shot down in cold blood by a trio of young gunmen. Madeline Medos seen here, wife of Harry Medos, one of the men charged with the murder of the policemen, offered to give information about gang activities if accorded protection.

GARDEN NOTES

A Rake, A Hoe And A Spade

In most cases all that one must have to start gardening is a rake, a hoe and a spade. These are minimum requirements. With a little more equipment, however, much labor can be saved. Digging forks, cultivators, special weeders, dutch hoes, etc., will make the work easier and more interesting. For larger gardens a small garden tractor that will cultivate, plow, cut the lawn, and in winter even plow out snow, might be considered. A sharp hoe or cultivator will also speed the work. It is a good plan to wipe off all dirt from tools between operations, and a little oil or grease smeared on the shiny surfaces is recommended.

On Making A Lawn

Lawn grass makes its best growth early in the spring hence garden experts advise doing lawn work just as soon as possible. This means as soon as one can walk over the soil without getting the shoes muddy. This advice applies both in starting new lawns or repairing old ones.

Seldom is it advisable to sow a straight variety of grass seed. Seed houses put up special mixtures for this purpose, a blend of several kinds of seed. In these mixtures are some very expensive, blended together by these experts who know what is best for Canadian conditions. In the mixtures are some tough grasses that will help the less quick growing kinds so that one does not have to wait weeks for the green carpet desired and some grass so that will stay green almost in the dryest weather.

Grass will thrive best in good soil and it is never advisable to sow without preparation. This means at least one thorough cultivation before seed is sown, working up the top as fine as possible and if necessary [illegible] working in a layer of rich fine loam. It is highly important that all holes are filled in evenly. Sow on a [illegible] less day and broadcast [illegible] and once lengthwise. Follow [illegible] tions carefully as to amount of seed to use. Grass on good soil [illegible] once or twice each season with a good commercial fertilizer will [illegible] grow most weeds.

SELECTED

RECIPES

GRAPE-NUTS PRUNE BREAD

- 1½ cups milk, scalded
- ⅔ cup Grape-Nuts
- 2 cups sifted flour
- 1 tablespoon baking powder
- 2 teaspoons salt
- ⅓ cup sugar
- 1 egg, well beaten
- 3 tablespoons melted shortening
- ¾ cup finely cut cooked prunes

Pour hot milk over Grape-Nuts. Set aside to cool while [illegible] other ingredients.

Sift flour once, measure, add baking powder, salt and sugar, and sift again.

Add egg, shortening [illegible] cool Grape-Nuts mixture [illegible] well. Then add flour mixture [illegible] only enough to dampen all [illegible].

Turn into greased [illegible] pan and let stand 20 [illegible] baking.

Bake in moderate oven [illegible] F.) 1 hour or until done. [illegible] wrap in damp cloth [illegible] and store several hours [illegible] before slicing.

Please note: If you prefer [illegible] cup chopped raisins or [illegible] stead of prunes [illegible] omitting fruit.

GINGER POPS

- 1 cup molasses [illegible]
- ¾ cup shortening
- 2½ cups sifted flour
- 2 cups whole wheat flakes
- ½ teaspoon salt
- 2 teaspoons baking [illegible]
- 1½ teaspoon allspice
- 1½ teaspoons ginger

Heat molasses [illegible] boiling and add shortening [illegible] from heat, cool [illegible] soda and spices together [illegible] molasses mixture. Add whole wheat flakes. Blend well. Knead and shape into rolls about 1½ inches in diameter, wrap in waxed paper [illegible] ends so that dough will not [illegible]. Store in refrigerator [illegible] in thin slices and bake [illegible] cookie sheet in moderate [illegible] deg. F.) 8 to 10 minutes [illegible] 3 dozen wafers (2 inches in diameter).

SAYS MODERNIZATION OF FARM IN THE WEST NECESSARY

WINNIPEG. — Modernization of farms and farm equipment is the only way to encourage young men to remain farmers in Western Canada, declared Grant McEwan, Dean of Agriculture of the University of Manitoba, to more than 130 dealers at the Cockshutt Plow company's annual convention in the Royal Alexandra hotel.

Canada is a highly mechanized agricultural country, he said, headed only by Great Britain in the field. But, he added, modernization of the farm home was a necessary factor if Canada was to hold her position. As an example of the outmoded life on local farms, he stated that only 7 per cent. of Canadian farmers possess bath tubs.

Earlier in the day dealers viewed a model of the first Canadian built tractor, which began production during the fall of 1946.

This Boy Knew The Culprit

FITCHBURG, Mass. — When firemen answered an alarm on Kilroy St. they found a three-year-old boy waiting by the alarm box.

"Did you see somebody turn in an alarm?" asked Capt. Alexander Bean.

"Yes," replied the boy. "He piled snow up in front of the box and climbed up to pull the handle."

"Do you know who he was?" queried the fireman.

"Yep," the youngster said. "He was me."

"SALADA" TEA

Health LEAGUE of CANADA presents TOPICS of VITAL INTEREST

YOUR BREAKFAST MUST BE NOURISHING

What did you have for breakfast this morning? Orange juice and coffee? Maybe just toast and coffee? Perhaps nothing at all? That's a bad habit.

The longest gap between meals is the interval between dinner and breakfast the following morning. A meal usually leaves the stomach in three to 4½ hours after eating, although fatty foods may stay longer.

Therefore the chief source of nutrients which the body has to draw from following this period are the refined and much-digested food materials found circulating in the blood stream. These include minerals, vitamins, and perhaps some tissue-repairing materials. Also there will be small amounts of glucose.

It is important to keep in mind that the human body is a kind of factory which runs on a 24-hour daily schedule asleep or awake. The body is constantly wearing out and requires proper food to repair the worn out parts.

Therefore anyone wanting to carry on their morning activities with high efficiency and without calling heedlessly on body reserves such as sugar in the liver will be wise and eat a proper breakfast.

The Health League of Canada advises that you follow Canada's Food Rules in the matter of selecting your daily diet. If you do so, you will eat a breakfast containing fruit or fruit juice or tomato juice, including the pulp of any citrus fruits; whole-grain cooked cereal, bacon or eggs, or both, whole grain bread or toast, milk and butter.

If you don't eat the pulp of your citrus fruit you lose some Vitamin C.

These are the basic essential foods which furnish the nutrients the body must have to keep all parts in repair and provide enough energy to carry on all body processes. However, occasional changes in menu might be desirable. If so, sausages may be substituted for bacon and eggs; whole wheat muffins may take the place of whole wheat bread, or try waffles or pancakes.

Mothers should remember that it is vital that children establish the habit of eating cooked whole grain cereal with milk at least once a day.

Remember — Eat a nourishing breakfast!

COVERED LARGE AREA

Lake Agassiz, larger than all of the Great Lakes put together, once covered what is now the flat and fertile wheat-growing region of Manitoba, North Dakota and Minnesota.

Gets Heat Direct From Electricity

Engineers and scientists have long wondered why we do not convert heat directly into electricity without such intermediate moving machinery as boilers, engines, and dynamos. It has always been theoretically possible and at last it is being done by means of thermocouples. As there are no moving parts, a thermocouple is of course noiseless. The best one to date seems to be two alloys recently developed. Gasoline is used as the fuel and the little portable generator delivers 20 watts at 12 volts. It weighs 45 pounds. — Rotarian Magazine.

Pilot Grounded By Bride-To-Be

FERGUS — Joe Howard, Fergus pilot, home after spending 10 days in a wrecked aircraft near the Quebec-Labrador border, is grounded—not by the Transport Department but by Reta Livingstone, his bride-to-be.

"We are getting married as soon as possible," said Miss Livingstone. "There'll be no more of this sort of thing."

To Feel Right — Eat Right!

When Your Child has a Cold, Sore Throat etc.

TAKEN WITH BREAD "MATHIEU'S" SYRUP Relieves Quickly

Take a good bite of bread soaked in a tablespoonful of Mathieu's Cough Syrup. Before swallowing keep it in your mouth two full minutes, without chewing. This allows the volatile ingredients to permeate the nose and bronchial tubes.

Grown up people may take Mathieu's Cough Syrup pure but should keep it in their mouth 2 full minutes before swallowing it.

Take 3 or 4 times a day, and at night on retiring.

Delicious CRUMB COFFEE CAKE

Recipe

Add 1 envelope Royal Fast Rising Dry Yeast and 1 teaspoon sugar to ½ cup lukewarm water, stir and let stand 10 minutes. Scald ½ cup milk, add 3 tablespoons shortening, ½ cup sugar and ½ teaspoon salt, cool to lukewarm. Add 1 cup sifted flour to make a batter. Add yeast mixture and 1 beaten egg. Beat well. Add 2½ cups sifted flour, or enough to make a soft dough. Knead lightly, place in greased bowl. Cover, set in warm place, free from draft. Let rise until doubled in bulk, about 2 hours. Roll out dough to ½" thickness and place in greased shallow pan. Let rise in warm place, free from draft, until light, about 1½ hours. Prick top with fork and brush with 3 tablespoons melted shortening. Cream 3 tablespoons butter or shortening, add 3 tablespoons sugar gradually, mixing well. Add ½ cup sifted flour, ½ cup dry, fine cake or bread crumbs, and ½ teaspoon cinnamon, mix until well mixed and crumbly. Sprinkle on top of cake. Let rise again in warm place about ½ hour. Bake in moderate oven at 400°F. about 30 minutes.

WIEBE'S BAKERY

Death and Funeral of Mr. Obadiah Stafford

There passed away at the home of Mr. and Mrs. George Davies, Lloydminster, on Friday, March 7, a kindly gentleman in the person of Mr. Obadiah Stafford. The deceased was 75 years of age.

A native of Barrie, Ontario, the late Mr. Stafford came West in 1892 to Fort Saskatchewan and then moved into the Dewberry district in 1906 when he homesteaded. It was in 1941 that he came to the Lloydminster district. He was of a retiring nature although friendly and was a lover of horses. He had only been sick for two weeks before his death.

The funeral was held from Moore's Funeral Home on Monday, March 10 with Rev. Pechover officiating and interment was made in the local cemetery. The pallbearers were Messrs. W. J. Patterson, Jas. Bowen, Dick Roberton, all of the Lloydminster district and Bill Armstrong of Vermilion.

—Lloydminster Times.

Don't forget the United church Spring Tea on May 10th in the Elks hall. 44-5x

DEWBERRY NEWS

Who knows — by the time this appears in print it may be below zero again. Anyway, it is a nice change from a severe winter. Maybe spring is really here. Some people recall wheat being sown in this district in March.

We don't know whether it's the mild weather or not but there are several cases of sickness in the district.

Mr. Curtiss is very ill from a stroke. Mrs. Aubrey Donnil of Wabamun has also suffered a stroke and Mr. Donnil has rushed back there. Mr. Donnil has been here helping his son Robert get settled on the former Ernie Smith farm west of Dewberry.

We welcome a good farmer and a sportsman into our district in the person of Frank Mead. Frank has purchased the McKinley Wilson farm north-west of Dewberry.

Dewberry now has a new agent at the Reliance elevator in the person of Ralph Lunden and every success is wished him in his new venture. John McKnight the former operator has left and will operate the farm of Howard McGlauchlin of Irwinville. He has already sold his house to Albert Ketchum who is now working in the Vic Donnil garage.

Gerald Hodgson, manager of the Dewberry Co-op store attended the co-op convention in Edmonton. Watch for the annual meeting date. Donald Mathison, president of the co-op association also attended the convention.

The Islay lady curlers split a two game exhibition with the Dewberry ladies on Saturday. While on the subject of sports, a big program is underway to make the Dewberry sports grounds into something more than a ball park. A horse race track is one of the projects being considered.

Donald McGillivray who had the misfortune to lose his hand in a planer accident west of Edmonton is still in hospital but convalescing favorably.

United church services are [illegible] again being held in Dewberry every Sunday morning.

James Anderson who is now attending University in Vancouver has found time to secure his commercial pilot's license. Though studies [illegible] up all his time at present he [illegible] hopes of taking to the air this summer again. James graduated as a bomber pilot during the war.

Punished for Breaking Power Line Insulators

WARNING AGAINST PRACTISE

Proceedings were taken in Juvenile Court at Vegreville on February 22nd against two juveniles charged with delinquency in shooting and breaking insulators on the power poles of Canadian Utilities Limited near Warwick, Alta. One juvenile was convicted and in doing so the Court expressed the hope that this would be a warning against this practice which is not only dangerous to those committing it, but is also dangerous to those using power which is sometimes cut off or seriously interfered with by this practice.

It seems quite obvious that those who are causing this damage are not aware of the seriousness of their acts insofar as other people are concerned. In damaging an insulator on a power line, by shooting it with a rifle, or by any other method, the insulator is weakened if not entirely broken. Such an insulator may continue in use without causing trouble for some time but eventually, during bad weather conditions, it will break down. This releases electric current to the steel pin or to the pole, either burning the pole top or simply opening the switch which controls the line. Until the trouble is found and corrected the line remains without power.

The seriousness of breaking these insulators arises from the fact that these lines supply towns, villages, farmers, including hospitals, heating plants, refrigeration and all the numerous applications of electric power. Hospital operations may be interrupted or prevented, stokers shut down at hospitals, places of business and homes. The loss to these people can be very serious, not only material but actually life may be endangered by power interruption.

It is the duty of every citizen to refrain from damaging such important installations and to warn juveniles of the dangers in this practice of interrupting power service.

DANCE ST. ANDREWS HALL

Old time and modern dance will be held in the St. Andrew's hall on Easter Monday, April 7th. [illegible] orchestra. Free lunch. Admission 50c and 25c. 44-6x

MORRISON NEWS

The last meeting of the Ladies club was held at the home of Mrs. Ronaghan with nearly all the members present. It was decided to hold a dance in aid of the Red Cross on Friday March 21st. The roads are now open for cars from Ronaghan's corner up to the school and it is hoped that a good crowd will attend and help this worthy cause.

Mr. Bowser spent a few days in Edmonton last week visiting Ruby and Earl and family. Earl was guest speaker at the board of trade in Vermilion on Wednesday last week and on his return trip to the city was accompanied by his mother, sister [illegible] and little nephew Kenny [illegible]. Earl is originally a Morrison boy [illegible] his early schooling at the Morrison school.

Mrs. [illegible] spent last week [illegible] visiting Bill and [illegible]. Betty spent part of her week end at the home of the writer. Mrs. [illegible] also enjoyed a visit [illegible] from Mr. and Mrs. McLeland.

Rumor has it that Charlie Bart has bought [illegible] from Mr. [illegible] of Drumheller. Harry Young [illegible] Charlie down to [illegible] drawing [illegible] hall.

Rural Housing

THE QUESTION OF HOUSING remains to the fore in Canadian affairs and constitutes one of the major problems facing the country at this time. In large cities and densely populated industrial districts the situation has been particularly acute and most of the public interest and concern in the matter has been directed towards those areas. It is there, too, that the greatest efforts have been made to relieve the existing shortage and there is no doubt but that the need has been greatest in such places. It should not be overlooked, however, that rural housing has likewise been affected by wartime shortages of labor and materials and that no national housing project will be complete until conditions in rural districts have been greatly improved.

• • • • •

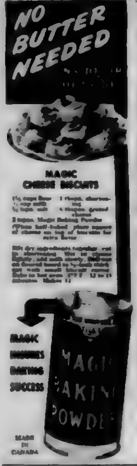
Many Advances Have Been Made

There are fine model homes and buildings on many farms in Western Canada, but there are also a great many cases where too little care and planning has gone into the building of farm houses. In recent years great advances have been made in designs for [illegible] including improved methods of heating, water supply and other features important to the comfort and convenience of the farmer and his family. It is of interest to note in this connection that recently a meeting attended by rural housing representatives from various parts of the prairie provinces was held in Saskatoon. At this meeting, which was sponsored by the Central Mortgage and Housing Corporation, it was suggested that a co-ordinating committee be appointed to investigate all matters allied with improvement in rural housing, community centres and similar buildings.

• • • • •

Is A Need For Better Homes

Long before the present housing problem had arisen, it was realized by many people that too great a discrepancy existed between the comfort afforded by the home of the average city dweller, and that of the average farm home. It was realized too that facilities for community life could be greatly improved in rural areas. A rise in the standard for homes, community centres and other buildings in rural areas would no doubt have the effect of keeping many ambitious and enterprising young people on farms who might otherwise be attracted by the advantages of urban life. Better planned homes do not necessarily mean more expensive ones as has been demonstrated in [illegible] projects in the past. When the present housing problem in Canada has been solved it is to be hoped that rural areas will have benefitted as well as the more thickly populated sections of the country.



Frau Goering Also Carried Poison Capsule

NEUHAUS, Germany - Frau Emmy Goering, soon to face denazification proceedings before a German court, said she herself carried a poison capsule similar to the one with which her husband evaded the gallows at Nuremberg.

The [illegible] was in [illegible] for the Nazi regime, "we all got small capsules". Hers, she said, was intended for use only if she had been severely injured "by an air raid or similar event."

The 53-year-old woman is charged as a "profiteer of Nazism". The penalty upon conviction could be 10 years at hard labor.

GEMS OF THOUGHT

LITTLE THINGS

The power of little things to give instruction and happiness should be the first lesson in life and it should be inscribed deeply.—Russell H. Conwell

Most of the critical things in life, which become the starting points of human destiny, are little things.—Robert P. Smith

Seeing that we have to attain to the ministry of righteousness in all things, we must not overlook small things in goodness or in badness, for trifles make perfection, and "the little foxes . . . spoil the vines."—Mary Baker Eddy.

Trifles discover character more than actions of seeming importance; what one is in little things he is also in great.—Swift

In great matters men show themselves as they wish to be seen; in small matters, as they are.—Gamaliel Bradford

It's just the little homely things,
The unobtrusive friendly things,
The "won't - you - let - me - help - you" things
That make our pathway light.
—Grace Haines

United States Department of Agriculture chemists have developed a non-swelling wood which promises to eliminate the nuisance of stuck drawers and doors.

GIRLS! WOMEN! TRY THIS IF YOU'RE NERVOUS, CRANKY, TIRED-OUT
On 'CERTAIN DAYS' of The Month!
Do female functional monthly disturbances make you feel nervous, fidgety, cranky, so tired and "dragged out" at such times? Then do try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. This fine medicine is very effective for this purpose!
For over 70 years thousands of girls and women have reported benefit. Just see if you, too, don't report excellent results! Worth trying!
Lydia E. Pinkham's VEGETABLE COMPOUND

IT'S A GOOD TRICK . . . IF YOU ESCAPE—Incredible as it may seem, the driver of the trailer truck, shown above after it had crashed from a Chicago, Ill., viaduct, was able to walk away. "My back's a little lame," admitted driver Robert Balder, who lost control of the vehicle, which landed between two trains.

FUNNY And OTHERWISE

Maude — Dick called me a dream last night.
Bert—Well, only yesterday, he told me what awful dreams he [illegible].

• • • •

Young Lady - "I wonder why it is that a man is so timid when he proposes?"
Bachelor - I suppose it is one of his guarding angels is holding him back."

• • • •

Tom was very careful of the truth; punctilious in fact. So when he got married and the minister asked him, "Well, Tom, I suppose you feel you got the best wife in the world?" Tom replied:
"I think, sir, she is God's handiwork, but I shouldn't say she is His masterpiece."

• • • •

"Well Dick, my boy," said his uncle, "my congratulations! I hear you're engaged to one of the pretty Robbins twins."
"Rather!" replied Dick, heartily.
"But," said his uncle, "how on earth do you manage to tell them apart?"
"Oh," said the young man, "I don't try."

• • • •

Visitor — "What nice buttons you are sewing on your little boy's suit: My husband once had some like that on his suit."
Vicar's Wife—"Yes, I got all my buttons out of the collection plate."

• • • •

Mother: "What are the young man's intentions?"
Daughter: "Well he's been keeping me pretty much in the dark."

• • • •

"Carter is the most absent-minded chap I ever met," remarked a clubman to a fellow-member.
"What's he been doing now?" inquired the other.
"Why, this morning he thought he'd left his watch at home, and then he took it out to see if he had time to go back and get it."
"That isn't so bad," said the second man, reminiscently. "In the time when he left his office and put out a card saying he'd be back at 3 o'clock. Finding he'd forgotten something, he went back to the office, read the notice on the door, and sat down on the stairs to wait until 3 o'clock."

Information On Protecting Invention

C. J. F. wants information regarding protecting invention - In general it may be said that a person unacquainted with process of obtaining a patent has little chance of fully complying with the rules and regulations of the patent office unless he secures the aid of a patent solicitor. Applicant must state in his application his address, the title or name of his invention and send in a specification in duplicate thereof with an additional or third copy of the claim [illegible] of illustration by means of drawings, the applicant shall also send in drawings in duplicate showing clearly all parts of the invention. Each drawing shall bear the signature of the inventor or of the applicant. The cost of patent is $35. Write to Commissioner of Patents, Patent and Copyright Office, Parliament Buildings, Ottawa. 2746

PATENTS
AN OFFER TO EVERY INVENTOR. List of inventions and full information sent free. THE RAMSAY COMPANY, Registered Patent Attorneys, 273 Bank Street, Ottawa, Canada.

Bears Baffling Park Attendants At Moose Jaw

—STAYING AWAKE

MOOSE JAW, Sask. — Bears at Moose Jaw wild animal park are awake today as they have been all winter despite all known laws of nature and attendants say it is the weather story to end all weather [illegible].

The lumbering black bears ordinarily retire at the beginning of November and end their hibernation in March, but this year the animals have kept park officials busy all winter.

Every second day the bears are fed scraps of bread and fish. In previous years they didn't stir for months.

Bewildered attendants can hazard only this explanation: Blizzards became progressively worse and the bears decided it was worthwhile to stay awake just to see what would happen next.

The winter has been a generally tough one for park attendants as well as the 10 elk, seven buffalo, four yak, 25 jumping and mule deer which live in the open on the 200-acre park first opened in 1929.

Grazing land has been covered with five feet of snow and it has been necessary to sleigh in baled hay, at $25 a ton. Using nine bales a day the park's feed bill has been multiplied five times normal winter allotments. A tag day will be held to meet the unexpected costs.

Chief attendant A. E. Smith and his staff were forced to shovel eight-foot drifts away from the fences almost every day. They feared that larger animals would be able to walk over the fences.

Bears, timber wolves, turkey, peacocks, racoons, wild geese, pheasants, and skunks wintered well in pens but the monkeys stuck to the heated pens.

RADIO OVEN COOKS MEAL VERY QUICKLY

A United Kingdom firm is now manufacturing a radio oven which will cook a complete meal in a few minutes. All one has to do is place the food to be cooked between two thin metal plates or electrodes and [illegible] the "oven." The food is cooked so swiftly it never burns. It takes only two minutes to cook about ½-lb. of meat.

Smuggling of drugs and their transportation around England has been carried on by means of carrier pigeon.

MODERN METHODS BEING USED IN TRAINING SOUTH AFRICA'S ARMY

—BUILD STRENGTH TO 24,000

JOHANNESBURG.—Modern methods are being employed in the training of South Africa's youthful peacetime army—the Active Citizen Force—which it is proposed to build to a strength of about 24,000 men.

Under the South African Defence Act, citizens of European descent between the ages of 17 and 25 are liable to undergo training in either the land forces, air force or South African Naval Service. An encouraging feature of the post-war revival of the Active Citizen Force is the large number of recruits. Although youth are required to register for training at the age of 17 they need not begin their four years' service until they become 21.

At Potchefstroom in the Transvaal, the biggest training centre in the Union, a new organization has been established as a separate unit. Here experienced permanent force instructors staff the training depot.

The permanent force—the regular army of the Union Defence Force—maintains key personnel in Active Citizen Force Units and in training establishments.

Training is in two phases. In the first two weeks the recruits will be in the hands of permanent force instructors and in the second phase, unit commanding officers will be responsible for training [illegible] which will have the prior approval of the brigade group headquarters.

Individual training is aimed at, and the squads of men will be kept small. As a senior officer said "we have learned that every man is an individual with a different background, [illegible]."

The training at the depot comprises squad drill, rifle exercises, platoon drill, guards and sentries, musketry, field craft and battle exercises. Some specialists' units like artillery are given gun drill and are instructed in the maintenance of equipment and the engagement of targets. Lectures on a variety of subjects and demonstrations are also given.

The men are trained to use the latest military weapons. New equipment has been imported from the Middle East and Italy.

Quarters are comfortable and the men have beds with mattresses and hot and cold showers.

"The old idea that a soldier should be as uncomfortable as possible has changed," said a senior officer. "We try to make men under training happy and contented."

Sports facilities abound. There is a swimming bath, tennis and tenniquoit courts, cricket, hockey and football fields and facilities for boxing.

Students Prefer Town To City

Of 134 students voting in a Des Moines, Iowa, school 83 expressed the opinion that the big city is the place to live, 39 preferred the small town, and only 12 the country.

Those who voted for farm life gave interesting reasons. The city, they said, was too lonesome. They liked the neighborliness and the fellowship of the country. Life on the farm nowadays combined all the advantages offered both by city and small town since either was easily accessible to the farmers. In addition by living on the farm they escaped the gossip of the village, and the impersonal existence of the city.—Chat-[illegible].

Fort Yukon is both the coldest and hottest spot in Alaska. It has recorded temperatures all the way from 78 degrees below zero to 100 degrees above.

DERWENT NEWS

The hockey tournament which was held here Monday March 10th was a flop as far as visiting teams were concerned. The following clubs were lined up as being available: Dewberry, Clandonald, Myrnam and Elk Point. Of these Elk Point was the only club to show up. Dewberry had some players sick, Clandonald flatly refused to join in the fun and Myrnam a distance of 14 miles, were on the road from 12 noon until 2:30 p.m. when they phoned and said they couldn't make it. The Elk Point boys proved themselves to be real [illegible] and played the local club for first and second money, going home on the short end of a 7-2 score. Try as they did, the visitors were unable to cope with the smooth passing plays and speed of the local Dodgers and were presented with their [illegible] goal as defenceman Pete Nester obliged by scoring it while clearing the puck from in front of his own goal. Geo. McConnell handled the whistle and Clarence Algot was linesman to the satisfaction of all. Alex Rudowsky was the big noise on the ice as he was Johnny on the spot cleaning the surface and sweeping the red and [illegible]. The day was ideal but the dance in the evening was postponed due to the Lenten season. A huge dance will be held at some not too distant date when the Derwent Dodgers will sponsor this annual affair. His Worship Mayor Christenson was present as he is at all functions and kindly consented to facing off the puck to open the tournament. Owing to the scarcity of teams he felt it unwise to do so will be expected to open the hockey dance with a 15 minute speech of welcome and thanks to all those who participated in any way. Much credit is due Harry Borowsky for the manner in which he and his assistants made everything at the rink possible. Harry was unable to be present owing to sickness but we understand he will be up and around in a few days.

■

The first period got off to a bang up start when the local kid line of Hicks, Hicks and McPhee faced the Elk Point squad and after a minute from Brother Blair and John McPhee. Less than a minute later the same three came roaring back to score their second goal, McPhee from the [illegible] play Hubert Hicks scored on a pass [illegible] Hicks brothers. The visitors then came to life with their only earned goal of the game at the 5-minute mark when Vic Kline scored on a pass from Vaughn. The Dodgers came back with two more when Albert Willmer scored on a pass from Russell Lesich and Mike Bereshko the same three repeating when Bereshko scored making the score 4-1. One penalty was handed out to [illegible] Hicks for tripping.

The second period was more [illegible] Dodgers managing to score [illegible] counter McPhee from the [illegible] brother.

The third stanza gave the Dodgers [illegible] goals and the visitors one. R. L. [illegible] scored on a pass from Mike B[illegible] and Albert Willmer and [illegible] minute later the [illegible] Kline of Elk Point [illegible] goal which [illegible] by Nester while clearing [illegible] the scoring giving the [illegible] well earned win by a 7-2 [illegible].

Lineups

ELK POINT: S. Melnyk, J. [illegible] Bowes, A. [illegible]ky, [illegible] Vaughn, V. Kline, Joe [illegible], [illegible] Dumbitsky, Roy Lainbright.

DERWENT—Curley McPhee, Don McPhee, Pete Nester, Phil Pearman, Ed Snelgrove, Mike Bereshko, Russell Lesich, Albert Willmer, Hubert Hicks, Blair Hicks, John McPhee.

●

Watch for the date of the Hockey dance to be held in Derwent the first part of April. It is understood by the dance committee that the Southbound Ramblers will furnish the music. This orchestra is well known and a grand time will be had by all. It is planned to have a hockey banquet at the close of the present season.

Canada's Barley King Will Be Named April 1

The name of Canada's 1946 Barley King will be announced at the Manitoba Winter Fair, at Brandon April 1.

Winner of the award, whoever he may be, will be picked from the 12 provincial winners: four from Manitoba, four from Saskatchewan and four from Alberta. Provincial winners in Alberta and Saskatchewan have already been announced. The provincial winners in Manitoba will be announced at Brandon when interprovincial awards are made.

There will be four interprovincial cash prizes of $1,000, $500, $300 and $200. The champion will actually receive $1,300. He will get $1,000 as winner of the Dominion championship, $100 as provincial winner in his own province, $100 for having won his regional championship and an allotment of 10 bushels of Montcalm barley seed worth $3 a bushel, the equivalent of $30. All contestants who won cash prizes from regional winners up, will receive a 10-bushel seed supply of [illegible].

The $25,000 National contest sponsored by the Brewing and Malting Industries of the nation, drew nearly 1,250 entries from the Western Division.

The contest will be renewed in 1947 under rules and regulations substantially the same as last year. Copies of the regulations will be available for distribution within a few days and as before, will be obtainable at all country elevators.

School Board Holds Regular Meeting

The regular meeting of the trustees of Vermilion Centre S.D. 1446 was held in the council chamber, Town hall, on Tuesday Feb. 18 at 8 p.m.

Trustees Adam, Long, Cooper, Taylor and Mrs. Wiebe were present, also present were Principals Hay and Walker.

The new trustees were duly sworn in.

Moved by Tr. Adam that Tr. Taylor be nominated as chairman for next term, seconded by Tr. Long. Tr. Taylor elected as chairman by acclamation.

Chairman Taylor welcomed Mrs. Nina Wiebe as the new member of the board.

Secretary directed to write a letter to Mr. J. Reid expressing the appreciation of the board for his services in the past as trustee.

Moved by Tr. Cooper that this board make immediate representation to the divisional board, bringing to their attention the need of a [illegible] at [illegible] Vermilion and that the Chairman and Tr. Long be a committee to meet the Divisional Board at their next meeting.

Considerable discussion [illegible]

Principals Hay and Walker reported for their respective schools.

[illegible] viewed [illegible].

Moved by Tr. [illegible] that the following committees be appointed for 1947: Chairman and Tr. Wiebe as the [illegible] committee, Tr. Long and Cooper as building and equipment committee.

[illegible]

Chairman [illegible] committee was to meet [illegible] at their next regular meeting [illegible] to the selling of [illegible] milk.

Meeting adjourned.

VICKS VAPORUB

R.C.A.F. RECEIVE FIRST HELICOPTER

Air Force Headquarters has announced that the first of three Sikorsky helicopters ordered by the R.C.A.F. arrived at Rockcliffe recently. The second will be delivered later and the third in August

The aircraft, similar to that which rescued survivors of the Belgian airliner crash in Newfoundland, will be flown by an R.C.A.F. pilot from the Sikorsky plant at Bridgeport, N.Y., touching down briefly at Dorval en route. Air Force pilots have been under instruction for the past month at Farmingdale, N.Y. and these will form the nucleus of a corps of instructors to convert other pilots to the wingless aircraft

The first helicopter will go to the Central Flying School at Trenton for the instruction period. The second will remain at Rockcliffe for a month to familiarize pilots of the Experimental and Proving Unit with its operation. Later the helicopters will be used for training and rescue operations and in co-operation with the Canadian Army, the Navy, the Mounted Police and other Government departments

White Men's Life Changes Indians

Stature of Indians living in the Norway House area is shrinking in size because of the [illegible] they have picked up from the white men, Dr. Frank Tisdale of Toronto, told the joint senate and house of commons committee on Indian affairs.

Records of the Hudson['s] Bay store at Norway House show [illegible] Indians are today buying smaller shirts and suits than their fathers and grandfathers, the Toronto doctor testified. He was a member of a party of medical men and other experts who visited Norway House to gather data on the present state of the Indian.

Today the Indian lives largely on food he can buy at the store with money from the sale of the few pelts he gets. Eighty-five per cent of the food bought was white flour, sugar and lard, all foods lacking in vitamins. Forty years ago the Indian depended upon eating animals he hunted.

The Indian used to eat the vitamin rich inside parts of the animals and birds and fish. Now he throws it away, aping the white man's custom, said Dr. Tisdale.

How Chinese Eat Their Porridge

Breakfasting in London's Soho, a Scot decided to see how well he might fare at a Chinese restaurant.

He found himself in an atmosphere of dragons and incense. Then a cat-footed waiter brought a nice plate of porridge. It was real porridge and could not have been served more pleasantly in Glasgow except that chopsticks came with it. After a minute's struggle the visitor gave in and demanded a spoon.

London Chinese have taken to porridge since the rice shortage, and they often take milk and sugar too. They can also clear their plates with chopsticks. Spoons are kept for helpless foreigners.—Glasgow Herald.

A GOOD IDEA

If your youngsters are pin-up enthusiasts, furnish them with good-sized bulletin-type boards made of soft wood where they can thumbtack their cutouts. It will save disfiguring marks on wallpaper or painted walls. 3716

Survey Shows Modern Miss Shuns Cooking

NEWARK, N.J.—The modern miss prefers to determine "what's cooking?" rather than how to cook it, a survey of freshmen at Rutgers University New Jersey College for women showed.

Top preference was given to the study of journalism by 21 per cent. of the 373 first-year students. Home economics was picked by nine per cent.

NO MORE SMALL FEET

Women have, on the average, larger feet than their mothers and grandmothers. Size two and a half, which was fairly common 40 years ago, is not stocked now, the average size today being five.

MANY DESCENDANTS

The rose has contributed largely to the world's rich variety of flowers. Many of our most popular flowers of today have descended from the rose family and founded families of their own.

When your BACK ACHES...

Backache is often caused by lazy kidney action. When kidneys get out of order excess acids and poisons remain in the system. Then backache, headache, rheumatic pain, disturbed rest or that 'tired out' feeling may soon follow. To help keep your kidneys working properly—use Dodd's Kidney Pills. Time-tested, popular, safe, non-habit-forming. Demand Dodd's Kidney Pills, in the blue box with the red band. Sold everywhere. 138

Local News of Interest

Dr. and Mrs. C. W. Stephens have as their guest this week and next the latter's sister, Mrs. George St. James from Hamilton, Ontario.

Mrs. Grant Badgero of Medicine Hat is the guest of her sister Mrs. Lawrence Mayhew this week. Old friends here will be interested to learn that Grant is now manager of the Beaver Lumber Company in the southern city.

Mrs. C. W. Stephens and her sister Mrs. St. James are Edmonton visitors this week end.

Mr. Deane Johnson of Lacombe spent the week end at the home of Mr. and Mrs. Charlie Young of Hindville. Miss Gladys Young of Vermilion was also home during that time.

Mrs. W. McWhinney and two children, Sandra and Roland, returned Sunday from Saskatoon where they spent a month visiting the former's parents.

Miss Josephine McLaughlin, her mother Mrs. Jack McLaughlin and brother Eddie of Mannville, were guests at the wedding of Mr. and Mrs. Bernard Malloy (nee Adele Cox), which took place in Edmonton on Monday March 17. Mrs. A. G. Larsen accompanied them on the trip.

BORN — To Mr. and Mrs. Henry Cocks of Heinsberg, at the Royal Alexandra hospital on Monday March 10th, a son.

Mr. and Mrs. Elmer Anderson of Islay have returned from spending the past several months at Long Beach, California.

S. T. Deford plans to leave within the next week or two for Athabasca where he will spend the spring and summer at the home of his son Gilbey who has farmed there for the past 16 years.

Ed Cheesick of Edmonton has been home for the past two weeks on sick leave, recovering from the effects of a bad attack of influenza.

Mrs. Bert Taylor of Edmonton is a visitor in town this week.

Keith Douglas, a member of the drilling crew of General Petroleums is spending a few days at home between drilling jobs.

Ross Boake is regarded with considerable envy since he took delivery of a 1947 model Oldsmobile sedan from the local dealers, Vermilion Motors. The car is the very latest and is equipped with hydramatic drive which means that it automatically changes gears and all Ross has to do is to steer it, [illegible] the odd bit of gas.

The grocery hamper which was raffled by the Altar Society [illegible] on Saturday last was won by [illegible] Monaghan of Chatsworth school.

A voice from the past was heard in Vermilion this week when a letter was received from Miss Addie Coyle now living in Toronto. Apparently Miss Coyle taught school here back in the years 1912 and 1913 and she wanted to know the amount of her salary during that period of time. Apparently she is eligible for superannuation and the information is required. Unfortunately school records are available only from 1918, the time of the big fire, however Miss Coyle was referred to the department of education, Edmonton, where necessary information is on file. No doubt some of Miss Coyle's former pupils are still living here and will remember her.

Stagette Notes

On March 18th the Stagettes held their regular meeting in the club room. The attendance was very good girls, keep it up.

After reading of the minutes plans were put underway for our springtime frolic to be held sometime in May. Watch for advertisements in the Standard as to time and place.

A donation was made to the Red Cross for the purchase of an ambulance.

Girls, don't forget to clean your closets out for any used clothing to be brought to the next meeting. Also remember to bring your money for [illegible] which takes place at the next meeting.

After the meeting was adjourned the girls took out their handicraft work. Miss Mary Mawreluk gave a short lecture on Swedish tapestry work which was appreciated by all.

Before we close we all wish our star reporter, Lena Miller, a very speedy recovery in her recent illness.

CREIGHTON

The Creighton W.I. met at the home of Mrs. G. Bennett with 9 members and several guests present. It was decided to have Mrs. Morton of Vegreville address the five branches on the call on our Educational system. It is hoped that all interested will attend this meeting which will be held in the United church, Mannville, March 25th at 2 p.m. Tea will be served and a silver collection taken to cover expenses.

Final arrangements were made to serve lunch at Mr. Lugg's sale commencing at 10 a.m. March 21st.

Letters of appreciation were then read from several members who received fruit and cards, while in the hospital recently.

The program for the year was then drawn up after which the meeting adjourned.

A dainty lunch was served by the hostess which was much enjoyed by all.

Campbell Lake

Friends of Mrs. Henry MacKinnon, the former Miss Nessie Dougan, gathered at the school on Sunday afternoon to honor her with a miscellaneous shower.

Contests were the order of the afternoon, the prizes going to Mrs. McIntyre, Miss Betty Rochford, Mrs. McCambridge and Mrs. Streme.

After this, the two little Misses Marion and Barbara Mead daintily attired in white crepe paper bridal gowns and veils arrived with doll prams loaded down with beautiful and useful gifts, which they presented to the bride. When the gifts had been opened and admired, and Mrs. MacKinnon had suitably thanked everyone for their kindness a very tasty lunch was served. This brought the afternoon to a close with many good wishes for a long and happy married life to our friends Nessie and Hank.

Mr. Michael Simonet is attending the winter stock show in Calgary this week. Mrs. M. Simonet is visiting at the home of her parents, Mr. and Mrs. McCambridge.

Mrs. Geo. Lukman was called to Edmonton suddenly on Sunday, due to the illness of her brother. She was accompanied by her brother-in-law, Mr. Milt Farrell.

Bob Reeve returned from Whitecourt on Saturday where he had been working since January.

Mr. and Mrs. Henry MacKinnon have taken up residence on the former Schofield farm. The district extends its heartiest welcome.

Vol. XXXVIII. No. 46. Vermilion, Alberta, Thursday, March 27th, 1947. $2.00 a Year

Activity of Red Cross Branch Is Shown At Annual Meeting

MANY REPORTS ARE GIVEN

To Compile "History of Red Cross in Our Community" — Contributions of Items Are Invited — More Work Groups Needed.

The quarterly meeting of the Vermilion and District Branch of the Canadian Red Cross Society was held in the town hall March 17.

Mr. W. P. Pilkie gave a report on the progress of the campaign which is now under way. He also reported on his trip to Calgary in connection with the purchase of an ambulance for Vermilion and district and a motion was made and seconded that a requisition be put in for the purchase of this as available.

The committee in charge of the History of the Red Cross in our community asked that anyone who could give a human interest item, or anything that could be used in compiling of a book, which would make interesting reading, get in touch with Mrs. Heckbert or Mr. Dick.

The financial report showed all bills O.K.'d and paid. The treasurer's report showed a balance of $1900.82 with bills payable of $8.86 leaving a net balance of $1891.96.

Mrs. Hill, convener of the Relief committee reported a total of 210 finished articles had been shipped to the Edmonton Branch and we have since received a letter from Mrs. R. Proctor in acknowledgment of same, which reads as follows.

"Thank you so much for the wonderful shipment. It really does us good to open boxes like yours. We do not often get 210 articles in one shipment, all beautifully made. It is quite a long time since we had boys' underpants and girls' blouses. They are very much appreciated. The baby shawls too were a treat and I know will be welcome in Britain. All of your things are being packed today. Please thank your members for the excellent job of work. It was greatly appreciated."

Mrs. Heckbert expresses thanks on behalf of the Society for the following donations: 1 crib quilt from Banton-Watson, 1 quilt, Homemakers' club, Union and Kohnee; 2 pr. mitts, Mrs. Buckingham; 1 crib quilt, Mrs. Holben; 1 pr. mittens, Miss M. Stephens.

Miss Oldenburg reported on the splendid work being done by the Jr. Red Cross. Grades I-VI have collected $81.35. The drive has not yet been completed. They have bi-monthly meetings, the program being arranged by the pupils. The pupils have been buying magazines, doing knitting or sewing on quilt or crib blocks and observe health rules.

Mrs. Miller as delegate to the annual meeting held in Edmonton Feb. 21, gave an excellent report. The importance of Branch work was emphasized and the necessity for work committees to enable the Branches to carry on.

An active Red Cross society is an asset to the community at all times. Could we get more work groups organized? This worthwhile organization deserves support and if we will each do our bit in the way of work donation, and financial support, our Branch will be able to operate successfully.

Further Announcement re: Military Dance

TICKETS ON SALE APRIL 1st

As enquiries are coming in for tickets for the Military Ball it is necessary to announce that ticket sales will not start before April 1st. Arrangements will be made with several business places in town to handle tickets.

The Orioles orchestra has been engaged and the Pipers under charge of Pipe Major [illegible] will play for the Grand March.

A number of high ranking officers from headquarters of the Western Command and senior regimental officers of The Loyal Edmonton Regiment will be present. The local Company will attend in full force and along with veterans of both wars, the affair will have a military appearance as it is expected that permission will be obtained for returned men to wear uniforms. Everyone is invited whether or not they have belonged to the services.

Further particulars can be obtained from Fred Brimacombe, Chairman of the entertainment committee; Dr. W. H. Scott, Chairman of the Reserve Force Citizens' committee, or Secretary E. H. Buckingham.

PRE-EASTER PAGEANT AT THE ALLIANCE CHAPEL

A pre-Easter pageant entitled "The Answer of the Cross", will be presented by the Alliance Young People at the Alliance chapel on Wednesday April 2nd at 8 p.m. Everyone is invited to attend.

To All Sportsmen and Women

Beginning April 1st the Vermilion Bowling alley, under new management, offers a standing prize list ranging from $1 to $15 for high scores to all men and women at any time they wish to bowl.

In addition, a bowling league is being formed and the management is offering valuable cash prizes monthly to top teams. A complete prize list and rules may be seen posted in the bowling alley. Persons wishing to join the league kindly leave their names with the management before the 5th of April. 68

EARLY SETTLER PASSES ON

DEATH OF STEPHEN CHARLES SNELGROVE

Stephen Charles Snelgrove, a well known and early settler of the Vermilion district, passed away at the Vermilion hospital on Monday morning March 24th. He was 67 years of age.

Born in England Mr. Snelgrove came from the County of Somerset and settled first in the Wetaskiwin district in the year 1904. He came to Vermilion in 1906 and homesteaded near what is now the village of Clandonald, then the Wellsdale district. He later moved to his present farm at Mary Lake. Here he operated the Mary Lake post office and store until the area was served by a rural mail route.

He is survived by his widow, four sons and six daughters. Although the family live at distant points, one at Dawson Creek, another in Wisconsin, they all arrived home in time for the funeral. Funeral services are being held this Thursday afternoon at St. Saviour's church, and interment will be made in the Vermilion cemetery.

Legion To Hold Community Auction Sale

On Saturday May 3rd, the local branch of the Canadian Legion will hold a gigantic community auction sale of goods donated to them by town and country people. Three auctioneers will hold sway and a fast-moving interesting event is planned. All monies raised will go into the building fund.

At the last meeting of the Legion it was decided to go ahead as soon as possible with the new building and since then an architect has been called in for approval of the plans.

Full details of the sale will appear in the advertising columns of next week's Standard.

Low Rail Fares For the Easter Vacation

WINNIPEG.- Special railway fares for the Easter vacation have been announced by W. Stapleton, passenger traffic manager, Canadian National Railways. The special fares, which will be good between all stations in Canada, are based on the one way fare and one third for the round trip. The tickets will be on sale from April 2nd until 2 p.m. April 7, or if there is no train service on April 3, tickets will be available the day preceding. The return limit will be April 8, or if there is no train service on that date tickets will be honored on the first available train.

MEAT RATIONING ENDS

Meat rationing ends Thursday March 27 according to an official announcement made in the House of Commons Wednesday. Meatless Tuesdays and Fridays in public eating places will continue.

Vermilion Bulls Bring Top Prices At Calgary Sale

Two Shorthorn bulls belonging to W. L. Robinson averaged the highest of that breed at the Calgary Bull sale last week. Lyle's bulls brought $600 and $1050. The 157 Shorthorn bulls sold averaged $340.

In the Aberdeen Angus breed W. E. Cross sold 5 bulls for $2075, an average of $415, considerably above the average of $372 for the 94 Angus bulls sold.

Hereford bulls brought consistently good prices with the Vermilion livestock ranking with the highest. Homer Campbell averaged $632. Jack E. Cross sold six, averaging $615, and Mike Richuk sold four, at an average of $452.

Six hundred Hereford bulls were sold in all, for an average of $537.

New Town Motor Grader Given Trial

The new motor grader purchased by the town late last fall, was used for the first time during the past week. It appeared to do a very good job in smoothing out the rough spots in the roads in the main part of town and the use of it should ensure smooth travelling and good appearance of streets all summer. Barry Bell, an expert in the use of this type of machinery on a somewhat larger scale, operated the new machine.

Mr. P. Campbell-Hope, architect of Edmonton spent a busy day in town last Friday. Mr. Campbell-Hope is the architect retained by the Vermilion School Division and when it became known he was here his advice was sought in connection with local schools, Memorial Hall extension and the United church basement.

Vermilion School Div. Board Holds Regular Meeting

The regular meeting of Division Board was held at the Division office on Friday, March 21st.

Trustees present: D. C. McGrath, F. E. MacKay, J. D. Adam and W. L. Brown. Supt. E. C. Miller attended the meeting.

Financial statement covering operation from Nov. 1 to Feb. 28 was presented and approved.

Superintendent's Reports: Reports on schools visited since date of last meeting were presented. The following appointments were confirmed: Miss Delsie Thrandson to Grainview school March 14th, Miss Muriel Tyner to Jumbo Hill May 1st, Mrs. R. Anthony to Golden Valley school April 1, Mr. Steve Warman to Preston school, Miss Agnes Doyle and Mr. Wm. Nash to staff with alteration to be decided. Resignations: The following resignations were accepted: Miss Marie Swan, Grainview school effective March 15, Mr. Lester Fair, Golden Valley school effective March 3. The list as submitted by the Supt. for Grade IX examination centres was approved after consideration.

Vermilion Centre S.D.: Request for leave of absence of Miss Evelyn Green for month of May was granted subject to appointment of approved substitute. Continuation of existing contract with Mr. Alf Lampitt until end of present term was approved. Request from local board to have the name of Vermilion Centre changed by deleting of word Centre was approved and permission of Department will be requested.

Elsworth School: Sale of building was deferred until return of Trustee for Subdivision No. 5.

Debenture Expenditure: It was decided to designate Rebuild [illegible] Vermilion [illegible] which [illegible] sale will be spent.

Borrowing Resolution: An amendment was passed increasing the amount of current borrowing from $10,000 to [illegible] and requesting permission of the Minister.

Campbell Lake S.D.: Messrs. McCambridge and Mead attended the meeting requesting alterations to the school. The matter is to receive the attention of Mr. Thompson.

Islay S.D.: Building formerly a school at Islay was sold to Mr. [illegible] Carey for use as a church to replace the present site.

McLaughlin: Secretary was instructed to pay [illegible] Antonchyk [illegible] Winona S.D.

Transportation allowances: Requests were approved for payments in lieu of transportation to [illegible] Fred West, Gap Lake S.D. and Mr. Clyde Churchill, Waverly S.D.

Correspondence relating to [illegible] payable for wood was considered [illegible] Board approved [illegible] by local board.

Kitscoty School: Mr. P. Campbell-Hope, architect attended the meeting and it was decided to make no use of [illegible] school in new building to be constructed.

Preston S.D.: Secretary reported purchase of Doherty piano with the [illegible] Board contributing [illegible]. Action was approved.

Accounts as approved were passed for payment.

Meeting adjourned. Next meeting Friday April 25th.

"LITTLE ROYAL" AT THE V.S.A.

WEDNESDAY, APRIL 2nd

Persons interested in agricultural fairs and particularly those interested in the agricultural educational program being conducted at the Vermilion school of agriculture will enjoy a visit to "The Little Royal" which is being held on Wednesday afternoon April 2nd.

"The Little Royal" is an agricultural fair at which students at the school exhibit projects on which they have worked during the current term and display enterprises representative of their classroom studies. Home economic exhibits will be shown in 30 classes, including sewing, handicrafts and cooking. There will be some 30 classes of metal work, woodwork and field crops, as well as 30 classes of livestock—trained, dressed and shown by the students. The display of farm buildings constructed by the students will be a special feature of this year's fair.

The spacious Farm Mechanics building provides excellent facilities for staging "The Little Royal" and permits the accommodation of a large number of visitors — rain or shine. Many former students of the school, prospective students and others who can attend will appreciate the opportunity to inspect the school and to see the work that has been accomplished by the present class.

Reg. Mitchell Is President of V.A.A.A.

J. J. PART SECY-TREASURER — ANNUAL SPORTS MAY 24

Reg Mitchell was elected President of the Vermilion Amateur Athletic association at the annual meeting of that organization held in the armories last Friday evening. He succeeds Henry Powell. James J. Part is the new secretary, taking the place of Lou. Brimacombe.

The officers who will guide the destinies of the Athletic association for the next year are:

Honorary President - His Worship Mayor Morrison
President—D. R. Mitchell
Vice-President — Fred Brimacombe
Sec.-Treasurer—Jas. J. Part
Executive—Ashley H. Cooper, K. G. Urquhart, Art Wiebe, A. M. Watt, Lou. Brimacombe, Russell Carroll, Gordon Magee
Finance Committee—(with power to add) E. M. Stewart, chairman; G. F. Stephens, T. Stack, Carman Long

The annual sports will be held on May 24th and the appointment of committees for the sports was left to the executive.

It was also decided to make the [illegible] hockey tournament an annual event.

Besides the sports day chief project of the V.A.A.A. for the past year was the new athletic park on the south side. Through the kindness of the [illegible] authorities of M.D. 19, the [illegible] park was levelled. The school [illegible] attended to the [illegible] [illegible] national football [illegible] will be laid out [illegible] proper condition. The ball diamond will be [illegible] of the railway [illegible] bringing baseball much closer to uptown will stimulate interest of fans and players alike.

YOUR DONATION TO SPORTS

As there are many new business men in the town it might be well to mention that the Vermilion Amateur Athletic Association is the parent body of all sports organizations in the town. [illegible] business men and [illegible] for one [illegible] year. That [illegible] V.A.A.A. All sports [illegible] baseball, hockey [illegible] themselves [illegible] the Athletic [illegible] help. This eliminated the old method of every [illegible] sport making [illegible] business men being asked for any [illegible] to athletic sports [illegible] the V.A.A.A. [illegible] make the [illegible] remember this is your [illegible] to sports and athletics [illegible]

Foundry Turns Out Manhole Covers For Water, Sewer

The Vermilion Foundry have now completed the casting [illegible] for Vermilion's sewer and water system. The local firm was awarded the contract for these and a very fine product was manufactured [illegible] the local plant.

Modern Chick Hatchery Now in Operation

New Industry Underway in Vermilion

Attracted by the town and country of Vermilion and by the fact that farmers annually ship in large numbers of baby chicks, W. O. Lyons has established an R.O.P. Breeding Plant and Hatchery at Vermilion. In the advertising columns of the Standard he invites everyone interested in poultry to place their orders now for 1947 chick requirements. These orders will be filled at association prices.

Mr. Lyons has had 15 years experience in the Hatchery business in Ontario, coming to Vermilion from Weston last fall with Mrs. Lyons and their two children Gwendolyn aged 12 and Edward 10. The whole family is interested in the business and know their poultry. Mr. Lyons purchased the former Davies farm east of town, comprised of buildings and 47 acres. He has installed a 5000-egg incubator of the most modern design, and electric brooders capable of accommodating 2000 chicks.

Mr. Lyons with his wide experience in chicks and poultry generally, augmented by time spent at the poultry division of the Guelph agricultural college, is ready to aid anyone with any poultry problems they may have.

Breeds of chicks being hatched include White Leghorns, New Hampshires, Barred Plymouth Rocks and Rhode Island Reds—the phone number is R312 —the location just a mile east of town.

KING EDWARD A.F.U

King Edward A.F.U. Local 449 will hold its regular monthly meeting on Tuesday April 1st at St. Andrews Hall. Following the meeting a whist drive will be held. Everyone is invited to attend. 85

Two historic telegrams marked the beginnings of the telegraph industry in the United States. Samuel F. B. Morse sent, "What hath God wrought." In Canada one of the first wires read "He directeth it under the whole heaven and His lightning unto the ends of the earth."

MILD WEATHER CONTINUES . . .

Progress continues towards spring with the low night temperature of the past week being 11 above on Tuesday. Highest temperature since last Thursday was 46 above on Friday last week. Little change in temperature is forecast but some wind and snow flurries are expected Friday.

Nine-tenths of an inch of snow fell during the week. This is equal to .09 precipitation.

—Statistics by courtesy of the Dept. of Transport Radio Range Station, Vermilion.

28th Annual Bull Sale Lloydminster May 27

On May 27th, the 28th Annual Lloydminster Bull Sale will be held. This event receives entries from both Alberta and Saskatchewan. It is truly an interprovincial sale. A district calf club show and sale is held the day previous to this sale. Calf clubs from both sides of the provincial boundary participate. Inter-club competitions are held and the calves are sold by auction after the judging.

Last year 120 bulls, 7 females and the calves were sold at these sales. The Lloydminster Exhibition Association sponsors these two events. Entries to the Bull Sale close April 19 1947.

MILITARY NOTES

'A' Company, The Loyal Edmonton Regiment will hold a parade on Wednesday April 2 at 1930 hours. Battledress, belts, anklets and berets will be worn. All members and persons interested in joining the Unit are requested to attend.

Latest recruits — Altimer, C.; Telford J.

Recent additions to our training staff are Sgt. Robinson, R., and Sgt. Sutherland, M.R. Both served overseas, the former with the 2nd Canadian Specialty Infantry Battalion and the latter with the R.C.A.S.C.

ALLANDALE A.F.U.

The Alandale A.F.U. will hold their regular monthly meeting at the Cambell Lake school on April 8th at 8:30 p.m.

For the past three years the Allandale farmers have been waging war on the Warble fly and a distinct difference can now be noticed in the grazing of the stock.

IN MEMORIAM

In loving memory of our dear son and brother

George [illegible]

—who passed away March 15, 1941

"Like ivy on the withered oak,
When all other things decay,
Our love for him will still keep green
And never fade away."

—Always remembered by Mum and Dad, and Frances and Eddie [illegible].

IN MEMORIAM

In loving memory of

Albert Porter

A devoted husband and father who passed away March [illegible], 19[illegible].

"At Rest."

IN MEMORIAM

In loving memory of

[illegible]

—who passed away March 3, 1942.

"Gone but not forgotten."

—Ever remembered by Mother, sisters and brothers.

In the last seven years, 1,200,000 troops on the way to war or homeward bound have been transported by the C.P.R.

THE STANDARD
VERMILION - - ALBERTA
ESTABLISHED 1906
Published Every Thursday Afternoon
At the Office, Main St.
S. R. P. COOPER — PUBLISHER

Vermilion, Alberta, March 27, 1947.

Reports of the Living War Memorial meeting held last Thursday evening, and of the Board of Trade luncheon meeting on Wednesday at which the members of the Tigers' Hockey club were feted, are held over until next week.

Water down our principles and they are soon liquidated.

Slum Work Jubilee

The Salvation Army this year observes the diamond jubilee of its well-known Slum Work, begun in 1887 by William Booth. His daughter, Evangeline, in after years The Army's fourth general, led initial operations when she took her "Cellar, Gutter and Garret Brigade" into action in the notorious back streets of Seven Dials, London, England.

ISLAY

Hutterite scare—is the uppermost topic, not only in the Legislature but in Islay. A report has it that the Hutterites want to buy land near Islay. Something all of us should investigate. The item prepared by the school trustees to be presented to the Legislature is one all should read; it is based on facts. It can be found in the last issue of the school Trustees' magazine. It tells of their school system.

Here is something else to investigate, and that is the entertainment to be presented in the Islay hall on April 7th at 8:30 p.m. A group of plays, well a couple of short ones anyway, are being prepared as well as other items. April 7th remember.

April 12th in the afternoon at the church a tea and apron sale is being held. Any lady so desiring may donate an apron to the W.A. Some beautiful print has been obtained by the W. A. and is being made into aprons—but the group will be grateful for any others that may be added.

Mrs. Grout has arrived from Vancouver to visit her son Ed, and will likely build a home in Islay.

Bert Hutchinson is the proud owner of a new tractor.

Noticed in the Edmonton Journal the announcement of the engagement of Bill Beecraft to be married May 6th in Montreal to Miss Dorothy Walker.

And today word to Mrs. Harry Young re the wedding of her nephew Lyal Barnes on April 2. Mrs. Young will leave in a day or so to attend, and will remain for awhile.

The old Islay school has been purchased by Jim Carey and will remain in Islay to be made into a church. We are quite happy to know there will not be a vacant spot on the old corner.

On Good Friday afternoon in Kitscoty the play "The Crucifixion" will be presented.

If all who live in Islay and are having much interference on the radio would write to the Telephone Department in Edmonton we might get some action. The noise is caused by the R.C.X. Some of us have been enduring it for a year now. Get your letters in folks and help get relief from the noise.

OUR COMPLETE SHORT STORY—

BIRTHDAY GOLD BRICK

By [illegible]

THE second time the doorbell demanded attention Polly Reidford went slowly to answer. She wasn't interested in doorbells. Her mind was on the birthday dinner she and her sister were giving that night.

The boy said, "Special delivery". Polly signed for the letter. From the kitchen Edda called, "Who from?"

Her dark eyes staring at the ceiling Polly answered, mockingly dramatic, "Our dear Uncle Joseph Jackson."

"What does he want?" Edda asked, coming into the living room.

Polly was reading the letter. She gasped, "He's coming here. My heavens, he's due today. Oh," she cried, consternation flooding her face, "he can't do this to me. The first birthday party I've had in five years and he comes to upset things."

"That means seven at the table and some rearranging," Edda nodded, her voice practical and calm. "Maybe he'll be on his good behavior."

"You're optimistic," Polly answered, "how our Mother ever had such an annoying rover for a brother is beyond me. But he's generous," she added grudgingly, "and I think he's really fond of us."

"Umhum," Edda ummed doubtfully, "and don't forget he owns one third of this property."

This house had been the family home since the two were little girls. Now that they were alone; their parents gone, their one brother married and living in a distant city; the girls stayed on in the big house enjoying its comforts at the end of each day's work. School teaching and medical laboratory research kept Polly and Edda busy and well in funds for any need.

A rattling taxi deposited jovial Uncle Jose at the front door at noon. He boomed when he greeted them. "Get my letter? Thought I better give you a little warning so's you'd be home."

Polly said, "Your letter came just this morning."

"It did?" he asked surprised. But to Polly the surprise was faked. Then he saw the table.

"A party? Your birthday, huh?" he grinned at Polly.

"Yes," she said tonelessly, "tonight."

"Just in time," he nodded, a pleased smile spreading over his tanned face. He stroked one side of his impressively respectable moustache and his eyes twinkled behind the rimless spectacles. "Reckon I better go down and shop the town for a present."

"Don't do it," Edda put in. "You'll wind up buying Pershing Square or the Plaza."

"Now, Edda," Uncle Jose admonished, "your old Uncle ain't that dumb. A gold brick, maybe. But nope, not Pershing Square. Don't believe the city Fathers would let me take it away."

He chatted all during lunch, telling them about his trip West, how he wasn't ever going to live back in the cold East again. He'd decided maybe he'd finally accept his share of his sister's home for his old age. The girls exchanged glances and Polly thought with a sigh, if I have to put up with twenty one little brats all day and listen to Uncle Jose every evening.

"Well, girls," Uncle Jose left the table, "I'll trot on down town. Got to find some sort of nice present for Polly. Plumb forgot it or I'd have bought something on the way."

"Oh, no you wouldn't," Edda said, "then you wouldn't have any excuse to go down town."

"Well, maybe, maybe not," he said with a grin, "what'll you have, Polly, in case I can find it?"

"Just bring me a gold brick," Polly said airily "you'll probably buy [illegible]."

He chuckled and carefully placed his hat on his head so that his grey hair showed generously on the right side. "That the right angle?" he asked Polly, a merry glint in his eyes.

The afternoon wasn't any too long for Polly and Edda with the work they had planned for their party. At four-thirty the telephone rang.

"Hey," Polly heard Uncle Jose call when she answered, "I'm down on the East side. What car do I take to get home?"

"What in the world are you doing on the East side?" she demanded.

"Met a friend," he said, "got that gold brick too. For your birthday."

"Oh, dear," Polly sighed. Then she told him what car to take and how to transfer and cradled the telephone. "He said he'd bought my gold brick," she told Edda. "I wonder what silly thing he's spent his money on now."

"Why don't you let him worry about his money? There's plenty of it," Edda said. "Maybe it'll be something you will like." "I doubt it," Polly said pessimistically.

Their dinner guests arrived and shortly afterward Uncle Jose breezed in. He had a shoe box wrapped in gaudy paper and tied with a huge bow of cheap gold colored ribbon. He handed it to Polly, a smile threatening to break over his face. "Your first present," he said solemnly "your birthday goldbrick."

She thanked him and sat down to open it. Whatever he bought she knew she must seem grateful. She must make him think it was really something she was delighted to receive. She looked across the room as she started to take off the lid.

"Will it jump at me?" she asked.

Uncle Jose shook his head, "Nope. It ain't that strong."

Imbedded in shredded tissue paper was an oblong colored package. Polly stared, gasped and lifted the package. "Look," she stammered, "look. My gold brick."

Edda and the four young women guests cried in astonished and admiring chorus "But-ter."

(Copyright Wheeler Newspaper Syndicate)

THEY'RE ZIPPERED! — These silk stockings, worn by Jacqueline Sutton of Hollywood, have slide fasteners up the front. They were worn by Joan Blondell in a film, but the reason for the zipper is still a mystery. Cost price, f.o.b., Hollywood, is $75.

NEW VARIETY WHEAT, SAUNDERS, PROMISING FOR NORTHERN ALBERTA

—200 BUSHELS FOR SEED

The most promising early wheat for northern Alberta has been developed at the Central Experimental Farm, Ottawa. It has been given the name of Saunders. Disclosing further particulars of the new wheat, recently recommended at Winnipeg for licensing, the Dominion Department of Agriculture said that this new variety meets its objective of an earlier disease-free wheat of Thatcher quality.

Originating from a cross between Thatcher and C26-44.7 in 1936 Saunders is the result of nine years of research. Development of this variety would have taken even longer had not the Cereal Division of the Dominion Experimental Farms raised two crops a year in its greenhouses.

For five years the most promising seed of this cross was tested for earliness in the Peace River area and for four years on Experimental Farms and Stations in Western Canada.

Over this final four-year test, the new variety averaged in Alberta, a yield equal to that of Thatcher and slightly better than that of either Red Bobs or Marquis. It matures three days earlier than Thatcher and 5½ days earlier than Marquis, important considerations in the relatively brief frost-free growing period of the Peace River area.

The Cereal Division has bred into this new wheat resistance to those diseases which limit yield in Northwest Canada. Saunders is resistant to stem rust and loose smut, and moderately resistant to bunt, leaf rust and root rot. The Saunders kernel has the good colour of Marquis, and is better than that of Thatcher.

The variety has been named Saunders in recognition of the contributions to wheat growing of Dr. William Saunders, first director of the Experimental Farms Service, Dominion Department of Agriculture, and his son, Sir Charles Saunders, first Dominion Cerealist. Sir Charles developed Marquis, the first early hard Spring wheat.

Other grains developed by the Dominion Experimental Farms include many varieties of disease resistant oats.

J. G. C. Fraser, Cereal Division, who has headed this project of an earlier wheat for the Peace River area, today stressed the participation of numerous scientists in the development of Saunders wheat.

"No one man should get credit for it", he said. "These cereal developments are on a project basis and everyone works on them. While I was selected to head this project, I had the co-operation of other plant breeding cerealists, plant pathologists who studied the variety's increasing resistance to disease and the Division's chemist and his associates who reported on the protein content and baking quality of flour milled from this wheat."

Mr. Fraser said that there are only 200 bushels of seed of this variety and these will be sown this spring at the Dominion Experimental Stations at Lacombe and Beaverlodge, Alberta. There they will be increased for wider distribution in 1949.

BOY SAVES SISTER — Warmly wrapped in blankets after they were rescued from a small island in the centre of an artificial lake at Philadelphia, Thomas Walls, Jr., 11, and his sister Margaret, nine, whose life he saved a while. When ice on the lake broke beneath them, Thomas pulled his sister to safety saving her from drowning.

FLOUR IS BIG EXPORT

Wheat flour now ranks high among the products exported by Canada to other countries, being exceeded in value during the past year only by newsprint paper and wheat.

GARDEN NOTES

◆ ◆ ◆

Don't Rush

Given a few hours of sunshine and a little warm weather and the average man starts to worry over getting the garden planted. This is a natural reaction after a cold or tough winter, but experienced gardeners advise caution. There is no need to rush the season in most parts of Canada.

True early, hardy flowers, all nursery stock, grass seed and some of the first vegetables can be planted just as soon as the soil is fit to work. And fit to work is important. There is nothing to be gained and sometimes there is actual loss by digging the soil when it is too damp. In clay that will result in mud and, later on, lumps that may take weeks of hard work to pulverize. If one can walk through the garden without getting the shoes muddy, the soil can be worked safely, but not before. If it crumbles when released it is safe to proceed with digging or plowing, but if it compacts into a ball then the experts say to leave it alone for a day or two.

Beginners are cautioned too against planting all the garden on one afternoon. It is far better to spread it out. Beets, carrots, beans, spinach, lettuce, radish, etc. can be planted every other week right up to late June and the harvest will be spread accordingly. Flowers too can be spread over several weeks. Some things, however, like grass seed, nursery stock, garden peas, sweet peas are best all planted early. Bedding plants like petunias, zinnias, stocks, spider plants, tomatoes, cabbage etc. should not be set out until all danger of frost is over. Tender things like gladiolus, cannas and squash [illegible] etc. also come in this category.

Nursery Stock

This term applies to newly purchased shrubs, perennial flowers, vines, trees, raspberry canes and all other things which are normally bought from a nurseryman. Healthy stock will come along quickly with hardly a check. The plants should be kept cool and moist and if they cannot be planted in their permanent location right away they should be "heeled in" [illegible] planted in a [illegible] well above the [illegible]. When [illegible] it is [illegible] supply plenty of water and keep [illegible] for the first four weeks. [illegible] the end of the [illegible] still [illegible].

CAMEL LOSING OUT TO AIRPLANE

MONTREAL.—The ship of the desert is being replaced by the ship of the sky.

Mohsen Shehab-El-Din, Egyptian delegate to the Provisional International Civil Aviation Organization's council, advises that if you wish to visit the stone Sphinx or labor-built pyramids, take an airplane. It's got it all over the camel.

In the subject of aviation generally the Egyptians delegate said:

"Cairo is the hub of aviation for the Mediterranean area and the Middle East. We have 10 commercial airlines operating in and out of the city and there is a great deal of military flying."

SELECTED

RECIPES

HONEY CHOCOLATE CAKE

(2 eggs)

- 2 cups sifted cake flour
- 1½ teaspoons soda
- ¼ teaspoon salt
- ½ cup butter or other [illegible]
- 1½ cups honey
- 2 eggs unbeaten
- 3 squares unsweetened [illegible], melted
- ⅔ cup water
- 1 teaspoon vanilla

Sift flour once, measure, add soda and salt, and sift together three times. Cream shortening, add honey very gradually by tablespoons at first, beating very hard after each addition to keep mixture [illegible] of flour and beat until well blended. Add eggs, one at a time, beating well after each. Add chocolate and blend. Add remaining flour in thirds, alternately with water in halves, beating very well after each addition. For best results beat very well at each stage of mixing. Add vanilla. Bake in [illegible] 9-inch layer pans [illegible] 350 deg. F. [illegible] Spread with Cream Cheese Frosting.

Cream Cheese Frosting

- 3 tablespoons butter
- 6 ounces (2 packages) cream cheese
- [illegible]
- 1½ cups sifted [illegible]
- ½ teaspoon vanilla

Cream butter and cheese [illegible] and blend. Add sugar [illegible] at a time, beating well after each addition. Add vanilla. [illegible] until of right frosting [illegible]. Makes enough frosting [illegible] of two 9-inch layers or tops of 2 dozen cup cakes.

One-quarter of the world's supply of tin is mined in Bolivia [illegible].

RICH, SPICY **CINNAMON BUNS**

Recipe

Dissolve 1 tsp. sugar in ½ c. lukewarm water; add 1 envelope Royal Fast Rising Dry Yeast. Let mixture stand 10 min. Then stir well. Scald ½ c. milk, add 3 tbs. shortening, ¼ c. sugar, ½ tsp. salt, cool to lukewarm. Add 1 c. sifted flour to make a batter. Add yeast mixture and 1 beaten egg, beat well. Add 2¼ c. sifted flour, or enough to make a soft dough. Knead lightly, place in greased bowl. Cover; set in warm place, free from draft. Let rise until doubled in bulk, about 2 hours. When light punch dough down; roll out into oblong piece, about ¼" thick. Brush with 3 tbs. melted shortening or butter. Sprinkle with ⅔ c. brown sugar, 1½ tsps. cinnamon, ½ c. raisins. Roll up lengthwise in a tight roll; cut in 1" slices. Place cut-side up, 1" apart in greased shallow baking pan. Cover; let rise in warm place until light, about 1 hour. Bake in 425°F. oven about 20 minutes.

Donald Gordon's Resignation Seen As Precursor Of Early Dissolution Of Prices Board

OTTAWA.—Resignation of Donald Gordon from the chairmanship of the wartime prices and trade board is a precursor of early dissolution of that wartime control body, according to informed sources here.

Kenneth W. Taylor, who assumes Mr. Gordon's position as chairman, is at present, as he has been for years past, the chief economic officer of the department of finance.

It is logical, therefore, that, as reliable sources say, the dwindling control of rent ceilings will be handed over to the Central Mortgage and Housing corporation which operates within the authority of the federal department of finance. Control of lumber and building materials prices and supplies may also go to the Central Mortgage and Housing.

Both price ceilings and rationing on meat are expected to be abolished before next September. Dropping of meat control will wipe out one of the biggest functions—and headaches—of W.P.T.B.

Enforcement of meat and sugar rationing has required probably more rigid supervision, and more inspectors, than any other branch of commodity control.

Total employees of the W.T.P.B. reached a peak, in fact, of 5,738 in October, 1945, immediately after rationing of meat was adopted.

Since then, the number of employees of the board has been gradually dwindling. The total is projected to drop to about 4,000 on March 31, and thereafter is expected to decrease very rapidly.

As these functions of the W.P.T.B. disappear, the remnants of controls such as distribution of sugar and fixing of sugar prices by the sugar control division at Montreal will be, according to this information, handed over to authority of the federal department of trade and commerce.

The commodity stabilization which does all Canada's bulk buying from foreign sources from raisins to tea and fats and oils, now operates under the wartime prices and trade board. Logically its operations also are expected to be transferred to the department of trade and commerce.

In short, the objective of the government, as has been stated time and time again in the house, is to continue rapidly to abolish the remnants of wartime subsidies, price ceilings and rationing at the earliest moment consistent with avoiding economic confusion.

GOVERNMENT NOT AGAINST ROYAL MATCH

LONDON. A government source said there was reason to believe the government would not oppose a marriage between Princess Elizabeth and former Prince Philip of Greece.

The source said the cabinet had discussed the long-rumored romance informally. The members, he indicated, appeared to have recognized that the two young people are very fond of each other and that Elizabeth's affection for Philip is "very real."

Under British precedent the government would have to approve any man whom the heiress presumptive to the throne might select as her consort. Some sections of the people have objected to Philip because of his connection with Greece, which many labor leaders consider now to be a neo-Fascist country.

The official London Gazette announced that Philip had been granted British citizenship under the name of Lieut. Philip Mountbatten—the same name as his uncle Lord Louis Mountbatten, viceroy-designate of India. The step had been regarded as a necessary prelude to any announcement of his engagement to Elizabeth.

Diary Is Convictor

PITTSBURGH.—Charlotte Gilkie couldn't resist recording the day's events in her diary. As a result she and her husband Jerry were in jail charged with burglary.

Police Inspector John Whalen, who said the couple was arrested after being found prowling in a west end home, quoted these excerpts from Mrs. Gilkie's diary:

"Feb. 3. Jerry and I took a walk tonight to Northside. Got the baby a blue coat with leggings and Jerry two nice coats and I will two grand ones."

"Feb. 22. Best ever. $25 cash, shoulder strap pocketbook, $3 pennies, an expensive dark grey fur coat for me."

HOLDUPS GET $500,000

CHICAGO. Five men, one carrying a submachine gun, obtained $16,[illegible] in cash and nearly $500,000 in cheques in a holdup of a guard at the Oscar Mayer meat packing company.

The Virgin Islands were purchased by the United States from Denmark in 1917. 2777

PROVINCES TO ADOPT UNIFORM ROAD SIGNS

REGINA. — Highways Minister J. T. Douglas welcomed the news that British Columbia was planning to inaugurate uniform road signing in conjunction with the prairie provinces.

"This will come as an added convenience to the motoring public," commented Mr. Douglas. "At the moment there is fine cooperation between the four western provinces on such matters as speed limits and other safety measures."

The three prairie provinces, Manitoba, Saskatchewan and Alberta, have been working together for some time now and have reached the point where road signing is fairly uniform. Last winter British Columbia was represented for the first time at a highway traffic board conference attended by representatives of the prairie provinces.

Public Works Minister E. C. Carson of British Columbia announced that the Pacific coast province would adopt uniform road signing in conjunction with the prairie provinces. Mr. Carson also said that province would undertake the removal of non-essential signs from the highways as an additional highway help.

CONFERENCE DATE STILL INDEFINITE

OTTAWA. — Prime Minister Mackenzie King said in the commons he is not yet in a position to say when a conference will be called with the provinces to discuss social security and public works programs.

He quoted a telegram he had sent Premier Douglas of Saskatchewan Nov. 22, 1946, saying that the public investment and social security proposals submitted to the Dominion-provincial conference in 1945 would remain an essential part of the Dominion government's program.

The telegram added:

"As soon as there is sufficient acceptance of the proposed tax agreements we shall be ready to explore in a general conference or otherwise the possibility of working out mutually satisfactory arrangements in regard to the whole or any part of our earlier public investment and social security proposals."

Mr. King said he did not think the conditions outlined had yet been fulfilled and therefore he was not in a position to say when a conference would be called.

RIOTS CONTINUE IN THE PUNJAB

RAWALPINDI, India. — Twelve days after the outbreak of rioting in the Punjab, murder and arson are still spreading through the northern districts and appalling casualty figures are expected when an adequate check can be made.

Indications are that virtually every village in the 10,000-square-mile area around this cantonment city has experienced murder and arson since March 5.

There are about 700,000 Moslems and 30,000 Sikhs and Hindus in the Rawalpindi area. So far about 20,000 Hindus and Sikhs have been counted into refugee camps. There is considerable anxiety about the remainder, since reports from many villages show that Sikhs and Hindus who failed to find refuge by flight or with Moslem protectors were murdered.

According to refugees attacks on villages are usually made in the night, with raiders coming from neighboring villages. Frequently the first the authorities hear of an outbreak is smoke reported by patrolling aircraft.

LETHBRIDGE FLOOD WORST IN HISTORY

LETHBRIDGE, Alta. - Lethbridge continued to fight the worst flooding of settled areas in its history as the heavy run off from rapid melting snow began to disrupt the municipality's transit system.

Water was still being pumped from the basements and from about dozens of homes inundated by large lakes which formed in low-lying sections not served by storm sewers. Water five feet deep was lapping against the backs of some residences and in at least one north Lethbridge home water was several inches deep in the home and the basement was flooded. [illegible] described the flooding of various residential areas as "the worst we've ever seen in Lethbridge."

SMALL WAIST ADVANTAGE

SPY HILL. Small waisted colleens were ahead of the game in Spy Hill when the ladies' aid charged a cent per inch waist measurement as admittance to the St. Patrick's day tea.

FLOWERS FOR THE PRINCESS—King George and Queen Elizabeth smile as their daughter, Princess Elizabeth, receives a bouquet from a curtsying young miss on their visit to Port Elizabeth, South Africa.

Growers Get Large Sum Out Of Grain Policy

WINNIPEG.—Transfer of approximately 50,000,000 bushels of oats and barley in commercial channels across Canada to the Canadian wheat board and distribution of $5,000,000 to western growers who have delivered barley, featured the coarse grains policy announced in the commons by Agriculture Minister Gardiner.

Grain men here said the oats and barley futures market on the Winnipeg grain exchange would be able to operate in only a limited way with fluctuations confined to the spreads between the support and the price ceiling prices.

There will be no changes in the cash or futures market for rye on the exchange.

Domestic trade in oats and barley will continue to be handled by private trade channels although the wheat board will become the sole exporter.

Acreage Bonus Dropped

OTTAWA. — The acreage bonus plan for barley asked by numerous western coarse grain growers has been dropped by the government as the result of the new floor and ceiling prices announced by Hon. J. G. Gardiner, minister of agriculture.

WEDS NEWSMAN — The daughter of the former Rajah of Sarawak, Borneo, Princess Pearl (Miss Elizabeth Brooke) is pictured in her New York hotel suite after it was announced that she will wed Richards Vidmer, U.S. newspaperman.

RECORD SEIZURE IN NARCOTICS

NEW YORK. — Seizure of 450 ounces of heroin valued at $1,147,500 in the black market - the largest such seizure ever made in the port of New York - was announced by the collector of customs.

The narcotics were taken from the French freighter St. Tropez at its east river berth and a French sailor was arrested and charged with smuggling narcotics.

UNDERGROUND HEROINE WEDS ZIONIST PRESIDENT—Decorated for her wartime services with the French underground, Iola Fleg, daughter of Mr. and Mrs. [illegible], granddaughter of the late Edmund Fleg, recently became bride of Samuel J. Zacks, president of Zionist Organization of Canada.

BRITISH GUARD CROSSROADS IN PALESTINE. With 11 extremists and a British soldier dead in the latest outbreaks of violence in Tel Aviv, Palestine, armed British soldiers take up positions with Bren guns at a crossroads leading to Jaffa and Allenby. After a week of strict martial law, an attack on British military headquarters brought a new crisis.

House Of Commons To Extend Emergency Control Legislation

—To Prevent Confusion

OTTAWA. — The commons, after hearing Justice Minister Ilsley warn that "confusion if not chaos would result from an abrupt ending of controls in Canada," voted 177-13 to give the government authority to extend emergency control legislation from March 29 to May 15.

A similar motion now must pass the senate, before the government can prevent automatic expiry March 31 of controls on rents, evictions, prices, marketing and other matters.

The division was requested by Prime Minister Mackenzie King and his colleagues after several members had shouted "no, no" when speaker Gaspard Fauteux called for passage of the emergency motion. Dr. Fauteux said he acted in accordance with house rules.

Some Progressive Conservative members charged the motion had been carried before Mr. King got to his feet to ask for the recorded division which brought opposition from 13 eastern members.

John Bracken, opposition leader and [illegible] Diefenbaker (P.C. Lake Centre) asked for and obtained assurances that during the six week extension of the emergency act the government would pass no orders-in-council affecting anything beyond what was contained in legislation [illegible].

Mr. Ilsley told Mr. Bracken he was prepared to bring in an "omnibus" bill under which the main controls will be continued for a year. On introducing the legislation he would explain its provisions.

C.C.F. leader Coldwell said he believed it was essential that the government should have the power to continue controls. Social Credit leader Low said that while his party was supporting the extension motion he hoped no further extension would be required.

Later the commons voted 134-36 to give second reading to a bill covering the sale and export of agricultural products needed to fill bacon, cheese, egg, meat and other commodity contracts with the United Kingdom.

The reading, which signifies adoption of the principle of the bill, came after Agriculture Minister Gardiner warned that while the legislation was scheduled to be in force for only one year he might have to come back next year and ask for passage of a similar bill to meet contracts with Britain.

Mr. Gardiner said the only principle in the bill that the government was insisting on was the power to fill the food contracts with the United Kingdom. Because the contracts ran beyond March 31, 1949, it was possible that he might have to bring down similar legislation next year.

BRITAIN TO HOLD FORCE IN GREECE

LONDON. Britain, far from withdrawing completely from Greece after March 31, will continue to maintain military, economic, legal and police missions there to advise the Greek government, foreign office sources said.

Furthermore these sources said, Britain possibly may be bound by her guarantee given in 1939 to defend Greece against aggression. Whether this guarantee still is operative, however, is an open question.

British aid to Turkey since the end of the war largely has been limited to a military mission to train the Turkish army in the use of British weapons. That mission also will remain, the foreign office sources said.

Britain would be obliged under the British-French-Turkish alliance signed Oct. 19, 1939, to go to Turkey's assistance if it "became involved in hostilities with a European power."

SHIPS ARE COSTLY

OTTAWA. - Two Tribal class destroyers built in the Dominion during the war cost Canada approximately $7,951,479 each according to a return tabled in the commons recently for R. S. Moore (C.C.F. Churchill).

Subsidy Figures On Agricultural Products Given

OTTAWA. Agriculture Minister Gardiner said in the commons that since 1939 subsidies on agricultural products have amounted to more than $351,476,400.

He spoke during continued clause-by-clause study of a bill that will continue the marketing boards needed to handle the products called for in commodity and food contracts with the United Kingdom.

He said the subsidies included premiums on cheese, subsidies on cheese factories, cold storage, apples and agricultural products generally.

Mr. Gardiner said about 50 per cent. of Canada's bacon and ham had gone to Britain since the start of the war as had an average of 60 per cent of cheese production.

Egg shipments had increased from 1,000,000 dozen in pre-war years to 83,000,000 dozen now.

Approximately 184,000,000 pounds of beef had been sent to Britain in 1945. This represented about 350,000 head of cattle.

Mr. Gardiner also indicated that any increase in the price of dairy products will not come until after he has had a mid-April meeting with the advisory committee on agricultural prices.

The committee composed of government and producer representatives is to meet the minister shortly after April 15. Mr. Gardiner said he wished to have the advice of the organization.

BLACK MARKET IN CANADA LIMITED

OTTAWA. "In relation to other countries Canada's black market has been very, very limited," Donald Gordon said and it was not a major headache of price control.

Testifying before the commons banking committee the prices board chairman said: "With a few exceptions we have not found any organized black markets. They have been on a small scale and had no chronic or serious aspects. I would say without hesitation that the Canadian people are basically honest."

He said the system of price control has the early objective of complete decontrol and added that lifting of remaining controls was a matter of timing. The board would maintain subsidies on certain commodities until foreign conditions were such that it could be reasonably sure that prices had a chance of stability.

Canadians May Send Food Parcels To Hungary, Romania

OTTAWA. Canadians now may send parcels of food and clothing to friends and relatives in Hungary and Romania as the result of agreements which have just been signed between the governments of those countries and the Cooperative for American Remittances to Europe, Breen Melvin, Canadian representative of C.A.R.E., announced.

Orders now may be placed for delivery of C.A.R.E. food, blanket and woollen textile packages at $10 each, said Mr. Melvin.

AN INSIDE STORY of a LIFE ASSURANCE SERVICE

The Balance Sheet of Canada's largest life assurance company reveals 1946 as one of the most progressive periods since the Sun Life issued its first policy 76 years ago, but figures alone tell little of the human story behind this great co-operative enterprise. For instance, last year over $100 million was paid out in benefits. What did this mean to the thousands of policyholders and beneficiaries who shared it? Here in brief is some of the story between the lines:

During 1946 over $31 million was paid as DEATH BENEFITS, providing a continuing income for widows and children and ensuring financial security to thousands of homes.

Another $16 million was paid in ENDOWMENTS, furnishing for many the cash or life income necessary to carry out long cherished plans.

$14 million was disbursed under ANNUITIES and PENSIONS, bringing independence, security and contentment to a time of life which should be free of all worries and inconveniences.

BENEFITS PAID SINCE ORGANIZATION $1,919,999,149

NEW ASSURANCES IN 1946 $348,155,601

ASSURANCES IN FORCE $3,373,132,763

The savings which Sun Life policyholders send to their Company in the form of premiums to provide protection against the hazards of tomorrow are invested in the nation's industries, in farms, homes and schools, in public utilities and Government Bonds, to be converted into employment and wages, thereby contributing to your economic stability, and that of many thousands of your fellow citizens.

SUN LIFE OF CANADA

A complete copy of the Annual Report for 1946 will be sent to all policyholders, or may be obtained from

George S. Maxwell
VERMILION - ALBERTA

Interesting Facts in Sun Life Report

MONTREAL. — More people purchased life assurance from the Sun Life Assurance Company of Canada during 1946 than in any similar period over the last 15 years. Arthur B. Wood, President, outlined the world wide character of the Company's business and revealed many new records of achievement when presenting the financial statement at the 76th annual meeting. The Sun Life first extended its operations outside of Canada 67 years ago, and has been established in the U.S. and Great Britain for well over half a century. Reviewing the Annual Report for 1946 Mr. Wood stated that the volume of new life assurance business for the year had increased by 44% over 1945 and amounted to $348,155,601 bringing total assurances in force to $3,373,132,763. This amount was distributed among the Company's territorial divisions as follows: Canada 52%, United States 12%, Great Britain 12%, Other countries 14%. The total assets of the Company reached the figure of $1,343,132,974. Other record figures quoted included payments to policyholders and beneficiaries amounting to $101,165,671. The total payments to policyholders since organization stand at $1,920,[illegible]. Premiums received from policyholders during the year showed an increase of nearly $10,500,000, and amounted to $152,565,825. Income from all sources totalled $242,567,791, exceeding last year's record by over $22 million. The combined surplus and contingency reserve now stands at $66,[illegible]. The increased scale adopted last year for the distribution of dividends to policyholders will be continued. Mr. Wood spoke of the importance of the Company's annuity business in the social fabric of our times and referred to the comfort and peace of mind which a guaranteed annuity gives to its owner, a condition conducive to longevity. More than ten Sun Life annuitants are now between 90 and 100 years of age. Three have passed the century mark and the oldest is an English clergyman who purchased an annuity 31 years ago at the age of 81 and who last October celebrated his 105 birthday. Other significant figures mentioned by Mr. Wood were concerned with the material contribution made by the Company to the housing needs of Canada and the United States. In Canada alone over 12,000 National Housing Act loans have been placed on the books of the Company, and of the total Mortgage Account nearly $52 million has been lent in Canada.

A feature of the Annual Report was the chart first introduced by the Sun Life two years ago, showing the disposition of what is referred to as "Your Company's 1946 Income Dollar." This shows that in relation to every 73 cents paid by policyholders in premiums during the year 86¼ cents was either paid out to policyholders or credited to funds maintained for their future security and benefit.

Sockeye Comeback

Construction of special "fish weirs" at Hell's Gate, on the Fraser River, British Columbia, has saved Canada's sockeye salmon from extinction in this important area, reports The Financial Post. In use for the first time last year, the million dollar weirs made it possible for from two to four times as many sockeye to reach their inland spawning grounds, as in 1942, the previous "cycle" year.

Perfect Crib Hand One in 3,500,000 Times

TORONTO. — Experts say it can't happen once in a lifetime but once in about 3,500,000 times. It is the "immortal hand of cribbage — the perfect 29 point score. H. J. Cabley, a Toronto government auditor, recently dealt himself a jack of clubs and three five-spots. His opponent D. J. McCraw, regional chief claim agent, C.N.R., accommodatingly cut the five of clubs. He blinked when Cabley let out a whoop of joy and laid down the perfect hand. McCraw whooped with him. Seven years ago he held an "immortal", and on Friday the 13th, of all days. This is the second time he has been in on that rare 3,500,000th deal. He is now looking for a statistician to figure out the astronomical odds for a player to hold an immortal and then cut one for his opponent.

Wildmere Winks

(Intended for week March 14-20)

The curling season at our local rink closed with a banquet on Saturday evening, March 15 at the Wilson home where 17 sat down to a turkey supper with all the trimmings, topped off by apple pie and ice cream. Mrs. C. Cruthers and Mr and Mrs Albert Smith were unable to attend owing to illness. After supper several interesting games were enjoyed. Later in the evening the curlers presented Mr and Mrs Wilson with a beautiful electric table lamp as a token of appreciation for the use of their home during the curling season.

Our lovely spring like weather seems to have caught cold again. [illegible] it cannot stay cold very long now as it is crawling on to April. The poor people over in England suffered the ravages of war followed by an awfully cold winter and now there really is more than those folks can take with all the food shortage and lack of fuel in the bargain. We here have no room to grumble at all.

All members of the Wildmere W.I. please take notice that the April meeting has been changed to Wednesday April 16 owing to our hostess and others wanting to attend the Little Royal and college closing on April 2nd and 3rd.

Red Cross collectors in our part have been busy. Mr Guy Whitlock collected in the eastern side of our territory, Mr. Roy Dibben on the north and J. Wallington on the west. Everyone responded wonderfully to this worthy cause.

Mr. and Mrs Wilhite and Marlene accompanied by Mr Whitlock Sr and Miss Joyce Whitlock who works at the hospital visited on Sunday at Mr and Mrs Guy Whitlock's Wildmere.

The writer and family visited a short time at the home of Mr. and Mrs. C. Cruthers Sunday afternoon.

Mrs. Adam Smith and Mrs. C. Cruthers left on Monday morning for a week's visit with Alex Smith and family in Edmonton and with Mr and Mrs N. Smith at Ben Acres. They intended to call and see Mr and Mrs H. Howard too while in the city.

Mr and Mrs Roy Osterberg called at the Wallington home on Sunday evening. They had visited Mrs Osterberg's parents Mr and Mrs H. Sweeney of Thorncliffe in the afternoon.

The writer had a nice chat with Mrs Castle Scott and Mrs Bottomley in town Saturday. Others noticed in town were Mr and Mrs Joe Tillinger, Heastwood and Mr and Mrs N. Ma[illegible] of Cummings. It's nice to see folks again after the long winter.

Mr and Mrs Gaylord Gibson of Westside, Man., are [illegible] visiting their son Frank and family of Heastwood and their daughter Mrs. Ellis Madill and family of Vermilion for a while.

Mr and Mrs George Dibben of Heastwood have bought the McCaslin farm just east of town and are busy getting moved and settled in their new home. Their son Roy is moving into the home place at Heastwood. Mr and Mrs Dibben are real old timers settling here in the homestead days. While we will miss them greatly we are pleased they can have a few more comforts and be nearer to town. Everyone joins with us in wishing them every [illegible] happiness.

In The Legislature

by W. R. CORNISH, M.L.A.

The Debate on the Budget was the highlight of activities in the Alberta legislature last week. Premier E. C. Manning brought down the largest budget in Alberta's history, exceeding $47,000,000.

Considerable additional grants are seen in every department with Education and Public Works getting the most dollars.

The Premier's address showed an over-all increase of $83,000,000 in the price value of agricultural products for last year. The only important decrease in agricultural production was a $12,000,000 decrease in hog values. There were 1,700,000 fewer hogs marketed in Alberta last year than in 1944.

Livestock Feeder Associations last year handled more than 70,000 animals, valued in excess of $1,000,000.

Treasury Branches now show deposits exceeding $26,500,000 which was an increase of $2,500,000 last year. The year's surplus on operations is $66,206.

Value of natural resources produced showed an increase of $12,000,000. More than 600,000 feet of holes were drilled last year, with $6,500,000 spent by drilling companies.

There has been much talk of the Government having a $10,000,000 surplus last year. Here are the facts.

There was an over-all surplus of $10,310,258.61. Of this amount, more than $2,000,000 was used to redeem savings certificates; $10,000 was used to pay on treasury bills held by the Dominion Government and 12 and one-third million was used for debt retirement and adjustment payments arising out of our debt re-organization. This was partially offset by accounts payable, which left an over-all deficit of $2,942,799.76 which came out of the accumulated surpluses of past years.

The total indebtedness of our treasury bills is $26,200,000, bearing 3% interest. This is made up of (a) Dominion advances for direct Provincial relief $10,595,000, and (b) Dominion advances for purposes other than relief $15,621,000. The Dominion Government agrees to cancel 50% of the relief bills, and to charge no interest on the balance of treasury bills for relief. The Province of Alberta will retire $7,997,750 of non-relief interest bearing treasury bills. This will be paid by applying the award on natural resources made in 1935 by the Royal Commission. This award by the Royal Commission to Alberta was $5,000,000 in 1930 at 5% interest for five years and then to be set at the same rate as the treasury bills. This award today amounts to $7,997,750.

Our new position then is that our treasury bill debt will be reduced by $12,295,250 and the balance owing will be $12,920,750 of which $4,297,500 will bear no interest and will be amortized over thirty years. The remaining $7,621,250 will be amortized over 30 years bearing interest at 2½%. The Province's annual cost including principal and interest will be $547,000. The Province has been paying $785,000 in interest alone on the treasury bill indebtedness. Our annual debt service charge on treasury bills will be reduced by $241,000 and in 30 years there will be no debt.

Through courtesy of the editor of the Standard, your local newspaper, I will give more details on certain aspects of the Budget next week.

The Debate on the Budget Speech was concluded by Premier Manning on Friday night last.

Canadian Co. Conducts Weed Control Tests In California

Discoveries made during the 1946 growing season indicated the urgent necessity for further experimental work to gain all possible knowledge of chemical weed control before embarking on the 1947 program. To await the coming of warm weather in Western Canada to conduct these experiments would cause a year's delay before the practical application could be adapted to western Canada's conditions. To avoid this loss of time National Grain Company Ltd., dispatched chemicals and spray rigs to the Sacramento Valley in California and conducted a series of tests in February.

These tests involved the use of several chemicals and the method of application with particular reference to the most desirable strength of the solution required and the most effective means of applying with due regard to Western Canadian conditions. As a result of these experiments it is hoped that it will be possible to put into practice early in 1947 methods found most desirable in these early experiments. While final tests cannot be made for another month, early results indicate that equipment now in use can be adapted to the new and improved methods with only a modest expense.

As soon as final results are available they will be made known to all dealers in order that the most efficient methods of weed eradication can be adopted in the 1947 program. Predictions with respect to the final results would be unwise at this time but it seems fairly certain that extremely satisfactory weed control will be obtained using a much weaker solution than has been recommended to date.

HUGHES

China Aims To Have More Ships

NANKING.—Ships flying the Chinese flag will be a regular sight in all principal world ports, particularly those of the South Seas and the West Coast of the United States and Canada, if a new two-year shipping rehabilitation program drawn up by the Chinese government is fully carried out.

Under this new plan, made public at a time when the country's leading shipping interests are demanding a firm stand against any foreign requests for inland navigation rights—China is to have between 2,000,000 and 3,000,000 tons of shipping by 1949.

This is to be acquired by new building, purchases abroad, Japanese reparations and salvage of vessels sunk during the war in Chinese waters.

A less ambitious scheme calling for increase of shipping tonnage by about 100,000 tons to the pre-war level of 600,000 tons during 1946 was achieved last September.

The first stage in the new plan calls for an estimated 700,000 tons to replace the foreign tonnage that has been withdrawn. It is hoped to achieve this target by the end of this year by purchase from the United States and Canada and new building in Chinese yards.

[illegible] this year the Chinese government also hopes to receive about 350,000 tons of Japanese shipping as reparations.

The second and last stage of the expansion program calls for acquisition of large-sized craft of a total tonnage of between 300,000 and 1,000,000 tons. Most of these will be ocean-going freighters and will be used to carry China's imports.

It is likely that work will begin some time in the next few months on a long-planned new dockyard in Shanghai which will be capable of building and repairing ships up to 20,000 tons. Most of the necessary equipment will be supplied by Japan as reparations.

Chow Mou-Pah, shipbuilding expert of [illegible] Commission, is expected to leave for Japan shortly to arrange for shipment of the equipment.

The new dockyard, which will be situated in the Woosung area—at the mouth of Shanghai Harbor—will take three years to complete.

FOR ATOMIC AGE

A new dry battery that may be useful in an atomic age for warning persons of dangerous radio-active rays was announced recently by the National Carbon Company, New York. The battery is 500 volts, but small enough to fit in the palm of a man's hand.

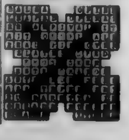
Answer To Last Week's Puzzle



HEIRESS TO WED—June wedding is planned by Martha Parke Firestone, daughter of Mr. and Mrs. Harvey S. Firestone, seen here, and William C. Ford, son of the late Edsel Ford and grandson of Henry Ford. The bride-to-be is granddaughter of the late Harvey S. Firestone, founder of the rubber company of which her father is president.

Denmark Is Not Giving Up Greenland

COPENHAGEN—Foreign Minister Gustaf Rasmussen told Parliament that Denmark never will give up Greenland.

He said the Danish Government was striving to clear Greenland of Americans and expected that they would be gone in "the not too remote future."

CANADIAN HOUSEWIFE WILL SHUDDER AT THESE PRICES

THE PAS, Man.—If the average Canadian housewife thinks prices in the corner grocery store are high, she should take a look at the prices ruling in Brochet, 250 miles north of this northern Manitoba town. Bread—three loaves for $1; sugar—30 cents a pound; apples—five for $1; butter—75 cents a pound; oranges—10 cents each; flour—$6 a hundredweight.

11,901 PHYSICIANS PRACTICE IN CANADA

There were 11,901 physicians in Canada on July 1, 1946, the Government reported in a Commons' return tabled for F. D. Shaw (SC—Acadia).

They included 74 in Prince Edward Island; 492 in Nova Scotia; 298 in New Brunswick; 3,834 in Quebec; 4,752 in Ontario; 706 in Manitoba; 562 in Saskatchewan; 676 in Alberta and 1,012 in British Columbia.

In the next five years, 3,604 medical students are expected to graduate, including 267 this year, 566 in 1948, 840 in 1949, 862 in 1950 and 747 in 1951.

Hunger Dominates Love In Japan

TOKYO. — Japan's public opinion poll takers report that the pangs of hunger out-tug the pangs of love.

Among 566 single Japanese women between 18 and 26 in Tokyo, the poll found that most of them, instead of love, wanted in the way of a husband a man who had enough money to buy anything he desired in the black market.

There are three sides to every question:

Your side. His side. The right side.

FOR BRON-CHITIS YOU CAN'T BEAT BUCKLEY'S MIXTURE

MECCA OINTMENT

LET "MR. FISH" BE YOUR HOST—When one of my neighbors runs out of ideas on what to serve for dinner, she says, "There's always fish." And so there is. For every season is fish season, and there's always some kind of fish to be had. We're too apt to snub "Mister Fish" instead of making him the highspot of a mighty fine meal. This Baked Fish can be the centre of a savory dinner, even company dinner.

Baked Fish

1 (3 to 4 pound) fish

2 teaspoons salt

Paprika

1 recipe stuffing

2 tablespoons melted butter or salad oil

Have fish cleaned and prepared for stuffing. Wash thoroughly and wipe with cloth. Rub cavity with salt. Stuff and sew edges together with heavy thread. Place on greased oven-proof platter or baking pan and brush with melted butter or salad oil. Sprinkle paprika lightly over top. Bake in hot oven (450 deg.-475 deg.) 30 to 40 minutes, until well browned. Garnish with quartered lemon. Yield: 6 servings.

Fish Stuffing

¼ cup fat (drippings)

1 tablespoon scraped onion

1½ cups stale bread crumbs

⅓ cup whole wheat flakes

1½ tablespoons lemon juice

1 tablespoon chopped parsley

½ teaspoon salt

⅛ teaspoon pepper

Heat fat, add onion, bread crumbs, and cereal; stir over low heat until crumbs are lightly browned. Add lemon juice, parsley, salt and pepper. Yield: Sufficient stuffing for 3-4 pound fish.

Note: 1-2 tablespoons water may be added if moist dressing is desired.

Posthumous Award Operational Wings to P.O. Harold C. Bell

Pilot Officer Harold Copeland Bell, son of Mr. and Mrs. N. F. Bell of Drumheller, has been awarded, posthumously, the certificate and operational wings in recognition of gallant service in action against the enemy.

Pilot Officer Bell was born at Islay, Alberta, on October 7th, 1923, and moved to Scott, Sask., with his parents in 1938 where he received his public and high school education. He enlisted in the R.C.A.F. in March, 1942, trained in Saskatoon, Regina and Macdonald, graduated as a Sgt.-Gunner December 17th, 1942 and left for overseas ten days later. He received his operational training at Lossiemouth, Scotland, after which he was attached to an R.A.F. squadron at York, England. He with five other members of his crew lost their lives on March 16th, 1944, on their return from operations over Stuttgart. He is buried in Harrogate Cemetery, Yorkshire, England. Besides his parents he is survived by his wife Dorothy, one brother P.O. Arthur Norman Bell, now of Yellowknife, N.W.T., and three grandparents, Mr. and Mrs. J. J. Bell, of Edmonton, and Mrs. Buchanan, Vancouver, B.C.

Derwent Girl Is Afternoon Bride

Marriage of Miss Catherine Boopalko, daughter of Mrs. M. Boopalko, of Derwent, Alta., to Mr. Vernon Alfred Kennedy, son of Mr. and Mrs. M. Munro, of Edmonton, took place in an afternoon ceremony in Edmonton recently.

For her nuptials the bride wore a brown tailored suit styled with a three-quarter length jacket. Her accessories were in brown to tone and her corsage was of Talisman roses.

Mrs. R. Munro was the bride's only attendant. She wore a navy blue dressmaker suit with pale blue accessories to contrast.

Best man was Mr. R. Munro.

After the ceremony a reception was held to immediate families at the Mandarin Gardens. Mr. and Mrs. Kennedy will reside in Edmonton.

Bowtell Bulletin

Congratulations to Mr. and Mrs. D. White on the birth of a son recently.

Isabell Sherwood spent Monday night of last week at the Mitchell home making it possible for her to attend the amateur program which attracted a large crowd.

Ladies are asked to note that the next Busy Bee meeting will be held at the home of Mrs. McClellan.

It is pleasing to learn that Mrs. Wm. Telford is convalescing nicely after her recent fall.

Flu has been going the rounds recently and a number are confined to their beds with it.

Harold Knutson was a recent patient in the hospital receiving treatment to his nose.

Mrs. Schoof and children are spending this week at the Harrison home while Mr. Schoof is busy carpentering in Islay.

Mrs. N. Coutts left Monday night this week for her home in Peace River after visiting her sister Mrs. Bisdale and family.

Arnold Mages is now the owner of an AR John Deere tractor. Arnold was one of the many who waited a long time for a tractor. Harry Perkins tractor has also been shipped and will probably be here by the time this appears in print.

Mr. and Mrs. Robinson were Friday visitors at the home of Mr. and Mrs. E. Williams.

Mr. Chas. Telford is visiting his daughter Mrs. B. Gow in Calgary but we understand that he is coming home in the near future.

E. CORLEY

THE Quality Jeweller

Pool Hall, Bowling Alley Changes Hands

A recent change in business took place when Frank and Mike Yedlinski bought the Billiard parlors and Bowling alley. The new proprietors come from Edmonton and are already planning bowling leagues and prizes for high individual scores. The former proprietors were John Ramchuk who plans to return to farming, and Paul Malinoski whose plans are not yet definitely decided.

WOODVALE

With spring's arrival, warmer weather and roads not suitable for heavy hauling, most farmers are very busy preparing for the coming season by cleaning grain, branding and vaccinating calves, repairing their machinery etc. J. Robertson of Rolling Hills has been in the district these past weeks with his Carter disc cleaner.

A Red Cross meeting was held on the 19th at the home of Mrs. A. Lysons. 14 ladies were present and the very pretty quilt made that afternoon will be sent to England. Quite a lot of work was turned in and given out. The next meeting is to be held at Mrs. Haan's on April 16. A dainty lunch was served by the hostess, who, we hope, did not mind her friends looking around so much at her new home. The cosey homey atmosphere was very much admired. The drive for funds was quite a success; $25 for Vermilion and enough left to carry on a whole year. Mrs. Lamport donated another box of carded wool which makes enough batts on hand for quilts to the end of 1947 which must be quite a load off the mind of our secretary-treasurer. Mrs. Lysons donated enough flannelette for another back. Mrs. Watson made a very nice job of piecing together a quilt top and 12 more blocks from material donated at the February meeting; Mrs. H. Fortsmith put a baby quilt together, the top and back being a gift of Mrs. O. Wolters. It is being sent to Holland. We hope we haven't forgotten anything in this report. It was such a pleasant meeting. Some of the ladies were rather shaken up from a long ride over the bad roads and if anyone is in need of a gate opener see Mrs. Rose Green, who, after opening 20 on this one trip can really be called an expert!

Urban Holman has applied for the job of government coyote hunter in these parts. We can surely use one around here. The losses to poultry and sheep have been great these past years and there seem to be plenty of coyotes around yet.

A dance was held at Ganton school on the 21st. Mr. and Mrs. Everet Isley furnished the music.

Alfred Crocker has been sick with the measles. Let's hope an epidemic will not break out.

So far, we have not reported the news of another store in these parts because it seemed hard to believe anyone would start one just a mile from the Webber store and post office, also because so much resentment and talk was connected with the new enterprise. However, the building has arrived on the corner opposite Ganton school, so we presume in the near future a store will be opened there. Mr. E. Hart of Dorradalle is the proprietor.

The gate was left open and Chris Thomsen's horses got out and into grain on Brooks Lysons's place with the result that one horse died and three are badly crippled.

Promote Educational Equality

Town and city schools have been able, during good times and bad, to maintain their schools at a satisfactory level of proficiency. The fact that each of these communities represents a relatively concentration of wealth on which funds for school purposes can be levied with some measure of ease will explain this. These centers have been well satisfied to receive rather small assistance from the Provincial Treasury while rural areas with smaller money resources have received much greater aid. The present campaign by the Alberta Educational Council to have the Provincial Government finance elementary and secondary education to 50 percent of its costs does not mean that all schools in the province would, were such a reform introduced, have one-half of their costs transferred to the Government. It means rather that on an over-all basis financial assistance from general revenue would be raised from the present rate of 22 to 50%. The great bulk of the additional money thus provided by the Government would go to rural and village areas. Cities like Calgary and Edmonton might look forward to grants equalling 15 to 20% of their costs in place of the present 5 or 6%, while other localities might receive 75 to 80% assistance. The basic purpose of the efforts of the Alberta Educational Council is to promote a greater measure of educational equality throughout the province and provide every child and youth with the opportunity for a sound education.

After the show on Saturday evening attend the dance at the Elks hall. An enjoyable hour or two for only 5c.

Beekeepers Bulletin

A timely bulletin on the care of package bees is now available from the Alberta Department of Agriculture. Prepared by W. G. le Maistre, Provincial Apiarist, this publication deals with care of bees in the package, preparation and protection of the hive, feeding the colony, examining the hive, introduction of the queen and other information which beekeepers will find invaluable at this time.

Bulletin No. 77, "Care of Package Bees in Alberta" may be obtained from District Agriculturists or from the Extension Service of the Alberta Department of Agriculture.

Legion Officials At Coal Branch

Headed by S. Carl Heckbert, Vermilion, president of the provincial command, three Canadian Legion officials left Monday to visit Legion branches in the Coal Branch. Purpose of the visit is to establish closer liaison between branches and the command and to organize inter-branch competition in the new provincial command sports program.

With Mr. Heckbert are W. R. McLaren and E. "Ted" Brown, first and second vice-presidents of the Montgomery branch.

The Legion officials will be in Edson Monday night, Cadomin Tuesday and Mercoal Wednesday. They will address a public meeting at Jasper Thursday and a Legion meeting there on Friday.

MORRISON NEWS

Spring is in the air, the men are busy sawing wood, cleaning grain, and some of the ladies are busy papering and canning meat. Haven't heard of anyone gardening yet but it won't be long.

Lloyd Gould is busy these days looking after 500 chickens. They are [illegible] weeks old already. Next thing to wonder about if the egg price is going to drop.

Doreen and Gordon Gould spent two days visiting the writer and family last week and Mary Dupruit was a week end visitor.

Our dance had to be postponed on account of the bad roads, and we do mean bad not fit for horses to travel in many places. However the club has donated $5 to the Red Cross.

The roads however didn't stop some of the neighbors from springing a surprise party on us just at bed time. In fact hubby had already retired when he was ordered to get up again. The Gillies and Dupruit families and Laurence and Chrissie were the fun makers until 4 o'clock in the morning and did we all have a good time? We'll say we did! Do it again folks.

On Sunday the McFadyens, Charlie Burts and Lloyd Gould were supper guests at the Dupruit home.

The Harley family visited at the home of Mr. and Mrs. B. Gould on Sunday. They are moving to Kitscoty where Jack has purchased a farm about 2 miles east of the town.

It was decidedly spring like when the writer commenced writing these notes, now it is a real wintery day, snowing and blowing. Here's hoping that the mail gets to town today.

The writer would like to hear when Russell and Kay Miller are leaving for England, would certainly like to see them again. Come and see us if you can.

Wildmere Winks

Mr. Jas. Kennedy has returned to his home in Wildmere after spending the winter in the hospital and at the home of his sister Mrs. J. Larson of Cummings. Jim had his foot hurt late fall and has been laid up with it most of the winter. He can walk fairly well now.

Spring must be here as Laurence Graham and Bob Martin were playing horseshoes on Sunday — and the Graham children at the writer's went wading in a hurry in a slough with all their clothes on.

J. Wallington has been cutting wood at Guy Whitlock's and Bob Martin's this week.

Peggy and Bobby Graham visited with Margaret and Hazel Whitlock on Sunday afternoon.

Several folks in Triangle sold cattle just as the ban was placed on the roads so they have to hold them a while longer until the ban is lifted.

We were indeed sorry to hear that Mr. Chas. Smith had passed away. When he was in Vermilion he and his wife often drove out our way. Now both have gone to their well-earned rest away from the trials and troubles of this world.

Water Torch Saves Time and Labor

MONTREAL. — To "keep 'em rolling" the Canadian National Railways is alert for devices to speed up the supply of cars now under repair or a-building in its shops across Canada. One extraordinary piece of equipment adopted to the repair of steel cars is an acetylene torch which incorporates a water spray surrounding the flame nozzle. When a plate bulges or dents the application of spot heat, possible with the new torch, restores it to original form. In the old days the plate would have to be removed and re-rolled. Hours of time and labor are saved. The torch was a war-inspired invention in use in shipyards particularly.

The way we take being taken down is the way we go up or down in people's estimation.

What about that Label date?

Last year the International Salvation Army supplied 31,172,855 meals to needy or under-privileged persons. Nearly 11½ million beds were provided.

Something OR Nothing

Remember the story of the monkey who tried to
withdraw a fistful of nuts through the narrow neck of a jar?
Because he wasn't content with getting one luscious nut at a time,
he ended up by getting nothing instead of something.

That story is worth remembering today. Greedy grabbing
of goods still in short supply can have the same result—
nothing instead of something. Inflated prices, like the
inflated paw of the monkey, can as surely prevent each
of us from getting his fair share of available goods.

Canadians have had the wisdom to be content with
a moderate "something," knowing that as production
increases that "something" will grow larger and larger.
This is good sense, and is founded on the principle that
MODERATION is the key to CONTINUED ENJOYMENT,
a principle to which the House of Seagram
has always subscribed.

Men who Think of Tomorrow Practice Moderation Today!

WIEBES BAKERY

Three-Day Session Held by Vermilion River Municipality

The following is a summary of the minutes of the meeting of the Vermilion River council held in the municipal office, Legion hall, Vermilion, Thursday March 13 to Saturday 15th.

Present: Reeve J. A. Currie in the chair; Crs. O. E. Clay, R. Tessman, J. Leighton, O. H. Quist, T. Belsheim.

Minutes as submitted to Council were accepted and financial statement for February was passed.

Moved by Cr. Clay that Sec.-Treas. be instructed to advertise in the local papers, calling the attention of the ratepayers that according to the Municipal District Act, a 5% penalty must and will be added to all outstanding taxes on April 1st. Cd.

The minutes of annual ratepayers meeting held at Kitscoty Feb. 15 were read.

Moved by Cr. Clay that question of planting windbreaks to act as snow fences along highways be referred to Agricultural Services Board for study and that motion dealing with road construction in Div. 7 be referred to Cr. Lambie. Cd.

Moved by Cr. Leighton that O. H. Quist be appointed chairman of Agricultural Services Board. Cd.

Moved by Cr. Currie that delegate from Council to School Division board be allowed same remuneration and mileage as for council meetings. Cd.

Moved by Cr. Belsheim that expenses be allowed two members of Agricultural Services board while attending Agricultural Service Board conference to be held in Edmonton on March 25-27. Cd.

Moved by Cr. Clay that H.D. 10 and Dozer with power unit be shipped to Kitscoty. Cd.

Moved by Cr. Leighton that old Bee Gee scraper be traded at a value of $525 for modern Bee Gee priced at $755. Cd.

Notice was received from Vermilion S.D. that Mr. C. E. Thompson was appointed representative to attend Municipal Council meetings.

Moved by Cr. Currie that Cr. Quist get in touch with Islay Community Association with regard to community grounds. Cd.

A very large number of land sales and leases were dealt with.

Moved by Cr. Tessman that first instalments of school and hospital requisitions in the amount of $72,691.[illegible] be paid. Cd.

Moved by Cr. Currie that Crs. Clay, Quist and Belsheim be appointed a committee re employment of construction foreman and machine operators. Cd.

Moved by Cr. Currie that Cr. Quist be appointed a committee to discuss with Mannville Civic Affairs society the matter of basement on Lots [illegible] and [illegible], Blk. [illegible] and that he be authorized to take appropriate action with respect to any public liability involved. Cd.

Moved by Cr. Currie that transfer voucher be issued in the amount of $[illegible] to be applied against outstanding loans at Treasury Branch and that we ask for renewal of balance of loan. Cd.

Moved by Cr. Quist that application of Miss Marjorie Zachowski to operate a beauty parlor in Mannville be recommended. Cd.

Moved by Cr. Leighton that the matter of grants be tabled until the next meeting. Cd.

Moved by Cr. Clay that estimates for 1947 as prepared by Secretary-Treasurer be accepted. Cd.

Moved by Cr. Currie that minimum tax for Lloydminster Hospital area within the M.D. be set at $5. Cd.

Visitors March 13, 1947: Mr. McKay of Armco Drainage; Mr. Wa[illegible] of Waterous Limited; Mr. Rice of Richardson Road Machinery; Mr. Stephens, Vermilion Golf club; Mr. Heatly re land agreement; Delegations: Messrs. Liefson etc. re road McLaughlin south; Delegation Messrs. Kirkpatrick etc. re taxes, Viking Lodge; Delegation Messrs. Walker etc. re roads in Div. 2; Messrs. Green etc. re roads in Div. 3; Messrs. Ku[illegible] etc. re roads in Div. 7; Mr. T. Hagen re land agreement.

Visitors March 14: Delegation Messrs. Johannsen etc. re road from S.E. Corner Sec. 27-48-3 thence west 2 miles to Farlie store; Messrs. Steenson etc. re Kitscoty mail route No. 2. Mr. Watt of Canadian Bank of Commerce, Mr. Robson, Mr. Miller of the Vermilion S.D., Mr. Rogan re Red Cross donation, Mrs. Stewart re land agreement.

Meeting adjourned.

12 To Compete For Big Awards

With announcement this week of the Manitoba provincial winners in the 1946 National Barley Contest sponsored by the brewing and malting industries of the nation, 12 western farmers are in the running for the big interprovincial awards of the contest.

The interprovincial awards will be announced at the Manitoba Winter Fair [illegible] April 1[illegible].

There will be four interprovincial awards carrying cash prizes respectively of $[illegible] [illegible] $[illegible] and $[illegible].

The [illegible]:

Alberta: Geo. W. Johnson, Red Deer; [illegible], Legal; Louis [illegible], Arrow[illegible]; Ray Niemela, Benalto.

Saskatchewan: Jack A. Wylie, Nerquay; [illegible], Batoche; Antler; Richard Flatt, Nipawin; Clifford R. Erratt, Dalton.

Manitoba: [illegible] C. Ellis, Haskett; Donald [illegible], Portage la Prairie; David [illegible] Marr, Renwer; D. J. McKay, [illegible] Mound.

ISLAY

Continued from last week

March 15th was a fine day here and [illegible] concert and dance in the hall a great [illegible] very good attendance and many a laugh was had.

[illegible] McNeely's wagon broke down with a heavy load of lumber on just as he was going into the lumber yard, quite a few watched the work of getting the front wheels from under; we noticed [illegible] McFadyen, Jack [illegible], Neil McLa[illegible] and Bill M[illegible].

Jean Robinson was home for the week end. Jean has been at the M[illegible] Crimmon farm at Scotford.

The New Viceroy

THE APPOINTMENT OF the Viceroy of India has long been considered to be one of the highest honors which could be conferred by the British government. A long line of distinguished and able men have occupied the position, which has carried with it grave responsibility as well as great honor. Lord Louis Mountbatten of Burma, who has recently assumed this office, brings to it skill, experience and character which may cause him to go down in history as one of the greatest of those who have undertaken this difficult task. It is probable that he will be the last Viceroy to be appointed and in accepting the post he has undertaken an exacting and delicate mission but he has shown, in the past, that he is capable of dealing with formidable problems.

* * * * * *

A Naval Cadet When Thirteen Although Lord Mountbatten was born into a family which had both wealth and Royal connections he [illegible] to join the Royal Navy as a cadet at the age of thirteen. Five years later, when the First Great War broke out, he was a sub-lieutenant in a submarine flotilla. [illegible] study of wireless and signals and in the recent war he was in command of the destroyer Kelly and then of the aircraft carrier Illustrious. Later he became head of the Commandos and went from that post to become Chief of Combined Operations at the time when the invasion of Europe was being planned. He solved formidable problems connected with the invasion by his part in the development of "Mulberry", the floating harbors and the great engineering project "Pluto", the oil pipeline under the sea. Before the invasion took place, however, Lord Mountbatten had been made Supreme Allied Commander in [illegible] where by attacking in the [illegible] he surprised the Japanese and broke their resistance in that area.

* * * * * *

Unity Needed Among People A man who dealt so capably with the problems of war may be expected to bring equal [illegible] and energy to the problems of peace. The situation in India at the present time is extremely critical. In the time which Britain remains in control there, it is her responsibility to attempt in every way possible to bring about the unity which is essential to the Indian people if they are to have their independence. The tasks to be completed are as grave and as complicated as any which were encountered during the war and no doubt the British government had this in mind when one of the most brilliant of the wartime leaders was chosen to be Viceroy at this time. One observer has said that if Lord Mountbatten is successful in this mission he will enhance an already great reputation but that failure under the present circumstances will not diminish it.

GIRLS! WOMEN! TRY THIS IF YOU'RE

NERVOUS

On "CERTAIN DAYS" of The Month!

Do female functional monthly disturbances make you feel nervous fidgety, cranky, so tired and "dragged out"—at such times? Then so try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. This fine medicine is very effective for this purpose! For over 70 years thousands of girls and women have reported benefit. Just see if you, too, don't report excellent results! Worth trying!

Lydia E. Pinkham's VEGETABLE COMPOUND

Extend Farm Lands By Government Loans

Loans for the clearing and breaking of 32,000 acres of new land were made in Canada in 1946 by the branches of the chartered banks under the provisions of the Farm Improvement Loans Act. These loans were made to 1,[illegible] farmers for a total of approximately $[illegible]. Most of the loaning for this purpose was done in Western Canada, particularly in outlying areas such as the Peace River area. Much of the land that was cleared and newly broken was done by large power units especially designed for the handling of [illegible] operating on a custom basis.

It is anticipated by the officials administering the Farm Loans Improvement Act that loans for the clearing and breaking of land will be substantially increased for 1947 and that as a result a considerable amount of new land will be put into production. The banks, particularly in outlying areas are co-operating to the fullest extent with the Dominion Government in making the loans which are instrumental not only in furthering the progress of individual farmers but in the development of the newer districts as a whole.

An attractive pamphlet giving full particulars of the various classes of Farm Improvement Loans can be obtained by writing to the Supervisor, Farm Improvement Loans, Department of Finance, Ottawa.

Particulars can also be obtained from any branch of a chartered bank in Canada through which such loans are made.

Health LEAGUE of CANADA presents TOPICS of VITAL INTEREST

PASTEURIZATION FAVORED BY A.M.A. FOOD COUNCIL

The Council on Foods and Nutrition of the American Medical Association is of the opinion that "the public should demand pasteurized milk for drinking and the use of pasteurized milk in milk products."

An editorial in a recent issue of the Journal of the American Medical Association states that "the value of pasteurization of milk in preventing the spread of milk-borne disease is now well established." The editorial quotes an official statement of its Council on Foods and Nutrition as stating in part:

"The pasteurization of milk is a public health measure. The public should demand pasteurized milk for drinking and the use of pasteurized milk in milk products. The dairy trade should universally adopt pasteurization in the interest of public health. Only pasteurized [illegible] granted recognition by the council. There is no cogent evidence that pasteurized milk is significantly inferior nutritionally to raw milk."

DIPHTHERIA DEATHS SAID UNNECESSARY

No child even in the most isolated home need die of diphtheria today, it was stated here by Dr. Jocelyn Patton, Chairman of the Immunization Committee of the Province of Quebec Division of the Health League of Canada.

Dr. Patton was commenting on what she termed the "unnecessary" deaths of four children in one small community in this province a few months ago.

Wherever there [illegible] a church [illegible] can be set up an immunization clinic [illegible] week in every year [illegible]. It should be the duty of clergy, teachers and doctors to urge the parents in their district to protect their children [illegible].

Posters drawing attention to the [illegible] should be put up in public places, while all homes should [illegible].

AN UNUSUAL OFFER

DURBAN.—James Robert Forsyth [illegible] is prepared to give one eye to get a passage to South Africa. He has written to a newspaper here offering the cornea of one of his eyes to restore sight to some South African. In return he wants passage for his wife and himself and a guaranteed job.

BRITON FORESEES FLIGHT TO MOON IN SIXTY YEARS

LONDON.—A trip to the moon "within the next 50 or 60 years" in a space-ship traveling at thousands of miles an hour was visualized by Prof. A. M. Low in an interview recently.

The past president of the British Inter-planetary Society pictured pioneers wearing suits designed for protection against intense heat and cold and carrying their own oxygen supplies, seated in a giant space-ship navigated by radar and driven by atomic energy.

"The first useful experiment in this direction will undoubtedly be the American 'rocket postal service' between the United States and Britain," he said. "If you can travel from America to Britain by rocket—and no one doubts that you can—you can certainly travel to the moon.

"Hundreds of thousands of people will almost certainly be killed in first attempts at inter-planetary travel, but if as much money were to be spent on designing space-ships as has been spent designing weapons of war a safe method of making the journey would no doubt be found in time.

"Such a space-ship could be designed, but it will not be built now because it is quite beyond the means of any private society and because it has no immediate financial return."

FUNNY And OTHERWISE

Jones: "If my wife didn't have a can opener, she wouldn't know how to cook."

Smith: "My wife has one but it doesn't help any."

Jones: "Why not?"

Smith: "I found her yesterday trying to open an egg with it."

* * * *

Wife: "That new maid of ours must be from New York. She speaks of the nursery as the 'noisery'."

Husband: "Well I rather think that's the way it should be pronounced."

* * * *

Applicant: "And if I take the job am I to get a rise in salary every year?"

Employer: "Yes, if your work is satisfactory."

Applicant: "Ah, I thought there was a catch in it somewhere."

* * * *

"Waiter, there is no wishbone in this chicken."

"It didn't need one, sir. That chicken lived such a contented life that it had nothing to wish for."

* * * *

The judge wished to make sure that the witness understood the solemnity of the occasion:

Judge—Do you know what that oath means?

Witness—Sure I do. That oath means if I swear to a lie I gotta stick to it.

* * * *

"Now, son," said Macpherson, "just double up your fists like this—verra tightly."

"Och, for shame on ye, Sandy," said Mrs. Macpherson, "teachin' the wee bairn to fight and him only five years old."

"Quiet, woman," said Macpherson. "I wasna teachin' the wee laddie to fight. I was just showin' him how to carry a penny safely."

* * * *

First Pickpocket: "What are you reading that fashion book for?"

Second Pickpocket: "Well, we've got to know where all the pockets are, haven't we?"

* * * *

A lorry driver became tired of his work and gave it up to join the police force.

Asked some months later what he thought of his new job, the ex-driver replied that the pay was good, the hours satisfactory, but what he liked best of all was that the customer was always wrong.

* * * *

Mrs. Blank—Are you sure this century plant will bloom in a hundred years?

Florist — Quite sure. If it doesn't bring it back.

* * * *

"I've come to settle my account," said the long-term debtor. "Your last letter was a stinger—why it would get money out of a stone."

"Yes," smiled the tradesman, "I chose the best bits out of the letters [illegible]."

* * * *

The henpecked husband was seeing his wife off at the station.

"Don't come on to the platform, dear," said his wife; "it will cost you a penny for a ticket."

"That's all right," he replied. "It's worth more than a penny to see you off."

* * * *

Long Boy: "Big boy, was George Washington as honest as dey say he was?"

Shorty: "Ah tell yo', brudder, George was the honestest man dat [illegible]."

Long Boy: "Den how come dey close de banks on his birthday?"

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg, Man.

All crows are not black. The hooded crow of Europe is mostly gray.

SON RE-UNITED TO MOTHER AFTER BEING STOLEN YEARS AGO

ST. LOUIS.—A mother's persistent search, a boy's curiosity and a ticket for speeding were credited with reuniting the mother and her son, who disappeared 24 years ago when he was three years old.

Creighton Collins, 27, of St. Louis, heard his mother's voice for the first time in his memory when the mother, Mrs. J. Frank Draper, telephoned him from Portland, Ore.

Collins, a truck driver, said that he planned to take his wife and two daughters, Gail Frances, 5, and Jacqueline, 3, this summer to visit his mother whom he doesn't remember.

"I'm going to see her just as soon as possible," he said. "We're both very happy about it."

His mother was divorced from his father at St. Louis in 1922. She hired a nurse, Mrs. Anna Sutter, to help care for her son.

One day in 1923 the nurse asked if she could take the child to Belleville, Ill., to visit with her friends there. Mrs. Collins agreed. That was the last she saw of them. St. Louis and Belleville police found no trace of them.

Creighton said his earliest memories were of the nurse, who treated him like a son.

They lived in St. Louis at the rooming house she operated.

Mrs. Sutter changed his name to Dale Connors, apparently to avoid being found by the police.

But the boy began to wonder about his real parents. At 17 he realized she was holding back information.

"I threatened to run away unless she told me," he said.

Mrs. Sutter then told him, he said, that she had taken him for a visit to Portland to meet his parents in 1923 and returned when his parents failed to meet them. She told him his true name, and Collins adopted it. Her story satisfied him. The years passed. He married, moved away and set up his own home.

When Mrs. Sutter became ill, Collins sent her to a nursing home, paying the bills from his salary as a truckdriver, until she died in 1944.

Meanwhile, his mother who had married J. Frank Draper and moved to Portland, kept pestering the police there to search for her son. They sent out circular after circular reporting him missing.

In 1943, Collins was arrested here for speeding. When he went to the station to pay a fine, a patrolman recognized his name as listed in a missing person circular from Portland police.

Collins asked to see the circular. It was dated 1935. He asked St. Louis police to investigate, but before action could be taken, he entered the Navy.

After his discharge he decided to write to Portland police who searched dusty files and traced the circular to Mrs. Draper. She immediately telephoned her son.

"She was crying so much I had trouble understanding her," said Collins.

Soviet Russia To Loan Poland Gold

MOSCOW.—The Soviet Union will loan Poland $28,855,000 in gold and deliver armament and other military equipment on credit, it was announced.

A Polish delegation headed by Prime Minister Josef Cyrankiewicz has been in Moscow since Feb. 25.

The agreement provides for a 50 per cent. reduction in Polish coal shipments to Russia, the return to Poland of railroad rolling stock seized by the Russians as "booty", and the return by May 15 of "parts of the German merchant fleet credited to Poland."

Even more responsible in causing corns than ill-fitting shoes is the failure to walk properly.

OGDEN'S Fine Cut

GEMS OF THOUGHT

FRIENDSHIP

A friend should be one in whose understanding and virtue we can equally confide, and whose opinion we can value at once for its justness and its sincerity.—Robert Hall.

Real friendship is a slow grower, and never thrives unless engrafted upon a stock of known and reciprocal merit.—Lord Chesterfield.

A friendship that makes the least noise is very often the most useful, for which reason I should prefer a prudent friend to a zealous one.—Addison.

Life has no blessing like a prudent friend.—Euripides.

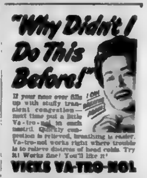
[illegible] friendship, home, the interchange of love, bring to earth a foretaste of heaven.—Mary [illegible]

Sweet is the scene where genial
friendship plays
The pleasing game of interchanging
praise.
Oliver Wendell Holmes

AMERICAN GIRLS ARE MARRYING YOUNGER NOW

NEW YORK.—The Metropolitan Life Insurance Company said its statistics showed that 12 per cent of America's young women marry between the ages of 15 and 19.

American girls marry much younger than those in Canada, western Europe, Australia and New Zealand, the report said.



"Why Didn't I Do This Before!"

Local News of Interest

Mrs. H. N. Stephens left on Friday morning for White Bear, Minnesota where she will spend the next couple of months visiting her son and daughter-in-law, Dr. and Mrs. H. M. Stephens.

Mrs. Fred H. Waite of Lindsay, Ont., arrived Friday morning and will spend several weeks visiting her parents Mr. and Mrs. V. H. Cooper.

Gordon Larson left this week by car on a combined business and pleasure trip which will take him to Ponoka, Hanley and Calgary. Mr. Larson expects to be away for ten days.

A. M. Watt spent last week in Calgary attending the annual bull sale there. Sandy says the event is an education in itself and advocates anyone who can to attend such a show.

Mr. and Mrs. John Craig are in town this week after a very pleasant sojourn in California. Mrs. Craig went south last fall while Mr. Craig joined her early in February. On the return trip they visited in Victoria and Vancouver where they met many former Vermilion people. While in Vermilion they are guests at the home of their daughter and son-in-law, Mr. and Mrs. E. M. Stewart.

Gerald F. Stephens attended the convention of the Alberta Retailers association held in Edmonton Monday and Tuesday this week.

Neil McKay of Hanna, who has recently been superannuated by the Canadian National, spent Monday in Vermilion. Mrs. McKay accompanied him to Edmonton, stopping in the city.

Miss Sarah Olds left Sunday for Namao, Alberta where she has work for the spring and summer months. Prior to her departure she spent a week end at her home in Islay.

[illegible] returned to Vermilion Tuesday morning after enjoying a very good winter at Slave Lake, Alta.

CARD OF THANKS

We wish to express our gratitude to Dr. Stephens, Miss Keith and all members of the hospital staff for the kind care and attention received by Mrs. Evans during the weeks spent in hospital. We also wish to thank the many kind friends who visited her there, and those who sent letters.

Hugh B. Evans and family

WANTED — HALF TON TRUCK any make, in good condition. Apply J. I. FILLIATE, Vermilion, 2 miles south on highway on west side of road. 16

BAND CONCERT CANCELLED

The proposed visit of the R.C.A.F. band to Vermilion on April 5th has been cancelled.

ISLAND HILL

A card party was held at Island Hill school on the night of Friday, March 21st.

Nine tables were in play and the honors went to the following: Ladies 1st, Mrs. Wm. Hall; 2nd, Mrs. Geo. Richardson; 3rd, Audrey MacIntyre, Consolation, Mrs. Reeves. Prizes for the gentlemen were 1st, Mr. Wm. McIntyre, 2nd, Edward Richardson, 3rd Mr. O. Strome; Consolation Mr. R. Reeves. The proceeds were jointly for the Jr. Red Cross and the School fund.

Mr. and Mrs. C. W. Harrison and son Benny who have lived in the Vermilion district for the past 25 years, left Wednesday via Canadian National for New Westminster where they have purchased a small fruit farm and chicken ranch. Ever since 1927 they have lived in the immediate Claysmore district and their many friends are sorry to see them leave.

A letter was received from George and Anne Grasby and family and Mrs. Auty this week and this former Vermilion family wished to be remembered to all old friends here. The Standard is very much anticipated and enjoyed in their Hamilton Ontario home and an invitation is extended to all Vermilion and district people to drop in and see them if they happen to be in the vicinity of Hamilton. The address is 95 East 30th street. Mrs. Auty gets around marvelously well and is looking better than when she arrived there.

St. Saviour's W. A. will hold its next meeting at the Rectory on Thursday, April 3rd, at 2:30 p.m.

Edith Hay's group is having coffee time at Ruth Meyer's on Saturday April 12th. Come and have coffee with us. 16-22

Mrs. Miller's group of the United church W.A. will meet on Wednesday April 2nd at 3 p.m. at the home of Mrs. E. Stewart.

Superfluity sale and tea on April 17th in the Elks hall under the auspices of the Frog Lake Chapter I.O.D.E. 16x21

AMATEUR PROGRAM

A big amateur program will be held Wednesday April 9th at 8 p.m. sharp in Masonic hall. Good cash prizes will be awarded. A select coffee table will be drawn for at the close of the program. Lunch, hot dogs and coffee. Everybody is welcome. [illegible]

HOT CROSS BUNS

Mrs. Meyer's W. A. group of the United church is baking Hot Cross [illegible] purchase them at Stephens store from 2 to 5 p.m. Thursday. Please place your order before Thursday. [illegible]

Vote $2,000,000 For District Highways

More than $2,000,000 will be spent [illegible] district highways and local roads [illegible] the provincial government in 1947 [illegible] greatly increased [illegible] according to figures compiled by the Alberta Motor Association.

The greatly increased appropriation [illegible] gratifying to the A.M.A. which has advocated larger expenditures on the [illegible] road system for many [illegible] market roads as feeders to the main routes is recognized.

On capital account there is $1,250,[illegible] for district highways which includes $400,000 for roads in municipal districts. This is $850,000 more than the 1946 vote.

On income account, the vote for district highways and local roads is $[illegible], an increase of $[illegible]. This vote includes $400,000 in special grants, which is an increase of $[illegible] over last year.

Thus it is evident that a considerable program will be undertaken this year in improving the market and secondary roads which are such an important part of the provincial system.

Democracy won't work for men who over-emphasize their rights and overlook what's wrong.

Honored on 42nd Wedding Anniversary

On Sunday March 16th the occasion of their 42nd wedding anniversary, Mr. and Mrs. Richard Good were guests of honor at a family gathering held at the home of Mr. and Mrs. Jim Thompson.

During the afternoon a number of pictures were taken and a wedding supper was served at 5:30 p.m., the bride of 42 years ago being pleasantly surprised by the presentation of a 3-tiered wedding cake, decorated in white and silver. At the conclusion of the supper, Mr. and Mrs. Good were presented with a chesterfield chair, Mr Jim Thompson Sr., extending, on behalf of all, wishes for many more happy years together.

The eldest daughter, Mrs. E. Fowler of Edson was unable to attend but all other members of the immediate family were present, these being Mr. and Mrs. E. Thompson, June and Jack; Mr. and Mrs. Jim Thompson, Alice, Kenny and Pat; Mr. and Mrs. Jim Panter, Richie and Bobbie; Mr. and Mrs Harry Good, Dennis and Allen, all of Chatsworth, and Mr. and Mrs Maurice Smith and Barrie, of Mannville. Also present were Mr. Jim Thompson Sr., and Mr and Mrs. W. J. Fooks, Jimmie, Keith and Baby Lynne of Vermilion.

Mr and Mrs Good also received a lovely hand-hooked rug, a gift from Mrs. M. Panter and Betty of town.

Chatsworth Chatter

Orie Hutchinson was out last Friday with the bull-dozer outfit to plow east to the King Edward road so that Macdonnell's and Klochinsky's could get out via car.

Mrs. Sawyer of Red Deer, who has been spending some time with her daughter Mrs. Bob Cameron, returned to her home last week.

Mr Randolph Hutchinson is canvassing this area for subscriptions to the Red Cross.

Patsy Thompson celebrated her 4th birthday on Sunday 16th. Another little member of our community Louise Sturt, celebrates her 8th birthday on Friday 21st.

Joe Farkash Jr has been working on his new house during the nice weather. He has had Mr Caron of town helping him.

Mr R. Good attended the Northern Alberta Dairymen's convention at Edmonton from Wednesday 12th to 14th.

Georgie Farkash suffered a cracked bone in his left thumb last week when he was tobogganing down the hill at Thompson's. He had it X-rayed and put in splints on Monday.

The past few days of spring like weather certainly softened up the roads. It looks like mud and slush for awhile now. The first crow should be along soon.

Wildmere Local A.F.U.

The meeting of the Wildmere Local A.F.U. was held on March 12th with a very fair attendance. There being only routine letters for discussion this time the meeting was not very long. It was decided to hold another card party at the next meeting to be held on Friday April 11th. So neighbors, this will be about your last chance for a get-together before the busy season. Come along and have a good visit with each other.

Stagette Notes

Press representative back on duty!

There was a very good attendance at the Stagette meeting on Tuesday night. Incidentally the meeting was opened with the minutes being read by candle light!

The girls are reminded to get their posters out for the Spring Frolic on Tuesday May 6th and tickets will soon be on sale.

Marg Grevin was Stagette representative at the [illegible] memorial meeting and gave a very interesting report after which there was considerable discussion.

The Stagettes are catering to the Legion celebration on April 7th so girls get your uniforms in readiness for this occasion.

The lunch girls will see that the good clothing which was left will be sent to its destination this week.

[illegible] Miller was the lucky raffle winner, holding the [illegible] of [illegible].

April 1st will be our educational meeting that will be held at Mrs. [illegible]'s and guest speaker for the evening will be Mrs. [illegible] Arboam from the college. The lunch committee will please remember those [illegible] when they were promised.

Physical Training Class Ends Season With Social Evening

Presentation to Elaine Howlett

The ladies physical training class for 1946-47 under the very capable instructress Elaine Howlett, held their final meeting for the season on Monday evening April 3rd. This meeting took the form of a party, beginning with the theatre, after which the members gathered at the home of Madge Clark, where with Ruth Moyer at the piano, a very enjoyable sing song started the evening's fun.

A delicious lunch supplied by the "East Enders" and served by Margaret Good, Beryl Benfort, Norma McGee and Madge Clark, made all the ladies wish the exercises were continuing.

Following the lunch, Ann Bruce, on behalf of the class, presented Elaine with a gold glamour pin in appreciation of her cheery and untiring, but we hope not unavailing efforts, with Ruth at the piano all joined in "For she's a jolly good fellow."

At the conclusion of the party the members' expressions of their enjoyment of the entire season and the general feeling of good fellowship makes one certain that all will be back again 100 per cent next fall, Elaine.

Additional Rise in Price of Newsprint

GOES UP $6.00 A TON

An increase of $6 per ton in the price of newsprint paper, f.o.b. mill has been announced by the manufacturers to Alberta publishers, and will be effective April 1.

The price of newsprint delivered to Edmonton and district publishers will continue to be the highest in North America. In addition to the numerous increases f.o.b. mill since the outbreak of war, the freight rate from the Pacific coast to Edmonton is an added burden to the laid down cost at Edmonton.

Even more serious than the cost of newsprint delivered at point of consumption is the extreme shortage of supply, and there is no indication of any relief or improvement in the situation. —Edmonton Journal.

Carload of Fine Horses Shipped to Ottawa

E. V. Stanley of Landonville shipped a carload of 18 head of very fine horses to Ottawa last week end and these will be sold on the eastern market.

Mr Stanley made the trip east himself and will visit relatives and friends at Ottawa whom he has not seen for 21 years.

Check that date on your label now!

$5 REWARD — FOR RETURN OF man's Omega wrist watch lost on Tuesday night last at Carlers dance or between Elks hall and New Way Cleaners. VERN Visini, New Way Cleaners, Vermilion. 17-8c

HUGE INCREASE IN OUTPUT OF ELECTRICITY

33,679 K.W.H. OVER SAME PERIOD LAST YEAR

Electrical demand in the town of Vermilion continues to increase at a very rapid rate. For the first three months of 1947 the output from the power plant was 212,016 K.W.H. as compared to 178,337 K.W.H. in 1946. An increase of 33,679 K.W.H. or nearly 20 per cent.

Cubs Plan Parents' Night, April 8

The parents of the Cubs are invited to attend the regular Cub meeting on Tuesday April 8th to see how the boys are getting along with the work. It is hoped that all parents will accept this invitation.

Vice-President of A.F.U. To Address Meeting in Vermilion

Mr Henry Young, vice-president of the Alberta Farmers Union, will address a public meeting in the Elks hall, Vermilion, on Thursday afternoon April 10th at 2 o'clock. All farmers and everyone interested in problems pertaining to farming, farm prices, etc., are invited to attend.

The meeting is sponsored by all A.F.U. locals in the Vermilion district.

Mr. Young will arrive in Vermilion Wednesday April 9th and attend the closing exercises at the school of agriculture.

Flying Scholarships and Summer Camps Are Rewards for Air Cadets

TRIP TO GREAT BRITAIN POSSIBILITY FOR LOCAL BOY

Each summer, thousands of Air Cadets make their annual trip to summer camps and this summer it is hoped that the majority of the members of the Vermilion Air Cadets will participate in this feature of cadet life and training. Held at six R.C.A.F. stations across Canada, the camps serve the double purpose of giving the cadets an enjoyable holiday while at the same time providing them with something special in the way of training. Under the supervision of RCAF instructors as well as their own officers, they receive about 55 hours of instruction, take part in games, outings and other forms of organized recreation; and receive their familiarization flights in RCAF aircraft.

It is thought that Manitoba will be the selection for this year's summer camp for the boys from Alberta.

FLYING SCHOLARSHIPS

From the Vermilion squadron, one and possibly two cadets will be given a flying scholarship lasting one month. This will include 90 hours ground instruction and 12 hours flying instruction, two hours of which will be solo flying. A carry over from this might well lead to much more use being made of our Vermilion airport.

This year too, 14 cadets will be selected to make exchange visits to Great Britain. A cadet from Vermilion might be one of those selected to fly by air over the Atlantic, spend three weeks in the British Isles, return to Canada by air, and on their return visit every province in Canada. As this program is going to be carried on year after year, if a cadet does not get the opportunity this year, his squadron will have a chance the following one.

INSURANCE

A protective insurance has been carried on "All Cadets" which covers accidents of any kind sustained while on cadet duties and sickness developed at any organized camp. This insurance has been arranged by the Air Cadet League.

Variety of Vocational Training

Between now and June 12 (approximate annual inspection date) the Vermilion Squadron hope to cover the first year allotment of the following subjects: First Aid, Armament, Photography, Leadership and Morale, Aero-engines, Meteorology, Navigation, Drill, Physical Training and Signals. These men have volunteered their services as instructors: Const. Steinlinger and Const. Clevette, Stan Calvert, Rev. Baikie, Wally Guy, Allen Larson, Lorne Porkett and members of his staff and Chas. Heckbert. Enriched as these men are with past experience, they will prove a valuable addition to our unit.

Equipment which this Unit has on hand to aid in this instruction includes: 6 Longbranch target rifles, Model 7, Mark 1—Lee-Enfield, the latest model for target practice. A radio transmitter and receiver, this equipment opens the door to amateur radio license and future civilian radio career; Signal valve buzzers and [illegible]; various aircraft instruments such as wind speed indicators, bomb sights, altimeters, etc., and dozens of publications. Additional equipment which is on the way from R.C.A.F. headquarters are a Harvard or Cornell aircraft complete, a Ranger aircraft engine, a [illegible] projector, with the use of a [illegible] library which contains teaching [illegible] films of a [illegible] and other publications and [illegible] the cadets and instructors [illegible].

The team work and [illegible] of the Air Cadet movement is due to the co-ordinated effort of the Air Cadet League, a civilian sponsoring body, and the R.C.A.F., the former being responsible for administration and public relationship, and the latter of training and supply.

The chairman of our local sponsoring committee responsible for the success of our squadron is Mr. [illegible] Waite who is presently [illegible] committee [illegible].

[illegible] will [illegible] supplies, applications should be handed in to Mr. F. Walker or Mr. J. Hamilton.

"GREEN ACRES"

EDMONTON BULL SALE

On April 14th at 1.30 p.m. the sale of 250 pure bred bulls will commence at the Exhibition grounds Edmonton. These bulls will be judged the day before, starting at 9:30 a.m.

On Tuesday the commercial cattle will be judged and then sold on Wednesday.

Altogether, two or three days at this show and sale will be time well spent by anyone who raises beef.

OVERDOSING WITH IRON

Last week one of our local pig producers lost a number of young pigs. One of the piglets was sent up to the Animal Pathology laboratory at Edmonton. The diagnosis was "too much iron". Apparently the owner had given all the reduced iron which could be held on a ten cent piece. This is three times too much. Iron is necessary this time of year to prevent anemia but too much means dead pigs. Get a circular from your D.A. office on this subject.

SEED OATS AND BARLEY

Cars of seed oats and barley now on order will commence to [illegible] soon as the road ban has been lifted.

As the price increased when the federal government announced the new prices on coarse grain, all farm [illegible]

[illegible] their elevator [illegible]

LLOYDMINSTER BULL SALE

The Lloydminster [illegible] will hold their [illegible] of bulls [illegible] close April 15th. Keep the county [illegible] in circulation [illegible] bulls may be [illegible] they do not sell well at public auction.

VERMILION GRAIN CLUB

Wanted — a few boys [illegible] immediately to join the Vermilion [illegible] and alfalfa club. [illegible] for grain club [illegible] clubs. Seed is supplied [illegible] bushels of [illegible] wheat or 30 pounds of alfalfa [illegible].

BARLEY FOR WEED CONTROL

Barley is [illegible] than oats or wheat as a smother crop for weeds. [illegible] late and after [illegible] crops [illegible] wild oats have been killed by cultivation. [illegible] wild oats and besides giving a [illegible] crop than early [illegible]

Closing Exercises at The V.S.A. Wednesday, April 9

Dr. Robert Newton, President of the University of Alberta, Speaker

LARGEST GRADUATING CLASS IN HISTORY

The closing exercises at the Vermilion school of agriculture for the present term will be held Wednesday next, April 9th. The afternoon's program commences with the fashion parade at 2 o'clock in which the girls will model the various garments made by them during the term. The highlights of the parade will be the graduation dresses worn by the members of the graduating class in Home Economics.

Immediately after the fashion parade, Dr. Robert Newton, President of the University of Alberta, will deliver the graduation address. This will be followed by the announcement and presentation of scholarships and of prizes, as well as the presentation of diplomas to members of the graduating class.

It is noteworthy that this is the biggest graduating class in the history of the school, also that the number of scholarships and prizes is the largest ever offered at one of these schools.

The afternoon program will be followed by a banquet to the graduating class at which the speakers will be Dr Newton, Mr. E. H. Gandier, Mr N. N. Bentley, as well as a number of toasts and replies.

HOCKEY CLUB MEMBERS FETED

GUESTS AT BOARD OF TRADE LUNCHEON

Officials and players of the Vermilion Tigers hockey club were guests at a Board of Trade luncheon held in their honor on Wednesday last, the business men of the town seeking in this way to show their appreciation of the very fine display of sportsmanship, the excellent recreation and entertainment provided by the hockey games as well as the very favorable publicity the team had brought to Vermilion. There were 55 men present at the enjoyable function and Albert M. West made a very capable chairman.

Following the luncheon Mr. West outlined the career of the hockey team during the past season and complimented management and players for the fine showing made, which fell just short of again capturing the cup. He then called on Sandy Watt, President of the hockey club.

Sandy commenced by calling on the officials to take a bow, at the same time telling the shortcomings of each. Members of the executive present were Tom [illegible], Jim Rea, [illegible], Dr. Stephens, Ronnie Bar[illegible], Gordon Magee.

Mr. Watt then went on to name the players starting with Art Wiebe, Stan Walde, [illegible], Hank Beiger, Frank [illegible], [illegible] Stanplus, Doug Brimacombe, Bob Watt, Brent Marnah, [illegible] Martin and forwards [illegible] Williams and Ray Spencer were [illegible].

[illegible]

Local Gas Consumption

[illegible]

Lady Golfers to Meet

A meeting of all ladies interested in playing golf will be held on April 10th at 8.15 p.m. in the basement room of the town hall. A good attendance is requested as officers will be elected and plans made for an active golf season.

Fastball Meeting

A meeting of every person interested in playing fastball will be held in the fire hall on Monday April 14 at 8:30 p.m. Plans for an active fastball season will be made. Everybody welcome. 47-8

Local Elks Visit Vegreville Lodge

Some 30 members of the Vermilion Elks lodge paid an official visit to the Vegreville brethren on Tuesday evening this week, where they were royally entertained. The occasion was the presentation of the Travelling Gavel, District No. 10.

ALBERTA'S POPULATION

The dominion bureau of statistics conducted a census of Alberta last year, and the population is now given at 796,607. This is a drop of 1362 from the 1941 total of 796,169.

According to the 1946 census the population of cities increased while that of rural areas declined. City populations are given as follows: Edmonton 109,997, Calgary 98,101; Lethbridge 16,206; Medicine Hat 12,680.

OBITUARY

STEPHEN CHARLES SNELGROVE

Funeral services were held at St. Saviour's Anglican church on Thursday March 27th for Stephen Charles Snelgrove, aged 67 years. The Ven. W. Leversedge D.D. officiated.

Born in Wiltshire, England, Mr. Snelgrove came to Canada in 1904. He first settled at Wetaskiwin, later coming to Vermilion district where he homesteaded. In 1912 he married May G. Maggs, daughter of the late Mr. and Mrs. G. J. Maggs.

Mr Snelgrove leaves to mourn their loss, his widow and ten children, as well as ten grandchildren. Four sons, Thomas at Fort St. John, Edward, Robert and Maurice at home; and six daughters, Mrs. Ward McDonald of Vermilion, Mrs. W. Dixon, Clandonald, Mrs Merton Rice, Wisconsin, U.S.A. Evelyn of Vancouver, Mrs. R. Henry, Vancouver, Ellen at home. There are two brothers and one sister living in England.

The pall-bearers were Messrs. Ted Clark, Tom Watts, W. F Pilkie, Albert West, Wilmer Hogeboam, Homer Campbell

Interment was made in the family plot in the Vermilion cemetery. Mayer Bros. were in charge of arrangements.

Beautiful floral tributes, as well as many messages of sympathy, testifying to the esteem in which the deceased was held were received from the following

The Family, Tom, Freda, and the Boys; Bill, Donald and Anthony; Grandma Rice; Dr. and Mrs. Rice; Merton and Rosie; Joe and Ann; Edith; Sam and Vinie; Nell and family; Kate and Leonard; Bill and Annie, Kinsella; George and Vi; Frank and Pidge; Uncle Will and family; Mr. and Mrs. Henry, Bob and Bill; Frank and Beatrice; Iris; Margaret, Dorothy, Vera, George and Bill; Ort and Jessie Strome; Students, V.S.A.; The Girls, Clandonald high school; Clarence Lysons; Pauline Dixon; Lill, Stoney and the Boys; Bill and Mrs. Selwood; Mr and Mrs. Elmore Stewart; Mr. and Mrs. A. M. West; Mr. and Mrs. T. Smith; Conboy Family; Mr. and Mrs. Geo. Caron; Mr. and Mrs Russell Carroll; Happy Hour Group; Mr. and Mrs. Tom Sander; Mr. and Mrs. Wilbur Curry; Mr. and Mrs. Wilmer Hogeboam; Mr. and Mrs. Louis Baldock; Mr. and Mrs. S. S. Walker; Mr. and Mrs. Schoomaker, Jack and Marg; The Monahan Family; Clyde and Mabel; Mr. and Mrs. L. R. Hicks; Vermilion Fire Department; Mr. and Mrs. Ray Morton; Peter J. Koster.

Auction Sale Estate Of John T. Kennedy

An auction sale for the estate of the late John T. Kennedy will be held on the W½-24-47-7, approximately 20 miles south of Vermilion, on Tuesday April 15th. The listing includes full line of farm machinery, household effects and some livestock. Casterton and Braithwaite are the auctioneers 47-8c

Manitoba Farmer Crowned Malting Barley King, 1947

CARLOAD OF BARLEY NETS WINNER [illegible]

His tuition from a father who knows how to farm and experience as a youth when member of a Boys' and Girls' seed club, paid off big for George G. Elias, 33-year-old farmer of Haskett, Manitoba.

On April 1st at the Manitoba Winter Fair at Brandon he was crowned Canada's Malting Barley King and federal minister of agriculture J. G. Gardiner presented him with a $1,000 cheque as first prize in the National Barley contest sponsored by the Brewing and Malting Industries

Two Manitoba farmers, one from Alberta and one from Saskatchewan placed in the four final interprovincial awards. The winners were:

George G. Elias, Haskett, Man., $1,000; George W. Johnson, Red Deer, Alta.; $600, Donald Bradley, Portage la Prairie, Man., $300; John A. Wylie, Norquay, Sask., $200.

The four winners were picked from 12 finalists, four from each province each of whom won provincial prizes. Three of them placed first in the regions into which their province was divided for purposes of the contest. Mr Bradley, third in the finals, was runner-up to Mr Elias in his region

The champion's carload entry was picked by the judges as the plumpest, best-colored sample of malting barley in the contest. Except for a small lot reserved for exhibition purposes at the Brandon Fair the whole carload is on its way to Albania sold through UNRRA and shipped from Winkler, Feb. 22nd

The single carload has netted Mr Elias $4,000 — $2,000 received from its sale, $1,000 for having won the national championship, $400 for the Manitoba championship, and $150 for his regional championship.

Ice Cream Cones Back

With the lifting of restrictions on dairy products, ice cream cones, long considered a war casualty, made a sudden re-appearance, much to the joy of the children. The 5c piece by itself is once again of some use, it buys an ice cream cone, the youngsters favorite confection, and one of which their parents approve.

Spring Must be Here Despite the Weather

Signs of spring are so numerous that the season must be here although the weather hasn't done much about it all week. Robins, ducks and crows all are back each having been reported several times. Gophers are of course out and about, as frisky as ever and the odd chipmunk is also seen scampering around

All City Conveniences on Davis Farm

Mr. and Mrs. Cyril Davis have installed an automatic water pressure system in their farm home north of town. It was purchased through F.O. Leversedge, the local agent. This now gives the Davis family the convenience of hot and cold running water, along with electric power and lighting

Wins Silver Platter At Curlers' Dance

Miss Bunny Proudfoot of Mannville won the door prize of a silver platter at the Curlers' dance Tuesday evening of last week. The dance was a very enjoyable one, a fine time was had and the curlers made some money as well. Bunny's ticket was bought by her father Fred Proudfoot who purchased several extra tickets just to help along the cause of good curling.

At the farewell party at Clandonald in honor of Mr. and Mrs. Walter Peters prior to their departure for Athabasca, a well filled purse was presented to them in addition to the chest of silver and personal gifts. Mention of the purse was unintentionally omitted in the card of thanks.

CHILDREN'S HANDS . . .

Chapped, cut hands, with deep fissures and cracks, can cause much distress to active children. Health authorities remind parents that care should be taken to have children dry their hands thoroughly if and when they get them wet. The youngsters' hands should be examined thoroughly and if necessary, a hand lotion or a few drops of olive oil should be rubbed on them. Cracked hands can lead to infection.

Spending Strength

Expenditure of energy, which you may not have to spare, is even more foolhardy than letting money burn a hole in your pocket, say the doctors.

OUR COMPLETE SHORT STORY—

THE IRASCIBLE DARLING

By [illegible]

GENERALLY Paul Brown was pictured as an irascible man with the customary vile temper. The graying hair to match his age and furrowed brows cutting deeply into his forehead gave him a forbidding appearance. It was known at times his anger would move him to such rage that he virtually quivered. Now the picture was altogether different and he sat back in a comfortable chair and let his age creep over his body in a nice relaxed position.

A smile lit up Paul Brown's face and he chuckled silently in the dark of his living room.

On the veranda, sitting on the swing, his daughter Hilda turned toward her fiance and said, "He is an irascible darling," and Paul Brown knew they were talking about him.

He didn't mean to eavesdrop but sometimes eavesdropping did one some good. Paul Brown had been so intent on gathering up the loose ends of his father's business that he had gone on and made a fortune out of a near bankrupt estate. That was a pretty hard thing to do but he had done it by applying himself diligently and never forgetting once that he had to make a comfortable life for his family. But then Martha, his wife, had died and he had withdrawn into himself. Only his daughter's plans for an elopement had roused him from his forgetting world and made him realize what an ogre he had been, especially about Hilda and her young man.

One week to the day he had been sitting here dreaming away when he heard Hilda making her plans with that young Jack Farnam.

"Who on earth would give me a job paying enough to give us a living like you've been accustomed to?" Jack had demanded indignantly, when Hilda had uttered her impatience at the delay in their plans.

"I could live just as comfortably on nothing if I could be with you, and that is all I really care for." Hilda had replied biting her lips to keep back the tears.

"No," Jack had answered firmly. "No I don't want to discuss this anymore, Hilda. Not until I have a decent job."

There had been words and Hilda had stormily left and gone up to her room. Jack Farnam had turned and walked down the steps, his hands in his pockets and his shoulders slouched down.

Paul Brown had been wakened from his dreams by these youthful outbursts. A nice young man, too. He could give him a job but after all young people ought to make their own way in this world and not have to rely on in-laws all the time for money and jobs. Why, he had gone out on his own and did right well. He guessed anyone could if he could.

Unfortunately the next night Paul Brown couldn't sleep and went downstairs to his favorite chair. He could hear the young folks on the porch again but Jack's voice had certainly changed, seemed a lot huskier. After a while he realized that it wasn't Jack on the porch with Hilda.

"I can't bear it at home," Hilda was saying. "I can't take it any longer. Take me away."

The hushed voices couldn't be heard but Paul Brown grasped quickly enough the intent of those words and crept closer to the window to hear plainly what those almost mute voices were planning. He heard all about an "elopement tonight."

His first impulse was to burst upon the young people on the porch and pound some sense into their heads but then that would be all wrong. There was only one thing he could do. That was to get Jack Farnam and put a stop to this nonsense his daughter was planning.

Warmly clothed he met Jack Farnam in the bushes in front of the house. "Hilda's going to elope," he gasped.

"I thought you said she was dying," Jack accused. "We're through, you know. If she wants to elope let her go ahead. It's none of my business."

"I thought you wanted to marry her."

"I do," Jack protested, "but I haven't a decent job. Mr. Brown, I know how you feel about relatives in your business and all that, but I am not a relative and I know just what you need in your engineering department. Your production methods are old-fashioned now and if you would put in a conveyor belt on the style I've designed you would be making more money than you would know what to do with. It would pay for itself in a short time."

"This is a fine time to be talking about a job when my daughter is about to run away!" Mr. Brown sneezed. "Blasted hayfever!" He was seized with a violent fit of sneezing.

Jack Farnam shook the old man. "There's Hilda on the porch with a bag," he whispered. "There's a man coming up the road, and there are the headlights of his car down where he's coming from."

"Get him!" and Paul Brown collapsed in a fit of sneezes. The shouts and the commotion frightened Hilda and she ran back into the house. The fellow turned and ran back to his car and drove away.

"He's gone," Jack told the old man. "Come on."

"See the engineer tomorrow and he'll see what you've got to offer. This isn't a guarantee of anything." Still sneezing, he went into the house.

The next evening Jack Farnam called on Hilda and they had made their plans. Jack had gotten the job and the engineer was very pleased to have him in the department.

"Ahem!" Paul Brown got up and went onto the porch. "I could hear every word you were saying. Jack's a fine man, Hilda, fine man. That scoundrel you had here last night!" He started to turn livid. "Eloping one night and marrying another man the next."

"I'm glad Jack was there to help you. It got him a job and everything's fine now. We're going to be married in a very short while."

"But," her father persisted, "who was that fellow you were going to elope with."

"Oh, that," Hilda laughed until the tears ran. "That was Jack's older brother."

"Hmph!" Paul Brown turned into the house.

"He's such an irascible darling," Hilda told Jack.

PARKER HOUSE Rolls

Better Bake Plenty

Add 1 envelope Royal Fast Rising Dry Yeast and 1 tsp. sugar to 1 c. lukewarm water. Stir; let stand 10 min. Scald 1 c. milk, add 5 tbs. sugar; add 2 tsp. salt, cool to lukewarm. Add to yeast mixture. Add 3 c. sifted flour, beat until perfectly smooth. Add 4 tbs. melted shortening and 3 c. more sifted flour, or enough to make easily handled dough. Knead well. Place in greased bowl. Cover; let rise in warm place until doubled in bulk, about 1½ hours. Punch dough down in bowl; let rise again in warm place until nearly doubled in bulk, about 40 min. When light, roll out ½" thick. Brush over lightly with melted shortening. Cut with 2" biscuit cutter, crease through center heavily with dull edge of knife, fold over in pocketbook shape. Place on well-greased shallow pans 1" apart. Cover; let rise until light, about 1 hour. Bake in 400°F. oven about 15 minutes.

This pattern, easy to use, simple to sew, is tested for fit. Includes complete illustrated instructions.

Pattern 4823 comes in sizes 12, 14, 16, 18, 20. Size 16 takes 3 yards 39-inch fabric.

Send twenty cents (20c) in coins (stamps cannot be accepted) for this pattern. Write plainly Size, Name, Address and Style Number and send orders to the Anne Adams Pattern Dept., Winnipeg Newspaper Union, 175 McDermot Ave. E., Winnipeg Man.

Where's A Will, There's A Way!

WINNIPEG. — Unwary visitors usually rub their eyes in amazement but nevertheless it's true—250 chickens on the farm of Sam Battaglia in suburban Winnipeg are wearing spectacles.

It isn't because of [illegible] sight either.

Their owner found he was losing about one chicken a day because the minute a blood speck appeared on one the others would peck it to death. But with red glasses made by a poultry firm, everything looks red to the pugnacious white Leghorns and after pecking at floors and walls of their houses, rocks and other materials they grew discouraged and gave up the practice.

One copy of every book printed in England must be presented to certain libraries free of charge

GARDEN NOTES

◆ ◆ ◆

New Soil

The amateur can take a leaf out of the farmer's book when it comes to handling new or raw land, such as will usually be found around the recently completed house. Where a farmer is breaking new soil he will first plow and cultivate and then often plant a widely spaced row or cultivated crop for the final clean-up. The gardener on new land can do the same, spading or having the new sod plowed under, then cultivating a few times. If sod refuses to rot, and tough sod will usually take some months, flowers and vegetable rows should have twice as much room as normal between to permit further and continuous cultivation. Sometimes, too, where the garden is large such widely spaced crops such as potatoes, tomatoes, corn, etc., are planted. Cultivation is continued right through to fall, by which time all turned-over sod should be thoroughly rotted and deeply rooted perennial weeds killed

Paths And Roadways

There are dozens of good materials for garden paths and roadways. Much will depend on what is available locally. Where there is not going to be too much traffic, grass paths between flower beds will be satisfactory. Across the lawn, or where many feet will pass, something more enduring like flag stone, brick, cinder or crushed gravel are advisable. For the sake of the man with the lawnmower it is desirable to have stones or other material as flush as possible with surrounding sod and gravel, cinders etc. should be fine and preferably pressed firmly together so that they won't scatter on nearby grass.

For roadways crushed gravel, concrete, rolled asphalt, bricks, cinders, flag stone embedded in concrete are all suitable. Where a loose material is used most gardeners keep weeds down by applications of commercial weed killers, waste oil or rock salt. These help to bind gravel, too, keep down dust and discourage frost.

Early, Medium And Late

Most Canadian vegetables divide themselves into three main planting groups. In the first are the hardy sorts. These are planted just as soon as the soil can be prepared regardless of the weather ahead. They will stand a little frost and to best results they must make their first growth while the weather is still cool and wet. In this class are peas, the first onions, carrots and beets, radish, spinach and lettuce. Experienced gardeners never don't stop with the seeding. They make a practice of sowing beets, radish, spinach, etc. at least three times about two weeks apart.

Next there are the semi-hardy things like potatoes, the first corn, beans and cabbage. These will stand cool weather but very little frost. At the end of the line are very tender plants that can stand no frost at all, such as melons, cucumbers, tomatoes, pumpkins.

Company Sets Record In Sales Volume

With a [illegible] off-setting [illegible] cost of [illegible] Limited reports [illegible] November 30, 1946, [illegible] before taxes of $1,3[illegible] per share. Tax requirements amounted to $775,000.00 or $1.76 per share resulting in a net addition to surplus of $581,979.47 or $1.32 per share.

Capital expenditures amounted to $276,802 [illegible] pleted [illegible] terest charges.

The Directors expect that with a continuation of the present activity in the building trades results for 1947 will compare favourably with 1946.

A dividend of [illegible] per share for 1947 has been declared payable [illegible] quarterly, the first payment being made on March 1, 194[illegible].

Alberta possesses some 50 per cent of the coal resources in Canada and 25 per cent of those of North and South America. 2718

Not Biggest Navy But Best-Manned

Britain no longer can hope to have the largest navy in the world but can have the best-equipped and is certain to have the best-manned, John Dugdale, financial secretary to the Admiralty, told the House of Commons.

Dugdale presented an estimate for an expenditure of £196,700,000 ($786,800,000) for 1947-48.

He disclosed that the British and Dominion navies had accounted for 4,600 mines during 1946, but had suffered no casualties

Using Pilotless Planes For Tests

LONDON. — Britain's ministry of civil aviation warned all airlines pilots against using the ocean area off the southwest corner of England for six months because of "faster-than-sound" pilotless plane tests.

A spokesman said the tests will be made in daylight when the pilotless planes will be visible to aircraft

Scientists hope the planes will reach a speed of more than 800 miles an hour. All tests will be carried out under the guidance of scientists, but the R.A.F. will co-operate in launching the pilotless planes from Mosquito aircraft.

It's not likely that you'll ever get the chance, but just the same it would require 19 centuries to spend one billion dollars at the rate of a dollar a minute

There's Plenty In This Baby's Name

TYLER, Texas. — The couple approached the Tyler city manager's office with caution. There had been a bad mistake they said in the birth certificate of their new baby.

A secretary dug up the document and reported the child was listed as "Kennard."

"That's wrong," said the father.

"What should it be?" asked the secretary.

And without batting an eye the father wrote—because he couldn't pronounce it— "Euothophis Tyiska".

The mother said she didn't know what it meant either but thought it was a fine name

Thirty-two Years Ago Today

Interesting Items Gleaned from the Files of the Vermilion Standard
32 YEARS AGO TODAY — 1915

March 31, 1915

On the evening of March 20th was held the function which marked the close of the second year of the Vermilion school of agriculture. It also dated the first graduation exercises of the institution. The members of class '15 were given their diplomas as a recognition of the successful completion of the second year's course. Following is a list of the first graduates: A. Viola Armstrong, Ellen F. Maggs, M. Isabel Morrison, T. L. Brown, Basil Hawley, T. H. Taylor, P. S. Cro, Hazel Viola Heuston, A. Rawle, Bert Whitbread, Stewart Arthur, N. F. Bell, A. G. Moore, J. D. McPherson, H. L. Lobb, A. P. Good, G. W. Fletcher, A. Barr, J. A. Sparrow, E. C. Sparrow, Frank Bird.

The 5th annual ball of the Vermilion fire brigade proved a gala event.

Sixteen Years Ago Today

April 2, 1931

Dr. W. H. Scott was elected president of the Vermilion Board of Trade and Jas. D. Adam was secretary.

E. M. Stewart was made president of the V.A.A.A. Bert Williams vice-president and Chas. W. Robinson secretary. A. E. Kaiser was the retiring president.

Closing exercises were held at the V.S.A.

Fire loss in Vermilion during 1930 was $15; the result of one chimney fire at H. A. Crosby's. Bert Williams was fire chief and Geo. Law secretary of the brigade.

Oil Production for January at Vermilion

SWEETGRASS No. 2 IS TOP PRODUCER FOR THE MONTH

Oil produced in the Vermilion field during the month of January totalled 12,084 barrels, a daily production of 422 barrels. The daily average for December was 400 and for January one year ago was 5?? barrels.

Production of individual wells was as follows:

Red Cross Role "Indispensable," Says Mackenzie

OTTAWA. — "I am particularly anxious that the public should be fully aware of the great contribution the Red Cross has made and is continuing to make to the welfare of those who served," Rt. Hon. Ian A. Mackenzie, Minister of Veterans Affairs, said in a statement recently.

"Eighteen months have elapsed since V-J Day and the Society is still doing magnificent and indispensable work for the men who are in hospitals as the result of their war service. However comprehensive a rehabilitation program may be — and certainly the scope of the Canadian program is exceedingly broad—there are always many things which cannot be effectively done except by volunteer agencies, among which the Red Cross plays a leading role."

Mr. Mackenzie mentioned the Red Cross Lodges adjacent to all large Department of Veterans Affairs hospitals in Canada, a summer convalescent hospital and residence clubs for disabled pensioners and told of the work of the Red Cross in furnishing instructions in arts and crafts, a shopping service, library facilities, transportation, an extensive service of cinema films and other entertainments and many other kinds of comforts.

"The Canadian Red Cross Society provides the friendly human services that say to Canada's sick and disabled veterans 'You have not been forgotten'," the Minister declared.

The national appeal of the Canadian Red Cross for peacetime funds is for a total of $5,000,000. Of this, $1,250,000 is sought for work among veterans.

NEW AUTO CARRIERS—A new Canadian Pacific automobile car designed for speedier handling of the new models now rolling off assembly lines was inspected recently at Place Viger freight yards by W. M. Neal, the chairman and president of the C.P.R., accompanied by W. P. Tully, general superintendent of the Quebec district (at right). Larger than the former cars of this type, with extra wide loading doors, 250 of these cars are being added to Canadian Pacific rolling stock this year with 500 cars already received. In the car can be seen the loading arrangement which places one auto above the other to make the best possible use of space.

The Northern Alberta Dairy Pool has completed a final payment to patrons of 1946. The pool's output in 1946 was [illegible] million pounds of butter and a million pounds of cheese, with a record turnover of $6 million.

TABLE TACTICS . . .

Harmony is an essential ingredient at mealtime according to the health experts. Nothing upsets the stomach and invites indigestion like excitement, bickering and discord at table. This is particularly true when there are children eating.

A further tip—Don't nag the youngsters to "Eat it—it's good for you." For example of the rest of the family obviously enjoying their food is much more effective and beneficial.

Many Brides May Be Left In Britain Owing To June 30 Deadline For Transportation

OTTAWA—The Order-in-Council providing transportation to the Dominion at Government expense for British brides and children of Canadian servicemen expires June 30 and will not be renewed, the Ottawa Journal was informed by a senior executive of the Immigration Branch of the Mines and Resources Department.

"The order automatically dies June 30 and that will be the end of it," said the department.

At the same time, the Veterans' Affairs Department estimated currently there were between 4,000 and 5,000 "family units" of Canadian servicemen still in Britain.

A "family unit", it was explained, might be a childless bride or a wife with one or several children; and on that basis it was difficult to estimate the total number of dependents of Canadians still abroad.

Of the 4,000 to 5,000 war brides in Britain, the department disclosed, "some" did not wish to come to Canada, and the husbands of "a few" were not anxious to have them brought to the Dominion.

In such cases—and they were not many—social service workers in Canada assisted by an agent of the Veterans' Affairs Department assigned to Britain, were trying to work out family adjustments.

Many British brides and their children, it was reported, have delayed their journey to their new homes in Canada because their husbands still lacked jobs good enough to support a family, or had been unable to find adequate housing accommodation.

It seemed almost certain, The Journal was informed, that many of the 4,000 to 5,000 brides and their children still in Britain would be unable to meet the June 30 deadline on the Government-paid passages to Canada.

So far, free transportation to Canada has been provided 21,846 brides and [illegible] children of Canadian servicemen.

From Britain came 39,412 brides and 15,802 children, from Holland, 1,477 brides and 226 children; from Belgium, 520 brides and 79 children; from France, 67 brides and five children, and from "other" countries [illegible] brides and [illegible] children.

CONTROL FIRES--SAVE THE BIRDS

Spring is here, at least we hope so. More snow means more sloughs and ponds and more birds nesting around them. Birds are pouring into their native land. Nesting starts in right after they arrive. Prairie Horned Larks will have going nests before the last of the snow disappears. Meadowlarks, Killdeers, Mallards, Pintails, Canada Geese—all ground nesting birds, will be incubating eggs before the first of May.

If you have any stubble or hayland burning to do, give a thought to the birds and get it done before April 15 —the sooner the better. If at all possible, do not delay burning beyond April 15.

Control the burning. See that it does not destroy good nesting cover or wood lots; or run wild into marsh lands. Birds require food and cover as well as water.

Birds take about one week to select and prepare the nest site. They lay an egg a day until the clutch is complete. Not until then do they start to set the eggs. At least three weeks' preparation has gone into the home site before incubation even starts. That is why burning should be done before April 15, or not at all. Interruption of the reproductive cycle in its early stages is not nearly so serious a matter as when the eggs have been laid and incubation begun. These birds eat thousands of insect pests. They head off destructive outbreaks. The farmer has no better friends.

So give the birds a break and do your burning—where necessary—before nesting starts.

Fire is a good servant—a terrible master.

Yours for more birds—fewer insect pests—better farm crops—happier communities. — B. W. Cartwright, Chief Naturalist, Ducks Unlimited.

New Prices Board Chairman

KENNETH W. TAYLOR

Recently appointed Senior Deputy Chairman, Mr. Taylor will assume the duties of Chairman of the Wartime Prices and Trade Board upon the resignation of Donald Gordon, April 15, 1947, it has been announced.

Mr. Taylor was born in Taiutang, Ki, China, on December 12, 1890, the son of Canadian missionary parents. He received his early education there and came to Canada at the age of 16. During the First World War he served overseas with the Canadian Field Artillery from 1917-1919. He spent some time in England after the war then returned to Canada and entered McMaster University, receiving his B.A. degree from there in 1921. In 1922, he qualified for his M.A. at the University of Chicago.

Beginning his career in 1925, Mr. Taylor was appointed a university lecturer of Political Economy at McMaster University. In 1926 he was named Assistant Professor and from 1926 to 1935 served as Associate Professor. In 1935 he was made Dean of Arts and Professor of Political Economy at McMaster. He held these positions until the summer of 1940 when he resigned to become Special Economic Advisor to the Department of Finance from where he is now on loan to the Wartime Prices and Trade Board.

Shortly after the outbreak of the Second Great War, Mr. Taylor obtained leave of absence from McMaster University to become Secretary of the newly-created Prices Board. He was one of the Board's first members joining it the first week of its inception in 1939. He was appointed Co-ordinator of the Foods Administration in February, 1943 and was elevated to his present post of Senior Deputy Chairman last October. Mr. Taylor was married in 1930, has three children and at present resides in Ottawa with his family.

FORMS NEW CABINET—Socialist premier of Belgium, Paul Henri Spaak, shown here, announced formation of a new coalition cabinet with the Catholic party in which he also is said to serve as minister of foreign affairs. The cabinet is composed entirely of Socialists and Catholic party members, the Liberals and Communists having refused to participate in a coalition government. Recently the left-wing coalition cabinet headed by Socialist Camille Huysmans, resigned in a dispute over its decision to boost coal prices. It included [illegible] Socialists, [illegible] Communists and three without party affiliation.

Urge All Nations Have Voice In Peace Drafting

MOSCOW—Secretary of State Marshall urged in the foreign ministers' council that all countries which declared war on Germany participate in the final peace settlement.

The Marshall recommendation was made as the ministers took up discussion of procedure for the German peace conference.

Foreign Minister Molotov urged that Albania and Iran be included among the members of the consultative and information conference which would assist in drafting a preliminary treaty. The question of participation of these two countries was referred to the ministers' deputies.

Marshall proposed that the foreign ministers conference with China, call a peace conference of all states which had been at war with Germany and that all have full and equal rights.

Marshall also urged that, after the peace conference, the foreign ministers draft a final treaty for Germany, considering as top priority all recommendations passed by a two-thirds vote of the conference. He asked that note be taken of all other recommendations passed by a majority vote.

The American secretary said he did not believe any German government should be saddled with the onus of signing a treaty and that the constitution to be adopted by the Germans should contain a clause which would commit the Germans to live up to the terms of the treaty.

This he said, would let the whole matter be passed on by the German people.

Foreign Minister Bidault of France supported the American view but Foreign Secretary Bevin of Britain said he doubted the legality of such a clause.

Molotov said he would have to consider the Marshall proposal.

Bevin also urged the participation of all powers which had been at war with Germany.

ANOTHER BOOST IN PRICE OF NEWSPRINT

TORONTO—An increase effective from April 1 of $6 a ton in the price of newsprint was announced by Abitibi Power and Paper Company Limited.

The company said it had already notified its customers in Canada and the United States of the increase which applies to standard weight newsprint paper and rolls. Present base price is $80 a ton.

Canadian International Paper Sales Company in Montreal also announced a similar increase. When the increases became effective they pushed prices of newsprint from the two companies to more than double the 1934 figure.

At that time newsprint sold for $40 a ton whereas the April 1 price in Montreal and Toronto regarded as the barometer for Canada will be $86.

Newsprint Shortage

VANCOUVER—Due to the newsprint shortage the Vancouver Daily Sun announced that it will not publish display advertisements on Mondays and Tuesdays.

HELIGOLAND IS TO BE DESTROYED

LONDON—Heligoland former island bastion of the German navy will be blown up by the Royal Navy and R.A.F. this month. Bomber squadrons will make a series of night "raids" on Heligoland after a naval officer electrically detonates 7,000 tons of high explosives April 16 to destroy the island's 150-foot deep tunnels, U-boat and gun emplacements.

2718

GERMANY TO HAVE PENICILLIN PLANT

BERLIN.—Construction of the finest and most up-to-date penicillin plant in continental Europe is scheduled to begin at once at an undisclosed site in the United States occupational zone of Germany under United States military government supervision.

The plant which is to be built and equipped entirely with materials and machinery taken from German industry will, when complete, have a monthly production capacity of 200,000,000,000 Oxford units.

That amount of penicillin will be able to provide for the entire population of both British and American zones, says T. A. Rude, chief of the chemical section of military government's economic branch who is in charge of the project. Enough penicillin will be left over for export to pay for all expenses connected with the building and running of the plant.

Predicts Shipping Trade This Year On Great Lakes To Be The Busiest In History

TORONTO — Navigation on Canada's great inland [illegible] waterways is about to open for a season which men in the shipping trade predict will be the busiest in the history of the Great Lakes.

Basis of this prediction is an anticipated heavy movement of grain from the prairie provinces, of iron ore from the Lake Superior ranges for the [illegible] of [illegible] the United States and pressing demands for all types of [illegible] vessels.

In the [illegible] where the big freighters and passenger boats wintered preliminary preparations [illegible] of the shipping [illegible].

[illegible] cities of Port Arthur and Fort William said [illegible] fully active [illegible] grain from the west.

A record shipment of 1,100,000 tons of steep rock iron ore—200,000 tons more than last year—is expected to be moved from Port Arthur. Lakehead railway shipping [illegible] there now is an accumulation of freight of all classes awaiting shipment east by boat. Movement of this freight was described as heavier than in war years.

The tug James Whalen has been busy for more than a week breaking ice in Port Arthur harbor.

RUSSIA READY TO GIVE UP DAIREN

WASHINGTON—Russia has notified the United States that she is ready to take "appropriate steps" to carry out an agreement to give China control of the Manchurian port of Dairen, the state department announced.

The Soviet notification was in response to a United States note to Moscow and Nanking expressing hope that the current unsatisfactory situation at Dairen could be settled soon.

The Russian reply was dated Feb. 27.

Dairen has been under Soviet military control since the Russians moved into Manchuria in the closing days of the war with Japan.

RECOVERY SEEN IN BRITISH INDUSTRY

EDMONTON — British industries made a "most encouraging" recovery in 1946, and despite setbacks of a severe winter there is no reason why they should not resume their recovery process when immediate difficulties are overcome. Herbert Tout, senior lecturer in economics at the University of Bristol, said in Edmonton.

To Stimulate House Building--Depreciation Rates Doubled

OTTAWA—In an effort to stimulate construction of rental housing the government announced that it will double the rates of depreciation for rental housing projects and their equipment built or acquired between March 31, 1947 and Dec. 31, 1949.

Reconstruction Minister Howe, tabling an enabling order-in-council in the commons, said the move recognized that "our supply of new rental housing is proportionately too low and there is a great need for this type of dwelling" and also the fact that "perhaps the principal reason for the reluctance of private owners to enter this field is their belief that present capitalized costs may be high in relation to stabilized rents."

Under the order a rental property owner will be entitled to deduct in his income tax return twice as much as he now can for depreciation of his property. Current rates for buildings vary between two and five per cent, depending on the type of structure. In the case of equipment the rates vary from five to 10 per cent.

On a $14,000 building considered apart from any equipment within, an owner could thus chop off as much as $1,400 a year from his income for tax purposes.

The double depreciation will continue for 10 years on projects consisting of four or more family dwelling units which meet Central Mortgage and Housing corporation specifications, which rent for less than $70 a month per unit, which give veterans preference and have an average of 1.75 bedrooms per unit.

Under questioning by Donald Fleming, P.C. Toronto-Eglinton, the minister said the order applied to single houses but if the owner was to occupy part of his house it must be a four-family house. In other words, it did not apply to a duplex where the owner was also a tenant. If the owner was not a tenant, it applied to a duplex or any unit.

PRELIMINARY SHOWING OF ONTARIO SPRING FLOODS—Water pouring [illegible] in Long Branch, Ont. and cutting behind houses to run into Etobicoke creek, [illegible] The water is subsiding slightly in what is reported to be a "preliminary flood to the real thing."

BRITAIN SUFFERS DISASTROUS FLOODS—Thousands [illegible] English floods and community kitchens were set up to feed the refugees. In Windsor, swamped by the swollen Thames, flood waters here filled High St. Women lined up knee deep [illegible] to get food. Life of city except Windsor castle, royal residence, remained dry. Floods passed peak of 1894.

HONG KONG WORRY FOR BRITAIN NOW

Large Population Creates Public Services Problem

LONDON—Hong Kong has created a top colonial problem for Britain because it is too popular.

When Canadians went to the crown colony in 1941 to assist in its defence some 1,500,000 persons lived there. The Japanese occupation lasted almost four years and fewer than 600,000 residents remained when the Allies returned.

Disturbed political conditions elsewhere in China made this British territory attractive to Chinese of means and there was no barrier to their entry. Poor Chinese heard of the equitable rice rationing, a stable currency and law and order. They too hastened to Hong Kong. Chinese entered at the rate of 100,000 a month, of all classes and all conditions. They arrived on foot, by train, steamer, small boats. Now the population is about [illegible]

[illegible] Hong Kong has posed a problem. The administration there suffered severe strain because of the influx of Chinese.

[illegible] Public services of [illegible] through income tax [illegible] maintaining public services.

HOUSEWIVES' COLLEGE

ABINGDON, Berkshire — A house and 100-acre estate has been purchased by the National Federation of Women's Institutes as a college for country housewives.

Juneau, the capital of Alaska, only had 53 days of zero weather in 33 years, although Alaska usually is thought of as being a cold country.

OBITUARY

CHARLES CLIFTON SMITH

The following obituary is taken from the Victoria Daily Colonist —

"There passed away suddenly in this city on March 17, 1947, Charles Clifton Smith, aged 59 years, born in the U.S.A. and had resided in Victoria for the past two years. He formerly resided in Vegreville and Vermilion, Alberta. The late Mr Smith is survived by one brother, Ollie, in Paterson, New Jersey and one sister in New Jersey.

The remains will be forwarded on Saturday's midnight boat to Vancouver en route to Nevis, Minnesota, where services will be held and interment made. McCall Bros. in charge of arrangements."

According to additional information the deceased had retired to his room at the Fairfield hotel shortly after midnight Saturday. He had spent the evening in the sitting room of the hotel, talking and playing cards. On Sunday morning there was a telephone call for Mr. Smith and the clerk going to deliver the message, could not get an answer to his knocks. He became alarmed, reported the case at the desk and they opened the door of the room to find Charlie's body lying across his bed. He had apparently collapsed as soon as reaching his room, as he was still fully dressed.

HOCKEY PLAYER LEAVES

Hank Reiger, speedy forward of the Tigers hockey club for the past season, and who has been employed at the Provincial farm, left Friday morning last for his home at Delia, Alta., where he will take over the operation of his father's farm.

Letters to the Editor

This paper does not hold itself responsible for opinions expressed by Correspondents.

Vermilion Alberta, March 26, 1947.
Editor, Vermilion Standard.
Dear Sir:

We can now see what is going to happen to our good gravelled streets, when we get through with the sewer and water installations. I asked the foreman last year what he intended to do with the mountains of clay they dug up. "Uh," he said. "We are going to raise your streets," just like that. I would like to see the council stop them from using the five foot digger which brings up so much more clay than necessary and ruins the streets; and see them use the other new machine which only digs up two feet. We would be foolish to let them dig up five feet when only two feet is necessary.

I take this means of bringing the matter to the attention of the council.

Letters to the Editor

(This paper does not hold itself responsible for opinions expressed by correspondents.)

Vermilion, Alta., March 31, 1947.
Mr Editor, Vermilion Standard
Dear Sir:

I wish to correct a statement made in your paper two weeks ago in which reference was made that the school board minutes book was presumed lost in the fire prior to 1915. This is not correct. The minute book in question contained the record from 1911 to 1918, it was the written variety in a bound black covered book and was in my custody in 1940.

The writer did his best to find the school records from inception (1906 to 1910) but was unable to locate same.

Yours truly,
H. P. Long.

Results that Pay You More Dividends but Cost You Less Money !

MADE BY
VERMILION FEED MILL
Gordon Ross, Prop.

Vermilion Feed Mill Closed Mon., April 7

Note should be taken that the Vermilion Feed mill will be closed on Monday April 7th as the proprietor Mr. Gordon Ross will be in Edmonton that day regarding some additional equipment for the mill.

10 DAY EASTER VACATION

Schools close this Thursday evening for the ten-day Easter vacation, re-opening on Monday April 14th.

ISLAY

Keep in mind April 7th, the variety concert and dance in the Islay hall. Mystery? Who is the mannequin in the bathing suit? What is it that Betty Parser and Leone Kearns are arranging? Well—come and see!

Roy L. Stone has returned after a three-months' sojourn. During that time he travelled as far as New York and visited many points in Ontario. He called on Archie McMillan who was one time in business here. Archie now lives in Islay, Ontario.

Mrs. Harry Young and Mrs. Fred Steinhauer have gone to Victoria to attend the wedding of Lyle Barnes. Mrs. W. L. Roebuck is acting substitute at the Trimbleville school for Mrs. Steinhauer.

Funniest thing seen last week — Tommy Macdonnell carrying his wife from the grocery store across the street home. Almost more than he could manage too, for he could scarcely lift his feet in the thick gravel. His path looked as if someone had been along with a shovel and scooped the gravel aside.

Well today is April 1st and Mrs. Macdonnell had the laugh on Tommy. Seems he had been looking for a shipment of chocolate bars etc. for his cafe. Today the drayman Mr McNeely delivered a box which looked just like his confection. Some one had played an April fool trick. It was a fine collection of rocks. We don't think Tommy will serve them to you in the cafe however.

Mr. Alex Linton took a carload of fine horses to Montreal. All were sorrel in color. Mr Linton will visit his father there.

On Easter Sunday at 3 p.m. there will be a special service combined with the Sunday school. Communion service follows the regular service.

Mrs Hazel Dahl of Ribstone is visiting her parents Mr and Mrs. Dave Buchanan.

The Amateur hour was greatly enjoyed and a large attendance encouraged the sponsors. Mr Roy and Janet Bell took the honor for recitations, Harold Roebuck and the Carey sisters the piano prizes. In vocal solo class Flora Edgate of Vermilion was first and [illegible] second. In the group [illegible] Marion Roebuck and Beryl Roebuck of Vermilion first singing a duet [illegible] a group of Islay girls took second. The Junior Red Cross wish to thank the people for coming. A [illegible] was obtained for Red Cross work.

Wildmere Winks

Mrs Smith and Mrs C. C[illegible] arrived home on Thursday after visiting for ten days with relatives and friends at Edmonton and Bon Accord. They report Norman doing well in his store at Bon Accord and he will take over the Post Office on May 1st. They brought back good wishes to everyone from Mr and Mrs Howard who still think of their many friends here. Mrs. Smith said all the snow was gone in that part of the country. It was not until nearing Vegreville that they saw snow on their homeward journey.

Several folks around have purchased tractors to work with this spring. We understand Ray Oeberg is the owner of a new John Deere and J. Dathe has a Massey Harris. Noel Garnett bought himself one at Mr Little's sale. Cliff Cruthers bought a new Massey Harris last fall. When spring opens up all you'll see and hear in Wildmere and Rosswood will be clouds of dust and tractors [illegible].

Crows are back in full force. [illegible] the Cruthers children saw several ducks on Sunday. The writer has a flock of baby chicks so spring must be here.

Albert Smith of Rosswood was in our district on Monday with a petition asking that a road be graded west past Rosswood school to Brookville school for a winter road to town. We hope the council will give it consideration.

Don't forget the A.P.T. whist drive on Friday April 11th at our school.

Lloyd Howard spent Monday evening at the Wallington home on his way home from town.

On Friday March 28th most of the farmers in this locality travelled to Brookville school to meet the F.P.A. official who was there for the day.

We extend our sympathy to Mr and Mrs Chas [illegible] of Rosswood on the loss of [illegible] was still-born.

Congrats to Mr and Mrs Harry Sweeney of Thorncliffe on the birth of a son a short time ago.

The writer had [illegible] Mr and Mrs [illegible] they landed [illegible] report [illegible]

Several folks [illegible] in our part with stomach flu. This malady surely hits hard and sudden when it comes.

The writer is busy these days with housecleaning so have not the time to do justice to these news items.

Wildmere W. I. meeting will be held on Wednesday April [illegible] of Mrs [illegible] Roll [illegible] Topic [illegible]

We understand [illegible] bought our Mr Webber [illegible] Tolland [illegible] here [illegible] duty while they had [illegible] We wish Art the very best [illegible] the same success in [illegible] To Mr Webber [illegible] best wishes [illegible] their [illegible] ble.

What Is Happening In Other Towns

GLEANINGS from EXCHANGES

HIGH SCHOOL BY-LAW ENDORSED AT GRANDE PRAIRIE

At Grande Prairie a by-law to build a new composite high school at a cost of $180,000 was endorsed by a vote of 706 to 67. In this connection a really fine issue of the Grande Prairie high school paper "Hi-Lites" was published by the students to help influence the vote in favor of the new school. The students organized into groups and distributed the paper on the streets and to the houses, seeing that every voter within reach received a copy.

■

FLOODED STREETS AT WAINWRIGHT

According to pictures in the Wainwright Star of last week, our southern neighbors had quite a time during the height of the recent break-up. The pictures show regular lakes over residential and business sections of the streets, something Vermilion was quite free of this spring.

■

FROST DOWN 8½ FEET AT LLOYDMINSTER

At Lloydminster two breaks in the water mains were traced to frost found at a depth of 8½ feet.

■

TO RELIEVE COUNCILLORS

Lloydminster is advertising for a man to competently care for, supervise and manage all public services, utilities, property and works improvements, roads, streets and public places used or controlled by the town. In addition such official must have sound business experience and a good knowledge of municipal affairs and finance.

■

CURLERS LACK QUORUM AT VEGREVILLE

At Vegreville only five curlers attended the annual meeting called by President Charlie Brinton. Apparently curling meetings called in the spring never were very successful in the western town.

■

CAMROSE NEWSPAPER HAS NEW OWNER

At Camrose the weekly newspaper, "The Camrose Canadian", has been purchased by Mr R. L. King, father of Vermilion's Dr. A. Ben King. Mr King formerly owned and edited the Claresholm paper. He sold out and retired for a while, became rested up and is again in the thick of the publishing business at the helm of one of the largest weeklies in Alberta.

MAGIC

MAGIC'S
ORANGE MARMALADE BISCUITS

2 cups sifted flour
½ tsps. salt
6 tbsps. shortening
4 tsps. Magic Baking Powder
1 egg
½ cup milk
½ cup orange marmalade

Sift dry ingredients together. Cut in shortening until mixed. Beat egg slightly in measuring cup, add milk and marmalade to make ¾ cup and add to first mixture. Roll out about ½ inch thick; cut with floured biscuit cutter. Top each with a little marmalade, bake in hot oven, 425° F. about 15 minutes. Makes 16.

Dinner Pails For Food Distribution

Five Thousand Sent To England By The Red Cross

Receipt of a shipment of 5,000 aluminum dinner pails from the Canadian Red Cross Society is acknowledged by Lady Reading, chairman of the British Women's Voluntary Services in a letter received by Col. Arthur L. Bishop, chairman of the national executive committee.

Sending of the shipment was a special undertaking of the Canadian Red Cross in view of the scarcity of containers for the distribution of food.

"The extraordinarily cold weather and almost complete lack of fuel is making life very hard, particularly for the old and the sick who are quite unable to get about," Lady Reading wrote. "It has been necessary for us to extend our meals on wheels service to many thousands of extra people and it would have been quite impossible for us to do this had your wonderful containers not arrived in time."

Says "Canada Has Slumped Morally"

TORONTO — Warning that "Canada has slumped morally" was given at the annual meeting of the Board of Evangelism and Social Service of the United Church of Canada by Rev. Dr. J. R. Mutchmor, Secretary of the Board.

"The decline in our moral behavior has not reached its lowest point, but its rate of decline is being checked by the churches," Dr. Mutchmor said.

He expressed the view that "Canada has gone too far in her financial policy of non-contributory social security undertakings, that early events will prove that financing almost exclusively from consolidated revenue will be inadequate because of taxpayers' resentments, and that the course of wisdom now is an extension of the contributory type of social security. We should follow the British contributory rather than the Russian non-contributory method in support of social security measures."

NOT ALWAYS A SIGN

If you see insects or other animals eating a certain mushroom, it's no sign that the fungus is not poisonous. Some insects thrive on mushrooms deadly poisonous to humans. 2716

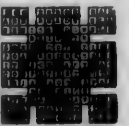
Answer To Last Week's Puzzle



Health LEAGUE of CANADA presents TOPICS of VITAL INTEREST

The nutritional values contained in whole grain cereals and whole wheat bread are vital to health, it is emphasized by Miss Margaret E. Smith, Director of the Health League of Canada's Nutrition Division.

These whole wheat products, she says, contain liberal quantities of energy-producing starches, most of the important "B" vitamins, some necessary minerals, and a fair amount of protein to supplement that obtained from animal products.

Miss Smith points out that most of the minerals and vitamins are present in the bran layer and germ of the grain kernel. She says that in the milling of ordinary white flour and processed and white cereals, the bran and the germ are removed.

She advises use of liberal quantities of rolled oats, oatmeal, rolled and cracked wheat, wheat germ, shredded wheat, graham and whole wheat bread, also rye and barley bread and brown rice.

TERRIER DID NOT LACK FOR FRIENDS

Five hundred persons telephoned police and the city dog catcher, in Kingston, Ont., and as a result a black and white terrier had a reprieve from a death sentence.

The terrier was facing death in the gas chamber of the city pound because no one had claimed him. The dog's picture was published in the newspaper. The telephone calls followed 300 to the dog catcher, and 200 to the police. All those calling offered to pay the $2 pound fee to save the dog. Later the dog's owner claimed him, paid the pound fee and took him home.

The custom of serving cranberry sauce originated in New England.

LADY BACK IN ZOO — Mr. and Mrs. Ross Baker turned "Lady Civic" over to Toronto's Riverdale zoo after "babying" her for seven months. The 27-pound leopard was abandoned at birth by her mother and Mrs. Baker, seen with "Lady", agreed to take over. Lady lived in their home for five months, but when a meat diet was prescribed the Bakers decided she might be a little too rough and back to the zoo she went.

Predicts Building Boom For 1947

HAMILTON — This year "promises to be the biggest building year that Canada has ever experienced," Reconstruction Minister Howe told the Hamilton Junior Chamber of Commerce.

The federal government has to date met its minimum housing objectives and he was hopeful that it will do so in 1947 (60,000 homes) and in 1948 (100,000 homes). He said the government was making every effort to encourage expansion in industries producing building materials and was keeping its expenditures for public works to the absolute minimum in order not to take labor or materials away from building projects.

To Feel Right — Eat Right!

PROVES SIMPLICITY OF BASIC ENGLISH

Basic English may be simpler but there's more of it.

The British Government has paid C. K. Ogden of Cambridge University £23,000 ($92,000) for his Basic English copyrights and intends to develop this simplified language as "an auxiliary and administrative language."

The Government White Paper on Basic English gives this example, the first clause of the Atlantic Charter:

In ordinary English: "First, their countries seek no aggrandizement, territorial or other." In Basic English: "Their countries have no desire to make themselves stronger by taking more land or increasing their power in any way."

It required eight lines of ordinary English to explain that some colonial governments will issue handbooks in basic English. Written in Basic English, 10 lines were needed.

Winston Churchill as wartime Prime Minister presented proposals for basic English to the Commons in March, 1944, and he has seen the present Government carry forward the project.

RULING ON SPECIAL DELIVERY LETTERS

Special delivery letters may now be sent from Canada to the United Kingdom.

A letter must bear 10 cents extra postage, in addition to the surface or air mail rate applicable. Also special delivery letters mailed to the United Kingdom will be delivered in Canada.

For Farmers of Canada's Barley-Growing Areas

WESTERN CANADA DIVISION
Open to all farmers in the malting barley areas of Manitoba, Saskatchewan, Alberta and the Peace River block in British Columbia.
TOTAL CASH PRIZES - $18,750.00
Plus 120 awards of 10-Bus. Reg'd Seed (sensational new Montcalm Barley)
FIRST PRIZE - $1,000.00
Second Prize - $500.00
3rd Prize - $300 4th Prize - $200
Above Are Interprovincial Prizes
ADDITIONAL CASH AWARDS:
12 Provincial Prizes 120 Regional Prizes
AND
120 10-Bu. Seed Awards
Eastern Canadian Division - $6,250.00 Total Prizes

CANADA NEEDS MORE IMPROVED BARLEY
By encouraging the growing of improved quality seed and malting barley the brewing and malting industries of Canada through this contest are contributing to the meeting of Canada's domestic needs and assuring successful re-entry of the Dominion in world barley markets. Because Malting Barley is used in a wide range of products for home, farm, industry—in foods, drugs and general articles—it is playing an ever-increasing part in the industrial and economic life of Canada.

1946 COMPETITORS PLEASE NOTE:
Full list of 1946 National Barley Contest winners will be published following the awarding of inter-provincial prizes at Manitoba Winter Fair, Brandon, Manitoba, Mar. 31st.

NATIONAL BARLEY CONTEST COMMITTEE

GET FULL DETAILS & ENTRY FORMS from your AGRICULTURAL REPRESENTATIVE or ELEVATOR OPERATOR

In The Legislature

by W. R. Cornish, M.L.A.

The past week witnessed the passing of the Estimates in the Budget, also the further reading of many Bills.

One Bill before the House provides that nurses with a Grade XI school standing may become members of the Registered Nurses' Association.

Another Bill provides that all adoptions of children must be done through the Child Welfare Commission. It also provides for closer inspection of the homes where adopted children are placed.

An amendment to the Public Services Vehicles Act provides that the Highway Traffic Board may grant a PSV license without holding a public hearing to consider the necessity of such a license being issued. They will still continue to hold sittings where it is deemed necessary to get more information regarding the necessity of a new license being issued.

During the war years, the Dominion Government charged a three cent tax on all gasoline, whether used for commercial or for agricultural purposes. This amounted to $4,000,000 in Alberta last year. On April 1st, 1947, the Dominion Government is going to vacate this tax field. When the Dominion Government does so, the Provincial Government will keep in force two cents of the present three cent tax on gasoline, except agriculture gasoline. All of the Federal tax on agricultural gasoline will be dropped. This will give the province the lowest provincial gasoline tax of any province in Canada. The Provincial Government's tax is expected to bring in a revenue of $1,300,000. (It will not affect agricultural gasoline.)

A change in the Vehicles and Highway Traffic act provides that in the case of two vehicles approaching or entering an intersection at approximately the same time, the vehicle on the left shall yield the right-of-way to the vehicle on the right. Another change deals with the case of the driver of a vehicle approaching an intersection, and provides that he shall yield the right of way to a vehicle in the intersection who is turning to the left across the line of travel of such a driver, if the driver of the vehicle turning left has given a plainly visible signal of his intention.

Another bill provides for the free hospitalization of old age pensioners, blind pensioners, and recipients of mothers' allowance, and the dependents of these people.

A change in the Alberta Hail Insurance act provides that an insured crop will be covered against hail loss while it is in the stook or swath.

The annual debt service charge of the Alberta Government after 1947 will be 14% of our Provincial revenue. This is, of course, based on present revenues. When the present Government took office in 1935, the Province's annual debt service charge, for interest only, was 51% of the provincial revenue.

The World of Wheat

AN INTERNATIONAL WHEAT AGREEMENT

By H. G. L. STRANGE
Director, Research Department
Searle Grain Company, Ltd.

In 1933, it will be remembered, a number of exporting and importing countries signed an international wheat agreement. This agreement, however, had a sad fate. It broke down within a year. Argentina exceeded her quotas and deliveries, but she blamed other countries for not having previously lived up to the terms of the agreement. Many will be astonished to hear that the same agreement is up again for consideration. Delegates of a number of countries will meet in London March 18th to debate it. It is similar to the 1933 agreement but has some additional clauses. The proposals to be debated are for a minimum price of $1.25 and a maximum of $1.66 to last for four or five years. It is expected that each government will control production, which means controlled acreage, so that a certain "safety level" only is maintained each year.

We already have complete national control in Canada's Bill No. 22. This new International Agreement, if it should be signed and approved by a number of governments concerned, will give not only national control but international control over Canada's great wheat industry, including of course our own producers. If the International Agreement is signed there would be little liberty of action left to our prairie farmers.

SPRING FEVER

Nature's own remedy is recommended by the medical profession for Spring Fever. The tonic is compounded of lots of vegetables, fruits, plenty of water and milk, adequate sleep and as much fresh air as one can get. This, say authorities, is much to be preferred to the old fashioned spring tonic of sulphur and molasses.

Wins Coveted Award

THOMAS A. SHANDRO

Most coveted award in Canadian radio, the Beaver Award, has come to Edmonton for the first time. Thomas A. Shandro, Director of Public Relations at CJCA was declared winner of the Beaver in the field of Radio Public Relations.

The highly coveted award is given annually to Canadian radio stations, their departments or personnel, for outstanding contributions to Canadian radio during the year. Several awards are given annually, each to a different branch of radio operation.

Mr. Shandro's award citation reads, "For distinguished service to Canadian radio in 1946 for promoting listener relations."

This marks the third time in the past three years that a radio award of national magnitude has come to CJCA, but the first time that the Beaver has come to Edmonton. Other two awards were won in 1943 and 1945, the former a Variety Showmanagement award and the latter a Billboard program promotion award.

Among the Beaver winners of former years were Foster Hewitt, John Fisher, Howard Cable, Claire Wallace, Sam Ross, Stan Francis.

DANCING every Saturday night at the Elks hall only 25c. 43tf

Don Graham
Comments on EVERYBODY'S BUSINESS

I never stop wondering at the remarkable economy and efficiency set up by the co-operation of millions of individuals in life insurance.

Government figures on the Canadian companies show that 76c of every dollar received by these life insurance companies came from policyholders' premiums, 23c from investments and 1c from sundry sources.

● But the amazing thing to me is that for every dollar received by the companies 81c was paid to or held for policyholders, 2c went to governments for taxes, 14c covered all operating expenses and 3c went to shareholders. No wonder that people in other countries buy Canadian life insurance because it is so well managed!

Life insurance is a business built for everybody, a great enterprise which protects the future of more than four million policyholders and their loved ones. Life insurance offers a systematic and easy way to save. Consult an authorized agent about a plan best suited to your requirements.

C-I-L PAINTS

Any painter will tell you that good paint is the cheapest paint. Good paint covers better, keeps its fresh beauty longer — and costs no more to apply than inferior paint.

Yes, it pays to use C-I-L PAINTS. You can depend upon them for the long and colourful life, the sturdy resistance to wear and weather, which mean true paint economy. Before you paint whether a chair or a house.

The Cost Of Living

WARS ARE ALWAYS ACCOMPANIED by economic disturbances which result from the inevitable disorganization of production at such times. During the recent war more was known of the economic hazards than had ever been known before and some countries endeavored by careful [illegible] to lessen these hazards. Canadians are all familiar with the price and wage controls which were put into effect during the war and they are also familiar with the fact that Canadian [illegible] controls were regarded as the most effective of those devised for any country. In spite of these controls however the cost of living has increased since 1939. Recent figures issued by the International Labor Office showed that since 1937 prices in Canada have risen by 36 per cent. This figure applies to the general price level; the increase in the price of food was given as 42 per cent.

* * * * *

Sharp Increases Felt Elsewhere

While these increases are not insignificant and have been felt sharply by many consumers it has been generally realized that we have been more fortunate here than people in many other parts of the world. This fact is borne out by the International Labor Office report which gave the percentage by which prices had risen in other countries. In the United States the report shows the price level has risen since 1937 by 45 per cent and the advance in food prices there is given as 79 per cent. In Japan food prices are now sixty four times what they were in 1937, while in France they are nine times what they were before the war. In Italy food costs fifteen times as much as it did in the pre-war years while in the Netherlands the increase is given as 101 per cent.

* * * * *

Canadians Have Been Fortunate

Within the British Empire we learn that in Australia prices have gone up by 47 per cent, while in South Africa they have increased 49 per cent. In Britain general price levels advanced 32 per cent, food going up 51 per cent. These figures show that in spite of the rise in prices here Canadians have been among the most fortunate people in the world in this respect. Price increases are due largely to the fact that sufficient goods are not being produced to meet the consumers' demands. It is expected that in this country these two factors will soon be balanced and when they are prices will tend to return to normal levels. If prices do not rise unduly before that time Canadians may [illegible] they have done well, indeed, to come through a most trying period, during which there was a constant danger of economic [illegible] of difficulty.

Home Enlivened By Singing Mouse

SOUTH LANCASTER, Mass. — Mrs. [illegible] a singing mouse that sits on a kitchen fixture and trills merrily, that eats peanut butter from a knife and even poses for pictures.

She doesn't know just how to account for it but says the animal started its singing career last fall after she found it in a box of popcorn. The mouse has been around ever since and usually comes out at night to do its singing.

His favorite place is on the table.

Famous Inventor Not Always Right

Thomas Alva Edison wasn't right all the time.

A pencilled memorandum debunking the theory that the atom contained internal energy, written by the inventor, was sold at Philadelphia for $230 in the public auction of valuable letters and signatures collected by Frederick Stanhope Peck.

Edison, discoverer of the electric light, wrote in answer to the question: "Will it be possible to harness [illegible] in the atom?"

"As to the atom I do not believe it has any internal energy as claimed. Everybody else believes it has."

GEMS OF THOUGHT

CUSTOM

Custom may lead a man into many errors, but it justifies none. — Fielding.

Men commonly think according to their inclinations, speak according to their learning and imbibed opinions but generally act according to custom. — Bacon.

There is no tyrant like custom and no freedom where its edicts are not resisted. — Bovee.

The despotism of custom is on the wane. We are not content to know that things are; we ask whether they ought to be. — John Stuart Mill.

The custom and fashion of to-day will be the awkwardness and outrage of to-morrow. So arbitrary are these transient laws. — Dumas.

Custom, education and fashion form the transient standards of mortals. Immortality, exempt from age or decay, has a glory of its own — the radiance of Soul. — Mary Baker Eddy.

Australia claims to be one of the oldest existing land masses.

PSYCHOLOGIST SAYS SPRING FEVER REAL

Spring fever—sure there is such a thing, says a Boston university psychologist.

And, Prof. W. K. Pinard maintains it's all for the good, too.

With the advent of spring today, he insists, if you don't feel that urge to make whoopee "you're probably half dead, there's something radically wrong with you."

And, within the bounds of propriety and decency, he suggests you let yourself go.

That lazy feeling that grips some folks at this time is purely biological, with the change to warm weather.

But spring fever, well, he says, that's the "creative urge" we all should feel at this time.

"Spring fever," he says, "is that urge to skip like a lamb—an urge to sing, laugh, play and love."

Prof. Pinard warns against trying to repress these "urges."

"To put life in a straitjacket," he says, "makes for not only individual mental disorders but also makes for social ills."

"It's got to burst out somewhere," he says, "and if it's repressed it usually bursts out somewhere destructively."

"Society would be wise to loosen the base of propriety and to create more opportunity where, with a certain amount of control and decency there would be more opportunity to manifest spring fever."

NEW QUEEN OF PARIS—Chosen "queen" of Paris, Francoise Fourault, 20, seen here, is a secretary in private life. Each district of the French capital elected its own queen, from among whom Francoise was selected during a ball of the Parisian press.

FUNNY And OTHERWISE

Policeman (to a gentleman staggering home at 3 a.m.): Where are you going at this time of the night?

Drunk: To a lecture.

* * * *

"Of course," said the lecturer, turning to the chairman of the meeting, "you all know what the inside of a corpuscle looks like."

"I guess most of us do," said the chairman, "but you'd better explain for those that haven't been inside one."

* * * *

An inmate of an asylum who was pushing a wheelbarrow upside down was stopped by a visitor who asked: "What's the idea?"

"I'm not crazy," was the retort. "Yesterday they filled it with bricks."

* * * *

"What are you doing?" asked the convict of the reporter.

"I'm taking notes."

"Notes . . . That's what brought me here."

* * * *

Teacher: What makes you so late this morning?

Pupil: You see, sir, there are eight in our family.

Teacher: Well?

Pupil: And the alarm was set for seven.

* * * *

My young nephew, Roland, went into a shop a couple of days ago and said, "I want to buy a ceiling for my father."

"What style?"

"Well—"

"One like mine, sonny?"

"No, I want a clean one."

* * * *

With great interest the six-year-old watched her mother pour paraffin over the jelly.

Then she went to answer the doorbell and explained her mother was too busy to come to the door. "She's weatherstripping the jelly," she said.

* * * *

"He's going to sue the company for damages."

"Why, what did they do to him?"

"They blew the dinner whistle when he was carrying a heavy piece of iron, and he dropped it on his foot." 2713

SHANGHAI PRODIGY IN NEW YORK — Policeman directs George Vlachos-Wei and his sisters Madeleine and Sophie, on their New York visit. George, youthful pianist and composer from Shanghai, is on tour.

SELECTED RECIPES

[illegible] SPAGHETTI

1 pound ground beef or sausage
1 cup thinly sliced onions
¾ cup green pepper, cut in thin strips
1½ cups beef broth or 1½ cups water [illegible]
1 cup thick tomato sauce or tomato paste
1 teaspoon salt
Dash of cayenne
1 teaspoon Worcestershire sauce
¼ cup grated cheese
1½ teaspoons vinegar
5 cups seasoned cooked spaghetti

Separate meat into small pieces with fork and season lightly with salt and pepper. Place in hot skillet and heat until red color just disappears, tossing with fork. Remove meat, leaving drippings in skillet.

Add onions and green pepper to drippings, cover, and cook gently 5 minutes. (Add more fat if necessary.) Then add meat, broth, tomato sauce, seasonings, cheese, and vinegar. Simmer gently 10 minutes. Add spaghetti and reheat.

Serve hot. Sprinkle each serving with additional cheese. Makes 6 to 8 servings.

To cook spaghetti, drop 9 ounces broken spaghetti into large amount of boiling salted water. Lift or stir with fork frequently to prevent sticking to pan. Boil until just tender. Drain and season with salt and pepper.

CHOCOLATE CHIP KISSES

2 egg whites
⅛ teaspoon salt
⅛ teaspoon cream of tartar
⅔ cup sugar
1 package semi-sweet chocolate chips
½ teaspoon vanilla

Beat egg whites until foamy throughout, then add salt and cream of tartar and continue beating until eggs are stiff enough to hold up in peaks, but not dry. Add sugar, 2 tablespoons at a time, beating thoroughly after each addition. Fold in chocolate chips and vanilla. Drop from teaspoon on ungreased heavy paper. Bake in slow oven (300 deg. F.) 25 minutes, or until done. Remove from paper while slightly warm using a spatula. Makes about 30 chocolate kisses. May be varied by adding other ingredients and flavors.

"My husband is an efficiency expert in a large office."

"What does an efficiency expert do?"

"Well, if we women did it, they'd call it nagging."

SEA UNCOVERS RUINS OF ANCIENT CHURCH

At Eccles on England's East Coast the sea has returned its victims to the land.

Winds and waves have washed away the sand which covered an old church, destroyed by the sea nearly 350 years ago, bringing to light fragments of pottery and skeletons from the ancient burial ground.

HEAT OF SUN IS NOT LESSENING

OTTAWA. — Contrary to previous theories that the heat of the sun is gradually lessening, J. Dainty, member of the British A[illegible] project since its inception in 1940, told an audience of 100 members of the Royal Astronomical Society of Canada (Ottawa Centre) the sun tends to get hotter and when it does reach a certain peak, the heat will [illegible].

But this, the speaker said, will come about in the very distant future.

Mr. Dainty discussed the theory of evolution of stars following the theories of Professor H. Norris Russell, of Princeton University, Princeton, N.J.

[illegible]

Observe 34th Wedding Anniversary

Mr. and Mrs. A. W. Cooper celebrated their 34th wedding anniversary Monday, March 31st with a chicken supper at George's.

They made the trip from the Vanesti district to Vermilion on March 31, 1913, travelling by team and democrat. The roads were in good condition at that time with only the odd snow bank left in low places.

Mr. and Mrs. Carman Long went to Edmonton Sunday returning home Tuesday evening. They took advantage of the chance to see the Allan cup hockey game in the city Monday evening. During Carman's absence F. C. Long of Edmonton relieved at the local store.

Mrs. Claude Brennan and family returned Tuesday after a two weeks holiday spent at the home of the former's parents at Red Deer.

Reg Spencer, Russell Carroll, Alf Pinchbeck, George Bens and Claude Brennan attended the annual meeting and banquet of the Lloydminster branch of the Fish and Game league on Thursday evening of last week. A very enjoyable event is reported.

Len G. Vance of Edmonton spent a week recently in Vermilion and district, renewing many old acquaintances.

Mrs. Jack Wright was a visitor to Edmonton during the past week, the guest of her sister Mrs. W. Sinclair.

Keith Pullyblank was a visitor to the city over the week end and while there attended the Kimberly—Calgary hockey game Saturday night.

Gerald Stephens is driving a handsome 1947 De Luxe Dodge sedan, purchased from Ed Caskey the local dealer.

Mr. and Mrs. Wm. Iveson and family acknowledge with sincere thanks the receipt of very generous and acceptable parcels from the Vermilion Stagettes and from Mrs. A. C. Bradford.

Russell Carroll was a business visitor to Edmonton last Friday.

Vermilion was well represented at the Allan cup hockey games in Edmonton over the week end. Those in attendance were Mr. and Mrs. Art Wiebe, Mr. and Mrs. Paul Bowlen, Mr. and Mrs. Tom Stach, Mr. and Mrs. Ross [illegible], Mrs. K. [illegible], Billie McLaughlin and Bettie Bell.

Fred Hartwell of Whitehorse, Yukon, is visiting old home scenes around Clandonald for a week or two. He plans to return to Whitehorse.

Military Dance To Be Popular Social Event

There is no doubt that the Military ball being arranged for Tuesday April 15th will be one of the best attended affairs that has been held in town for a long time.

Capt. W. H. Scott chairman of the Citizens' Reserve Force committee wishes to assure people in town and country that all are welcome. Some people seem to think this dance is only for veterans, but this is not correct. The chief idea in holding the dance is to give citizens a chance to come out and show appreciation to the local soldiers for their loyalty to their regiment during the long hours of training throughout the winter.

The chairman of the entertainment committee Fred Brimacombe reports that ticket sales opened on April 1st and that he has received many enquiries from outside points. A large contingent is planned from Vegreville and Wainwright is expected to be well represented.

The officers and men of The Loyal Edmonton Regiment will be in uniform. This will give a military flavor to the gathering. Also there will be some senior officers present representing Western Command at Edmonton and the Headquarters of The Loyal Edmonton Regiment. Major General Worthington will head the contingent from Edmonton.

Permission has been received from the G.O.C. Western Command, Edmonton, for all ex-servicemen to wear their uniforms if they wish. This means that veterans can wear their uniforms or they can wear mufti as preferred.

Prizes Paper of Last Century

Norman McClellan has in his possession a copy of the Dufferin, Ontario Weekly Advertiser printed on Aug. 31st, 1899. The general idea of writing and displaying news, and of advertising does not differ as much from present day practices as a person might think. In fact some of the news items are a little more exciting and spicier than those written today. The country news bulletin idea was carried out the same as at present and great stress was laid on short personal items which were very numerous in this particular edition. The printing was well done and paper of good quality.

AMATEUR PROGRAM

A big amateur program will be held Wednesday April 9th at 8 p.m. sharp in the Masonic hall. Good cash prizes will be awarded. A [illegible] coffee table will be drawn for at the close of the program. Lunch hot dogs and coffee. Everybody is welcome. Admission adults 35c children 15c.

66-7n

Stagette Notes

The Stagettes met at the president's house on April 1st for the educational meeting. Meeting opened in the usual manner, our song was a wee bit weak as a number of the girls were absent due to illness, we do have our ups and downs, don't we? A speedy recovery is extended to all.

We hope to get the posters out this week for the dance on May 9th girls, and by the way, any honorary member or sister Stagette wishing a costume for that dance will please get in touch with our Secretary, Eva Clark as soon as possible.

All arrangements for Monday 7th are completed and if everything goes well and no more sickness we'll see those who remain in town in the kitchen in the Elks hall Monday night.

[illegible] speaker for the evening was Mrs. [illegible] Acheson. Mrs. Acheson gave a very interesting talk on British Guiana. In behalf of our sick we wish to say that we are double sorry you were unable to attend this meeting. Why girls, on this trip we saw black beetles the size of large toads and a baby crocodile, Guiana jewelry and pictures of much interest to all [illegible] were in Guiana before but this time we took a different road.

It was a pleasure having Mrs. Acheson and we all hope to have her again some time.

The lunch committee deserves a word of praise [illegible] you weren't fooling when you said you could bake one.

We [illegible]

Many thanks to [illegible] We more than appreciated coming to your home.

Agricultural Services Board Announces 1947 Programme

EXTENSIVE ACTIVITY PLANNED

On April 1st the Agricultural Service Board of Vermilion River M.D. drew up a program which was recommended to the council for consideration. The council approved and adopted the program at a regular meeting held on April 3rd.

The 11-point program is announced as follows.

1. The control of weeds in every way possible with special emphasis on prevention of noxious weeds from spreading to clean land from infested [illegible]

2. The eradication of any patches of the five bad weeds, Hoary Cress, Leafy Spurge, Russian Knapweed, Field Bindweed and Toad Flax, and to give the land owner assistance if necessary in this connection.

3. The initiation of a soil conserva[illegible]

4. To encourage the adoption of improved cultural practices and recommended cropping plans.

5. To encourage the use of forage crops as a weed control and soil im[illegible]

6. To encourage the use of crops, such as early barley, and fall rye in control of weeds.

7. That an educational program on approved methods of weed control be inaugurated. Such program to consist of public meetings, field days, press articles, posters, window displays, school meetings, weed booths at fairs, picnics, etc.

8. That the plan of back sloping the ditches on main market roads be approved in policy.

9. That a tree planting program be inaugurated.

10. That other policies for the Welfare of ratepayers be investigated and recommended to the council in due course, such policies to include T.B. free area; pure bred sire area, municipal veterinary service; Warble Fly control, Bang's disease control campaign, etc.

11. That the use of clean seed be encouraged, such program to include municipal seed cleaners and the encouragement of careful cleaning of seed on the farm; that the introduction of suitable improved varieties be encouraged; that grain coming into the district be checked for noxious weed seeds.

A full time supervisor will be appointed shortly for employment in the municipality.

The members of the board are: Chairman, O. H. Quist, Marwayne; J. Leighton, Kitscoty; H. Haan, Rivercourse; F. Braithwaite, Dewberry; E. H. Buckingham, and Thos. Wilson, secretary.

Hockey Players Wind Up Season With Gay Party

COACH ART WIEBE HONORED

Playing coach Art Wiebe, former defence star of the Chicago Black hawks and his players of the Vermilion Tigers hockey club, their wives and lady friends, and the officials of the club, enjoyed a very gay social evening as a wind up to the hockey season on Saturday night. The gala affair, attended by 68 people in all, was held in the armories and during the course of the evening Art Wiebe was presented with an automatic record player of the variety that can play ten records without stopping.

Vermilion people feel that Mr. Wiebe is a great asset to the town and besides being playing manager of Vermilion's senior team, he has spent the past season coaching and encouraging pee-wee hockey and has some very fine players among the small boys. It is a source of considerable satisfaction that he refused to leave Vermilion in spite of very attractive offers from two cities in the Western Canada league.

Parents See Display of Cub Work

Vermilion Cubs went through their regular meeting routine on Tuesday evening under the watchful eyes of a large number of interested parents. Each of the Wolf Cub Sixes then were called upon to demonstrate some portion of the work which they have learned since the pack was organized by Dr. King last fall.

The evening proved quite a surprise to many present who were very pleased to see the very useful and character building type of work undertaken by the Cubmaster and his assistants.

Dr. A. Ben King is cubmaster owing to the large number of cubs, some 79 in all he now has as assistants Mr. Cumming and Mr. Fred Leversedge.

Huge Piles of Water Pipe, Sewer Tile

Five carloads of water pipe have now been delivered to the town and added to the big pile of sewer tile. The contractors will have a crew in town shortly to get the equipment ready for the summer's work which is expected to start early in May or as soon as the frost is out of the ground. A very busy season is in prospect for Vermilion.

Football Meeting

A meeting of every person interested in playing football will be held in the town hall on Monday April 14 at 8:30 p.m. Plans for an active football season will be made. Everybody welcome.

67-8

Local Garden Club To Show Pictures

AT ARMORIES ON SATURDAY, APRIL 12th — 3:00 P.M.

The Vermilion Horticultural society has arranged with Mr. R. Smith of the National Film Board to show some pictures on Saturday April 12th, at 3:00 p.m. in the armory.

A special color film "Vegetable Insects" will demonstrate practical ways of fighting potato beetles, cut worms, plant lice, and many other destructive pests in the garden.

There is no doubt that gardens in this district suffer considerable losses from insect damage and here is a chance to obtain advice on control from experts.

Also there will be some other talkies shown and altogether a very good two-hour program will be put on. The President, Mr. Hugh Evans, wishes to announce that everyone is welcome whether or not they are members of the Horticultural Society.

Advocates Junior Chamber Here

Many Notable Visitors at Board of Trade Luncheon

Interested in promoting the organization of more junior chambers of commerce in northern and central Alberta, Joe M. McKenzie, president of the Edmonton Junior Chamber of Commerce, addressed the Vermilion board of trade at its regular luncheon meeting.

He claimed the junior chamber was a reserve force and that wherever there was a senior board of trade there should be a junior body. He named many projects worked on by the junior boards usually not handled by senior organizations, and emphasized that the closest co-operation is maintained between the two bodies.

The formation of a junior board is under consideration in Vermilion. President George Maxwell of the Vermilion board acted as chairman of the meeting.

Other notable visitors included Judge R. C. S. Kerr, recently appointed to the district court bench and presiding at the sittings in Vermilion for the first time. Judge Kerr was introduced by Mayor Morrison and briefly addressed the gathering.

Frederick Newcombe, Edmonton, supervisor of district agriculture, addressed the meeting. He was introduced by F. [illegible] Miller, superintendent of the Vermilion school division.

Martin Albers, president of the students' union of the Vermilion school of agriculture for the past year, and Robert Shopland, newly elected for the year commencing next fall, were introduced by Principal N. N. Bentley. Mr. Shopland expressed on behalf of the students their appreciation of the many generous prizes donated by the business men of the town to the students and to the board of trade for their annual school [illegible]

Charlie Brinton of Vegreville [illegible] to help judge the livestock at the [illegible]

Union Young People's Society Is Formed

INCLUDES LLOYDMINSTER TO LAMONT

Eighteen young people from the local [illegible] attended a rally at Vegreville on Friday April 4th.

The guest speakers were Miss Selma [illegible] and Miss Viola Meredith both from Edmonton. The topic discussed was the forming and the work of a Young People's Union.

The Union formed takes in all the Young Peoples Societies from Lloydminster to Lamont. This is the fourth of these Unions formed in Alberta.

The executive elected for the union is as follows:

President—Clayton Reeves, Vermilion.

Vice-President—James Ross, Vegreville.

Secretary—Elaine Ewachniuk, Vermilion.

Treasurer—Evelyn Johansson, Vermilion.

Conveners: Fellowship—Frances Dorek, Lamont; Missions—Ethel Pereason, Lamont; Citizenship — Bob House, Ranfurly; Culture—Molly Malonek, Vermilion; Recreation—Archie Jeffrey, Vegreville.

NEW BARLEY CONTEST IN 1947

The crowning at the Manitoba Winter Fair at Brandon of Geo. G. Elias, 33-year-old farmer of Haskett, Man., as National malting barley champion of Canada, formally ended the $25,000 National Barley Contest sponsored in 1946 by the brewing and malting industries.

It also cleared the way for the 1947 contest which the brewing and malting industries are again sponsoring under rules and regulations the same as last year.

Entry forms and other information are in fact directly available from agricultural representatives, elevator operators and the respective provincial committees.

This year's contest, as was that of last year, is part of a campaign to make Canadian barley as famous as Canadian wheat. Although sponsored by the brewing and malting industries which provide the prize money, it is really a co-operative effort with the Dominion and Provincial departments of Agriculture and the agricultural colleges of the country.

MILITARY DANCE to be GLAMOROUS Event

High Officers To Be Present — Uniforms May Be Worn

Special Prizes for Old Soldiers

Capt. W. H. Scott, chairman of the Citizens' Reserve Force committee wishes to announce that special prizes will be awarded for three competitions on night of the Military dance which will be held in the school of agriculture on Tuesday April 15th. These competitions are as follows:

1. The oldest veteran present. This does not mean age but from the time of the veteran's first enlistment. Competitors must have seen active service outside of the country where they enlisted.

2. The longest service veteran present. This means combined active militia and territorials but does not include reserves. Permanent force soldiers are exempted.

3. Smartest recruit at the dance. Veterans wishing to enter for competitions one and two above should hand in a record of service at the door. During the evening prizes will also be announced for the best essays written by local soldiers on the winter camp at Wainwright.

Fred Brimacombe, chairman of the entertainment committee reports that the [illegible] orchestra consisting of Messrs. Hatwick, Kent and Staden will have the support of [illegible] of Lloydminster who will bring his public address system. In [illegible]

[illegible]

Programs will be provided [illegible] in order to give the boys [illegible] of programs [illegible] Regarding [illegible] there will be [illegible] selections to suit [illegible]

The committee [illegible] H. Buckingham has received [illegible] from Major General Worthington [illegible] for all veterans to wear their uniforms [illegible] Major General Worthington, Lt. Col. Cromb [illegible] the Loyal Edmonton Regiment and several other senior officers have advised Capt. Buckingham that they will be down from Edmonton.

Arrangements have been made for Pipe Major MacMillan to play on the Grand March. He will be assisted by two other local pipers, Bud M. Mil[illegible] and Donald M. Pha[illegible]

[illegible] the committee hopes there [illegible] men of both wars [illegible] will be out to the dance Tuesday night.

Skilled Workmanship Shown At V.S.A. "Little Royal"

WELL ATTENDED — INTERESTING DISPLAYS

Assuming that it is always interesting to hear the viewpoint of [illegible] outside the town [illegible] activities [illegible] and especially to the type of work undertaken at the Vermilion school of agriculture, the Standard is reproducing what it considers an excellent report of the V.S.A. "Little Royal" as written by Mr. Jack [illegible] of the Edmonton Journal:

"Skilled workmanship in the shops, exceptionally fine training and fitting of livestock together with clever work of students in the sewing room and kitchen were blended into a colorful exhibition Wednesday at the Vermilion school of agriculture.

In presenting their achievement day and little royal year-end exercises the students offered more than [illegible] spectators [illegible] of the school's best exhibits of [illegible] student work. Visitors from many rural areas of central Alberta crowded the spacious grounds and buildings. All were keenly interested and enjoyed the hospitality of the school staff and students. Afternoon tea was served to the majority of the 700 who turned out for the show.

It was a good show throughout. Exhibits were packed into the huge drill hall and the auditorium of the main dormitory. Spectators saw the delicate work of promising young wood carvers, sturdy articles from the anvils of the blacksmith shop, model buildings made by student carpenters, knowledge of farm mechanics and the many phases of modern agriculture.

Girls of the college also excelled in their show of handicraft, sewing and preparation of food. They even invaded the men's field and had an exhibition of light woodwork. Highlight of their show was the many beautifully-made clothes from formal evening gowns to dainty sleeping apparel.

Officials Attend

The exhibition was composed of approximately [illegible] classes and showed [illegible] phases of work by the students [illegible]

A [illegible] of [illegible] the provincial government were present and were headed by [illegible] S. Longman, deputy minister of the department of agriculture. Mr. Longman officially opened the little royal in the farm [illegible]

[illegible] Newcombe, supervisor [illegible] agriculturists and [illegible]

[illegible] utilities and youth training Mr. Newcombe and Mr. [illegible] praised the showing of the [illegible]

Tribute to Staff

[illegible] for the splendid display [illegible] Principal N. N. Bentley and his staff. Members of the staff include: [illegible] English and mathematics; [illegible] M. Hay, science; D. C. Folk, farm buildings; N. A. Chomye, field husbandry; [illegible] Kitchen, poultry; J. R. [illegible] accountant; J. L. Kerns, farm manager and instructor in animal husbandry; J. E. Hawker, dean of men's residence and instructor in horticulture and botany; C. McBride, dairying; N. A. Moisey, metal work; N. C. Acheson, farm mechanics; Miss M. G. Lang, dean of women's residence and instructor in household administration; Miss M. Hawrelak, sewing; Miss F. Rodney, nutrition and cooking; Miss D. Taylor, home nursing; Miss M. Brown, dietitian; Mrs. E. Howlett, physical training.

Prize Winners next Week

Prize winners in the 30 classes of livestock, in the 46 classes of Home Economics exhibits including sewing, handicrafts and cooking, and in the 30 classes of metal work, woodwork and field crops will appear in the Standard next week.

"Gym" Night at College Brings Forth Surprising Display

Townspeople who attended the "Gym" night at the V.S.A. Saturday evening March 22nd were treated to a most surprising display of fundamental and apparatus work, tumbling [illegible] Both boys and girls took part in the P.T. which was under the direction of Mrs. Elaine Howlett. [illegible]

[illegible]

Mrs. Howlett [illegible] only lady instructor in the [illegible] Vocational Training in Alberta [illegible] to teach a man's [illegible] That she [illegible] complete [illegible] gymnastics [illegible] tumbling and apparatus work.

During the evening great tribute was paid to Mrs. Howlett who has an extraordinary gift for this type of work by Principal N. N. Bentley. Mrs. Howlett's appreciative pupils, both boys and girls, made her a fine [illegible] at the conclusion of the program.

[illegible] enjoyable evening [illegible] played in basketball [illegible] table tennis.

[illegible] April [illegible] will [illegible] the [illegible] of the Pine Lake Chapter [illegible]

Rehabilitation Officers Here on Tuesday

Mr. W. T. Cromb District Superintendent of Rehabilitation and Mr. A. A. Aldridge District Supervisor of Training will be in Vermilion Tuesday April 15th at the Brunswick hotel on Rehabilitation duties.

Legion Vimy Smoker Monday, April 14th

One of the big annual Legion events of the year, the Vimy Smoker will be held on Monday evening April 14th in the armories. This year it is hoped to make this bigger and better than ever and the entertainment committee is hard at work lining up something just a little different from the usual smoker entertainment. All members are invited to bring along a veteran friend.

MILITARY NOTES

'A' Company, The Loyal Edmonton Regiment, will hold an Inspection Parade Tuesday April 15th at 19:30 hours at the armories.

Dress will be battledress, berets and black oxfords where possible.

Boots, anklets, puttees and belts will NOT be worn. Dance tickets will not be issued to members unless properly dressed.

DISTRICT COURT

His Honour Judge R. C. S. Kerr, recently appointed to the District Court Bench presided at the sittings of the court held here on Tuesday and Wednesday April 1 and 2.

The Judge was extended congratulations on his elevation to the Bench by J. W. G. Morrison, K.C., representing the Bar of this district, to which his Honour made appreciative reply.

Two cases were tried on Tuesday and two on Wednesday. Parkash vs. Wolfe, a claim respecting combine work and sale of a bin. Judgment for Plaintiff. Jas. McCorry, Kinmory, appeared for the Plaintiff and J. D. Adam for Defendant. Mayer vs. Babij, an action over price of hay and straw. Judgment with costs for Plaintiff and counter claim by the Defendant dismissed with costs; Adam Counsel for Plaintiff and F. J. Richardson for the Defendant.

On Wednesday Manyluk vs. Town of Vermilion was heard. This being an action over cost of clothes damaged in the Wiebe mill fire and work in connection with a sidewalk. Judgment for Plaintiff for value of clothes and claim for sidewalk dismissed. J. I. Jones of Mannville appeared for the Plaintiff F. J. Richardson for the town. Chalmers vs. Cusack, action for recovery of a thresh bill and rent of building. Judgment given for the Plaintiff in the sum of $60 and costs admitted by Defendant Cusack. The counter claim of Cusack dismissed without costs. F. J. Richardson for Plaintiff, J. W. G. Morrison for Defendant.

W. B. Mix Has Large Housing Project

The W. B. Mix Construction Co. have the building of six bungalows 22 by 26 feet well underway. The construction work is being done right here in Vermilion where the residences will be completed even to a paint job, ready to place on foundations. The houses will not go to alleviate shortage of living quarters in Vermilion however, but will be moved to Lloydminster placed on foundations with full basements and [illegible]

New Cars in Evidence

One day this week no less than five dealers had new cars on display. These were Chevrolet, Pontiac, Mercury, Dodge and Hudson. These may have been all sold, not having the "necessary" for a purchase the standard reporter did not inquire.

Several "Leafs" Are Former Scouts

When Howie Meeker of the Toronto Maple Leafs recently visited a Toronto Scout troop and answered questions about hockey players it was learned that several of the Leaf players are former Scouts. Syl Apps was a Scout in Paris, Ont. Gus Mortson was a Cub and Scout in Kirkland Lake, Syd Smith was a Scout at Essex Street school in Toronto and Howie Meeker was a Scout in Kitchener.

THE STANDARD
VERMILION - - ALBERTA

Vermilion Alberta, Thursday April 10.

Grow More Alfalfa

Alfalfa is the outstanding forage crop. No other can successfully replace it. It is well adapted for production on all well drained soils in the province but will not tolerate "wet feet". It will produce more pounds per acre of forage than any other crop and the forage produced will be more nutritious. To express it in scientific terms alfalfa is high in protein, minerals and vitamins.

Alfalfa is indispensable to the livestock feeder. When fed to cattle, hogs, sheep, or poultry, alfalfa will do wonders in maintaining health and condition. For many classes of cattle and for sheep, alfalfa will come nearer than any other feed to providing a complete ration. For hogs and poultry it is essential to health.

Every farmer should consider seeding at least a few acres this spring. Indications are that soil moisture conditions will be ideal for establishing the crop. Alfalfa seed is still available for distribution to farmers but cannot be held indefinitely. For further particulars see your District Agriculturist.

WARM WEATHER PREVAILS . . .

Real summery weather has prevailed all week with the high point of 57.1 registered on Monday. There is still some frost at night the lowest reading being 16.2 above zero Friday of last week. However this week very little frost has been experienced. There is now no snow left in the open but drifts remain in sheltered spots and bushes. Precipitation during the week totalled one-tenth of an inch and showers are forecast for this Thursday night.

The annual spring .22 shooting craze is in full swing with practically everything that moves being lined up on the sights and potted at by boys with these dangerous but lightly regarded weapons.

"Centre" Deleted From Name of School District

Vermilion Centre school district, the name given to the town for school purposes since the district's formation, has now been changed. The "Centre" has been dropped, and we are now known as the Vermilion school district.

Just in case you wonder, when the town school district was formed it was found that a rural school located on the banks of the Vermilion river near Vegreville already had the name Vermilion school district, and so the Centre was tacked on here for the sake of convenience in the department of education. Recently however, the rural school changed its name and the way was cleared for Vermilion to eliminate the centre.

The change was made following a recommendation from the local board made at the last meeting of that body.

Hon. John Bracken, leader of the Progressive Conservative party will speak over CJCA on Wednesday evening next week at 9 to 9:15. His address will deal with a timely subject in the series "The Nation's Business".

Farming Requires Skill

Farming today requires more [illegible] than just planting, cultivating and harvesting crops. Profitable farming calls for long-time planning, rotating of crops and fertilizing for long-time planning, rotating of crops and fertilizing to improve quality and increase yields. Farmers must know how to fight insect pests and diseases of both plants and animals. They must study the operations of all available chemicals, farm equipment and other facilities to produce larger quantities of food from the same acreage. Farmers must learn the proper methods of preventing soil erosion and maintaining the tilth and fertility of the land. More and more farming is becoming a highly specialized occupation. —Wheat Pool Budget

According to the Pilot Mound Manitoba Sentinel, the Manitou "Western Canadian" was printed on brilliant yellow—or was it bright orange, recently. Mute but striking evidence of the severity of the paper shortage in the rural newspaper plants.

OUR COMPLETE SHORT STORY—

"GYPSY GOLD"

By LILLIACE M. MITCHELL

"GOSH, Julie! You are easy—giving that gypsy gal a five dollar bill for that! Gypsy gold! If that's gold, I'm a busy blonde. But if it should turn the trick, let me have it next, eh?"

Julie Davis nodded. "I didn't buy it from the gypsy. I just crossed her palm with 'gold'—and that in the old days would have been five dollars. But it won't do all the work. She said to do all I could myself and then leave the rest to gypsy gold. Well, me, I'm going downstairs to the drug store and buy a big bottle of perfume and Anthony—he does like fragrance, Cordelia. Men do."

"Sure. Men do. Even rich fellows like Anthony who waste three years of a gal's time. I give up. He likes you. He has plenty to marry on. But maybe you've let things drag. A girl has to help some, you know."

Julie looked out the office window. "Yes. I've just waited. Of course it wouldn't be any use to run after Anthony. He wouldn't have one of those bold girls. But me—I haven't done a thing to get him to the point. I'm going out this noon, Cordy, and get a big bottle of that May Dawn perfume and a new hat and new gloves and shoes and a snippy little collar and cuff set—"

"Say! You're going to spend all your savings?" asked Cordelia.

"I am, Cordy. I'm going to make every effort myself and leave it to gypsy gold to do the rest just as the gypsy girl told me."

At five that night Julie was prompt in leaving the office. Because it was raining, the other girls all stayed at their desks a few minutes to put everything in order. Julie, though, tripped gaily out of the elevator and towards the magazine counter of the office building entirely aware of her new coat and shoes and gloves, her nose well aware of the expensive perfume that surrounded her like an aura.

"You don't look as if the weather had you 'downed', Julie," Anthony greeted her in amazement. "Yours has been the only smiling face to come out of any elevator in the ten minutes I've been waiting. Kind of dolled up, aren't you? Want a cab?"

But as usual on rainy nights, no cab was to be had and so, shoulder to shoulder, they walked along cheerily until they came to a sidewalk grating that permitted a basement fan to get air. The heels of the new shoes slid unexpectedly between two of the metal strips.

"Ooo-o-oh!" screamed Julie.

Anthony, both arms about her firmly, held her upright. "I have you, Julie. You're not hurt, are you? You didn't turn your ankle?"

Julie shook her head and stood her ground firmly, her eyes searching down in that dark space beneath the sidewalk grating. "I'm all right but I lost my gypsy gold piece," she said disconsolately.

He laughed. "Well, if that's all you lost, that's nothing!"

"Nothing?" she eyed him wide-eyed. "Nothing? Why Tony, it's everything, that gold piece. It's gypsy gold, Tony."

"Well, there's no way of getting down in there to get it, Baby. This grating is in for keeps and there's no opening in the basement except the ventilator fan. Come on."

Julie shook her head stubbornly. "I'll have to get down and fish it out again, Tony. I—I just have to get my gypsy gold."

Obligingly he got down on all fours and peered down into the dark hole. He borrowed an umbrella from a passerby and poked the glittering gold piece this way and that fruitlessly. Then the passerby with a glance at his watch said he must get along and Anthony returned the umbrella.

"Come on, Julie," he said coaxingly. "We can't get the thing out. It's in there for keeps. Come on, dear."

Julie only shook her head. "I—I paid five dollars for it, Tony. That is, I didn't really pay five dollars but I crossed the gypsy's hand with gold before she gave it to me. I—I have to have it, Tony."

"Well, great suffering cats!" he exploded, turning up his coat collar. "If this thing was so darned valuable to you, why didn't you put it into your handbag instead of carrying it out loose in your glove? And such slippery gloves, too."

"Glace," murmured Julie softly, her eye seemingly glued to the gold piece below.

"Mister, we'll get the thing if you'll give us a half dollar for the job," said two newsboys.

"On to it, kids," said Anthony heartily. "I'll make it a dollar if you're done in five minutes."

Speedily the boys thrust chewing gum into their mouths, grinning at each other they put the damp gum on the end of a long stick and poked.

"You're a [illegible] little thing," Anthony said huskily to Julie as they waited and watched.

She turned her eyes up to his.

"Gee, you're a honey," he told her. "You smell so sweet and fragrant and you're such a little useless losing that gold piece like that! What you need, Baby, is someone to look after you and your possessions. Suppose I hadn't been along now?" Julie, "Baby, are you going to give me the job?"

"What job?" she asked him gently.

"Of being your husband and looking after everything for you," he murmured.

She nodded meekly at the same moment the little boys handed Anthony the gold piece. He gave them a dollar and looked curiously at the gypsy gold.

"That girl sure skinned you, Baby," he told her. "This is just brass, common brass."

She held out her hand for it smilingly. "Gypsy gold," she said. "The gypsy told me it was. Oh hello Cordy dear! What? My eyes look bright? Do they? Here, Cordy, is that piece of gypsy gold you wanted. I don't need it any more you see."

"Well, I'll be confounded!" ejaculated Anthony in amazement as Cordelia passed along the wet street with the gypsy gold in her pocket. "I didn't know I was getting it for her! I never especially liked her anyhow. I thought I was getting it for you, Baby. What's that? You don't need it? Well, girls are certainly hard to understand, I'll say. There's only one thing that is easy to understand and that is you need me to take care of you, Julie. When do I get the job, eh?"

And Julie, blissfully unaware that the new coat was damp and the pretty collar set already crumpled, looked up at him, the fragrant odor of May Dawn still clinging to her as if its work was yet to be done instead of already accomplished.

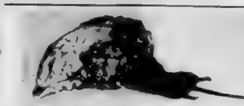
SIGHTED WOLF — SHOT SAME — First wolf Mrs. Archie Patterson ever saw is the one she killed with one shot from a 22 rifle 100 yards from home near Wiarton. Wolves are numerous in the area.



OYSTER IS THE "BETTER" MOUSETRAP — At last a better mousetrap! In Courtney, B.C. a man picked up a sackful of oysters recently and brought them home. He left them on his porch overnight and an oyster apparently opened up for a breath of air and a look around. An inquisitive mouse investigated, snap! It was the long sought better mouse trap but the discoverer refuses to divulge his name and shows no anxiety to have the world beat a path to his door.

In The Legislature

by W. R. Cornish, M.L.A.

Alberta car licences this year will be $1 higher. This money will go into a fund which will provide a source of assistance in cases of accidents where the one liable has no funds to pay for damages awarded. Free hospitalization will be provided to people who sustain injuries as a result of car accidents. The effect of changes in regulations will mean that, to protect their own interests, people will be well advised to carry automobile insurance. The Act does not say that car operators must have insurance. [illegible] anyone is operating a car without insurance, and has an accident, he will lose his driver's licence. Motorists may secure the insurance anywhere they like. The Alberta Government Insurance office will begin writing sickness and accident insurance, as well as automobile insurance.

A Bill to professionalize graduates from the Faculty of Agriculture has been passed. This will mean that people such as District Agriculturists will now be members of a profession known as agrologists.

There will be a number of minor changes in the Election Act. One of the more important changes is that figures only will be used in marking ballots in provincial elections. The voter will mark his first choice with the figure 1, his second choice with the figure 2, etc. Any ballot marked with an X will be considered a spoiled ballot.

There are some changes in the Mineral Taxation Act which affect any land-owners who today own the mineral rights on their land. It is my advice to those people who own the mineral rights, that they should send particulars regarding the ownership of those mineral rights to the Department of Lands and Mines. It is in the interests of the land-owners that this be done.

As we have reached the close of the Session, this will be the last weekly newsletter giving highlights of what has taken place during the recent Session. I wish to take this opportunity of expressing my sincere thanks to the editor of the Standard for his kindness in bringing this information to the public. I will be glad to have any comments from interested readers regarding these matters.

Food for Fitness

If their intake of food is not sufficient to meet their specific needs, children, while usually continuing to grow in height, may suffer from malnutrition.

Nutrition experts warn that improper feeding may show up in poor posture, unhealthy appearance, flat chest, round shoulders and a generally listless attitude. They advise consultation with the family physician to ensure that growing youngsters are getting all the right foods.

Check that date on your label now!

Fatal Accidents on Gain in Province

Fatal accidents in Alberta during the nine months ended Dec. 31 last took the lives of 51 persons, according to the annual report of the provincial secretary's department. This was an increase of 60 per cent over the previous period.

The report also disclosed that the monthly record of accidents from October to December inclusive, showed an increase of approximately 65 per cent.

Officials of the Alberta Motor Association point out that the figures disclose a still greater need to emphasize safety measures on Alberta highways, and other traffic routes.

More cars are in operation and there are not the same restrictions on fuel and speed as prevailed during the war. This makes it all the more necessary to exercise all possible care in operating motor vehicles.

In the nine months period ended Dec. 31, no less than 1,267 people were injured in car accidents in Alberta. This reveals a serious situation and calls for remedial steps without delay to bring safer driving principles into greater observance.

Auction Sale Estate Of John T. Kennedy

An auction sale for the estate of the late John T. Kennedy will be held on the W½-24-47-7, approximately 20 miles south of Vermilion, on Tuesday April 15th. The listing includes full line of farm machinery, household effects and some livestock. Canterton and Braithwaite are the auctioneers. 474c

More Profits For Livestock Producers Seen

BRANDON, Man.—Agriculture Minister Gardiner said that even at the present prices for coarse grains western farmers could make more money by feeding their grain to livestock than by selling it.

He told a service club luncheon that the government "could have coerced western farmers into producing more livestock products by keeping down the returns for their grain" even below the present level and "increasing the returns for livestock. But we are not coercing him to do anything."

Mr. Gardiner said he realized that many farmers did not have the labor to feed stock, but western producers of feed grain were entitled to their increase whether they desired to make more money by feeding [illegible] or not.

In order to prevent surplus [illegible] tion in Canada from depres[illegible] domestic price he said that in future Canada would have to export 70 per cent. of its cheese, 50 per cent. of its apples, 50 per cent of its wheat and all surplus canned and boneless beef.

Additionally, it should produce enough hogs to be able to sell 50 per [illegible] agriculturalists in the Dominion were to be pros[illegible].

The only two markets Mr. Gardiner said he knew of where these surpluses could be sold were the United States and the United Kingdom. The former had in the past retained its markets for its own farmers and there was every indication that it would continue to do so.

Great Britain, on the other hand, was urging Canada to supply its market and was prepared to contract for years in advance on [illegible].

The present British government, he said, was carrying on a policy established in 1932 of guaranteeing returns to farmers in advance of seeding.

"In my opinion there is greater stability offered British farmers under that policy than is offered to farmers elsewhere. We, by tying the sale of our surpluses to their plan will not only stabilize the returns on the sale of our surpluses but also on the product sold at home."

BRITAIN ANXIOUS FOR SOVIET TRADE

MOSCOW.—Britain is keenly interested at this time in re-establishing trade with Russia and would be extremely pleased if negotiations could be opened before long, it was [illegible].

At the same time British sources denied as "utter nonsense" American reports from Moscow that Premier Stalin has offered Foreign Secretary Bevin economic aid for the United Kingdom.

The American reports on economic aid for Britain, purported to be a leak from the Stalin-Bevin interview in the Kremlin last week, caused a big stir here but a high British source said no request for aid has been made and none has been offered. Not a word has been disclosed officially here about the subjects discussed at the meeting.

British circles, however, make no secret of their desire for Anglo-Soviet trade. Statements have been made in the house of commons in London during the last few months on this, and the British delegation here for the foreign ministers' conference certainly would seize on any opportunity which offered to start the ball rolling.

Jack Miner National Wild Life Week

A Bill to make the week of April 10th each year, known as the Jack Miner National Wild Life Week has been introduced in the House of Commons [illegible].

April 10th, was the birthday date of the late Jack Miner. It is the season of the year when the birds are returning to Canada so it is appropriate to name it the Jack Miner Wild Life Week. It is not meant to be a holiday season, but a period during which school children will study the value of Bird Life and its Conservation and a day when service clubs might sponsor bird house building campaigns etc., it would be a living tribute to the late "Uncle Jack" and at the same time the citizens would benefit from the results at no cost to the country.

The bill has been introduced by Hon John R. MacNicol, M.P., Conservative and seconded by Mr E. J Bradette, Liberal and has the unanimous support of Hon John Bracken, M.P. and the Conservative party, Hon Solon Low M.P. and the Social Crediters, and Hon Mr M. J. Coldwell M.P., and the C.C.F. party.

(Editor's suggestion — Any reader interested in seeing this bill put through can help by writing or wiring the local member and saying so. The debate will likely take place April 16, 17, 18 right after the Parliamentary recess.)

MARSHALL IN MOSCOW—Standing with serious mien at the doorway from the main ballroom, U.S. secretary of State Gen. George C. Marshall, wearing a Russian decoration, is shown scanning the festivities of the first formal dinner to the Big Four foreign ministers before leaving. Secretary of State Marshall was later reported as being deeply displeased with the lack of progress of the council of ministers in deliberations on the German and Austrian treaties.

Wheat Needs For Europe Unchanged

OTTAWA. — Pessimistic reports on the condition of winter wheat seeded last fall in the United Kingdom and continental Europe indicate that European wheat requirements in the 1947-48 crop year may be just as heavy as in the current year, and presage "another year of shortages" in the affected countries, [illegible].

"Should the winter-kill prove to be of serious extent and the current wet weather further delay spring seeding," the bureau said in its monthly review of the world wheat outlook, "there may be ample grounds for assuming another year of shortages in affected countries.

"Over and above the weather factors, too, it is unlikely that all deficits of draught power, labor, suitable seed and fertilizers can be made good within the next year or two and any lack of these items is certain to have a negative effect upon production.

"In India a moderately good wheat crop now is being harvested, but some imports will still be required."

The report said there were no indications yet that Australia and the Argentine will seed increased acreages of wheat and it was too early to venture any estimate as to probable 1947 yields in those countries. In [illegible] the spring wheat areas were reported good but here too, it was much too early to hazard a production estimate.

"The only plausible assumption at this stage, and this is also true of Australia and the Argentine, is that the average acreage will prevail."

SEEDING GOVERNS DELIVERY QUOTAS

OTTAWA. Trading Minister MacKinnon announced in the commons that until further notice seasonal delivery quotas necessary for wheat and other grains will be based on seeded acreage rather than the authorized acreage procedure adopted in 1941.

[illegible] said their interpretation of the new [illegible] difference to farmers but would greatly facilitate administration.

END OF JAPAN'S HOUSE OF PEERS

TOKYO. Japan's house of peers has formally died after a half-century of aristocratic approval of Japanese imperialism. Adjournment of the 92nd regular diet session—last under the old 19th century constitution—ended the life of the house of peers. Under the new constitution, effective May 3, it will be replaced by a house of councillors whose 250 members will be elected April 20. 2719

Price Ceilings Lifted From Long List Of Goods And Services

—Basic Necessities Controlled

OTTAWA.—The government lifted the price lid on roughly one-third of the goods and services still under control and expressed the hope that the move would bring prices "smoothly to the levels which now are appropriate."

As the house was debating the main bill to continue war-imposed controls, Finance Minister Abbott announced to the commons the fourth major step in the government's decontrol program, a step which extensively slims the controlled list.

This latest move in the direction of full decontrol, the fourth over the last year, becomes effective immediately.

In general, it removes these goods from the list of goods and services still under price ceilings:

1. All motor vehicles, all soft drinks, all coal, coke, charcoal and fuelwood and all footwear. Leather itself, as well as hides, remain under control.
2. Foods such as turkey, ducks and geese in live or dressed form, certain non-standard kinds of sausage and some canned and cooked meats.
3. All types of candy and confectionery and cocoa beans and their derivatives and beverage preparations made from cocoa.
4. Wool in all its forms, whether in yarn, fabric or clothing.
5. Household equipment such as cooking ranges, refrigerators of all kinds, domestic washing machines, domestic sewing machines and plumbing and sanitary equipment.
6. All chemicals and plastics, end products in the paper and paper products field, many containers and packing materials and a lengthy list of construction products.

Mr. Abbott said the list of goods and services which remained under control covered many of the basic necessities of life in food, clothing and shelter.

Referring specifically to rentals, Mr. Abbott said "acute" difficulties remained and these restrictions "must" be continued.

CANADA STILL HAS TIN CAN SHORTAGE

OTTAWA. — The shortage of tin cans in Canada is still "critical", the prices board said, announcing continuation of the conservation order for metal containers.

General effect of the order, the board said, will be to continue priority for seasonable and perishable fruit and vegetable packs, fish and meat products and certain essential [illegible].

Most canned fruits and vegetables should continue in adequate supply, although supplies of many less essential products will be limited as a result of the shortage of tin and sheet steel for the manufacture of cans.

RESTORING PORTS

MOSCOW.—The Soviet ministry of merchant shipping has approved a plan to develop Russian merchant shipping this year. Black Sea and Baltic ports and a number of important shipyards are to be restored and developed and a larger freight tonnage handled.

CO-ORDINATION OF ARMED SERVICES

OTTAWA.—A further step in co-ordination of Canada's armed services was announced with the approval of a plan to pool the transport resources of the navy, army and air force.

Under the plan, announced by defence headquarters, the army will assume responsibility for the procurement, storage and major repair of vehicles and mobile engineering equipment. Each service will, in most cases, provide its own drivers and carry out maintenance and [illegible]pairs of its vehicles.

UNITED STATES STILL CONTINUE SUGAR CONTROLS

WASHINGTON.—The senate completed action on compromise legislation continuing sugar allocation and price control until next Oct. 31. The measure now goes to the White House.

The controls would have expired if congress had not acted. The house of representatives earlier had approved the measure.

DIPLOMATIC POST—Kenneth Alfred Green, Ottawa industrialist, who has been appointed Canadian high commissioner to Australia, succeeding Mr Justice T. C. Davis, recently appointed Canadian ambassador to China.

This Little Pig Is A Tough Little Pig

THETIS ISLAND, B.C. Farmer Thomas Boyle's little pig is recovering from his sojourn into the wild blue yonder.

Boyle was attending to his chores when he noticed a bald-headed eagle just clearing a 150-foot tree with the little porker firmly attached to its undercarriage.

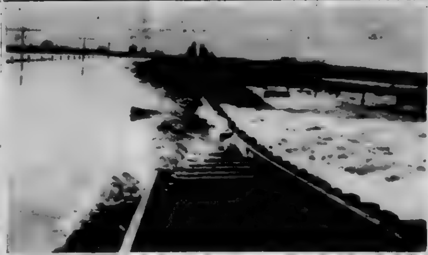
A hastily-fired shot failed to hit the bird, but it did frighten the eager eagle into dropping the piglet.

The pig bounced six feet into the air when it hit, then—you guessed it—got up and slowly walked away—unhurt.

PLAN TO ASSIST BRITISH FARMERS

LONDON — The Daily Telegraph said the British ministry of agriculture had worked out a three-point plan to make good the devastation of floods in Britain, featuring interest free loans and compensation to farmers, special fertilizer supplies and alternative cropping plans and an appeal for more workers on [illegible].

The paper said arrangements would be made for night plowing to bring land back into cultivation.



"DUST BOWL" BECOMES RAGING TORRENT. FIVE DIE — Floods in Western Canada have taken five lives and the usually dry southern Alberta, the southern route of the Trans-Canada highway at Barnwell, 30 miles from Lethbridge became a raging river submerging fields and forcing families to flee. When the water hit the C P R line 100 feet of track were washed out as torrent rages through railway line.

PEACE DEPENDS ON INDIANS, NOT BRITISH, IS VIEW OF MOSLEM LEADER JINNAH — Hopes for peace and unity in India now depend largely on the Indians, in the [illegible] M. A. Jinnah, Indian Moslem leader, left, agrees and has tried to stop recent Hindoo-Moslem violence. Sir Stafford Cripps, right, largely responsible for Britain's independence plan for India, now seeks revision of empire trade as political relations change.

Discussion On Control Bill May Be Shortened

OTTAWA.—The possibility has arisen that the government might have to apply the rarely-used procedure of "closure"—the automatic cutting-off of a debate—to end the long discussion now brewing in the commons over the administration's omnibus control bill.

By this method, the government is enabled to bring a debate to an end within 48 hours after closure is applied.

Parliamentary sources stressed that if the government used closure it would be done only as a last resort if the debate appeared to be crowding the May 15 deadline for the expiration of the Emergency Transitional Powers act under which the war-time controls now are being continued.

The use of closure would save the government the necessity of asking parliament for another extension of the Emergency Powers act, a request which government spokesmen already have said they wish to avoid. The act originally was to have expired Saturday but was extended to May 15.

Developments in the chamber indicate the control debate will be long and bitter and may easily extend to May 15 and possibly beyond. Thus far the legislation has got only as far as the resolution stage and has been debated heavily every step of the way through that phase of its passage.

PRECIPITATION IN THREE PRAIRIE PROVINCES GOOD

(By The Canadian Press)

Autumn rains coupled with unprecedented winter snow storms have combined to form an advance moist bulwark against dusty drouth, western Canada's grain and stock men's base precipitation statistics show.

The department of transport, meteorological division, reports precipitation throughout all major grain areas of the west far in excess of last year. During the period Aug 1 to Feb. 28, precipitation in Alberta showed a 50 per cent increase above normal. The increase in Saskatchewan was 40 per cent, and in Manitoba 16 per cent.

Twice the normal fall was registered in southern Alberta during the seven-month period while southeast Saskatchewan marked up a 60 per cent increase. Northern sections of the latter province received a 35 per cent boost. In north and central Alberta and southwest Saskatchewan, a 25 per cent above normal peak was reached.

Smallest departures from former averages occurred in Manitoba with western sections receiving 20 per cent more and eastern areas slightly over 10 per cent.

Severe snow in Alberta during November with somewhat lighter falls across southeast [illegible] southwest Saskatchewan brought several record precipitation marks. Four times the usual amount fell in [illegible] Alberta and two to three times the normal in central Alberta and southern Saskatchewan. Smaller increases ranging from 20 to 60 per cent were registered in northern areas of Saskatchewan and Alberta. Manitoba reported small deficiencies.

Record-breaking snow storms during December, January and February greatly boosted averages in southern sections of the grain region. Jumps of 30 to 60 per cent occurred in north and south Alberta and north and southeast Saskatchewan. The three months registered 30 to 40 per cent leaps in central Alberta and western Manitoba.

WHALING FLEET JUNKED AT COAST

VICTORIA. Victoria's once famous whaling fleet was destined for the junk yard following the auction sale of the five remaining vessels of the bankrupt Consolidated Whaling Corp. Ltd. here.

The Norwegian-built ships brought $1,300 from three bidders.

The ships were built 40 years ago and were originally valued at $50,000.

Two of the purchasers said the ships would be immediately broken up into scrap. Max Lohbrunner, representing the Deep Sea Fishing Co., said he might use his as a fishing station.

The five whalers were brought around the horn from Norway 40 years ago and for many years did extensive whaling off the British Columbia coast.

TAKES JOB IN JAPAN

BOYS TOWN, Neb. Rt. Rev. Edward J. Flanagan, founder and director of Boys Town, is leaving for Japan to serve as consultant to the Japanese government on a child welfare program, now being developed.

Silk culture has flourished for more than 4,000 years.

Grand Wind-up To the Hockey Season Planned at Derwent

DANCE ON APRIL 22 — BANQUET SLATED FOR APRIL 28

The hockey at Derwent this season was very successful and will wind up with a big dance to be held in the Derwent town hall, Tuesday April 22. It is hoped a large turnout will be on hand and help make an evening of real fun. This will be a bang-up affair and no effort is being spared on the part of the dance committee, officers of the club the players themselves and the town populace to make this The dance and to climax the hockey season. A banquet will be held in the Derwent hotel for the hockey club on Monday night April 28th at 6:30 p.m. Each player and guest will be required to deliver or contribute something to make this banquet and get-together a real success. Harry Borowsky has his solo in readiness and Geo. McConnell will accompany him on the piano. Mayor Christensen has been approached to welcome the gathering and to give them the key to the town for the evening. Clarence Alant and his cohorts are all in readiness and are practising their parts of the program. Marshall Cherniawsky and Peter Pliahka we understand are busy learning their step dance offering and are able to keep fairly good time with the music furnished by Alex Rudkowsky and his 7-piece band. Herby and Tom will be conspicuous by their absence. Jerry Strong is busy curling his hair for the occasion and has a fine array of colored ribbons. John Woywitka is busy with his folk dance selection and will be able to show the boys how it's done. Matt Charchun, Mike Klotz, Spud Zurba, Earle Hicks and Max Borowsky are secretly rehearsing their presentation. Last but not least, Constable Mitchell will be in attendance, unless otherwise detained, and will keep law and order, so boys, watch your step.

KENILWORTH

Dance and Bazaar in aid of the Jr. Red Cross will be held at Kenilworth school April 25th. Good music. Everybody welcome.

"GREEN ACRES"

NATIONAL BARLEY CONTEST

Another malting barley contest is announced for 1947. Cash prizes amounting to $25,000 are offered in Western Canada by the Brewing and Malting Companies.

Only certain varieties: O.A.C. 21, Olli, Montcalm and Mensury are eligible. As a good many farmers in this district are getting Olli barley seed they ought to compete for the prizes offered. See your D.A. for particulars and application forms.

GROW MORE ALFALFA

Sales of forage crop seeds have slipped down in this district this year. The Government has a good stock of Alfalfa and Brome grass seed for sale at cost with freight paid. All other kinds of seed are exhausted, but I can still get Alfalfa and Brome for you.

TRUTH ABOUT FLAX

The government has increased the price of flax to $5 per bushel. At this price flax should be the most profitable crop to grow. The one requisite is a clean field as it does not fight weeds as well as cereal crops. See your D.A. for seed flax, and also get a new circular just off the press on growing flax.

COUCH GRASS

A brand new circular on Couch grass control has just been received from the Dept. of Agriculture. Mr. H. J. Malher has done an excellent job in writing this publication. Everything has been said in as few words as possible. Get your copy at the D.A. office now.

ELECTRIC PIG BROODER

Not everyone has electric lights on the farm, but it solves the chilling of young pigs. A recent circular entitled "Home Made Electric Pig Brooder" is recommended if you have electricity on the farm.

DAIRY BARN SHEETS

A further supply of dairy barn sheets has been received at this office for free distribution to anyone raising or milking dairy cattle. These sheets contain a lot of useful information about dairy cattle and handling of milk and cream. If you milk cows you ought to have one of these barn sheets.

E. H. Buckingham, D.A.

Bowtell Bulletin

Mrs. Perkins and two children were Sunday visitors at the Knutson home. Mr. and Mrs. Walker were visitors at the Bedelly home the same day.

Mrs. Bedelly has made quite a name for herself in raising wax flowers. She makes many different kinds. Anyone wishing to see them may drop in at the Bedelly shop for [illegible].

Lyle Cowell and Frank Moore were Sunday visitors to the home of Mr. and Mrs. C. Burt.

Mr. and Mrs. Tom Sherwood enjoyed a chat on Saturday with Grandma McGinnis who is 86 years old. She is hale, hearty and active and takes a keen interest in everything that transpires in the Bowtell district.

Clifford Shepherd is now in the north country, working at Dawson Creek.

Mrs. Robinson entertained for her sister Miss Kay of Edmonton who was her guest during the Easter holidays. A very fine time was enjoyed. Those present were Mr. and Mrs. F. Williams, Mr. and Mrs. R. Jenkins, Mr. and Mrs. T. Sherwood, Mr. and Mrs. Rochford and Miss S. Coutts.

Gertrude Gow, Marion Morrison, Effie Keroluk, all arrived home for the Easter vacation.

Robert Repp returned home from Calgary bringing a truck he purchased while there.

Ed Lippert is now the owner of a new Case tractor. Ed's brother Elvin arrived from Vancouver and plans to spend the summer here.

It must be spring folks as our old friend Charlie Defoord is back among [illegible].

Congratulations to Molly Fenton who was recently married at Lloydminster and is now making her home north of Streamstown. A party was held in her honor recently at Mrs. Harrison's but sorry to say that owing to road conditions Molly was unable to make the trip. The ladies enjoyed a visit with their neighbors anyway. Molly's wedding announcement appears elsewhere in this issue of the Standard.

After the show on Saturday evening attend the dance at the Elks hall. An enjoyable hour or two for only 2[illegible]

Mechanization

leads the way to
BETTER FARM LIVING

The steady progress towards a higher standard of farm living during the past one hundred years has been linked with a corresponding progress in the development of mechanized farm equipment. The widespread adoption of the modern tractor and other labor-saving machinery has helped farmers throughout the world in their realization of increased farm income —better homes —better living.

Chatsworth Chatter

Roads are not clearing very fast, though parts of the Ottawa road — which was snowplowed, are quite dry. Other places are quite wet—not to mention mud! It will be some time yet before all roads are passable for cars.

Our nice sunny Easter Monday holds a promise of warmer weather. There has not been much thawing during the past two weeks and it will be at least three weeks before fields are workable.

Frank Farkash attended the Calgary Bull sale held three weeks ago.

There has been an odd case or two of blackleg in our district. Frank Farkash recently lost a nice young heifer with the disease.

Miss Doris Giles and Bob Holmes of town sent Sunday March 30th visiting at Mr. and Mrs. Harry Good's.

Miss Marie Tulodzieckl of Edmonton visited at her parents' home in Ottawa district during Easter week end.

Several young people of this and surrounding districts are home on holidays. Violet Tovell, June Thompson, John and Frank Tulodzieckl, all attending high school in town, are spending Easter vacation at their respective homes.

Little Albert Branham is ill with chicken pox.

Mrs. McKee is visiting at Mr. and Mrs. George Lyons, east of town, after spending some time with Mr. and Mrs. George Garland at Calgary.

Mrs. R. Good left on the morning train Monday March 30th for Winnipeg where she plans to spend a month visiting relatives.

Crows, ducks—and mosquitoes—are here. It must be that spring has arrived!

Mr. Jack Pritchard who was minister in charge of the North Vermilion field of the United church last summer has received a special award in his studies at the University of Alberta.

Jimmie and Keith Fooks of town are spending the Easter holidays at Jim Thompson's.

Wildmere Winks

It is just 30 years this week since the writer's family landed in Vermilion from Ontario. On April 11th Bob Borhett drove us by team and democrat out to what is now Wildmere district. There was just about as much snow then as now, but a lot more water. There was no bridge over the Grizzly Bear coulee those days and no roads either—just a prairie trail winding here and there across the country. We spent the first month in a log shack on the farm now occupied by John Wilson while a house was being built on the homestead. George Wilson and the late Mr. and Mrs. Baillie Wilson and Miss Wilson were here then. Mr. Cairns who homesteaded at the same time moved to the coast last spring.

Lloyd Howard sawed wood last week so that's one more job done before spring work starts.

In a recent letter from Mrs. Graham at Calgary Sam she said David Gibbons and his lady friend had been out to visit her. Anyone from the home town and district is surely appreciated. We thought it very nice of David to call on her. He now works in and around Calgary.

We were very pleased to hear in a letter from Mrs. Roudell, now in England that she is to sail for home on April 19th, coming back by New York. She reports very bad weather in the Old country. The Gilbertsons had a very pleasant crossing but landed right in the worst of the floods and winter to do their visiting. Food is yet very scarce over there and food parcels are greatly appreciated.

Sunday evening Laurence Graham took the writer and family up to the Gibson home in Eastwood. We had a nice visit with Mr. and Mrs. Gibson Sr. from Woodside, Man. They look well and plan to return home this week end. We also saw Mrs. Frank Gibson's baby chicks which are a healthy looking bunch. On their return Mr. and Mrs. Gibson plan to build a home in Woodside and live in the village. Donald and Howard will run the farm. The Kesal family who also went to Manitoba are doing well. Mr. Kesal has been working at an Indian school north of Woodside driving Caterpillar tractor all winter. Howard Gibson spent the winter in a lumber camp at Kenora, Ont.

It must be spring as Mr. and Mrs. J. Wilson went to town on Monday, the first time out with the truck since Xmas time.

Funniest thing seen — Walter Maughan putting his tire chains on in a mud hole. You surely picked a swell place to put them on Walter!

BOWTELL

Dance in the Bowtell school on Friday April 18th. Gents 50c, ladies 25c. 48

Newsman is Family Man

—Don Flach, behind-the-scenes editor of CFRN's own radio news department, is not the typically tough newsman most people expect. His quiet, methodical work in gathering and compiling the terse, factual and impartial newscasts, seldom attracts notice, but he gets outstanding results just the same. Far from being a "five-star-final" type of man, Don Flach enjoys nothing more than an evening at his wood-working hobby bench, turning out toys for his two youngsters. He's a product of radio's newer school — highly skilled and trained men for every important job!

Vegreville School Division Board Holds Regular Meeting

The March meeting of the Board of Trustees of Vegreville School Div. No. 19, was held in Mannville on Friday March 28. Chairman Hinton presided and all trustees were present.

Minutes of previous meeting and financial report were presented and adopted.

The chairman reported on the A.S.T.A. convention held in Edmonton on March 12th. That convention went on record as favoring teacher salary negotiations being based on $1200 minimum.

The salary negotiating committee of the teachers' association again met the board. The board offered an amendment schedule based on an increase of $100 on all basic salaries (minimum $1200), and a further increase in increments totalling $8000; an average increase of $225. The cost of this new schedule would be an increase in yearly outlay of some $14,600 for the present staff of only teachers and will be more than the increase in grants that have been provided by recent legislation. The teachers' committee undertook to place the board's offer before their membership for approval.

The board had 17 applications before it for the job of full time repair man for this division. The successful applicant was Wm. Kichmeyer of Vegreville. He will commence his duties May 1st. The board authorized the purchase of a light truck for the use on repairs.

A site for a warehouse and repair shop has been secured by the board from the Town of Vegreville. Plans have been made and building will begin on this as soon as possible.

The board approved a site for a 2 roomed consolidated school on the S.W. corner of sec. 15-47-8W4. With the provision of van service in that area, this school will serve the following districts: Autumn Leaf, Paradise Valley, Heatherbell, Eltham and Saltaux. The board also approved the erection of a new one room school at Primrose.

Correspondence and accounts were considered and instruction given on matters therein. The board adjourned to meet again in Vegreville on Friday April 25th. —Veg. Observer.

ETHELWYN

The last social affair of the season was a whist drive in aid of the Red Cross. Due to bad roads it was not well attended but everyone voted it the best party of the series in spite of only four tables of whist. Even then there was one player short so that little Dean Cooper played the dummy hand. This was the first time that young Sandy McDonald had played too—these youngsters keep the rest on their toes to keep pace with them. Prizes were won by: Ladies first Joyce Evelyn Cooper; 2, Sandy McDonald; consolation, Dean Cooper. Gents first Roddy McDonald; 2, David Attfield; consolation Ernie Attfield. Due to Catriona being in ill health Mrs. MacGillivray has not been able to attend the parties this winter. We hope to have you and the children with us next winter Jessie, as well as the many others who have been unable to attend yet. These affairs are not big money makers but at least we know we are providing good clean recreation and amusement for our children right in their home school.

The above statement may be hard for anyone to believe who read the article in the St. Paul paper regarding a dance held in the Rye school. The writer is not trying to whitewash the affair but can safely say it was greatly exaggerated. In fact every one attending the dance was portrayed as a barbarian or worse. If the article was intended as a joke it was indeed in very bad taste. There is enough trouble and sorrow in the world without [illegible] the reputation of an entire district.

We are sorry to report that [illegible] Gallagher has suffered [illegible] and is very ill. Mrs. [illegible] spent several [illegible] mother.

The next item is good news. [illegible] Leonard MacGillivray is coming to [illegible] Edmonton next week and his mother [illegible] meeting him there. Everyone is looking forward to seeing him at home soon.

The writer received word that her sister got her hand caught in a press at the plant where she works. One finger was taken off at the second joint and the tip of another. The little finger was also crushed. Nesa is now at her home so if any old friends wish to write to her the address is Mrs. Nesa Newcomb, 1290 Grange St., New Westminster, B.C.

Joyce Evelyn and Dean Cooper entertained at an Easter party on Good Friday. The afternoon was spent in playing games, dancing and singing. Of course the most important item to all was the good lunch served. The guests were Jessie and Patsy McDonald, Lorette Burns, Lurlean Taylor, Wilfred and Phyllis Carlton.

Mrs. Morrison left for the coast last week to visit her two daughters and son.

Norman Seal has returned [illegible] working in the woods lumbering the winter.

The Cooper and Taylor households are going to be well supplied [illegible] summer wood. Duncan and [illegible] Taylor are busy sawing up the [illegible] pile at the local saw mill [illegible] [illegible] to the [illegible] mill [illegible] sawing [illegible] the other side Harold Cooper [illegible] huge logs into lumber.

The children will be pleased [illegible] that Sidney and David [illegible] have cleaned the school bus.

The writer would like to thank [illegible] MacGillivray for sending in so [illegible] news items this winter. We [illegible] be in the news more often [illegible] would do the same.

ANNUAL SPRING SALE

The Happy Hour group of the St. Saviour's Anglican church are holding their annual spring sale and tea in the Masonic hall on Saturday May 3rd at 3 p.m. 47-51

Successful Curling Season Reviewed At Derwent

Second Sheet of Ice A Possibility

The curling season at Derwent is at an end and it was a very successful one this year. Balance in the bank is $216.52 with a few bills to be paid. The season ended with a roarin' bonspiel with 11 rinks entered in the four events viz. Grand Challenge, Merchants, Citizens and Consolation. All rinks had a grand time and the prizes earned were very good and appropriate. List of events etc follows. The following committees were elected at the first of the year:

Ice Committee: Jno. Woywitka, J. Palinka, Bill Kerylo, Max Hamaryk.

Entertainment Committee — Peter Plishka, Bill Kerylo, [illegible]lawsky, Clarence Algot.

Draw Committee: Jno. Woywitka, Max Hamaryk and Geo. [illegible].

Ways and Means: [illegible]slawsky, Mrs. Pal[illegible], [illegible] [illegible].

[illegible]

The following skipped the rinks: [illegible], Hamaryk, Plishka, [illegible], [illegible]nell, Jacula, Palinka, Woywitka, [illegible]son, Beaudio, Chripow, Christie, Algot.

Grand Challenge: [illegible] tray stands donated by the Imperial [illegible] 2nd Plishka [illegible] donated by [illegible] and McConnell. Plaques donated by [illegible] Eaton Co. 4th [illegible] donated by J. Woywitka [illegible] Mirrors, donated by Coop [illegible].

Merchants: McConnell [illegible] donated by [illegible]. Frying pans donated by [illegible] Palinka. Groceries [illegible] donated by [illegible]. [illegible] donated by M. Hamaryk.

Citizens: [illegible] donated by [illegible]. [illegible] donated by [illegible]. [illegible] donated by Algot [illegible].

Palinka, Algot [illegible] donated by Andy Jacula [illegible] donated by [illegible] donated by [illegible]. Grand Aggregate: [illegible] donated by Ed Chorley.

Health LEAGUE of CANADA presents TOPICS of VITAL INTEREST

It has been said that teeth are like wives. Neglect them, and you are headed for trouble.

That's worth remembering, for teeth health has its effect on the entire body. A decayed tooth if neglected may lead to [illegible] serious or even fatal illness.

Authorities say that candy, sugar cakes, pastry, the refined carbohydrate foods, seem to be the greatest sources of food decay. Such foods [illegible] strict moderation. [illegible] hard unrefined foods such as green vegetables, raw fruits and dairy products are good for the teeth. They are rich in minerals, elements. Meat, eggs and whole wheat products also are needed.

After that comes exercise. Teeth need exercise to be healthy. Vigorous chewing does the trick.

Cleanliness is most important, too. So remember:

Teeth should be brushed after every meal.

Use a small toothbrush with well separated bristle tufts.

Dental floss or cotton thread drawn between teeth helps to remove food particles.

Upper teeth should be brushed downward, lower teeth upward.

Brush vigorously top surface of [illegible].

Mouth should be washed out with clean water.

Periodic examinations by a dentist are essential twice a year at least.

Pair Described As "Selfish" Gave Away $20,000,000

HOUSTON, Tex.—Hugh Roy and Lillie Cullen, describing themselves as selfish people, gave away $20,000,000 recently. The money will be used to establish a foundation for the purpose of aiding educational, medical and charitable institutions. Cullen said they were giving their money because "We are [illegible] selfish that we wish to see our money spent during our lifetime so that we may derive great pleasure from it."

Mr. and Mrs. Cullen's gift is in the form of oil properties containing some 30,000,000 to 40,000,000 barrels of oil, estimated to be worth $2.10 a barrel.

Rommel's Fortune Vanished In Tunisia

MILAN.—A 14,000,000,000 lire (more than $44,000,000) desert army hoard of Field Marshal Erwin Rommel, Hitler's desert commander, has vanished from a sand dune in Tunisia, it was reported.

The Milan evening paper Milan Sera quoted a returned Italian prisoner, Vincenzo Lana of Verona, as saying that when the landing of Allied troops in Tunisia was imminent, retreating German soldiers hid the desert army money in a gasoline tank. The tank then was buried under a sand dune.

The newspaper said Lana, later taken prisoner by British forces and repatriated when the war ended, obtained permission to land in Tunisia with French officials.

But on arrival in Tunisia, the newspaper said, the treasure was not in its hiding place. 2719

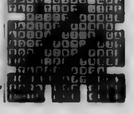
Answer To Last Week's Puzzle



WORLD HAPPENINGS BRIEFLY TOLD

Canada's unemployment insurance balance at the end of last year amounted to $362,083,761, the Labor Department announced.

Prince Philip of Greece has been granted British naturalization under the name of Philip Mountbatten, the London Gazette announced.

Administration of food and agriculture in the British and American zones of Germany has been transferred to German hands.

Increased value payments to bombed-out Britons which will cost the treasury an additional £50,000,000 ($200,000,000) were approved by the commons.

Likelihood of an increase in the price of milk distributed in British Columbia was forecast by Agriculture Minister Frank Putnam.

External Affairs Minister St. Laurent announced that Canada plans to build two low-frequency, long-range radar stations in her far-north this summer as aids to aerial and marine navigation.

Rear Admiral Richard E. Byrd said that New Zealand plans a South Polar scientific expedition and has invited American scientists to co-operate in projects there.

A prize of £330 ($1,320) was awarded a London architect who designed a new-type shelter which will be installed at bus stops as soon as it can be manufactured.

Letters and letter packages up to one pound in weight can now be mailed to any destination in Germany, the postal department has announced. Air mail as well as surface mail service is provided.

— To Feel Right — Eat Right!

GRANDMOTHER'S FIRST AIR TRIP—Mrs. H. J. Austin, 70, grandmother, of Hatteras, N.C., arrives by U.S. coastguard helicopter in Elizabeth City, N.C., from which point she was rushed to hospital for post-operational treatments. This was the first flight in the life of the aged woman.

Drastic Way To Ensure Easy Win

Ireland's Saturday Night says two countrymen at a fair approached a stall where little balls bobbed about on top of water jets. One tried his skill with the rifle but could not pot the bobbing balls.

"Let's have a shot," said his friend, and, taking the rifle fired. Every ball dropped.

As they walked away the unsuccessful one said: "That was good. How did ye manage it, Will?"

"Easy," replied Will. "I shot the man who was working the pump!"

THERE'S A DIFFERENCE

In the United States, a billion is a thousand millions, and a trillion is a thousand billions. In England and Germany, a billion is a million millions and a trillion is a million billions.

MAPLE SYRUP YIELD BEST IN YEARS

If you like lots of maple syrup on your pancakes (and who does not) you may be able to apply it more liberally this year. Now that the sap is running again in the maple sugar bushes of Ontario, there are early signs that the yield will be the best in years.

A Canadian Press survey shows that production in 1947 may come close to that of pre-war years when Ontario produced an average of 500,000 gallons annually in the five-year period, 1935-39, then slipped to a low of 124,000 gallons in 1945. Last year the total was 236,000 gallons.

Total production this year may be between 400,000 and 450,000 gallons, said an Ontario department of agriculture official. He also told the Canadian Press: "Your guess is as good as mine."

Interesting Items Gleaned from the Files of the Vermilion Standard
32 YEARS AGO TODAY — 1915

April 7, 1915

Mr. A. C. Smith of McGill College, Montreal, has taken charge of the Presbyterian mission field in the Cummings district.

Jess Willard, the Kansas cowboy, became the heavyweight champion of the world by knocking out Jack Johnson in the 26th round of the big battle at Havana, Cuba.

Spring work on the land has become general. The first plowing was done Saturday and several opened the season Monday. Heavy rain showers prevailed Friday night and Easter Sunday. Warm bright weather has prevailed all this week.

Sixteen Years Ago Today

April 9, 1931

Dave Kennedy's west end residence was damaged by fire; Percy Cooper had a .22 bullet pass cleanly through his left foot between the bones of his big and second toe; the first straw hat of the season was in evidence on the street; George H. Bell took over the bowlodrome from the former owner V. J. Bailey.

"ICE CYCLES of 1947" Coming to EDMONTON

PROVIDES PARADE of CHAMPIONS

World-famous ice skating stars will display their talents on flashing silver blades and in lavish Hollywood-created costumes when "Ice Cycles of 1947" opens a limited engagement of four nights and one Saturday matinee at the Edmonton Arena starting Wednesday April 30th.

Produced by the creators of "Ice Capades" and "Ice Follies", the new musical revue is the first major ice extravaganza ever to play in Edmonton. Sparkling with gigantic production numbers, talented skating stars, gorgeous costumes, enchanting music, exquisite scenic effects and "the most beautiful girls on ice". John H. Harris of Ice Capades and the Shipstads and Johnson of Ice Follies have applied their first-hand knowledge to the production of Ice Cycles to make it one of the most sparkling of all entertainment ventures.

Top names in skating featured in Ice Cycles include Robin Lee, Eleanor Meister, Henry Lie, Leo Loeb, Howard Sullivan, Jane Zeiser, Bud McNulty, Alan Lovell and Dick Merahew. The internationally famous Ice Cyclettes, a chorus of 50 ballet beauties, adds glamour and charm to the two and one half hour entertainment that features seven gigantic production numbers.

Ice Cycles of 1947 will play 4 nights at 8.30 at the Edmonton Arena starting Wednesday April 30th with a matinee scheduled for Saturday May 3 at 2:30 p.m. Mail orders for tickets can be sent direct to the Arena, Edmonton Exhibition Grounds, Edmonton, Alberta.

IMPORTANT GOVERNMENT NOTICE
Respecting Price Control

The following is a convenient summary of Board Order No. 711—published for the guidance and protection of Canadian consumers. It does not give the full legal text. For full details of the law reference should be made to the Order.

Summary of GOODS AND SERVICES REMAINING SUBJECT TO MAXIMUM PRICE REGULATIONS

As set forth in Wartime Prices & Trade Board Order No. 711—effective April 2, 1947

FOODS

- All flours, flour mixes and meals.
- Yeast.
- Bread, bread rolls, and bakery products.
- Biscuits, except those completely covered with chocolate.
- Processed cereals, cooked or uncooked, including breakfast cereals, macaroni, vermicelli, spaghetti, noodles and other alimentary paste products.
- Rice, excepting wild rice.
- Pot and pearl barley.
- Shelled corn, but not including popping corn.
- Dried peas, soya beans, dried beans except lima beans and red kidney beans.
- Starch.
- Sugar, sugar cane syrups, corn syrups, grape sugar, glucose.
- Edible molasses.
- Honey.
- Tea, coffee, coffee concentrates.
- Malt, malt extract, malt syrup.
- Black pepper and white pepper, and substitutes containing black or white pepper.
- Butter.
- Cocoa.
- Cheddar cheese, processed cheese and cream cheese.
- Concentrated milk products of all kinds.
- Ice cream.
- Salad and cooking oils.
- Salt.
- Fresh apples — 1946 crop.
- Raisins, currants, prunes, dried dates, dehydrated apples.
- Tomatoes, tomato sauce, tomato paste, tomato pulp, tomato puree, tomato catsup, chili sauce, when in hermetically sealed cans or glass.
- Canned pork and beans, canned spaghetti and canned soups.
- Canned corn, canned peas, canned beans excluding the lima and red kidney varieties.
- Canned apricots, canned peaches, canned pears, canned cherries, canned plums.
- Fruits and vegetables in the two preceding items when frozen and sold in consumer size packages.
- Jams, jellies, marmalades.
- Meat and meat products, not including game, pet foods, and certain varieties of cooked and canned meats.
- Sausage casings, animal and artificial.
- Live, dressed and canned poultry (but not including turkeys, geese or ducks, live, dressed or processed, poultry spreads, poultry stews and poultry in pastry or pie crust).
- Canned salmon, canned sea trout, canned pilchards of the 1946 or earlier packs.
- Edible animal and vegetable fats including lards and shortenings.

CLOTHING

- Men's, youths' and boys' coats, jackets and windbreakers made wholly or chiefly of leather.
- Men's, youths' and boys' suits or pants made wholly or chiefly of cotton or rayon.
- Men's, youths' and boys' furnishings as follows:—blouses; collars; pyjamas, nightshirts, underwear, other than that made wholly of wool; dressing gowns, other than those made wholly of all-wool fabric; shirts, including sport shirts other than those made wholly of all-wool or all-rayon fabric.
- Women's, misses', girls', children's and infants' garments of all kinds (but not including—(a) garments made wholly of all wool fabric, (b) raincoats, or (c) jackets and windbreakers, except when made wholly or chiefly of leather).
- Women's, misses', girls' and children's accessories as follows: dickies, bibs, halters, neckwear, collars, cuffs and aprons.
- Knitted wear for either sex as follows: undergarments, other than those made wholly of wool; circular knit hosiery of cotton or rayon.
- Work clothing, including aprons for either sex, when made wholly or chiefly of cotton or leather.
- Uniforms for either sex.
- Gloves, gauntlets and mitts for either sex when made wholly or chiefly of cotton or leather, except those designed as specialized sports equipment or for specialized industrial uses.
- Brassieres; foundation garments, but not including surgical corsets.
- Diapers and diaper supports.

HOUSEHOLD AND OTHER TEXTILES

- Textile products as follows, when made wholly or chiefly of cotton or rayon: bath mats, bedspreads, blankets except horseblankets, curtains, dish cloths, dish towels, drapes, face cloths, luncheon sets, napkins, pillow cases, sheets, silence cloths, table cloths, throw-overs, toilet seat covers, towels, wash cloths, window blinds, window shades.
- Floor rugs and mats chiefly of cotton.

DOMESTIC FUELS

- Coal, coke and briquettes until April 15th, 1947.

HOUSEHOLD EQUIPMENT AND SUPPLIES

- Furnaces, fire-place heaters and other heating equipment except portable electric heaters.
- Jacket heaters and other water heating equipment.
- Soap and soap compounds.

MOTOR VEHICLE ACCESSORIES

- Pneumatic tires and tubes when sold for the purpose of or as original equipment on agricultural machinery.

CONSTRUCTION PRODUCTS

- Lumber of all kinds.
- Millwork such as doors, sashes, windows, stairs and gates.
- Plywood and veneers.
- Pre-cut lumber products designed for use in residential or farm buildings, but not including fully pre-fabricated buildings.
- Gypsum board and gypsum lath.
- Wallboards and building boards.
- Cast iron soil pipe and fittings.
- Nails.

AGRICULTURAL MACHINERY, IMPLEMENTS, EQUIPMENT AND SUPPLIES

- Practically all items of farm machinery, including planting, seeding and fertilizing equipment, plows, tillage implements and cultivators, haying machinery, harvesting machinery, tractors, wagons, dairy machines and equipment, sprayers and dusters.
- Articles of barn and barnyard equipment.
- Incubators, brooders, poultry feeding and watering equipment.
- Stationary gas engines.
- Harness and harness hardware.
- Barbed wire and other fencing wire and fences.
- Binder twine.
- Wheelbarrows.
- Feeds and feed products of all kinds except horse meat, pet foods, straw, clam shell and poultry grit.
- Fertilizers of all kinds, but not including humus, muck, manure, sphagnum moss or peat moss.
- Gopher poisons.
- Seed beans and seed peas.
- Grains as follows: wheat, barley; oats, flaxseed, buckwheat, rapeseed, sunflower seed; grain screenings.

RAW AND PROCESSED MATERIALS

- Basic iron and steel products and alloys, including pig iron, cast iron, scrap, ingots, bars, plate, rods and wire.
- Primary, secondary and fabricated mill forms of the following non-ferrous metals and their alloys: copper, lead, tin and zinc.
- All fats and oils, including Vitamin A oils, of animal, vegetable or marine origin but not including refined medicinal cod liver oil.
- Glue stock, glues and adhesives of animal origin.
- Starches.
- Fibres, raw or processed, as follows: cotton, hemp, jute, sisal, all synthetic fibres and filaments excepting glass.
- Yarns and threads of, or containing any of the fibres listed above.
- Fabrics, over 12 inches in width whether knitted or woven of, or containing any of the yarns and threads referred to above.
- Sewing, embroidery and crochet yarns, threads and floss of any of the yarns and threads referred to above.
- Bobbinet, dress and curtain nets and netting.
- Elastic yarns, fabrics and webbing.
- Hides and skins from animals of a type ordinarily processed for use as a leather.
- Leathers and synthetic leathers of all kinds.
- Sheepskin shearlings, tanned, but not further processed than combed or sheared and coloured on the flesh side.

PULP AND PAPER

- Wastepaper.
- Wood pulp, except
  - (a) dissolving grades,
  - (b) "alpha" grades of bleached sulphate,
  - (c) "Durasol",
  - (d) groundwood and unbleached sulphite grades sold for the manufacture of newsprint or hanging paper.
- Newsprint paper except when sold by manufacturers thereof.
- Paper board used in the manufacture of solid fibre or corrugated shipping cases.
- Boxboard grades of paper board, except for wrapping newsprint paper or making newsprint cores.

CONTAINERS AND PACKAGING MATERIALS

- Containers, packaging and wrapping devices of a type used for the sale or shipment of products, when made from a textile fabric and including bags, cases, envelopes, folders and sacks.

SERVICES

- Transportation of goods and services associated therewith.
- Warehousing, dry storage of general merchandise and household goods other than wearing apparel; cold storage, including rental of lockers and auxiliary services such as processing charges in cold storage plants.
- Supplying of meals or refreshments for consumption on the seller's premises, the supplying of beverages (except alcoholic beverages) by purveyors of meals or refreshments, the supplying of meals with sleeping accommodation for a combined charge, but not including the supplying of meals, refreshments or sleeping accommodation by an employer to his employees, directly or through a servant or agent.
- The packing or packaging or any other manufacturing process in respect of any goods subject to maximum prices when performed on a custom or commission basis.

USED GOODS

- Used bags and used bagging and baling material.

Any material shown above processed for incorporation into, or any fabricated component part of any of the above goods is subject to maximum prices.

Also any set which contains an article referred to above is subject to maximum prices even though the remainder of the set consists of articles not referred to.

DONALD GORDON, Chairman,
Wartime Prices and Trade Board.

THE WARTIME PRICES AND TRADE BOARD

W. D. Stacey Ends Provincial Service

FORMER VERMILION MAN

Retirement of W. D. Stacey, superintendent of buildings for the provincial government, and appointment of Arthur Arnold, housing director, to succeed Mr. Stacey, has been announced by Hon. W. A. Fallow, minister of public works.

Mr. Stacey will leave the civil service May 1 after 14 years as superintendent of buildings. In that capacity, he has been in charge of all government buildings in the province, has supervised the construction of new buildings and repairs and renovations.

For many years prior to joining the government service Mr. Stacey was well known as a building contractor operating at various points in the province. In this capacity, he constructed many of the present larger schools in northern Alberta.

In announcing Mr. Stacey's retirement, Mr. Fallow paid tribute to his service to the government. The minister said Mr. Stacey [illegible] request of Mr. Fallow [illegible] another [illegible] be found.

Mr. Arnold [illegible] eastern Canada [illegible] was in charge [illegible] of the national housing administration when he was lent to the provincial government to assist in the development of housing projects the provincial government had started. A year ago he joined the provincial civil service as director of housing in the department of economic affairs.

Mr. Fallow said Mr. Arnold had all the architectural and other qualifications necessary for the post of superintendent of buildings. —Journal.

Mr. Stacey was manager of the Hayward Lumber Co. yards here for several years in the early '20s. He has been a frequent visitor to Vermilion in his official capacity in recent years.

Edith Hay's group is having coffee time at Ruth Meyer's on Saturday, April 12th. Come and have coffee with us. 16-1c

Radiograms

With CJCA's joint celebrations (25th anniversary and increase in power) scheduled for April 27, and with Daylight Saving Time adjustments probably destined for that same day, the month of April is offering round-the-clock activities for several departments at the station.

25th ANNIVERSARY

Plans for celebrating the 25th anniversary (a rare occasion in the radio industry anywhere) are gradually reaching the climactic stage, with preparations of publicity material, special programming and numerous other activities intensifying from day to day.

INCREASE POWER

The same is true in connection with plans for upping the power from 1000 to 5000 watts. The technical staff is bearing the brunt of this load, working feverishly to have everything set for the 27th. The change of location from Belmont to Ellerslie, has necessitated new construction and installation from the bottom up.

FAVOR DAYLIGHT SAVING

The uncertainty as to whether or not Edmonton will adopt Daylight Saving Time at the month-end stymies the inner working of radio operation no end. At the moment we can only sit with our fingers crossed hoping that Edmonton will do as all major cities in Canada have done, and adopt Daylight Saving Time for the summer months.

If Edmonton remains on Standard Time while other cities adopt Daylight Saving the result will be most chaotic from standpoint of program adjustments and listener relations generally. Confusion will reign supreme in Edmonton while other cities will continue with uninterrupted radio enjoyment plus an added hour [illegible]

Don Graham Comments on EVERYBODY'S BUSINESS

Some of us were talking the other night about all the money that's needed to keep up progress in Canada.

"Who's going to pay for all this progress?" one of my friends wanted to know.

Jack Henderson answered that one, and hit the nail right on the head.

"Progress [illegible] pays for [illegible] more progress [illegible] progress at all," he said. "The money to pay for present and future improvements should come from successful planning in the past."

That reminded me of how for each Canadian man, woman and child there's about $300 of life insurance money invested, in thousands of private and public enterprises. It's creating jobs which lead to more jobs (and that's real progress) while it's waiting to be paid out on policies bought in the past by people who planned for progress.

EVIL TARIFFS

An International Conference will sit this April on tariffs. No group of people in the world depend for their prosperity on lower tariffs as much as do our prairie farmers. Every farmer in his own interests should write now to his Member of Parliament and to the Prime Minister of Canada, urging them to work for lower Canadian tariffs.

Searle Grain Company, Limited

A National Outlook

A GREAT DEAL HAS BEEN HEARD in Canada in recent years concerning the need for strengthening the bonds of unity between the provinces and promoting the growth of a truly national outlook. In a country where distances are as great as they are here, and where the climate and the nature of the land vary greatly in different localities, it is to be expected that [illegible] national problems should be more numerous than in a more compact country. It could not be said that there is any great degree of intolerance among the people of Canada today, nor that there is a serious lack of national unity. However anything which can be done to lessen such intolerance as does exist and to promote unity of thought and purpose should receive public encouragement and support.

* * *

Would Promote National Unity

At a recent meeting of the board of directors of the Canadian Teachers Federation a resolution was passed asking the collaboration of the Canadian Education Association in establishing a [illegible] certificate which would be acceptable in all the provinces. This motion will come up for consideration at the annual convention of the Canadian Teachers Federation in Halifax next August. Miss Ethel [illegible] of Saskatoon, president, said that the federation would like to see the establishment of a standard of teacher training high enough to meet the requirements of all the provinces. It would appear that such a move should do much to improve the standard of education throughout the country and to [illegible]. At the present time, because of the fact that teacher's certificates are acceptable only in the province in which they are issued, there is [illegible]

Education Is A Powerful Force

[illegible] standing [illegible] Many educational [illegible] Education is a powerful force [illegible] the welfare of the nation.

GARDEN NOTES

◆ ◆ ◆

Most Use Your Space

Where the vegetable garden is small big growing things like corn, peas, tomatoes, potatoes and other large vegetables create a special problem. Unlike lettuce, spinach, beets, beans, carrots, etc., which can be fitted into rows only 12 to 15 inches apart if necessary, these others take up twice or more than that room. Corn, tomatoes and potatoes need from 18 inches to 2 feet between hills or plants and if one is to have enough green peas for a meal from each picking there at least 20 feet of row and preferably 50 feet will be necessary.

Those gardeners with only a plot 20 feet or so each way usually decide after some experience to abandon potato growing altogether. There are other things that take up less room and yield far more. The other three vegetables mentioned however should not be given up without more consideration. The quality of peas and corn right out of the garden cannot be duplicated. A distinct change takes place in both vegetables in from two to four hours after picking, the sugars changing to starches.

Thinning Is Important

After the first seeds are started the next big job is thinning and spacing. This is vital work and applies to either flowers or vegetables. Crowded flowers will grow thin and spindly, will not bloom freely and the biggest plants will topple over in the first storm. They should have half as much room between as they will grow tall. This means about 4 to 5 inches for things like nasturtiums, less for alyssum, much more for tall marigolds, cosmos or spider plants.

With the smaller vegetables a couple of inches between plants is sufficient. This applies to leaf lettuce, early carrots, beets, etc. Beans and peas should have from 4 to 6 inches between plants and as all the seed usually germinates it should be planted about this far apart. [illegible] should be from 1½ inches to 2 feet apart. Corn is usually planted 3 to 6 seeds to a hill about 18 inches apart each way or rows 2 to 3 feet apart. Tomato plants require at least 18 inches each way. Melons, squash and cucumbers, three plants to a hill and hills about 3 to 5 feet apart.

Special Flowers

Listed in any good seed catalogue will be flowers that fit special locations. Some like portulaca do best in blazing sun and poor soil, some like damp spots, a large number prefer partial shade, and a few actually thrive best in a dark corner. The tuberous rooted begonia is one that [illegible] and produces brilliant flowers [illegible] special characteristics.

Sea sponges are animals. They belong to the sponge family and are found in the Gulf of Maine.

KIDNEY ACIDS Rob your Rest..

Many people never seem to get a good night's rest. They toss and turn—blame it on "nerves"—when it may be their kidneys. Healthy kidneys filter poisons and excess acids from the blood. If they fail and impurities stay in the system—disturbed rest often follows. If you don't rest well, get and use Dodd's Kidney Pills. Dodd's help the kidneys so that you can rest better—and feel better. 136

SWEETER TASTIER White Bread

RECIPE

Put 1 c. lukewarm water in bread bowl, add 1 envelope Royal Fast Rising Dry Yeast and 1 tsp. sugar; mix, let stand 10 min. Scald 2 c. milk, add 4 tbs. sugar; add 3 tsp. salt; cool to lukewarm. Add to yeast with 1 c. water, add 6 c. sifted flour; beat well. Add 4 tbs. melted shortening and 4 c. more sifted flour, or enough to make easily handled dough. Knead dough quickly and lightly until smooth and elastic. Place dough in greased bowl, cover, set in warm place, free from draft. Let rise until doubled in bulk. Punch dough down in bowl, let rise again until about ⅔ as high as first rise. When light, divide into 4 equal portions, shape into balls. Cover with cloth, let rest 10 to 15 min. Shape into loaves, place in greased bread pans. Cover, let rise until doubled in bulk, about 1 hour. Bake in 425° F. oven for 15 min., then reduce heat to 375° F. Finish baking about 30 min. longer.

MOUNTED POLICE SEEKING BANDSMEN FOR MUSICAL RIDE

The Royal Canadian Mounted Police is reviving its musical-ride feature and Inspector J. T. Brown, director of music, is on a recruiting mission to bring the R.C.M.P. band to authorized strength of 46 musicians.

Practices for the musical ride have already started at Rockcliffe Barracks after a call had been issued for volunteers for the "team" from the personnel of the force. A full complement of candidates has been obtained and both men and horses are already in training. The post-war revival of the ride will mean the return of the feature of a number of exhibitions and horse shows later this year.

The R.C.M.P. band is slated to make a number of appearances at fairs in both Canada and the United States.

FUNNY And OTHERWISE

Tourist: "Any big men born around here?"

Native: "Nope. Not very progressive round here; best we kin do is babies. Diff'rent in the city, I s'pose."

* * *

Conceited Young Man: "Have you an opening for an intelligent man with a university education?"

Businessman: "Yes. And don't slam it as you go out!"

* * *

The former vicar and his wife decided to attend the church social of his old parish. The new vicar greeted his predecessor heartily.

"I'm very pleased to see you again," he said. "And is this your most charming wife?"

The other vicar fixed his host with an accusing stare.

"This," he said reprovingly, "is my only wife."

* * *

B. F.: "I think you're the most beautiful girl in the world."

G. F.: "Oh, you'd say so even if you didn't think so."

B. F.: "That makes us even—you'd think so, even if I didn't say so."

* * *

People who live in these apartment buildings don't know anything about each other, I hear," said the man from the country.

"No," replied the flat dweller, "but you can't have cabbage for dinner without everybody else in the building finding it out."

* * *

Teacher: "Tommy, why is your composition on milk only half a page when I asked for two pages?"

Tommy: "Well, you see, I wrote about condensed milk."

* * *

Two office boys were discussing business.

"Have you got a good job?" asked one.

"Yes," came the prompt reply. "I can get to the office any time I choose before nine and leave just when I please after six."

* * *

The seven ages of women are: The infant, the little girl, the miss, the young woman, the young woman, the young woman, the young woman.

* * *

Smith: "So you're setting your boy up in the bakery business?"

Jones: "Yes, he's so keen on dough and such a swell loafer that I'm sure he'll rise in the business."

* * *

Judge—Haven't I seen you before?

Tailor—Maybe. So many owe me money I can't remember their faces.

* * *

Last week a grain of sand got into my wife's eye and she had to go to the doctor. It cost me $3."

"That's nothing. Last week a fur coat got into my wife's eye and it cost me $300."

GEMS OF THOUGHT

GREATNESS

Greatness is a spiritual condition worthy to excite love, interest and admiration; and the outward proof of possessing greatness is that we excite love, interest and admiration.—Matthew Arnold

A sense and religious regard to spiritual and eternal things is an indispensable element of all true greatness.—Daniel Webster

The study of God's word for the purpose of discovering God's will is the secret discipline which has formed the greatest characters.—J. W. Alexander

If any man seeks for greatness, let him forget greatness and ask for truth, and he will find both.—Horace Mann

Nothing can make a man truly great but being truly good and partaking of [illegible] holiness.—Matthew Henry

The sun is 400 times as large as the moon. 2739

FOOD RIOT IN DUSSELDORF

A food riot is being staged by 100,000 in Dusseldorf, one of the most heavily bombed cities in Germany. It is not an uncommon sight to see soup lines or a child, such as the one above, begging for food on the streets. British tommies were booed and a military car was over-thrown in the lake by the mob which gathered in a public park to protest the lack of food. The daily ration is far below the Canadian standard.

SELECTED RECIPES

PIE CRUST HELPS

For each 2-crust pie allow:

2⅓ cups sifted flour
¼ teaspoon baking powder
½ to 1 teaspoon salt
⅔ cup cold shortening
[illegible] cup cold water (about)

Sift flour once, measure, add baking powder and salt, and sift together into bowl. Cut in shortening until pieces are about the size of small peas. Use two knives or a wire pastry blender for this.

Add water a small amount at a time, mixing lightly with a fork. Press into a ball. Cover and chill before rolling.

Roll out on a lightly floured board to ⅛-inch thickness. Bake pastry in a hot oven (450 deg. F.). Makes enough for one 9-inch 2-crust pie or two 9-inch shells.

1. Keep pastry cold if you want it flaky.
2. Handle and roll as little as possible.
3. Roll lightly, using as little flour as possible. Roll from the centre of the dough out and up, not back and forth. Let the rolling pin do the work.
4. If you can, use pastry cloths over the board and rolling pin. These hold the rolled pastry and lessen the amount of flour and rolling needed.
5. Try making unbaked pie shell the day before filling and baking. Pastry will be more crisp.
6. You can make up 2-crust pies ahead of time and bake them fresh for evening or even on the next day.

To Feel Right — Eat Right!

SEASON FOR DUCK HUNTING MAY BE SHORTENED THIS FALL

OTTAWA.—Canadian hunters will be able to go duck-hunting this fall despite a National Audubon society proposal in Washington for a one-year moratorium on hunting of migratory fowl in North America.

However, officials of the wild life protection division, mines and resources department, warn that the duck situation is becoming "rapidly worse."

The season "probably" will be shorter than last year and the "bag" reduced.

The department is awaiting reports on the winter's bird survey, upon which to base the quotas and length of season for 1947. Annual regulations are announced in July.

In January, 1946, there were an estimated 80,000,000 ducks in Canada compared with 105,000,000 for the corresponding period of the previous year. During the war when hunters were few, the duck population jumped to 140,000,000.

Last year's count of geese in Canada was approximately [illegible], a drop of about [illegible] from 1945.

Female Racketeers Pose As Servants

VANCOUVER. — The public relations department of the Unemployment Insurance Commission reported that female racketeers, posing as domestic servants, have been cheating housewives of considerable sums of money.

The women, who claim they are "recommended by Selective Service," apply for a job and ask for an advance of wages, officials said. Many householders have advanced as much as $35, and they are no more of the so-called household worker.

Canadian Beauties To Compete For "Miss America"

ATLANTIC CITY, N.J.—Beauties from nine provinces of Canada and from Mexico will compete for the first time this September in the annual Miss America beauty pageant.

The board of directors of the pageant said the new entrants would bring the field to about 60, making it the largest in the pageant's history.

Local News of Interest

Mr. and Mrs. Chester P. Lipsey announce the engagement of their youngest daughter Phyllis Mary, to Mr. Roderick Alex Fallow, youngest son of the Hon. W. A. and Mrs. Fallow of Edmonton. The wedding to take place May 14th at First United church, Vermilion, at 7 p.m.

Mr. and Mrs. F. J. Richardson of Vermilion announce the engagement of their daughter Barbara Ann to Mr. Melvin May, son of Mr. and Mrs. Norman May of Vermilion. The wedding to take place early in May.

Mr. Richard Craig of Sarnia, Ont., was a recent visitor in town, a guest at the home of his sister Mrs. A. M. West. Mr. Craig homesteaded in the Indian Lake district in the early days of settlement but left here in 1913 to move to Sarnia. This is the first occasion that he has been back to Vermilion since that time so he finds the town quite a different place now.

Mrs. L. H. Bussard returned last week from two weeks spent at St. Paul and Minneapolis, visiting her husband who is attending the University of Minnesota.

Gordon Park and George Grafton were business visitors to Calgary over the week end and while there saw the final game of the Calgary-Kimberly hockey play-off. From all accounts the game was well worth seeing.

Mr. and Mrs. William Bulch, Rossland, B.C., have announced the engagement of their second daughter, Jean Isabelle, to Mr. David Rae Calder, younger son of Mr. and Mrs. R. M. Calder of Mannville, Alberta. The wedding will take place in St. Andrews United church, Rossland.

Miss Lilian Leversedge and Miss Helen Farquarson of Edmonton were the guests of Dr. and Mrs. Leversedge at the Rectory for the Easter week end.

Mrs. Ray Williams and baby daughter Marilyn are spending the week in town visiting the former's parents Mr. and Mrs. C. J. Isley. Mr. Williams is attending the Edmonton Spring livestock show.

Marshall Burns of Edmonton spent Easter visiting his uncle and aunt Mr. and Mrs. Owen Burns in Vermilion.

Doug Harrington attending [illegible] school in Edmonton was an Easter visitor in his home in town.

Mr. and Mrs. Barney Klashtosky returned home last week after spending several months visiting at various places along the west coast. Headquarters for their visit was the home of their daughter Mrs. Bob Mc[illegible] in Vancouver. The Standard hasn't seen Barney to find out just what he does think of the coastal climate.

One of the district's oldest settlers, Mr. J. B. Titus left here last week for a visit with his sister Mrs. Norman Smith of Vancouver. Accompanying him on his trip was Lester Wa[illegible] also of the Cummings district.

Charlie Deford returned last week from several months spent in visiting his daughters and families at Calgary, Trochu and Creston. He also made a trip to Athabasca where he visited his nephew Gilbey Deford and family. Charlie reports that Gilbey who left here some 18 years ago, now has a fine ¾ section farm of his own and that he has one daughter teaching school and another daughter in [illegible]. The Mayor of Athabasca is also a former Vermilion man, Mr. Al Sharp.

FLIGHTS OF GEESE

Several flights of geese passed over town Tuesday morning and caused a general stop in the traffic on Main. The honkers were low and flew along above the business section making considerable noise and our hunters seemed to drop everything and headed for the street. Russ Carroll popped out of the hardware door. Carman Long hurried from the P.O. Alf Prachnuk stopped his truck in full flight and stood on the running board in order to get a good look at them. Joe Clark did likewise and Curt Martin rushed from the tinshop—the honkers flew on, little realizing the interest they had caused down below.

John Fisher, Clandonald Passes Away

On March 22nd, 1947, John Fisher passed away at his farm home at the age of 80 years. Born in Ballycastle Co. Antrim, Ireland he came to Clandonald in 1926 and lived there since with his wife and 6 children. Having a friendly disposition and always willing to help he had many friends in both countries.

He leaves to mourn his loss besides his beloved wife, 3 sons, 3 daughters and 4 grandchildren, all living at Clandonald. There are 2 brothers and one sister living in Ireland and one sister in Chicago, Illinois.

Funeral services were held at St. Columba's Church March 26th where a Requiem high mass was solemnized by Rev. Fr. MacPhee. The choir was led by Mrs. Tim Lawrence and interment took place in the Roman Catholic cemetery.

Forty-three spiritual bouquets were received and 4 floral wreaths.

WEDDING BELLS

CARLSON—FENTON

A quiet wedding was solemnized at the United church, Lloydminster on Saturday March 15th at 3 o'clock in the afternoon when Mary Irene Fenton, eldest daughter of Mr and Mrs J. I. Fenton became the bride of Mr. Gune Arthur Carlson of Streamstown. The Rev. R. K. Lemkay officiated.

Following the ceremony a wedding supper was served at the Royal cafe in Lloydminster.

Out-of-town guests were Mr. and Mrs J. I. Fenton and Mrs De Leeuw of Vermilion, Mr. and Mrs. C. S. Fenton, Mr. and Mrs. B. S. Carlson and Mr. Vic Bystrom, all of Streamstown.

The young couple will reside on their farm six miles north of Streamstown.

KENILWORTH

Dance and Bazaar in aid of the Jr. Red Cross will be held at Kenilworth school April 25th. Good music. Everybody welcome.

BIRTHS

Mr and Mrs A. Ben King, a girl, on April 9th.

Stagette Notes

Thirteen Stagette members attended the regular weekly meeting Tuesday night. The Easter holidays being responsible for the absentees this week. No alibis next week girls.

Past president Marg Gervin conducted the meeting. We wish to thank Mrs Hampton and Mrs E. McKitrick for helping us with the lunch, they were just grand, also Ruth Quan and Mrs W. M. Steele for the [illegible].

Please note: The Springtime Frolic advertised before will be held on the 13th of May, the change is due to V-E day dance which is on the 9th of May.

Tulips and daffodils were the flowers we undertook to make. It was rather hard to tell which was which for a while but even Gibbon's tulips turned out to be daffodils before she finished.

Business meet next week girls, see you all then.

ANNUAL SPRING SALE

The Happy Hour group of the St. Saviour's Anglican church are holding their annual spring sale and tea in the Masonic hall on Saturday May 3rd at 3 p.m. 47-48

Two Vermilion pioneers celebrated their birthdays on Tuesday. These were Mrs. Beck who resides at the home of her daughter Mrs. H. E. Parker, and who was born in the year 1856 and former Chief of Police H. C. Oakley who is now 76 years of age.

CARD OF THANKS

Mrs Fisher and family extend sincere thanks to their many kind friends and neighbors who assisted them so generously in their bereavement.

Largest V.S.A. Graduating Class in History of School

CLOSING EXERCISES APRIL 9th

Scholarship Winners Announced

Closing exercises held at the Vermilion school of agriculture and home economics on Wednesday April 9th were featured by the largest graduating class in the 25 year history of the institution, 113 graduates, girls and boys of the second year and two-in-one classes received their diplomas in Home Economics and Agriculture.

Guest speakers for the afternoon included Dr. Robert Newton, president of the University of Alberta; R. M. Putnam, assistant deputy minister of agriculture and director of agricultural extension; H. H. Gandier, superintendent of agricultural schools, and N. N. Bentley, principal of the school.

During the afternoon's program diplomas were presented to the graduating students and the longest list of scholarships and prizes ever given at a school of agriculture were awarded to the winning boys and girls.

The fashion parade was held during the afternoon. This is an attraction of the graduating exercises whereby the young lady students exhibit dresses, suits and graduating gowns, their own handiwork of the year. The fashion parade is but one of the many features that accentuate the very desirable and worthwhile type of training received at the school of agriculture [illegible].

Afternoon activities were followed by the evening banquet, attended by the graduates, their parents or members of the family, the V.S.A. staff and a small number of guests. The toast "To the School" was proposed by Mr. S. C. Heckbert, president provincial command of the Canadian Legion and a former member of the school teaching staff. The reply was given by Mr. Perley of Calmar, Alberta, president V.S.A. Alumni and a member of the provincial agricultural advisory board.

Mr. Jack Kerns, member of the staff, toasted the graduates, and Mr. Martin Albers, who served as president of the Students' Union responded.

The banquet attended by 166, was a colorful and striking feature of graduation day and no doubt will ever remain a pleasant memory to the graduates and others present.

The final event of graduation day and of the school year, was the dance held in the evening attended by all students and by the general public.

NINE-HOLE GOLF COURSE IS LAID OUT

PLANNED BY GORDON BRINKWORTH

The Vermilion Golf club was very fortunate in securing the services of Mr. Gordon Brinkworth, landscape architect and professional golfer, to plan and lay out their new nine-hole golf course. Mr. Brinkworth spent several days here last week doing the work, and the local golfers, along with Mr. Brinkworth, feel that Vermilion will have one of the finest and most scenic golf courses to be found in the west. The new course too, will be a real test of the skill of many of the local golfers.

The executive now hopes that all prospective members will make it a point to inspect the new layout.

Only about half of the 160 acres purchased has been used in planning the new course. In order to decide just what is to be done with the unused balance, a shareholders' meeting has been called for Tuesday April 29th in the Elks hall. All shareholders are urged to attend.

Work has now commenced on the greens and fairways and it is hoped to have the course in playing condition in the very near future. Anyone wishing to help out by purchasing shares is asked to contact any member of the executive.

A drive for playing members will be undertaken soon and it is hoped to secure a large membership of enthusiastic golfers.

Canadian Legion Holds Vimy Smoker

On Monday April 14th the Vermilion Branch of the Canadian Legion held their regular monthly meeting. Business was cut short since April 9 is the anniversary of the Battle of Vimy, the business meeting was followed by the annual Vimy smoker.

Comrade Jim Ronan, a veteran of the second world war, told the story of the Battle of Vimy and proposed a toast to the veterans who fought and died at Vimy. This toast was replied to by Harry Scott. Alex Kats was master of ceremonies, assisted by George Martin who led in the entertainment of the evening. Comrades Friswell with his banjo and Fred Brimacombe at the piano assisted greatly. All those present agreed that this Vimy smoker was the best held in years.

Military Dance A Decided Success

All branches of the service, army, navy and air force, were well represented at the military dance held in the spacious V.S.A. gymnasium on Tuesday evening April 15th. The dance attracted upwards of 40 people, by far the majority of the men being in uniform while service-women were also in evidence.

Attending the dance from Edmonton were Col. T.E. Snow, Administrative officer, Western Command; Lt Col W. T. Cromb, commanding officer The Loyal Edmonton Regiment; Lt. Col. Kinnaird, former commanding officer Loyal Edmonton Regiment; Major Bartlett, A.A. & Q.M.G., 18th Infantry Brigade; Capt. Stott, instructional officer, all of Edmonton, Major Frank [illegible], O.C. of the Vegreville Company and many other notable officers, besides almost complete attendance of local military officials and men.

Pipe Major McMillan and Piper Rod McMillan led the Grand March while the Oriole orchestra supplied very acceptable music. Ample refreshments were served during the supper hour in the school dining hall.

The dance was held under auspices of the Citizens Reserve Force committee, and those in charge are to be heartily commended for the very successful handling of this ambitious event.

APPRECIATION

On behalf of the Reserve Force Citizens committee, Capt. W. H. Scott wishes to thank all the willing workers who contributed so generously of their time and energy to make the military dance a success.

"GREEN ACRES"

TREATING SEED GRAIN

If you are thinking of treating seed grain with formalin this year—Don't! The mercuric dust treatments, Leytosan and Ceresan are now used for prevention of smut by all well informed farmers. Besides preventing smut, Ceresan and Leytosan promote better germination and help in disease resistance. Even at the recommended rates for mixing formalin, seed is damaged by lowering germination and vitality. It is better to use the new methods.

PLANTING SHELTER BELTS

Success in growing shelter belts can be assured if the following points are followed:

1 Plant only on deep, thorough summerfallow.

2 Prevent drying out of roots before planting.

3. Tamp the soil hard around the roots.

4 Water in dry spells during the first year.

5. Fence the windbreak.

6. Cultivate regularly to keep out weeds and grass.

Get circulars on tree planting from your D.A.

EDMONTON BULL SALE

Breeders from this district were in the headlines during the Edmonton Bull sale. C. J. Green sold the Grand Champion Shorthorn for $950 and Dick Hines of Hazeldine bought the highest priced Hereford for $660.

Jack Cross won a first for Hereford bulls. Lyle Robinson obtained first prize for his Shorthorn heifer and W. D. Williams and Son got second placing in Shorthorn entries.

PROFIT IN HOGS

A. J. Charnetski, Provincial Live Stock Supervisor has issued a statement of facts on hog and grain values. His comparison of prices for grain and hogs between Alberta and Ontario indicates that eastern farmers have no advantage in spite of reports to the contrary.

Mr. Charnetski shows that there is still good money in hogs in spite of the raise in feed grain prices. Get a copy of this circular at your D.A. office.

BEES ARRIVING SOON

The Secretary of the Vermilion Beekeepers Association, Ernie Schurman reports that package bees will arrive on or about April 22nd. There are a few packages to spare if any one has not ordered yet. It is important to get the hives set up several days before the bees arrive. Get a new circular just off the press on installing package bees from your D.A.

POISONING GOPHERS

Every farmer knows that gophers are very destructive animals in grain fields. Now is the best time to poison them before green food is available and before the population has multiplied five or six times. Mixing of gopher poison in grain still proves to be the most effective means of destroying gophers.

R. H. Buckingham, D.A.

Miss Marjorie West and Miss Margaret Scott of Mount Royal College Calgary, spent the Easter vacation at their homes in town.

Town Council Holds Regular Meeting

The regular meeting of the town council was held on April 7th with Mayor Morrison, Crs Rooke, Dawson, Kehoe, Stach, Stephens and Urquhart present.

Messrs. Sweatman and Allan were in attendance on behalf of Post 11 of Canadian Legion asking that Council give preference to veterans for town jobs.

Wm. McLaughlin attended re metal building for storage at rear of his store. Council advised Mr McLaughlin that the Fire By-law would not allow this type of structure on his premises.

Mr. E. Caskey attended with the request that restrictions on sale of gas after 7 p.m. be removed by amending town by-law.

It was suggested that all the dealers concerned present their petition to the council at the next meeting.

Mrs. Hildreth attended re Canvasser's license and council advised the secretary that the regular fee would be required.

Correspondence: Can. Legion re town staff vacancies; Tenders re public works foreman; V.A.A.A. lease for council signature, signed by Mayor and Secretary; Dominion Construction re contract, referred to Haddin & Miles; Horton Steel re elevated tank; Haddin & Miles re water and sewer; Public Utility Commissioners re By-law Board orders; City of Edmonton and Dept. Mun. Affairs re frontage tax; Dept. of Public Health re T.B. Mobile X-ray Unit; J. W. G. Morrison re town by-law; G.W. Tory re new building Blk. 7; Postmaster General re new Post Office petition; C. Cox, resignation; C.N.R. re purchase of well site; R.C.M.P. report for March; Tenders re fire hose etc.; Land Titles office re Lot 5 Blk. A.

By-law 1-47 re Lot 24, Blk 34, sale to Jas. Swanson given 3rd and final reading.

Lot application Lots 1-2-3, Blk. 5 by Rowe and Spencer was tabled.

Moving permit by M. F. Bylampich of Rusylvia to move 14' by 24' two-storey residence was refused.

Building permits were approved for the following: Lot 17, Blk 36, residence 24' by 26' J. J. Hobbis, $2500; Lot 21 Blk 2, garage 12' by 20', J. R. Hooke, $100.

The following motions carried:

That Mr. Cox's resignation be accepted.

That an ad be inserted in the local paper for a general utility man for Public Works Dept. of town.

That we purchase 300 ft. of fire hose from Goodyear Tire Co. Ltd at [illegible] for as many lengths as couplings are available and the balance at the price of $1.10 including couplings.

That the following be appointed Deputy Mayors for 1947: April-June L. L. Kehoe, July-Sept. G. P. Stephens and Oct.-Dec. K. G. Urquhart.

That C. F. Strocher be charged a rent of $15 per month, subject to the approval of Rental Control Bd., same to be applied on taxes. Rent to be charged as from March 1st, 1947.

That the Court of Revision be held April 21st at 8 p.m. in the Council Chambers.

That town and E. L. & P. accounts be passed and ordered paid same having been certified by Finance Committee.

Win Amateur Contest

Winners at the well attended and enjoyed amateur contest held at the Masonic hall last Wednesday evening were: Class 14 years and under 1. Lenore Michaud, Clandonald, vocal solo 2. Harvey Young, Islay, piano solo. Class over 14, 1. Gladys Martin, black face song and tap dance. 2. Wes Punnell and Leslie Yarwood, instrumental duet.

Anniversary Services At Salvation Army

LOCAL CORPS OPENED TWENTY-EIGHT YEARS AGO

The Salvation Army will be celebrating the 28th anniversary of the opening of the Corps here in Vermilion this coming week end. Brigadier and Mrs Raymer of Edmonton will be in charge of these special services. On Saturday afternoon at 3 p.m. there will be a Women's meeting to which all women are invited. In the evening at 8 p.m. there will be a public meeting. The Brigadier and his wife will be in charge all day on Sunday. Everyone is invited to the special meetings in The Salvation Army this week end.

Annual Meeting of The Curling Club

FRIDAY, APRIL 18 — AT RINK

The annual meeting of the Vermilion Curling club will be held at the curling rink on Friday evening this week, April 18th, commencing at 8:15. All curlers and prospective members are urged to attend.

The past year has been one of notable achievement on the part of the curlers, the rink itself was entirely renovated and we now have the finest waiting room accommodation in the province. The annual bonspiel was lifted right out of the realms of the ordinary run by using the arena ice.

Officers for next season will be elected at the meeting Friday night, general business attended to and finances studied.

W. L. Robinson Is Elected President

W. Lyle Robinson well known Vermilion breeder, was elected president of the Northern Alberta Shorthorn club succeeding Frank Laing at the annual dinner meeting Wednesday night last week at the Corona hotel, Edmonton. G. Crouch of Wainwright was elected vice-president.

COMPANY LIMITED

THE STANDARD

VERMILION — ALBERTA

ESTABLISHED 1906

Published Every Thursday Afternoon At the Office, Main St.

A. R. P. COOPER — PUBLISHER

Vermilion, Alberta, April 17, 1947.

The news editor of the Standard had considerable space trouble this week, so much in fact that he was simply afraid to check over and see what was left out—so if you don't see it this week it will appear in our next issue.

THE WEATHER . . .

Although there is still a certain coolness in the air fine spring weather has prevailed all week. The crocus is in full bloom, the river is clear of ice, and all that remains to assure us that summer is here is for someone to start on the land.

The important thing in democracy is not the idea that the majority rules but the idea that rules the majority.

Chatsworth Chatter

Easter holidays have come and gone [illegible] and children are back in school. However, it will soon be summer holidays.

Roads are drying up rapidly though we've had very little summer-like weather. There are some very bad mud holes in places—quite natural at this time of year.

Sloughs have filled quickly during the past week. Practically all the snow has cleared away, even in the drifted places.

Crocuses are in furry bud on hilltops and geese, ducks, meadowlarks are back. To date we have not seen or heard a robin. It is the winter grosbeak which is usually mistaken for that early arriving robin. Quite large flocks of these tawny-breasted grosbeaks stay around here all winter. Their songs are sweet warbles of melody, somewhat like the robin's song, thus making them more easily mistaken for the robin.

Miss Marie Hutchinson of Edmonton spent the Easter holidays with her parents, Mr. and Mrs. Randolph Hutchinson.

Miss Ina Hutchinson is also home from Calgary.

Miss Monaghan spent the holidays at her parents home in Lloydminster.

Miss Eleanor Krause of town spent the latter part of the holidays with June Thompson.

Joe Farkash Jr. brought home his new Case tractor on Monday 14th.

Jim Thompson and Jim Panter were out filling mud holes last Saturday.

Chatsworth was well-represented at the amateur contest in town last Wednesday with vocal solos by Patty Thompson, Johnny Farkash and Jack Thompson; saxaphone solo by Matt Farkash; piano solo by Alice Thompson, and the Jr. orchestra consisting of Julia Farkash, piano, Matt Farkash, accordion, Jack Thompson, guitar rendered a couple of musical selections. Georgie Farkash, violinist in the orchestra, was absent due to mumps.

FARMS - TOWN HOUSES

D. A. BRIMACOMBE

Vice-President of A. F. U. Addresses Local Meeting

In spite of poor roads a good crowd of farmers gathered in the Elks hall to hear Mr. Henry Young, a farmer from Millet and vice-president of the Alberta Farmers' Union. Mr. Young opened his speech with a summary of the development in agriculture, manufacturing and production that has been made in Alberta despite the interruption of two world wars and the worst depression the world has ever seen. He pointed out that in 193[illegible] the average farm income in Alberta was only $[illegible] [illegible] This has left a vast number of farmers with a tremendous debt, today the farmers represent 30 per cent of the population of Canada and receive only 7 per cent of the national income.

Mr. Young went on to say that the problem of today is to keep a sufficient share of the purchasing power in the hands of labor to keep a proper balance between labor and capital.

Two of the demands of the Alberta Farmers' Union have been met fully, and others have been partly fulfilled.

1. A change has been made in the domestic price of wheat, so that the subsidy paid to Canadian millers was paid out of general funds rather than out of Canadian wheat board funds. All Canadians contribute now and the price of bread is still the same.

2. Mr. Pharis, an A.F.U. director, is now on the advisory board of the Agricultural Prices Support board of which Mr. Taggart is chairman.

The resolutions made by the Alberta Farmers' Union fall in 8 points, six provincial and two federal.

In the province, the A.F.U. working with labor unions, teachers' alliance and veterans' organizations have submitted a six-point program:

1. Abolition of daylight saving time in Edmonton. Daylight saving time causes farmers many inconveniences.

2. Larger provincial grants for education, teachers must receive more money to continue in their profession.

3. Compulsory automobile insurance — a more extensive form than the 1947 insurance we now have.

4. Removal of provincial tax on purple gasoline used for farm work. It was pointed out that the larger tractors using three or four gallons of gasoline per hour, means an hourly tax of from 12 to 16c per operating hour. This means a tax on production.

5. Extended electrical power for rural Alberta.

6. An amendment to the Municipal act to allow collection of Farmers' Union dues by the Municipality if the residents of that municipality so desire.

The two federal government issues are:

1. Freight rates. The freight rates in Western Canada are much higher than in other parts of Canada; for example, the freight rate for milk from Tillsonburg, Ont., to Vancouver is 75c per 100 lbs., while from Red Deer, Alberta, to Vancouver the rate is 90c per cwt. Any increase in freight rates will widen this gap that exists at present.

2. Income Tax — In this field the farmers' demand for a 5-year average has been partially met with a 3-year average. The A.F.U. has asked to have the exemption raised to $2000 for a married man, that herds of stock kept for breeding purposes be exempt; that a 20 percent depreciation on cultivated land be allowed to cover loss from soil drifting, erosion, etc.; that payment of arrears on farm home land be exempt and that no group or individuals be allowed any special exemptions under any condition (such as the members of parliament).

Teen-Age Sparkle Enhances Skill of Attractive Ballet

Glamor and 'teen-age sparkle are the components of the charming "Ice Cyclettes," beautiful expert skaters in "Ice Cycles of 1947", the all-new edition of the musical ice extravaganza produced by Ice Follies and Ice Capades. This glittering production, newest of major musical revues on ice, will open a limited engagement at the Edmonton Arena starting on Wednesday, April 30th.

The basis of all elaborate ensemble numbers in "Ice Cycles of 1947" is the skillful figure skating of the 50 Ice Cyclettes. It is on the slender blades of these attractive young girls that the excellence of the production numbers depend.

The entire group of Ice Cyclettes was hand-picked after an exhaustive series of try-outs held virtually from coast to coast. As a result, the home-cities of these young ladies embrace the continent from coast to coast. Some have come from as far as Schumacher, Ont., 200 miles north of Toronto—and Saskatoon in Western Canada. Others come from San Francisco and Los Angeles on the West Coast. Large cities like New York and Chicago are represented among them, while smaller communities such as Lakeview, Minn., have sent skaters to Ice Cycles. All of which proves that skillful figure skating has spread throughout North America.

The 50 beautiful Ice Cyclettes will be seen in seven lavish production numbers which help to make up the eye-filling two and one half hour entertainment of Ice Cycles of 1947.

Mail orders for tickets for Ice Cycle may be sent to The Arena, Edmonton Exhibition Grounds, Edmonton, Alberta.

After the show on Saturday evening attend the dance at the Elks hall. An enjoyable hour or two for only 25c.

IT RINGS THE BELL when you serve Maxwell House Coffee for breakfast. This delicious blend contains choice Latin-American coffees specially selected to give you extra-rich flavor.

Efficiency is cut by self-sufficiency.

Don Graham Comments on EVERYBODY'S BUSINESS

My neighbor [illegible] was talking the other day about how important our export trade is to us.

"You know, Don," he said, "a lot of Canadians don't realize what it means to have world markets for our grain and hogs. But history shows now that not even the strongest countries can get along without selling to others."

Well, I agreed with John all right, but I reminded him it isn't only a matter of produce like grain and hogs. Especially to us, the things called "invisible" exports like the tourist trade and life insurance are vital too.

Did you know that about 40 per cent of all the life insurance with Canadian companies has been sold to people outside Canada — in 64 other countries? No other country "exports" that much life insurance. Our companies must be pretty famous for their efficiency and their safety.

. . . . .

Life insurance is a business built for everybody, a great enterprise which protects the future of more than four million policyholders and their loved ones. Life insurance offers a systematic and easy way to save. Consult an authorized agent about a plan best suited to your requirements.

Men and women everywhere acclaim

THE 1947 CHEVROLET

Setting a new high order of

BIG-CAR QUALITY AT LOW COST

You'll [illegible] at [illegible] and at remarkably low cost for [illegible] and upkeep.

[illegible] Chevrolet [illegible]

And [illegible]

BIG-CAR quality at low prices and at such remarkably low cost of operation and upkeep.

Come in today! See this car which creates a new high order of BIG-CAR QUALITY AT LOW COST— this car which is first in production and therefore destined to be first in availability for delivery to you and your family. Place and keep your order with us for this 1947 Chevrolet.

OUR COMPLETE SHORT STORY—

MA FERGERSON'S CACHE

By MAUDE NORMAN

MA FERGERSON hurried in from the kitchen at the first sound of the phone. She felt guilty everytime she thought of the extra expense it entailed, but shucks! She knew Ralph felt better knowing she had it and she had been glad many times he had insisted on having it put in before he went overseas. She did not feel so alone and cut off from everyone.

An excited voice came over the wire as she put the receiver to her ear.

"Hello, Ma Fergerson, this is Bill Paige. Now don't get frightened, but be sure and lock all your doors and windows. Two of the prisoners have escaped from the penitentiary and the police think they are headed this way. Don't answer the door if anyone comes until you find out who it is. One of the boys from the village is coming to stay with you until they're caught."

Ma sniffed as she hung up the receiver. "One of the boys, indeed," she said scornfully. "We don't need anyone, do we, Jefferson? They'd only be tracking all over my clean floor, running outside everytime they heard a noise. No one is going to bother us but I guess I'd better lock the door."

The obese bulldog, Jefferson, blinked his eyes, then clambered to his feet, growling.

"Land's sake, Jefferson, now don't you start making a fuss . . ." Her breath caught in her throat as a man appeared in the doorway, a tall man with a bleak grey face. Behind him stood another man. Ma shuddered as she looked at his eyes. They reminded her of the eyes of a toad she had watched one day when she was working in her garden, unblinking and expressionless. She sank weakly into a chair as they came into the room.

Jefferson's hoarse growls filled the room as he prepared to spring. The second man advanced toward him, seizing the heavy iron poker as he passed the stove.

Ma seized the dog around the neck and held him tightly.

"Don't you dare hurt him," she cried, "he's only trying to protect me." You, she turned to the first man. "You're the escaped prisoners, aren't you? What do you want here? I have nothing for you."

"We want money and clothes," snarled the toad-eyed man, "and if you don't shut that dog up I'll bash his head in."

"Shut up, Shorty," ordered the other, "no use in being rough with the old lady. Give us some money and clothes, ma'am, and we'll go without hurting you."

"I have no money," Ma faltered, "I am really quite poor. I do a little sewing to buy enough to eat, but that is all the income I have."

The bleak-faced man shrugged. "I hate to contradict a lady, but we were told you had a son overseas and he sent you money to save for him, and you also have your allotment check, so don't give us that story."

"How do you know so much about my business?" she flared.

The cold smile did not reach his eyes. "I hope you don't think we walked out of that place without any plans, do you? We had friends in your little burg who found out all these things for us. But we are wasting time. Where is your money?" And I don't like that dog's growling so much. Shut him up or we will."

Ma started to her feet. I'll take him out to the kitchen and give him something to eat," she said. "That will keep him quiet."

The man waved her back. "You stay where you are. You'll get no chance to signal anyone. We'll find what we want. It shouldn't be hard in a place like this."

Ma sank back resignedly. "I can't stop you from tearing my house apart," she said, "but if you will get me that box of dog biscuits from the cupboard, I'll give my dog one since his growling annoys you."

The man tossed the box in her lap. She gave the dog a biscuit, then sat holding it silently watching the two men as they went into Ralph's room. She cried out when they came out, both dressed in his clothes.

"Those are my son's," she whispered.

"They're not quite as conspicuous as the suits we were wearing," grinned the bleak-eyed one. "Where is your money?"

"I tell you I have no money," Ma cried desperately. "Just what is in that teapot in the cupboard. Take that and go."

"Aw, quit stalling around," growled Shorty. "We've wasted too much time with you already. If I twist your arm a few times you'll be glad to tell us."

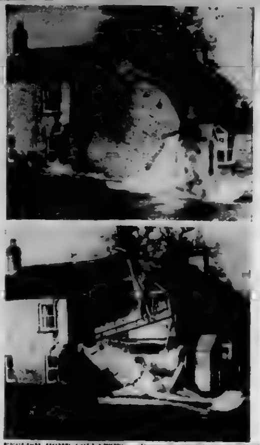
An exclamation of delight interrupted him. The other man held up an oiled silk package he had found in the bottom drawer of an old chest standing in the corner.

"Here it is," he cried. "Look at those knots. Come on, we'll open it when we get away from here. We haven't time now."

Ma waited until the sound of their footsteps had died away, then she tiptoed to the door and locked it. Coming back to her chair, she carefully removed the dog biscuits from the box, revealing a layer of crisp green bills.

"I'd have just died," she confided to the dog, "if they had found the money Ralph has been sending home. As soon as someone comes from the village I'm going back with them so I can put this in the bank." Then she started to chuckle. "Wish I could be around when those fellows open that package and find that Confederate money of Grandfather's I've been saving all these years."

Copyright Wheeler Newspaper Syndicate



ENGLISH HOME COLLAPSES — Damage caused by record English floods is placed at $50,000,000 as the waters slowly recede after inundating entire communities and destroying livestock and crops. Weakened by the raging flood waters, the wall of this house near Fen Beach at Southery, Norfolk, collapses into torrent. Four hours later only one corner of the building remained.

LEFTOVERS TRANSFORMED

Last night's leftover roast makes tonight's "Magic" Meat Rolls

2 tbs. soft butter
1 cup chopped leftover meat
2 tbs. chopped onions
2 cups flour
4 tsp. Magic Baking Powder
½ tsp. salt
4 tbs. shortening
¾ cup milk, or half milk and water

Mix meat, onion, butter. Sift together dry ingredients, mix in shortening, add liquid to make soft dough. Turn on floured board; knead lightly. Roll ½ inch thick, spread with meat mixture. Roll like jelly roll, cut in slices. Bake on baking sheet in hot oven (475° F.) for about 14 minutes. Serve with tomato sauce.

MADE IN CANADA

The Worker

The indoor worker is often overfatigued by the monotony of his work until it gets on his nerves and brings headaches, irritability, loss of sleep and indigestion.

A good way to relieve that condition is to build up nervous energy with Dr. Chase's Nerve Food, the mineral and Vitamin B1 tonic.

A [illegible] bottle of

Dr. Chase's Nerve Food

60 pills 60c
180 pills $1.20

Floating Weather Stations Planned

Safer travel for airlines traversing North Atlantic and Scandinavian routes will result from establishment of 13 floating weather stations which will operate in the Atlantic after July 1.

These stations will collect information about weather tendencies and wind velocities to be made available to all countries.

The United States will provide eight of the floating stations, Britain two, sharing maintenance of a third with Norway and Sweden, France one, and Holland and Belgium one between them. Provision of these vessels was laid down in the international agreement drawn up by the provisional international civil air organization which was signed last September.

Four Royal Navy corvettes which convoyed merchant ships across the Atlantic with lend lease cargoes during the war are being converted for use with this weather station fleet.

CAMPAIGN PAID

It is estimated that the United States would be producing 16,000,000 fewer pounds of beef a year had it not been for a bovine tuberculosis campaign started 25 years ago.

GARDEN NOTES

◆ ◆ ◆

Try Something New

Most of us are [illegible] conservative in our gardening. For generations we have been content to grow a very limited variety of vegetables, beans, carrots, peas, onions and potatoes as [illegible] covering the complete range of the [illegible] garden.

This is a great mistake as scores of vegetables can be grown to perfection anywhere in Canada and in addition there are usually several different varieties of each. In addition to the standard kinds noted there are [illegible] that should be included [illegible] brussels sprouts [illegible] some of the white [illegible] as well as the [illegible] peppers, squash and [illegible] swiss chard, turnips [illegible] kohlrabi, [illegible]

There has also been a vast improvement [illegible] the old standard [illegible] earlier [illegible] table garden [illegible] much more [illegible] a generation ago [illegible] yield higher [illegible] longer period.

A Kitchen Garden

It is a good plan to have the smaller vegetables growing [illegible] near the kitchen door. Here they will be handy especially when one wants to get a few onions or lettuce in a hurry and it is amazing how much produce one can grow in such a space.

As a matter of fact for the average smaller gardener it is best to grow all the beets, beans, lettuce, radish [illegible] potatoes and peas and possibly the [illegible]

Transplanting

[illegible] cultivate ornamental trees 3 feet all around until mid-summer.

AMELIA EARHART'S MOTHER QUITS TEN YEAR SEARCH

MEDFORD, Mass. — [illegible] home [illegible] left [illegible] aviatrix who [illegible] flight [illegible]

Mrs. Amy Earhart [illegible] reports [illegible]

Amelia disappeared [illegible] flying over the Pacific. Where she became lost and how is not known.

The Gospels were first written in Greek.

TEA BAGS

So handy

SELECTED RECIPES

CHOCOLATE CUSTARD BREAD PUDDING

1½ squares Baker's Unsweetened Chocolate
2½ cups milk
2 eggs
⅓ cup sugar
¼ teaspoon salt
1 teaspoon vanilla
2 cups cubed stale bread

Add chocolate to milk and heat in double boiler. When chocolate is melted stir until blended. Beat eggs until foamy, add sugar and salt. Then add chocolate mixture gradually, stirring vigorously. Add vanilla. Place bread in greased baking dish, pour mixture over it and let stand 10 minutes. Mix well before baking. Place dish in pan of hot water and bake in moderate oven (350 deg. F.) 50 minutes or until pudding is firm. Serve warm or cold with cream. Serves 6.

FOAMY EGG SAUCE

Combine in top of double boiler 1 cup plus 2 tablespoons (1⅛ cups) sugar, 1 tablespoon cornstarch and ⅛ teaspoon salt. Mix well.

Add 1½ cups boiling water gradually, stirring constantly. Simmer gently until clear.

Beat 1 egg until light and foamy. Add small amount of hot mixture, stirring well. Return to double boiler and cook and stir over simmering water 3 to 5 minutes longer.

Remove from the heat. Add 1½ tablespoons butter and 2 tablespoons lemon juice or sherry, or 1 teaspoon vanilla. Serve hot. Makes 2 cups sauce. Good on chocolate, steamed or fruit puddings.

GOOD FARMERS

Although their soil has been tilled without let up for 2000 years, tenants in Italy's Po valley [illegible] harvest [illegible] bushels of wheat to the acre thanks to rotation and other good agricultural practices.

$5.00 A Bushel For Flax Seed

An increase of $1.75 a bushel in the price of flax has been announced by the Federal Government, bringing the total to $5.00 a bushel and making flax one of the best potential money producing crops on the Prairies.

The price increase would appear to have come just in time to influence many farmers in their decision as to spring plantings, and indications are that the flax crop this year will be considerably larger than the one which brought [illegible] $2[illegible] to Prairie farmers in 1946. Last year's flax crop was in the vicinity of 7½ million bushels. The market can absorb [illegible]

GUEST WELL SERVED

In spending three days at a modern metropolitan hotel, the average guest is served by at least 40 persons from bootblack to manager.

Gas Consumption Soars for February

February must have been a really cold month as gas consumption soared to the all-time high figure to date of 33,650,000 cubic feet. January 1947 consumption was 26,227,000 cu. ft. Gas used in February 1946 amounted to 25,146,000 cu. ft.

CARD OF THANKS

We wish to extend our sincere thanks for the kindness, help and sympathy received during our recent bereavement, with special thanks to Moyer Bros., and for the beautiful floral tributes.

OBITUARY

CLEMENT GILFORD FRY

Clement Gilford Fry who lived in the Campbell Lake district until two years ago, passed away in an Edmonton hospital on Sunday April 6th. Funeral services were held at the First United church, Vermilion on April 9th and interment took place in the Vermilion cemetery. The Rev. E.S. Reikie officiated.

The deceased was born at Laporte City, Iowa, on October 27th, 1904. He came to Canada with his parents in 1911 and settled at Hughenden. They came to Vermilion in 1927 and farmed in the Campbell Lake district until two years ago when his health failed and he and his mother moved to Edmonton.

Surviving members of the family are his mother in Edmonton, seven brothers, Hale, Donald and Harlin in Edmonton, Bill at Black Diamond, Everett, Wayne and Louis at Vermilion, and four sisters, Mrs. George Dalman, Vermilion; Mrs. Wes Harrison, Edmonton; Mrs. Clarence Cox, Vermilion; Mrs. Milton Farrell, Clandonald.

The pall bearers were C. Long, R. Carroll, Wm. McLaughlin, M. Simonsen, R. Jory, Bert Moses.

Floral tributes were received from: Mother and Donald; Mike, Mary and family; Mary, Clarence and family; Milt, Sella and family; Joy, George and Helen; Hale, Emma and family; Billy, Molly and Tommy; Pat, Margaret and family; Everett, Ila and family; Mona, Wes and the girls; The Simonsen family; L. H. Fry and family; Joe, Bella, Allen and Sandy; Mrs. E. Pilgate and family; S. Law, Lillian Hogg; Mr. and Mrs. R. Mead and Mr. and Mrs. Frank Mead.

ISLAY

(Written for last week's Standard)

Spring seems quite near, when we see loads of seed grain being hauled and folks cleaning their yards, geese going over, crows, larks and gophers making an appearance.

Easter Sunday was a fine day here. The church service was grand — the children taking an active part first, then Rev. Driver gave a fine talk. Communion Service followed, and four adults were received into membership. The church was well filled.

The concert staged by the I.C. Association was a huge success Monday night. The hall was packed. Friends were present from Kitscoty, Vermilion, Borradaile and Morrison. After seeing the Fashion show we think many of the quite fashionable folk will have their worries settled, as to what they will wear this season, all types from the seashore bathing costume to the Ritz ball room were on exhibition—they were wonderful. Betty Purser and Leone Kearns were the stylists. They gathered costumes from France, Switzerland, New York and our own Canada.

Mr. C. C. Mitchell was called to Manitoba. His mother died on Saturday.

Mrs. Coulton is assisting the nursing staff at the hospital.

Mr. John Shaw is working again on the nurses' home.

Notice to Creditors and Claimants

IN THE MATTER OF THE ESTATE OF OBADIAH STAFFORD LATE OF THE DISTRICT OF LLOYDMINSTER, IN THE PROVINCE OF ALBERTA, RETIRED FARMER DECEASED.

NOTICE is hereby given that all persons having claims upon the estate of the above named Obadiah Stafford who died on the 7th day of March A.D. 1947, are required to file with the undersigned, by the 25th day of May A.D. 1947, a full statement duly verified of their claims and of any securities held by them and that after that date the executrix will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to her knowledge.

DATED this 8th day of April 1947.

J. J. JONES,
Solicitor for the Executrix
Address Mannville Alberta

Completes 14 Years In Radio Sportcasting

Probably the most familiar figure in Western Canadian sports circles is Gordon Williamson, pictured above. "Gordie" is currently marking his fourteenth year as a sports broadcaster, a career that has taken him across the breadth of Canada, all down the west coast, and in many spots overseas. He has broadcast Allan Cup hockey, N.H.L. hockey, Pacific Coast baseball, and many other highlight sporting features. His popular CFRN broadcasts cover all local, district and national events.

WOODVALE

Easter has come and gone with some nice warm spring days that week, but as a whole spring is not coming very fast and winter flannels, coats and mitts are still much in use. More and more birds are back and soon we can pick crocuses again.

Dorothy Isidy was unfortunate enough to tumble on the frozen ground and break her index finger. She has to wear a cast well up on her arm and hopes it will soon be time to take it off. She spent most of her Easter holidays at her grandparents, Mr. and Mrs. J. Ross.

Joy King was home for Easter from Edmonton and Kay Van Wazeningen from Calgary. Florant Van Wazeningen returned from B.C. and soon we expect Mac Tarves back from there too. Mr. and Mrs. T. Preston left England for home on April 2nd and should be back by the time this column gets printed. They will have quite a bit to tell about the hard winter in England.

It was already reported in the Wildmere Winks two weeks ago that the Webber store has been sold to Ar. Lyons who will go into partnership with Mr. H. Portsmith. The store will be moved to the highway corner on McQuid's place opposite the Gordon school and the building for it is going up there [illegible] It is hoped the store will be opened early in May and everyone wishes the new proprietors every success in every way. Mr. Webber will keep the Tolland post office at his place so there still will be contact with the old place where the people of the community have done business for close to 40 years. We hear that Mr. [illegible] is also going ahead with his store [illegible] that Mr. E. Barber has sold the Koknee store to Kenneth Watt.

Clarence Lavoi [illegible] graduate [illegible] the school of agriculture and got a dandy box of tools as a prize for mechanics. Congratulations Bube [illegible] know now where to go to get our tractors and cars fixed.

Mrs. R. Rankin and Ruth spent a few days visiting friends and shopping in Edmonton.

Congratulations to Mr. and Mrs. Joe Thompson on the birth of a daughter.

Mrs. Edith Petterson [illegible] spent the Easter holidays at the [illegible] Wazeningen [illegible]

We hear that Robert [illegible] Adam [illegible] and [illegible] lived and worked [illegible] community [illegible] surely interest [illegible] these parts.

Ray Preston [illegible] through one [illegible] last week [illegible] procession of [illegible] stock on the [illegible] 'll needed [illegible] of the mud [illegible] wend their way [illegible]

Bowtell Bulletin

Deepest sympathy is extended to the Fry family in their recent sorrow. The deceased lived for many years in the Bowtell District.

[illegible] Morrison [illegible] was a recent patient at the hospital when he had his tonsils removed.

Congratulations are extended to Mr. and Mrs. P[illegible] to whom a daughter was born in the hospital Saturday.

The recent Busy Bee meeting was held at the home of Mrs. M[illegible] with [illegible] members [illegible] visitors present. The latter were Mrs. Stewart, Mrs. Joseph [illegible] and Mrs. Fraser. Due to the absence of the treasurer Mrs. Repp took the books. It was decided to donate $10 to the Red Cross and $5 to the Cancer fund. A sale of home cooking, eggs and cream will be held in Stephens store April 19th. Mrs. Koroluk, Mrs. Harrison and Mrs. McGinnis were appointed a committee to look after arrangements. Ladies please donate. The draw prize was won by Mrs. Gannon. The next meeting will be held at the home of Mrs. Bert Moses and lunch will be served by Mrs. McGinnis and Mrs. E. Williams. Mrs. Gannon became a member bringing the total now to 21.

The writer was quite pleased to have Mr. and Mrs. Gillies visit Wednesday evening. Mr. and Mrs. Robinson were Friday evening visitors at the home of Mr. and Mrs. Charlie Burt last Friday.

Prison Reform

PRISON REFORM IS A SUBJECT in which many people in Canada are deeply interested. Before the war a Royal Commission investigated Canada's prison system and that of other countries, and had the war not come, it is probable that steps would have been taken long before this to act upon some of the recommendations for improvements in Canada's penal system handed down by this Commission. During the war lack of money, trained personnel and other essential factors made it impossible for action to be taken in this matter, but now that many of the obstacles have been removed there are many people who are most anxious that the question of prison reform should again be given earnest consideration.

• • • • •

Noted Jurist Favors Reform

Mr. Justice J. C. McRuer, who is Chief Justice of the Supreme Court of Ontario and president of the Canadian Bar Association, was a member of the Royal Commission investigating Canada's prison system and he is one of those who are in favor of changes in our present methods of dealing with criminals. In a recent public address on this subject Chief Justice McRuer recommended the reorganization of the personnel in prisons, proper segregation of different criminals, the development of a comprehensive adult probation system and an organized system of rehabilitation. He also suggested the creation of a department of government which would investigate the causes of crime, study ways and means of crime prevention and promote the most modern and scientific means of prevention.

• • • • •

Has Aroused Wide Interest

There are many people who are of the same opinion as Chief Justice McRuer in regard to the need for reform in Canada's present penal system. The matter of dealing with first offenders and with juvenile delinquents is of the greatest importance for under conditions as they are now, prison sentences for [illegible] mean that they come into contact with hardened criminals and are themselves hardened when they are in great need of intelligent correction. The question of rehabilitation of offenders upon their release from prison is also a most important factor in cutting down crime and increasing the general welfare of the country. It is probable that a great deal will be heard in Canada in regard to the need for prison reform in the near future and it is a matter which deserves the consideration and interest of all responsible citizens.

Russians Welcome Winston Churchill

[illegible] crusty old warrior Winston Churchill, who not long ago was called a "warmonger" by Premier Stalin, stole the show at a Russian Embassy reception in London honoring 20 visiting members of the Supreme Soviet.

When the former Prime Minister and Mrs. Churchill entered the room from the [illegible] of the Red Star rushed forward and plied him with vigorous handshakes and rounds of vodka.

Five hundred persons, including Prime Minister Attlee, were present as the Churchills made their way through the guests beneath a floodlit portrait of Stalin into the embassy's private [illegible].

[illegible] Churchill's [illegible] was punctuated by a [illegible] changing [illegible] of [illegible] personnel ad [illegible]. The vodka toasts were frequent.

[illegible]

BIG DISPLAY

BLACKPOOL, England. A display of the latest aircraft from jet propelled fighters to [illegible] will be [illegible] by about [illegible] next July. The display will be the biggest aviation exhibition and flying [illegible] ever held in Britain.

MIGRATION TO ALASKA PLANNED

WASHINGTON. The first planned migration to Alaska since the settlement of the Matanuska valley in the '30s will begin within the next two months when 100 American families start a settlement near Haines in southern Alaska.

The migration is under the direction of the veterans Alaska Co-operative Company (the VACCO), an Alaskan corporation made up mostly of World War II veterans.

The VACCO has purchased the old army Chilkoot barracks just outside of Haines and an advance guard is already at work converting them into homes.

In addition to the barracks the VACCO has a 12-bed hospital, a complete sewage system, water system, electric plant, oil-heating unit and sawmills. It plans to purchase two navy boats and a five-passenger airplane.

With these facilities and a capitalization of $200,000 the VACCO hopes to bring to Alaska young veterans who are interested in working for themselves instead of someone else. The Co-operative scheme was arrived at to diminish the hardships of pioneering and to [illegible] cost of equipment and food. The cost of living in Alaska is [illegible] higher than in this country.

Each member of the co-op must buy a $100 share of common stock, [illegible] per cent. [illegible] have $2,000 in assets to take care of the initial costs of transportation and setting up his household.

SCARVES WILL BE VALUABLE SOME DAY

Among the clothes taken by Queen Elizabeth and the two Princesses for their tour of the Union of South Africa are three scarves which may one day be museum pieces. These are copies of the scarf designed by Jacqmar which, in addition to a floral border in delicate colors, has a band of fairy story "The King sets forth", written in the centre in two languages, English and Afrikaans.

GIRLS! WOMEN! TRY THIS IF YOU'RE NERVOUS, CRANKY, TIRED-OUT
On 'CERTAIN DAYS' of The Month!
Do female functional monthly disturbances make you feel nervous, fidgety, cranky, so tired and "dragged out"—at such times? Then do try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. [illegible]
Lydia E. Pinkham's VEGETABLE COMPOUND

NO ALLOWANCES FOR CHILDREN WHO SKIP SCHOOL

OTTAWA. — Children who skip school regularly don't get family allowances, Health Minister Martin disclosed in the Commons.

In a return tabled for L. O. Breithaupt (L—Waterloo), the minister said that arrangements have been made in each province for provincial school authorities to notify regional family allowance offices when the [illegible] attendance of a child became unsatisfactory.

On receipt of such information, the office suspended allowances until the child's attendance became satisfactory.

Cheerful News For Car Owners

According to the Detroit Free Press the Automobile Manufacturers Association furnishes a word of cheer for a gloomy old world.

It reports that the Society of Automotive Engineers has recommended standardization of heights of bumpers on all passenger cars and light trucks.

This means that in the not too distant future there will be no such thing as locked bumpers, or the dismal business of trying to disengage two cars joined in close embrace.

Who says the world does not progress?

CANNY SCOT INVESTS $000,000 POOL PRIZE—Winner of the world record football pool prize of more than $240,000 was a Scotsman, Edward Cross of Aberdeen. Cross says he intends to invest the money in national savings until he "becomes used to possessing such a large fortune."

Warwick Castle To Peacetime Service

MONTREAL.—The 17,383-ton Warwick Castle, second Union Castle passenger liner to return to peacetime service, is enroute from Southampton on her first postwar sailing to South Africa. Cunard Donaldson Limited [illegible] are general agents for the Union Castle Line in Canada.

Temporarily employed in the South African Mail Service which offers express passage from England to Capetown and Durban, the Warwick Castle will revert to the Intermediate Service upon the completion of two new 28,000-ton mail vessels now under construction at Belfast.

The Intermediate Service has scheduled calls at Las Palmas, Teneriffe, Ascension and other ports enroute to and from South Africa, and it was in this service that the liner, formerly the Pretoria Castle, sailed regularly before the war.

Completely restored to her prewar standards of comfort, the ship provided accommodations for 205 First Class and 325 Tourist Class passengers.

GEMS OF THOUGHT

PATIENCE

Patience is not passive: on the contrary it is active, it is concentrated strength. Bulwer-Lytton.

There is as much difference between genuine patience and sullen endurance as between the smile of love and the malicious gnashing of the teeth. Plumer.

Patience does not mean indifference. We may work and trust and wait, but we ought not to be idle or careless while waiting. Gail Hamilton.

It is wise to be willing to wait on God, and to be wiser than serpents, to hate no man, to love one's enemies, and to square accounts with each passing hour. Mary Baker Eddy.

It is not necessary for all men to be great in action. The greatest and sublimest power is often simple patience. Horace Bushnell.

Do not think that nothing is happening because you do not see yourself grow or hear the whirr of the machinery. All great things grow noiselessly. Drummond.

PATENTS
AN OFFER TO EVERY INVENTOR. List of inventions and full information sent free. THE RAMSAY COMPANY, Registered Patent Attorneys, 273 Bank Street, Ottawa, Canada.

MISS WINNIPEG—Marjorie Graham, 18, seen here, queen of Greater Winnipeg community clubs, was chosen Miss Winnipeg of 1947 in final selections of the city-wide competition. A crowd of 4,000 witnessed her coronation.

FUNNY And OTHERWISE

A ten-year-old boy rushed into the shop.

"Father's being chased by a bull," he cried.

"What can I do about it?" asked the shopkeeper.

"Put a new roll of film in my camera," said the boy.

• • • •

Magistrate: "But why did you break into this draper's shop four nights running?"

Defendant: "I got a new dress for my wife and she made me go back and change it three times."

• • • •

Wife: "Aren't the dresses in this window a splendid finish, dear?"

Jones (glumly): "Nothing wrong with the finish. It's the starting-price that gets me!"

• • • •

The rejected suitor was making his final plea.

"What," he said, "has this fellow got that I haven't?"

And the girl answered "Me".

• • • •

Clerk: "These are especially strong shirts, Madam. They simply laugh at the laundry."

Customer: "I know that kind. I had some which came back with their sides split."

• • • •

Once again the youthful offender had been caught using strong language.

"Do you know, Tommy," said the harassed foster-mother sadly, "every time I hear you swearing I get cold shivers down my back."

"Gee!" exclaimed Tommy. "If you heard father you'd have froze to death!"

• • • •

The manager heard that the £6-a-week clerk had a car and asked him how he could afford it, with four children.

"Oh, that's easy," said the clerk. "There are 500 of us employed at this factory. I raffle my wages every week at a shilling a go."

• • • •

"Won't you give me your telephone number?" he murmured.

"It's in the book," she said.

"Splendid," he sighed. "And what's your name?"

"That's in the book, too," she snapped.

• • • •

"By jove, old boy, I couldn't believe it when I heard you were in hospital. Why last night I saw you dancing with a pretty blonde."

"Yes, so did my wife."

• • • •

Smith: "I wear the trousers in my home."

Friend: "Yeah, but right after supper I notice you wear an apron over them."

• • • •

"What did the calf say to the silo?"

"I don't know."

"Is my fodder in there?"

• • • •

"I adore dark men."

"You'd have a splendid time in Africa."

HOLSTEIN CATTLE SHIPPED TO CHINA

QUEBEC. Canadian Holstein cattle breeders have sold 130 male animals, aged one year to 18 months, to the Chinese government, according to an announcement by the provincial agriculture ministry.

Thirteen of the bulls, whose progeny all are qualified sires, or dams with individual milk production of more than 500 pounds of butter fat a year, are destined to stock Madame Chiang Kai-Shek's herds.

SLOW CONSCIENCE

In Fredonia, Kans., an ex-schoolmarm sent the country school superintendent a check for $75 (full repayment of the three-month salary she had once drawn) along with a conscience-smitten confession that she had cribbed on her teacher's examination to get the job, 55 years ago.

High-quality starch has been extracted successfully from sweet potatoes.

FILMS DEPICTING WILDLIFE OF CANADA'S NATIONAL PARKS BEING TELEVISED

A new development in visual education dealing with wildlife in Canada's national parks took place in Washington, D.C., recently when films showing beaver in Prince Albert National Park, Saskatchewan, were televised from the United States Capital. Some of the beaver shown were "Little Brothers" of the late Grey Owl who occupied a cabin on the shores of Ajawaan Lake in the park. The films depict beaver building dams and houses, and storing food for the winter.

Television opens up an important field in the realm of wildlife education. The family life and habits of wild creatures in their native habitat, always make fascinating reading. But to actually see a beaver at work, a bear playing with her cubs, or an ungainly moose browsing in the willows, adds immensely to the interest of the story.

Children, and grown-ups too, who have not yet had an opportunity to visit Canada's national parks may derive a keener appreciation of the word "sanctuary", when they observe wild creatures behaving in a natural manner before the camera, little perturbed by the presence of humans. They also get a better understanding of conservation practices which are part of the national parks idea and program.

Most people are intrigued by the sight of creatures of the wild living in natural surroundings. Canada's great outdoor museums of wildlife will continue to rank among her chief tourist attractions, and any new development that will make them better known in the United States is of special interest to Canadians.

The televising of films depicting wildlife in Canada's national parks will also further emphasize the fact that the only kind of "shooting" permitted in these areas is with the camera.

Parachute Jumper Makes Air Rescue

FAIRBANKS, Alaska.—One parachute jumper saved the life of another during a task force frigid paratroop jump by snatching his collapsed chute and holding on until both reached the earth safely, the Army disclosed.

Cpl. Charles Harris was the man rescued and Pte. Raymond Kenyon the rescuer. Harris' chute collapsed when a crosswind blew the two men together about 100 feet above the ground.

To Feel Right — Eat Right!

Collars Too Tight Causes Chronic Pain

MEDFORD, Ore.—Ingemund Stenerson, local lumberman, was relieved.

Doctors at the Mayo Clinic in Rochester, Minn., decided after a week of examinations that chronic pains in his neck were the fault of his haberdashers.

Their diagnosis said his shirt collars were too tight.

Chiffon, denoting a sheer soft fabric, comes from the French "chiffon", meaning a piece of old and worthless rag.

FAN TANS are festive!
RECIPE
Add 1 envelope Royal Fast Rising Dry Yeast and 1 tsp. sugar to 1 c. lukewarm water. Stir and let stand 10 minutes. Scald 1 c. milk, add 5 tbs. sugar; add 2 tsp. salt and cool to lukewarm. Add to yeast mixture. Add 3 c. sifted flour and beat until perfectly smooth. Add 4 tbs. melted shortening and 3 c. more sifted flour, or enough to make easily handled dough. Knead well. Place in greased bowl. Cover and let rise in warm place until doubled in bulk, about 1½ hours. Punch dough down in bowl and let rise again in warm place until nearly doubled in bulk, about 40 min. When light, roll out into rectangular sheet ¼" thick. Brush with melted butter or shortening; cut into strips 1½" wide. Pile 7 strips together; cut into pieces 1" wide. Place cut-side up in greased muffin pans. Cover; let rise in warm place, free from draft, until light, about 1 hour. Bake in 400°F. oven for 20 minutes.

WORLD HAPPENINGS BRIEFLY TOLD

An [illegible] parrot which speaks French and English has reached the London zoo.

The possibility of Canada's 1947 sugar beet production being 70,000,000 pounds smaller than last year was seen by growers.

[illegible] affairs department has begun a drive to find employment for some 9,000 jobless [illegible].

[illegible] children gave the royal family one of the most enthusiastic greetings of the South African tour at Pretoria.

[illegible] Arthur [illegible], 77, who took part in the Nile expedition and the South African war, died recently at [illegible].

Sugar rationing has had a startling effect on the dental health of children in Toronto, according to Dr. Edmund A. Grant, director of dental services for the city health department.

The steering wheel of the 30-year-old British battleship Warspite has been presented to King Haakon of Norway as a gift from King George and the British people.

Britain will spend an estimated $900,000,000 on raw materials in Canada and the United States this year, Hugh Dalton, chancellor of the exchequer, announced.

Alberta government pest control officials said damage to crops caused by grasshoppers this year was expected to be the lightest in [illegible] years.

Appetite Is Not A Reliable Guide

Instinct is not a safe guide to good nutrition. Scientists now declare that appetite [illegible] of the [illegible] for [illegible] the variety of foods available and the removal of [illegible] processing, cooking and preparation of foods.

[illegible] Canadians are urged to study what is good for them to eat and abide by these rules.

LARGE CIRCULATION

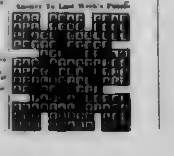
Answer To Last Week's Puzzle



RICHEST BLONDE—Doris Duke, the richest blonde in the world, is now a fashion writer for Harper's Bazaar. She is shown at a New York airfield after a 26-hour air trip from sunny Honolulu. Dark glasses hide all evidence of eye strain. She leaves shortly for Paris to do her writing stint. Miss Duke has been named as one of the 10 best dressed women in [illegible] a fashion expert's roster.

Britain Now Has A Modern Tanker

[illegible] fast enough to defy submarines without waiting for a convoy, a British tanker has been [illegible] the [illegible] most modern [illegible]. She is [illegible] not only fast but sets new standards of comfort for the crew. On her first run from Southampton to [illegible] in the West Indies she completed in a few hours over ten days a trip which has hitherto taken tankers 15 to 16 days to make. [illegible] is notable for her size and her modern propelling machinery. Every member of the crew has a cabin to himself and sleeps on a spring bed above which is a reading light. The furniture of these cabins includes a writing desk, a chest of drawers, and a settee. The seamen and firemen have separate messes but sliding doors connect the two compartments so that they can be made into one large recreation room. The messes are equipped with a leather upholstered chair for each man.—St. Thomas Times-Journal.

LETTERS FROM CHINA TO CANADA TAKES $5,300 STAMPS

TORONTO — It costs $5,300 to send a letter from China to Canada. That's in Chinese money but it works out to 44 cents in Canadian funds. This was revealed by Rev. D. Stringer of the Scarboro Foreign Missionary Society who received a letter bearing 27 stamps from a fellow missionary in Chekiang Province, China.

A plantigrade animal is one that [illegible] 2720

Health

HEALTH LEAGUE of CANADA presents TOPICS of VITAL INTEREST

MENTAL STRAIN CAN CAUSE ARTERY ILLS

Excessive mental work is more likely than hard physical labor to cause arteriosclerosis—hardening of the arteries and more men than women suffer from that malady.

A well-established condition of arteriosclerosis is made apparently by the rigid and tortuous condition of the arteries which, to the touch, feel like a string of beads. The earlier symptoms are less definite and often are so slight as to pass unnoticed.

These symptoms arise from a diminished blood supply, resulting from the thickened condition of the arteries which reduces their inner capacity. Naturally symptoms vary according to parts of the body which are being deprived of a normal blood supply.

Thus, if the arteries supplying the brain are affected, there will be increasing loss of memory, inability to sleep properly, defectiveness of judgment, irritability and despondency. In the aged, sufferers are restless, even delirious, during the night. During the day they are drowsy.

Breathing Affected

Arteriosclerosis affecting the heart produces notable changes in the condition and functioning of that organ. The change is likely to be shown first by a shortness of breath. The attacks come on suddenly at night. Sometimes the patient is afraid to go to sleep. At others the attacks resemble bronchial asthma. In cases where the muscle of the heart is much affected or there is a coronary defect, there is likely distress in front of the heart.

Angina pectoris may develop with disease of the coronary arteries. Finally there may be thrombosis—plugging of the vessels by a clot of blood.

Heredity appears to be a factor in this disease, while typhoid fever and rheumatism have long been thought to produce changes in the arteries. Scarlet fever, diphtheria and influenza also are blamed. Infected teeth, tonsils, sinuses, gall bladder, prostate or appendix probably are exciting causes. However, diagnosis is readily made by a physician, and treatment should be directed by him.

HEADS COUNCIL—Elected president of the council of the French republic is Gaston Monnerville, (above), former representative for French Guiana and vice-president of the Socialist party in France. Monnerville was decorated by Gen. DeGaulle for the prominent part he played in the war as a member of the French underground.

British Children Must Go To School Till 15

LONDON—A law requiring British children to attend school until they are 15 years old, instead of 14, became effective recently.

The Ministry of Education estimated that about 120,000 children, who ordinarily would be permitted to leave school, would return to their classrooms when the fall term opens.

Government leaders insisted on raising the school age despite the serious manpower shortage. They termed the step an "investment in the nation's future." Approximately 300,000 children will reach the age of 14 this year, according to the Education Ministry.

Easy Method Of Growing Grass

To those who want to grow grass, instead of mowing it, there is reported a device which is alleged to be easy. This consists of strips of papers containing seed and fertilizer imbedded within the strips. These strips are stretched on the ground, covered with a little soil and soaked with water. The paper dissolves into the earth taking the seed and fertilizer with it and, it is claimed, grass appears in four or five days. A method of easy grass growing has been sought for centuries. If this one works, then the gardener's millenium is at hand.—Brandon Sun.

Local News of Interest

Mrs. R. L. King of Camrose returned to her home on Tuesday after visiting at the home of her son and daughter-in-law Dr. and Mrs. A. R. King for a week. Mrs. King's mother Mrs. W. H. Prescott of Saskatoon arrived Friday last and will visit for a few weeks. Visits of Mrs. King and Mrs. Prescott were no doubt occasioned by the arrival of their new granddaughter Pamela Rae King.

Mr and Mrs R. R. Brennan left last week for Saskatoon and Winnipeg where they will visit for the next month.

Mr. and Mrs George Keech and daughter Linda of Aylmer, Ont., are spending a week at the home of Mrs. Keech's parents, Mr. and Mrs. K. E. [illegible]

Marwood Brimacombe of Edmonton was a guest at the family home for a few days last week. Marwood is a member of the Edmonton teaching [illegible]

Mr. and Mrs. Jack Carroll returned last week end from a short trip to Elmed, Oklahoma. While they were away daughters Shirley and Jacquie visited their grandmother Mrs. Carroll Sr. at Wainwright. Jacquie also enjoyed a trip to Athabasca during the Easter holidays in company with her grandmother.

Mr. and Mrs. Ronald Smith and little daughter of Vermilion, were [illegible] of the former's mother Mrs. Helen Smith and grandmother Mrs. Payne at Camrose. —Camrose Canadian.

The eighth birthday of Miss Ruth Beatty was signalized by a jolly party on Wednesday April 9th when a large number of her young friends helped to celebrate the happy occasion.

[illegible] returned to her home at Islay on Friday evening after visiting her daughter Mrs. Ashley H. Cooper and family during Easter week.

Mr. and Mrs. N. N. Beatty spent Saturday and Sunday in Edmonton.

Mrs. J. R. Taylor returned to her home here Friday evening following several days visit in Edmonton.

The W. M. S. of the United church met for their regular monthly meeting on Thursday April 10th in the church parlors when a very good program was enjoyed. The topic discussed was ways and means of getting Christian literature to peoples all over the world. A solo "In the Woods" was beautifully rendered by Mrs Polk. Mrs. Reikie gave her report of the annual convention held at Calgary. Refreshments were served and a social half hour enjoyed.

IN MEMORIAM

In loving memory of [illegible] who died April 21, 1943

His smiling way and pleasant face
Are a pleasure to recall,
He had a kindly word for each
And died beloved of all.
Some day we hope to meet him,
Some day, we know not when,
To clasp his hand in the better land,
Never to part again."

—Wife and Family

ISLAY

Clean up time is here! It is hoped that all Islay residents will help to make Islay a clean spot—Let it not be heard many times as already it was heard being said by an outsider "What a dirty little hole this place is". Wednesday afternoons may be utilized for a few weeks as clean up days. It is hoped each will look after his own yard and the unoccupied lots will be taken care of. Come out and give a hand, at least on your own premises and back alley.

Donald Kennedy returned Sunday after spending the winter at Vancouver and other points.

Maple syrup wanted — Wish we could get a taste even. Stewart Bothwell tells us from Quebec that it is $5 a gallon there.

Mrs. Harry Young and Mrs. Fred Steinhauer returned from Victoria on Sunday. With them on the boat coming over to the mainland were Mr. and Mrs. Sid Millward and Donald. While in Victoria Annie saw many old Islayites—Mr. and Mrs. Jim Mcpherson, looking fine too; Mrs. Ambrose (nee Dot Gould), Mrs. Wm. Webber (nee Dorothy Stone) had dinner together at Spencer's; Mrs. Farley, Mrs. McKenzie both were Kennedy girls here long ago; Mrs. Lavada Barnes. They report a grand trip, though it rained some out there.

Miss Mary Worobek spent Easter at her home near Vegreville.

Some will like to know that the paper they signed asking for a station here was received and a reply was returned to the Secretary of the I.C. Association. It has been referred to the Transport Commissioner. Anyway, they have noticed that Islay is in existence.

On Sunday Rev. Driver gave a missionary address, most interesting, as it was of his early days in Alberta from 1905 on for a few years. If Mr. Driver would put all his experiences into a book, it would make most interesting reading.

Can a war bride raise chickens? Just ask Mrs. Macdonnell. She has quite a little flock now a few weeks old, and only a 2 per cent loss. That is remarkable as 10 per cent is considered a small loss.

Mr. Tom White is home again after wintering in B.C.

A tea was enjoyed at the home of Mrs. Sweet on Tuesday, a farewell for Mrs. Head R.N., and a welcome to Mrs. Wood R.N., who takes over as Superintendent of the Islay hospital.

The School Division teacher's house in Islay is having a basement put under it and the house made firm on the foundation as it was beginning to sag towards the furnace room.

Come to church Sunday afternoon at 2 o'clock. Sunday school at 1.45.

Stagette Notes

April 15 the Stagettes held a regular business meeting in the club room with President Dorothy Oldenburg back in the old wicker chair and the assistant secretary Kay Procter close by.

Plans for the Spring Time Frolic were discussed, and new ideas will be appreciated, get your thinking caps on and bring your ideas to the next meeting.

A substantial cheque was realized from the Legion for our efforts of last week. Thanks to the Legion.

We received a number of letters from Maidstone St. school in London England thanking us for parcels and cards received which reminds us that another parcel is about due to leave here soon.

Handicraft next week girls, please bring scissors. Oh P.S.—Will somebody please do something about the attendance, we can't have 13 again!

Vermilion Lodge A.F. & A.M. Instituted Forty Years Ago

ANNIVERSARY CELEBRATED TUESDAY EVENING

Vermilion Lodge, A.F. & A.M. celebrated its 40th anniversary Tuesday evening when over one hundred members gathered in the Masonic hall representing lodges at Vegreville, Innisfree, Mannville, Kitscoty, Lloydminster, Lashburn, Wainwright and other points. The ceremonies opened with an elaborate banquet prepared and served by ladies of the Queen Esther Chapter O.E.S.

Following the dinner the local lodge was opened, the main item on the program being a splendid address given by Walter L. Klink of North Battleford, Grand Master of the Grand Lodge of Saskatchewan. Among the high officials of the order present were R. Wor. Bro. F. O. Seward of Kitscoty, present District Deputy Grand Master; R. Wor. H. S. Hurlbut, Vegreville, Past District Deputy Grand Master; R. Wor. Bro. John Ridington, District Deputy Grand Master Elect. The theme of M. Wor. Bro. Klink's address was the evolution of Masonry based largely on the evolution of man from his primitive state to the highly developed type of today. Running through his address was the fundamental principle of Brotherhood, the universal adoption of which would tend to solve all national and international misunderstandings. Greetings were extended by the representatives of the different lodges present.

Among the guests were William J. Macnab one of the charter members and Harry T. Taylor one of the first candidates initiated in the lodge after its institution in November 1906. The first meeting was held in a room in Craig's old store. Its first officers were:

W.M.—J. A. Rosborough
S.W.—M. A. Brimacombe
J.W.—W. F. H. Thompson
Treasurer—Oren Baker
Secretary—Dr. G. H. W. Ryan

All of the above officers are now deceased. One of the junior officers was W. B. Cameron, survivor of the Frog Lake Massacre, now in retirement in Vancouver. W. J. Macnab was the Inner Guard.

Wor. Bro. A. C. Lindell, the Worshipful Master of the lodge, presided at what was one of the most interesting events in the history of the fraternity at Vermilion.

Preparation of Tennis Courts Under Way

TO OPEN ABOUT MAY 1st

Providing ordinary spring weather prevails the Vermilion tennis club will open its three fine shale courts on May 2nd, the usual time being the first week in May. Frost is still coming out of the ground and this causes continual loosening of the surface until the frost is completely out.

Work to date has been confined to preliminary rolling and removal of the old tapes. A general clean up is planned around the outside of the [illegible].

The annual meeting of the club will be held during the first week in May to which everyone planning to play tennis, former members, newcomers to town and beginners, are invited.

Wm. McWhinney is the president of the club and Ashley Cooper the secretary.

Slight Increase in Theatre Admissions

Due to the increased cost of film a slight raise has been made in two classes of admission prices at the Columbia theatre. The 12c tickets will now be 15c; adults will pay 45c instead of 40c.

All other prices remain unchanged. No change in matinee admission prices for the present.

Changes are effective Monday May [illegible].

Freak Calf on Nelson Farm

ONE OF TWINS

A calf on the farm of Isidore Nelson has been born without a tail, just a little extra tuft of hair decorating the extremity of his spinal column without even a hint of the usual mosquito and fly swatter. The calf is one of a set of twins and while the lack of a tail could possibly be endured the poor little fellow is also afflicted with absolute blindness. In weight and general conformation he is a normal calf, his twin brother is normal in every respect. These calves are now five weeks old.

This is the second set of twin calves from the same cow, the first twins were born 4 years ago and on that occasion both calves were normal.

Sale at Vermilion Variety Store Soon

A large display advertisement announcing reduced prices on the entire stock of caps, windbreakers, sweaters, girls' and women's blouses, children's dresses, sleepers, skirts, ladies house coats, coveralls for girls, twin coats and capes, summer shirts, boys' shirts, etc. was simply crowded out this issue and will appear next week. However the sale at the Variety store will commence as planned on Tuesday April 29 and continue until May 10th. 50c

Men can only learn so far as their humility will let them.

Veteran Curler Is Presented With Life Membership

H. R. Parker Secretary-Treasurer for 11 Years, Member of Club For Thirty-seven Years

H. R. Parker, veteran member of the Vermilion curling club, was presented with a life membership to that organization at the annual meeting held on Friday evening last. Mr. Parker has been a member of the local club since 1910, 37 continuous years and during that time he has curled every season, a record which stands by itself in local curling history. For practically all of those years he has been a member of the executive and for the past 11 years he has acted as secretary-treasurer of the club and bonspiel secretary. On Friday evening he felt that he should pass along the onerous duties of the office to someone else but stated that he certainly intended to keep right on curling. He is 76 years of age and is regarded as the wiliest skip and among the best ice men in the club today.

Prior to coming to Vermilion Mr. Parker curled in Calgary, starting the game in the season of 1906-07 when he acted as secretary-treasurer of their club.

Officers elected for the ensuing year were:

Honorary President — His Worship Mayor Morrison
President—Russell E. Carnell
Vice-Pres.—Lorne H. Pochett
Sec.-Treasurer—Fred Firth
Chaplain—Rev. E. S. Reikie
Executive—Wm. Barr, E. M. Stewart, E. Corley, S. C. Heckbert, L. Amos, L. E. McFadden.
Draw Committee — E. M. Stewart, A. H. Cooper, Loyal Amos.
Building Committee—S. C. Heckbert, P. Moffatt, J. R. Beaks.

The financial statement indicated a net balance of $325 but with outstanding loans of $500. The renovation of the rink cost $2921.13. Some further improvements are planned for this year including the installation of water and sewer and the whitewashing of the interior of the rink.

I.O.D.E. in Charge of Cancer Campaign

DRIVE FOR FUNDS FRIDAY AND SATURDAY

The Frog Lake Chapter I.O.D.E. are in charge of Cancer campaign for Vermilion and district. In this connection donations will be accepted by members of the I.O.D.E. in the town stores Friday and Saturday of this week.

Local Civil Service Assoc. Re-organizes

J. D. HAWKER CHAIRMAN

A meeting to re-organize the Civil Service Association in Vermilion was held at the school of agriculture, Monday evening April 21, 1947, and proved to be very successful towards making this branch a much stronger organization than in previous years.

The out-of-town speakers were: Mr. T. W. Whelan, Mr. Wm. Bulloch, Mr. Ray Harrison.

These men outlined the work of the C.S.A. up to the present date and the work to be done by this association in the future.

Those elected for office were as follows:

Chairman—J. D. Hawker
Vice-Chairman—G. F. Marse
Sec.-Treasurer—L. M. Donnelly
Membership Committee—J. R. Roxburgh, E. H. Buckingham.
Grievance Committee—R. C. Acheson, F. Dibben, C. J. Reeves.
Social Committee—P. Cross, Miss M. G. Lang, D. M. Witwer.
Correspondence Committee — The Sec.-Treasurer assisted by C. M. Hay and C. J. Reeves.

This Association will meet the 3rd Monday of each month.

All Civil Servants desiring membership please contact Mr. E. H. Buckingham or Mr. J. R. Roxburgh.

LAWN BOWLING

A meeting of all those interested in Lawn Bowling will be held in the Memorial hall at 8 o'clock Monday evening April 28th. All members and prospective members are cordially invited.

Four Team Fastball League Planned Here

A general meeting of the Vermilion Fastball club was held April 14th. At this meeting it was decided to appoint a committee of six men to scout around the town to line up the prospective players for the coming season. The idea is to get as many players as possible in order that a four-team league can be formed in the town. As this was the main topic of the evening it was decided to have another meeting on April 21 to see how many players the committee had contacted, and to elect officers.

The number of prospective players was better than anticipated but still more are needed to make a really good league. It is hoped that anyone who wants to play, as long as they can hold a glove or swing a bat, will line up with the fastballers.

The election of officers took place with the following being elected:

President—Neil Webb
Vice President—[illegible]
Sec.-Treasurer—Frank [illegible]
Equipment—Irvin Gordon.
Executive—Bill Pettigrew, [illegible] Manyluk, Bob Dunsmore, John Gordy, Tim Nelson, Stan Calvert.

GENERAL MEETING APRIL 2[illegible]

There will be another general meeting for all men interested in fastball on Tuesday April 29 in the [illegible] room of the fire hall. A [illegible] turn out is desired at this meeting, quite a number of things [illegible] brought up in a decided effort [illegible] being good interesting fastball [illegible] to Vermilion.

If you [illegible] but wish to play fastball please get in touch with any one of the committee.

Notice to Last Season Players

All who still have sweaters, return them in at Pop Harris' barber shop before the next meeting.

"GREEN ACRES"

FORAGE CROP SEED

Starting on Friday forage crop seed on order by farmers will be delivered. It is hoped that everyone will take delivery immediately as the storage space is limited. There is still some Brome and Alfalfa seed available for order from the Government stocks at Edmonton.

SOW SOME FLAX

It is not too late to [illegible] flax this spring. At $5 per bushel flax should be the best paying crop. Seed is available. See your D. A. for information.

SHORTHORN BULL SALE

This year Claude Gallinger will hold his bull sale on May 13 at the exhibition grounds, Edmonton.

This is one of the outstanding sales of Registered Shorthorn cattle on this continent. Whether you intend to buy bulls or not it will be a real experience for stock men to take in this sale.

EARLY SEEDING OF GRASS

There is no doubt that early seedings of grasses and Alfalfa usually turn out the best. The seeds germinate and plants develop in the moist and before the [illegible] of June and [illegible] to provide [illegible] is best to seed [illegible] separately [illegible] failure.

HORTICULTURAL PREMIUMS

Premiums [illegible] wishing to get [illegible] should see the [illegible] Henderson and pay the [illegible] fee. It is doubtful [illegible] enough to go [illegible] first served.

HOG PRODUCTION COSTS

In a recent circular A. J. [illegible] Provincial [illegible] states that [illegible] grain and feeding hogs can make [illegible] up to $5.50 per pig [illegible] the grade. There [illegible] points in that statement [illegible] that there [illegible] in the spread in profit [illegible] with poor feeding and low grade.

F. H. Buckingham, D.A.

FEW APPEALS AT COURT OF REVISION

Court of Revision was held Monday April 21st with Mayor Morrison and Crs. Boake, Dawson, Kehoe, Stephens, Stack, Urquhart present.

Appeals: Percy F. Cooper Lot 19 Blk. 2; Charles F. Heckbert Lot 5 Blk. 1.

Messrs. Cooper and Heckbert appealed their respective improvement assessments. Following discussion by the Court of Revision the following motion was unanimously passed: "That assessment appeals of P. E. Cooper and C. T. Heckbert be not allowed by the Court of Revision."

Court then adjourned and met in special meeting of Council.

Messrs. D. Taylor and A. Cooper of the Vermilion school board waited on Council to urge the reservation of all lots in Blk. 31 for school purposes. Following discussion of the town and school requirements the following motion was passed:

"That the motion re sale of lots in Blk. 31 be rescinded and that Blk. 31 be reserved for school purposes for the next two years from this date."

Applications were then considered by Council for the position of public works utility man.

Applications received from P. Wilkinson Jr., $175 per month; J. Gordey $175 per month; Barry C. Bell, $200 per month; A. Gelabiasion $185 per month; A. W. Cooper $175 per month.

Motion: "That J. Gordey be engaged as town utility man at a salary of $150 per month plus $25 per month for team and harness." Cd.

Considerable discussion followed regarding the work of town scavenger and garbage collection. It was agreed that the public would receive more efficient service if the two jobs were segregated and the following motion was passed: "That Secretary be authorized to advertise for tenders for the position of garbage collector and of town scavenger, council having decided to segregate their services. Tenders to be in the hands of the Secretary by 5 p.m. Monday, May 5th."

Motion: "That Council ratify purchase of property Lot 24, Blk. 33 and also that due to reservation of Lots in Blk. 31 for school purposes Blk. 33 now be offered for sale." Cd.

A motion that a grant of $50 be made to the Canadian Red Cross appeal.

Meeting adjourned.

REVIVAL MEETINGS PLANNED BY SALVATION ARMY

The Salvation Army will be holding special revival meetings from May 4 to May [illegible]. These meetings will be led by Major J. Martin who is the spiritual special for the province of Alberta. Special Young People's meetings will be held as announced from time to time. Watch the paper for further announcements.

Gay Fantasy Opens Thrilling Ice Revue

Fantasy at its very best is presented in Nocturne, one of the colorful production numbers featured in Ice Cycles of 1947 which opens Wednesday April [illegible] at the Edmonton arena for four nights only and one matinee, May 3rd at 2.30.

This ethereal ensemble continues to [illegible] in quiet beauty and [illegible]. It features [illegible] young Ice [illegible] eight [illegible] as Moonbeams and [illegible].

[illegible] California [illegible]

[illegible]

JAS CAVIL [illegible] YEARS OF AGE

Mr. James Cavil, pioneer Vermilion [illegible] observed his [illegible] birthday on Tuesday April [illegible] still hale and hearty and still very much in evidence around the town.

Norman Tucker Dies at Vancouver

Norman Tucker, well known and highly esteemed farmer of the Vermilion district, was found dead in a bath tub in a Vancouver hotel last Thursday evening April 17th. Death was believed due to a heart attack. He was 67 years of age.

The deceased was spending the winter months at the coast as has been his custom for the past few years.

The body was brought to Vermilion and the funeral was held Wednesday afternoon under Masonic auspices. The services were very largely attended showing the respect felt for the deceased. The obituary will appear in next week's Standard.

Change in Time of Daylight Train

EFFECTIVE SUNDAY, APRIL 27th

Attention is directed to the following change in the time of the daylight train, effective Sunday April 27th. This train, under the new schedule, leaves Vermilion at 8.30 a.m. daily except Wednesday arrives in Edmonton at the same time, 12.00 o'clock noon. It leaves Edmonton at 4 p.m. daily except Tuesday, one hour later than heretofore and arrives in Vermilion at 9.40 instead of 9.50 o'clock.

Besides giving one hour extra time in Edmonton the time of the actual run is cut by 20 minutes.

All other train times remain unchanged.

LADIES FASTBALL

All girls interested in playing fastball please leave their names with Marge Schoenmaker at Lena's Beauty Salon, or Del McCormick at the Co-op store. The first practice will be held on Monday April 28th at the east end diamond. Come on all you girls show what Vermilion can do. If you are absent more than three practices in succession you are out of the league.

ST. SAVIOUR'S CHURCH

On recommendation of the Ven. W. Leversedge, rector of St. Saviour's Anglican church, a Lay Reader's License was granted to Mr. S. E. P. Cooper by the Bishop of Edmonton. The Archdeacon read and presented the License, following the reading of the second lesson by Mr. Cooper at the evening service on Sunday last.

Arne Myggland formerly of Wainwright has taken charge of the repair department of Hardie Ford's garage.

BARLEY CONTEST AGAIN IN 1947

Encouraged by the 1946 campaign to induce farmers to grow better quality barley, the brewing and malting industries of Canada are renewing for 1947 the $35,000 National Barley contest stared in 1946.

Booklets containing regulations of the contest in which are attached entry forms, have already been distributed. In the Western division, the rules are approximately the same as last year. Once more it will be a carlot contest. Copies of the regulations and entry forms throughout the Western division are now available from elevator operators in Manitoba, Alberta and Saskatchewan, or from agricultural representatives.

The National Barley Contest committee again headed by Prof. T. J. Harrison, is located at 306 Grain Exchange Building, Winnipeg.

Provincial committees are substantially the same as last year and as was done in 1946, entries in each province are to be forwarded to the chairman of the provincial committee in the province in which the contestant is located.

CREIGHTON

The Creighton W. I. held their meeting at the home of Mrs. Tate April 17th, with 11 members and several visitors present.

It was decided to donate $10 to the Cancer fund.

Proceeds from the lunch served at Mr Legg's sale was $37. Mrs. G. Clark gave a very interesting paper on Social Welfare.

It was decided to have Mrs. Reeves write to the agricultural college, Vermilion, to invite a member of the staff to give a talk on "Poultry" for our next meeting to be held at the home of Mrs. A. Woolever.

A dainty lunch was served after which the members spent a very pleasant social hour.

WOODVALE

We were sorry to hear that Fred Slocum has been in the Vermilion hospital with an injured leg. Apparently the leg never bothered him until he noticed that he could not get into his shoe and found his foot and leg above badly swollen. We do hope you'll soon be on your feet again and able to go back to work.

Mr. and Mrs. T. Preston returned from England on the 12th. They saw quite a bit of the floods over there as the farm of Mrs. Preston's parents was under water too and considerable damage done.

Mr and Mrs. Dan Ford returned to their home on the farm after spending the winter in Vermilion. This was baby Allan Ford's first trip out and he got acquainted right away with most of the ladies of the district at the Red Cross meeting.

Tommy Lewis has gone to Ontario to work for his uncle there.

Mr and Mrs. Brooks Lyons and little Art will be leaving us this week to live in the Thorncliffe district and will be greatly missed by their many friends, but we wish them every success in their new home and hope they will find time to drop in, not only at the home of their relations but to visit some of us too. Be sure to drop in on our meetings whenever possible, Peggy, we all have so enjoyed having you there.

Little Hughie Johanneson of Viking is visiting at the home of Mr. and Mrs. C. McGrath and enjoying his play with his young cousins there.

The Whitlock family has received several photos of Harry's grave in Nymegen, Holland, sent to them by the family who adopted his grave there and decorated it with beautiful flowers.

Mabel Lyons, (being the soul of modesty we never heard) got seven, or was it nine, Mabel (?) prizes at the Y.S.A. Little Royal. These were well divided over all classes, cooking, sewing —and where did you ever learn to make such a model job of pressing pants? With half a dozen brothers at home we imagine you were pretty well an accomplished worker with an iron! Congratulations!

Weather Cool, Bright

Weather has been cool and Jack Frost seems loath to leave, making himself felt every night for the past week. Snow amounting to 1.1 inch fell in flurries but melted practically at once and showers accounted for twelve-one hundredths of an inch of moisture. The 1.1 inch of snow became eleven-one hundredths of an inch of moisture.

High and low temperatures since last Thursday have been:

Day	High	Low
Thurs. 17	45.2	26.7
Fri. 18	35.2	26.8
Sat. 19	54.1	22.5
Sun. 20	44.2	30.2
Mon. 21	60.1	30.7
Tues. 22	50.5	17.2
Wed. 23	45.5	18
Thurs. 24	55	19.0

The forecast is for a continuation of the present type of weather with no decided warm spell in sight for the next 48 hours.

—Statistics by courtesy of the Dept. of Transport, Radio Beam Station, Vermilion.

Keep that Dog At Home, Please

Too many family pets, namely dogs, are following their young masters and mistresses to school these days and are becoming a nuisance around the institutions of learning. The teachers and school board would deem it a great favor if the heads of the households having dogs, would see to it that the family canine is kept in when the children are departing for school.

OUR COMPLETE SHORT STORY—

Uncle Joe Has A Family

By M. J. COLLINS

"THESE leghorns are all wings and works," Uncle Joe growled as he sliced into the roast chicken, "There ain't enough here for the four of us."

"I told you to dress two of them. Here you can eat cold beef," Aunt Martha said sweetly. Uncle Joe scowled at the platter of sliced meat.

"I'll eat beef," Jeanne said, "right now chicken disagrees with me."

Uncle Joe brightened at the news and passed the platter with alacrity and got on with his carving.

"Joe Quinn, aren't you ever going to learn how to carve?"

"What's wrong with it, it's in chunks, ain't it?" He beamed, Aunt Martha's criticism wasn't going to ruffle him. This was his birthday, but he was more interested in a birthday that was pending in the very near future—Jeanne and Ralph were expecting a baby.

"By gol, us Quinn's need some boy babies in this family. Ralph, you're the last of the Quinns, if it ain't a boy I'll cut you clear out of my will" he threatened through a mouthful of white meat.

"At least they're going to have a baby, we never did," Aunt Martha said regretfully.

"Well," Uncle Joe responded, "We—we just weren't to have one, I guess."

"When are you going to the hospital, Jeanne?" Aunt Martha asked before he could think of something else.

"In about ten days, the doctor thinks I should go in a few days ahead of time."

"When I was a young buck women worked right up to the last minute," Uncle Joe informed them, "No mollycoddling in those days. No, Sir!"

"Look at the infant mortality then," Ralph said.

Uncle Joe wasn't sure of what he meant. "Yes sir, we did right smart by that mortality in those days," he nodded his head in the affirmative.

Jeanne almost exploded with laughter and it took him down a peg or two when they explained what mortality meant.

"Well," he countered, "only the best came through."

"How'd you make it?" Aunt Martha's voice poked fun at him.

"Gol darn it, woman!" He banged his fist down on the table. "You're always bedeviling me."

Aunt Martha fetched in his birthday cake and he forgot all his troubles because Uncle Joe is very fond of cake.

The little party was a success. Uncle Joe enjoyed himself immensely and when they were leaving, he warned. "A boy, remember."

"You'll have Jeanne all worried," Aunt Martha chided when they were alone. "Don't be so insistent, Joe."

"Bet old Judge Hawkins Ralph would have a boy and I ain't backin' down on that bet. No Sir! Well, I got chores to do, got no time for chewin'."

Both Martha and Joe were terribly disappointed that they had no children of their own. Joe almost idolized Ralph and Jeanne in his grumpy way, goodness only knew how he'd act if Ralph and Jeanne had a boy. On her part Martha would rather have a nice cuddly little girl.

Uncle Joe was splitting and piling firewood into the woodshed for the day when his wife came dashing out.

"Jeanne's in the hospital. Ralph just phoned from there. Will you go over and do his chores? He's staying in there for awhile at least."

"Right on the dot! All right, Martha, I'll take the old car over."

Ralph came out in the afternoon. The baby was still unborn and he was worried. The doctor had told him not to come back until after supper. He'd had no dinner so Aunt Martha made him up something to eat.

"You go over and get your chores all done up," she told Ralph, "Supper will be ready by then." If he was busy it would keep his mind off the worry of Jeanne.

Supper was a very dismal affair. Aunt Martha kept up chatter, but Ralph answered only in monosyllables. He hardly ate anything and was away before the two old folks had finished. Even Uncle Joe's querulous spirit was at a low ebb. They 'phoned the hospital, but received the usual perfunctory answer.

"I'm goin' into the hospital," Uncle Joe said, "I'm goin' to find out what's goin' on."

"You are not!" Aunt Martha pushed him down in his chair. "You just stay here. Ralph has enough worries without adding you to them.

"I'd sit in the waiting room and never say a word."

That made Aunt Martha smile. "Besides," she added, "You can't see worth a hoot at night, so how'd you expect to drive in.

Several hours later she finally got him off to bed, still protesting. She was going to stay up.

The sharp jangle of the telephone woke her from drowsing in the rocking chair.

"What's the news?" Uncle Joe was standing in the doorway in his night shirt almost as soon as the bell rang. But he'd had time to grab his old corncob pipe.

"Shh!" She held up her finger. "It's a girl."

"Huh! Might as well go back to bed." And he did. Then he stuck his head out as Aunt Martha hung up. "How's Jeanne."

"Ralph doesn't know yet, said he'd let us know as soon as possible."

Ralph phoned about two hours later. "Everything's O.K. I'll be out for breakfast about seven o'clock." He sounded quite excited.

Uncle Joe was disappointed and almost disconsolate as he sat over his breakfast. He'd been so sure it would be a boy and not the least of his worries was losing his bet to Judge Hawkins.

Ralph's car turned in and he blew the horn long and loudly as he came up the driveway. He fairly burst into the kitchen.

Uncle Joe tried hard to brighten up. "A girl, eh!" was all he could manage.

"You bet!" Ralph slapped him on the back. "A little beauty to be and guess what Uncle Joe. A boy too!"

"A boy!" Uncle Joe almost jumped straight into the air. "Two babies?"

"Yes sir, twins!"

Aunt Martha was so surprised she dropped an egg onto the stove instead of in the frying pan.

Uncle Joe stuck his chest out with pride. "Boy, I knew we'd do it."

BENEFICIARY OF SPANISH COUNT — Named sole beneficiary of nearly $104,000 left by the late Manuel Antonio Lamarraga, a Spanish count was Lady Diana Duff Cooper seen here wife of the British ambassador to France. The count met her only once, but remained an admirer for almost 30 years.

Health LEAGUE of CANADA presents TOPICS of VITAL INTEREST

SAYS ARTHRITIS PUZZLE GRADUALLY TAKING FORM

The various forms of rheumatism or arthritis are the greatest cause of chronic disability in this country, Dr. Wallace Graham says in an article "Arthritis the Great Mystery" in the current March-April issue of the magazine Health, official publication of the Health League of Canada. Dr. Graham is president of the Canadian Rheumatism Association.

"Although no dramatic cure for certain forms of arthritis has yet been found there is evidence of a strong revival of interest by both physicians and laymen in what has been called the forgotten disease." Dr. Graham says. Over 2,500 papers on rheumatism have been written in the English-speaking world during the [illegible] and [illegible] is [illegible] minated, but [illegible] of the great medical puzzles is taking form.

"Using the term in its broadest sense some two hundred forms of rheumatism have been described including about one hundred different types of arthritis. However, the majority of rheumatic patients suffer from one of the [illegible] varieties, namely rheumatoid arthritis, osteo- or degenerative arthritis, rheumatic fever, gout, gonorrhoeal arthritis, fibrositis and a psychoneurosis with rheumatic symptoms. Most of these forms and the [illegible] measures are described in the magazine article.

Dr. Graham says that these types vary [illegible] in their cause, mode of onset, symptoms and resulting disability [illegible]

WEATHER DEPOTS WILL BE SET UP ACROSS ROUTES OF NORTH ATLANTIC

LONDON—Safer travel for airlines traversing North Atlantic and Scandinavian routes will result from establishment of 13 floating weather stations which will operate in the Atlantic after July 1.

These stations will collect information about weather tendencies and wind velocities and radio it to London for compilation into meteorological bulletins to be made available to all countries.

The United States will provide eight of the floating stations, Britain two—sharing maintenance of a third with Norway and Sweden—France one, and Holland and Belgium one between them. Provision of these vessels was laid down in the international agreement drawn up by the Provisional International Civil Air Organization which was signed last September.

Four Royal Navy corvettes which convoyed merchant ships across the Atlantic with lend-lease cargoes during the war are being converted for use with this weather station fleet.

They are the Snowflake, Thyme, Saxifrage and Meadowsweet, each of 1,400 tons and of the "flower" class. They are being stripped of their armament and fitted with the latest radio and radar equipment.

Shower baths, comfortable bunks and recreational facilities are being incorporated for the benefit of the crew who will spend 27 days at sea—21 on station and 1½ in port.

When on station the vessels will be anchored 350 miles west of the Irish coast and 400 miles west of the Faroe Islands.

Although the immediate personnel will be all male there is possibility that women expert meteorologists will accompany the corvettes at a later date. Supplementing the normal complement of the corvettes will be the meteorological staff of 12 officers, 20 petty officers and 22 ratings, all skilled in use of radar and other navigational aids.

TORONTO MAN FOUND THAT HONESTY PAYS

TORONTO.—A diamond-studded gold wrist watch was found in the Union Station by George Hutchinson, hotel porter, who gave it to station authorities. When advertised the watch was claimed by its woman owner and Hutchinson commended for his honesty by the Toronto Terminal Railways Company. The hotel has arranged to present him with a gratuity.

APPLICATION FOR LOCKER PLANT LICENSE

Pursuant to The Frozen Food Locker Act being chapter 11 of the Statutes of Alberta, 1944, public notice is hereby given of receipt of an application for license to operate a FROZEN FOOD LOCKER PLANT, at VERMILION Alberta.

A policy of restricting such licenses has been adopted and only one license will be issued at this point. Application will be received from other interested persons for a period of thirty (30) days following the date of this notice.

Application forms may be obtained from the Dairy Branch Department of Agriculture, Edmonton.

Dated at Edmonton, in the Province of Alberta, [illegible] day of April 1947

D. H. McCALLUM
DAIRY COMMISSIONER
Edmonton, Alberta

Where do we WANT to go from here?

★

We in Canada have now come through the hardest part of the post-war adjustment period. By buying in moderation only what we really needed, by resisting the natural desire to rush madly after long-absent luxuries, we have been able to keep prices at reasonable levels. We have been able—so far—to escape the strife and the sickness of inflation. Knowing where we want to go, we have also known how to get there. Credit for this lies with the farsighted planning of our Government—the wisdom of the people—and the Canadian habit of moderation in all things, which as The House of Seagram has long maintained, is unquestionably one of this country's finest assets.

Men who Think of Tomorrow Practice Moderation Today!

THE HOUSE OF SEAGRAM

Thirty-two Years Ago Today

Interesting Items Gleaned from the Files of the Vermilion Standard
32 YEARS AGO TODAY — 1915

April 21, 1915

J. M. Stone of Tunar Calif., has purchased the farm at Campbell Lake belonging to the Albert H. Burns estate.

The Hayward Lumber Co. are opening a general merchandise store at Islay.

B. E. Dury surveyor and engineer has now taken up residence in Vermilion.

Harry Compton is making extensive improvements to his blacksmith shop.

Sixteen Years Ago Today

April 23, 1931

Mayor of Vermilion from 1914 to 1918 W. J. [illegible] died in Vancouver.

Geoff [illegible] was transferred to the local branch of the Canadian Bank of Commerce, coming from Calgary.

The oldest store building in town (located on the site of the present Parkview Auto Service) was destroyed by fire which broke out in the small hours of Sunday morning. The people occupying rooms above the store narrowly escaped with their lives as the fire had a strong hold when discovered. The store was built by W. J. Macnab in the very early days of the town.

Weather has been cool all week.

Urge Safe Walking For School Pupils

Promotion of safety measures this year is receiving the special attention of the Alberta Motor Association. The need of widening steps along this line was approved at the last annual meeting of the provincial organization.

As an instance of this activity, the Edmonton branch has decided to take measures to check the practice of school children walking in the centre of streets or other traffic routes instead of keeping to the sidewalks.

The A.M.A. has decided to send safety letters to every classroom in city schools. These will be read by the teachers to the pupils. It is believed that this step will have the effect of checking the practice and probably preventing accidents.

Action also will be taken on pedestrian safety promotion in general. The branch will send out a general safety letter for distribution, showing clearly the rights of pedestrians and motorists. This is expected to bring about a greater degree of pedestrian education and effect a reduction to this type of accident.

Wildmere Winks

We, along with the Wildmere and Basswood communities extend our heartfelt sympathy to Mr. and Mrs. Sam York of Goose Lake, P.O. Alta., on the loss of their infant son who passed away when two weeks old. Mrs. York was the former Marion Gibson of Basswood.

Mrs. Frank Gibson and Mary and Mrs. G. Gibson of Basswood visited on Tuesday afternoon with Mrs. Cliff Cruthers of our district.

Dorna and Alice Seuffert of town spent the Easter holidays with their uncle and aunt Mr. and Mrs. Bob Martin, Wildmere.

Mr. and Mrs. Fred Nichols of Triangle were in our district on Friday when they got a ride to Vermilion with a neighbor.

Some folks attended the closing and banquet at the agricultural college last Wednesday afternoon. We were pleased to hear that Noel Garnett won a prize and scholarship as a first year student. To all the rest who won prizes we extend hearty congratulations. The muddy roads kept quite a number from attending.

Mrs. Wilson is staying on at our school until May 1st. Mr. Warman will then be out of University and will take over.

A nice crowd turned out to the A.F.U. meeting and whist drive on Friday evening last at our school. A short meeting was conducted with the President Herman Eyben and Secretary Ray Osterberg in charge. Several letters were read regarding resolutions that this local had sent in—the rising price on gas, binder twine etc. We think although we are not a member this year that they should send in a resolution re the rising price in membership fees, it is just double to what it was last year. Several were heard to remark that when their present membership expires they were not going to re-join at the present fee—so why not start lowering prices at home. After the meeting 8 tables of whist got underway. The winners were ladies 1st, Mrs. G. Gibson from Woodside, Man., consolation Aileen Smith. Men's 1st, Lewis Alexander consolation Martin Snider. Everyone surely enjoyed the evening's outing.

We are indeed sorry to hear that Mrs. M. Watson of Hindville has been laid up for several weeks. She spent a few days during February with her daughter and family Mrs. Guy Whitlock of Wildmere. We wish her a speedy recovery.

Steve Tifinger of Basswood returned home from the hospital Saturday evening where he has been a patient for the past two weeks. Your friends and neighbors all wish you a speedy return to health Mr. Tifinger.

After the show on Saturday evening attend the dance at the Elks hall. An enjoyable hour or two for only 35c.

WHY BE ENVIOUS of other peoples' coffee when you can serve Maxwell House? It's the world's leading brand and it contains choice Latin-American coffees for *extra* flavor.

GROW FLAX!

"There's money in a weed-free crop at $5.00 per bushel"

Flax cannot fight weeds and a profitable crop depends largely on successful weed control. But weeds are no Problem IF YOU KILL THEM WITH

"SINOX"
SELECTIVE WEED KILLER

Here is what the National Flax Committee say about "SINOX"
"Is spraying advised?"
"YES —
Tests indicate that the use of "SINOX" may increase yields three to four bushels per acre."

— Kills the weeds
— Saves the crops.

FLAX GROWERS!
You cannot afford to do without "SINOX." It is your protection and assurance of a better Flax Crop.

WOMEN ON JURIES?

British Columbia is the only province where women are called to jury duty. The Financial Post recently asked a group of prominent Canadians whether other provinces should adopt the same policy. All women asked were very much in favor, but the men, including many well known lawyers, were divided — some emphatically against women on juries, some neutral, few strongly in favor.

FAST LASTING RELIEF FROM — acid indigestion, gas disturbances, heartburn, sour stomach with "GOLDEN STOMACH TABLETS" 360 tablets (90 day treatment) $3; 120 tablets (30 days) $2; 55 tablets (14 days) $1. At all drug stores or mail order drug houses. 50x

IMPORTANT INFORMATION
on the
$1,000.00
RECIPE CONTEST

Purpose of Contest
The primary purpose behind this competition is to obtain a delicious typical serving which will become famous as Alberta's distinctive dish. The secondary purpose is to awaken the citizens of Alberta to the importance of appetizing food and to improve the standards of food and service, in Alberta's eating places. Good food encourages visitors to this Province to return again. Tourist business is big business — in which everyone shares.

The Prizes
The ONE THOUSAND DOLLARS in prizes includes FIRST PRIZE $500.00 and Gold Medal; SECOND PRIZE, $200.00 and Silver Medal, THIRD PRIZE, $100.00 and Bronze Medal. In addition, the Western Stock Growers' Association have offered $150.00 in cash prizes if the winning recipes are created around Alberta's Good Beef.

Judging of Contest
Recipes will be judged by leading culinary experts. Every section of the Province shares an equal chance by selection of a winner from zones. Zone winners will assemble at a central point to establish the final winners.

ENTER YOUR RECIPE NOW!
Contest Closes - Midnight April 30
If you have not already secured the official entry form . . . contact your District Agriculturist or write to:

LEGISLATIVE BUILDINGS EDMONTON ALBERTA
ALBERTA'S GOOD FOOD WILL MAKE US FAMOUS

ISLAY

On May 2nd there will be a cribbage tournament and other games in the hall, ending with a dance. Come and meet your friends and have a sociable evening.

Last week the people of the Holyroad district held an auction and dance in aid of the Junior Red Cross, something over $80 being realized.

On Friday 25th Kenilworth is sponsoring a bazaar and dance in aid of the Jr. Red Cross. Come and help the good cause.

Charlie Hasan and family arrived from Ontario last Friday and are getting settled again on their farm in the Bridstow district. We are glad to see them and to have their music for dances again. Bridstow school [illegible]

Kit Hamilton's family have moved to Mannville. The John Lang family are moving to Bawlf. That takes six pupils out of Islay school.

Dalton Torrance purchased Raymond Buchanan's house and had Mix Movers bring it into Islay and place it on the Jamieson lot which Dalton had purchased. Mrs. Alec Gilchrist has a nice lot to sell, a fine spot for a house.

Noticed Walter Jorgenson taking out 250 baby chicks.

It is said Johnnie Tesky bought a cushion at the Red Cross auction. He intends to use it on the tractor.

Noticed at the church tea, Mrs. Linton, Alexis, Valerie and the two little boys.

Many will be sorry to hear of the death of Mrs. George Wilson in Ontario. She was one of the early settlers south of Islay. Her son Lorne left immediately he got word of his mother's illness.

DANCE AT ST. ANDREW'S HALL
Old time and modern dance will be held in the St. Andrews hall on Friday April 25th. Rufus Omness orchestra. Free lunch. Admission 50c and 25c. [illegible]

Cancer! Cancer!

"Cancer" should be everywhere — Cancer should be heard on the air! Cancer should be seen on the street! Because if cancer is not brought acutely to the attention of everyone this menace will continue to take its annual toll of 14,000 Canadian lives. It will go on dealing out death because lack of funds impede research and treatment, because lack of knowledge will never conquer fear.

The appeal of the Canadian Cancer Society is directed to you personally. Do not feel that it is the concern of someone else. Whatever you can do to help will be a step in vanquishing this enemy. Perhaps your effort will help a sufferer. Perhaps it will help you. Cancer can strike anyone. There is no known immunity. The sooner a cure, or a means of prevention, is found the sooner can lives be saved. You can help!

Frog Lake Chapter, I.O.D.E. will be in charge of the campaign for Vermilion and district. Donations will be accepted by members of the Order in downtown stores on Friday and Saturday of this week.

WOODVALE

In the first place our congratulations to Mr. and Mrs. Gordon Dixon whose marriage took place on April 9th and who will reside on the former Dixon place in the Woodvale district. A special welcome is extended to Mrs. Dixon and we hope she soon will feel at home in our community and make many new friends.

Maxine Dixon returned home from the East a few days before her brother's marriage and is staying with her mother in Hindville.

We were sorry to hear that Mrs Watson has been confined to bed for over two weeks and wish her a speedy recovery. We missed her at the Red Cross meeting held at the home of Mrs. J. Haan on the 10th. Despite the bad roads 12 members turned up and finished a nice patch quilt for the Red Cross. It is hoped it will reach one of the many families who suffered from recent floods in Canada. Four ladies arrived early and had dinner at Mrs. Haan's hospitable home. They were thus able to have the quilt well started before the other Red Cross members arrived. As so many attended after all, the quilt was finished early and we had a good time enjoying our lunch, a bit of a visit and an exchange of plant slips. Mrs. McGrath brought a big box of lovely fresh looking cuttings of a great variety of houseplants. Some work was given out and some turned in. Watch for a later announcement of the place and date of our June meeting. A beautiful big quilt top was received from Mrs. W. Ford of Vermilion and greatly admired.

The Ganton school will be opened on May 5th with a teacher once again to help the children on their rocky road to wisdom.

MORRISON NEWS

The roads are drying nicely but the weather stays cold and snow has fallen several times during the week although not in quantities that fell around Edmonton. Heard one lady say that she had already planted onions hope they don't catch cold!

Everyone is pleased to have Mrs Van Den Bolder back again after spending the winter months at the coast. It looks as if the coastal climate is too damp for Mr Van, he would rather have sunny Alberta.

Oh yes we thought Mr Baldwin was bringing back a lovely bride but he returned alone.

Lila Bower was in Edmonton for a few days last week to see Ruby. Ruby receives the Standard every week and the first news she looks for is the Morrison bulletin. Will try and do better Ruby but there is nothing exciting enough to make headlines.

The writer's family all attended the military ball in Vermilion last week and report a grand time.

Mr and Mrs [illegible] were [illegible] at Mrs McClelland's [illegible] Betty Jordan and [illegible] spent the week end at [illegible] home. Jean and Keith were also home for the week end.

Mrs Giles and Betty were visitors [illegible]. Betty stayed [illegible] tea with the Bower family. [illegible] came over and had tea with the writer and hubby. We certainly enjoyed the visit. Do it more often.

Mr [illegible] was a recent patient in the hospital but hope [illegible] that he is better now.

We hear good reports of Mrs Evans but what is this we hear about Mr Evans? He [illegible] church and then the minister said he wasn't there. Now Mr Evans where were you?

Don't forget the shower and meet at the home of Mrs Giles on May 1st. Will be seeing you all then.

On Target for '47

STAND back—take it all in—and make sure you don't miss a thing. For what we've pictured for you here is the whole Highway Hit Parade of 1947—wrapped up in one glamorous bundle.

Those long, flowing, follow-through fenders—there's a style note you'll see echoed in automotive fashions for a long time to come. That generous beam amidships—there's the drivingroom you've been seeking, with legroom, headroom, elbowroom all around.

That broad, deep bonnet spells power aplenty—eager, lively Fireball power from an engine that seems to stay forever young. That hug-the-road look means steadiness; coil springs on all four wheels spell matchless, floating ride; wide-swinging doors open on interiors both handy and handsome in arrangement.

In a word—here's a car squarely on target, whether you go for style or size, performance or value. Here's Canada's most wanted car—and easily Canada's most sought-after buy.

The demand for new cars is still so great that it may be some time before you take the wheel of your new Buick. Make sure your present car keeps rolling. The better its condition, the safer you are . . . and the higher its potential trade-in value.

Stagette Notes

Well girls, we started our meeting with 15 members present this time even if our membership did reduce to that inevitable 13 later in the evening.

Playground meeting on Thursday night for those of you on the committee to attend.

Glad to hear from you Beth and we all hope you will soon be out of hospital and feeling fine again.

Our next overseas parcel for the Maidstone Street school is due in May. It looks as though contents will be a little easier to get this time.

Thanks to Lucy for contributing two pictures for our club room walls and we do appreciate it.

After the business portion of the meeting the girls turned artistic and put willing fingers to work making decorations for our Spring-Time dance on May 13th. Someone thoughtfully supplied scissors so we just didn't have any excuse, and the results made our club room take on a decided spring-like atmosphere.

You won't forget the 13th, will you folks?

Bill Davies is noticed driving a ½-ton Mercury truck purchased this week from the local dealers George Webb and Son.

CLANDONALD

St. Mary's W. A. Clandonald will hold a tea and sale of home cooking, farm produce, etc., on April 26th at 2 p.m. in the Orange hall. 50

CHATSWORTH

The Chatsworth A.F.U. Local will meet at the Chatsworth school Friday April 25th at 8 p.m. [illegible] bers are urged to attend.

UNION

Bazaar and dance in aid of the Junior Red Cross at Union school on Friday May 2nd. Good music. [illegible]

STAGETTE SPRINGTIME FROLIC
Tuesday May 13th

The date of the Stagette Springtime Frolic has been changed to May 13th. The change is due to the V-E Day dance which will be held on May 8th.

ETHELWYN

Spring work has not started hereabouts but last week we saw Buddy MacDonald starting out to cut brush with Jack Grant's outfit, also Louis Taylor taking his tractor to town to get it tuned up for the spring work.

Donald MacGillivray is home and has been calling on old friends. He looks and feels fine. Donald thinks that farming is the best occupation he has tried yet.

The writer enjoyed a good visit with an old friend, Mrs. Oscar Johnson last week. Not having seen each other for 11 years there was a lot of news to catch up with. It seems rather tragic that we are all so busy making a living that we lose touch with old friends for so many years.

The sympathy of the people of the community is extended to Mr. Gallagher and family who were bereaved by the death of their wife and mother.

Herman Burns is still looking for the big white sow that strayed away from his place several days ago. This is quite a loss when Britain still needs all the bacon we can produce.

Roberg's store in Clandonald has undergone many improvements in the past few months including a complete exterior face lifting, a new store room has also been added. Inside, the butcher shop has been closed off from the rest of the store and the main store has been enlarged with plenty of display space. Added features include new counter, display shelves and bins for everything. A pleasant place to shop with quick courteous service from the time you enter the store until the clerk carries your purchases out to your car regardless of the distance away from the store you are parked. Of great importance has been the store's policy of fair distribution of goods in short supply. Another added feature which is greatly needed in the district is the egg grading station which we hope will soon be in operation.

The writer missed seeing her old friends Mr. and Mrs. Wm. Seal while in town last week and hopes that Mrs Seal is now feeling better.

Congratulations on your recent birthday Mr. Curtis.

Mr. and Mrs. J. Podhanyuk have had as their guests the former's brother and family.

Mrs. Mary Ann Dalans of Edmonton spent several days nursing her aunt Mrs. Gallagher during her illness and was with her when she passed on. It was very kind of Mary Ann to come and help as her husband was laid up at home with an injured hand and looked after the two small children while his wife was away. Mrs Dalans' father, Mr. Allan MacDonald accompanied her to Clandonald.

Housecleaning Drives "Empties" Into the Open

Housewives Join Search For E. B. Bottles.

Hundreds of housewives in Alberta's rural and urban districts are reported today to be co-operating in the extensive search to apprehend E. B. Bottles missing from duty for several months.

"Bottles", commonly known by the full name "Empty Beer Bottles" and also under the alias of "Empties", may be hiding out in closets, basement corners or attics. Housewives in their spring cleaning drive are searching these favorite haunts of "Bottles" in an effort to bring the fugitive to justice. A reward of 20 cents per dozen for apprehension and recovery of "Empties" is offered by Deliveries Ltd.

An acute situation still exists in regard to the shortage of Bottles in Brewing Industry.

Deliveries Limited, Agents for Alberta Breweries, reports present shortages are due solely to "Bottles' " disappearance from work. "Empties" cannot be replaced at this time and anyone knowing the whereabouts of "E. B. Bottles" is urged to communicate with their nearest Deliveries Limited Depot at Edmonton, Calgary, Lethbridge, Medicine Hat, Banff, Blairmore, Camrose [illegible]

CASH REWARD

In Alberta cities, arrangements have been made for taking "Bottles" into custody and paying reward at the householder's home. At rural points local freight agents will see that "Bottles" is escorted "Collect" to the nearest Deliveries Ltd. Depot and cash reward will be mailed immediately on recovery.

OBITUARY

MRS. MARY GALLAGHER

Funeral services of Mrs. Mary Gallagher were held at the St. Columbus church Clandonald on Thursday April 17th. A requiem high mass was solemnized by the Rev. Father McPhee and singing was by the high school choir.

Mrs. Gallagher was born on Oct. 2, 1880 in Scotland where she lived until migrating to Canada and settling at Clandonald with her husband and family on May 21, 1926.

Left to mourn the loss of a loving wife and mother are the sorrowing husband and three sons and three daughters, Mrs. Jessie McGillivray, Clandonald, Colin, Clandonald; Mrs. Nora Lemp, Dewberry, Mrs [illegible] Smith, New Westminster; Donald, Vancouver; Owen, Kimberly, B.C. There are seven grandchildren, also two sisters and one brother in Scotland and one brother in New Zealand. A cousin, Mrs. Ann McPhee resides at Clandonald.

Interment took place at the Roman Catholic cemetery Clandonald. Father MacDonnell assisted at the graveside. Mr. Donald McClelland played "A Lament".

The pall bearers were Messrs. T. Sonder, G. Garnier, P. Mulgrew, J. Smith, P. Convey, A. McIntyre.

Floral offerings were received from Father Colin, Sophie and Nicky; John, Jessie and family; Philip, Nora and Roger; Charlie Shrenkowich and family; Mary.

Many spiritual offerings were also received.

RIVERTON

Mr. and Mrs. Haskell attended the graduating exercises at the school of agriculture in Vermilion where their daughter graduated. Elva has now completed a two-year course in Home Economics and Agriculture. She won third prize in sewing and one for keeping the tidiest room during the term.

Mr. and Mrs. Gus Garnier were recent visitors at C. Hansen's.

Mrs. Don Vivian and Freddie have gone to spend a few days at her home in Clandonald.

The Wheat Pool featured some films at the school last Wednesday. Due to bad roads not many attended. Mr. W. Urquhart and Mr. N. Stewart were the speakers.

The Ladies Aid quilting bee has been postponed until April 26.

Mrs. Cecil Sinclair has returned to the district.

A daughter, Linda Fay, was born to Mrs. I. Fleming (nee Evelyn Sinclair) on March 24th at the Lloydminster hospital.

Notice of Preparation of Assessment Roll

Former Islay Man Married at Victoria

Baskets of spring flowers decorated the altar and daffodil nosegays marked the guest pews at First United church on Wednesday evening when Rev. Hugh McLeod performed the ceremony which united in marriage Leona Doris Harris of Victoria and Lyle Fulton Barnes, also of this city, son of Mr. and Mrs. Wm. Barnes.

The bride wore a Queen's blue dressmaker suit, with hat to match, black accessories and corsage bouquet of roses and gardenias. She was attended by her sister Mrs. George Hansen who was attired in a gold ensemble with corsage bouquet of roses and heather.

Stanley Knapp stood with the groom as best man, while brother of the bride Roy Harris and Gordon Harvey acted as ushers.

At the reception held at the Oak Bay Beach hotel, the bride's mother, Mrs. Frank Harris, in a dress of rose and black and Mrs. W. H. Barnes, mother of the groom, in a navy and white ensemble assisted in receiving guests.

A three-tier wedding cake flanked by tall white candles centred the bride's table. Mrs. H. Vaughan Barker and Mrs. Alex Duncan poured tea while serviteurs were Mrs. Robert Smith and Miss Betty Piggott. Vaughan Barker proposed the bridal toast, and Paul Steeves and Mr. Robert Wood gave vocal selections.

Mr. and Mrs. Barnes left for a honeymoon in Vancouver. For travelling the bride donned a beige wool topcoat over her wedding suit and completed her ensemble with beige hat. —Victoria Colonist.

MORRISON NEWS

(This bulletin was written for last week's Standard — allowance should be made for time elapsed.)

Everyone is glad to see the snow gone and the roads showing signs of drying up. Some are getting stuck in the mud holes with cars. Easter was cold and the roads were muddy so there was not much of an Easter parade for the ladies—we wonder how many wore their new Easter bonnet!

Mrs. Rubens Gunn enjoyed Easter as she had a few old friends from Islay in to visit her at the hospital including Mrs. Rindale and Mr. and Mrs. James Gould. Ruby passes along her thanks to the Ladies club for the lovely flowers also the many others for the gifts and letters.

The meeting of the Ladies club was held at the home of Mrs. Jenkins but on account of road conditions not many were present. The next meeting is scheduled for the home of Mrs. Lily Gt. in Vermilion. Hope that it's a nice day folks.

Mr. and Mrs. Renahgan were [illegible] during the week.

Mary and Frank Empultt were visitors at the writer's home during the Easter holidays.

Sorry to read in the [illegible] news of Neva's accident. Hope that [illegible] not too serious. It [illegible] the news of that district and [illegible] something of old friends there [illegible] Attfield must have grown up [illegible] by now. [illegible]

Several of the young people [illegible] hereabouts attended the dance at Rowtell and report a good time even if they did have to walk [illegible] through mud.

Elmer Mirtle and Mr. Jenkins were dinner guests at the [illegible] Gould home Sunday.

Congratulations to Mr. and Mrs. Harry Perkin on the arrival of a daughter Saturday.

Every happiness [illegible] Fenton who [illegible] recently [illegible] of Morrison [illegible]

WORLD HAPPENINGS
BRIEFLY TOLD

India's paper mills raised their production from 49,000 tons in 1936 to 100,000 tons in 1946.

Sir Philip Hunloke, 79, for 22 years sailing master to King George V and pilot of the royal racing cutter Britannia, died [illegible].

[illegible] Archbishop [illegible] stated that between [illegible] German [illegible] are in Russian hands.

[illegible] has [illegible] Germany's [illegible] market [illegible] issued to Ruhr [illegible] good work in the [illegible].

[illegible] ways and means of building a new merchant marine adequate for [illegible] as a dominant trading power in the Far East.

[illegible] director of public [illegible] prepared [illegible] the P.A.S. public [illegible] aged 77.

[illegible] Prince Wil[illegible] has asked the [illegible] government to hand [illegible] castle where the Kaiser lived [illegible] years of his life.

[illegible] has laid aside his baton after [illegible] years as [illegible] military bands that [illegible] Canadian Grenadier Guards.

The U.S. war department said [illegible] begin [illegible] the United States the [illegible] wartime [illegible].

SHAW CLASSES HIMSELF AS THREE-QUARTER GHOST

LONDON.—George Bernard Shaw believes he is three-quarters of a ghost already, according to an interview published by the Reynolds News.

Shaw said he did not believe in ghosts but added that "you are talking to a man who is three-quarters of one." Asked for his views on survival after death he said:

"To me belief in individual [illegible] a horror. To realize that there [illegible] out of your own [illegible] but of some League [illegible] going on for centuries. Could you bear it?"

LADY NATHAN SAYS NO MORE VITAL JOB THAN FAMILY CARE

LONDON.—When people tell Lady Nathan she has a "big job" on her hands she invariably replies: "So has every other housewife."

She now is chairman of the influential London County Council, the second woman chairman in the council's history—but in addition to her 60-hour week of meetings and committees she is a housewife still, and proud of it.

"There is no more vital job in Britain today than the housewife's," she said in an interview.

Britain's future depends as much on women as on men, for with men taking most of the production strain women must give them every ounce of support they can. They can do this by taking that little extra care of the worker — especially the night worker—and by giving their children the kind of home that will mean so much to them in later life.

"They have to do this in spite of the strain that every British housewife has to endure these days."

As the wife of Lord Nathan, Civil Aviation Minister, and the mother of a family, children and education are her particular interests. She urges more nursery schools, not only to release mothers who are needed in industry, but "to give children between three and four years the advantages of early school training."

Another of her ambitions is to see the "all-purpose" school established throughout London—a school housing all types of children, learning all kinds of subjects in separate departments under the same roof.

Lady Nathan also advocates play centres and recreation grounds and says she would like to see some of the sites of London's bombed buildings converted into parks and open spaces.

"There is no reason why in rebuilding London we should reproduce past errors. Now, through the war, we have a chance to make London a better and happier place in which to live. During my years as chairman I hope to see some progress towards creating a new London. And after that I shall still go on working for it."

The leaves of a mature maple tree will manufacture 3,680 pounds of carbohydrates in a single summer.

GARDEN NOTES

Don't Rush

[illegible] of the [illegible] mistakes of the average gardener, especially the one of limited experience, are planting far too much [illegible] and not planting enough [illegible] May and June. During the first [illegible] weeks [illegible] spring [illegible] human being has the urge [illegible] and dig. He rushes to the nearest seed store [illegible] a whole lot of things which should never be [illegible] or want [illegible].

[illegible] grass seed and a few hardier flowers and vegetables [illegible] a lot of [illegible] the great majority [illegible] planted.

This [illegible] planting [illegible] has [illegible] all seed [illegible] and [illegible] a favorable [illegible] vegetables ready for the table [illegible] early enough [illegible] August and September. The experienced gardener will [illegible] at least three parts [illegible] the [illegible] little [illegible] the regular [illegible] time [illegible] the [illegible] about the [illegible] the last [illegible] at least [illegible] weeks after that. This gives [illegible] a continuous supply of the very freshest vegetables right through the season.

Keep Planting

At the risk of repetition too much stress cannot be laid on continuous planting of the standard vegetables like lettuce, radish, beans, carrots, beets, corn, etc. All of these will taste much better when they just begin to reach proper maturity. Most of them, especially the beans, lettuce, corn and such things, begin to get tough if left too long. The only way to assure a [illegible] is to keep planting them. It is far better, old gardeners say, to have several rows of them coming on two weeks apart than all at one time. In most parts of Canada it is quite possible to keep planting many vegetables right up to mid-July.

To Make Ideal Soil

While a natural, rich, open loam makes the best garden soil it is possible to make practically any type [illegible].

With both clay and sand, cultivation plus the incorporation of rotted vegetable matter will work wonders. One of the best treatments of course is plenty of barnyard manure, but this is not always available and especially so in urban locations. Good substitutes are vegetable refuse like tops of beets, carrots, pea pods, lawn clippings, etc., or specially sown green oats, rye or clover dug or plowed under. With clay this opens up the soil and makes it more easily workable, less inclined to bake. With sandy ground, the manure or vegetable material adds strength and helps it retain moisture. 2731

SENTENCED TO DIE — Responsible for the deaths of 4,000,000 persons at Oswiecim, Rudolf Hoess, commandant of the extermination camp, was sentenced to death for his crimes by the Polish supreme national tribunal in Warsaw. At his trial Hoess declared he could count only 2,500,000 victims.

GEMS OF THOUGHT

LOYALTIES

To thine own self be true. And it must follow, as the night the day, Thou canst not then be false to any man.—Shakespeare.

Faithfulness and truth are the most sacred excellences and endowments of the human mind.—Cicero

Among the manifold soft chimes that will fill the haunted chambers of memory, this is the sweetest: "Thou hast been faithful."—Mary Baker Eddy.

To be what we are, and to become what we are capable of becoming, is the only end of life.—Robert Louis Stevenson.

No amount of pay ever made a good soldier, a good teacher, a good artist, or a good workman.—John Ruskin.

YOUNG WIFE STOLE AUTO TO SLEEP IN

LOS ANGELES.—A navy veteran's young wife, who grew tired of sleeping with her baby in motion picture houses and public parks, admitted that she stole an automobile so she would "have some place to lie down at night."

Mrs. Nyra Burgess, 21-year-old wife of a pharmacist's mate credited with killing 300 Japs, said the housing shortage had forced her and the 17-months-old baby to live in the auto for two months.

"It seems nobody wants a baby," she said. "Not even a hero's baby."

Her husband, Charles, 22, awarded the Purple Heart and holding a Presidential Unit Citation, was sentenced to jail last December for stealing another automobile to use as a family home. He escaped from a county road camp and now awaits arraignment on the escape charge.

People don't enrich life when they just look for a rich living.

PONTIAC A fine car made finer
A Product of General Motors

Unmatched for Balanced Goodness

To be REALLY good a car has to be good *all the way through*. And the 1947 Pontiac is a *good car!* That's why *all* aspects of the 1947 Pontiac are outstanding—beauty, performance, comfort, safety and dependability. Year after year, Pontiac has *balanced* goodness—with no one quality developed at the expense of another. Owners like everything about their Pontiacs. That's why Pontiac has more than a million owners—and more than a million friends! The 1947 model—a fine car made finer—is now in production.

The demand for new cars is still so great that it may be some time before you take the wheel of your new Pontiac. Make sure your present car keeps rolling. The better its condition, the safer you are . . . and the higher its potential trade-in value.

FEATURES that make PONTIAC a GOOD CAR!

APPEARANCE — Distinctive Silver Streak Styling • New massive and harmonious front end design, new ornamentation.
COMFORT — Big, roomy Body by Fisher • Triple-Cushioned Ride • Luxurious, Modern Interiors • Shock-Proof Knee Action • Fisher No-Draft Ventilation • Handling Ease • All-Weather Engine Temperature Control.
DEPENDABILITY — Smooth, powerful L-Head six or eight cylinder Engines • Full-Pressure Metered Flow Lubrication • Permanent, Highly-Efficient Oil Cleaner.
ECONOMY — Smooth-Mix Quick Warm-up Manifold • Carburetor • Vacuumatic Spark Control.
SAFETY — Multi-seal Hydraulic Brakes • Unisteel Body • Doors hinged at Front • Tru-Arc Safety Steering • Clear Vision.

The Need For Fats And Oils

A LARGE NUMBER OF SHORTAGES which were experienced because of the war are disappearing gradually as production returns to normal levels. Some things however, continue to be in very short supply and food has remained high on the list of things which are still scarce. In Canada we have been fortunate in having had no acute food shortage at any time, but lack of certain items has caused considerable inconvenience both to producers and to consumers [illegible] has been a marked shortage of fats and oils [illegible] the form of soap and in products used for industrial purposes. This condition is not a local one but is a part of a chronic world shortage of fats and oils the seriousness of which is illustrated by the fact that last year the world production was estimated at some [illegible] metric tons as compared with the annual pre-war output of 6,500,000 tons.

* * * * *

More Must Be Produced Here

Although the gravity of the situation is the great increase in the need for fats and oils, because of the growing population and greater industrial activity in many countries. Linseed flax alone [illegible] was produced last year in sufficient quantity to supply only fifty-eight per cent of the demand for it. At the present rate of consumption [illegible] years before the world supply will be equal to the amount of fats and oils now required to meet the needs of all the nations. If the situation in Canada is to be improved in the near future authorities on agriculture are of the opinion that a great deal more flax seed and linseed must be produced here and thrown into the world pool. This would give Canada bargaining power to obtain fats and oils which cannot be produced at home.

* * * * *

World Council Asks For More

Many of these points were discussed at the recent annual meeting of the National Barley and Linseed Flax committee held in Winnipeg. At that time Mr. F. H. Lehberg, Dominion oils and fats administrator, drew attention to the fact that the Emergency Food Council [illegible] had urged that Canada grow more flax this year. It was estimated that at least 20,000,000 bushels of flax should be produced here to trade for the supplies of edible oils and soap fats which we will require. In previous years flax production has been some [illegible] bushels less than the proposed figure and it is apparent that special encouragement should be given to farmers [illegible] the [illegible] Mr. T. J. Harrison, chairman of the Barley and Linseed Flax committee, suggested that many farmers might be interested in making flax a standard crop in rotation. Although it is generally regarded as a discouraging crop it is to be hoped that a small acreage of flax will be sown on many farms and that the total harvest will be sufficient to make Canada's contribution to the world pool of fats and oils an appreciable one.

RECIPES

GLAZED HAM LOAF

2 [illegible]
1 pound ground fresh ham
1 cup coarse bread crumbs
1 egg, slightly beaten
[illegible] cup milk
¼ teaspoon pepper
½ teaspoon prepared mustard
1 tablespoon vinegar
2 teaspoons [illegible]
½ cup brown sugar, firmly packed
Whole cloves

Combine ham, bread crumbs, egg, milk and seasonings and mix well. Line 9x5x3-inch loaf pan with waxed paper and pack mixture firmly into pan. Unmold loaf onto shallow pan and remove paper.

Mix butter and brown sugar together. Spread over loaf. Insert whole cloves.

Bake in moderate oven (375 deg. F.) 1 hour or until done. Makes 6 to 8 servings.

MAGNET USED TO REMOVE NEEDLE FROM GIRL'S THROAT

PITTSBURGH. — A three-quarter inch magnet, suspended by a string down the throat of a 16-year-old girl, painlessly removed a two-inch sewing needle she had swallowed, doctors at the University of Pittsburgh Medical [illegible]

The unidentified girl, a patient of Western State [illegible] Institute here accidentally swallowed the needle.

Pitt medical attaches said surgery was impossible because the girl has diabetes. Doctors got in touch with Westinghouse Electric Corp. scientists, who compounded the magnet out of a new metal alloy.

FUNNY And OTHERWISE

Ed—"Did anyone in your family ever make a brilliant marriage?"
Ned—"Only my wife."

* * * *

"I have a nasty ringing in my head."
"That's because it's empty. I never have a ringing in mine."
"That's because it's cracked."

* * * *

"With your ready speech," remarked a young minister to Dr. Andrew Thompson, "I wonder why you spend so much time on your sermons. Many's the time I've written a sermon and caught a salmon before breakfast."

"Well," replied Dr. Thompson, "all I can say is, I'd rather have eaten your salmon than listen to your sermon."

* * * *

Nurse (suspiciously): "What have you been doing, Jean?"
Jean: "Rover's eaten my dolly's slippers, so I've been punishing him."
"How?"
"I've been to his kennel and drinked his milk."

* * * *

A medical student was talking to a surgeon about a case.
Student: What did you operate on that man for?
Surgeon: Three hundred dollars.
Student: Yes, I know. I mean what did he have?
Surgeon: Three hundred and one dollars.

* * * *

"What happened, George?"
"Puncture."
"You should have looked out for it. The guide book says that there is a fork in the road just about here."

* * * *

Boss: "Boy, do you know the motto of this firm?"
New Office Boy: "Sure, it's push."
Boss: "Wherever did you get that idea?"
Boy: "I saw it on the door as I came in."

* * * *

Farmer—Now come along, and I'll teach you how to milk a cow.
Cockney Maid—Seein' that I'm new at it, mister, hadn't I better start learning on a calf? 3721

A-SETTIN' AND A-THINKIN'—Too tired to stand these New Zealand horses like to sit and think while the sun shines and cool breezes rustle the grass. On occasion, like the one on the right, they may bother to look your way should you happen along. Looks like it's too much effort, [illegible]. The horses, which belong to a Te Awamutu, N.Z., rancher, started the peculiar habit of squatting on haunches while resting, some time ago. If lying down, the command: "Get up, you loafers!" will bring both to the unique sitting position.

PRINCESS GIVEN FIVE DIAMONDS

EAST LONDON. — Princess Elizabeth's personal Standard was broken for the first time in a Dominion when she opened the new £2,500,000 graving dock in this Cape Province port.

During the ceremony the Princess was presented by Mrs. Sturrock, wife of the South African Minister of Transport, with her first gift from South Africa, five diamonds, valued at £2,700, to mark a bar brooch.

Princess Elizabeth went through the long public function—her first appearance in South Africa on her own —with great composure and obvious enjoyment, her flushed cheeks at the outset being the only sign of nervousness. To a crowd of more than 30,000 she said:

"This is a young country and you have a tremendous heritage—a big country waiting to be developed, rich in the enterprise of its people and in mineral and natural resources.

"From what I have seen in South Africa I know the present generation of young people assure a great and happy future for their country.

"I wish them success and strength to solve the problems with which they will be confronted."

Idleness Cause Of Delinquency

The wise approach to the problem of juvenile delinquency is based on the assumption that boys who get into trouble are boys who have nothing else to do. It is a wise parent who encourages his sons to put their hands to useful things. He will go to some trouble to provide whatever they need to pursue the instinct of self-expression in the making of things. Countless men, so encouraged in youth, find that skills then acquired become sources of gratification through life. Needless to say, young builders are not conspicuous for the delinquents in their ranks.—Detroit News.

DOUBTFUL STATUS

The 20,000 natives of Guam, under existing laws, owe allegiance to the United States although they are neither citizens nor aliens, and no provisions exist whereby they can become American citizens.

Britons Take Their Soccer Seriously

LIVERPOOL. — Britons take their soccer football seriously. A mile-long queue for tickets for a semi-final match between Liverpool and Burnley in the Football Association Cup race stampeded recently. One man was treated for rib injuries in the hospital and several fainted. Sixteen thousand tickets were sold and police, who calmed the fans, estimated twice as many buyers were turned away.

SALMON UNDER PRICE CONTROL

OTTAWA.—Despite rumors to the contrary the prices board said that present stocks of canned salmon, canned sea trout and canned pilchards will remain under price control.

BRITAIN SELLS TURKEY 500 FIGHTER 'PLANES

LONDON.—The Ministry of Supply confirmed a report that 500 British fighter 'planes have been sold to Turkey and are being delivered by R.A.F. pilots. The sale was understood to be connected closely with the proposed American loan to Turkey.

Spitfires, Mosquitos and Beaufighters were included among the 'planes sold. Some had been declared obsolete, but none was on the British list of "surplus" 'planes.

MECCA OINTMENT

BACKACHE
The Plague of Outdoor Men

The outdoor man, whether he be farmer, truck driver, or railway operator, is often subject to backache. This may be the result of exposure to cold and dampness or the result of strain from the jolting and bumping of the vehicle he rides.

To many people, women as well as men, it would be great to be free of backache—one of the most common and annoying of ailments. And here is how you may be relieved of backache and other symptoms of poisons in the blood.

The treatment suggested is Dr. Chase's Kidney Liver Pills. By reason of their stimulating action on both the liver and kidneys, you have two chances to one of getting relief from your backache by using Dr. Chase's Pills. The torpid liver is aroused to action, the kidneys are stimulated and consequently these organs help to purify the blood of the poisonous impurities which bring pains and aches and tired feelings.

Keep regular and keep well by using Dr. Chase's Kidney Liver Pills. 35cts. a box.

Dr. Chase's Kidney-Liver Pills

Local News of Interest

Mr. and Mrs. W. R. Chisholm of [illegible] Sask., announce the engagement of their youngest daughter, Lorna Fraser to Gordon Leslie Williams, elder son of Mr. and Mrs. W. G. Williams of Vermilion, Alberta. The wedding to take place at the United church manse, Vermilion, on May 3rd at 4 o'clock in the afternoon.

The number attending the military dance on Tuesday evening last week should have read upwards of 400, not upwards of 40 as appeared. One cipher failed to drop into position causing the error. As a matter of fact final figures indicated the attendance at just above the 400 mark.

Mr. Richard Craig who has been visiting his sisters Miss Craig and Mrs. A. M. West left for Sarnia, Ont., on Friday of last week. On his return he will stop at North Battleford and Prince Albert to see his brothers. He noticed many changes in the town and people during the 28 years since he left.

W. R. Wiebe was a recent business visitor to Winnipeg.

Dr. and Mrs. C. W. Stephens and Mr. and Mrs. Glen Good motored to Edmonton Sunday afternoon, returning home Monday evening.

Friends will be interested to learn that Miss Mabel Sutter has gone to Vancouver where she is doing private nursing. She finds the climate very agreeable.

Mrs. Campbell Moore has returned to her home in Calgary, after spending a few days in Edmonton recently. During her stay Mrs. Moore assisted Mrs. A. A. Walker when she entertained at a trousseau tea in honor of her daughter, Dorothy, whose marriage to Mrs. Moore's brother, Mr. W. H. Beecroft will take place in Edmonton in May. —Edmonton Journal.

Miss [illegible] Young visited last week end at the home of her sister Mrs. Lloyd Johnson west of Red Deer.

Mr. and Mrs. George Lovell who resided here in the early days of the town have retired from active farming in the Landonville district and will again make their home in Vermilion having purchased the former Rankin cottage on the south side. Mr. and Mrs. Lovell went north to farm 25 years ago and during the intervening time have established a fine farm and comfortable home with lovely grounds.

The Teen Agers Canteen tea held in the Armories on Saturday was a great success and the executive and teen agers wish to express their sincere thanks for all those who patronized this undertaking.

Miss Georgia Macnab spent a not too cheerful Easter week in the local hospital undergoing an appendectomy.

David E. Brown returned April 11 from a very enjoyable two weeks spent visiting his sister Mrs. [illegible] and Mr. Bailey at Victoria. While there he also saw Dave Kennedy, Norman Greig and Bud Williams and his mother. Dave also stopped over at New Westminster where he saw many former Vermilion people including Jim Currey, Dave Cameron, Bert Searle, Frank Cameron and J. Wilton. At Chilliwack he visited Curtis Wilson and family. Everyone wished to be remembered to their many friends here and Dave says that every household he visited the Vermilion Standard was very much in evidence.

Gordon Allen of Oil Field Motors spent a week in Edmonton attending the school for Ford mechanics.

The local Mercury dealers, George Webb and Son, unloaded a car load of Mercury cars on Tuesday. Much as he would have liked them all for [illegible] was just allotted one of the new machines and Charlie Stewart was the lucky person whose name was at the top of the waiting list. Charlie got a nice looking 2-door sedan.

Quite a number of people from Mannville were noticed visiting Vermilion last week end, among them were Mrs. J. Gardiner, Mrs. Wm. Smith, Mrs. Townsend, Harry Brownell, Mr. and Mrs. H. Rosseborn and family, Mr. J. Rosseborn, Mr. and Mrs. J. McLaughlin. Mrs. French also of Mannville was a guest at the home of Mr. and Mrs. Henry Smith over Sunday.

Youthful appearance and colour returned to your hair with Angelique Grey Hair Restorer. $1 at Long's Drug store.

Mrs. Fred Waite who has spent the past five weeks visiting her parents Mr. and Mrs. Vernon H. Cooper, left for her home at Lindsay, Ontario on Wednesday morning. She was accompanied on her return by her sister Miss Beverly Cooper who will spend the summer in Ontario. Mrs. Waite enjoyed receiving a phone call from her husband at Lindsay last Saturday evening and Fred took advantage of the opportunity to speak to other members of the family as well.

The Misses Margaret Scott and Marjorie West returned to Mount Royal college Calgary, on Sunday after spending ten days with their respective parents.

W. J. Onsterton and Don Braithwaite of Dewberry were Edmonton visitors for a few days this week.

A number of little friends of Joan Leslie, Pelican Lake district, helped her celebrate her 6th birthday at a jolly party Tuesday afternoon April 22nd.

The Misses Helen, Kae and Beth [illegible] have returned from a two weeks holiday spent at Calgary and Banff.

St. Saviour's W.A. will hold its next meeting at the Rectory on Thursday, May 1st, at 2:30 p.m.

A wreath from the following was omitted from the list of floral tributes in the obituary of the late Clement Gilford Fry:

Mr. and Mrs. McCambridge and family, The Simmonette Family, Mr. and Mrs. McIntyre and family, Mr. and Mrs. Anderson and family, Mr. and Mrs. Maggs and family, Mr. and Mrs. Dugan and family, Mr. and Mrs. Reeves and Benny, Mr. and Mrs. Strome, Mr. and Mrs. Hall and family, Mr. and Mrs. Richardson and family, Mr. and Mrs. Nedon.

GOSPEL SERVICE AT BOWTELL

Special Gospel Services will be held in the Bowtell school each Sunday at 3 p.m., commencing service April 27. Conducted by Albert Tovell and Ray Wilson — authorized by the Calgary Prophetic Bible Institute. You are invited.

Edmonton Church Is Scene of Pratt-Chappell Nuptials

Marriage of Albertha Margaret, only daughter of Mr. and Mrs. Edward E. Chappell of Dodds, to Mr. Howard Sidney Pratt, elder son of Mr. and Mrs. Herbert F. Pratt of Vermilion, took place Monday afternoon April 14th at First Baptist church, Edmonton, Rev. Daniel Young, assisted by Mr. T. Ligmar Roberts, performed the ceremony before an altar decorated with spring flowers.

For her nuptials, the bride wore a two-piece dress in dusty rose crepe, featuring a fishtail back and three-quarter length push-up sleeves. Her accessories were in black and her only jewelry was a brooch that had belonged to her grandmother. A corsage of cream roses complemented her ensemble.

The bride's cousin, Mrs. G. Fred Ferguson was her only attendant. She was frocked in gray crepe with a flowered hat and a corsage of American Beauty roses.

Mr Arnold Chappell, brother of the bride was best man.

For her daughter's wedding Mrs. Chappell chose a dress of blue lacoune with a navy hat and a corsage of pink roses. The groom's mother, Mrs. Pratt, wore a navy suit with a corsage of sweetheart roses.

A reception for 20 guests was held at the Corona following the ceremony. Streamers and a white wedding bell formed an arch over the bride's table, which was centred with a tiered wedding cake embedded in tulle.

Mr. and Mrs. Pratt spent a short honeymoon in Edmonton and are now at their home on the groom's farm in the Allandale district.

WEDDING BELLS

SCHEFFLER—OLDE

A very quiet wedding was solemnized in the United church manse, Vermilion, on Saturday, April 19th at 3 p.m. when Marion Irene, third daughter of Mr and Mrs Henry Olde of Islay became the bride of August Ferdinand Scheffler of Mannville. The Rev E. S. Reikie officiated.

Given in marriage by her father the bride wore an afternoon frock of flat crepe in brown, trimmed with gold sequins. She wore a brown calot with sequin trim and accessories to match. Her corsage was of American Beauty roses.

Miss Bertha Olde, sister of the bride, was bridesmaid. She wore a dress of yellow pebble crepe with pearl grey calot and accessories to match. Her corsage was of violets.

The best man was Mr. Helmut Noetzel of Mannville.

Following the ceremony a 5 o'clock supper was held at the home of the bride's parents in Islay. There were 25 guests present. The bride's table was centred by a three-tiered wedding cake. Hostesses were the bride's sisters Mrs. Schaffer and Edith Olde.

Later the happy couple left for a short honeymoon, the bride wearing a gold colored dressmaker suit.

On their return Mr. and Mrs. Scheffler will reside in the Mannville district.

Bride Elect Showered

In honor of Miss Barbara Richardson whose marriage to Mr Melvin May takes place shortly Mrs. A. M. West entertained at a miscellaneous shower on Wednesday evening April 16th. Mrs. G. Mead poured coffee, Miss Marjorie West and Miss Connie Lasheff assisted in serving.

Mrs J. D. Adam was hostess at a tea on Friday afternoon April 18th in honor of Miss Barbara Richardson. The bride-elect was presented with a lovely pair of woollen blankets by those present.

Livestock Men Donate Calves To Legion's Auction Sale

Livestock breeders of the district are getting solidly behind the big Legion auction sale planned for Saturday May 3 and many of them have donated calves which will be sold that day. All proceeds will go toward the Legion Hall building fund.

Among the livestock men who have already donated calves are the following: Mike Rehak, Homer Campbell, Jack Cross, Bill Cross, Clarence Barr, Manson Barr, Bill Barr, and Lyle Robinson. Calves from other breeders are expected.

For full details regarding this community auction sale, whereat all the articles sold are donated and proceeds go towards the Canadian Legion building fund, will be found in a big 2-column advertisement elsewhere in this issue. Plan to attend it and if you have anything you are not using call up one of the persons named in the advert. Help make the affair a huge success.

Mr. and Mrs. Chester Lipsey will hold an open reception at their home commencing at 8:30 p.m. on Wednesday May 14th, following the wedding of their daughter Phyllis.

Big Job Signing Town Debentures

The debentures covering the water and sewer installation were signed by the Mayor and Secretary-Treasurer on Monday. Upon being countersigned by the Board of Public Utility Commissioners they will be forwarded to the purchasers, Bell-Gouinlock & Co., Toronto, and the funds made available to the town. The issue is in units of $1,000, the interest on which for the first ten years will be $35 and for the remaining 20 years, $37.50. $6,000 mature each year. It took the Secretary 40 minutes to write his name on the dotted line of the 181 debentures and the Mayor wrote (?) his name in 35. The issue is larger than the total of all previous issues of the town.

Grade One Boy Is School Marble Champ

SIX-YEAR-OLD RONNIE SMITH THE WINNER

The Elementary School's Annual Marble tournament was completed on Monday with the following winners.

- Grade 1—Ronnie Smith
- Grade 2—Roger Rooks
- Grade 3—Paddy Labourane
- Grade 4—Albert Ramchuk
- Grade 5—Roy Tuey
- Grade 6—Hugh Shepherd

In the play-off for the school championship, Ronnie Smith was the winner over Roger Rooks, and thereby got a bye into the finals. Paddy Labourane lost to Albert Ramchuk and Hugh Shepherd lost to Roy Tuey; Roy Tuey defeated Albert Ramchuk and then played Ronnie Smith in the finals. Seeing that Ronnie was in Grade 1 and Roy in Grade 6, it was decided that Roy should play from a 6-foot ring and that Ronnie could play from a 3 foot centre ring. This handicap proved to much for Roy and Ronnie emerged as the 1947 marble champion of the Elementary school.

A girls' tournament is now under way, and results will be announced in the next issue of the Standard.

Many Parties In Honor of Miss Phyllis Lipsey

In compliment to Miss Phyllis Lipsey whose marriage to Mr Roderick Alex Fallow takes place on May 14th Mrs. A. G. Sinclair entertained the I.O.D.E. in the form of a shower.

Gifts were presented to the bride-elect in a three-tier wedding cake. The table was centred with spring flowers and yellow tapers. Mrs E.C. Miller, Regent of the Chapter was at the coffee urn.

On Monday April 28, thirty ladies surprised the bride-elect with a miscellaneous shower at the home of her mother Mrs Chester Lipsey. The hostesses for the evening were Mrs. J. Adam, Mrs W. Cross, Mrs L. Amos and Mrs E. Corley.

Mrs. Stanley Manyluk and Miss Georgia Macnab were hostesses at a party honoring Miss Phyllis Lipsey on April 25th. The bride-elect was presented with a beautiful silver tray and four sterling silver salt and pepper shakers.

Honoring Miss Phyllis Lipsey, a bride-elect of May 14, several of her friends who formerly lived in Vermilion met at the home of Mrs W. A. Fallow, Edmonton, and presented her with gifts in a decorated umbrella. Refreshments were served by Mrs Fallow and her daughter Venetia.

Shower in Honor of Miss Jean Wells

Complimenting Miss Jean Wells whose marriage to Mr Jack Hertricks takes place on May 7th, Misses Irene and Eleanor Jory entertained at a miscellaneous shower on Friday evening April 25th at their home. 19 guests were present. Little Wills Anderson dressed as a dainty bride presented the gifts in a prettily decorated doll carriage.

Mrs R. Jory mother of the hostesses and Mrs W. A. Anderson assisted the hostesses in serving refreshments.

Six-Team Football League Is Formed

FIRST GAME ON TUESDAY NEXT, MAY 6th

The lid will be pried off the Football season Tuesday night when two of the 6 men's teams in the league will meet at the public school grounds at 6:45 p.m. Such a very good job was done in rounding up players that six full teams were organized as follows:

Captain—L. Puckett, B. Anderson, H. Powell, J. Clark, F. Donald, T. Macfleet, D. Currah, D. Wiebe, G. Gould, L. Chalmers, J. Kisbanoski.

Captain—B. Pettigrew, B. Macnab, B. Dunsmore, F. Bowden, S. Manyluk, K. Cowan, B. Watt, B. Reid, G. Preston, B. Kuzak, S. Klarhake, A. Holdebrecht.

Captain—S. Calvert, D. Canley, A. Katz, J. Powell, D. Swanson, F. Volk, H. Swanson, C. Heckbert, J. Fooks, G. Powell, B. Chase.

Captain—S. Geurtin, T. Eley, J. Toner, T. Nelson, C. Reid, B. Mashell, F. Manyluk, C. Stephens, G. Whitmer, E. Altizer, J. Fish.

Captain—M. Dunsmore, K. Pollybank, I. Gordon, J. Gerdy, J. Moose, M. Rhoul, B. Shepherd, J. Vust, A. McGlackey, E. Fry.

Captain—N. Webb, P. Toner, G. Ross, J. Hutchinson, J. Anderson, L. Webb, G. Webb, S. Pass, E. Hashell, J. Currah, G. Anderson, J. Beresford, R. Rowe.

OPENING GAMES OF LEAGUE

Opening games of the league are May 6th when Lorne Puckett's team meets Bill Pettigrew's team; May 7, Stan Calvert vs. S. Geurtin; May 9, M. Dunsmore vs. N. Webb. All games are at the public school diamond and start at 6:45 p.m.

Watch for additional Football news next week, space is short this week.

Captain J. E. Lind, his wife and child who arrived in Canada from England via Sweden and New York two months ago, are now staying pro tem, with their cousins Mr. and Mrs. G. V. Lind and family. Capt. Lind flew to Toronto on business on the 21st and returned on April 26th. They intend making their home in Montreal.

Meeting to Discuss Daylight Saving For Vermilion

AT BOARD OF TRADE WEDNESDAY NEXT, MAY 7th

The advisability of proclaiming daylight saving time in Vermilion will be thoroughly discussed at the board of trade meeting on Wednesday at 12:10 noon May 7th. The town council will act on the recommendation of the meeting as the council already has a largely signed petition by townspeople and farmers alike, asking that the town adopt the daylight saving time for the summer months in common with so many towns and cities in Canada and so do away with the confusion now existing as regards daylight and Standard time. It is desired that both sides of the question be aired and considered before a decision is reached so every person with ideas on the matter is invited to attend the meeting. The luncheon is at 12.10 noon with business to follow.

Vermilion seems to be out of focus with the rest of Canada since Sunday when daylight time was so widely adopted. So obvious was this that a petition was circulated on Tuesday and was signed by 200 people in the short space of an hour.

Flying Students Solo

Another student of the Vermilion Flying school flew solo last Friday when Art Wiebe took a plane up by himself. Allan Larose also did some lone flying but he broke the ice late last fall.

Western Airmotive flying school has again commenced here and it is the intention to have a plane at the local field seven days per week for Charter flights, sightseeing trips and lessons.

Miss Dorothy Taylor who was the nurse at the V.S.A. for the 1946-47 term, has now taken up district nursing for the summer months, and is at present stationed at Lamale, about 60 miles south west of Edmonton.

"GREEN ACRES"

ASSISTANCE FOR D.A.

On Monday Cameron M. Hay commenced duties at the D.A. office. Mr Hay was on the staff of the school of agriculture during the past term and for the summer months will be employed on extension work in the Vermilion district. With this additional help it is hoped that we can give the public better service.

CLEAN LAND FOR FLAX

Flax requires clean land in order to get good yields as this crop will not stand weed competition as well as cereal grains. Why not break up some new land this year and have it ready for flax in 1948. At prices announced recently of $5 per bushel flax should pay in one year the price of the land and the cost of breaking and brushing.

CLOVER IN GRAIN

Many farmers in some districts practice the sowing of a little sweet clover with oats to be cut for green feed. Sweet clover is rich in protein, minerals and vitamins which add to the feeding value of green feed. About two pounds of sweet clover seed per acre seems to be plenty. It is added to the seed oats before seeding.

VEGETABLE GARDENING

One of the most complete and informative publications [illegible] is now available at the D.A. office. This circular is entitled "Vegetables for Prairie Farms" and contains 74 pages of useful garden information on growing vegetables [illegible] land conditions. Every one who has a garden should get [illegible] of this circular.

YOUNG PEOPLE'S WEEK

The Provincial Department of [illegible] and the University of Alberta have just announced a Farm Young People's Week for the period June [illegible] to June 12th inclusive.

This is a wonderful chance for young people in this district [illegible] a week of study and pleasure [illegible] University. The cost is quite [illegible] Get a program and application form from your D.A.

ALFALFA CAUSES BLOAT

Now that the time is [illegible] cattle are pastured on Alfalfa without taking the proper precautions. [illegible] farmers in the Edmonton district [illegible] no losses whatever from bloat where heavy milking cows [illegible] Alfalfa. [illegible] prevent bloat [illegible] are followed. A circular dealing with bloat is available from your D.A.

Spring Weddings

CALVERT—PETERS

A quiet but pretty wedding was solemnized at St. Faith's Anglican church, Edmonton, on Thursday April 10th when Lydia Ann Peters of Lethbridge became the bride of Ernest Stanley Calvert only son of Mr. F. P. Calvert of Vermilion.

For her wedding the bride wore a street-length dress of white silk jersey, chapel veil and lace mittens. Her corsage was deep red roses centred with a gardenia.

Mrs. H. Jirsch, sister of the groom, was matron-of-honor and wore a street-length dress of blue petal crepe and flower hat. Her corsage was of pink roses.

Mr. H. Jirsch acted as best man.

Following the wedding a luncheon was served at the home of the groom's sister, Mrs. H. Jirsch. The table was laid with a yellow silk damask cloth centred with a three-tiered wedding cake and flanked with spring flowers.

After the luncheon the happy couple left by plane for Vancouver for a short honeymoon. For travelling the bride wore a dressmaker suit with brown accessories and top coat of [illegible] beige. Mr. and Mrs. Calvert are now at home in Vermilion.

Out-of-town guest at the wedding was Mrs. R. Standon of Mannville.

MAY—RICHARDSON

A quiet wedding took place at the United church manse on Monday April 28th at 3 o'clock in the afternoon when Barbara-Ann Richardson was united in marriage to Melvin A. May.

The happy young couple left that evening by motor for a honeymoon at Banff. They will make their home at Dawson Creek.

POTTER—HAREUTHER

In a ceremony at First United church on Wednesday April 16th, Miss Gladys Hareuther, youngest daughter of Mr and Mrs. P. Hareuther, became the bride of Mr. Allan Potter son of Mr. and Mrs. C. Potter of Edmonton. The Rev. E. S. Reikie performed the ceremony. Mrs M. Hill sang "Because" while the register was being signed and Mr Wm. B. Elford played the organ.

Given in marriage by her father, the bride wore a gown of heavy white satin with net insetting at neckline. Her embroidered net veil which terminated in a train was caught with flowers to her head. She carried a bouquet of red roses with white carnations.

Sister of the bride, Miss Lillian Hareuther of North Battleford, was bridesmaid and wore a pink net and [illegible] with shaped veil. Her bouquet was of pink carnations. Dianne [illegible], [illegible] of the bride, a flower girl [illegible] length dress with orange [illegible] headdress and carried a bouquet of red roses and white carnations.

The groom was attended by his brother Mr. Hughie Potter.

After the ceremony a reception was held at the home of the bride's parents. Receiving with the bride and bridegroom, Mrs. P. Hareuther, mother of the bride chose a white dress with brown trim. Her corsage was of red roses. The bridegroom's mother Mrs Potter wore grey crepe with black accessories and a corsage of red roses. The grandmother of the bridegroom wore a corsage of pink roses.

Set with [illegible] white lace cloth, the bride's table was centred by a three-tier wedding cake. Toast to the bride was proposed by Mr A. M. West.

In the evening the couple left by [illegible] for Edmonton where they will [illegible].

ARMSTRONG—HEIDEBRECHT

Mrs. M. [illegible] Heidebrecht announces [illegible] of her daughter Dorothy [illegible] Armstrong which [illegible] April 17 1947 at [illegible]. The young couple [illegible] street [illegible].

[illegible] Wells returned home last [illegible] the winter [illegible] at the coast [illegible] operation [illegible] to [illegible] the home of his sister Mrs. W. J. [illegible]

[illegible] Pleasant Fever will [illegible] the regular monthly [illegible] Vermilion Branch of [illegible] Monday evening [illegible] in the [illegible] hall. All members and others [illegible] to attend.

Talented Vocalist To be Heard Here

IN RECITAL ON MAY 19th

An event of unusual interest to music lovers will be heard in First United church on Monday evening, May 19, when Miss Marie Monaghan, the gifted soprano soloist, of Lloydminster, will apear in recital under the sponsorship of the United church choir.

Miss Monaghan will be heard in both operatic and sacred numbers, and, in addition, will present a group of concert songs. She will be supported by members of the choir, who will offer vocal and instrumental selections.

Keep the date open and come and enjoy a musical treat.

Red Cross Campaign Tops Last Year; $4,000.00 Donated

Campaign manager W. P. Fillmore announces that the 1947 Red Cross canvass for funds has been very well supported and the total now stands at approximately $4000. This is higher than last year when the final collections amounted to $3400. Figures for 1947 are not quite complete as there are still some returns to come in from country points.

People of Vermilion Solidly Behind Higher Old Age Pensions

Although the canvass has not nearly been completed due to lack of time the results to date show that the people of Vermilion and vicinity are solidly behind the demand for better old age pensions. Out of 755 qualified persons approached, 747 signed the petition.

Revival Meetings at The Salvation Army

Plans are well in hand for the campaign to be conducted at The Salvation Army by Major J. Martin. These meetings will be from May 8th to 18th. Every night at 8 p.m. there will be meetings in the hall. On Sunday there will be meetings at 11 a.m. and 7:30 p.m. On Wednesday May 14th there will be a special Women's meeting at 3 p.m. Special Young People's meetings will be held on Friday the 9th, Tuesday the 13th and Friday the 16th at 4.15 p.m. At these meetings the Major will be using his black box of tricks. All are invited to keep these meetings in mind and attend.

Move To Vegreville

Mr and Mrs W. S. Walden and daughter Wilma Lynn said goodbye to their many friends on Sunday on the eve of moving to their new home in Vegreville. Their older daughter Audrey will remain in Vermilion to continue her work in Long's Drug Store.

Mr and Mrs Walden came here in 1945 when the former became connected with W. H. Duncan in the John Deere implement business. Following the purchase of that business last fall by the Ambler Bros. Mr. Walden became interested in the John Deere agency at Vegreville and now leaves to take charge of the business there.

ST. ANDREWS

The King Edward Local No. 440 A.F.U. will hold their regular monthly meeting on Tuesday May 6th. The six bushels of oats donated by Mr. E. Clark for the Red Cross will be drawn. A whist drive will be held afterwards. Everybody welcome.

Chatsworth Chatter

We've enjoyed a couple of summery days this week and the air smells quite spring-like with trees beginning to bud and grass showing green.

Roads have dried up rapidly and other than a few holes here and there, they are quite passable.

Most folks are busy with chicks, garden plans, seed grain cleaning and by next week work on the land will be general. A few early starters have been working — Pat Cummings, Steve Jurcin, Ben Pick, E. Lowry.

Mr. and Mrs. Bob Cameron and baby daughter motored to Lacombe recently where they visited Mrs. Cameron's parents, Mr. and Mrs. Sawyer.

Mr. and Mrs. Albert Tovell are home again after having spent the winter at their studies at the Bible Institute near Calgary.

Orlo Hutchinson has been cutting brush for Frank Farkash on the former Hamilton place, now owned by Frank.

Pat Cummings arrived back home recently having spent the past winter months in Edmonton, Wetaskiwin and other points.

Chatsworth has a new pupil in the person of 11-year-old Bobbie Squires from Banff. Bobbie is staying at McKees.

Miss Chanasyk of the Ottawa school held a dance there last Friday night. She planned to spend the week end at her home in Innisfree, her brothers having motored to the dance to get her.

The new houses, Jim Panter's and Joe Farkash's (Jr.), are nearly ready for occupancy.

Miss Monaghan spent the week end at her home in Lloydminster. Her father returned by car with her on Sunday.

Wildmere Winks

FIRST ON THE LAND

Guy Whitlock won the honors as he was the first observed doing spring work on the land in our district. A good many others have started now and soon the hum of busy tractors will be heard early and late.

Ice on Wallington's lake will be much later in going out this year. Last spring it was April 17th. This year it will be around the end of the month.

Our road to town has several bad mud holes in it and more than one person have been mired. We hope that our councillor, Mr. Tessman, will see fit to build up a few miles of it this summer as it is nearly impossible in wet weather.

Mr and M[illegible] Gaylord Gibson have returned to their home at Wandsdale, Man. after visiting their son Frank and family at Rosewood.

[illegible] and [illegible] Cooper have returned to their farm in the Triangle district after spending the winter at Calgary and Edmonton.

Mrs. Earl Graham underwent an operation to one lung at the Calgary San recently. She is now confined to bed.

Miss Yvonne Morand, daughter of Mr and Mrs Charlie Morand, formerly of the Triangle district but now of Calgary is to be married towards the end of May. Her future husband is in the army and is stationed at Calgary.

Mrs Ford of Vermilion sprained her ankle very badly. A speedy recovery is wished her by her many friends (correspondents).

[illegible] was privileged to see pictures of the grave of Private Harry Whitlock at Nijmegen, Holland sent to the family here by the Dutch family caring for it. The fact that the grave is being so well cared for is a great comfort to relatives in Canada.

Tom Reed was a recent visitor at the writer's home.

Congratulations are extended to Mr and Mrs Harry Perkins of Rosebell on the birth of a daughter.

[illegible] TOWNS —

Armed with plans for a new curling rink and $7,000 in cash with more promised, a delegation from the Grande Prairie Curling club waited on the council and requested permission to construct an 8-sheet curling rink on town property near the skating rink. Size of the proposed rink was 176 feet by 127 feet.

Wainwright town council plan to plant 7-year-old Elm trees on their boulevards this spring.

The saddest thing we learn from history is that we do not learn from it.

THE WEATHER . . .

Weather finally got away from frost during the past week, the last freezing temperature being on Thursday April 24. Little change of temperature is expected and showers are forecast for Friday afternoon clearing in the evening.

New Dish Washing Machine, Sterilizer At the Boston Cafe

The most improved model of the latest machine for dishwashing and sterilizing is now in operation at the Boston cafe, installation being completed this week by Curtis Martin and Chester Lipsey. The actual dishwashing is done by steam which engulfs the dishes through a multiplicity of small jets. The process washes, sterilizes and dries the dishes. The only effort required of man in the process is putting the dirty dishes in the machine, and stacking them after they are dried.

RIVERTON

A speedy recovery is wished Mrs Gordon Fitzpatrick who is in the Islay hospital recovering from an operation for appendicitis.

Mrs Mac Maclean spent a few days at Hairy Hill visiting friends.

Congratulations to Mrs P. Hansen for winning 25 chicks from the Provincial Hatcheries. The chicks were offered for an unscrambled word over a radio program on Saturday night.

Due to road conditions the Ladies Aid again postponed their meeting. It will now be on the usual meeting day in May, second Thursday, at the home of Mrs. Wm. Madden. There will be a quilt quilted so come along and bring your needle.

Thirty-two Years Ago Today

Interesting Items Gleaned from the Files of the Vermilion Standard

32 YEARS AGO TODAY — 1915

April 29, 1915

Plans are well advanced for Vermilion's annual 24th of May sports.

A branch of the Women's Institute was formed in Vermilion with Mrs. Scott, president; Miss Ferrell, vice president; Miss Thompson, sec.-treas., Directors—Mrs. McClellan, Mrs. H.A. Taylor, Mrs. Jas. Foster, Mrs. Wm. Robinson; auditors Mrs. Ryan and Miss Craig.

Sixteen Years Ago Today

April 30, 1931

A 4-team baseball league has been formed of town teams and managers are Ed Chessick, Bert Williams, Frank Addison and Harold Munce.

Early sown grain is now above the ground.

More teachers were being trained than required and normal students were being limited to 700.

Real July weather has been enjoyed all week and many youngsters are enjoying dips at the swimming pool in the river.

HORSE CO-OPERATIVE REPORTS PROGRESS

Initial Payment Increased for 1947

The third annual meeting of the Horse Co-operative Marketing Association recently held at Swift Current, Sask., reported marked progress in its activities for 1946 and which is of vital interest to western farmers.

The financial position of the Association has progressed to a point where it is now out of debt. A year ago the capital debt was over half million dollars. This position has enabled the Board of Directors to [illegible] the net proceeds to [illegible] payments on horses shipped to the Edmonton and Swift Current plants [illegible]. The final [illegible] payments will be 2[illegible] cents per pound. During 1947, [illegible] cents per pound will be paid on these horses. This [illegible] return to farmers is twice the price received a year ago.

Following the annual meeting the Board of Directors has decided to increase the initial payment to 2½c per pound for grade A horses f.o.b. shipping points, commencing May 1st. Farmers who have shipped horses to the plants prior to May 1st in 1947 will receive further payments at a later date [illegible] price increase. [illegible] will be [illegible] horses [illegible] 1947 [illegible] basis.

The above [illegible] have been made possible by the improved financial position of the Co-operative [illegible] horses to the Co-operative [illegible] [illegible] will greatly [illegible] The final success in 1947 [illegible] depends upon farmer support. There are [illegible] who ship horses to the Co-operative will fully [illegible]

The [illegible] 1947 [illegible] The Association through its [illegible] [illegible] horse supply.

"Empties" Still Eluding Capture

Authorities of Deliveries Limited, agents of the Brewing [illegible] said today that the [illegible] of vital [illegible] to the success of their search for E. B. Bottles who escaped from work recently.

The recapture of E. B. Bottle alias Empties is expected [illegible] the brewing industry [illegible] to maintain its normal output.

Anxious to extend the search for Empties to every part of Alberta, authorities at Deliveries Limited said anyone apprehending Empties can count on the co-operation of freight agents upon apprehension of the [illegible] will arrange escort from [illegible] centres. Freight charges will be paid by Deliveries Limited who are able to ship "Freight Collect".

A reward of 20 cents per dozen is offered the person or persons responsible for the capture of Bottles. Rewards will be paid in return mail as soon as Deliveries Limited take Bottles into custody.

Notice of Preparation of Assessment Roll

VILLAGE OF MANNVILLE 1947

Notice [illegible]

A [illegible] Mannville [illegible] prepared [illegible] at the [illegible] Treasurer [illegible] on behalf of the [illegible] the [illegible] public holidays [illegible] afternoon [illegible] name [illegible] upon [illegible] of any property [illegible] Thirty days after the [illegible] this notice, lodge a complaint in writing with the [illegible] of the Village.

Canada's Textile Industry is not generally regarded as being anything very exciting. It is true that in normal peace-time years textiles led all other industries in employment and wages paid. But that means we are just a part of regular daily living in Canada. It makes us about as exciting as a kitchen table.

During the War, Canada's hundreds of textile plants turned out millions of yards of urgently-needed supplies. Today we are working hard to catch up with the heavy and growing civilian demands of the post-war. We provide thousands of jobs to Canadian citizens at new high wage levels. True, these factors do not seem exciting but it is nice to know that we have a place in Canada's way of living. A kitchen table may not be exciting but it is important to the household.

Board of Trade Notes

ROADS

Several road matters came up for discussion at the meeting of the board of trade held Wednesday April 23. The first was broached by Reg Mitchell and was regarding the still unsatisfactory stretch of road running east and west two miles north of Vermilion. This is the connecting link between the two municipal districts and apparently is slightly neglected. The matter was turned over to the roads committee with the recommendation that they endeavour to have the M.D.s responsible properly grade and maintain the road as it is one of the main arteries of travel into town from the north and west.

ELK POINT BRIDGE

Second matter was in the form of a letter from the Elk Point board asking Vermilion representatives to attend a conference there with a view to bringing pressure on the provincial department of public works for a bridge at Elk Point and the continuation of the Wainwright-Vermilion highway to Elk Point. The matter of appointing representatives to attend was left in the hands of the executive. The meeting will take place about May 7th. It will be recalled that the Vermilion board had a similar gathering last fall and were advised at that time to make their representations this spring for possible inclusion in next year's road program.

AUTO CAMP

Rehabilitation of our auto camp was brought up by J. R. Beake. Mr. Beake felt that as it is estimated that $15,000,000 will be spent by tourists in Alberta this summer that some of them will be tenting and a neat, clean auto camp would be useful and good advertising. The Ways and Means committee of Reg Mitchell, Russell Carroll and Del Meyer was appointed to examine the project and bring in an immediate recommendation. Some felt that an ideal camp could be found just 2½ blocks from Main street where there is a flat open space on the side of the hill, easy of access and in close proximity to the town.

Val Bodzilka, well known farmer of the Union district was present for the first time and was introduced by Reg Mitchell.

Gerald P. Stephens was chairman of the meeting.

MEETING APRIL 10th

Board of trade members were privileged to hear talks by Lt. Col. W. T Cromb and Mr A. A Aldridge of the Veteran's Rehabilitation board. Both gave some very interesting facts regarding the nature and success of the work being carried on among young ex-servicemen. By a coincidence both men are former Vermilion boys and recalled interesting experiences of their boyhood years hereabouts. Mr Aldridge whose father was the first Methodist minister in Vermilion stated that the Rev. Mr. Aldridge was now living in Calgary hale and hearty and retired at 92 years of age. [illegible] speak [illegible] of the military ball which they attended the night before [illegible] tion given them [illegible] by the Canadian Legion at this point.

Other visitors were [illegible] Mr R. D. Brown field representative of the Quaker Oats Co. [illegible] Richard L. Craig of Sarnia Ont.

Mr Craig lived here in the early days of the district and this was his first return trip after some [illegible] years. He addressed the members briefly commenting on the progress made by the town and wishing further success in added development.

As a wind-up to a very interesting meeting Mr Brown showed some moving pictures taken on the [illegible] Hereford farm at Peterborough, Ont. This was the [illegible] Jack Tucker [illegible]

A [illegible] there were 34 members present.

OBITUARY

NORMAN TUCKER

Funeral services for the late Norman Tucker who died in Vancouver on Thursday April 17th, were held at the United church, Vermilion, on Wednesday afternoon April 23. Interment took place at the Vermilion cemetery. The Rev. E. S. Reikie officiated. The funeral was under Masonic auspices, the deceased being a Past Master of the Vermilion Lodge.

Mr Tucker was born in 1880 at Arthur, Ont., where he grew to manhood. He came west in the year 1900 and lived at Moose Jaw until 1903 in which early year he came to Vermilion and homesteaded in the Claysmore district on the south-west quarter of what is now the W. L. Robinson farm. He later sold his homestead and bought his present farm. The deceased took a keen interest in the development of the district and in problems relating to Agriculture. A number of years ago he suffered a breakdown in health which greatly curtailed his outside activities.

For the past ten or more years the deceased had spent the winter months at various places on the west coast, chiefly in Vancouver. He left here just before Christmas and visited as was his custom at numerous places where former Vermilion people are now living. He then went to Vancouver where he passed away on Thursday April 17th.

Pall-bearers were Messrs. R. H. Norton, R. D. Lynch, E. W. Hart, J. H. Hart, C. J McCormick, W. L. Robinson.

Surviving members of the family are one brother Jack of Vermilion and two sisters, Mrs. Decker (Jenny) in Pennsylvania and Mrs. Aylwin (Molly) of Toronto.

Moyer Bros. were in charge of arrangements.

Beautiful floral tributes were received from:

The Family; W. E. Aylwin, Frank and Lou Alywin; Mr and Mrs Bert Doupe, A.F & A.M. Lodge No 21; Old Timers Association; Mr and Mrs. T Hindmarsh and family, Mr and Mrs R. D. Lynch, Mr and Mrs C. McCormick and family, G. Blakely Dalton, Mr and Mrs Edwin Imley and family, Hart Families, Mr and Mrs W. Steel and Edna Taylor, Three [illegible] Families, Mr and Mrs W. L. Robinson and Mrs. Mooney, Barr Families, Mr and Mrs W. D. Williams and family, Mr and Mrs. Bert Duncan, Mr and Mrs A West and Mr and Mrs Elmore Stewart, R. H. Norton and Staff; Mr and Mrs W.B. Wiebe; Mrs George Stewart, Hugh Charles, George and John, Mr and Mrs. George Mages and family, Mr and Mrs. Croft, and Clayton, Cyril and Alice and Ian, Ada and Bert, John and F. [illegible] Edna, Bill and family.

Mannville Church Is Scene Of Beautiful Wedding

HOLDEN — McFADDEN

A wedding of special interest to people of the Mannville district was performed in the United church Mannville Tuesday April 22nd at 3 p.m. when the Rev. K. C. McLeod united in marriage Audrey Muriel, second daughter of Mr and Mrs Delbert McFadden to Mr Robert Holden, only son of Mrs A Holden and the late Mr N Holden.

Entering the church on the arm of her father the bride wore a floor-length gown of white sheer, the fitted embroidered bodice featured a sweetheart neckline and full sleeves. A coronet of white flowers held her full length veil and she carried a bouquet of American Beauty roses and white carnations. Her only jewelry was a string of pearls, a gift of the groom.

Miss Doris McFadden was her sister's bridesmaid. Her gown was a shell pink sheer, with a coronet of pink flowers. She carried a bouquet of pink and yellow carnations.

Mr. Stanley Haskins, cousin of the groom acted as best man.

The ushers were Mr Donald Allanach and Mr Rosel Bedard.

Miss Mildred Jones played the wedding music and during the signing of the register Mrs R Logg sang "O Perfect Love".

A reception to one hundred and fifty guests was held at the home of the bride's parents. Mrs. McFadden, mother of the bride, received in a leaf green dressmaker suit with black accessories and a corsage of yellow roses.

Mrs. Holden, mother of the groom, chose a printed silk jersey with black accessories and a corsage of American Beauty roses.

The rooms were decorated with bouquet's of yellow spring flowers. Centred with a three-tiered wedding cake the bride's table was laid with a lace cloth.

Out-of-town guests included Mrs. Robert Haskins of Gleichen, aunt of the groom, Mr. and Mrs. Stanley Hunter, Miss Thelma Siebert, Miss Eileen McLaughlin, Mr. Skinner, of Edmonton; Mr. and Mrs Robert McMillan, Miss Grace Isley, Miss Josephine McLaughlin and Miss Knutson of Vermilion.

Telegrams of congratulations were received during the afternoon from the groom's uncle Mr. Robert Haskins, and Mr Jock Jolly of Gleichen.

A wedding dance was held in the Orange hall in the evening.

The happy couple left to spend a short honeymoon in Calgary and other points in southern Alberta.

Miss Margaret Law Feted at Parties

In honor of Miss Margaret Law, whose marriage to Mr. C. Rush will take place April 26, Mrs. D. Wardrop entertained at a miscellaneous shower Wednesday evening. Her guests were Mrs. A. Law, Mrs. D. Smith, Mrs. W. Ramage, Miss S Grant, Mrs J. Barbour, Mrs. C. G. Hall, Mrs. E. McLuckie, Mrs A Warren, Mrs. A. Cameron, Mrs R Hansen, Mrs. A. McLauchlan, Mrs. William Pohill, Miss Leona Hinchey and Miss Jean Wardrop.

In honor of Miss Margaret Law, whose marriage to Clifton Rush of Calgary takes place at Norwood United church April 26, Mrs. David Wardrop entertained 16 guests at a miscellaneous shower at Miss Layton's home.

Mrs. William Hatch, Mrs. Douglas Hatch and Miss Mona Hatch were joint hostesses at a kitchen shower at Mrs. William Hatch's home Friday evening for 10 guests in honor of Miss Law. —Edmonton Journal.

DEWBERRY NEWS

Mr. and Mrs Albert Donnill have returned to their farm after spending the past three months at Vancouver. Mrs Donnill had the misfortune to fracture her knee while there and is still using crutches.

A farewell party was held for Mr. and Mrs McKinley Wilson in the Dewberry hall last Tuesday. The Wilsons have sold their farm here and are leaving the district. We wish them the best of everything in the years [illegible]

Alfred Redman went to Edmonton last week and brought home two more Jeeps. The way the roads have been this spring the Jeep's is proving a very handy vehicle.

At a recent meeting of the Dewberry United Church board, Ed Brett and Gerald Hodgson were elected new directors.

Mr Brett has purchased the Dewey Johnson residence in Dewberry and intends moving into town this fall. Dewey has already started a new house in Hamilton where he operates a garage.

Dewberry was filled to capacity when a free dance sponsored by Pete Adams drew a large crowd. Congratulations Mr Adams.

Dewberry hall is being turned over to the community by the former owners. A meeting to elect directors is to be held. More and better entertainment is expected by this change.

Dewberry Co-op store has now a full-sized basement and a new floor. Excavation and construction was under the directorship of Stanley Tulloch, one of our local contractors.

Vic Donnill now has one of the big new Massey-Harris tractors on display.

Once more we have a flag flying in our school yard. Look at it and think what it stands for. Feel proud of it and always try to improve your country.

The new showroom of J. S. McKay on the corner of Main street and Railroad avenue is nearing completion and is a fine asset to the town on what was once a vacant corner lot.

Neil Jones, our John Deere agent, has sold several new tractors this spring. George Davis, Milton Brett and Alvin Bierman have bought new ones. They are really needed with such a late spring. Work has barely started and May is here.

Billy Martin, once a local boy who now lives in Banff has purchased another string of saddle horses in this district. Bill is in the tourist business at Banff and runs a riding stable. He reports excellent business last summer so is increasing the number of his horses.

This writer, being very proud of the home town will endeavor to give you some facts about it at the end of each news bulletin. Today we have 22 business places in Dewberry. The merchant who has operated a store for the longest period of time is J. McMahon of the Farmer's store. Next week: Our oldest lady and gentleman in the district.

After the show on Saturday evening attend the dance at the Elks hall. An enjoyable hour or two for only 50c

Local News of Interest

Mr. and Mrs. N. D. Stewart, daughter Miss Grace Stewart, and Miss Evelyn Green left this week by car for a holiday trip through the Okanagan Valley, Washington and to Portland Oregon. The party expects to be away a month.

Miss Lois Rennbeck of Vancouver who is enjoying her annual vacation, spent the past week visiting her parents, Mr and Mrs. George Rennbeck. Lois travelled by plane from the coast and enjoyed the experience very much.

Mr. and Mrs. Neil Webb spent last week end in Edmonton where Neil saw his wife off for a visit to her sister Mrs. R. E. Brown at the coast. Mrs. Brown is the wife of Bob Brown formerly of Vermilion.

CUBS ENJOY HIKE

Twenty-eight cubs enjoyed a hike northwards last Wednesday afternoon under the supervision of their leader Dr. A. D. King. Highlight of the event was the running away of Sixer John Stewart's pony which ended up some four miles farther north than the spot at which the boys camped.

Mr. and Mrs. W. J. Bell and daughter Wilhamine spent the week end in the city visiting their son and brother Tommy and other relatives. Tommy followed his parents and is now visiting at home.

Mr. and Mrs. Shaw of Alliston, Ont., left on the return trip to their home on Tuesday after visiting at the home of their daughter and son-in-law Mr. and Mrs. C. M. Hay, school of agriculture, for a week.

Friends at Islay and Vermilion will be interested to learn that Mr. and Mrs. T. W. McLean and June of Calgary plan to leave Saturday this week for a trip east with visits planned at Montreal, Toronto and in the States. They expect to be away for three weeks. Mr. McLean is employed by the C.P.R. in Calgary.

Miss Nora McCann and Miss Ann Baker of North Battleford recently spent a holiday at the home of Miss McCann's parents in Vermilion.

Mr. and Mrs. J. I. Stephen and family who have resided at the V.S.A. here for the past three years left early this week for Cochrane Alberta where they intend to make their home.

Mrs Chas Spencer spent a day or two in Edmonton this week.

Mr and Mrs. Bob Tatham and five-year-old son Gary, of Camrose, spent several days during the past week visiting at the home of Mr Tatham's sister, Mrs Chas Spencer. Bob is manager of the Macleod hardware store at Camrose.

Mrs. A Dolton, Billie and Donna of Lashburn, Sask., spent a week visiting Mr and Mrs McCann Sr of Vermilion.

Mr and Mrs. Cyril Davis and son Ian accompanied by Mrs Ferguson and daughter Diana were Edmonton visitors on Friday. They attended the All-star hockey game there that evening.

Mrs Bellingham was a visitor to Millet last week where she spent a few days with her son George. She also attended the hockey games in Edmonton between Montreal Canadiens and the All stars.

Friends here will be interested to learn that a daughter, Susan W[illegible], was born to Mr and Mrs [illegible] (nee Jessie [illegible]) [illegible] Royal Alexandra hospital [illegible] April 26th

Miss Irene Moffatt of North Battleford is visiting her father Mr H P Moffatt in Vermilion this week.

Birthday parties were the order in the west end of town on Saturday afternoon last. Heather Dalgliesh celebrated her 9th anniversary with a hike and weiner roast attended by a large number of her young friends. Donna Cooper's [illegible] birthday was the occasion of a theatre party with supper served at her home. [illegible] young lady friends helped her to suitably observe the day.

CARD OF THANKS

Mr and Mrs Herbert [illegible] wish to thank all their friends and neighbors in the Allendale and [illegible] districts for the lovely shower of [illegible] and the [illegible] them as a parting gift.

Check that date on your label now!

Mr. and Mrs. J. Raymond Taylor announce the engagement of their eldest daughter Barbara Ernestine to Mr George David McPhee, only son of Mr and Mrs David McPhee of Clandonald, the marriage to take place on June 14th at St Saviour's.

Miss Helen Arnold of Saskatoon spent Monday between trains visiting at the home of her sister Mrs Smith and her brother Mr Gordon Arnold. Miss Arnold was on her way home after spending a month in and around California.

Mr and Mrs. George Gurney were guests at the home of the latter's sister Mr. and Mrs. A. W. Elliott during the past week. Mr. and Mrs Gurney have been living at Stettler but now intend residing in Edmonton.

Mrs. Glen Good's group of the United church W.A. will meet on Wednesday May 7th at 8 p.m. at the home of Mrs Chas Heckbert.

Mrs Edith Hay's group will meet the same time and day at the home of Miss Dorothy Oakley.

Former Vermilion Couple Honored on Silver Anniversary

Mr and Mrs. W. A. (Bert) Taylor of Edmonton were guests of honor at the home of their daughter and son-in-law, Mr and Mrs. Lloyd Donnelly, Vermilion, on Saturday April 19th, the occasion being their 25th wedding anniversary. A small reception was held for twenty-five guests, old time friends of the couple. Tulips and daffodils decorated the rooms. The table was centred with a two-tier wedding cake decorated with lilies-of the valley and silver bells. Tall white tapers and vases of spring flowers completed the decorations.

A toast to the guest of honor was made by Mr George Webb, and suitably replied to by Mr. Taylor.

A dainty lunch was served by Norma Donnelly assisted by the Misses Muriel Smith and Christine Bo[illegible].

William Albert Taylor and Mary McNamara were married at Vermilion April 19th, 1922 by Rev. H. A. Edwards. There are three children Norma, (Mrs Lloyd Donnelly of Vermilion), Neil and Lorne of Edmonton, and one grandson, baby Gary Donnelly.

Mr and Mrs. Taylor lived in Vermilion nearly all of their lives, moving to Edmonton in 1945 where Mr. Taylor is a locomotive engineer on the C.N.R.

Stagette Notes

The regular stagette meeting Tuesday night was held in the club room, an all business meeting. We came to the conclusion that we had enough spring flowers so we didn't make any more. Right now we want to thank Daisy for her contribution of roses — we do appreciate them.

Play ground reports were discussed and plans made for District Convention which will be held in Calgary on May 26th. Your reporter is being sent as delegate from this club. "Who did that?" Just how it came about we can't explain. However, other members of the Club will be represented as well.

We now have ample decorations on hand for our Spring Time frolic and expect all girls at the Elks hall on Sunday May 10th at 1 o'clock. Our time for decorating is limited girls, so please be on time.

Next Tuesday is Stagette show night—we'll see you all at the theatre in uniform between 7:30 and 7:45.

MORRISON NEWS

It looks as if spring is here at last. Everyone is very busy getting ready to work on the land.

Miss Lila Bowser and Kenny Gunn are visiting at the Capstaw home in Vermilion for a few days.

Mr and Mrs W. J. Potvin spent the past week end in Edmonton and attended the hockey match on Saturday in which the National leaguers displayed their talents.

Mr Dupuit is home again much improved in health.

Mr and Mrs. Bill Gillies of Kitscoty were Sunday visitors at Mr. and Mrs Lawrence Gunn's.

Mrs. A. Gillies spent Friday afternoon visiting the writer, also Mrs. Van Doesbidder Lila, Mrs Bowser and Kenny. A short fashion parade was enjoyed but it was the hat which amused Mrs. Gillies some styles come back don't they?

Mr and Mrs Thos. Bowser visited at the Bowser home on Sunday.

The writer spent a day in Vermilion last week and had dinner with Jean. Mrs Fraser was a guest there at the same time and a nice afternoon was spent together.

Conference Attracts Prominent Agriculturists To Vermilion

The conference and short course for Agricultural Extension workers to be held at the school of agriculture next week will bring to Vermilion a number of persons who have gained distinction in extension work.

The program which is primarily designed to assist District Agriculturists and Home Economists in the conduct of their work will feature C. C. Hearne, Extension Educationalist for the United States Department of Agriculture, Washington. Other speakers include J. G. Rayner, Director, Dept. of Extension University of Saskatchewan; Donald Cameron and E. O. Hillerud, Dept. of Extension, University of Alberta; H. S. Fry, Associate Editor, The Country Guide, Winnipeg; O. S. Longman, Deputy Minister Department of Agriculture, Edmonton and R. D. Sinclair, University of Alberta.

All district agriculturists and district Home Economists in Alberta as well as several officials from the headquarters staff of the Provincial Department of Agriculture will be in attendance. Details of the program are being arranged by R. M. Putnam, Director, Agriculture Extension Service; F. H. Newcombe, Supervisor of District Agriculturists and Mrs. Vera G. MacDonald, Supervisor of Women's Extension Services, Department of Agriculture, Edmonton.

The five-day Short Course program will convene on Monday morning, May 12th, and will open with an address of welcome by N. N. Bentley, principal of the school of agriculture.

This is the first course of its kind to be held in Canada.

Mr. and Mrs. Chester Lipsey will hold an open reception at the Masonic hall commencing at 8:30 p.m. on Wednesday May 14th, following the wedding of their daughter Phyllis.

To Entertain Visiting Agriculturists

Visiting Agriculturists will be the guests of the Vermilion board of trade at the luncheon meeting at noon on Wednesday next, May 15th. All local members are urged to attend to help entertain the visitors. Farmer members wishing to attend may reserve their places by phoning any member of the entertainment committee, N.N. Bentley, Albert M. West, Jas. J. Part.

Boys and Girls Summer Camp at the Vermilion Fair

Arrangements have now been completed with the Department of Agriculture and Mr. N. N. Bentley, Principal of the school of agriculture, for the holding of a Boys' and Girls' summer camp and short courses at the provincial school, beginning on July 21st and carrying through until the last day of Vermilion Fair, July 26th. Accommodation will be available at the splendid premises of the Vermilion school of agriculture.

Farm boys and girls between the ages of 13 and 16 will find the week to be interesting and educational and stress is to be laid on the development of a sports program during the short course.

The cost of the week will be purely nominal and all who intend to be present should submit their names without delay to S. C. Heckbert, the secretary manager of Vermilion Fair. Those who have not previously attended a similar course in conjunction with Vermilion Fair will be given preference of acceptance for enrollment; if accommodation is available the benefits of the week will be extended to those who have enjoyed similar camps in Vermilion.

In order to make it possible to make arrangements for all the details of such short courses the early application of all who desire to attend will be appreciated.

FASTBALL

Pettigrew Trims Puckett in Opener

The 6-team Fastball league got away to a great start Tuesday night this week with Bill Pettigrew's team trimming Lorne Puckett's by a score of 15-6.

Vermilion Hotel Supplies Sweaters to All Stars

The proprietors of the Vermilion hotel have very kindly supplied a complete outfit of Fastball sweaters for use of the All Star team. These sweaters will be worn at all outside tournaments and at exhibition games at home when visiting teams are playing here.

Schedule of Games for Next Week

Tues. May 13 — Puckett vs Webb
Wed. May 14 — Guertin vs Dinsmore
Thurs. May 15 — Pettigrew vs Calvert

Henry Powell was the unanimous selection as coach of the Vermilion All Star Fastball team at a meeting of the Fastballers held last week. The All Star team will represent Vermilion at all the tournaments.

Anyone interested in playing fast ball but who is not yet connected with any team should not hesitate to turn out as you can be used.

Co-operation of all players by turning out regularly will ensure the success of the league.

Allan Latimer proprietor of the Vermilion Service station announces in this issue that he will be open all day Sunday and every night until 11 o'clock for the following six days.

Daylight Saving Time

PURSUANT TO REPRESENTATIONS MADE TO THE TOWN COUNCIL ASKING TO HAVE DAYLIGHT SAVING OR FAST TIME ADOPTED IN THE TOWN OF VERMILION AND IN COMPLIANCE WITH A RESOLUTION OF COUNCIL, I HEREBY DECLARE THAT IN SO FAR AS THE POWERS OF THE COUNCIL ADMIT, DAYLIGHT SAVING TIME WILL COME INTO FORCE IN THE TOWN OF VERMILION ON SATURDAY EVENING, MAY 10th, 1947, AT 12 O'CLOCK MIDNIGHT, TO REMAIN IN EFFECT UNTIL SATURDAY EVENING, THE 27th DAY OF SEPTEMBER NEXT AT MIDNIGHT.

THE CO-OPERATION OF THE PEOPLE AND BUSINESS INTERESTS OF THE TOWN IS ASKED IN THE OBSERVANCE OF THE TIME.

The Power Plant siren will sound at 7:00 a.m., Daylight Saving Time, and the Curfew at 10:00 p.m. Daylight Saving Time.

DATED AT VERMILION THIS 7th DAY OF MAY, 1947.

52c J. W. G. MORRISON, MAYOR.

Huge Program Planned For May 24th Sports

FEATURED BY $300.00 BASEBALL TOURNEY — TWO OPEN FASTBALL COMPETITIONS — ALSO ATHLETIC EVENTS.

A huge program has been planned for Vermilion's annual sports day, May 24th. The program is highlighted by an open base-ball tournament for which $300 in prizes is offered, split two ways $125 to the winner and $75 to the second place club.

This year an open fastball tournament for men has been added to the list of attractions and there are prizes of $40 and $25 for this event. Prizes for the ladies' open softball, always a great drawing card, have been increased to $40 and $25.

Other tournaments include Junior baseball 16 years and under, Softball for boys 15 years and under, and softball for girls 15 years and under.

These six ball tournaments mean that at the very least seven diamonds will be in use on sports day and in case of heavy entries it is quite likely that several more diamonds will be used in the preliminary rounds.

All entries for the ball tournaments must be in by Wednesday noon, May 21st.

The longest list of track events and jumps held at any sports day in the province will be run off during the day and this includes races for every one commencing at the age of 5 years and under. A high jump has been added to the girls' events while the half mile run and pole vault have been eliminated from the open events.

Big sports posters will be out this week end with complete details.

The sports are held under the auspices of the Vermilion Amateur Athletic association. Ron Mitchell is the president and Jim Part the secretary.

CUB NOTICE

All Cubs are requested to attend their meeting on Tuesday evening at the regular time and place. Wear full uniform if possible. Photos will be taken.

"GREEN ACRES"

HORTICULTURAL PREMIUMS

Gladioli and Dahlia bulbs are being delivered daily to local gardeners who wish to join the Horticultural society. It is now time that these bulbs should be started inside in pots or cans for planting outside later on. [illegible] can be planted outside by May 20th but Dahlia plants are very tender to frost and must be protected on cool [illegible].

GROW ANOTHER HOG

The A.L.C. is promoting a campaign for greater hog production in Alberta. "Grow Another Hog for Britain" [illegible] million more hogs are needed [illegible] plete our contract with Britain [illegible] is money to be made in feeding [illegible] to hogs.

KILL PLANT APHIDS NOW

During the next week or so is the time to commence spraying delphinium and columbine plants for aphids (plant lice). After the leaves have curled it is too late as the plants are by then badly damaged. [illegible] tine sulphate (Black Leaf 40) for plant lice. It is advisable to spray over the flower garden every week during the growing season.

CALF CLUB MEETINGS

This week calf club meetings [illegible] be held at Dewberry, Marwayne, [illegible] and Paradise Valley. The [illegible] over 100 boys and girls in these [illegible] and they will get their final [illegible] in preparing calves for the show and showing them.

On May 28th the big show and sale will be held at the Exhibition grounds at Lloydminster. People from [illegible] trict will be welcome to watch the show which is about the biggest and best Calf Club show in Western Canada.

COCCIDIOSIS IN CHICKENS

This disease attacks growing chicks from two to [illegible] weeks old and soon causes the death of most of the flock unless recommended [illegible] are given promptly. [illegible] on treatment are available from the D.A.'s office. It should be [illegible] bered however that follow[illegible] sanitary practice will usually [illegible] the occurrence of this disease.

ANOTHER LATE SEASON

It would appear that seeding is going to be late this [illegible] means that early barley [illegible] to better purpose [illegible] is still a plentiful supply of [illegible] ley which [illegible] than the common [illegible] for [illegible] or elevator [illegible] supplies.

Purchases Kaiser Wholesale Business

Wm. Sutherland is New Owner

Wm. Sutherland formerly principal of the public school at Ponoka and who served throughout the war years with the R.C.A.F., has purchased the A. E. Kaiser Wholesale and took charge of the new business May 1st. Mr. Sutherland has rented half of the Kaiser offices and will conduct his business from these quarters.

Mr Kaiser thus severs his connections with the wholesale after 25 continuous years in that line and will confine his activities to his accounting and fiduciary business.

Teen-Age Floor Show Event of the Year

The event of the year, the third annual floor show of the Teen-Agers is here! spotlights, music, girls and gay costumes add to the perfection of the show. A very startling number is five majorettes executing a tap on drums. An old French minuet will be done by girls in hoop skirts and men in tight pants. The show contains everything from solos to adagio comedies. Admission is only 50c for floor show and dance. Everybody welcome. The place is the Armouries, date Friday May 16th.

Presented With Choirmaster's Gown

In Memory of the Late Mrs. Margaret MacKenzie Morrison

A very pleasing event took place at the practice hour of the United church choir last Sunday when J.W.G. Morrison presented Mr W. R. Elford, director with a beautiful choir master's gown in remembrance of his late wife Margaret MacKenzie Morrison, as a token from Miss Mary L. Weston, a life long friend of the deceased at New York.

Mr Morrison felt that the token was most befitting as the deceased held Mr Elford's talent as an organist and choir leader in very high regard and that she herself had long been a member of a choir. Mr Elford was naturally taken by surprise and expressed his appreciation and would wear the gown he said in remembrance of his friend, the late Mrs Morrison.

The Rev. Beikie referred to the token of remembrance at the evening service rejoicing with the congregation at the recognition of Mr Elford. Miss Weston is on the instrumental staff of the Columbia University.

Elks Hold District Meeting in Vermilion

C. Conway, Lloydminster, New District Deputy of Dist. 10, B.P.O.E.

A very successful and well attended meeting of Elks lodges comprising District No. 10 was held in Vermilion on Wednesday April 30th, the local lodge being host to 16 Brother Elks from Mannville, 6 from Vegreville and 22 from Lloydminster.

District Deputy G.E.R. Bro. Park was in charge of the meeting hearing reports from the various lodges. A resolutions committee was named to [illegible] with [illegible] resolutions to be made at the Provincial convention. Opening and closing ceremonies were carried out by Vermilion chair officers.

Bro. C. Conway of Lloydminster [illegible] was appointed as the [illegible] District Deputy for 1947 [illegible] thanks for this [illegible] to do his utmost [illegible] of District [illegible] Vegreville [illegible] past [illegible] Vegreville Lodge [illegible] Lloydminster [illegible]

[illegible]

Adjudicates at Musical Festivals

Mr. Wm. R. Elford, organist and choirmaster of the United church, [illegible] at [illegible] held last week at Mannville, [illegible] and Vegreville.

This week Mr Elford will act in the same capacity at the Paradise Valley, McLaughlin festival which takes place on Friday May 9th.

Construction Co. Is Preparing For Big Year's Work

The [illegible] Construction Co. of Winnipeg have set up a camp on the west side of town and their crew of some fifty men are now busy preparing for a big season's work installing the water and sewer system in Vermilion. Activities so far have been confined to erecting bunk houses, cook houses, dining room and tents for the camp, overhauling machinery and checking over the work that was done last fall. Actual digging operations had not commenced at press time but will start at the vicinity of the high school grounds and run up to the hospital.

The Construction crew are quite confident that barring unforeseen obstacles they will complete the quarter of a million dollar project by November.

District Scholars Win Studentships

The following awards, tenable in the departments and at the universities named, during the academic year beginning Oct. 1, 1947 have been made to the following Vermilion and district students:

Robert Lee Clark, B.Sc., McGill, Nuclear Physics. Bob is the son of Dr. and Mrs. H. J. Clark and this is the third studentship he has won at McGill.

George Bradford Gunn, B.Sc., McGill, Physics-Chemistry of Lloydminster and Paradise Valley. His wife is the former Rubina Bowser.

Gordon Wesley Hodgson, B.Sc., McGill, Chemistry. Gordon is a Dewberry man.

FUNERAL OF WALTER STEVE TURNER SUNDAY MAY 11th

The funeral of Walter Steve Turner, son of Mr and Mrs. A. Turner, who passed away Tuesday evening May 6, will be held on Sunday May 11th at 3 p.m. Daylight Saving Time at the United church. Interment will be at the Vermilion cemetery.

Tennis Courts Will Be Opened Friday

The tennis courts have now been prepared for the season's play and will be opened Friday afternoon May 9th. Everyone interested in joining the club is invited to make use of these fine courts. Newcomers to town since last tennis season who desire to contact players can phone Mrs. Glen Good or Ashley H. Cooper.

ISLAY

Successful Cribbage Tourney at Islay

VERMILION COUPLE CHAMPIONS

A very enjoyable crib tournament and dance was held at Islay last Friday night when some 40 men and ladies participated in the evening of cribbage. Mrs. Douglas Cooper of Vermilion was successful in winning the ladies tournament, while peculiarly enough her husband won the men's with Ken Urquhart taking second prize. Several carloads of Vermilion people attended the event.

As one drives around the country we see almost every farmer on the land. New tractors are in evidence in this area too—Walter Carlson and Tom MacDonnell are the two most recent purchasers. With such speed we should seed many acres, and if the elements are kind much food should be ready for overseas.

Overseas needs more than just wheat, eggs, meat. If you were fortunate to have your radio on Tuesday at 4:15 to hear Dr. Hutchinson Coburn (6'4" of Scotchman) who is director of rehabilitation of churches in Europe by the National Council of Churches. He is visiting North America. He says the goods sent from here so well packed by our church folk are a marvel to the people there. To think it comes from so far away. Thousands of tons of paper to make Bibles, books and church papers have been sent, besides wooden churches. Many ministers who lost everything were still working and their salary is the equivalent of $1. All have the privilege of giving to help the overseas missions.

Sunday is Mothers' Day. Come to church Sunday May 11 at 3 p.m.

We understand that Rev. Hunt of Clandonald Anglican church expects to hold services in Islay again this summer.

Due to a few cases of mumps our school will not participate in the school festival Friday May 9th.

Mrs. Shaw is visiting her daughter Mrs. R. Toohey.

Miss Mildred Barber has gone to her home at Earlie for her holidays. Jean Robinson is supplying at the hospital during her absence.

Noticed Cr. Quist in town looking over the grounds which are to be used as a recreation centre.

Charlie Bull has arrived to visit his sister Mrs. Hollington who is quite ill. Mrs. Chris Hamilton is visiting at the home.

Mrs. Sid Crawford of Edmonton and formerly of Vanessi district, passed away Saturday. Another pioneer gone to her reward.

IN MEMORIAM

In loving memory of our beloved daughter

Maxine

who passed away May 26, 1943.

"When we reach the Heavenly garden.
And see her in full bloom,
The flower we loved so dearly,
And thought God plucked too soon
Though we know it not today,
Oh, then we will know the reason,
Why in her fragrant beauty
God took our flower away."

—Forever missed and loved by Dad, Mum, Beth, Boyd, Lisa, Nelson and Donna.

Claymore Clippings

A few neighbors gathered at the home of Mr. and Mrs. R. MacMillan Friday evening and gave a farewell surprise party to L. C. and E. E. Burnett. Everyone extended best wishes for a pleasant trip and every success in their new home.

Mr. and Mrs. J. McLean of Paradise Valley visited their daughter and family Mr. and Mrs. L. McCrae over the week end.

L. C. Burnett who has farmed in this district for some years has moved to Shepard, Alberta. He plans to work there for the summer. He was accompanied by his father E. E. Burnett.

The Red Cross meeting was held at the home of Mrs. V. Eaton Thursday afternoon last week. 16 members were present and four visitors. Following the business session a tasty lunch was served by the hostess assisted by Mrs. L. Vanstaunch and Mrs. A. Shand. The next meeting will be held June 5th at Mrs. Dale Williams.

J. Van Hout of Athabasca motored here and spent a few days visiting at the home of his daughter Mrs. Arie Harrison and son A. Van Hout and family. He left on his return trip Monday.

Mrs. L. Cavanaugh and small daughter Sandra who have been visiting the former's parents Mr. and Mrs. A. Shand returned to their home in Edmonton Sunday.

Alex Shand suffered a bad strain to his arm while working around the elevator here Thursday afternoon. It was at first feared that the arm was broken but we hear now that the injured member is progressing nicely.

Several pupils from the Claymore district took part in the musical festival held in Vermilion April 30th. A program of selected numbers was given in the evening and was much enjoyed by a large number of parents and friends from the visiting schools.

Vermilion, Alberta, May 8th, 1947.

DAYLIGHT SAVING TIME for VERMILION

As a result of considerable fact finding, gallup polls and questioning Vermilion decided to join the ever-growing number of cities, towns and villages using daylight saving time. Many and varied were the views expressed, for and against, but all met on common ground in desiring uniformity of time—and this was the factor that decided the issue.

Put your clocks ahead one hour at midnight, Saturday May 10th and the only noticeable difference will be the longer evening you will have.

OUR NEIGHBORING TOWNS — Official opening of the Fairview refrigerated locker plant took place Saturday last with many residents of the town and district in attendance. The plant has a capacity of 300 lockers with 200 already in use.

The pupils and teacher Miss Duck of Allandale school wish to thank the following business firms for their courtesy and kindness which they rendered, thus making the "educational excursion" a very interesting one. The firms visited were: The Standard, Hatchery, Creamery, Dairy, Flour Mill, Bakery and Bowling alley.

Wildmere Winks

Roy Dobbs was a hospital patient for a few days suffering from a badly infected hand. He has now returned home.

Best wishes are extended to Mr. and Mrs. Melvin May for a long happily married life, and to Mr. and Mrs. Stanley Calvert go the same good wishes.

Mr. and Mrs. Cliff Cruthers and family and Mr. and Mrs. Frank Gibson and Mary were visitors at the home of Mr. and Mrs. Albert Smith on Sunday afternoon.

Mr. Steve Warman commenced his teaching duties at our school on Monday. A hearty welcome is extended to him. Our sincere thanks also to Mrs. Wilson who carried on until a teacher could be obtained, the children never lost a day of school through her kindness in filling in.

Mr. and Mrs. Wilson Ford of Vermilion have moved out to spend the summer on the farm with their daughter and family, Mrs. Frank Gibson of Rosewood.

The writer understands that Albert Erben was injured when a car he was overhauling slipped and fell on him. Speedy recovery Albert and don't let it get the best of you next time.

The writer and family visited for a short time at the Fadden home Friday evening. J. Wallington and J. Wilson were out Sunday fixing new lead in wires on several phones in the Tolland district. They also called at the new store. Mr. Webber says that he feels lost now since the store has been moved. A well earned rest is due them as they served the people faithfully for many years.

Eddie started his job today!

The manager of the furniture factory in Eddie's town landed a big order. It meant he had to buy a lot of extra lumber, increase his payroll.

He lost no time in putting the whole thing up to the manager of his local bank. Together they worked out how much money he would need to take care of wages and other costs until he delivered the goods. Then, with the backing of his bank, he got to work on the order.

... And that's where Eddie came in. He was put on the payroll—given his first chance to learn a trade. Right now he's on his way home to tell Mom and Dad how much he likes his new job.

This is one instance of how Canada's 3,300 branch banks play their part in the daily life and work of Canadians.

Wildmere Winks

Recalls Early Days of Radio

Radio station CJCA celebrated 25 years on the air on Saturday April 26th. The writer can recall some amusing incidents of the early days of listening in. The first set listened to was a home-made one, made by one of our neighbor boys in fact. You used ear phones in those days, and after you got those on and had the program coming in you had to stay put as there would be many squeaks and squawks if you so much as moved. One night another neighbor came to listen and after putting on the ear phones and tuning in the program still could not hear a thing, adjustments were made, still no program, on examination it was found he had the ear phones on inside out. That set was made by Johnny Wilson who still lives in the Wildmere district. We journeyed many a night across our lake to listen in to programs. One we specially liked was Harry Coles' Night Flier program. Radio has made vast strides in the past 20 years and will continue to do so in the years to come. Next week the writer will tell you of her first radio and how she got it.

On Wednesday April 16th Wildmere W.I. met at the home of Mrs. Garnett Sr., with 11 members present. Roll call was answered by an exchange of garden seeds. A donation was made to the cancer fund. Mrs. Wilson was chosen as delegate to the W.I. convention to be held at Calgary May 28-30. In case Mrs. Wilson is unable to attend Mrs. Garnett is the alternate delegate.

The topic of the meeting which was to be devoted to some phase of agriculture was very interesting as the speaker Mrs. Gibson chose as her subject "Chickens". Mrs. Bathe was in charge of the social part and had a well wrapped parcel and members had to guess the contents. Mrs. Gibson, Mrs. Whitlock and Peggy Graham tied on this contest each of them guessing the contents correctly. The three names were put into a hat and the lucky one picked out was Mrs. Gibson. Johnny Jump-Up was won by Mrs. B. Martin. Some finished work was handed in. Still unable to obtain flannelette to make the layette, this month a housewife has to be filled by each member.

The next meeting will be held on May 21st at the home of Mrs. Bob Martin Wildmere. The topic will be given by Mrs. Wallwright "Canadian Industries". Roll call answered by an amusing story about our mothers.

Mrs. Garnett served a tasty lunch and Ann Garnett showed the suit and graduation dress she made while at the V.S.A. Both were exceptionally well made and nicely finished.

A COSY HOME is cosier still when you serve Maxwell House Coffee. So delicious it satisfies completely. Expert blending assures you coffee that's famous for smooth, mellow flavor.

OUR COMPLETE SHORT STORY—

CENTURY OF PROGRESS

By M. J. COLLINS

DAD and I were thinning out turnips in the turnip patch near the line fence between Old Man Murphy's place and ours.

"Now I wonder what's up?" Dad said with surprise as he leaned on his hoe and looked across the field towards the Murphy place. Two cars were driving up the Murphy's lane. Of course this was a long time ago so you know what the cars were like—high touring cars, model T Fords.

We went on with our hoeing and after a while one of the cars drove away. Shortly after that Old Man Murphy hurried across the fields towards us.

"Bought me a car, Tom," he said, clambering over the rail fence.

"A car!" Dad exclaimed, as if we'd never even noticed them driving up the lane. "What do you want with one of those things? You don't know the first thing about them."

"Nothin' to it," George Murphy said boastfully. "This is the century of progress, us farmers got to keep up with it."

"Sounds like the salesman was stringing you," Dad said dryly. "What else did he tell you?"

"Got her all writ down," Old Man Murphy continued enthused, "All I got to do is follow what it says. Can't make a mistake driving it. C'mon over and see it," he invited.

"I think I will," Dad accepted, throwing his hoe down between the ridges. "Let's go, Rick, maybe we'll get around to buying one some day."

"What did you pay for it, George?" he asked as we headed towards the Murphy place.

"Well—she cost a pretty penny, yessir, a pretty penny! But don't think she's not worth it. Seven hundred dollars, every cent of it."

The youngest Murphy girl was out sort of fondling the car and cooing over it, at least that's the nearest way to describe it, when we arrived.

"Migosh, it's high!" Dad looked at it with misgivings. "I'd be afraid the wind would blow it over."

I got in the front seat to have a good look at things but Maggie Murphy gave me such dirty looks that I got out again.

"Let's see," Old Man Murphy had dug a sheet of paper out of his pocket. "You push in this, pull out that, advance the spark and gas—what does advance mean, Tom?"

"Pull them down," Dad answered.

"Step on this—and that's all there is to it. Want to go for a ride?" he offered, "I'm going out in the hay field and drive around to get the hang of it."

Dad shook his head, "Go ahead, we'll watch." That stopped me from saying I'd go.

Old Man Murphy got in, "Well, here goes!" He grinned.

I was watching everything he did. With a roar the car leaped into sudden motion, kicking up dirt and gravel. George Murphy looked more surprised than anyone. The car lurched out into the field and roared around it. As he went by he yelled something unintelligible at us.

"Well," Dad said sitting down on the edge of the Murphy verandah, "Looks like Old George has got the hang of it."

He whizzes by again and yells at us, we waved gaily back. Everytime he went by he yelled. A gust of wind blew a piece of paper by and Dad fairly pounced on it.

"Good gosh, old George has lost the instructions!"

The car went roaring by again with old George hanging on for dear life.

"Turn the key off," Dad roared but the car was making so much noise I don't think George could have heard Gabriel blow his trumpet even if he'd been sittin' in the back seat.

Around and round went the car, faster and faster, swaying and rolling like a thing possessed.

"Stop the dam thing! Stop it!" Old George roared at the top of his voice.

Maggie became so excited that she jumped up and down like she was standing on a hornet's nest.

Crash! The car went through the rail fence and into our turnip patch.

"Look after Maggie!" Dad shouted as he sprinted across the field.

She was out cold and as heavy as a log. I dashed into the house and got a dipper of water and soused her. Boy, she came to in a hurry and took a nasty swipe at me. If it had of connected it would have knocked me into the middle of next week.

"Oh, my poor, poor father," she sobbed scrambling to her feet.

Dad came back helping Old George. He looked more than a little pale around the gills. He kept clutching at his chest and moaning, "Oh, my heart! Oh, my heart!"

We got him into the house, he had aged ten years. Maggie flitted away and got his favorite medicine—a small glass—that helped his heart.

"How d'you feel now, George?" Dad asked.

"I'm a mite better now," he said cautiously. "That — that deathtrap!" He shook his fist in the direction of the car. "Hitch up the team, Tom, we'll haul it up on the threshing-floor, I'm through with that—" George called the Ford several names and the name car certainly wasn't mentioned once.

"It's sure some contraption," Dad said but he made no move to go and get the horses. "Take a brave man to handle one of them."

Old George swelled up at that, "Yes, sir. A Brave man."

"But I wouldn't be surprised if it cut about twenty years off a man's life," Dad added slyly. That made old George clutch at his heart and Maggie did a little more flitting.

"Want to buy it, Tom? It's in your turnip patch," Old Man Murphy suddenly suggested.

Father shook his head, "I haven't got the nerve to drive it, George."

"I'm an old man, Tom," George pleaded and right there as far as he was concerned the century of progress slipped into reverse.

With just the right shade of reluctance father let George talk him into buying the car. I didn't say a word. I knew what Dad was up to. He finally said he'd buy it and got it for three hundred dollars less than Murphy had paid for it.

As we headed back towards our turnip patch Dad was pleased with himself. "Never know what'll happen when you're hoeing turnips eh son?"

Do I Enjoy My Meals

Dr. Chase's KIDNEY and LIVER PILLS

Backache?

Backache is a friendly warning from Nature—urging you to do something about it at once. It's the same when your shoulder is painful, or your joints become stiff. When other folks have had these complaints, many have got relief by taking Kruschen. Kruschen helps because it is a combination of several mineral salts which aid sluggish organs of elimination thus helping to remove the causes of painful backache and rheumatic pains. Health improves and vigour returns. So give Kruschen a trial in your own case. Start today and for the next month take Kruschen regularly. Simply take a small morning dose of Kruschen in tea, coffee or hot water. At all Druggists 35c and 75c.

KRUSCHEN

It's the little morning dose that does it!

SAVED BY DOGS FROM BEAR'S FANGS—But for the timely assistance of his two faithful dogs, Joe Joice of Calais, Alta., might have been killed by a wounded and enraged bear. Joice was out hunting in the bush country around his home recently when the dogs suddenly discovered a bear in his den, apparently just awakened from his winter nap. Joice shot the bear four times but somehow failed to get in a fatal shot. The enraged animal jumped out of his den and headed straight for Joice. Unable to reload in a hurry, Joice started to run. But he was wearing snowshoes and tripped. In a flash the bear was upon him, biting the man's right leg, his left thigh, his left arm and mauling him badly. Joice screamed and the dogs rushed to the rescue, sinking their teeth into the bear's hind legs. The bear let go his victim, jumped over him and ran off with the dogs in pursuit. Although bleeding freely, Joice managed to make his way about a mile and a half to the camp of a friend.

SELECTED

RECIPES

COCOA SYRUP

- 1 cup cocoa
- ⅞ cup sugar
- ½ cup corn syrup
- ¼ teaspoon salt
- 1¼ cups cold water
- ¼ teaspoon vanilla

Combine cocoa, sugar, syrup, and salt in saucepan. Add water slowly and place over low flame, stirring until smooth; then boil gently 3 minutes, stirring constantly. Add vanilla. Turn into jar, cover tightly. Keep in refrigerator. Makes about 2 cups syrup. Serve hot or cold as sauce or use in making delicious cocoa drinks. This syrup may be made using 1 to 1¼ cups sugar instead of sugar and corn syrup.

To make cold drinks, use 2 tablespoons syrup to 1 cup milk.

CLEVER JUDY MOCHA FROSTING

- 1 cup sifted confectioners' sugar
- 1 egg, unbeaten
- ¼ cup strong coffee
- ½ teaspoon vanilla
- 3 squares Baker's Unsweetened Chocolate melted
- 1 tablespoon softened butter

Combine ingredients in order given, beating with rotary egg beater until blended. Place bowl in pan of cracked ice or ice water and continue beating until of right consistency to spread (about 3 minutes). Makes enough frosting to cover tops of two 9-inch layers, top and sides of 8x8x2-inch cake, top of 13x9x2-inch cake, or small angel food cake. For all-chocolate flavor substitute milk for coffee.

TURKEY CONTRIBUTED TULIP TO EUROPE

The tulip was first introduced into Europe from Turkey in the sixteenth century. After 1634 an outburst of tulip growing in Holland, called "tulipomania", made the Dutch famous exporters of bulbs. Sometimes as much as $5,000 was paid for a single bulb at that time. Now we can have more perfect blooms for a little work and a few cents.

China is about a third larger than continental United States. It is 1,860 miles from north to south and more than 2,000 miles east to west.

Prospects Of New War Is Remote

OTTAWA.—After consulting various factors with the unemotional logic of the military analyst, one of the higher officers involved in Canada's defence planning estimated that the odds were 100-1 against any devastating air assault on high priority targets on the North American continent within the next 10 years.

In an interview setting out his own personal conclusions, Col. W. W. Goforth, retiring deputy director of defence research, said he felt that odds against a major war would start at 200-1 against in 1947, decline steadily until 1961-62 and would give away to "a steady lessening of tension and risk after 1962."

Col. Goforth is returning to private business in Toronto after being the right hand man of Dr O. M. Solandt, director-general of defence research, who sanctioned his statements.

"INVASION" WIRE COMING TO CANADA

TAPLOW, Buckinghamshire, England.—The "pyramids", 50,000 tons of barbed wire prepared for the invasion of Europe and which lay rusting for seven years, are going to Canada.

But Victor Heywood, who purchased the wire from the British Government and accepted the overseas offer, has had his troubles converting his investment.

He originally intended to have the wire melted into steel ingots, but Britain had no presses sufficiently powerful. When the Canadian purchaser showed up so did innumerable shipping transport problems. Dock workers and stevedores demanded "dirt" and "bending" money for handling the wire. The obstacles now have been surmounted.

what's your score on Sleep?

YOU spend about a third of your life at it — so you might as well know something about Sleep. What's your score on the following statements — true or false?

✓① the earlier hours of sleep are the best— true: Science has found the first four or five hours are most beneficial.

✓② sleeping on the left side strains the heart— false: It makes no difference whether the average person sleeps on his back or either side.

✓③ it is better to lie absolutely still when asleep— false: The muscles of the body are benefited by periodic changes of position.

✓④ you can drink postum at any hour and sleep perfectly— true: Postum is caffein free—contains no stimulants of any kind.

Try Postum! Make it right in the cup, with boiling water or hot milk. Costs less than a cent a serving!

Stagette Notes

Instead of parking in the old club room as usual we enjoyed an evening of real entertainment at the theatre on Tuesday night. Boy what a treat—girls, why don't we do this more often!

A short round table convention discussion got underway at the Boston immediately after the show.

Next Tuesday is May 13th and also the Spring Time Frolic in the Elks hall—Remember? We hope to see you all at this dance folks, it's our last for the season so don't miss it.

Girls don't forget the date on Sunday [illegible] See you all then.

The following corrections should be noted in the accounts ordered paid in the minutes of the Vermilion Municipal hospital meeting which appeared in last week's Standard. Vermilion City Dairy $101.18; Northern Hdwe. $8.77.

WOODVALE

PRAIRIE FIRE

A prairie fire started last Wednesday somewhere north-west of Woodvale school and it took a crowd of over 20 men until 7 o'clock to get it stopped about 1 mile west of the school and on the east-west road. The high wind made it difficult to work and spread the blaze very erratically. Though considerable territory was covered by the fire no damage to any buildings was done. The origin of the fire is not known by the fire-fighters who came from Woodvale, Thorncliffe and Union districts. It was probably caused by the rekindling of an old straw bottom where a stack had been burned the week before.

Roads are getting in good shape now, after being maintained by Bob Wilson and Arnet Brown.

Work on the land started late this year, but everyone seemed to be in the fields by the 1st of May. Clarence Lysons was the first with the tractor out working down plowed under grass land on the highest hill around here.

STORE MOVED

The merchandise of the Webber store has been moved to the store operated by Harry Portsmith and Art Lysons one mile east of the post office. Quite a lot of hard work has been done these past few weeks to make the opening of this new store [illegible].

Several persons were seen admiring Chris Thompson's new Hudson car after the fire. It will have to go some to beat the old Dodge there, which after 21 years of service still carried 14 men and their bags and rags down to the school!

FOR YOUR REQUIREMENTS OF — well rotted manure, black earth and clean, sharp gravel, phone or see W. J. MONES. 50-1-2

FOR DEEP WATER WELL DRILLING—See GORDON DOWNEY, Box 1002, Vermilion. [illegible]

VEGREVILLE SCHOOL DIVISION No. 19 — Vegreville, Alberta.

Tenders for School Houses

Separate sealed tenders will be received by the Board of Trustees of Vegreville School Division No. 19 at the Divisional Office up to noon of May 23, 1947 for the following school buildings:

S.W. 15-48-7-4: Two-room frame stucco. Plan No. ENS 14-16. Nearest station: Vermilion, 16 miles South, 3 miles West, all on gravel highway.

N.E. 21-51-11-4: One room frame stucco. Plan No. CE 22-29. Nearest station: Innisfree, 3 miles North, 2 miles East.

Separate tenders are required as follows:

(a) Building construction.
(b) Hot-air heating system.
(c) Septic toilets.

Plans and specifications may be obtained from S. Hinton, Chairman, R.R. No. 3, Mannville, phone R1306, or from the Secretary-Treasurer, on payment of a deposit of $5.00. Plans must be returned within 24 hours and deposit will then be refunded. A marked cheque for five per cent of the amount of the tender must be enclosed with each tender. No tender will be considered without this cheque attached. The lowest or any tender will not necessarily be accepted.

D. W. Kennedy,
Secretary-Treasurer,
Box 119, Vegreville, Alberta.

Vermilion School Div. News

Regular meeting of the Divisional Board was held at Vermilion on Friday and Saturday, April 25th and 26th.

Ellsworth S. D.: Sale of building left to Chairman upon receipt of a satisfactory offer.

McLaughlin S.D.: Trustee reported school property had been surveyed by Government surveyors.

Marwayne S.D.: Mrs. W. S. Campbell represented local board at the meeting with a request for additional accommodation for pupils.

Allister S.D.: Messrs. Howe, Swanberg and Wild visited the meeting to further previous request for school building at Rivercourse and teacherage accommodation.

Cash statement as prepared by the secretary was presented to the Board and approved. It was decided to retire present loan of $10,000 immediately.

Repair Man: Mr. L. C. Maltais was appointed as assistant repair man for the Division.

Kitscoty School: Mr. Walter Antonchyk attended the meeting in connection with labor contract. Board decided to engage services of C. P. Lipsey as works foreman. It was decided to seek services of engineer for surveying school site. Contract for excavation was awarded to W. B. Mix Construction Co. Supply of gravel was left to be awarded to successful tenderer by Building committee.

Minutes of annual meetings were [illegible] by Divisional trustees pending local visits in June.

Road Signs: List of schools where suitable signs may be erected by the Municipal Council was reviewed and approved subject to approval of M.D.

Visual Aid and Instruction: It was agreed to pay $4 per visit for each school visited by Mr. Smith.

Superintendent's reports on schools visited since date of last meeting were read.

Teacher Appointments: The following appointments were approved — G. R. Mealing at Clear Range; Wm. Mariuk at Ganton, Miss Agnes Doyle at King Edward, Miss Dorothy Devalder at Pelican Lake, Mrs. R. Anthony at Golden Valley, Mrs. F. Sweet at Grainview; Mrs. M. Sheppard at Dewberry. Resignations received from Wm. Hughes, Crown Hill; Mrs. H. Gobaldeston, Clear Range were accepted.

It was decided to arrange for teacherage at Crown Hill and Grainview S. D.

Kitscoty Dormitory: Report from electrical inspector was presented and it was decided to engage services of electrician to effect repairs immediately.

Ellsworth S.D.: Board approved purchase of piano with local district contributing half of cost.

Debenture Sale: Department reported tenders to be opened May 12 and sale was left at discretion of the Finance committee.

Next meeting Friday May 30th.

ARTISTIC SIGN BRIGHTENS UP NORTH GULVEA AVE.

The Studio of Photographic Arts has erected a bright and artistic neon sign at the new studio behind the post office. The sign certainly attracts and does much to brighten up that portion of the street.

Interesting Meetings At Salvation Army

Special meetings commenced last night Thursday at the Salvation Army and will continue till the 18th of the month. These meetings are being conducted by Major J. Martin. The Major was born in Scotland and was drawn to Canada with the stories of wealth to be picked up from the streets of Canadian cities. Whilst looking in vain for some of that wealth in the city of Moose Jaw he heard The Salvation Army band which he followed into the hall and found a treasure far exceeding the wealth of this world. From that point the Major has served the public through the channel of The Salvation Army in Saskatchewan, Manitoba and Alberta. As an Ambassador of the Gospel of Christ the Major has conducted services in lumber camps, trains and in stage coaches, school houses, theatres, and beer parlors. In fact, anywhere people gather. He comes to Vermilion equipped with many years of experience of preaching the Gospel.

There will be meetings every week night at 8 p.m. and 11 a.m. and 7:30 p.m. on Sundays. There will be a Women's meeting on the Saturday afternoon at 3 p.m. Special Young People's meetings will be held today after school and next Tuesday and Friday at 4:15 p.m. Plan to attend as many of these meetings as possible.

DEWBERRY NEWS

Directors Elected for Hall

More and better entertainment will be the motto of the new management of the Dewberry Community hall. At a recent meeting four country residents and three from town were elected as directors for the present year. Directors from the town are Neil Jones, C. P. Moisbos and V. Dennill. Country directors are [illegible] Butz, Jon Braithwaite, R. M[illegible] and Gordon Ratty.

Mr. Protch of Dewberry has purchased a new tractor from our local Massey Harris agent Vic [illegible]. It is sincerely hoped that he doesn't have the misfortune of being run over by the machinery he pulls with this one as it can pull very large implements.

Canada's Foreign Trade

FOREIGN TRADE IS AN IMPORTANT ELEMENT in the economic structure of any nation and it is closely connected with the progress and prosperity of the people. The story of Canada's foreign trade since 1939 has been an encouraging one. Before the outbreak of war in 1939 the Dominion's external commodity trade was estimated at $1,500,000,000. From that time on it rose steadily until in [illegible] Canadian exports at that time included large shipments of war materials. In 1946, when these were no longer required abroad, the volume of trade dropped to $[illegible] which still shows a very substantial increase over the prewar figures.

* * * * *

Has Surpluses To Sell Abroad

While the population remains at the present level, Canada will always have surpluses including products of her farms, forests and fisheries for export to foreign countries [illegible] that [illegible] large extent in the demands which other countries [illegible] these goods [illegible] Since 1939 Canadian [illegible] from a total of [illegible] in 1939 to $2,300,[illegible] in the first post-war year 1946. The peak was reached in 1944 and [illegible] war materials and other goods to foreign countries [illegible] Imports have also advanced steadily but less [illegible] having increased from $[illegible] in 1939 to nearly $2,000,[illegible] in 1946.

* * * * *

Much Progress Has Been Made

The general rise in Canada's foreign trade in respect to both imports and exports is an indication that phenomenal progress has been made since the prewar years. Comparison of the volume of trade in 1939, the last year before the war, with the volume in 1946, the first post-war year, [illegible] $2 [illegible] Experts are of the [illegible] that the figure for 1947 will likely be higher than that for 1946. [illegible] about four-fifths of Canadian exports for 1946 [illegible] Great Britain, the United States and France were our biggest customers. [illegible] shipments to Latin America [illegible] there having [illegible] agricultural products and manufactured goods [illegible] last year. Much of the growth of Canada's export trade has been [illegible] the war and [illegible] Europe for food and [illegible] for rehabilitation. However [illegible] of the opinion that there [illegible] foreign trade and it is to be hoped that [illegible] able to retain the present volume which has such a [illegible] the progress and prosperity of the country.

USE SPRAY GUN TO DISINFECT CATTLE

RENFREW, Ont.—Making its first appearance [illegible] Eastern Ontario farmers a [illegible] feeling [illegible] cattle of [illegible] and heel flies [illegible]

F. G. Dench, [illegible] agricultural representative [illegible] farmers have combined to fight [illegible] from [illegible] that [illegible] their herds. The spraying area extends from the [illegible] to [illegible] river and the whole operation may be completed [illegible]

The sprayer, the latest in agricultural [illegible] best [illegible] rubbing, mounted [illegible] fountation, is connected by a 200-foot hose to a gasoline-powered engine and spray tank mounted on a converted army truck. Spray ingredients used are rotenone and wettable sulphur. The fee charged to each farmer is 20 cents per head of cattle.

Mr. Dench is anxious to see the machine in county-wide operation. He stated that the sprayer may be obtained by communicating with the county agricultural office.

GEMS OF THOUGHT

REDEEMING TIME

What is meant by redeeming time? It is to fill the hours full of the [illegible] freight, to fill them with the [illegible] of thought, feeling, action as they pass.—Clarke.

To worry about tomorrow is to fail [illegible] the tasks of today and [illegible] both days.—William De Witt Hyde.

No man [illegible] be [illegible] of his [illegible] in the choice of his [illegible]—Jeremy Taylor.

Very few people are good economists of their fortune and still fewer of their time.—Chesterfield.

A great amount of time is consumed in talking nothing, doing nothing, and indecision as to what one should do.—Mary Baker Eddy.

Look upon each day as the whole of life, not merely a section, and enjoy and improve the present without wishing through haste to rush on to another.—Ruskin.

NEW NERVE DISEASE PUZZLES DOCTORS

A mysterious nerve disease which concentrates particularly in the fingers, legs and toes has been reported by Dr. Robert Wartenberg, assistant clinical professor of neurology in the University of California Medical School.

Wartenberg said the unnamed disease followed no discernible pattern, was no handicap but was very stubborn.

[illegible] said he had studied the disease for 10 years but still could not trace its cause. He said it apparently was the result of a virus of low [illegible] which attacks the skin or superficial nerves of the human body exclusively.

Germolene [illegible]

RICH, SPICY CINNAMON BUNS

Recipe

Dissolve 1 tsp. sugar in ½ c. lukewarm water, add 1 envelope Royal Fast Rising Dry Yeast. Let mixture stand 10 min. Then stir well. Scald 1 c. milk, add 4 tbs. shortening, ½ c. sugar, ½ tsp. salt; cool to lukewarm. Add 1 c. sifted flour to make a batter. Add yeast mixture and 1 beaten egg; beat well. Add 2½ c. sifted flour, or enough to make a soft dough. Knead lightly; place in greased bowl. Cover, set in warm place, free from draft. Let rise until doubled in bulk, about 2 hours. When light punch dough down, roll out into oblong piece, about ¼" thick. Brush with 4 tbs. melted shortening or butter. Sprinkle with ⅔ c. brown sugar, 1½ tsps. cinnamon, ½ c. raisins. Roll up lengthwise in a tight roll; cut in 1" slices. Place cut side up, 1" apart in greased shallow baking pan. Cover; let rise in warm place until light, about 1 hour. Bake in 425°F. oven about 20 minutes.

MOSCOW GUARD CHANGES — Many major problems were left unsolved when the foreign ministers' conference closed in Moscow recently. Here is the ceremonious changing of guard.

FUNNY And OTHERWISE

They were walking arm and arm. "Darling," [illegible] coyly, "which do you like better, a homely woman with great intelligence or a pretty girl without brains?" "Honestly, sweet," he replied, "I prefer you to either."

* * * *

The six-year-old heir apparent returned home dejectedly from his first day at school.

"Ain't goin' to that ole school tomorrow," he muttered.

"And why not?" asked his mother.

"Well," the youngster replied, "I can't read and I can't write, and they won't let me talk—so what's the use?"

* * * *

The conceited young man was even more boring than usual.

"It's a fact," he said with pride, "that people often take me for a member of the Guards."

His pretty companion wasn't impressed.

"Really," she drawled. "Ship—railway—mud—or black?"

* * * *

"My father has influenza all the time."

"Doesn't he know that whisky is good for influenza?"

"Yes, that's why he has it all the time."

* * * *

A Welshman who was very proud of his bass voice was describing a wonderful dream he'd had.

"I was in a mighty choir," he said, "[illegible] 3,000 tenors — all singing together double forte."

"It must have been wonderful," said the listener. "But what about the basses?"

"That was it," said the dreamer. "Suddenly the conductor stopped the choir and, turning to me, said: 'Not quite so loud in the bass, please, Mr. Jones!'"

* * * *

The shepherd's daughter was going to marry a town-dweller. Wishing to make her father look smart at the ceremony, she got him to agree to wear a hat. The shepherd went into a store.

Clerk: "What size, please?"

Shepherd: "I don't know."

Clerk: "We'll try a six and a half first."

Shepherd: "Six and a half be hanged. I wear a 16 collar, and I know my head is bigger than my neck."

* * * *

Farmer: "Let me tell you, my friend, that horse knows as much as I do."

Friend: "Well, don't tell anybody else; you might want to sell him some day."

* * * *

The Kansas City Star got in trouble a short time ago through switching headlines. On the same day the highly respected wife of the Kansas City mayor passed away, and the city's oldest and ugliest [illegible] house burned. Unfortunately the heading over the passing of the good lady read "Another Eyesore Gone".

* * * *

"Johnson is so conceited."

"Yes, on his last birthday he sent a telegram of congratulations [illegible]."

* * * *

"There can do anything a bird can do nowadays," boasted the [illegible] young man.

"There's one thing they can't do like a bird," said his friend.

"Oh, and what's that?"

"Sing sweetly while sitting on a barbed-wire fence." 2130

Schoolboy Bowls 450 Score While Playing Hooky

TORONTO.—A Toronto schoolboy of 13 bowled himself into trouble recently. If he hadn't gone out and rolled 12 consecutive strikes for a perfect score of 450 in a five-pin game with a chum, his mother probably would never have known he played hooky from school.

His sin found him out when the manager of the bowling alley phoned the boy's home to get his age.

"That's how I found out he wasn't at school," said his mother.

The boy, William Mills, has an average of 225 in the suburban East York Men's League in which he bowls and his best previous string of strikes was seven or eight in a row.

Toronto bowling authorities said they believe he is the youngest bowler in Canada to get a perfect five-pin score.

Prince Rupert To Have Great Industry

The Vancouver Province says: Prince Rupert, which was described in the Legislature as a "neglected city", is to have a great industry.

The Provincial Government has persuaded the Celanese Corporation of America to establish a plant on Watson Island, eight miles from the city, and to spend $15,000,000 on buildings and equipment. Approximately 1,000 men will be employed in the woods and the mill.

An interesting feature of the bargain is the corporation's undertaking [illegible] to it in perpetuity.

British Policy Is Praised By Smuts

Jan Christian Smuts, Prime Minister of the Union of South Africa, commenting on British policy, said: "A profound change has come in recent years over British policy — a change still little understood in the world at large. Some people still speak of British imperialism as a baneful factor to be combatted. The fact is, it is no more. It departed this life more than a generation ago—such as it was its heydey was in the nineteenth century, especially in the great days of the Victorian era. In the Boer War, it probably played its last hand. In that war and the peace which followed the crust of imperialism was broken and the deeper forces of the real British spirit once more emerged to the surface. The story of that miracle of peace making is writ large in the history of the new South Africa, and has become part of the history of the world. The commonwealth of nations has arisen, and the new pattern is spreading through the whole British Empire; both at home and abroad wherever the British flag flies, there is a new spirit of liberation, a new outlook which inspires the whole vast group of mankind."

Ceres was the Roman goddess of agriculture.

NECESSARY TO FILL OUT FORM TO GET U.S. MONEY

OTTAWA.—The Foreign Exchange [illegible] ing any United States money from Canadian banks now had to fill out a form.

Previously a Canadian going to the U.S. on a visit could draw up to $100 in U.S. currency without any formalities. Any additional "reasonable amount" could be obtained by getting a permit from a bank.

The board said the new step had been taken because it had been found that some persons were going from bank to bank, drawing up to $100 from each so that their final total was well beyond the $100 limit.

SHIP DESIGNED TO MEET EMERGENCIES

The Cunard White Star liner Queen Elizabeth, actually a "ship within a ship", has two bottoms—an inner and outer—with an intervening space of nearly six feet divided into numerous watertight compartments. This construction was devised as precaution against just such mishaps as her recent grounding near Southampton.

Peanuts were known as far back as 900 B.C.

Sue Beautifies Drab Living Room Walls
ALABASTINE

Follow the example of a smart girl on a small budget—do your decorating with Alabastine. Just mix with water and brush it on over your old walls and ceilings. It dries quickly with no unpleasant odour. Will not rub off. Comes in ivory, cream, buff, light buff, pink, light blue, grey, light green, white.

ALLANDALE STUDENTS HEAR INTERESTING TALK

TOPIC: "SALT PLANT AT WATERWAYS"

On Friday, May 2nd the pupils of Allandale school had the privilege of hearing Mrs. G. Omness give an enlightening talk on the salt plant at Waterways.

Waterways is situated approximately 3-5 miles northeast of Edmonton. This town which supplies almost all of Alberta's salt is surrounded by rugged hills, tall, majestic pines and evergreens which add beauty and serenity to the Northland.

At one time the salt plant was situated at McMurray. However more suitable salt deposits were found at Waterways, therefore the plant was moved to its present site. Even though we speak of a salt plant at McMurray it is actually situated in Waterways.

Mrs. Omness stated that this plant is owned by Industrial Minerals Ltd., operates a three-tank salt plant throughout the year.

The [illegible] foot well consists of two separate pipes, a water and a brine pipe. Water is forced through the water pipe to the salt bed, then the water, now brine, is pumped out into large tanks. From these tanks the brine is forced into vats where it is heated [illegible] to evaporate [illegible] [illegible] This process [illegible] [illegible] altered, dried and [illegible] to huge bins. Now [illegible] which separates the [illegible] to fine and coarse grains. [illegible] are used as table salt while coarse salt grains have various uses. One of these is stock salt which is made in the following manner. It is weighed in 50 lb. portions and passed into a compartment called a mold. Then a total of 500 tons of [illegible] is applied thus compressing the fine dry salt in a block in [illegible]

[illegible] talk Mrs. Omness illustrated by blackboard drawing the different parts of the plant. Upon concluding her talk the children asked questions which she answered very pleasantly.

The pupils and teacher Miss Dick wish to thank Mrs. Omness for the talk thus making our Friday program very interesting.

Letters to the Editor

(This paper does not hold itself responsible for opinions expressed by correspondents.)

R. R. 3, Vermilion.

The Editor, Vermilion Standard.

Dear Sir:

Having waited in vain to see if any of your readers would accept Mr. Cornish's invitation to express some comments on his articles on the session just over, I hereby tender a few:

What Mr. Cornish told us was very interesting and very satisfactory I suppose to the rank and file of his supporters. However a little light on some other matters that he left severely alone would be very interesting to me and to some others of your readers.

Would Mr. Cornish tell us why Arthur Wray, Social Credit member for Banff-Cochrane was ejected from the Social Credit party?

I did hear that one of the reasons was that Mr. Wray was active and sympathetic to our farmer strike held last year. By the way I never heard your stand on the matter Mr. Cornish; you might enlighten us.

Do you subscribe to the report of the Social Credit Board as presented to the Legislature? What about the Union of Electors to do away with the secret ballot. Do you still believe in the just price as advocated by William Aberhart or do you believe that price controls should be done away with.

Yours sincerely,

Hardy West

ETHELWYN

The [illegible] tells us that spring is here [illegible] at the time of writing Mr [illegible] the only one on the land [illegible] In fact spring is so late that the people here [illegible] took time for [illegible] whist drive last Saturday evening. Several new players were in attendance. It was very nice to have Mr. and Mrs. Cliff Cunningham and Glen with us again and Donald MacGillivray. [illegible] tables of whist were played. Prizes were won by the following: Ladies 1. Frances Shrunko; 2. Mrs. Gainse. Consolation Doris Cunningham. Gents 1. Billie MacDonald; 2. Allan MacDonald; Consolation Henry Gainse. We now have [illegible] the playground [illegible] have [illegible] as well.

The people of the district have been very well entertained lately. A free picture show was held in our school Thursday of last week under the auspices of the Wheat Pool and presented by Mr. W. [illegible] Urquhart and Mr. Stewart of Vermilion. Both men gave short interesting talks on cooperatives in general and the Wheat Pool in particular. A variety [illegible]

FEW ACQUIRE ART OF LETTER WRITING

The craft of writing can be taught. Through practice and criticism young people of ordinary intelligence can acquire the technique of clear and orderly statements just as certainly as they can be taught to read and to multiply.

Training in writing will not make every boy and girl a literary artist or anything remotely resembling one, but it will produce competent craftsmen. Most college graduates, to judge from their letters, are not competent writers, not because they're deficient in intelligence but because their training has been neglected. They have had too little criticism of their writing and the standard of accomplishment in the courses they have taken has been set far too low.

GARDEN NOTES

◆ ◆ ◆

Warm Weather Planting

There are certain plants that will not thrive until weather and soil really turn warm and there is no danger of frost. These are things like gladiolus, dahlias and other soft, tender stemmed flowers, and corn, tomatoes, melons, squash, cucumbers, etc., among the vegetables. There is nothing to be gained by setting out or planting these until the weather is warm, also the soil. Frost will kill most of them or injure them so badly that they will take weeks to recover.

Where space is limited melons and squash, etc., can be grown along the row of corn or at the edge of the garden where they will trail over the fence, path or perhaps the plot of the next-door neighbour. For best results, however, cucumbers, squash and melons should be planted in specially prepared hills.

Hills are simply loose soil built up in mounds 2 or 3 feet across and about 6 inches high. Into these should be worked some well-rotted manure or black muck. This keeps the soil open so that the soft, fibrous roots can penetrate easily and the darkish color of the muck or well-rotted manure absorbs the heat of the sun which these plants love.

Plant about five seeds to a hill. Later thin to about three plants to each group. Keep weeds cleared away, watch out for bugs, and to encourage early fruiting nip off end of vines when half a dozen melons or a dozen or so squash or cucumbers are on the way.

Keep Tools Sharp

Good sharp tools will save a lot of hard work. A dull spade or hoe never do the work efficiently. A few of the special tools, too, will prove helpful—things like Dutch hoes, hand cultivators and long-handled spudders to get out weeds. Under the general heading of labor savers will be weed killers like the new 2-4-d and some of the DDT insect sprays or dusts. These do the job with little effort.

Tender Vegetables

The real secret of tender, crisp vegetables is quick, unchecked growth. Beets, carrots, beans, celery and similar things without stringiness or tough cores come from gardens where growth has been hurried along, unchecked by weeds or other neglect. By keeping the soil well cultivated quick growth can be developed almost regardless of dry weather. Thin those vegetables which need spacing for proper, even and speedy development. Harvest them when they are the right size for eating and before they start to harden and mature.

Health

LEAGUE of CANADA presents TOPICS of VITAL INTEREST

HEALTH NECESSITY IS PROPER SLEEP

Shakespeare must have had a good night's rest when he wrote: "Sleep that knits up the ravelled sleeve of care."

Doctors confirm the immortal bard's observation ... for sleep is vital to health. It restores energy, rests the muscles and eyes, and tones the blood vessels.

Some people seem to get along with as little as five or six hours' sleep a night ... but most of us feel better after a sleep of eight hours' duration. If you have a feeling of always being tired, it may not be due to lack of sleep. The family doctor should be consulted as something may be wrong with your health.

Try to relax first—then sleep will usually follow. You might like to try these rules.

1. Start taking it easy half an hour before retiring. (Play some game, plan an excursion for the weekend, write a letter to a friend. Take a hot drink—hot milk or cocoa, for example).
2. If you like to read in bed, choose non-fiction or a "hard" book. Something that will bore you to sleep.
3. Rest your mind by thinking of pleasant things—some happy incident during the day,—some enjoyable incident of your childhood—anything to make your mind calm and serene.
4. To quieten the body, get rid of heavy pressure. (Lighten weight of covers and clothes if they are oppressive.)
5. Take a tepid bath without a rub-down. As the body becomes warmed in bed it becomes more and more comfortable. If during the night one becomes sleepless, throw back the covers until body becomes slightly cooled. Then when the covers are pulled up again, the body once more sinks into coziness.
6. Relax the muscles completely.
7. Be sure your sleeping room is ventilated properly.

MAKING NEW HOMES

About 1,000 Soviet families are now settling in the new Soviet province of Kaliningrad (formerly Koenigsberg in East Prussia) and are establishing collective farms with state aid over an area of 140,000 acres. 2722

IN POSTAL SHIFT—A. M. Gibson, shown here, district director of postal services in charge of the Toronto area since 1934, has been appointed regional director for Ontario, the post-office department in Ottawa announces. He has been with the post-office for 41 years.

NEEDED FOR BOTH

The chief constable of a small town was also an expert veterinary surgeon. One night the telephone rang. The chief constable's wife answered.

"Is that Mr. Jenkins?" asked an agitated voice.

"Do you want my husband in his capacity as veterinary surgeon or as chief constable?"

"Both, madam," came the reply. "We can't get our new bulldog to open his mouth and there's a burglar in it."

WHY CLOTH WAS NAMED WORSTED

According to the Wall Street Journal spelling the difference between high or low production, the distinction between worsted and woollen cloth never has been so important. "Worsted" is the name given a hard-finish cloth by William the Conqueror in 1066 when he observed the Britons making it. He had just worsted the Britons, so whimsically he called the cloth "worsted".

Worsted cloth is made from longer length and combed woollen fibres, twisted into yarn, and then woven into a smooth, hard cloth such as serge. It is durable, keeps its shape well, and is especially popular for men's suits.

Woollen cloth, on the other hand, is made of shorter wool fibres—often of those fibres not suitable for worsted yarns. Woven into tweeds, shetlands and flannels, it has a soft, fleecy look. Woollens often make a nice appearance, but aren't as durable and don't retain their press as well as worsteds.

It took 13 years to build Brooklyn Bridge.

GIRLS ENTERING WOMANHOOD...
This fine medicine is very effective to relieve pain, nervous distress and weak, "dragged out" restless feelings, of "certain days"—when due to functional monthly disturbances. Worth trying!

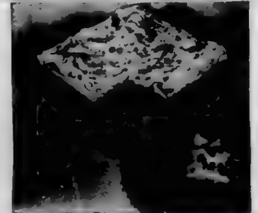
When your BACK ACHES...
Backache is often caused by lazy kidney action. When kidneys get out of order excess acids and poisons remain in the system. Then backache, headache, rheumatic pain, disturbed rest or that "tired out" feeling may soon follow. To help keep your kidneys working properly—use Dodd's Kidney Pills. Time-tested, popular, safe, non-habit-forming. Demand Dodd's Kidney Pills, in the blue box with the red band. Sold everywhere. 55



SO LITTLE TIME, SO LITTLE SUGAR — Company's coming, there's nothing for dessert and the bakery's closed or all sold out—there you have a perfect embarrassing moment! It needn't be one though, if you get busy whipping up this Ginger Flake Cake that takes only a half hour to bake. The ingredients are the staple kind that you're sure to have in stock.

Ginger Flake Cake

¼ cup shortening	1 cup sifted flour
¼ cup sugar	½ teaspoon soda
1 egg	½ teaspoon ginger
½ cup molasses	½ teaspoon cinnamon
2 cups corn flakes	½ teaspoon cloves

½ cup hot water

Blend shortening and sugar thoroughly. Add egg and molasses, beat well. Stir in corn flakes which have been crushed into fine crumbs and sifted dry ingredients. Add water and beat until smooth. Pour into greased baking pan and bake in moderate oven (350 deg. F.) 30 to 35 minutes. Yield 9 servings (8x8-inch pan).

Local News of Interest

St. Saviours' Anglican church and First United church will hold a joint service in St. Saviour's church on Thursday, May 15th at 3 p.m. when Miss Jessie Miller, from the Mission fields of Japan and India, will be the guest speaker. Following the service, tea will be served in the Rectory by the members of St. Saviour's W.A. Visitors will be very welcome.

Mr. Ralph Sunderland, formerly of Mannville, accompanied by his sister and brother-in-law, Mr. and Mrs. Cliff Hamilton, of Dewberry, visited at the home of Mr. and Mrs. R. S. Cooper on Saturday of last week. Mr. Sunderland expects to return to England shortly, where he was discharged from the army, to spend the next few years. England seems to have quite an attraction for him.

Mr. Bill Elgie who has been stationed at Whitehorse for the past several months, is spending a week visiting in Vermilion and surrounding districts, before continuing on to Winnipeg and Fort Churchill to continue his duties in the Permanent force of the R.C.A.F. Bill's wife and daughter Shirley will remain in Vancouver for the time being, where Shirley is attending school.

The W. I. will meet at the home of Mrs. W. Fisk on Wednesday May 14 at 3 p.m.

Mr. and Mrs. C. T. Hechbert spent from Sunday to Wednesday evening in Edmonton.

T. Watts, manager of the Northern Hardware here, was a business visitor to Edmonton for two days this week.

Mrs. George C. Webb and son Donnie returned home Monday after spending a week in Calgary visiting at the home of Mrs. Webb's mother.

Mrs. Elmer Zimmer of Lloydminster spent a few days in Vermilion last week visiting her sister Mrs. Iva Peterson.

Mrs. Jas. J. Part and two sons Jack and Terry have spent the past week visiting in Edmonton.

Mr. and Mrs. Fred C. Long and daughter June of Edmonton are visitors in town this week, arriving on Wednesday.

Mr. and Mrs. E. A. Fisher former residents of the Chatsworth district now residing at Phoenix, Arizona where they operate a grocery store and meat market are well and happy in their new surroundings and enjoy even the hot summer weather there not envying us our recent winter the least little bit. They send along the very best wishes to all of their old friends hereabouts.

IN MEMORIAM

In loving memory of our dear mother

Alice Davies

Islay, Alta., who passed away May 9, 1939,

and our dear father,

Harry Davies

—who passed away August 6, 1946.

There the flowers bloom forever,
Death can find no entrance there;
All is life and life eternal,
All is joy beyond compare.
Though our hearts may break with sorrow,
With the grief so hard to bear,
We shall meet them some bright morning
In the upper garden there.

—Ever remembered by their loving daughters Dorothy, Lucille, Florence and Marjorie.

A big heart enlarges your home.

Honored at Shower

In honor of Miss Lorne Chisholm a miscellaneous shower was held at the home of Mrs. Harold Reid on Wednesday afternoon April 30th. The bride-to-be was the recipient of many lovely gifts which were presented by Mrs. Dr. King. Mrs. K. Macdonald presided at the tea table. Out-of-town guests were Mrs. Chisholm of North Battleford and Mrs. Prescott of Saskatoon.

Miss Margaret Maxwell Reid Law, daughter of Mrs. A. Y. Law of Edmonton and formerly of Vermilion and Mr. Isaac Clifton Rush of Calgary were united in marriage at the Norwood United church, Edmonton, recently. The young couple will make their home at Balzac, Alberta. Among the out-of-town guests present was Mrs. Melvin Hill of Vermilion.

BORN — To Mr. and Mrs. Alex Marion, in the Vermilion Municipal hospital, on Monday May 5th, a baby boy, Alexander Ross. Mother and baby doing fine.

BORN—To Mr. and Mrs. Richard L. Nellis (nee Gwen Robinson) at Regina, Sask., on May 3rd, a daughter, Linda Adele.

Mr. Des Cooper returned to Calgary after spending ten days in town with his parents Mr. and Mrs. A. W. Cooper. Mrs. C. W. Holman and two children of Tolland and Mr. and Mrs. R. R. Cooper of Calgary were also present for the week end.

Mrs. Miller's group of the United Church W. A. will meet on May 13th at 8 p.m. in the church parlors.

Don't forget "Cotton Fair" on May 16th at the Elks hall under auspices of the United Church W.A. Tea will be served from 3 to 6 p.m. 52-1x

Pioneer Citizens Observe Fortieth Wedding Anniversary

Mr and Mrs. Harry Elliott, citizens of the Vermilion and Islay districts since the early year of 1906, observed the 40th anniversary of their wedding on Wednesday April 23rd when a gathering was held at the home of their daughter Mrs. T. A. Stack and Mr Stack. Those present were Mr and Mrs Perry Cross, Mr and Mrs Fred Madden, Mr and Mrs. Wm Urquhart, Mr and Mrs. Ken Urquhart Mr and Mrs Douglas Cooper

Recital by Marie Monaghan May 19

The visit of Miss Marie Monaghan, the brilliant young soprano singer, to Vermilion on Monday, May 19th, is evoking much interest in local musical circles, and the recital which she is presenting at First United church on that date promises to be an outstanding event. Possessing a voice of unusual range and exceptional tonal qualities, Miss Monaghan uses her gifts to full advantage, and those attending the recital on May 19th are assured that they will hear a highly artistic performance.

In support of the guest artist, the First United Church choir will render a number of vocal and instrumental items

Remember the date, May 19th, commencing at 8 15 p.m. Admission 25c

Former Vanesti Lady Dies in Edmonton

On May 3rd Mrs. Eliza Matilda Crawford of 6320 75 St. passed away at the age of 70 years. She leaves to mourn her loss one son Frank P Crawford of Edmonton one brother, John Purser of Islay, Alta., one sister Mrs H Elliott of Vermilion. Funeral services were held Tuesday, May 6 at 1.30 p.m. at Hainstock's Funeral Chapel The Rev. Canon W M Nainby officiated and interment was in the Mount Pleasant Cemetery

Mr. and Mrs. Harry Elliott, Mr and Mrs T Stack, Mr and Mrs. K. Urquhart and Mrs D. Cooper attended the funeral of Mrs Elliott's sister, Mrs. S. V. Crawford on Tuesday in Edmonton. Mrs. Crawford lived for many years in the Vanesti district and the family is well known here and in Islay

George J. Nestman spent Saturday and Sunday in Edmonton

Ken Peaker and His Orchestra at Mannville

A rare treat is promised the Mannville and district people Wednesday May 14th when Ken Peeker and his Hotel Bessborough orchestra will play for a dance at the Orange hall

Fire Burns Car: Is a Complete Loss

(Extract from Wildmere Wisbu)

Ray Osterburg had the misfortune to lose his car by fire last week. Mr. and Mrs. Osterburg returned late at night in the car, parked it beside the house and went to bed. In the morning all they found left was the flame-swept body and engine everything inflammable with the exception of the spare tire in the trunk had been burned. It's a big loss in these days of scarce and high priced cars. However Roy looks on the bright side of the disaster had he put the car in the shed as usual that night, he would have lost the shed, a new tractor and all of his seed grain so he is very thankful he left the car parked outside. It was a wonder that the house did not catch — the car was within a very few feet of it

Must be the High Cost of Chocolate Bars

Manager W. P. Pikle of the Columbia theatre had a brand new experience last Saturday when after paying her admission, a 13-year-old girl held out a jar of dill pickles and asked him to loosen the top. Taken off guard Bill complied and then collected his thoughts enough to ask her "What are you going to do with those," "Oh, I am going to eat them all while in the show," she replied.

Bill is used to the consumption of peanuts, candy, pop corn and fruits of all kinds in the theatre but this was his first experience with dill pickles.

Phyllis Lipsey Becomes Bride of Alex Fallow

Baskets of spring flowers decorated First United church, Vermilion, on Wednesday evening, May 14, for the wedding of Miss Phyllis Mary Lipsey daughter of Mr. and Mrs. Chester P. Lipsey, Vermilion, to Mr. Vincent Roderick Alex Fallow, son of the Honorable and Mrs. W. A. Fallow of Edmonton. The Rev. E. S. Reikie performed the ceremony.

Given in marriage by her father, the bride wore an ivory satin gown fashioned with sweetheart neckline long sleeves ending in lily points over the wrists and a full skirt which ended in a slight train. Her full length veil was held in place by a calot of seed pearls and she carried a bouquet of Calla Lilies. The bride's only jewelry was a pearl necklace.

Maid of Honor was Miss Dorothy Lipsey, sister of the bride, who wore a salmon pink sheer with inserts of lace at the neck and sleeves. She wore long lace mitts and carried a bouquet of blue iris.

Bridesmaid was Miss Leslie Lipsey who wore blue net over taffeta. She carried a bouquet of pink carnations.

Eric MacDonald acted as best man and the ushers were Douglas Brimacombe, Jim Fleming, Hugh McBride and Maurice Fallow.

Miss Jean Reid played the wedding music and Miss Evelyn Ritchie sang "Through the Years" during the signing of the register

After the ceremony a reception was held at the Masonic hall.

Mrs. Lipsey, mother of the bride, wore an ice blue crepe dress with fuchsia accessories and a corsage of cream roses. Mrs. Fallow, mother of the bridegroom, chose a two tone, grey dress with black accessories and a corsage of pink roses.

Centering the bride's table which was set with white linen was a three-tier wedding cake set amid white tulle. The cake was flanked by ivory tapers and vases of pink carnations

For a honeymoon in Banff and Great Falls, Montana, the bride changed for travelling to a grey gabardine suit with fuchsia accessories and a black topcoat. The young couple will reside in Edmonton.

Out-of-town guests included the Hon. and Mrs. W. A. Fallow, Mr. M. A. Fallow, Miss Venetia Fallow, Mr. and Mrs. W. L. Fallow, Mr. and Mrs. Smythe Fleming, Mr. and Mrs. G. A. MacDonald, Mr and Mrs Harry Kerr, [illegible] Clem Kerr, Miss Elva Pearson, Mr Maurice Curry, Mr and Mrs. S. Curry, Mr. and Mrs. A Tyldesly, Mr. and Mrs. A. Lamb, Mrs. Betty Sinclair, Miss Raye Montgomery, Mr. and Mrs. J. A. Montgomery, Mr. and Mrs. W.W. Shafer, Miss Jessie Scott, all of Edmonton. Mr. N. A. Fallow of Vancouver, Mr. and Mrs. Alex McDonald of Bon Accord.

G. S. Magee Appointed Manager of Treasury Branch at Ryley

Gordon McGee, accountant in the Treasury Branch here since his return from overseas in September 1946, has been appointed manager of the Treasury Branch at Ryley and leaves Wednesday next week for his new position

Gordon will leave a spot hard to fill in the town as he is an ardent supporter of golf, baseball and hockey, and is an active member on the executive of all the organizations handling these sports

Mrs. McGee and two children will remain here until July

Anne Martin Is Girls Marble Champ.

The winners of the Girls' Marble tournament, a new feature this year were as follows

Grade 1 — Marion Le Rossignol
Grade 2 — No entry
Grade 3 — Pat Swanson
Grade 4 — Helen Adam
Grade 5 — Shirley Pilon
Grade 6 — Anne Martin

In the intergrade play-offs Pat Swanson was the winner of the lower section and Anne Martin of the upper. Pat lost to Anne in the finals and so Anne Martin was crowned girls' marble champion for 1947

An interesting contest was the matching of the boys' champion, Ronald Smith against the girls' Champ. Ronnie again proved his superiority and won 2 out of 3 games from Anne

Board of Trade Delegation at Elk Point

That Mayor Morrison be authorized to proclaim Daylight Saving Time in Vermilion providing the Wednesday meeting approve same effective Saturday evening at 12 o'clock midnight May 1[illegible]

[illegible]

Canadian Legion Starts New Hall

Work was started on the addition to the Canadian Legion hall on Wednesday with the digging of the basement. Good progress was being made and it is hoped by all members of the Legion that it will not be long before the building is ready for occupancy.

The new building is to be 40 feet by 60 feet, of brick, tile and stucco construction. It will contain enough room for practically all Legion activities in the future, with a billiard room, meeting hall, kitchen and a banquet room, as well as various other smaller rooms

The Vermilion Branch of the Canadian Legion, which now has a membership of over [illegible] in dire need of this new space. The old hall although adequate at one time is now far too small for all the various activities of the Legion. The self-help program to raise funds for the building has been very successful in the last few months. More activities are planned for the future, watch the columns of the Standard of further announcements at a later date.

VERMILION FAIR JULY 24, 25 and 26

PLAN ADDITION TO GRANDSTAND —REFRESHMENT TENDERS ASKED

The Directors of Vermilion Fair met on Saturday last to complete plans for the holding of the annual summer exhibition and judging from reports of the various committees the organization work is well under way. Tenders are being called immediately for the construction of essential additional grandstand accommodation and the attention of all local contractors is directed to the advertisement of tenders in this issue of the Standard. Tenders for materials have been requested of all lumber operators in Vermilion

Tenders for refreshment concessions are also being asked in this issue and as the closing date for such tenders is May 21st it is hoped that all interested parties will co-operate [illegible] their tenders according [illegible]

Marie Monaghan To Sing Here on Monday, May 19th

An interesting and well varied program has been arranged for the vocal and instrumental recital to be held at the First United church on Monday evening next, May 19th

The guest artist, Miss Marie Monaghan, will be heard in three groups of songs — sacred, operatic and concert songs.

In support of Miss Monaghan, the Ladies' Chorus will present vocal selections by Brahms, Strauss, Bach-Gounod and Gluck

The instrumental numbers will include pianoforte quartettes (by four performers at two pianos) and selections on the Mimball electric organ.

Do not miss this evening of musical enjoyment. The program will commence at 8 15 p.m., and the admission price is 35 cents

Salvation Army Band Here May 24th, 25th

WILL ALSO PLAY AT MANNVILLE

An eighteen piece band of The Salvation Army will play in Vermilion May 24 and 25. There will be Youth for Christ rally in the Masonic hall on the Saturday night May 24th at 8 p.m. The band will play and Maj. Batten will be the speaker. On Sunday morning the meeting will be in the Salvation Army hall with the night meeting at 7:30 in the Masonic hall. At 9:15 p.m. Sunday evening evening May 25th there will be a band program in the theatre at which Mayor Morrison will be chairman. Sunday afternoon the band will visit Mannville and put on a program there in the Orange hall at 3 p.m. Keep this special week end in mind.

Mrs. Lottie Ethel Stone Passes Away

Mrs. Lottie Ethel Stone, eldest daughter of Mr. and Mrs. John Miller, passed away at the University Hospital in Edmonton on Tuesday May 13th at the age of 55 years. Funeral services will be held at the United church, Vermilion, on Friday May 16 at 2 o'clock in the afternoon. Interment will take place at the Vermilion cemetery

Mrs. Stone had been ill for some time. She leaves to mourn her loss her parents Mr and Mrs John Miller of Vermilion, two sisters Mrs. Ed McCann of Billings Montana, and Mrs. Fred Hildebrand, and three brothers Lester Miller in Edmonton, Delbert and Jim of Vermilion

Teachers Determined To Secure Pay Increases This Year

More than thirty teacher representatives from the Neutral Hills, Castor, Provost, Holden, Wainwright, Killam and Vermilion local organizations of the Alberta Teachers Association met at Hardisty on Saturday, May 3.

Under the chairmanship of Mr. L. Olsen of Tofield the teachers debated the problem of negotiating schedules of salary for the coming year, and went on record as favoring aggressive action to secure a drastic upward revision of schedules. It was felt that in the past inadequate salaries at the bare subsistence level had resulted in a serious shortage of teachers, and a lack of stability in the teaching profession. The teaching profession, because of its low economic rewards was unattractive to high school graduates and was regarded by the majority of young teachers as nothing better than a stepping stone to other professions. It was the opinion of the meeting that there was something very wrong with a system of education which had to suffer for lack of trained personnel during a period of financial prosperity such as the people of the Province had enjoyed for some years. Increases in the basic rate of pay for young teachers, much larger allowances for experience, and ample allowances for advanced training were cited as essential requirements to establish teaching on a truly professional basis.

Mr. A. O. Aalborg, member of the Provincial Executive of the Alberta Teachers' Association outlined the collective bargaining procedure as laid down in the Alberta Labour Act. He reminded the meeting that teachers and school boards were included under this legislation, and that teachers salary negotiating committees would be well advised to make full use of the privileges thus granted to them. He recommended that negotiating committees which were unable to reach a favorable agreement, make full use of the Alberta Labour Act and, if necessary, follow through to arbitration. Mr. Aalborg stated that statistics definitely indicated that during the period 1942-46 teachers of the province had received constantly dwindling percentage of the gross provincial income. Teachers, he maintained, had been much too modest in the past in their demands for a decent salary.

Teachers at the meeting voted to continue the work of a District Council including the seven local organizations present, and elected Mr. G. C. Welsh of Edgerton as President, Mr. M. R. Butterfield of Coronation as Vice-President and Mr. M. L. Bruse of Irma[illegible] as Secretary.

If you try to take too much in hand you'll put your foot in it.

Barley Entries Close June 15th

With decision of the Brewing and Malting Industries to continue last year's National Barley Contest for 1947, the Contest committee is preparing for a big increase in entries this year.

Entries will close June 15th. As was the case last year, intending contestants will mail their entries to the Chairman of their provincial committees. In Alberta, A. M. Wilson, Field Crops Commissioner, Dept. of Agriculture, Edmonton.

Subject to slight changes, rules and regulations of the Contest are the same as in 1946. Prizes are the same as in 1946. Printed copies are already available from elevator operators at all country points in the 3 western provinces, or from local agricultural representatives.

Notice to Creditors and Claimants

In the Estate of William Stuparyk, late of the Post Office of Borwick, in the Province of Alberta, Farmer, Deceased.

NOTICE is hereby given that all persons having claims upon the estate of the above named William Stuparyk who died on the 9th day of November, A.D. 1946, are required to file with Joseph M. Lazarenko, Esq., Barrister and Solicitor of Myrnam, Alberta, solicitor for the Administratrix, Mary Stuparyk, by the 23rd day of June, A.D. 1947, a full statement duly verified of their claims and of any securities held by them, and that after that date the Administratrix will distribute the assets of the deceased among the parties entitled thereto having regard only to the claims of which notice has been so filed or which have been brought to [illegible].

DATED this 9th day of May A.D. 1947, at the Village of Myrnam, in the Province of Alberta.

JOSEPH M. LAZARENKO, Esq.,
Barrister and Solicitor
Solicitor for the Administratrix.
Address—Myrnam, Alberta. 1-32

Wanted: A Sponsor

The current Greek Relief fund is without a sponsoring organization in the town and district of Vermilion, so that little or nothing is being done to help the destitute people of this gallant little nation, our wartime ally. This is an opportunity for one of the town's many organizations to further justify their existence by sponsoring the Greek Relief campaign here.

"GROW ANOTHER HOG FOR BRITAIN" —

The Alberta Livestock Co-operative is conducting a campaign to encourage Alberta farmers to produce an extra million hogs this year so that Canada will be able to complete its bacon contract with Great Britain. A campaign is being conducted under the slogan "Grow Another Hog for Britain".

Hugh Allen, president of the A.L.C. points out that the British bacon ration has been reduced to 2 ounces per person per week—4 small slices. He says the British bacon ration depends on Western Canada. He points out that farmers can make 25 per cent more by feeding grain to hogs than by selling it into commercial channels, and that after including all costs of hog production. Canada has contracted to supply Britain with 350 million pounds of bacon this year and 400 million pounds next year.

Avoid Farm Accidents

Field activities will soon be general on Alberta farms and farmers should be very careful to avoid accidents in handling their machinery.

Just recently a farmer in the St. Paul district was thrown from his tractor when he struck some ruts in the frozen road. One of the wheels grazed the side of his head and passed over the side of his body, resulting in multiple injuries to his head and face, two fractured ribs, and a punctured lung.

Do not forget that the tractor is the most deadly implement on the farm. Never take a chance while operating a tractor. —The Budget.

Plenty of Building

In spite of the high cost of building materials and shortages as well, there is plenty of building in evidence in Vermilion. The east end continues to grow at an amazing rate and right now work is going on at a dozen different houses.

Harry Marfleet and his crew of workers have certainly been applying a good many square yards of stucco since the season opened a week or two ago. The Standard has lost track of the numerous houses to which the first coat has been applied. In the business section the Ambler Bros. big implement warehouse and office building stands resplendent in its new stucco coat, resulting in the further brightening up of this corner of the town.

OUR COMPLETE SHORT STORY—

THE HOME RUN

By GROVER BRINKMAN

MARY'S eyes had been serious as he [illegible] to go into the clubhouse and he knew she was going to say something and he didn't want to listen, but he waited.

"I wish you would quit baseball and go into business with Father," she said and twisted her gloves in her long fingers.

"We've talked about this before, darling. Hundreds of times, I thought it was a closed subject."

"I'm reopening it, Matt. I've worried night after night."

"We'll talk about it after the game," he said wearily and the old anger grew large in his chest. Why this again!

"All right, Matt." She kissed him lightly and the sweet taste of lipstick was on his as he watched her trim figure fade into the crowd, her shoulders straight and defiant.

That was the trouble—she was so stubborn. He threw his shoe against the locker door and Joe Crowder, the first baseman, stared, but didn't say anything. Matt jerked his tie off savagely and glowered at the wall.

They had married less than a year and it had been the same story since spring training. He had met Mary at the USO in Frisco, and she waited until he returned from the Pacific. Sure he had been lucky to get her. Or was it lucky to marry a girl with a cool million?

The cheers of the crowd that greeted the Red Legs when they poured out of the clubhouse was music to his ears. Here were his people—the fans. Rich and poor, they had one consuming interest and he shared that interest. Baseball was king in this square of grass circled by stands and myriads of faces. Mary would be in the box by first base and he glanced upward from his position at second and she waved. Matt smiled and then concentrated on batting practice.

He fielded a hot one and his rocket arm sent the ball into Joe Crowder's gaping glove at first. A fan yelled above the rumble of noise "Atta boy, Matt, boy," and Matt felt better. He was a star and had been a star before the war. Now in mid-season he had regained his form and his bat was still a fearsome weapon. Life was rosy, but yet it wasn't. Mary wanted him to give up the game and become a vice-president in her father's bank, one of the largest on the Coast.

The game rocked along as a pitcher's duel and Rankin, the manager kept calling for runs, but the Greenie [illegible] was at top form. Matt worked a fast double play in the top of the eighth to nip a Greenie rally and the stands went wild. He glanced up to the box and his heart was heavy—Mary was sitting and there was no elation. Instead, she was looking at the wildly cheering fans as if they were insane.

The Red Legs needed this win to move into first place, but the outlook was dim when the first two batters swung three times and then came back to the dugout with black anger twisting their faces. Matt chose his bat and took his place at the plate.

Mary was still on his mind and he watched the first ball slant in and faintly heard the umpire call a strike. She had been happy at first, but now all she talked of was quitting baseball. As if the game wasn't all right. Baseball was his passion, the element that sent his blood rushing in pulsing surges whenever he heard the crack of a bat or the thud of a ball in a glove. But she thought it degrading!

The next pitch was a strike and Matt gave the bill of his cap a jerk and leaned closer. Slow burning anger boiled up then and he was eager for the next throw. He wanted to hit it with everything he had, wanted to hurt the ball because he was hurt. It came and he swung.

The solid crack of the bat told the fans and they rose as one to cheer. Matt looked over his shoulder after touching second and grinned. A home run and the ball game. The hysteri[illegible] He noticed the two girls sitting next to Mary, on their feet and cheering.

Mary was waiting for him at the door to the clubhouse and he wanted to hear her say it was a good hit, but her face was clouded in thought. She took his arm and they walked to the gate. A mass of humanity met Matt, and he had to halt. He autographed the ball and then books, tickets, and anything else they shoved into his [illegible].

Finally he got through the mob and Mary was breathing heavy as she straightened her hat. "I was afraid for a moment they were going to trample us." Her eyes opened with horror when a horde of young boys [illegible].

"That's Matt Johnson, all right. Boy did you see that hit."

"Hi, Matt. Gee that was swell playing today."

Matt grinned and said, "Thanks".

A tousle-haired boy standing on Mary's side turned a freckled nose to the boy standing beside him. "Boy!" he murmured in awe, "Matt Johnson. That's what I want to be, Abe. I want to be a ball player like Matt."

"Me too," the boy named Abe piped and grinned at Mary. "Hi Mrs. Johnson—you are Mrs. J[illegible]"

"Yes," Mary said softly, "I'm Mrs. Johnson."

They ate dinner at the Triumph Grill and conversation was sparse. Matt stared fixedly at his steak and [illegible] there was a solution. He wasn't happy, not with Mary feeling this way. It looked like a choice—Mary or baseball. He knew it would be Mary, but he loved baseball. The bank would drive him crazy. If only [illegible] stand!

As he paid the check he heard a man at a nearby table saying to a woman in a turban, "That's Matt Johnson, one of the greatest second basemen in the game. That guy is a credit to the game and to the country. Really a clean sportsman and [illegible]."

He took Mary's arm and they departed. He didn't want to hear more. In the car he made up his mind. It would be better to break with the game now than later. In another month he knew he wouldn't be able to do it. He knew it because he knew [illegible].

"Mary . . . about baseball . . ."

She put her finger over his lips and kissed his cheek. "I've been a fool, darling. A selfish fool. I realized it when you hit the home run and when the fans wanted your autograph. And the way they cheered. Those boys by the car, what they said and the man in the grill. You can't leave baseball, Matt. You are [illegible]."

THERE'S 380 POUNDS OF HIM—Biggest man arrested at Springfield, Ill., in many a day was George Siller, (left), who tips scales at 380 pounds. He was released after questioning on bribery count.

GIANT PINE CUT — This giant red pine is a rarity in the Eastern Townships of Quebec, where it was cut. Having reached this great size in a swamp where it attracted no attention, the tree is shown here finally being sawn up by Mr. O. M. George, of South Stukely, and his daughter Joyce. The diameter of the tree was 4 ft. 6 in. and the branches produced three cords of sugar wood.

GARDEN NOTES

◆ ◆ ◆

Be Prepared

Experts advise being on a close look-out for damage by insects or diseases. If one is not watchful much of the garden will be wiped out before [illegible]. It is a good plan to have poisons on hand either for dusting or spraying. The best protection of all of course, is a healthy garden one planted from good seed and well cultivated and growing. Weeds not only are an eye-sore but they harbor insects and diseases. For most bugs a good commercial spray or dust easily applied with a cheap [illegible] outfit or shaken on from a porous bag will soon bring things under control. The important thing, agree those who know, is to get the counter measures started at the first sign of trouble.

Not Too Late To Start

It is never too late, at least until late June in most parts of Canada to start a garden. With favorable weather or the use of a hose there is plenty of growth still ahead. Using well-started plants set out now there should be plenty of bloom with flowers and of course vegetable planting should still be going on. In some areas indeed it is hardly too soon to set out such things as petunias, zinnias, sweet-scented stocks, cosmos and other annual flowers which have been started in a greenhouse, cold frame or window box. Among the vegetables in this same category will be cabbage, tomatoes, head lettuce, peppers, etc. In seeds it is not a bit too early for the main crop of lettuce and there is still time for beets, beans, carrots, beets, melons, cucumbers, squash, etc.

Growth will be hurried along with a little extra water during dry weather with fertilizer applied carefully and above all with vigorous cultivation to keep down weeds and pulverize the soil.

Short Cuts

The experienced gardener knows many short cuts to hurry growth along. In dry weather he will soak at all possible soak the garden and lawns once a week. Where [illegible] the tomatoes and [illegible] close to the house or [illegible] so that they can be watered with the [illegible]. He also knows that weeds are moisture robbers and these he will keep removed so that the vegetables wanted get all the moisture that nature provides. A week's cultivation equals a shower because it tends to conserve moisture and a small dose of commercial fertilizer is equivalent to another.

FARM ELECTRICITY

Only [illegible] per cent of Canadian farms is served with electricity. The percentage varies from a high of 35 per cent in Ontario to a low of 0.21 per cent in Saskatchewan. Ontario [illegible] per cent of the power used on Canadian farms. These figures, states the Agricultural Institute Review, indicate that there is great scope for further development and application of electric power to Canadian farms.

Brazil's monetary unit is the cruzeiro. 2794

SELECTED

RECIPES

BUTTERMILK BISCUITS

Use buttermilk or sour milk instead of sweet milk in making Baking Powder Biscuits. It takes a little more because buttermilk is thicker. And add soda to the flour, baking powder, and salt.

For large recipe, add ½ teaspoon soda, use 1¼ to 1½ cups buttermilk.

For half recipe, add ¼ teaspoon soda, use ⅝ to ¾ cup buttermilk.

FLUFFY MOCHA FROSTING

Sift together 4 cups sifted confectioners' sugar, 3½ tablespoons Baker's Breakfast Cocoa and ⅛ teaspoon salt.

Cream ⅓ cup butter. Add part of sugar mixture gradually, blending well.

Add remaining sugar mixture alternately with ⅓ cup strong coffee [illegible] to spread. Add 1 teaspoon vanilla.

Makes enough to cover tops and sides of two 9-inch layers or top and [illegible].

Mounties To Revive Famous Musical Ride

REGINA.—The 43-coal-black steeds gambolling on the prairie near the historic Royal Canadian Mounted Police barracks at Regina herald revival of the Mounties' famed musical ride.

Since 1939 the spotless trappings of the precision, group-riding performers who have thrilled audiences in New York and San Francisco as well as many Canadian centres, have hung idle in the saddlery room of the 64-year-old barracks.

But with recent bolstering of the war-depleted R.C.M.P. ranks close to the authorized 3,344, horsemanship is expected to become again an important part of training for the force.

Equitation is not yet a feature of the tough six-months' course being taken at the largest police training establishment in Canada by some 170 rookies, the majority veterans in their early 20's.

The recent arrival of the horses—all black and at least 15 hands two inches—from the R.C.M.P. remount depot in the southwestern ranchlands of Saskatchewan brings the forecast from oldtimers, however, that mettle of recruits will again be tested at the gallop.

The fledgling's curriculum, which includes one hour of intensive physical training every day, stresses criminal and federal law and court procedure. They learn to fight crime with typewriter and microscope as well as to control nature in the form of fire and crowds.

With the possibility that he might be called on to repair any form of vehicle from a motor toboggan to an aircraft the recruit receives a grounding in motor maintenance.

The rigid physical tests required before initial engagement are followed by written examinations at the middle and end of the course, which has attracted men from all parts of Canada.

At the end of a successful training period, the recruits receive their traditional red coats and riding outfits and may be posted to all parts of Canada, including Arctic posts or office duties at Ottawa.

British Oversize Automobile Rejected

LONDON. — British automobile manufacturers and the motor industry advisory council have rejected as impractical a proposal to produce a car larger than standard British makes suitable for export abroad, Supply Minister John Wilmot said.

Answering a question in the House of Commons, Wilmot said the suggestion had been carefully examined but introduction of this new type would cause too much dislocation in present circumstances.

PRESIDENT OF A.I.C. — J. F. Booth, Ph.D., of Ottawa, Associate Director, Marketing Service, Dominion Department of Agriculture, who has been elected president of the Agricultural Institute of Canada. Dr. Booth was brought up on farms in Manitoba and Saskatchewan, and graduated from the University of Saskatchewan in 1919. After serving as Agricultural Representative in Saskatchewan for a period he was appointed in 1921 Commissioner of the Co-operation and Markets Branch for that province. A few years later he took post graduate work at Cornell University, N.Y., and subsequently became senior economist in the Bureau of Agricultural Economics, United States Department of Agriculture.

In 1929 he was appointed head of the Economics Division, Dominion Department of Agriculture and since then has been a constructive worker in behalf of Canadian agriculture.

ONE OLD TIMER NO LONGER SEEN

Things, once familiar, slip from sight and people forget all about them. Apparently old-fashioned clay pipes are no longer sold in this fair city.

We tried about six stores says Thomas Richard Henry, in Toronto Telegram, and gathered in a variety of explanations. One was that they were made in Japan and none had been received since the war. Another was that they used to be made in Scotland, but there was no market for them any more.

It is a good thing some of the old-timers up country have passed to their reward.

An old clay pipe with the stem half missing was a familiar sight. They got so hot that you needed asbestos lining on your lips to enjoy a smoke — but they were fine things to keep the end of your nose warm in the winter time.

Functions of the Board of Trade Outlined

New President of The Board of Trade

George Maxwell, newly elected president who has started the Board of Trade away on a very active year. Attendances at regular Wednesday noon luncheon meetings are well on the way to establish a new high record.

ABSORBING ADDRESS BY MR. CHARLES PIKE

[illegible] an absorbing address on the subject "Boards of Trade, Their Opportunities and Obligations", given by Charles Pike of Edmonton, who has dominion-wide standing as an authority on the formation and functions of Boards of Trade and Junior Chambers of Commerce. While living in Montreal Mr Pike was a member of both the English and French branches of the Jr. Chamber of Commerce and served on their executive council for two years. In Winnipeg he was director of the Board of Trade Victory Parade and in 1946 he served as director of public relations for the Junior Chamber of Commerce for Canada. At present he lives in Edmonton and is quite active with the Junior Chamber of Commerce there.

Mr Pike touched on the history of Boards of Trade in Canada relating that the first one was formed in Halifax in the year 1750 when merchants of that city, realizing that if progress was to be made some organization must be formed for guidance. It was boards of trade that [illegible] the building of railroads, bridges and generally steered the economic development of our country. Dealing with present day work of the organizations he stated that the work of the board in a town such as ours could be divided under four heads — 1, Industrial; 2, Retail; 3, Agricultural, 4, Civic. Mr. Pike dealt quite extensively with the work covered under each division.

The speaker closed his address with the thought that with everyone's help boards of trade and the community will grow and prosper as a result.

As the address set forth the aims and objects, the work and history of Boards of Trade in an incomparable manner Mr Pike who spoke verbatim, agreed to supply the Board with a complete script and this is now on the board of trade files.

Mr J. R. Robson was in the chair and there were 32 members present. Among the guests was [illegible] who has recently purchased the Kaiser Wholesale business here. Mr Sutherland comes from Ponoka and was introduced by Mr Kaiser.

Amateur Night At Elk Point

To a packed house of nearly 200 patrons, the Elk Point Little Theatre presented their first Amateur Night last week. A total of 25 entries were received in the different classes. The audience applauded the high quality of entertainment provided. Winners in the various classes were as follows: Group Instrumental Selections—1st, orchestral selections by the Elk Point Young People's Club orchestra, [illegible] Piano Duet by Misses Anne Mc-[illegible] Singing—1st, Mrs Gertrude Kock who sang Let Me Call You Sweetheart. Recitations 1st, Miss Matine Miller of King George school who recited "Columbus". Instrumental Solos — Vern Rahum of Elk Point who played Chopin's Polonaise. Comedy Acts and Plays—A comedy skit, [illegible] Client, presented by the Sea Gull Patrol of the Elk Point Boy Scout troop tied with a play entitled, Wanted—a Housekeeper presented by King George school for first place. 2nd. was won by Messrs Allan Convey and Edward Barbasuk with a comedy act entitled Crazy Comedians. Group Singing—1st, a trio consisting of Misses Virginia Arnold, Evelyn Bartling and Joyce Milholland with their rendition in English and in Spanish of You Belong to My Heart. They were accompanied on the guitar by Miss Jeanne Seraba.

The judges were Mrs. A D Pringle, Mr A J Bartling, Mrs. A Howe, Mrs. L Edwards, Mr E. A. Dallis and Mr Robert Lambright. Mr. J. V Jacobson and Mr A J Bartling were the announcers. Mr Nick Wysocki acted as scenery and stage manager. The program committee consisted of J. V. Jacobson, President, Robert Lambright, A. J. Bartling, Mrs J. V Jacobson, Evelyn Bartling, Gertrude Kock and Vern Rahum.

Former Vermilion Man in Big Business Deal

BUYS WETASKIWIN HOTEL

WETASKIWIN — One of the largest business deals to take place here in many years was completed recently with the sale of the Wales hotel to E. Kneller of Edmonton for an undisclosed sum.

Mr Kneller, born in the U.S., has had a wide experience in the hotel business and lately sold a hotel in Vermilion. He is the owner of a coffee shop in Edmonton. Mr Kneller has [illegible] at a later date [illegible] great confidence in Wetaskiwin and district.

The present staff will stay on with [illegible] as assistant manager. Mr and Mrs Kneller have taken up residence here with their family attending school. [illegible] The Wales Hotel [illegible] converted to a hospital. When the new community hospital was built in 1938 the present structure was completely remodelled to a [illegible]

—Edmonton Journal

Lloydminster Bull Sale on May 27th

One hundred and twenty-six animals will be offered at the 28th Annual Lloydminster Bull Sale May 27th. They are listed 112 bulls, 57 Shorthorns, 1 Aberdeen Angus and 54 Herefords, and 14 females; 10 Herefords and 4 Shorthorns. Prospective buyers are assured of an opportunity to secure well bred sires of proven blood lines. This sale is unique in that it is an inter-provincial event. Entries received cover a territory west to Clover Bar, Alberta, east to Kelvington, Sask., and south to Hayter, Alberta.

The contributors with the largest number of entries are, E. Plaxton, Wainwright (8 Herefords), A. A. Mitchell Lloydminster (8 Herefords), H. Gock, Kelvington, and J. B. Cross Vermilion, each have 6 entries. B. H Byers, Clover Bar, has 4 Shorthorns and the lone Aberdeen Angus entry is from T. Townley-Smith, Lashburn.

J. W. Durno, Calgary and Dan E Bell, Edmonton, are the auctioneers. The Hon. I. C. Nollet, Minister of Agriculture, Province of Saskatchewan will officially open the sale.

The event is sponsored by Lloydminster Exhibition Association. For catalogue apply to George K. Ross, Secretary Manager, Box 47, Lloydminster, Sask.

A District Calf Club show and sale on May 28th is also sponsored by the Exhibition Association, 11 Clubs from both sides of the border participating. Over 200 fat calves will be sold by auction on May 28th.

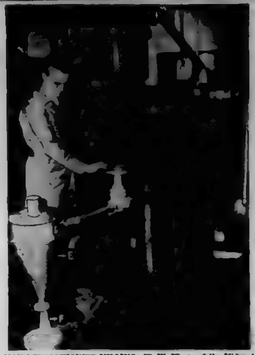
Germolene OINTMENT



MAY REVOLUTIONIZE MILLING—W. W. Niven, of the Midwest Research Institute, Kansas City, Mo., is operating an experimental plant which mills wheat without rollers and by use of compressed air. Institute heads say that this method may revolutionize the milling industry. Grain in cylinder A is fed by drive B into chamber at C with a stream of compressed air from D. Air fills individual cells within grain, which shoots through nozzle within pipe at C and explodes. Shattered grain streams past valve under Niven's hand and into conical separator E, where it is removed from air stream, then emerges at F. Institute heads say it is possible to completely separate all component parts of grain, germ, husk, bran and flour, by the process.

MILITARY POLICE STILL ON THE LOOKOUT FOR ARMY DESERTERS

OTTAWA.—Military police in Canada and allied military police all over Europe are still on the look-out for 567 Canadian deserters nearly two years after the end of the war with Germany.

Many of them have been "on the loose" since the early days of the arrival in the United Kingdom of Canada's overseas army, although the bulk are missing in Canada. A few are still at large in Europe and are believed to be in countries where Canadians served during the war.

Servicemen classed officially as "deserters" are listed separately from approximately 14,000 men who were conscripted into the services and then deserted before being sent overseas. They are listed on official army records simply as "deemed not to have served."

The difference in classification is that in the case of soldiers, sailors and airmen listed as deserters, certain rehabilitation benefits are still available. In the case of the men now "deemed not to have served", no discharge credits have been or will be available. In other words, the NRMA men who deserted before being shipped overseas were never officially part of the armed forces, and their names have been wiped from the slate of those who did serve.

Army personnel lead the parade of servicemen listed as deserters with 465 unaccounted for. The biggest proportion, 325 soldiers, are listed as having deserted in Canada, with the remainder, 140, listed as missing in Europe.

Seventy-five members of the navy are missing and listed as deserters in Canada with only five having disappeared overseas. In the case of the air force, there are 20 members missing in this country and only two still listed in Europe.

There is no question of an amnesty being granted the missing men. When, or if they are found, they will have to stand trial in the usual manner, and accept their punishment which invariably will run to long-term jail sentences. In the case of soldiers, sailors and airmen apprehended overseas, they would be returned to Canada for trial and imprisonment.

BRIEF CRITICISM OF HITLER VERY TRUE

The criticism of Hitler by Dr. Hugo Eckener, famous German designer, builder and flier of airships, is a gem of brevity. The elderly scientist remarked:

"When Hitler came to power he was 90 per cent. fool and 10 per cent criminal, but when he ended he was 90 per cent. criminal and 10 per cent. fool."

That describes a man who tried to set up one people as a master race and who set out to destroy all the rest.

A cord of wood contains 128 cubic [illegible].

Health League of Canada presents Topics of Vital Interest

REVEALS MOST MILK SUPPLIES UNPASTEURIZED

In view of the scientific fact that pasteurization makes milk fit for human consumption, it is an appalling revelation that of 366 municipalities reporting in a recent survey in the eight provinces outside Ontario, only 15 per cent were revealed to have compulsory pasteurization by-laws. Ontario was not included because it is the only province in the Dominion which has a province-wide law in force.

Saskatchewan headed the individual provinces in the matter of cities and towns reporting safe milk by-laws, 20 per cent. being in this category. Quebec was next with 15 per cent. reporting compulsory pasteurization by-laws.

Of the 366 reporting municipalities, 90, or approximately 25 per cent., reported their entire supply was unpasteurized. [illegible] while they had no compulsory by-law their supply was 100 per cent. pasteurized.

Forty-one municipalities, including 15 in Quebec and eight in Alberta, revealed that 90 per cent. or more of their milk supply was pasteurized.

From the results of the survey, it would appear that many thousands of Canadians are drinking raw milk despite the fact that raw milk can be dangerous — despite the fact that milk-borne diseases have caused much needless, killing and crippling illness.

Pasteurized milk is the only safe milk.

Canada Sharing In Loran Costs

MONTREAL. — Canada and three other countries signed an agreement to contribute to the international financing of the Loran (long range navigation aid) station at VIK, Iceland, an important link in the chain of stations designed to ensure navigational safety for trans-Atlantic flights over the northern route.

The United States already is a party to the arrangement with Iceland, which also was entered into by the United Kingdom, France and The Net[illegible]. Operation of the VIK station had been financed in the past by the United States and latterly by the Royal Air Force until a short time ago.

Under the agreement, Canada will bear nine per cent. of the approximately $6,000 monthly cost of operating the VIK station, with Iceland contributing five per cent. and the remainder allocated among the other signatories in agreed proportion based roughly on the use they make of the facilities.

PLENTY OF WORK

The Ottawa Journal tells us the net income of Canadian farmers reached last year a record figure for all time—$1,267,000,000. A very great deal of hard work went into that substantial achievement.

Prominent Vermilion Pioneer Featured in Daily Paper

BULLETIN CARRIES STORY OF JOE McKONE ON 75th BIRTHDAY

The following story appeared in the issue of the Edmonton Bulletin of Friday April 25th carrying well deserved tribute to Vermilion's Joe McKone. People of the town and district take delight in recounting the manner and speed in which Joe accomplished his community aims, having no patience with red tape or conventions which hindered the accomplishments of worthwhile objects he organized his campaign, his workmen and usually started work on the project all in the same day — to really appreciate him you had to see him in action. Where there was work to be done, Joe could always be found in the forefront and the tools and machines in use could always be traced back to the McKone garage and implement business. He was a great boy for Vermilion and his scores of old friends here join with the Standard in extending sincere felicitations on his 75th birthday with the wish that he enjoy many more happy anniversaries.

The story that appeared in the Edmonton Bulletin follows:

"Everything was just beginning to grow like mushrooms, when I first arrived in Vermilion in 1906," Joseph McKone 11512 87 street, old-time resident of Alberta, recalled today.

Mr. McKone is 75-years-old, and was born at Kelly's Crossing, Ont. in 1872. He came west with his family in 1882, and settled on a farm 7 miles west of Neepawa, Man. About that time he and his brother Sam invented a double disc drill, which received widespread recognition.

In 1898 he was married to Elizabeth Mary Ann Stinson of Neepawa and they will celebrate their golden wedding anniversary Feb. 21, 1948.

Mr. McKone came to Edmonton in the fall of 1905, and having had his fill of farming, decided to go into business in Vermilion. First he opened a pool hall, but soon sold it, and went into the farm implement business. He was the International Harvester agent for 2? years and on his retirement in 1932 he was said to have been the oldest agent in the west.

The population of Vermilion in 1906 was only about 50; now it is close to 1,600, he said.

He has been an active public welfare organizer taking a prominent part in the building of the first Vermilion curling and skating rinks, veterans club rooms, and the community heating system.

Whenever there was any building to be constructed the people of Vermilion gave their full support, he said.

In 1906 he was elected the first fire chief of the town, a position which he retained until 1911. During the five-year period as fire chief he said that only one fire got out of hand — this was a barn next to the RCMP barracks. But the barrack room was saved.

He is a lover of all types of sports and in his younger days in Ontario and Manitoba took an active part in baseball, lacrosse and hunting. After coming west curling and hunting were his chief recreations.

His main reason for urging recreational facilities in Vermilion was to care for the young people, and to help keep them off the streets.

A past master of the Vermilion Lodge, and a member of the Royal Arch, he is active in both. "I have no political views. I vote for the man" he said.

Mr. and Mrs. McKone have two sons, Bert of Nanaimo, B.C., and Percy of Edmonton, and one daughter Isobel of Seattle. Another daughter, Hazel died in Los Angeles in 1936.

Mr. McKone is in sound health, and attributes this to plenty of sleep, and an active life. "I used to smoke from 30 to 40 cigarettes a day, but I was told to cut down, so I quit altogether six years ago," he said.

He has just patented another invention, and expects to have it on the market sometime this summer.

Board of Trade Ask Bridge at Elk Point

CONFERENCE LAST WEDNESDAY NEW FEATURE THIS YEAR

ELK POINT — At a meeting held here on May 7 with 100 representatives from Vermilion, Clandonald and Elk Point boards of trade, immediate construction of the continuation of highway 41 from Vermilion to Elk Point and thence north to Cold Lake and the building of a bridge across the Saskatchewan river at Elk Point was urged.

It was decided to send a delegation to W. A. Fallow, minister of public works, to urge such construction and to present a mass brief from these three and other boards of trade. J.W. Beaudry and W. R. Cornish, M.L.A.'s who were present promised their full support and agreed that chances were now favorable for completion of these projects.

A draft of the brief to be presented, urged completion from the tourist standpoint, to connect with Cold Lake and other fishing lakes in the north area and to link with proposed evergreen transcontinental highway.

D. C. Nelson, past president of Elk Point chamber of commerce, reviewed efforts of his group in past 5 years to get this project completed. C. S. Robinson, Anglo-Canadian oil representative assured the group of his company's support and that a salt plant in this area would be constructed this year and this would be needed as south outlet for the product.

Committee drafting the brief consisted of J. V. Jacobson, Elk Point, J. Lawrence, Clandonald, K. Urquhart, Vermilion, W. Cornish, C. S. Robinson, Anglo Canadian.

Representatives from the Vermilion Board of Trade at the conference were K. G. Urquhart, chairman of the Roads committee, Geo. Webb, J. R. Hinde, N. N. Bentley, Melvin Hill, Gerald F. Stephens, R. R. Mitchell.

DEWBERRY

Not much this time folks. We have a story about a duck who politely, without a permit or priority, has built her nest in Mr. Herb Hemmingway's chaff shack. Maybe she is a returned quack and thinks it's O.K. anyway.

Talking about nests and eggs we know of a certain [illegible] lady who has a hen that has laid a triple yolked egg followed by two double yolked ones. If the hen kept this up very long it would be a record.

Mr. Ernest Keast of Vancouver is visiting his sons in the Dewberry district.

Dewberry evened the score with Heinsburg in a baseball game there on Sunday. Behind the 3-hit pitching of Fred Braithwaite Dewberry took the northerners to camp by a score of 6-2.

We notice Mr. George Fleming driving a new Jeep bought from Alf Rodman, our local agent.

Mrs. Albert Dennill is a patient in the Islay hospital. A speedy recovery is wished her.

Mr. H. Gold, local merchant, has purchased a new Kaiser car from our local agent Vic Dennill.

A very large congregation attended the Mother Day service in the Dewberry church last Sunday.

[illegible]

GROW MORE BARLEY
FARMERS! There is a FLOOR PRICE ON BARLEY OF 90 CENTS, basis No. 1 Feed, delivered FORT WILLIAM — PORT ARTHUR or VANCOUVER for all barley sold between August 1, 1947 and July 31, 1948. The price may be higher but it cannot go lower.
Canada is short of barley as feed for live stock. More barley is necessary for the maintenance of Canadian live stock and the production of urgently needed live stock products. Farmers can grow barley this year with the assurance that all barley sold until July 31, 1948 will bring not less than 90 cents a bushel basis No. 1 Feed, at Fort William, Port Arthur or Vancouver.

THE CORRECT MEASURE OF A MAN IS THE SIZE OF THE TROUBLE THAT GETS HIM DOWN
The Ounce of Prevention
● The ounce of prevention that's worth a pound of cure in the operation of a motor car is frequent inspection and advice by an expert mechanic.
● Your motor will sound all right to you, and it may perform well enough, but some of the most serious mechanical troubles are hard to detect. Frequent inspection by us will add life to your car and much pleasure to your use of it. Drive in any time.

Building Costs Too High

Construction costs, very nearly doubled in seven years, are too high for continued full employment in the industry, and constitute a serious threat to stability of Canadian economy. This is the warning sounded by the Canadian Construction Association, states The Financial Post.

It's NEW!
It's Different!
It's Something
FOR THE
FAMILY!

Dragnet Extended For E. B. Bottles

Posses Organize for Search in Alberta Rural Centres.

The dragnet for E. B. Bottles, alias "Empties", widened today as search extends to Alberta's many towns and villages.

E. B. Bottles, commonly known as Empty Beer Bottles, became the subject of this intensive hunt following disappearance from essential duty in the bottling and brewing industry. Citizens are co-operating in an all-out effort to see that this culprit is brought to justice and returned to work so that the demand for Brewery products can be met.

It is believed that Empties may be lying low in basements, closets, attics, garages or other places about the home and for this reason, the co-operation of housewives in aiding the search is particularly requested.

CASH REWARD OFFERED

Housewives in cities, towns and villages are urged to search their premises throughout. In the event of apprehension, Deliveries Limited should be notified at once. They have arranged to take "Empties" into custody, pay 20 cents per dozen cash reward on the spot and provide escort to the nearest bottle depot.

Rural citizens who may come across Empties can have him escorted, freight collect to the nearest Deliveries Limited depot and cash reward will be mailed immediately he is in custody. Depots are located at Camrose, Banff, Calgary, Edmonton, [illegible] Medicine Hat, Drumheller and Lethbridge. McLennan is nearest depot for Peace River District.

Oil Production in Vermilion Field is 13,733 bbls. in March

Production of oil in the Vermilion field for March totalled 13,733 barrels but included in this was some produced in February but not reported for that month. February production was given as 9,975 barrels. Production for March 1946 was 11,644 barrels.

Natural gas burned in March showed a decided seasonal decline from that consumed in February. March readings dropped to 12,784,000 cubic feet as compared to 22,067,000 cubic feet the month previous. It was also a big reduction from March of 1946 when 20,080,000 cubic feet was used, indicating that March of 1946 was a much colder month than the March of this year.

Parade Launches Cancer Campaign

Led by the Calgary Highlanders' pipe band more than 200 nurses in uniform paraded through downtown Calgary last Saturday to mark the official opening of the Dominion-wide campaign of the Canadian Cancer society. The striking group moved east on 8th Avenue to the west side of the Bank of Montreal where the campaign was officially opened by Premier Manning. In warmly commending the campaign to the citizens of Alberta, the premier emphasized the importance of detecting symptoms of the disease early. He paid tribute to the splendid work of the Cancer society.

Other speakers included Alexander Calhoun, president of Alberta division of the society, who pointed out the society had originated in Calgary; Dr. Charlotte Whitton, C.B.E., famous welfare worker; Dr. W. H. McGuffin, who praised the pioneer work of Dr. J. S. McEachern, and Ald. F. R. Freeze acting for Mayor Watson. A. M. Cairns was chairman.

Wildmere Winks

Our deepest sympathy is extended to Mr. and Mrs. A. Turner and family in their sad bereavement on the loss of their son and brother. Some people live to write big books, others only a few pages until God calls them to close it and go to their well earned rest. Such was the case in this boy's life. He will be greatly missed in Woodvale and Battleview where he resided.

Wildmere W. I. met at the home of Mrs. Robert Martin on Wednesday May 7th with 10 members present. Roll was answered by naming your mother's birthplace and any amusing story about it. 10 filled "housewives" were handed in. The resolutions to be given at Calgary W.I. Convention were reviewed so our delegate would know which to support. Topic on Canadian industries, Mrs. Wallington chose the pulp and paper industry. Until one delves into these subjects we never know just how huge and important they are. Mrs. Wilson had the social which was won by Mrs. Whitlock. Johnny Jump Up was won by Mrs. Wm Garnett Jr. It was also decided that old woollens would be sent to have blankets made. These to be sent in July so anyone interested can come in with us. Next meeting at Mrs. Wm. Steele's on June 4th. Roll call "Why I Enjoy the Farm". Topic—Household Economics given by Mrs. Whitlock. Social Mrs. Martin. After the meeting closed Mrs. Martin served a very tasty lunch.

We are all very pleased to hear that one of our local boys in the person of Alex Smith is now Professor Smith at the University of Alberta. Alex gave up his law work to join the teaching staff at the University. We wish him every success in his new duties.

Seeding is going ahead although it is quite a lot later than a year ago. All one hears are tractors humming early and late these days as the farmers strive to get the precious seed into the ground. May old Mother Nature repay them this fall for all their long hours of work.

How many recognized one of our former neighbor girl's picture on the news of the world page of last week's "Standard". It was Ardis Shane formerly of Thorncliffe district taken at Beaverton, Ontario, where she is teaching school this year.

Mrs. Aubrey Rendell returned home on Friday May 9 from England where she has visited since last December. While the writer did not have very long to talk with her she told us she had spent two days with Mr. and Mrs. Mattes (nee Evelyn Howard) of New York. They met her at the boat and took her to their home. Evelyn sends best regards to the folks back here in Wildmere. Mrs. Rendell also had a letter just before she sailed from Mrs. Gilholme who is also in England visiting. Mrs. Gilholme was ready to return to Canada. The sister she went to visit had taken a stroke just before she got there and was unable to talk to her so that was sad; when they went to see Mr. Gilholme's mother they could only get so far then they had to get out and walk as it was in the flooded part of [illegible].

We are very sorry to hear our Bowtell scribe is not at all well and hope a few months rest will see her fit and in good health again.

On Sunday Laurence Graham took the writer and family over to Mr. Van Wageningen's of Woodvale but they were in town attending Mr. Turner's funeral; Laurence was billeted in a town in Holland that these folks know and they have wanted him to come over and have a chat. We'll come again folks. On our way home we called in for a short visit with Mr. and Mrs. Wm. Steele and family.

We are unable to tell you this week folks about our first radio but promise that for next week for sure. With fast time the mail man may be here earlier.

Mr. Carl Heckbert of town was an early caller at the Wallington home on Monday morning. Jimmie's [illegible] insurance had expired and he did not know it. That's the kind of interested insurance man we need.

"GREEN ACRES"

OVERCROWDING OF CHICKS

Our Poultry Commissioner C. W. Traves states that over 2,800,000 baby chicks were sold up to March 21st. This is an increase of 20% and it is likely that many producers will not have sufficient quarters. This will result in over crowding on farms where additional space was not provided. Crowding of chicks is sure to result in trouble. Coccidiosis is one of the diseases which occurs with over crowding. Quick action must be taken as soon as chicks become listless and bloody diarrhoea is noticed.

EXTENSION COURSE

All this week until Saturday I have been attending a course of instruction on extension work at the school of agriculture. Special instructors have come from Washington, D.C., Manitoba and [illegible].

On Saturday I hope to get rid of all the forage crop seed now on order. Will everyone please get their seed on Saturday.

TARTARY BUCKWHEAT

Last week a large quantity of seed oats was sold as seed in this district with a considerable percentage of Tartary Buckwheat therein. The farmer concerned arranged to either take the seed back or to have it ground for feed. This weed is a serious menace to wheat growing areas as it cannot be cleaned out of market grain or seed. Your D.A. will be glad at any time to co-operate in stopping the sale of seed containing weed seeds such as Tartary Buckwheat which are a menace to grain farming.

HOG PRODUCTION

There is an old saying that the time to go into something is when everybody else is getting out of it. How true this may be of hogs no one can say. Britain needs more bacon and that gives us a market. Another point as brought out by A. J. Charnetski, Provincial Live Stock supervisor, is the fact that the keen demand for coarse grains cannot last forever and some time soon grain will have to be fed on the farm where it is grown.

OLLI BARLEY

To date 16 carloads of Olli barley have been distributed to approximately 500 farmers in this district. It is doubtful if everyone realizes what they have. This is an early variety which has proved out as the best known means of cleaning up wild oat infested land. But it is not efficient as a clean up crop if sown in May. Best results can only be obtained by cultivating to destroy two crops of wild oats and then seeding the barley around June 10th-15th. Have you failed to use your Olli barley in the right way?

FREE TREES

On Saturday at 4 p.m. some trees from the Provincial Forestry station at Oliver will be distributed. Anyone wishing to get a few trees for immediate planting should leave an order at the D.A. office any afternoon this week. Kinds available are Spruce, Pine, Oak, Ash and Elm. Also there are a quantity of cuttings of willows and Northwest poplar.

E. H. Buckingham, D.A.

WOODVALE

With the leaves appearing on the trees it looks more like spring and the countryside is taking on that fresh look that makes it a delight to travel around and admire the scenic beauty in the hills. Let's hope that the cool winds will soon cease and we can all go ahead full speed with the seeding and garden work. The many sharp frosts lately did quite a lot of damage to the just uncovered roses and more tender perennials.

Our belated but very best wishes for a happy married life to Mr. and Mrs. Allan Potter. We must have been dreaming that we had extended them in this column before this date!

Mrs. M. Watson's health is much improved and so our next Red Cross meeting will be at her place on June 6th.

Several neighbors went over to congratulate Mrs. Hean on her 50th birthday but some left hurriedly afraid of getting wet when the first thunder storm of the season broke loudly overhead. It brought no rain here however.

Fla Hean through the kindness of the Martin Sette family was able to spend the week end home from Van[illegible].

The [illegible] were [illegible] varied last week when a crowd of young folks arrived at their place in [illegible] They must have had [illegible] all [illegible] of Halloween tricks were [illegible] We hope for future [illegible] [illegible] newcomer [illegible] out of the house [illegible]

We are glad to hear [illegible] Mr. Mrs. [illegible] [illegible] will be [illegible] able to come.

Work [illegible] school. When [illegible] house there.

People are very glad to have [illegible] school re-opened [illegible] Mr. Wm. Narish as the new teacher.

Softball is being played every [illegible] day again on the field at [illegible] place and it is hoped that as strong a team as last year will be put in the field for competitive games.

A great [illegible] family [illegible] their sympathy [illegible] bereavement and to pay their last [illegible] death two weeks after an appendix operation came as a great shock. [illegible] a most comforting [illegible] lived the last [illegible] dale district [illegible] to school in Woodvale. His [illegible] and friendly [illegible] be missed by all who knew him.

The farmers [illegible] that [illegible] day before [illegible] seed [illegible] and thistle [illegible] this weed [illegible]

Miss Collins of [illegible] pleasant week at the home of Mr. and Mrs. [illegible] district.

Dan Ford is going to [illegible] truck that [illegible] days.

Douglas Young celebrated his [illegible] birthday on Monday. A number of young friends came over and after a ball game a weiner roast was enjoyed and to the accompaniment of an accordion, guitar and violin a sing song was held. The evening was a great success.

Barley Entries Require Correct Seed

Contestants in this year's National Barley contest are warned by the Contest Committee to make sure that they obtain pure seed of one of the recognized malting varieties. Of the 1,234 entries received last year a considerable number had to be eliminated because they were not growing a malting variety.

The varieties which may be grown for the contest are the same as last year, Montcalm, O.A.C. 21, Olli, and Mensury (Ottawa 60). These varieties are eligible for No. 2 C.W. Six Row and higher grades and are the malting varieties eligible for western Canada.

The Contest Committee in its book of instructions, which contestants may obtain from their nearest elevator operator or local agricultural representative, this year has recommended varieties most suitable for each province of the western division. For Alberta they are: Montcalm, O.A.C. 21 and Olli.

Refresher Course in Mun. Administration

The ninth annual refresher course in Municipal Administration is to take place at the University of Alberta from June 16th to June 21st.

The course will be under the direction of the Department of Extension, acting in co-operation with the Alberta Association of Municipal District Secretary-treasurers and the Department of Municipal Affairs.

Attendance at this course is open to all secretary-treasurers, assistants, councillors and other officials of rural and urban municipalities.

Many Farmers of Alberta Take Loans

UNDER FARM IMPROVEMENT PLAN

During 1946, 12,986 farmers obtained loans totalling nearly $10,000,000 under The Farm Improvement Loans Act. A report covering the first full year's operation of this Act was tabled in Parliament by the Minister of Finance, Hon. Douglas Abbott.

Loans are made through the outlet branches of the chartered banks for the improvement and development of farms and for the improvement of living conditions on farms. The interest rate is 5% simple interest per annum, and loans may be made for periods up to ten years. The legislation aims at assisting particularly the average farmer who in the past has not always been able to obtain bank credit for farm improvement purposes.

Farm implements and farm trucks account for $7,498,247 of loans made during 1946. These loans represent an actual sales volume of approximately $12,500,000. From information available it is reasonable to assume that practically all farm implement sales in Canada requiring financing are now being financed either through loans obtainable under The Farm Improvement Loans Act or through regular bank loans. The result should be a substantial saving to the farmer not only in the purchase price of his farm implements but also in finance charges and interest rates previously prevailing for this type of financing.

Included in the total are loans to 1,094 farmers to clear and break an estimated 50,000 acres of new land, mostly in the pioneer sections of western Canada. Loans for foundation and breeding stock accounted for 203 loans totalling $190,237.

One of the most important classes of loans is that for the construction, alteration and repair of farm buildings including farm dwellings and separate houses for farm help. As the supply of material and labor becomes more adequate, it is expected that loans for these purposes will be greatly expanded.

As shown in the following table, the Act has been particularly successful in the three Prairie Provinces — Manitoba, Saskatchewan and Alberta:

Alberta	4,796	$3,390,115
Sask.	4,075	3,140,127
Manitoba	1,936	1,297,539
Ontario	1,443	1,260,371
Br. Columbia	167	243,790
Quebec	196	146,620
Nova Scotia	98	85,517
New Bruns.	62	34,841
P. E. I.	3	4,880
TOTAL	12,986	$9,880,145

Low Rail Fares for Victoria Day

WINNIPEG.—Special railway fares for the Victoria Day holiday are announced by Wm. Stapleton, passenger traffic manager, Canadian National Railways. The low fares, which will be good between all stations in Canada, are based on the one way fare and one third for the round trip. Tickets will be on sale May 22 until 2 p.m., May 25. Tickets will be good to leave destination not later than midnight Monday, May 26. If there is no train service May 26 tickets will be good to return up to midnight Tuesday, May 27.

VERMILION AGRICULTURAL SOCIETY

Tenders for Refreshment Concessions

TENDERS are invited from organizations or individuals for the following refreshment concessions for the three days of Vermilion Fair, July 24, 25 and 26.

(1) Soft drink and ice cream concession in the area between the grandstand and race track.
(2) Soft drink and ice cream concession in the booth located beneath the present grandstand.
(3) Lunch and hot dog concession in permanent booth located about thirty feet south of grandstand.
(4) Dining hall concession in dining hall building.
(5) Lunch concession in new booth to be provided in proposed grandstand addition.

Tenders to close at noon May 21st, 1947, the highest or any tender not necessarily accepted. Tenderers may prefer tender for one or more of the above concessions. Mark all envelopes "Tender for refreshment concession" and mail to

S. C. Hockbert, Secretary-Manager, Vermilion Fair, Vermilion, Alberta.

VEGREVILLE SCHOOL DIVISION No. 19 — Vegreville, Alberta.

Tenders for School Houses

Separate sealed tenders will be received by the Board of Trustees of Vegreville School Division No. 19 at the Divisional Office up to noon of May 29, 1947 for the following school buildings:

S.W. 15-52-8-4: Two-room frame stucco, Plan No. ENS 14-46. Nearest station: Vermilion, 16 miles South, 3 miles West, all on gravel highway.

N. E. 24-51-11-4: One-room frame stucco, Plan No. CH 22-39. Nearest station: Innisfree, 3 miles North, 2 miles East.

Separate tenders are required as follows:

(a) Building construction.
(b) Hot-air heating system.
(c) Septic toilets.

Plans and specifications may be obtained from S. Hinton, Chairman, R.R. No. 2, Mannville, phone R1506, or from the Secretary-Treasurer, on payment of a deposit of $5.00. Plans must be returned within 24 hours and deposit will then be refunded. A marked cheque for five per cent of the amount of the tender must be enclosed with each tender. No tender will be considered without this cheque attached. The lowest or any tender will not necessarily be accepted.

D. W. Kennedy,
Secretary-Treasurer,
Box 119, Vegreville, Alberta.

Thirty-two Years Ago Today

Interesting Items Gleaned from the Files of the Vermilion Standard
32 YEARS AGO TODAY — 1915

May 12th, 1915

The Cunard liner Lusitania was sunk without warning by a German submarine off the Irish coast May 7 with an appalling loss of 1350 lives.

Choice steers were bringing 7¼c per pound and prime hogs 6¾c.

T. A. Marris was having a clearing off sale at his farm in the Maughan district.

It is feared that Colin Cattley, the well known rancher from the Battle River district south of Vermilion has been lost in the sinking of the Lusitania. His partner, Soren Sorrenson, was among those saved. The two men, among the largest cattle and horse ranchers in this area, were making a trip around the world together.

Sixteen Years Ago Today

May 14, 1931

Hon. R. G. Reid and Hon. O. L. McPherson, minister of public works, were visitors to Vermilion and district and were guests of the Board of Trade at a banquet.

The hospital board decided to landscape the hospital grounds and S. C. Hockbert and W. J. Elliott offered to supervise the work.

Anniversary Services at Marwayne Church

MARWAYNE. — Thirteenth anniversary of the United church in Marwayne was observed when congregations from the three points on the field, Marwayne, Dewberry and Riverton met in the Marwayne church.

The service was conducted by Rev. B. Richards, with Rev. Hart Cantelon of Vegreville as guest speaker. Mr. Cantelon took as his subject "The Greatness of our God." Special music for the occasion was given by the Marwayne and Dewberry choirs.

The church which was beautifully decorated with flowering plants, was filled to capacity. A social hour followed the service with members of the Ladies' Aid as hostesses assisted by the girls of the choir.

ISLAY

The night for the travelling picture show has been changed to Tuesday.

Well, the 8 cent chocolate bar has been heard of quite loudly—now, maybe the children won't like this bit of news—The Federal government and the Canadian dentists are likely to carry out a campaign, and if it goes, there won't be any candy treats for growing boys and girls. "Canadian dentist warns against too much sugar" is a heading in a certain magazine. Dr. Stewart MacGregor of Toronto says they hope to educate parents to give children only the sugar they require in their diet. So who knows 'maybe the campaign has begun'.

Jim Hepburn has purchased the old garage and the house of the old Farrel estate and quite some changes are being made by him.

Everett Inman also is making many changes to his house.

The Imperial sign has been moved down to the Inman garage.

Tom Macdonnel had a well dug [illegible] the [illegible] pump has plenty of water [illegible] No hauling water now.

Jim Carey is to have an office of his own. He has purchased a building from C. C. Mitchell and will move it.

Noticed Harry Young putting a new picket fence on the line between his property and C. C. Mitchell's. Just to keep the children home [illegible] Harry?

We saw some beautiful shell work done by Mrs. Ott. Just the thing for gifts, we'd say. Really nice.

Ralph Anderson's horses ran away on the harrows but no one was hurt. Too many oats for a young colt.

Mrs. A. Gillies is spending a week in Kitscoty—Bill is helping put in the crop with his father and washes the dishes too.

Chatsworth Chatter

Wheat seeding is in full swing with tractors going day and night. [illegible] moisture has dried up rapidly and there has been some soil drifting due to winds. Hardly a day goes by without wind rising in the morning and increasing in velocity through the day, reminds us of the 'thirties'.

Attend Mannville Musical Festival

April 25th was a big day for the school children as they travelled to Mannville to the Musical Festival. Miss Monaghan and the [illegible] took a carload leaving here at [illegible] a.m. Participants from Chatsworth were Dickie Panter and Johnny [illegible] kash, Gr. I solos; Kenny [illegible] Gr. 3 solo; Bobbie Squires [illegible] Alice Thompson and Julia F[illegible] intermediate grades duet; [illegible] Thompson Gr. 7 solo. As an additional feature the Chatsworth Band consisting of Julia F[illegible] piano, Matt Farkash [illegible] Farkash violin, Jack [illegible] guitar rendered a couple of [illegible] the close of the day's session [illegible] again during the evening program when they were called back [illegible]

[illegible]

Former Islay Lady Dies at Omemee, Ont.

OMEMEE, April 23.—The funeral of the late Mrs. Ada Wilson was conducted by Rev. V. E. R. Zufelt in Trinity United church on Monday afternoon. In her 68th year Mrs. Wilson, who has been residing on George St., Omemee, with her sister, Mrs. F. Stewart, suffered a severe stroke on April 16 and died Friday evening without having regained consciousness.

Born in Verulam township near Fenelon Falls on Oct. 17, 1879, she was Ada Letitia McGee, daughter of the late Mary Ann Downer and George McGee. She lived in Verulam township until her marriage to George H. Wilson in 1904. Following her marriage Mr. and Mrs. Wilson lived at Islay, Ont., for two years, when they moved to Islay, Alta., where they lived until Mr. Wilson's death in September 1928. In October 1939, Mrs. Wilson moved back to Ontario and had lived since with her sister, first in Cavan township and for the past three years in Omemee, where they have made a great many friends.

Formerly a member of the Methodist church, Mrs. Wilson has, since church union, been an active member of the United church, in Alberta and Ontario. Throughout the years she has been in Omemee she has been a faithful worker in W.M.S. and W.A. She was also a member of the Omemee branch of the Women's Institute.

One son survives, Mr. Lorne Wilson of Islay, Alta., who arrived in Omemee on Sunday morning. She is also survived by one granddaughter, Miss Patricia Wilson of Islay, Alta.; three sisters, Gertie (Mrs. Abrams) of Islay, Alta., Vivian (Mrs. H. Bradburn) of [illegible] and Florence (Mrs. Stewart) of Omemee, with whom she resided; three brothers, Wellington McGee of Cavan, Edgar McGee of Lindsay, and Harry McGee of [illegible] One sister, Annie (Mrs. W. Johnston) predeceased [illegible]

[illegible]

Flower bearers were Messrs. Alvin McGee and Melville McGee, [illegible] Morris McGee and Ed Wal[illegible] of Ida and H. Davis and L. Peacock of Peterborough.

Burial was made [illegible] cemetery at Ida.

200 Scholarships For New Alberta Teachers

$200.00 EACH — MOVE TO RELIEVE TEACHER SHORTAGE

List Requirements for Scholarships

Requirements of students applying for the $200 teacher-training scholarships offered by the Alberta department of education were announced recently. Hon. R. Earl Ansley, minister of education announced during the session 200 such scholarships would be offered students as a step towards relieving the serious teacher shortage in Alberta.

Total of 175 scholarships will be available to students enrolling in the one-year program leading to junior elementary and intermediate school certificates. 25 will be offered the students enrolling in the first year of the two-year program leading to senior elementary and intermediate school certificates.

The scholarships will be available to candidates who have met the full matriculation requirements of the faculty of education.

They will be awarded in order of merit if there are more than 200 canmerit if there are more than 200 canqualified students, it is proposed $100 scholarships be granted students having a high school diploma, but who do not meet full matriculation requirements.

Candidates must be British subjects and Alberta residents, and 18 years of age at the time of qualification for a teaching certificate. Students will not be awarded a scholarship if, in the opinion of the faculty of education, their personality would not make them acceptable candidates for teaching. Students accepting the scholarship must sign an agreement undertaking to teach in Alberta for at least three years, or agree to refund a proportionate amount of the scholarship.

Application forms are available from the department of education, and must be returned before Aug. 1, to Dr. W. H. Swift, deputy minister.

Information relative to courses and admission requirements may be obtained from the faculty of education, University of Alberta, Edmonton.

—Edmonton Journal.

Bowtell Bulletin

Everybody is busy on spring work these days so there won't be much news of interest for awhile.

Mr and Mrs F Risdale and family and Daddy Woodruff were supper guests Sunday at the writer's home. Mr McFarland is helping put in the crop at the Walker farm. We are sorry to report that Grandma [illegible] is ill and that Mr DeLeeuw is a patient in the Lloydminster hospital. Mrs T Payne is around again after being confined to her bed quite ill. Mrs Harrison was a dinner guest Thursday last at the home of Mrs Schoof and Mrs. Repp visited the same day with Mrs McClellan. Jack Morrison, Robert Repp and Kenny Risdale were noticed at the [illegible] dance at Islay.

DUCKS MIRED IN OILY WATER

The writer is sorry to see so many ducks dying a slow death mired in the oily waters at Borradaile. It seems a pity that something cannot be done to remedy this.

Digging the graves has again commenced on Mr. Pierman's [illegible] quarter.

The Busy Bee meeting held at the home of Mrs Bert Moses was attended by 18 members and 2 visitors, the latter being Mrs. Weller and Mrs. Knutson. It was decided to donate $25 to the cancer fund making a total of $[illegible] to be turned in. Mrs. [illegible] won the draw. It was decided to have a dance June 20th. Cigarettes are being sent to Harry Perkins during his stay in the hospital, and a basket of fruit to Mr. Sample who has been ill for some time.

The next Busy Bee meeting will be held at Mrs. McGinnis. Lunch served by Mrs. Schoof and Mrs. Sherwood.

Jack Morrison shot a coyote recently.

Refresher Course in School Administration

The [illegible] refresher course in School Administration will be held at the University of Alberta [illegible] June 16th and 19th.

This course is [illegible] the Department of Extension of the University in co-operation with the [illegible] School Trustees' Association, Alberta Divisional Secretaries' Association and the Department of Education.

Among the subjects to be [illegible] are: The Relationship between Divisional Boards and [illegible] school [illegible] of [illegible]

What about that Label date?

WEDDING BELLS

KOBYLKA—SENYK

Wedding bells rang out at the St. George Greek Catholic church at Manly, Alberta, on Saturday April 19 at 10 a.m. when Mary Senyk, only daughter of Mr and Mrs. Peter Senyk of Manly, became the bride of Peter J. Kobylka, eldest son of Mr and Mrs. John Kobylka of Derwent. Rev. J. G. Slota, O.S.B.M., of Edmonton officiated at the ceremony.

The bride was dressed in a beautiful white satin dress sequin trimmed and with long train. Her veil was full-length and dotted with [illegible]. She carried a bouquet of white and pink roses.

The bridesmaid was Miss Nancy Wojton of Edmonton who wore a long mauve taffeta dress. The maids of honor Miss Sophie Goyan of Carvel was dressed in blue silk and Miss Jennie Proch of Carvel in a yellow georgette dress over taffeta.

Attending the groom were Mike J. Kobylka of Derwent, brother of the groom, Dmytro Jaliski of Carvel and Fred Comchi of Carvel.

Following the ceremony in the church the guests partook of a delicious wedding dinner at the home of the bride. A three-tiered wedding cake centred the bridal table.

In the evening in spite of the rain and bad roads, a very large crowd enjoyed a fine time at a wedding dance held in the "old red barn."

The groom lived in the Island Hill district near Vermilion for the last two years but he and his bride will now make their home in the Manly district of Carvel located some 17 miles west of Edmonton.

Mannville to Raise Funds for Memorial Scholarship Fund

MANNVILLE—Board of trade had as its guest speaker recently R. H. Settle, past president of the Edmonton Chamber of Commerce who spoke on the memorial scholarship fund, the purpose of which is the establishment of a war memorial to provide scholarships, grants and other forms of financial assistance for the university education of sons and daughters of war veterans domiciled in Alberta.

A. F. Williams, president of the board of trade was appointed chairman of the local committee to raise money for this fund and a drive will be made from May 20 until the end of the month.

Trends In Immigration

INTEREST IN IMMIGRATION has increased greatly since the war, not only in Canada, but in many countries. Six years of warfare left the necessity of rebuilding many thousands of homes, factories and stores in those areas which had been laid waste. Elsewhere, because of the almost complete direction of manpower and materials to meet the requirements of the war, there was built up an accumulated need for the many commodities which were not produced during the war years. A third condition, putting added demands on production is the tendency towards the raising of general living standards and a consequent increased demand for many products. All this has created unprecedented needs for skilled workers, and has had a marked effect upon the post-war attitude toward immigration.

* * * * *

Labor Office Issues Report

The International Labor Office recently issued a very interesting report on immigration in which an analysis was made of present trends in this matter. The conclusion is drawn that we are unlikely to again see any great immigration movements such as took place between Europe and this continent early in the present century. It appears that while many countries are now interested in receiving immigrants they are interested in taking in only small and selected groups, usually with preference for skilled workers who fill some specific need for labor in the country which they enter. This is described by the International Labor Office as a short-term solution which is being used by many governments while more permanent policies are being formulated.

* * * * *

Policy Changes Are Predicted

It is pointed out by the writer of the report, that although present policies will in all probability be revised there will be no vast movements of population such as have taken place in the past, since there are no longer many great unoccupied areas to be settled. Mexico and South America are now the only places which are open to settlers in large numbers, and in South America there is a marked preference for skilled technicians. Australia and New Zealand have at present restricted immigration regulations and South Africa, although she has room for many new citizens, will not admit unskilled workers. The last area from which immigrants may be sought in any number appears to be Italy, and Britain, Belgium, France and Sweden are securing workers from there to help with the gigantic post-war tasks. From all this it is clear that policies on immigration have changed in recent years and that the present tendency is toward the movement of small and selected groups rather than the mass migration of earlier times.

TEMPTING HIS FEATHERED FRIEND — Joseph "Brownie" Bond, eight-year-old Quaker city schoolboy, of Philadelphia, is shown holding a cracker in his mouth, invitingly tempting his pet pigeon, "Pee-Gee", to help itself to a nibble. "Pee-Gee" was awarded first prize as the "friendliest pet" at the Germantown boys' club pet show.

Alberta Pilot Tests British Jet Planes

HUCCLECOTE, Glouc., England.—Successful test flying is "just a case of watching your P's and Q's—in other words, learning to walk before running," says Canadian-born W. A. Waterton, one of Britain's outstanding test pilots.

"The cause of most accidents in test flying is that people become too impatient," said Waterton in an interview at the Moreton Vallance Airdrome, one of the fields over which he puts jet aircraft through their paces for the Gloster Aircraft Company.

Six feet tall, broad-shouldered and unmarried, Waterton at 30 knows what it is to travel almost as fast as sound. Last September, at Tangmere, Sussex, he travelled at 614 miles an hour when a three-man R.A.F. speed team aimed at a world record. It is held by Group Capt. E. M. Donaldson, who reached 616 miles.

Last January, however, Waterton [illegible]pped a jet-propelled plane from Paris to London—206 miles—at 618.4 miles an hour.

Born in Edmonton, Waterton was taken to Camrose, Alta., when only two years old. After attending local schools he completed his education at [illegible] military College, Kingston, [illegible] he was welterweight boxing champion. He graduated in 1937, and came to England to join the R.A.F. two years later when he was unable to win a commission in the Canadian Army.

His service in the R.A.F. is commemorated by a four-inch long sandy mustache that takes a slight curve around his nostrils. "It used to [illegible] to here," [illegible] said, sticking a finger just under a cheekbone.

He became a member of the 242 Fighter Squadron, largely comprised of Canadians, covered the Dunkerque evacuation and fought through the Battle of Britain. When he was demobilized in October, 1946, he held the rank of squadron-leader. But a week later he was back in the air, testing for Gloster.

Although he says "there's nothing in Canada for me in my line," Waterton served a spell as instructor in the Dominion during the war. He was stationed at Penhold, Alta., and Swift Current, Sask., before returning to England to join the R.A.F. substratosphere unit testing Allied and German planes.

The R.A.F. has offered him a permanent commission but right now he's interested in developing jet aircraft.

MAJ.-GEN. LARSEN TO LEAD EXPEDITION

LONDON.—Maj.-Gen. Hjalmar Riiser Larsen, who will lead the forthcoming Norwegian - Swedish - British expedition to the Antarctic, described the project in an interview as "a combined operation in the spirit of the United Nations."

The expedition is scheduled to start late in 1948 and will cost about £100,000 ($400,000).

Larsen, explorer and wartime chief of the Norwegian air force, is visiting Britain to discuss plans for the expedition with British scientists. He expressed belief the day may come, "probably in the far future," when the 5,000,000 square miles of Antarctic territories will be "a vast, fertile and habitable continent."

He based this theory on climatic changes believed to be taking place at the South Pole.

The expedition will consist of 150 members, most of them scientists from the three countries backing it.

Larsen will stay in Queen Maud Land from November, 1948, to January, 1949, and a group of 12 scientists will stay another nine months to study meteorological conditions.

Landlady Uses Silent Collector

Wall Street Journal tells us there is a lady operating a boarding house down in Alabama who has a simple, silent, but most effective method of collecting money from delinquent boarders.

A new arrival at this lady's establishment noticed at supper that one of the boarders had one fork too many beside his plate, and seemed to be acutely embarrassed over the circumstance.

"Why is he so disturbed over the extra fork?" the new boarder whispered to the gentleman seated beside him.

"Oh, that's how the landlady collects past due board bills," was the laughing explanation. "When she puts that extra implement beside a plate it simply means 'fork over'."

BRITISH LAW IS SURE PROTECTION

The London Daily Mirror says: In this [illegible] country a policeman [illegible] arrest a man or woman unless he gives the true reason for it. He is not entitled to keep the reason to [illegible] [illegible] must he give a [illegible] which is not a correct one. The [illegible] who does this may be liable for false imprisonment. This ruling was given on behalf of the [illegible] Lords recently by Viscount Simon. Lord Simon said that in this country a person was entitled to his freedom and was only required to submit to restraint if he knew in substance the reason.

ONE ADVANTAGE

Advantage of old-fashioned ways is sometimes demonstrated in modern life. Thus, the handsome cab of Victorian times located the driver where it was much harder for the fare to hit him on the head prior to a robbery.

Famous Mosquito Aircraft Abandoned

OTTAWA. — The Mosquito, the once spectacular, all-wooden jack-of-all-trades of the Wartime Empire Air Forces, has been [illegible] as an active aircraft in the post-war R.C.A.F.

A victim of maintenance problems of the Canadian climate and of its [illegible] trickiness in handling, the "Mossie" thus [illegible] celebrated Spitfire as a Canadian has-been in the face of aeronautical advances that will make the jet-propelled Vampire the basic fighter plane of the R.C.A.F.

[illegible] great bombing counterpart, the Lancaster carries on as a peacetime operational aircraft. The Spitfire had not been counted on in post-war planning but the Mosquito had, for auxiliary if not for active squadrons.

R.C.A.F. officials [illegible] various reasons for disposal of nearly all their Mosquitos.

For one thing, their trickiness probably caused more wartime fatalities in takeoffs and landings than in actual combat for their 2-man crews.

SMUTS 50 YEARS WED

CAPE TOWN. — Prime Minister Smuts, 77 the father of six children, celebrated his golden wedding anniversary with his wife recently. The Parliamentary caucus of the United Party, of which he is the leader, presented him with a wood and gold casket.

The modern cranberry has a high acid and low sugar content, and is rich in iodine, vitamin C and other food values.

They were entertaining the vicar to lunch, and the guest remarked to the small boy of the house: "Don't you ever say prayers before your meals, my child?"

"Oh, no," said the child. "Dad says our cook's pretty reliable."

* * * *

"Portah, portah! Come heah at once!" cried an English woman from a train window to a Scots porter in that aggravated accent that always seems to put a Scotsman's back up.

"What d'ye want?" asked the porter.

"Portah, I've lost my luggage."

"Then," he said, turning round and strolling away, "for what wad ye be wanting a porter?"

* * * *

"May I print a kiss on your cheek?" he asked.

She nodded her sweet [illegible].

Then [illegible]—

And [illegible]—

They printed a [illegible].

Teacher: "Who was the greatest of all inventors?"

Student: "Edison."

Teacher: "Why?"

Student: "He invented the phonograph so people would sit up all night and use his electric lights."

A golfing novice had driven his ball along the fairway, but unfortunately it disappeared down a rabbit hole.

"Which club will you take now?" asked his [illegible] with a sly smile.

"The [illegible] sighed wearily as he scratched his head in doubt. Then at last he [illegible]: "[illegible]?"

* * * *

Two old settlers, confirmed bachelors, sat in the backwoods. The conversation drifted from politics to cooking.

"I got one o' [illegible] there cookery book once, but I never could do nothing with it," said one.

"You've hit it. Every one of them recipes began in the same way—'Take a clean dish.' And that settled me."

* * * *

Five-year-old William had been taught that Sunday is not a day for play. One Sunday morning his mother found him sailing his toy boat in the bathtub.

"William," she said, "don't you know it is wicked to sail boats on Sunday?"

"Don't get excited, Mother," he replied. "This isn't a pleasure trip. This is a missionary [illegible] going to Africa."

She was pretty and ambitious and had studied the matrimonial problem to a nicety.

"Yes, I suppose I shall wed eventually," she said, "but the only kind of masculine romance that will suit me must be tall and dark, with classical features. He must be brave, yet gentle. He must be strong—a lion among men, but a knight among women."

That evening a bow-legged, lath-framed, obvious youth, wearing flannel bags and smoking a cigarette that smelt worse [illegible] a burning boot, rattled on the back door, and the girl knocked four tumblers and a [illegible] dish off the sideboard in her haste to let him in.
